

# Chapter: 3133

This has also been recognized by Hydra and War Bear Kingdom!

Big compliments to them!

This is a great gift for them.

Hydra keeps them alive is the greatest reward for them.

What's more, the resources that were deceived were given to them.

How can this not be exciting?

Live well, not to mention, you can become stronger!

They even explained the process of how to deceive Ye Junlin in detail to the people of Zhanxiong Nation and Hydra.

This makes the other party very happy too.

To match their acting.

The War Bear Kingdom once again issued a statement to the world – ignoring Ye Junlin's warning, but also to wipe out the organization of revenge Hydra.

In this way, it is even more solid that this organization is on the same front as Ye Junlin.

No one would have the slightest suspicion that this organization was lying to Ye Junlin.

Including Ye Junlin.

They also have to cooperate with each other to enjoy the process of deceiving Ye Junlin.

Such a result made the organizations of the revenge Hydra excited for a while.

“You don't know, Ye Junlin was tricked by us! I almost couldn't help laughing!”

Twenty-three laughed loudly.

“Yeah, you almost laughed, and I reminded you!”

said another.

No. 23 smiled and said, “It's okay, even if I laughed out loud, Ye Junlin wouldn't react.”

“Hahaha... It's all to this extent? Then he's really stupid now, how can he deceive him? It's really laughing at me!”

The others were taken aback.

“That's right, it's so easy to deceive now! He completely treats them as his own, as family! He really has no reservations about us!”

...

Everyone was excited that they deceived Ye Junlin.

Not only did he enjoy the feeling of playing with Ye Junlin in the palm of his hand, but he was also about to defraud a large number of resources from Ye Junlin.

How can this be unhappy!

“Let's think about how else can you deceive Ye Junlin? Think about it! It's better to deceive him to the point of collapse!”

...

Now deceiving Ye Junlin like this, everyone is not satisfied.

I have to think of the law to deceive Ye Junlin again.

“I'm really looking forward to Ye Junlin knowing that he was deceived and knowing that everything was the face when we lied to him?”

“I'm really looking forward to it! Shouldn't he be pissed off?”

“If you want me, at least I'll be pissed to death!”

“The day when the truth is revealed must be super fun!”

...

Everyone looked forward to the moment when Ye Junlin knew the truth.

But how do they understand – it's them who don't know the truth!

They are being played!

It's them who have been deceived!

The clowns are them!

Everything about them has long been exposed, and all their plans, Ye Junlin, are known.

They all waited nervously for the next few days.

So is Ye Junlin.

The final reckoning is about to begin.

He is looking forward to the completion of the super god plan of the War Bear Kingdom soon.

The next few days are going to be hard to wait.

Mainly nothing to do.

After Junjun's poison was lifted, Ye Junlin had nothing to do.

But on this day.

The people of Zhenmo Division actually found Ye Junlin.

Four people came, three men and one woman.

It was the four Ye Junlin met on the Antarctic glacier that day.

Of course, Ye Junlin did not say that he had seen them before.

He just wanted to know what these people mean when they came to him.

It's no secret now that the Town Demon Division.

They have been in and out of Daxia normally.

There are many people or forces madly chasing them.

To be their lackey.

And after the existence of many Zhenmo Divisions, they began to choose some people with spiritual roots and bones.

That is, gods, or gods with potential.

It's good to take it back and teach the magician's qi refining technique.

They are very popular now.

The main reason is that they are powerful, and the gods are wantonly crushed by them, not to mention other people.
