

# Chapter 419

The only one who knows how to protect oneself and protect mother. "

Suzi was very moved when she heard that, and she put Shen Zai in her arms again: "Good deed, mother knows that you are all for the sake of her mother."

"Well, mom." Lilly said coquettishly: "The only thing that I don't want to go to the playground every day is because when we were playing in the playground yesterday, there was a three-person event, and it took three people to sit down. Be sure to drive the roller coaster with the father's arms around the mother and the mother's arms around the baby."

I wanted to play yesterday, but Uncle Christopher was unwilling to hug Grandma Li..."

"Puff..." The driver almost choked to death.

Christopher is less than 30 years old this year, and Li's wife is in her early 50s.

Do you let him hold Sister Li?

The driver looked at his father with aggrieved eyes.

"Christopher, go to the playground." Arron said.

"Yes, Fourth Master!"

Suzi: "..."

When he arrived at the playground, Suzi discovered that the slope that the roller coaster had to climb was nine turns and eighteen bends like a real mountain. It was so high and steep that Suzi was scared to look at it.

She is not a timid person.

She is not squeamish either.

However, she is afraid of heights.

She couldn't stand her legs shaking, she didn't even realize that the man was hugging her behind her.

But when he saw the only excited little face, his mouth was still muttering: "Oh oh oh, I can finally play with my father and mother." Suzi suddenly realized that children don't really want to play. For games, she wants the feeling that mom and dad are with her. Thinking of this, Suzi, who was afraid of heights, didn't say anything, but took a deep breath and forced himself on the go-kart roller coaster.

The only one was held in his arms by Suzi, while Arron sat behind the mother and daughter.

So suddenly sitting in the arms of the man, surrounded by the man's legs, Suzi felt uncomfortable, and his face suddenly became red. Before she could retreat to Hongxia, the man's arm had already covered her whole body. Wrapped up

The feeling of being held in his arms is very safe.

She was originally afraid of heights, but now she suddenly felt that if he had his arms around her, she would reduce a lot of fear. The car was turned on and then screamed like the wind. Suzi, who was not prepared at all, screamed immediately, and then a hand With the only arm around, the other hand desperately grabbed Arron's arm.

Hearing his mother screaming, Lilly was even happier. The little dumpling turned his head and said to his mother: "Mom, the only one who protects you."

After speaking, Lennyzi grabbed mother's arm with both hands to give her mother strength.

Even so, Suzi was still scared, especially when she reached the steepest place, she simply threw her whole body into Arron's arms like an ostrich.

Fortunately, Arron has always held her very tightly.

This roller coaster made Arron and Shen the only father and daughter very happy.

Suzi was very scared.

She was so frightened that she had been back home for more than two hours and still hadn't been relieved, and she didn't even have any appetite for dinner. She took a few mouthfuls and hurriedly washed herself and went into the bedroom.

Anyway, a man will coax the only one to sleep, so she doesn't have to worry about it.

Sitting on the edge of the bed, Suzi was able to look carefully at the pair of bracelets. The yellow waxstone bracelets showed a soft yellow light and were very warm.

The beauty makes Suzi unable to move his eyes.

At this time, the door opened, and the man walked in with a big look, and he bent over and hugged her into his arms.

"Do you like this bracelet?" the man asked in a low, mellow voice.

## **Chapter 420**

"No... I don't like it." Suzi was a little duplicity.

There is a feeling that she has been prying into her mind. She has never been extravagant since she was a child. Food and clothing are always a problem, let alone any jewelry.

The only jewelry was given to her by Aunt Xia, and she put it in Aunt Xia's grave again.

If women don't like gold and silver jewelry, they are all fake.

Suzi is a mortal, and she likes it too.

The man dragged her with his arms, and his dark lips with black stubble leaned closer to her. His voice was low and mellow: "I don't like this bracelet, why do you admire it so intoxicated? You... don't tell the truth."

Suzi: "..."

"Don't tell the truth, do you know what method I will use to punish you?" Arron's voice was cold.

But it's extremely bewitching.

Suzi's mind was upset by him, she had to answer obediently: "Hi...I like it, can you...can you let me down?"

Arron sneered.

He did not speak, but took her back to his large living room.

His living room has the taste of a successful man, and it exudes the atmosphere of a mature man.

In this atmosphere, Suzi felt more and more fascinated.

She didn't know when he put her on his big bed.

He only pressed his hands on both sides, he looked at her condescendingly, and asked her: "Since I like this pair of rare things so much, why do I give it back to me when I leave the old house?"

Do you like this bracelet, but don't want to be Mrs. Fu?

Or, only like this bracelet, but hate the folks in the old house of the Fu family? However, you also know that the people in the old house of the Fu family like the only ones, so you deliberately returned the bracelets to me, wanting to get rid of it? "

"No, no, no!" Suzi suddenly cried.

The sound is surprisingly loud.

She wanted to get rid of him, but she didn't have the strength of him. She simply bounced and cried toward him, who was condescending, with tears in her eyes: "I like this bracelet. Is there anything wrong?"

I didn't snatch this bracelet!

It was given to me willingly by your family!

What's wrong with me!

I want to return it to you! Because I don't want you to misunderstand me!

Can't I have dignity!

Since the first time I saw you six years ago, when trading with you, you have always doubted my character, suspected that I was plotting against you, I want to ask you what I did to you make you doubt so Me.

I am a person, I have my dignity!

If it weren't for the only concern for me, I would rather die, okay!

Arron, I don't owe you anything, I once saved your life!

I don't owe you anything!

I don't owe you..."

Before she could finish her words, his lips were blocked.

His attack this time was very gentle and very healing. She kept crying, and it kept kissing her tears.

He did not comfort her.
