

King of kings

1729

"Why are you, why are you all so young? Are you guys taking away rebirth?" It is not impossible to take away the possibility of rebirth, however, whether or not to take away the rebirth can be identified by simply taking off the infant's body, and looking at the infant's appearance, whether or not it is consistent with the body's appearance, if it is consistent, it means that it is not taking away the rebirth. If it is, then it is not a rebirth. If it is inconsistent, then it is definitely a rebirth. Because the appearance of the infant is exactly the same as his original body.

Omi smiled, "Youth is not a sin."

"You."

"Alright, Murdie, I came over to find you to ask you about what you need to pay attention to when entering the Five Heavy Seas." Omi said.

"What? You asked me about the Five Heavy Seas? Did you not come from a place within the Five Seas?"

"Of course not, truth be told, I'm sort of from the One Heavy Sea."

"How can that be, the One Heavy Sea has the Merging Stage."

"Oh, out of the five of us, except for Lu Yuxi, we all came from the One Heavy Sea. Murdie, if you can bullshit, just try not to bullshit, okay? Let's get down to business, tell me, how about the five seas, we're about to enter the five seas."

"That's, well, please come in, sit down and talk." Mo Di invited.

Omi and the five of them sat down in the Mo Family's hall.

At that moment, the strongest person of the Mo Family handed over tea and asked at the same time, "Senior Omi, is it really you? The one who exterminated the Fang and Ning families before was really the same person?" First web site m . kanshu8.net

"Of course."

"But only before you."

"Can't I just come up here and practice?"

"This, okay."

Mo Di asked, "Brother Tang, dare I ask, half a month ago, was it you who robbed all the sixth grade spirit stones in the Four Seas?"

Not wanting to intentionally deceive, Don Zixin said truthfully, "Yes, it's me."

"Oh my god, it really was you, how could you."

"I needed a large amount of sixth grade spirit stones, so I robbed. Of course, it's sort of what I borrowed, I'll return it twice as much on the other day, and I promise, within five years. By the way, is there a lot of sixth grade spirit stones in the Five Heavy Sea? If it's that scarce too, it'll be returned in ten years."

Murdie said, "At least more than here."

"Okay then, then return it in five years, or even three."

Lu Yuxi was busy asking, "Five Heavy Sea Seventh Grade Spirit Stones more?"

Mo Di rolled her white eyes and said, "Seventh grade spirit stones are also extremely rare in the entire Immortal World, and it's almost impossible to see a fifth sea seventh grade spirit stone. Seventh-grade spirit stones are almost extinct."

"How can this be."

"For hundreds of millions of years in the Immortal World, countless immortals have uncovered and refined, and any more spirit stones will slowly dry up, and when there are no more spirit stones, this world will be reduced to an ordinary world, with no more immortal cultivators. This world, too, will be reduced to a ruined world, and will sink to the bottom of the universe."

Omi's body was startled, and he couldn't help but think of the Mortal Realm.

Could it be that the Mortal Realm wasn't like this countless billions of years ago, and was also a world rich in aura resources, only to run out of aura resources and become a ruined world that would sink to the bottom of the universe.

Lu Yuxi sighed and then looked at Omi, as if telling Omi that he was afraid that he wouldn't be able to refine and upgrade so quickly in the future.

Omi was helpless, since the seventh grade spirit stones were going to be depleted, the eighth grade spirit stones, must be extinct.

In the future, Omi's cultivation would really have to rely on himself, it was really cruel for someone who had soared to the Combination Stage in just a few years.

"What about the others? What's the Five Seas like? How much do you know about the Six Seas." Omi asked.

"Five Heavy Seas, Six Heavy Seas, and Seven Heavy Seas, these three places are only separated by an interface, which means that they are connected, like steps, and one is higher than the other. So, when you reach the five heavy seas, you can look up and see the six heavy seas, and when you stand in the six heavy seas, you can also look up and see the seven heavy seas."

"Uh, what kind of landscape is this." Yan Xin Yi felt like her brain couldn't make it up.

"Oh, you'll know when you go there. By the way, the Fivefold Sea, is ruled by the Sixfold Sea, while the Sixfold Sea is ruled by the Sevenfold Sea. Alright, there's nothing I can say, in short, in the Five Seas, the aura is at least a hundred times thicker than here, so there are many strong people in the Five Seas, but it's not often that you reach the Combination Stage as young as you are."

"Oh? There aren't any forces to be aware of?"

"No, when you get to the Sea of Five Heavens, just find any place to build a cave and start cultivating. There are eight families in the Sea of Five Heavens, as long as you don't heat up the eight families, you'll be fine, the eight families in the Sea of Five Heavens are the strongest immortal cultivation forces."

"Alright then, let's do it."

Omi got up and prepared to head to the Five Heavy Seas.

Mo Di was busy saying, "Brother Tang, why wait for me to come along, I'll take you to our hometown, all of our Merging Stage ancestors from the Four Seas are in the same place in the Five Seas, and we can all take care of each other."

"That's fine." Omi nodded his head.

So, Omi waited for half a day, then entered the Sea of Five Heavens together with Murdie.

Soon, they entered the Five Heavy Seas, and once they entered the Five Heavy Seas, the aura was completely different, indeed it was more than a hundred times thicker than the Four Heavy Seas.

"Brother Tang, this is the Fivefold Sea, you are now looking up at the clouds in the sky."

Omi looked up into the sky, there was a white cloud floating in the sky, on top of the white cloud, there were many looming buildings and trees palaces and so on, it was really not easy to notice if you didn't look carefully, because the buildings and trees on top of that white cloud were very obscure.

"See, the looming, seemingly non-existent buildings above the white clouds are the Six Seas. Because it is separated by a layer of interface, so it looks like something is there, and also, the clouds will be deep in the sky, hiding a different world in general, magical, there, it is the place where all the five seas of immortal cultivators to me."

Tang Huan was busy saying, "Then what does it take to get up there?"

"Difficult, the Six Seas can come down easily, while we have difficulty going up."

Omi said, "Do we drive to fly up and still can't get up there? That cloud isn't very far in the sky, either."

"Oh, you still haven't understood my words ah, if you don't believe me, fly up there and try."

Omi said, "I'll give it a try."

Saying that, Omi drove his flying sword with a swoosh, straight into the sky.

Soon, Omi flew up to the clouds in the sky.

Only when he reached the clouds did he find that it was just a cloud of fog, where there was no city or building, what he just saw seemed to be as illusory as a sea city lip building.

Omi came down from the clouds.

"How about it, brother Tang, have you reached the Six Seas?" Murdie asked laughingly.

"What's going on? We are on the ground, and we can plainly see cities and buildings, looming over the clouds, but when we get to the clouds, it's just a fog, nothing."

“So the six seas are not just a place we can go if we want to, we can see them, but we can’t go there. Those who stand in the six seas, however, can look at us from above, and we are like ants on the ground.”
