

King of kings

1737

Omi went to hunt a wild game and then the five of them roasted it to finish it.

After they finished eating, Omi continued to remain in seclusion for about half a month and didn't immediately go out for training or anything.

The reason why Omi continued his seclusion for half a month was because Omi's Shura Eighteenth Blade was at a critical moment and couldn't be stopped, so he was ready all at once.

After continuing to close the door for half a month, Omi's Shura Eighteenth Blade had finally reached the twelfth blade.

That's right, twelve knives, before it was practiced to the ninth knife, this time it was practiced to twelve knives at once.

Omi wouldn't forget the legend that after practicing to eighteen knives, he could open the great treasure of Wang Xiu Luo back then.

This treasure was known to many people, whoever could practice the Eighteen Daggers of Shura to great success would be able to open Wang Shura's treasure.

This was something Omi had never forgotten, before Omi hadn't thought about this aspect, thinking that it was still a long time away from the eighteenth blade, but now, unknowingly practicing to twelve blades, it seemed like it wasn't far away ah.

In fact, Omi had not only not forgotten the hidden treasure of the Eighteenth Blade, there was another treasure Omi had not forgotten either, and that was, before the Nine Daoist Demon King had ascended, he had built a super cave in the spirit world that was made entirely of spirit stones, and this one was also a treasure. Only, this one treasure was only a legend, and now people in this world doubted if the Nine Daoist Demon King was real, but Omi knew it was real.

Omi walked out of his cave.

"Omi, did you practice the Eighteen Blades of Shura?" Mu Qianji asked. A second to remember to read the book.

"Of course, practicing up to the twelfth blade."

"Wow, practicing from before the ninth blade to the twelfth blade."

"Yes."

"Alright, now we're ready to go."

"Where to?"

"Nonsense, of course it's a treasure hunt while training and searching for elixirs."

"What treasures?" Mu Qianji was puzzled.

Omi smiled, "Don't you know that the Shura Eighteen Knives hides a great treasure? Legend has it that whoever practices the Eighteen Daggers of Shura to great perfection can open Wang Shura's treasure from millions of years ago. Although I've only practiced the Twelve Daggers of Shura now, we can already start looking for it, and by the time we find Wang Shura's treasure, I might have already practiced it to a great success."

"Really or not, you still take the legend from millions of years ago seriously?" Mu Qianji was speechless, legends this distant were usually false.

Omi said, "In fact, there is an even more ancient treasure, the treasure of the Nine Daoist Demons. I saw a book in the library of the One Heavy Sea Heavenly Treasure City earlier, it was all about some celebrities of this world, I saw a page about the Nine Dao Demon King, the introduction said that before the Nine Dao Demon King ascended back then, he left behind a cave all made of spirit stones, but no one knows where it is. I must find that super cave of the Nine Dao Demon King, others may think that such an ancient legend must be fake, but I believe it is real because, the Nine Dao Demon King's Immortal Qi is in my body, my intuition tells me that it is real. Moreover, my first instinct tells me that that treasure of the Nine Daoist Demon King should be in the Six Seas, and, there is lots and lots of water."

"In the Six Seas? Places with lots of water? How do you know?"

"First Intuition, after all, the Nine Dao Demon King's Immortal Qi is within me, it's normal for me to generate some intuition. If I were to find that spirit stone treasure that the Nine Daoist Demon King used to have, hehe, we're rich." Omi said with great anticipation.

/> Tang Huan said, "First, we have to have a chance to get to the Six Seas."

"Right, that's right, our next goal is, to try to get to the Six Seas." Omi nodded his head.

Mu Qianji asked, "Omi, then, so you aren't going to quietly cultivate, or are you trying to be opportunistic? By spirit stones and treasure?"

Omi laughed, "Thousands of people, everyone in the entire cultivation world is trying to speculate, it's just that some people really can't think of any way to do it, that's why they have to honestly open up a cave and spend years and years in seclusion. We, on the other hand, since we have the chance to find the treasure, why not try it, just in case we find it."

Yan Xin Yi said, "I think what Master said is reasonable, I support Master this time, the two treasures Master said, both feel like they are not ethereal."

"Right, Shura's eighteen knives, Master has already trained to the twelfth knife, will it still be far from eighteen knives. I feel like it's easier to find the Spiritual Stone Cave of the Nine Daoist Demons, the Nine Daoist Demon's Immortal Qi is in Master's body, there must be some guidance."

"Alright, then how do we get to the Six Seas?"

Omi smiled, "This shouldn't be difficult, my disguise technique and that of Thousand Extremes have reached a certain height, we can completely disguise ourselves and casually blend into one of the big immortal families, then find a way to travel to the Six Seas. However, Tang Huan, Yu Xi, Yan Xinyi, you three won't be able to travel with us."

"Ah."

"You three, go to Horse Head Village first, I'll let the Eight Eye Flood Snake take care of you, or, you can just go to the Eight Eye Flood Snake's cave to cultivate and wait for me and Mu Qianji to return."

Tang Huan pursed his lips.

"Be obedient, or it will be harder for me to find the treasure."

"Alright."

"Then let's move."

Then, Omi and the others, went straight to the freshwater lake where the Eight Eyes Flood Snake was.

"Eight Eyes."

"Tang Shao, you're here." The eight-eyed flood snake flew up enthusiastically.

Omi said directly, "Eight Eyes, these three friends of mine, you take care of them for me, and cultivate here with you first."

"Ah, Tang Shao, why don't you take them with you?"

"I have something big to do, don't worry, just them, I'll let you go to the Seven Seas to cultivate in the future."

"The Seven Seas? Really?" The Eight-eyed Flood Snake's eyes lit up, Six Heavy Seas was already his biggest dream, Seven Heavy Seas was simply unthinkable.

"Remember, make sure to keep them safe."

"Definitely." The Eight Eye Flood Snake assured.

Omi was also worried, after all, this immortal world was very dangerous, encountering beautiful women directly defiled, encountering weak people killed, ten immortal cultivators, nine and a half were killed, almost no one died of old age.

"Tang Huan, Lu Yuxi, Yan Xinyi, you three cultivate well here in Eight Eyes, don't go anywhere, trust me, we'll be back in ten years or a year or two." Omi instructed.

"Well, you have to go and return quickly."

"Definitely."

Omi and Mu Qianji took their leave and the three of them reluctantly watched Omi's figure disappear.

Omi arrived at the entrance of the nearest of the eight families, the one called the 'Fire Cloud Family', at the city wall.
