1634

Half a month later, Omi and the four of them arrived at the depths of the True Beast Forest.

"Everyone should be careful from now on, we've entered the most core circle of the True Beast Forest, in this core circle, we may encounter a Green Rank 8 or 9 magical beast, which is equivalent to the Human Spiritual Healing Rank 8 or 9."

"Ah, such a strong magical beast."

"Well, but there aren't many magical beasts in the True Beast Forest that have reached green rank, so the chances of us running into them aren't great."

Just then, Omi's eyebrows furrowed as if he had discovered something.

"Young Minister, what's wrong?" Lu Yu Xi was busy asking.

Omi said, "Strange, Flying Cloud Sect Vice Patriarch Jiu Ji, he's not far from here, how come he's also here in the True Beast Forest."

"Brother, you haven't even seen others, how do you know that he's also in the core circle of the True Beast Forest?" Tang Huan was confused.

The reason why Omi sensed that Vice Patriarch Nine Jins was also here was because the other party was Omi's kui corpse.

Omi said to Tang Huan, Yan Xingyi, and Lu Yuxi, "I also sensed that there are so many strong people here, there must be something going on when so many strong people suddenly appear, in other words, this place is very unsafe."

"So, then, should we quickly withdraw?" Remember the URL .kanshu8.net

Omi thought for a moment and said, "I'll have my flying sword send you back to the Flying Cloud Sect, and I'll stay alone."

"Brother, don't."

"Be obedient." Omi couldn't refuse and said.

Yan Xinyi originally wanted to persuade something more, but seeing how determined Omi was, she couldn't say anything.

Omi immediately offered up a flying sword, which was Nong Xiaotian's from before.

Omi's mind moved and the flying sword instantly rose in size, then he said to the three girls, "You return to the Flying Cloud Sect first, this flying sword was sacrificed by me, it can send you back with my heart, and it's very fast."

"But you."

"Go up."

The three girls had to stand on the flying sword, Omi's mind moved and the flying sword flew up into the sky and disappeared into the distance.

Omi stayed alone in the core circle of the True Beast Forest, offering another flying sword and immediately flew off in a certain direction.

Not long after flying, he indeed saw a large group of people in front of him, the group of people guarding under a boulder, as if they were waiting for something. There were at least sixty or seventy people in this group, the strongest already at the YuanYing stage, the weakest also at the seventh or eighth stage of Spiritual Harmony, which was the level of the Nine Jins Vice Patriarch. The sixty or so people who were guarding it looked like they were divided into seven or eight factions, each of which was led by one or two YuanYing stage powerhouses. For example, at the moment, the faction of the Flying Cloud Sect had two YuanYing stage powerhouses guarding the front.

Omi was a little shocked to see so many strong men here, but Omi was sure in his heart that there must be some kind of treasure that was about to be born, which was why there were so many people guarding the place.

"What are they doing like idiots?" Omi's heart was dark.

In that group of people, Omi saw the Nine Jins Vice Patriarch, who was currently standing behind a YuanYing stage powerhouse, if Omi wasn't mistaken, that YuanYing stage powerhouse would be the Patriarch of the Flying Cloud Sect.

Omi was hidden in the distance, his body had immortal Qi for shelter, and the group's attention was focused on that big rock, so they didn't notice Omi's presence.

Omi immediately had a heartbeat and asked, "Nine Jins, what are you doing?"

"Omi, you, where are you?" The Nine Catties Vice Patriarch looked around internally while looking around.

"I'm asking you, what are you guys doing."

"We, we're waiting for the Stone Demon Fruit to be born."

"Stone Demon Fruit? What's this?"

"This is the fruit that the magic stone bears once every three hundred years, and anyone who takes it will be endlessly useful, with light spiritual power increasing greatly, or even rising several realms. Ten days ago, there was a vision of heaven and earth here, and all the nearby sects came."

"Oh, Stone Devil Fruit." Omi's heart coveted it, but of course, it wasn't very attractive to Omi, and something like rising several realms in a row was something that Omi could do with enough spirit stones. However, Omi wouldn't be too much, it was just that Omi, a person of the seventh stage of heart illumination, might not be able to grab it.

Omi asked, "How many Stone Demon Fruits are there every time a Stone Demon Fruit is born?"

"I don't know about that, but according to what people said in the past, every time they were born, there were about ten Stone Devil Fruits born."

"More than ten, that many."

"Yes, but the Stone Devil Fruit is ineffective for repeated consumption, so the requirement of our Feiyun Sect's Patriarch is to obtain at least three of them."

"After the Stone Demon Fruit comes out, will everyone go straight up and grab it?"

"No, after the Stone Demon Fruit is born, it will ripen in about two hours, after which it will fall off automatically. We can't just snatch the Stone Devil Fruit into our hands, or it will instantly turn to nothing, and we must let it fall into our hands automatically. So each of us can use our spiritual energy to attract it, and let the Stone Devil Fruit automatically choose to fall into our hands."

"I see, then in that case, wouldn't everyone be able to obtain the Stone Demon Fruit?"

"No. The stronger the spiritual power, the greater the chance of attracting the Stone Demon Fruit."

"So." Omi said in his heart, "This is a good thing for me, I use my immortal power to attract it, the Stone Devil Fruit will have the greatest chance of choosing to fall into my hands."

Omi prayed under his breath, and suddenly, Omi saw a mature woman standing behind the group of people, a strong infant behind him.

"Ah." Omi didn't pay attention just now, but after noticing it now, Omi was dumbfounded.

When the crowd looked for him, he turned around and that person was in the light.

"Thousands of extremities?" Omi didn't believe his eyes a bit.

Thought he might not have a chance to find Mu Qianji in his life, but what he didn't expect was that he would just inadvertently see the person who made him yearn for him.

Omi looked at the mature woman whose appearance was extremely similar to Mu Qianji, and his entire being was dumbfounded.

"Is she really Mu Qianji?" Omi's heart was dark.

It had been too long since Omi had seen her, so much so that, after Omi actually saw her, he suddenly felt very strange.

Right now, that woman who resembled Mu Qianji was standing behind a woman who was at the YuanYing stage, and Omi also discovered that the woman who resembled Mu Qianji was at the sixth stage of the Spiritual Harmony realm.

"It can't be Mu Qianji, if she was Mu Qianji, she couldn't have reached the Spiritual Harmony stage so quickly, according to the proportion of time in the Spiritual Realm, Mu Qianji was only twenty years ahead of me, so how could she have reached the sixth stage of Spiritual Harmony so quickly." Omi thought inwardly.
