

Chapter 979

Omi, however, shook his head directly, “The Ten Thousand Beast Forest has already made me lose three of my siblings, and to go to Thousand Mountain Twilight, is this a death wish? When I hadn’t yet entered the Forest of Ten Thousand Beasts before, I also always thought that we would be the exception, but it turns out that the rumor that any team going in will always die a few times is not an exception for anyone. So, don’t even think about going to a place like Thousand Mountain Twilight.”

“Well, actually, I just think that it’s so boring in a small place like Linjiang City, and it’s even more impossible to improve if we’re bored like this.”

Omi said, “Let’s go to Martialwood Island.”

“Martial Island?”

“Yes, I’ve heard that Martial Island has a mysterious island master who is one of the world’s, thirty peak Unity Realm Grandmasters, and he’s ranked in the top ten, I want to go meet this mysterious island master and have him guide me.” Omi said.

“How do you know?”

“On my way back, when I passed through an empire called Abgar, that old king, who was also one of the thirty summits, told me that he was ranked twenty-four. I stayed there for two nights, and he told me that the island master of Martial Island was one of the peaks of a unity realm, and he was ranked in the top ten in the world.”

“Wow, no wonder no one has ever dared to hit Martialwood Island, well, let’s go to Martialwood Island and have some fun.”

Omi and the others, left the next day to go to Martialwood Island.

After arriving at Martial Island, Omi first went for a walk around Martial Academy, Martial Academy now had no classmates from back then, they were all unfamiliar faces.

The classmates who enrolled with Omi back then have already graduated from the fourth grade. The first website m.kanshu8.net

Omi was like a graduate returning to school, except for some teachers, almost no students knew Omi, but of course, Omi's name was known by the entire school, after all, the glory of defeating all the new disciple champions of the four Island Protectorate families back then had already gone down in history.

"Omi."

"Dean."

"It's great to finally see you, I thought you were dead." Dean excitedly grabbed Omi's hand.

"Oh, Dean, how have the years been?" Omi asked.

"Alas, what else can I do, although you gave me a lot of Iron Tree Hearts, but with my talent being what it is, no amount of taking it will make a difference, and I'm still an Innate."

Omi patted the dean's shoulder and didn't say anything.

"Omi, why did you think of coming to visit me at the Martial Academy?"

Xiao Meng was busy saying, "Dean, brother Omi didn't come to visit you ah, he came to see the mysterious island master of Martial Forest Island, by the way."

“Oh, huh.”The dean laughed awkwardly for a while.

Omi asked, “Dean, do you know where the island master of the Martial Forest Island, lives?I’d like to pay him a visit.”

“The island master of Wulin Island?”

“You don’t know either?”

“Omi, I’ve actually never heard of it at all, although I’ve been the head of the Martial Academy for decades, I really don’t know.However, I do know one thing, and that is that Martial Island, which no empire dares to mess with, has a mysterious power.If not, a place as beautiful as Martial Island and possessing a memory stone, it would have been snatched away and become a kingdom.”

“Alright.”

“Omi, if you want to find the Martial Forest Island’s island master, I think you might be able to find him by asking the old dean of the Martial Forest Academy.”

; “Good.”

The old dean was the one who wanted to take Xiao Meng as his disciple, Omi had seen him before, however, Omi didn’t have any affection for this old dean at all, when Omi wanted to enter the Memory Stone, he actually refused to give Omi face.This old dean had a mentor-brother relationship with the village head of the world village, and the village head of the novice village.

Omi and Xiao Meng, Xiangyun, Xuan'er, and the five members of the dean went to the old dean's place of residence.

After flying for over an hour, they arrived outside a valley, and this was where the old dean lived.

As soon as Omi flew in, an old man from the Unity Realm immediately greeted him, not daring to slow down as he sensed a very powerful presence.

When he saw Omi, he was stunned.

"It's you, Omi."

"Old Dean, long time no see." Omi said.

This old dean was still at the late stage of the Unity Realm.

The old dean looked at Xiaomeng and his face changed, Xiaomeng had even reached the middle stage of the Unity Realm, in the beginning, Xiaomeng was his disciple.

Omi right: "Xiao Meng, when you see your master, why don't you call."

Little Meng pursed her lips, "I didn't learn from him again, besides, it's fortunate that I left here at first, otherwise I still don't know if I've stepped into the Unity Realm."

"Xiaomeng, don't be rude, one day is your teacher, and the rest of your life is your father, call me master." Omi scolded.

Xiao Meng could only call out in aggravation, "Master."

The old dean waved his hand, "No need to call me master, you have already left me, besides you are right, if you hadn't left me back then and continued to be here, it would have indeed ruined you, you followed Omi, indeed you have a better future than me, and it has been proven now. I am not qualified to be your master."

Dao: "No, I didn't leave you because you don't have the qualifications, but because you, you always don't teach me profound sword techniques, you always make me practice that trash sword technique, so I'm very upset, the trash sword technique you taught me is not as good as what brother Omi taught me, so you are destined to not get such a good disciple as me."

"Hahaha, hahaha, good, well said, I'm convinced." The old dean laughed loudly.

Omi said, "Old Dean, not to mention anything else, at least you proved one thing, you are still very discerning, when you forcibly took Xiaomeng and forcibly accepted her, it shows that you are very discerning and saw that she is extraordinary."

"Alright, it's been several years, stop saying that, now you've come back here, are you here to sarcasm me? Omi, I'm afraid you've reached the Unity Realm Great Perfection now, when you came to beg me to enter my memory stone here, I refused, and now you're back to hit your face?"

Omi snorted, "Old Dean, you don't qualify for me, Omi, to make a special trip to Martial Island to punch you in the face, you're being nosy."

"You." The old dean looked embarrassed, very ashamed, and Omi didn't give him any face.

"Then what do you want when you come to my place?"

Omi said, "I purposely came to Martial Island to pay my respects to the island master, but unfortunately, not many people know about the island master, I heard that you might know, so I came to ask you, that's all."

"You want to see my master."

"Uh, the Island Master is your master?" Omi was stunned.

"Otherwise, I, Jindolph, and Lin Bai, are all disciples of the Island Lord, as well as the ancestors of the four Island Guardian Families, who are my uncle's disciples, the Island Lord's brothers." The old dean said.

"That's good, take me to meet your master."

The old dean snorted, "Omi, our master, I don't know how many levels above you, is one of the world's, thirty pinnacles, do you think you can meet just because you want to? You're taking yourself too seriously, too."

"Well then, what do you want to do to meet the island master."

"You're not qualified to meet our master yet, please go back, my master has been living in seclusion on Martial Island and ignoring the world for more than a few decades, you're a twenty-something, huh?" The old dean gave a sneer.

Omi said with a bad face, "Old dean, I have come to visit the island master on purpose, besides, although I have not yet reached the strength of the island master, I am also at the first level of the Unity Realm Great Perfection, what makes you think that I am not qualified to pay my respects to the island master. Even you are qualified to be his disciple, but am I not qualified to call on him even though I'm at the first level of the Unification Realm? If you won't lead the way, then please bring my words to your

master. I will wait at the Martial Academy for three days, and if you don't see me after three days, then I, Omi, will leave immediately."

After saying that, Omi flew away.

The old dean snorted, the old dean was very upset with Omi, I don't know what it was because of, maybe it was because of jealousy, after all, a few years ago he was so weak in front of him, now he was far beyond him, how could he feel happy.

"Brother Omi, we came to Martial Island to specifically visit the island master ah, do we really give up on it, force him a bit, he will definitely honestly take us to the island master."..

"No need, it would be meaningless to force him, I think the old dean wouldn't dare not go to deliver the message, if the island master gets the message and decides to see me, he will definitely let him come to me, if he doesn't want to see me, then let's stop, I don't have to, let's stick my hot face to someone else's cold ass." .

"Also, then let's go back to the Martial Academy and wait for three days."

At this moment, an old man on the ground rushed up. Remember the URL . kanshu8. net

"Hahaha, Brother Tang, you've come to Martial Island, why don't you come and play with me so that I can be closer to the landlord."The old man who rushed up to the sky laughed.

Dean and Xiao Meng and the others were busy saying, "Paying homage to senior village head."

That's right, the person who suddenly rushed up was the village head of the Martial Island's World Village, called Jin Daofu.

“Jin Daofu, long time no see.”Omi nodded to the Village Chief of the World Village.

“Brother Tang, I thought you were killed, but I didn’t think you were still alive, I knew you wouldn’t die so easily, causing me to feel sorry for you.”

“Thanks.”

“Alright, it’s good that you’re not dead, let’s go, come sit down at my world village.”

“Good.”

Omi flew to the world village and entered the village chief’s wooden house.

Jin Daoist asked, “By the way, where did you just go?”

“I went to your elder brother’s old dean’s place, I wanted to plead with him and take us to the island, I wanted to pay my respects to the island master, but unfortunately, he didn’t even bring it.”

“Uh, you wanted to meet our master.”

“Yes, pay a visit, I heard that he’s one of the world’s, thirty peak of the Unity Realm, and ranked in the top ten.”Omi said.

“Hahaha, brother Tang, to be precise, my master was ranked third in the world fifty years ago.”

“Wow, third in the world.”Omi was shocked, Martial Island’s Island Master, so strong, and it was fifty years ago.

Xiao Meng asked, "Village Chief, you're so old, then your master, must be even older."

"Xiaomeng, no rudeness."

R /> "Haha, it's fine, you're right, my master is almost a hundred and forty years old."

"Wow, that's old."

"Hehe, yes, my master has also reached the end of his life, I'm afraid that in a few years, he will pass away, my master's greatest wish in his life is to surpass the Unity Realm."

Omi nodded his head.

"Village Chief, then can you take us to meet your master."

The village chief of the Heavenly Village smiled bitterly and said, "To be honest, it's not that my senior brother won't take you guys there, it's not that he's stingy, it's because, our master really isn't that easy to see, even our senior brother, it's been a long time since we've seen him. After all, my master is so old, he's in seclusion almost all the time, if you don't fight now, do you want to wait until you die to fight again. It's really hard to see our Master, at least we have to go ahead and give notice, let's see if my Master wants to see it."

"I see, that's a real pity, I have great respect for old seniors like the island master, in fact, I came to pay him a visit, I also want to ask him how to cultivate the realm after reaching the Unity Realm Great Perfection, because I'm feeling foggy right now." Omi said.

“Brother Tang, you’re amazing, reaching the Unity Realm Grand Perfection at such a young age, tsk tsk, when my master reached the Unity Realm Grand Perfection, he was already over eighty years old, Brother Tang, you’re really my idol.”Jin Daoist said in adoration.

“Oh.”Omi smiled slightly, reaching the Unity Realm Grand Perfection at the age of 23 was really a legend, at least in this world.In the original world where Omi had crossed over, it might not have been a legend, but in this world, it was definitely a legend.

Jin Daoist said, “Brother Tang, if you want to see my master, you can actually wait another ten days.”

“Why?”

“Don’t you know?The emperor of your Yanhuang Empire, the leader of the King’s Mercenaries, Wang Qi, this man who has no self-awareness, he actually issued a letter of war against my master.”

“What.”Omi was shocked, Wang Qi had actually issued a letter of war to the island master, this was too ignorant of his own feelings.

Xiao Meng said, “He’s also too self-righteous, thinking that he dared to challenge your master after defeating the old master of the Famous Sword Villa.”

“That’s right, the Island Master is almost a hundred and forty years old and has eaten more salt than he has rice, but he is so arrogant that he dares to challenge your master.”The dean also said angrily.

Jin Daoist smiled, “There is no need to be angry about it, since he thinks he has the strength to challenge my master, then my master will naturally make him understand, my master has already accepted, in ten days, we will fight at Martial Island, then, you will be able to see my master, but in the meantime, my master should not see you.”

“Good.”Omi nodded his head.

Omi was a bit shocked inside, Wang Qi actually dared to challenge the island master, and he didn't know if he was really powerful or ignorant. If he really reached such strength, then Omi's revenge would be even more difficult.

Fine, Omi also wanted to see this duel.

Omi and the others had lunch at the World Village, then left to return to the Martial Academy.

Omi and the others were going to stay at the Martial Academy and wait for the duel between Wang Qi and the Island Lord ten days later.

Omi was very unconvinced that with Wang Qi being able to defeat the Island Master, the mysterious Island Master of Martial Forest Island, who was already the third in the world fifty years ago, if Wang Qi really defeated the Island Master, then he would be really against the heavens, Omi didn't believe it to death.

In fact, Omi was afraid that Wang Qi was really this strong inside.

“I hope this son of a bitch, is arrogant, he can't be this strong.”
