Omi was filled with anger right now.

Omi never would have thought that he would have shown up that day and run away in front of Ning Baojun, but after he left, Ning Baojun still took it out on 300,000 innocent people.

"Phew." Omi exhaled deeply.

"Ning family, if I don't kill them all, I, Omi, am not worthy of being a man." Omi secretly swore, this Ning family was simply deranged and perfect without any humanity anymore.

Omi was busy asking, "The people who died in Tianbao City were all ordinary people?"

"Right."

"Are there any fairy tinkers?"

"I don't know about that, but some low-level immortal cultivators who didn't have time to escape are definitely there."

In his heart, Omi said, "Thousands of them haven't come to join me for five days, didn't she have time to escape?"

"Whew, no, I don't believe that Thousandfold could be killed so easily. Then why hasn't she come to join me in five days?"

Omi was going to look for it in Tianbao City. First URL m . kanshu8.net

At that moment, three men came in at the entrance of the inn and shouted, "Get me something good to eat, quickly, and then pack twenty portions to take away." The three men who came in were very tuggy.

The innkeeper panicked and ordered, as if he didn't dare to offend.

Omi quietly asked the owner, "Who are they?"

"The Ning family came to the One Heavy Sea to hunt down Omi's men."

"Uh, people from the Ning family." Omi's heart hummed, just in time.

Omi asked again, "How many Ning family men are there in Zhubai City?"

"I don't know about that, I've heard that there are dozens of them, and they all live in the Silk Bamboo House, which is a residence opened by the Ning family in the One Heavy Sea."

"Thank you."

Omi left the inn and headed straight to the Silk Bamboo Mansion in Zhu Bai City.

When Omi arrived at the Silk Bamboo Mansion, he stood in mid-air and saw at a glance that there were indeed more than twenty people living in the Silk Bamboo Mansion.

Among these twenty people, one of them was at the Exodus stage, and the rest were all at the YuanYing stage.

This time, the Ning family had sent to hunt down Omi, mainly two people at the Exodus stage were in charge of leading the team, one of them was Ning Baojun, and the other one was the one in the Silk Bamboo Mansion now. Ning Baojun was in charge of searching outside, while this one was in charge of searching in Zhu Bai City.

Right now, in the Silk Bamboo Mansion, in a hall.

"Ninth Uncle, why aren't we packed back yet, we're starving." An infant man touched his stomach and said.

"I should have known we'd go to the inn."

"Alright, what's the hurry, we're all Immortals, can't we even wait for a few meals?" The man who was called Ninth Uncle was reprimanded for a while, he was the strongest of the out-of-body stage, he looked like he was in the first stage of out-of-body.

"Ninth Uncle, I heard that Uncle Eight's side, they wiped out the entire Heavenly Jewel City, and now the rumors are all over Zhubai City that 300,000 civilians were killed."

"Hehe, some gryphons are just ants." That man who was out of the first stage laughed without a care.

"Ninth uncle, since eighth uncle and the others would exterminate Heavenly Jewel City, that means that they haven't found Omi ah, that's why they're so angry."

"Hmm. I think that if Ning Baojun has never found Omi, he should return here soon."

"If they haven't been able to find Omi, then it's possible that he's hiding in the Triple Sea of the Second Sea."

"If that's the case, then finding him is even simpler, we just need to guard the teleportation formation and make sure he's alive or dead."

Just then, a voice came from the doorway, "There's no need to be so troublesome, I'm already at the door."

"Who." The litter of people immediately rushed to the gate, only to see a young man standing at the gate.

"Who are you?"

"I'm the Omi you're looking for, what, hunting me down, don't you even know what I look like?"

"Ninth Uncle, yes, he's Omi." A YuanYing stage man shouted.

The man who was at the first stage out of the tricks commanded, "Treasure up, don't let him escape."

"Yes." In an instant, nineteen YuanYing powerhouses surrounded Omi.

The corner of Omi's mouth swelled with a contemptuous smile.

"Wow." Omi flipped his hand and the chain man appeared with a bang, like a giant.

"Kill." The Iron Chain Man swept with a punch.

"Ahhhhhh." Seven or eight died in one fell swoop, not even having time to detach from the infant.

"What's going on, why is Ning He's Celestial Rope in his hands? And it's far more powerful than dozens of times."

"Ninth Uncle, you have to do something."

For a moment, the remaining dozen or so Ning family members were in chaos.

"Everyone three scatter." That man of the first stage out of the tricks shouted, and the remaining twelve living Ning Family infants scattered.

Omi confronted the man who was out of the first stage, hoping that his chain man would be able to defeat him.

"Swoosh." The man with the first stage of out-of-body knowledge lightly slashed his palm in the air, and a palm-sized blade with a greenish glow sliced at Omi.

"Punch out." Omi's mind moved, and the chain man met it with a punch.

"Bang." The palm-sized blade was suddenly knocked away.

"Poof." The man who was out of the first stage poofed and spat out blood.

"Hit again." The chain man instantly punched up again.

"Ah." That man of the first stage out of the tricks blanched as the Iron Fist Man's strength was almost on pace to kill him in seconds, and he was no match at all for the first stage out of the tricks.

"How is that possible?"

Not having time to think, that out-of-body first stage dodged out of the way.

"Puff." At that moment, a flying sword above his head cut straight down, it was Omi's Shura Seventh Blade.

"Ah." The man who was out of the first stage only noticed the chain man and didn't even notice Omi, so he was just trying to dodge the chain man, but unexpectedly, defenselessly, he was cut down by Omi without even taking off his infant body.

Foolishly, those twelve living YuanYing powerhouses of the Ning family had all killed, and watched as Ninth Uncle, who was at the first stage of the out-of-body stage, was killed.

Oh my god, this was one of the eight out-of-body stages in their family, and even though it was the last one in the ranking, it was still an out-of-body stage alright, and it died like this.

If this news was sent back, the entire Ning family would be shaken over. Originally an eight-outlet family, it was now a seven-outlet family.

“Ninth Uncle.” The remaining twelve YuanYing powerhouses shrieked as they looked at the corpse that had split into two pieces and fallen to the ground.

Omi didn't give the group the slightest chance to take advantage of their shocked incredulity and blast them to death.

“Blast.” The chained man blasted at that group of people.

Omi also used the Shura Seventh Blade and was able to kill one by one.

A few seconds later, eight more were dead.

Only four were left to escape.

Those remaining four, panicked and fled into the distance.

“Hmph, trying to run.”

Omi offered his flying sword and quickly chased after them.

Omi's speed far exceeded theirs, which was why he caught up with one at once.

“Boom.”

Beat one to death.

“Boom.”

Killed another one.
