

No. 1 Supreme Warrior Chapter 1680

Just as Venus was about to plummet to the ground, however...

Whoosh!

Two figures came rushing as one of them held her by the waist, allowing her to land safely on the ground.

The moment Venus realized it was Jack, she became flustered and blushed as she got to her feet.

As for Jack, he took out a healing pill with the flip of his hand and passed it to Venus. "Ms. Venus, this pill can help heal your wounds. Leave the rest to us."

"Alright. Thank you, Young Master Jack!" Venus took the pill in embarrassment and finally realized that the other person was her father. Tears immediately filled her eyes as she looked at Alejandro and said, "I finally meet you again, Father. I was so afraid that something happened to you. I heard rumors that the Canmore family's master had broken through into the ultimate god-level early on, and I was afraid that many people in this area had broken through into the same level as well. Earlier, people spotted you and my third sister hunted by a monster beast!"

She looked around in a panic as she spoke, "By the way, where's Third Sister? Did something happen to her?"

"Don't worry. Your third sister and the others will arrive a short while later. Yes, a monster beast chased after us, but thanks to Young Master Jack's help, we managed to escape the danger." Alejandro looked at his daughter and was at ease. Luckily, he and the others got in time to witness everything first-hand; it would have been worse had they come a moment later. He might not even see his daughter again, too.

The Second Elder was startled when he saw Alejandro and Jack appearing at the same time, and he glowered at the sight.

However, the thought of his newfound fighting prowess and how he had evolved made the Second Elder more confident. He spoke with a smirk on his face, "It's been a long time, Alejandro Cabello. I never thought you'd swing by!"

Osca paused before he continued, "It's good that you've come; I don't need to look for you all over the place. Now that you're here, I just need to kill you to become the Cabello family's master. Of course, if you're willing to give up the position and have all three of your daughters to marry me, I'll consider keeping you guys alive!"

"Hmph! I never thought you'd become such a person, Osca Lange. When you were in the Cabello family, you were obedient as your fighting prowess and combat power weren't as good as mine. Who would've thought you'd show your true colors when you've just broken through into the First-grade ultimate god-level. I, Alejandro Cabello, truly have underestimated you!" growled Alejandro, so enraged that his face turned green. "You even want me to marry off my three daughters to you? I dare say you're a lunatic with unrealistic dreams!"

"Haha... You're still being so stubborn. Since you and this young man from the White family are here, I'll kill both of you. Let's see who still dares go against me after that!"

Osca laughed and stretched out one of his hands, and a light-golden chi came bursting out from his hand. He then smiled at Alejandro. "Do you see this? This is the golden chi of a First-grade ultimate god-level. Do you envy me for this? I'm giving you one last chance, and I'll instantly act if you remain stubborn!"

"You truly are unruly!" Alejandro smiled coldly and stretched out a hand as well, where chi of the same light gold color surged on top of his palm.

"You... You've broken through into the ultimate god level?" Osca inhaled deeply and glowered when he noticed the light gold chi in Alejandro's hands.

When he was a member of the Cabello family before, he had the same fighting prowess as Alejandro, and they were both in the peak stage of the true god-level. However, his combat power was much lower compared to Alejandro. As there was a slightly powerful First Elder Cabello, that was the reason he dared not act out of place.

He originally thought that Alejandro would not be a match for him once he broke through into the First Grade ultimate god-level. Unexpectedly, Alejandro had achieved the First-grade ultimate god already. This caused him to lose all his confidence as Alejandro had always suppressed him.

It was not long until a faint yet vicious glint surfaced in his eyes. "So what if you've broken through? Hmph! The martial art technique that I obtained this time might not lose to the one you have, so I'm still tough to crack!"

The Second Elder's confidants were initially worried, but they relaxed when they heard what he said.
