

Chapter: 3134

But they suddenly found Ye Junlin.

This puzzled him himself.

What are they going to do?

After these people arrived, they reported directly to the door.

His aura was not concealed at all.

Press directly to come.

Jiao Tianyu and the others were short of breath in an instant, and even suffocated.

Doctor Dark and the others felt the same pressure.

These people around Ye Junlin are much stronger than ordinary gods.

But they were all suppressed by the momentum of others.

If it were other gods, it would be as docile as a little sheep.

They are not qualified to fight against other people's momentum at all.

Rough estimate.

The strength of these four people is similar to that of Huoyun Evil God.

The Huoyun Evil God obtained the quenching chain of aura because of practicing Ye Junlin's basic exercises.

How strong he is.

Everyone has known it.

As a result, a few random people came out of the Demon Suppression Division, just like the Huoyun Evil God.

And there are a lot of tricks hidden away.

Ye Junlin could feel that these people were still carrying some weapons.

The nature of these weapons is somewhat similar to "God's Tribulation".

Once you use these weapons, what are your trump cards.

They will be stronger.

"Hello, the king of the word side by side, you must also know that the Zhen Mosi really exists!"

"We've heard that you imitated the Zhen Mo Si to scare away the laboratory of the gods, so we won't introduce too much about the Zhen Mo Si!"

"We are from the North Pavilion of the Town Demon Division! My name is Xu Qingya! These are my senior brothers Xu Longri, Xu Hushan and Xu Langhai..."

These three senior brothers are all orphans and follow Xu Qingya's father's surname.

Ye Junlin looked at them and smiled: "You guys are polite!"

If it is impolite, it is estimated that Ye Junlin will be killed.

Xu Qingya smiled: "We have no grievances with the king of the word side by side, it is absolutely polite."

Doctor Dark couldn't help asking: "Then you came here for resources?"

Xu Qingya shook her head: "It's definitely not a resource!"

At this time, Xu Longri looked arrogant: "In your eyes, resources may be extremely important! In our eyes, it's the same thing! After all, it's easy to get!"

Xu Hushan also echoed: "Yes, you don't know anything about spirit stones and heaven and earth treasures at all! It's a waste to give them to you! Many heaven and earth treasures must be thoroughly cooked before they can get the best results!"

"And let me tell you one thing, to a certain extent, these heavenly materials, earthly treasures and spirit stones will no longer work! Or in other words, the richness will not be able to support a powerful level, you have to convert them into other things... said. , you don't understand either!"

"We don't want to know what your resource secrets are and where they come from. Anyway, they were definitely found in these forbidden places that you listed!"

"You can, and so can we!"

Xu Qingya's words shocked everyone.

For the first time ever, the secret of the resource was known.

Although the forces behind War Eagle Nation have long known, they don't know about Doctor Dark.

This is the first time someone has debunked the secrets of the resource in front of them.

Can you not be surprised?

Ye Junlin didn't find it strange.

In fact, real masters know how resources come from.

Sure enough, only those at the same level knew what was going on.

It's not at one level, maybe at a lower level it looks like a god like a demon.

A veil of mystery will be added.

But one level knows what's going on.

Very simple.....

War Bear Kingdom and the like also thought about how the resources came from.

How is it a secret, but isn't the resource in those places?

It cannot be fabricated out of thin air.

Mainly because they don't believe that they have the ability to come up with so many resources in the forbidden area.

But they already understood.

Ye Junlin was interested.

He looked at a few people and asked, "Then what are you here for?"
