

The Best Son in Law Chapter 260 - 269

Chapter 260

Only she and Jiao Yuchun knew that the acupuncture method was what Haoden Ye had told Jiao Yuchun.

“I don’t know what he’s feeling right now!” In all fairness, if his credit was taken away by someone else, Lin Xiang would be psychologically uncomfortable, Lin Xiang thought to himself at this moment.

However, at this time Haoden Ye’s face was very calm, even happy that Jiao Yuchun had received praise, and seeing that Ye Chen’s expression did not seem fake, Lin Xiang could not help but feel a surge of respect in his heart.

“Host, I’ll count this one as a win for Dr. Jiao!” The audience was immediately noisy.

Lin Feng swept his gaze over those who were shouting, his eyes were cold and his heart was even angrier.

Yet when he thought of the second one, he just smirked.

Scene 2, Dispensing!

That was his strong point, having received countless medicinal herbs since childhood, he was very knowledgeable about the medicinal properties of various precious herbs.

Many of the herbs were only available to the old professor!

You know, the price of precious herbs is too high, if not old professors, who would be willing to give young doctors to try, so young doctors do not understand the medicinal properties of expensive herbs.

And he had an advantage over Jiao Yuchun in that regard!

The old gentleman thanked us for the calendar, and the host called the second session to order.

There were six patients in the second trial, all of whom had migraine headaches in the clear.

The only treatment for this disease is painkillers in Western medicine, and acupuncture can naturally be used to treat it, but the second round doesn't intend to use this method.

Soon, six migraine sufferers with the same condition took the stage.

“Please write out your formulas after your diagnosis!”The host to several people.

All eyes turned to Jiao Yuchun, expecting him to surprise the crowd again.

Lin Feng's gaze also swept over Jiao Yuchun, a cold smile on his lips.

But then Jiao Yuchun walked around to the patient and made a basic diagnosis.

All patients are the same, so diagnosis is not difficult.

Making a diagnosis, Jiao Yuchun walked up to Haoden Ye and whispered, “Mr. Ye, it's all just an ordinary migraine, any prescription will stop the pain!”

Frowning slightly, Haoden Ye gently shook his head, “If it's just pain relief, I'm afraid all the doctors have a prescription!”

“What!And you want a complete cure for this disease?” Jiao Yuchun rolled a white eye.

“What’s wrong?Dr. Jiao seems to have been consulting with your assistant ah, can’t you even cure a migraine?”When Lin Feng saw Jiao Yuchun consulting Haoden Ye, he smiled slightly.

His words drew everyone’s attention, at first no one noticed Haoden Ye at all, they thought that Jiao Yuchun had asked him to write a prescription!

“Haha, what a joke, how can Dr. Jiao consult a tiny assistant!”

“That’s right, Dr. Jiao is Professor Hua’s disciple, how many other Chinese medicine practitioners in China besides Professor Li can compare to Professor Hua?Even if Dr. Jiao is consulting, he should consult Professor Hua!”

There was laughter under the stage and not a single person took Lin Feng’s words seriously.

“What a bunch of idiots, the one who’s really good is that assistant of Jiao Yuchun’s!”Lin Feng mentally snickered.

But at this time, Jiao Yuchun laughed, “Doctor Lin is too good at joking, I just feel that the formula for treating migraines is too simple, I don’t even want to get my hands dirty, I’d rather have my assistant do it!”

Hearing his words, Lin Feng looked embarrassed while everyone on stage stared at him.

Dr. Jiao even let his assistant do it, is this humiliating Dr. Lin?Everyone in the audience laughed!

Lin Feng's face became very embarrassed, he endured his anger and didn't look at Haoden Ye, his eyes betting on the patient heart, "I'll make you look good later!"

After the diagnosis, Lin Feng quickly walked to his spot and started writing the formula.

Soon everyone else's formulas were written and the facilitator collected them one by one and began to read them.

He seemed to be very sensitive to the current situation, so he read the formulas of a few others first.

Their formulas are all medium and mediocre, just for pain relief.

But these formulas are subtle enough for the people on stage.

After all, compared to medicinal herb experts of Haoden Ye and Lin Feng's stature, their formulas were already able to cause repercussions in the TCM world.

Soon, the host took out Lin Feng's formula and began to read it out.

Lin Feng's eyes narrowed slightly when he saw the host's actions.

He was supposed to be the one who closed the show!

Furious in his heart, Lin Feng had a sneer on his lips, he had already thought about how he would deal with this host in the future when he won.

The host began to read out Lin Feng's formula, "This formula can completely treat migraine headaches and ensure that patients have no chance of relapse!"

Everyone in the audience made surprised noises when they heard this!

It's nearly impossible to completely treat a migraine headache.

You know, migraines have a high recurrence rate because a person's overall physical condition gets worse, and unless the person is brought back to good health all at once, the migraines will come back!

What exactly is Lin Feng's method?

Every time a herb was read, the audience couldn't help but let out a gasp!

Without thinking, Lin Feng's recipe was indeed very subtle, and what was even more surprising was that every single one of his herbs was very precious!

The many clever combinations targeting the herbs were even more admired by those professors on stage.

Even with their experience using these valuable herbs, they couldn't be so familiar with the medicinal properties of each and every one of them and work with them!

It seems that Lin Feng, the lofty younger brother, really is familiar with the medicinal properties of each and every herb!

Professor Hua slowly shook his head and whispered with a sigh, "Hey, any one of these precious herbs can prolong life, and after matching according to the medicinal properties, it can indeed completely treat migraines!"

The other professors also nodded, and Professor Li smirked in his heart, but said as if jokingly, "Is this an admission of defeat by Professor Hua? Just now your apprentice was promising to win against Power Gyneng using only his assistant!"

Hearing this, the other professors laughed and shook their heads, in their opinion, what Jiao Yuchun had just said was a disguised admission of defeat!

Isn't it better to have your assistant on it just to look good losing?

Soon, the host finished reading Lin Feng's recipe and took out Haoden Ye's recipe.

Everyone held their breath, expecting this assistant of Jiao Yuchun's to give the crowd a surprise.

What they didn't expect, however, was that the hosts just took a look at the formula and their faces turned ugly.

"Outrageous, this whole thing is an insult to this competition!" The presenter left the formula on the ground and raged, "The herbs in this formula are completely unrelated, and even have many properties that are mutually exclusive! And the recipe even says in it to use the ancient alchemy local method to refine the herbs, it's just ridiculous!"

Chapter 261

"What? Alchemy? You're killing me with jokes like that!"

"Dr. Jiao, you're crazy as an assistant, everyone knows ancient alchemy is a lie!"

"This man is an insult to modern science and to Chinese medicine! Tell him to get off the stage!"

There was a ruckus offstage, and a few professors on stage looked like they were crying and laughing.

“Professor Hua, your apprentice is not bad, but he doesn’t choose his assistants very well.” Professor Lee laughed, turning his head to Professor Hua and teasing him.

The other professors also looked like they were laughing and crying, and Professor Zhang, who was on good terms with Professor Hua, shook his head and laughed bitterly, “Professor Hua, let’s call this match a draw, I don’t think Xiaochun can prescribe so many expensive herbs!”

Lin Feng’s heart went even crazier and he wanted to laugh, but he kept pretending to be a gentleman and his face was red.

In the audience, only Jiao Yuchun Haoden Ye and three others didn’t have smiles on their faces.

Jiao Yuchun looked embarrassed and looked at Haoden Ye with a bitter smile, at this time he didn’t know how to explain to the crowd.

He was aware that Haoden Ye did know how to refine pills, and the Jade Dew Pill was a proof of that.

However, he couldn’t prove this to anyone, as the pills after alchemy were very similar to the current pills.

Amidst the laughter of the crowd, Haoden Ye said to the host, “Mr. Host, can you give me a small fireplace!”

The host, who was already very angry, snorted at the news, “Sorry, we don’t have such feudal superstitions here!”

“That’s fine, I don’t need a furnace, you can give me an alcohol stove and a luxuriant, and the herbs I mentioned above are always fine!” Haoden Ye’s face was calm.

“Are you going to refine it from this podium?”The host sneered and looked at Haoden Ye with a disdainful face.

“Host, people have said they’re going to refine the pills, so let’s see them!”Lin Feng smiled at the host.

The crowd below the stage let out a laughing sound, every single person’s eyes looking at Haoden Ye ridiculously.

The hosts seemed to find it very funny and watched it as a funny show.

“Give this gentleman a luxuriant, plus the herbs he needs!”The host smiled at an assistant.

Soon, the herbs Haoden Ye needed, an alcohol lamp, and a Milky Way were all carried up.

“Dr. Yeh, will it work or not,”

He had seen Haoden Ye refine pills with a furnace, but had never thought that he could refine pills with a luxuriant hue.

Smiling slightly, Haoden Ye gave him a reassuring look, then said to Lin Xiang, “You’ll be my assistant!”

“Boss, it’s fine if you can’t, I thought the alchemy technique you taught me said that alchemy can only be done inside the furnace, and the temperature of the alcohol lamp is simply not high enough!”Lin Xiang frowned.

“That’s you beginners,” Haoden Ye smiled at Lin Xiang, “A master alchemist can use any tool to make pills!”

“As for the temperature, you don’t have to worry, this temperature is enough to refine this medicine!”

Still skeptical, Lin Yao nodded his head gently.

Igniting the alcohol lamp, Haoden Ye began to add herbs to the luxuriant vegetation.

Everyone’s eyes gazed at Haoden Ye, waiting to see his joke.

“This herb needs to be ground up in your hands to add to the gummi!” Haoden Ye shook his head when he saw that Lin Xiang was directly adding herbs to it.

“Grind it up by hand?” Lin Xiang looked at Haoden Ye in surprise, there was still this rule without first arriving at the alchemy.

“Well, it’s good for the full absorption of the herbs, and the alkalinity in the sweat can also fully break down the herbs!” With a slight smile, Haoden Ye said.

The people in the audience frowned when they saw Lin Xiang rubbing the herbs in his hands.

“You aren’t going to need another grinder!” The presenter frowned, “Is this hygienic to feed the patient?”

There was laughter again, and on stage Professor Hua frowned.

If he didn’t know what Haoden Ye was like, he would have kicked these two out!

Soon, the herbs were ground up and cheng was adding them to the gut.

The flames of the alcohol lamp flickered, and gusts of herbal scent wafted from it.

“How strange, these ordinary herbs actually smell fragrant!”

“Yeah, the smell, it’s soothing!”

Offstage, someone let out an exclamation.

Lin Feng smelled it and frowned, the smell in this luxuriant hue was actually the smell of those precious herbs!

Even the host, who had always had a problem with Haoden Ye, couldn’t help but reveal a surprised look at the herbs inside the luxuriant vegetation.

“I’m sorry, can you stay away, your destiny is water, it’s not good for the herbs inside!”Haoden Ye suddenly told the host.

“Huh?Fate is water?”Of course, the host knows that his destiny is water, Chinese medicine more or less learn a little gossip knowledge, but he does not believe that this is related to the alchemy.

“This doctor, are you kidding me?”The host and Milky Way pulled away, but looked at Haoden Ye with an amused face.

People who had been surprised that Haoden Ye’s concocted herbs had rushed to their surprise were also sneering!

What era is this, and you’re still talking about this, you really think you’re making immortal pills!

“I’m not joking, haven’t you ever thought that destiny has something to do with your constitution?Everyone has a different constitution, a different balance of

chemicals in the body, and even the composition of the exhaled gas is different, all of which affect the medicinal properties!”

Haoden Ye didn't have any anger, instead he smiled and explained.

On and off the stage, everyone listened to his words with amazement.

Some people even begin to wonder if their previous beliefs were all wrong.

“Haha, a lot of superstitions nowadays have learned to fool people with modern knowledge, Sven scum, say those people!”

Suddenly Lin Feng's voice rang out and many people nodded their heads at his words.

“It's superstition to bring up modern science, and alchemy is a lie!” This perception is so ingrained that it simply cannot be changed.

Without any explanation, Haoden Ye continued to refine the pills, and five minutes later, the aroma gradually became stronger, and everyone in the room felt energized when they smelled it.

“This smell is just too good to be true, what the hell is going on!”

“Yeah, I feel like my headache has lessened a lot just from smelling this!”

On the stage, several patients crossed their fingers.

Seeing that it was the beginning of a change, Lin Feng's eyes narrowed.

A glance to the stage, he gave Professor Li a wink, Professor Li conference, suddenly slammed the table and stood up, angry face: “Outrageous, this superstition is still believed, I'll call the police!”

Professor Xu also stood up and said angrily, “Doctors, we are all leaders in the field of Chinese medicine, if we allow this kind of thing to happen under our noses, won’t it be laughed at if word gets out?”

Chapter 262

“Professor Xu, Professor Li, aren’t you guys too excited, Chinese medicine should keep an open mind to this, although a lot of history shows that alchemy is a superstition, but isn’t this also a way to pass on Chinese medicine?”

At this point, Prof. Wahl stood up and then made his point.

“Professor Hua, you can believe such scum words?”

Professor Li sneered and looked at Professor Hua with a despicable look in his eyes: “Few people believe in TCM nowadays, how many people still believe in our TCM if we let this group of people continue to do nonsense? I will not allow this to happen on my watch!”

“Yes, we won’t allow it!”

At this time, when they heard Professor Li’s words, someone off stage suddenly roared, these were the people Professor Li had arranged to create momentum for Lin Feng.

Getting a hint from Lin Feng’s eyes, they immediately began to incite the emotions of many doctors on stage.

“Professor Hua, you are highly respected, but your apprentice has gone too far, many parts of our TCM heritage make people unable to understand, some people use this to spread feudal superstitions, this is corrupting TCM!”

However, there were still people who wanted to see if Haoden Ye’s alchemy was real or not, so they also helped or spoke.

Soon there was an uproar offstage!

“Let’s not allow this to happen!”

Suddenly, someone offstage shouted and rushed up to the podium.

Then came a second and a third, and many more rushed to the podium.

“Stop them!” Seeing this, Haoden Ye mentally worried, if they were to kick over their pill furnace, all the efforts just now would be wasted.

There was no hesitation now, and he turned around to block those people.

“Everyone calm down, this is a TCM competition, please don’t use violence!” The host panicked too!

At this time the stage has rushed up two people, Haoden Ye quickly persuade, but which people listen, they are all received Lin Feng instructed up.

Helplessly, Haoden Ye could only make a move!

With a punch to that man’s chest, Haoden Ye knocked that man right off the stage.

“He even lord! It’s so rampant, is this still a doctor?” Immediately someone was furious.

More people rushed onto the podium and pounced on Haoden Ye.

Seeing this scene, Lin Feng had a smirk on his lips.

“Hmph, you’re not even close to fighting me, I’ll discredit you today!” A smug smile flashed as Lin Feng revealed a look of righteous indignation, “Hurry up and call the police, Dr. Jiao’s assistant has done it!”

Several of the professors in the audience were also making a lot of noise and began to make accusations, unable to stop the current mess.

The reporters, on the other hand, came to be interested and rushed to take these precious pictures.

Their cameras are mainly focused on Haoden Ye, because that’s where the best part is.

“I can’t believe there’s a doctor inside who knows martial arts, haha, it’s so exciting, it’s like making a movie!”

“Looking at the segment, it should be at least at the level of a Grandmaster, putting down four people at once!”

The journalists were so enthused photographers that they added photographic effects for effect.

On the stage, Haoden Ye’s figure flashed, and under the fists and kicks, none of them could last more than three seconds.

Those people also seemed to notice that they couldn’t break through Haoden Ye’s defense and turned to jump on Jiao Yuchun and Lin Xiang.

Immediately seven or eight people rushed over to Jiao Yuchun’s side, seeing this, Jiao Yuchun panicked, his figure retreating incessantly.

The gang had sneers on their faces, Haoden Ye could fight them unexpectedly, Jiao Yuchun could not know martial arts.

Soon, they reached the pill furnace and one man lifted his foot over to it.

At that moment, however, the man's ears breezed, and before he could react, a leg flashed in front of his eyes and the man fell to the ground in blackness.

It was a sight that startled a lot of people around!

This girl knows martial arts!

The most surprised were of course the host and Jiao Yuchun, who were closest and could see most clearly.

"Little cheer, you know...you know martial arts?" Jiao Yuchun was stunned.

Lin Xiang didn't say anything, her petite body flashed and moved like a dance, while around her, a scream rang out.

What was most unbelievable was that obviously her movements could be seen with the naked eye, but her figure was like a flash of light, constantly appearing in all directions of the fireplace.

"Quickly! Camera on that girl!" A reporter spotted the scene and quickly asked the cameraman to shoot in a different direction.

"The girl has a nice body, she's average looking, but why do you enjoy watching her hit people so much?" Someone couldn't help but let out an exclamation.

Although Lin Xiang was striking, his movements were so graceful that they were like dancing.

"Arashi Dance!"

At this time, the only person on the stage who was scared of Lin Xiang's martial arts rush was Lin Feng, because he recognized Lin Xiang's moves!

That's a self-defense martial art only the Lin family can learn, Arashi Dance!

It's said to have been pioneered by one of the Lin family's predecessors, with graceful movements, but vicious strokes and flickering shadows!

"This girl is a member of our Lin family, and she's a direct descendant!" Gulping down saliva, Lin Feng panicked.

He would brag that he was a member of the Lin family, but in reality, he was just a sidekick.

And the people who really control the Lin family's resources are the Lin family's direct descendants, who, though equally wealthy, will never enter the center of power!

Therefore, facing the true firstborn, Lin Feng drove fear from deep within.

Of course, there are sidekicks who learn the Arashi Dance, but these act as mere statements.

The Lin family's proud heritage is mainly due to this strict family system.

"Who the hell is this man, and we in the Lin family protect him too!" Lin Feng was confused.

At this moment, a voice sounded and all eyes bet on the pill furnace.

But I saw a white smoke gently floating up inside the fireplace, as if it was alive, condensing and not dissipating!

“The medicine is done!” Haoden Ye suddenly shouted, stopping the people on and off the stage.

Everyone is quiet, and those who are scheming know that it’s too late to stop them.

Amidst everyone’s eyes, Haoden Ye slowly walked towards the fireplace and took out a pill from it.

The whole body is crystal green, like emerald beads, very beautiful!

With a slight smile, Haoden Ye gave the pills a glance to the crowd, then walked towards one of the patients.

Several patients were a little afraid when they saw the turquoise pills.

“Outrageous, I refuse to allow my patients to take this potion, who knows if it has any poison in it!” Professor Lee stood up suddenly, angry.

“I trust this doctor’s alchemy, and I’m responsible for anything that goes wrong!” Professor Hua also knew that this was the last moment, and his face was appraising.

On and off the stage, everyone looked hesitant and the host was in a difficult position.

Chapter 263

“It’s better to let the patient choose!” At this time, suddenly a reporter.

The host was so happy that he quickly said, “Well, let our patients choose to eat it or not!”

Haoden Ye handed the pills to a patient and said, "Feel free to eat it or not, this is a chance for you to be completely cured of your migraines!"

All the patients looked at the pills and wanted to take them but were afraid of the danger.

Thinking about the days of being tortured by migraines, they all looked hard!

This insignificant disease has killed many people!

"Let me do it!" At this time, a sturdy, straight-looking man walked over and snatched Haoden Ye's medicine and put it into his mouth.

All eyes head bet on him, eyes tense.

But the man took the drug and frowned slightly, "It doesn't feel like it's having any effect."

Boom! There was a roar of voices on and off the stage, and the accusations grew louder.

The nervous looking Professor Li and Professor Xu looked at each other and simultaneously relaxed.

"It's just too..." Professor Li immediately wanted to curse Haoden Ye angrily.

However, at this moment, that patient suddenly shook all over, a look of surprise on his face.

"So...so Shufu!" Comfortable voices sounded inside the hall, as if people who had been in jail all their lives were suddenly free.

Soon, the man's eyes gradually moistened and he looked excited, "Good Shufu, really good Shufu, no pain at all!"

Bobbing his head vigorously, the man looked surprised.

Again, all of them uttered exclamations as the man seemed to look much better in their sight.

"How strange, the man is still the same man, why does it feel like he's suddenly changed!"

"Really, is there really such a medical art as alchemy?"

Many people let out exclamations, while the man had already grabbed Haoden Ye's hand and knelt right down, "This doctor, thank you, thank you so much! My migraines are finally gone!"

The other patients also gave Haoden Ye a prayerful look, "This doctor, give us a pill too, I'll pay 50,000 for it!"

"I'll give you a hundred thousand!" Another patient spoke loudly.

"I'll pay \$300,000 for just one to keep me from getting a headache all day, I'm already dying of pain!"

The indignation inside the hall gradually became heated, and those doctors also showed a prayerful look to Haoden Ye.

One could imagine how lucrative it would be to learn how to refine such pills!

You know, an ordinary man would rather spend all his possessions on a migraine treatment, let alone a rich one!

“Oh, since it’s a competition, I can certainly make a pill for all of you, but after the competition it will be a bit difficult, I have other things to do!” Haoden Ye smiled slightly.

This kind of pill could only be made by someone at his level, Lin Xiang could barely make one, but it would take a day, and it would only be one-fifth as effective as the one he made.

Several patients were overjoyed to hear it.

And just at this time, a voice from offstage suddenly sounded out, “Professor Hua, does your disciple know of this alchemy method that you can teach us? I’ll pay five million for it!”

Many of the TCM scholars in the audience came from good families, many of them multi-millionaires, and studied TCM simply because of their love for it.

“I’ll give you six million, cash deal!” As soon as that person finished speaking, someone else immediately followed.

“I’ll pay seven million...”

The shouting of prices was so loud that the hosts were stunned.

Not only him, Haoden Ye and Jiao Yuchun and the others were also dumbfounded.

“Ahem, gentlemen, we’re not at an auction, this is a competition!” The moderator immediately began to emphasize.

“Ten million, I’ll have my assistant come over right away to transfer the money!” The people in the audience simply ignored him and continued to shout loudly.

“Fifteen million, and I’ll give you ten percent of the profits as a percentage!” Someone raised their voice.

Fifteen million, with a ten percent commission, that’s a lot of money, and now the host can’t say anything.

If he had, I’m afraid he would have nodded his head long ago.

One by one, those professors on the stage also looked surprised, Professor Hua smiled bitterly, Professor Li and Professor Xu looked very embarrassed.

It was supposed to suppress Professor Hua this time, but it was unexpected that Haoden Ye had made such a big splash that Lin Feng completely lost face at all.

However, Lin Feng could only grit his teeth and watch, ever since he knew that Lin Xiang was a member of the Lin family’s first family, he didn’t dare to provoke Haoden Ye.

Yet to embarrass Jiao Yuchun, he could still do it, but there was no chance now.

“Thirty million, twenty percent of the profit!” The competition had been fierce offstage, yet the last bid still silenced everyone.

At \$30 million and a 20 percent profit, that’s a price no one can afford to pay.

You know, this migraine drug, once produced, could immediately monopolize the herbal market, so they felt it was still very worthwhile.

“Doctor Ye, thirty million ah, or you can agree to it, it’s good for the patients if this drug is produced anyway!” Jiao Yuchun couldn’t even help but be impressed.

Even Lin Xiang nodded and said, “Yes, with 30 million, you’ll be able to open bigger medicine stores and buy more herbs!”

Everyone’s eyes were betting on Haoden Ye, yet they didn’t see any greed for money on his face.

“Guys, I don’t want to sell this herb, but I can teach you all the refining method and recipe for this herb!” Haoden Ye smiled slightly.

Everyone turned pale at the words.

Don’t even want the price of 30 million for the chance to monopolize this kind of herb, he actually wants to publish the formula of this kind of herb directly.

How is this possible!

“This doctor, you’re not kidding, you should know the value of this herb!” The host stared, incredulous.

The people in the audience showed incredulous looks too!

Professor Hua was also very surprised at first, but he soon showed a look of understanding.

Haoden Ye practiced medicine, never for money, and he even waived many doctors’ fees.

The one who understood Haoden Ye the most was not Professor Hua, instead it was Lin Xiang, who had understood Haoden Ye’s mind just as he said that sentence.

“Listen up everyone, the method of refining this herb is...”

Haoden Ye didn't have any nonsense, he directly started to say the method of refining the medicinal materials, the whole hall was quiet, everyone stopped Haoden Ye's words.

Someone with a heart has pulled out their phone and started recording!

As Haoden Ye told the story, everyone began to believe that there really was alchemy in this world!

Soon, Haoden Ye finished his narration, and there was silence on stage.

"This Doctor Ye not only has medical skills but also medical ethics, further proving that alchemy is not all lies!" Professor Wahl stood up to the crowd.

Chapter 264

Everyone nodded, and even Professor Xu couldn't help but look approving.

"Yes, today is an intergenerational day for Chinese medicine, and this Doctor Ye has convinced us that alchemy isn't on the hot side!" Professor Zhang also stood up.

In the audience, only Professor Li and Lin Feng looked embarrassed.

Especially Lin Feng, he didn't believe that Haoden Ye really knew alchemy.

"It's all our Lin family's alchemy, it's all his work!" Lin Feng clenched his fist.

The one he was talking about was an open secret of the Lin family.

No one outside of the Lin family knew of this man's existence!

To a large extent, the Lin family was able to exist today all because of this man's help.

However, on certain matters the head of the Lin family had disagreed with him, so the man was placed under house arrest!

It was said that no one knew exactly where this man was, yet his legend had been heard by almost every member of the forest family.

Astronomy, geography, gossip, astrology, divination, this man is good at everything!

"He's that man's apprentice, that's why he's around Arashi Dance!" Lin Feng merely clenched his fist: "I'm the most talented member of the Lin family's young generation, and the one most qualified to be his disciple is me!"

"Now, are we ready for the third match!" With a slight smile, Haoden Ye told the host.

The host was still inside the \$30 million and only came back to his senses when he heard his words.

Yet everyone on and off the stage had one question: does the third race need to be compared?

Jiao Yuchun's team had already won the first two games, how could anyone turn the tables in the third?

However, seeing the serious light in Haoden Ye's eyes, the host could only give a bitter laugh, "Now the third contest begins, the method of competition..."

The third game is Integrative Therapy!

There will be six patients on the stage, each with different symptoms, but all with similar difficulty in treating their symptoms.

Each team draws straws to select a certain number of patients to be treated, and success is judged by the results and methods of treatment.

After hearing all the introductions from the hosts, Lin Feng raised his head and smiled wryly at Professor Li.

In this match, they're not just going to win, they're going to make Professor Wahl lose his reputation!

This match had started out as a chance for him to completely crush Jiao Yuchun, and now it was his chance to turn the tables!

Hey, hey, I'll stop laughing later.

Seeing the smile on Haoden Ye's face, Lin Feng was mentally vicious.

Soon, the third game began and each team went over to draw straws.

Patients who were drawn had excited smiles on their faces, which meant they could get free treatment.

Jiao Yuchun's team drew a patient with heart failure, a condition that was difficult, but a piece of cake for Xuan Jiuzhen.

"Dr. Ye, let me take care of this patient and make a name for myself, haha!" Jiao Yuchun reached Haoden Ye and whispered.

Smiling slightly, Haoden Ye shook his head with a bitter smile, this patient even with Jiao Yuchun's medical skills, as long as he had the Xuanjiu needle, it wouldn't be a problem.

“Okay, but be careful, heart failure isn’t a big deal, but it’s still a lot to treat!” Haoden Ye smiled slightly.

With a confident smile, Jiao Yuchun walked up to the patient and began sticking needles into him.

Meanwhile, everyone on and off the stage watched Jiao Yuchun’s every move carefully.

Meanwhile, many people rushed to regret because Haoden Ye was not able to attend the treatment.

It was now very clear to everyone that Jiao Yuchun, the assistant, seemed to be even more powerful than he himself ah.

In less than thirty minutes, Jiao Yuchun had finished her treatment and walked up to the host with a smile on her face.

And at this time, other doctors were treating.

Thinking that any treatment can be used, some people opt for the more complicated approach, which can take over an hour.

At this time, Lin Feng was still boiling the herbs he had configured with the expensive herbs, and the time needed to boil the herbs could take longer than a normal acupuncture treatment.

“Oh, our Dr. Jiao has completed his treatment, now we’ll ask our experts to rate his treatment!”

A few of the handlers stood up at the news, and in their eyes, Jiao Yuchun’s treatment had been considered a success.

Professor Wahl stood up first and walked over to the patient.

However, at this moment, the patient's brow suddenly furrowed and a pained look appeared on his face.

"Ah!"The patient screamed and fell to the floor.

Everyone was pale and stunned to see the patient.

"What's going on!"Jiao Yuchun was also dumbfounded and rushed to the patient to test his pulse.

"What's going on!"Haoden Ye also ran over quickly.

"No, I'm using the Xuanjiu needle for treatment, so this will happen!"

After testing the other's pulse, Jiao Yuchun paled.

By this time the patient's pulse was so weak that he was almost considered dying.

"What the hell is going on, Dr. Jiao, what the hell are you doing to your patient!"At this point Professor Lee occupied himself with an angry face.

"Professor Li don't panic, Dr. Jiao is using new acupuncture methods, perhaps there are many areas he is not fully familiar with!"Professor Wahl was quick to explain.

"Is that the Genjiu needle you were talking about?I already told you this stuff is a lie!Your method of acupuncture just doesn't work in Chinese medicine!"Professor Xu also stood up and pointed at Professor Hua angrily, "Look at what your apprentice bar patient has become!"

“Professor Xu, what do you mean, the efficacy of the Xuanjiu needle is recognized by many people!” Professor Hua also had an angry look on his face.

Offstage, many doctors were also learning the Xuanjiu Needle, but the results of using the Xuanjiu Needle were naturally different depending on each person’s talent.

Many people who could not learn at all, or who had not learned the art, began to doubt the authenticity of the Genjiu Needle.

“Professor Hua, I also feel like the Xuanjiu needle is like a fraud, it’s simply claptrap!”

“Yes, if this acupuncture method is effective, why hasn’t it been passed down, Professor Hua, you can’t lead our TCM down a crooked path!”

A lot of people who couldn’t learn the Gen 9 needle started expressing their discontent!

Faced with these questioning voices, Professor Hua looked embarrassed.

He also couldn’t prove that the Xuanjiu Needle really worked, after all, everyone learned differently!

“Lin Feng, quickly look at that patient!” At this time, Professor Li suddenly said to Lin Feng.

Jiao Yuchun looked embarrassed, arguing incessantly, “Professor Li, it’s too arbitrary to say that the patient’s sudden condition has something to do with me right now, let’s not talk about whether the Xuanjiu needle is effective or not, at least no patient has been aggravated by the Xuanjiu needle yet!”

His words are reasonable, but few people want to believe them anymore.

Chapter 265

“Moderator, do you still want Dr. Jiao to treat this patient? This is a matter of human life and death, can you afford to pay for it if something really happens?” With a sneer, Professor Lee addressed the host.

The host at this time also looked very embarrassed and frowned at Jiao Yuchun, “Dr. Jiao, it’s better to teach the patient to Dr. Lin!”

Hearing the words of Professor Li and the host, Jiao Yuchun turned even uglier and turned her head to look over at Haoden Ye.

As it happened, at this time, Haoden Ye had already completed his diagnosis.

Sensing his gaze, Haoden Ye slowly stood up, his face filled with anger.

“He had thought the patient really had an accident, but the diagnosis came as a shock.”

The eyes slowly scanned the week, “This patient’s sudden condition has nothing to do with Dr. Jiao, he was poisoned!” Haoden Ye’s voice rang out without a hitch.

The whole place was shocked by this statement!

“What do you mean, Dr. Yap, are you saying that we poisoned this patient?” At the news, the host had a look of aggravation on his face and asked a direct retort.

Many doctors under the stage also filled up with indignation, Haoden Ye is clearly wronging them Spiritual Medicine Hall!

Jiao Yuchun also looked surprised and said to Haoden Ye, “Doctor Ye, are you sure?”

With a cold smile, Haoden Ye turned his head to look at Lin Feng, “Of course I’m sure, and I’m also sure that the needle that Dr. Jiao used was poisonous!”

This sentence exit, the host was completely angry, he glared at Haoden Ye, “Outrageous, our needles are uniformly sterilized, I am personally responsible for this, are you accusing me of poisoning the patient?”

At this time, Professor Li and Lin Feng on stage were surprised and had a look of indignation on their faces at the same time.

“How outrageous, if we can’t cure the patient, we’ll say we poisoned him, I never thought there would be such a shameless person!” Lin Feng was furious.

“Quickly separate him from the patient, so he doesn’t continue to screw the patient!” Professor Li was afraid that Haoden Ye would acupuncture the patient and hurried.

“Oh, I can tolerate it if you want to wrongfully accuse Dr. Jiao, but you shouldn’t joke with the patient’s life!” Haoden Ye sneered and pulled out his silver needle.

“No, he’s going to kill the patient and destroy the evidence!” Dr. Li was shocked at the situation, he didn’t want Haoden Ye to cure the patient, if he did, their plan would be ruined.

The host beside him was also considered to be quick to react, and when he heard Professor Li’s words, he instantly reacted and then quickly ran over to Haoden Ye.

However, Haoden Ye was even faster, and now Haoden Ye had already made his move!

In the midst of everyone's gaze, Haoden Ye, from a distance, poked out his two fingers and a silver needle was inserted into the patient's body.

As if pointing through the air, his hands flipped, and in less than three seconds, three silver needles had been inserted into the patient's body.

Everyone looked at his actions, all forgetting that they had to stop Ye Chen just now, and they all looked surprised.

What is this, a point?!!!!

Many people couldn't help but reveal funny looks, no one had ever heard of acupuncture methods from such a distance.

However, at this time, the patient who had just fallen to the ground and was dying, actually began to recover his color.

Not only that, his face seemed to be even more full of blood, where he was still half-dead.

The whole place is in shock!

Everyone was looking at that patient in disbelief!

Professor Li and Lin Feng had seen the power of the Xuanjiu needle, but even if Professor Hua were to administer the needle, it would take at least three minutes.

They had already planned not to give Haoden Ye more than a minute, who would have thought that he would take less than three seconds!

“How are you feeling, this patient?” Before the host reached Ye Chen, he saw that the patient had improved and immediately ran to the patient and hurriedly inquired about the patient’s condition.

The patient checked himself and shook his head, “I feel better and I don’t have the panic attacks I used to have, am I good?”

He had just been on the verge of death, but now the sudden recovery had left him a bit unresponsive, his face a stunned look.

Boom!

Everyone made exclamatory noises, and those doctors who thought they were talented and very good at learning the Xuanjiu needle were dumbfounded.

It only took three seconds for him to treat the patient using the Genjiu Needle!

Without unnecessary words, Haoden Ye walked up to the patient and removed the needles from the patient’s body, then went to Jiao Yuchun and said, “Doctor Jiao, can I see your needles!”

Jiao Yuchun came back to his senses and took out his needle, but as far as his eyes could see, he saw a faint black glow on the needle.

“It really is poisonous!” Seeing the color of the silver needles, Jiao Yuchun’s face changed completely, someone had actually poisoned his needles!

“What’s going on here!” Jiao Yuchun became furious and glared at the host.

At this time, the people off stage also saw the situation clearly and showed a look of disbelief.

Isn't it blatantly harmful to poison a doctor's needle?

The host was now dumbfounded, it was true that he had personally supervised the sterilization of the needles, but who would have thought that someone would poison them!

The host's head was spinning, and he instantly remembered that it was the same silver needle that Lee had access to that he had sterilized.

"Go call Bruce over!" The host was also very angry.

"Haha, since the patient is well, let's forget about it, it should be because Dr. Jiao wasn't paying attention and let his needles get infected with the toxic substance, I think we should forget about it!" At this time, Professor Lee suddenly stood up and laughed.

No one had paid attention to him when he didn't speak, so it was immediately strange when he opened his mouth.

When the patient was half-dead just now, he had immediately accused Jiao Yuchun of leading others to suspect Xuan Jiuzhen, and now he was excusing a person who could have poisoned him?

"Professor Li, why are you in such a hurry to excuse someone else, could it be that this matter has something to do with you?" Professor Hua's eyes narrowed and he turned his head to look over at Professor Li.

Professor Li turned white and turned his head to look angrily at Professor Hua: "Professor Hua, don't talk nonsense, when did I justify someone else, I just said that Li Gui had no reason to poison!"

"Li Gui?" The host frowned and looked at Professor Li in confusion, "Professor Li, there are more than twenty volunteers for this competition, how come as soon as I say Little Li, you know I'm talking about Li Gui?"

This time, Professor Li's face changed completely.

In fact, he was in a hurry to absolve himself, but he was also afraid that Li Gui would give himself up, and he never expected that being in a hurry would spoil things.

Professor Lee turned red and very embarrassed.

Soon, Li Gui was called over by two doctors who still didn't know what was going on here.

"Li Gui, did Professor Li ask you to poison Dr. Jiao's needles?" As soon as the host saw him, he questioned angrily.

He didn't say who had asked Li Gui to poison him so that Li Gui would know that he didn't know much, and asking in this way must have made Li Gui very panicked.

As expected, Li Gui's face went white as soon as he heard his words and quickly said, "Doctor Ma, I didn't do it on purpose, it was Professor Li who made me do it!"

Chapter 266

"Li Gui, don't you talk nonsense!" Professor Li looked at Li Gui in a stern voice: "You slander, be careful I'll sue you!"

In the end, Li Gui was an ordinary little doctor, and was still scared to death by him scolding him so much.

"Li Gui, you know you're guilty of murder and can be sentenced to many years!" Haoden Ye suddenly said at this time.

He hated Professor Li so much that he ordered the poisoning of Jiao Yuchun's needles!

If he hadn't been there, this patient would probably have died.

How dark must the heart of a doctor who treats his patients this way be?

Hearing Haoden Ye's words, Li Gui had a shiver and began to ponder in his heart.

A good man who could do such a thing? He's got his own interests at heart!

"Doctors, it was Professor Lee who ordered me to do this! He wants Dr. Jiao to lose his reputation and have Professor Hua fired from the Spiritual Medicine Hall!" Li Gui made a decision to the crowd.

Boom! It's chaos up and down the stage!

"You... you..." professor Li pointed at Li Gui, his face red with anger.

With his status as one of the pillars of the Spiritual Medicine Hall, he couldn't even suppress a small doctor.

So what if I go to jail? You'll be out in a few years if you're on your own, right?

"Li Chong Hua, what the hell do you mean!" Professor Hua was also red with anger, standing up with a thump on the table and pointing at Professor Li.

"Professor Hua, don't listen to him accuse me unjustly, I didn't order him at all!" Professor Lee also wanted to explain.

However, everyone was already suspicious just now, so what's the point of him explaining it like that?

“Master, I never thought you’d be this kind of person! I was so wrong about you!” Lin Feng, who had been silent, suddenly spoke up.

Hearing his words, Professor Li was shaken!

Lin Feng was leaving him out of it, and he was able to do such a thing.

Many people here still felt that Lin Feng had a good character and praised Lin Feng for being able to be profoundly righteous.

“It’s not you yet... “Professor Li was shivering with anger, if it wasn’t for Lin Feng’s request, why would he have gone to fix Jiao Yuchun?

Yet did he dare to say these words?

Remembering the dreadfulness of the Lin family, he slowly closed his mouth.

“Let the police arrest him, such a man should go to jail!”

“How dare you poison a patient, such people don’t deserve to be doctors!”

There was a chorus of voices from the stage, and the police arrived just at that moment.

According to Li Gui’s confession, Professor Li was one of the suspects, so he was to be taken away by the police.

And there was no doubt that Jiao Yuchun had won this match.

Everyone present, also TCM had seen the healing effects of the Xuanjiu needles.

When the game was over, almost all the doctors didn't want to stay long and rushed back.

They still had to try the alchemy method that Haoden Ye had just described!

Inside Professor Hua's office, Professor Hua sat in his office chair with a sobbing face and said, "Hey, I never thought Professor Li would do such a thing to defeat me!"

"This kind of person doesn't deserve to be a doctor at all, good thing Haoden Ye is here today, we can dismantle his true face!" Jiao Yuchun looked resentful.

"Yeah, if it wasn't for this Dr. Ye being here, it would have been Professor Hua who was taken away by the police today!" Professor Zhang had the best relationship with Professor Hua, so he stayed too.

He also knew a little bit about Haoden Ye's identity, and being one of the pillars of North China, Professor Zhang and Professor Hua had nothing to talk about.

"The three of you are very kind, Professor Li won't be able to stay in the Spiritual Medicine Hall now, and the law won't spare him, my main concern now is Lin Feng!" Haoden Ye smiled politely at the three people.

"That's right, this Lin Feng is a very shady person, this time his master was torn apart and jailed by us, he will definitely deal with us again!" Jiao Yuchun was also filled with worry.

"I think you guys are worrying over nothing, although the Lin family is the number one family in Huaxia, there is a clear hierarchy within the family, Lin Feng is just a sidekick of the Lin family, besides having money, there is actually limited power that can be mobilized!" At this time, Lin Xiang, who did not say a word, suddenly said.

The crowd looked surprised at the news.

“Is this Miss Lin also a member of the Lin family?” Professor Hua suddenly thought that Lin Cheng is also surnamed Lin, so could he be related to the Lin family?

Haoden Ye vaguely guessed that Lin Xiang was a member of the Lin family, but he didn't know what her status was in the Lin family.

“I'm just a minor figure in the Lin family's side of the family, I know a little bit about the Lin family!” Lin Xiang smiled superficially.

She had just opened her mouth to relieve a few doctors of their doubts.

Of course, there was also a desire to uphold the Lin family's reputation.

A scum like Lin Feng, who acted recklessly outside the Lin family, but made people think that the Lin family was bullying people.

Every family has good guys and bad guys, and even the Hong's are divided into factions within them, so you can't generalize.

For example, the dispute between her master and her father cannot be said to make her father a bad man or her master a good man.

The difference of opinion between two people creates a disagreement.

She worshipped Figmen Lin as her teacher, not without a reason to bond from the middle.

In fact, if he hadn't been Lin's apprentice, his father might have done something to his master long ago, so could that make him a bad person?

But to an outsider, hearing that she was a member of the Lin family still made the few doctors present look respectful.

“So it’s Miss Lin’s family, how disrespectful!” Professor Hua quickly stood up and said politely to Lin cheerfully.

Professor Zhang didn’t dare to sit down either, while Jiao Yuchun looked at Lin Xiang in surprise.

I never thought that the little girl that I had to flirt with every time I went to Haoden Ye’s store would be a member of the Lin family!

How did an ordinary little doctor like Haoden Ye get involved with the Lin family?

“You guys don’t have to be polite, I said I’m just a side door of the Lin family, if you really take me as a character, you’d better help me hide my identity, after all, the Lin family works for someone else, it’s not good to spread the word!” Lin cheerfully smiles and cheers.

Several people nodded and began to admire the Lin family in their hearts.

In the end, it is a big family that has been inherited for hundreds of years, and the vision is unique.

They must have first seen that Haoden Ye was not a simple person, so they sent a little girl over to get closer to Haoden Ye.

The various family legends that were associated with this made the matter of Lin Xiang staying by Haoden Ye’s side even more treacherous.

But none of these things are for them to ask about!

After a few polite words, Haoden Ye and Lin cheerfully left the Spiritual Herb Hall.

As they excepted the door of the Spiritual Herb Hall, a pair of eyes stared hard at them.

“Young Master, Professor Li is definitely going in this time, should we send someone to take care of him inside!” A gray-haired old man said to Lin Feng, who was sitting in the car.

“No!” Lin Feng looked at Haoden Ye and Lin cheng and smiled disdainfully at the corners of his mouth, “That old man has nothing left to teach me, so let him fend for himself!”

Chapter 267

“Young Master, Professor Li has many connections in the medical world and is a very famous doctor in the capital, Young Master should save Professor Li!” The old man frowned.

“Huh? By virtue of my Lin family’s sign, who wouldn’t rush to stammer, the one surnamed Li has already been ruined, what’s the use of his previous relationship?” With a disdainful sneer, Lin Feng shook his head.

The old man looked unconcerned and shook his head and sighed.

“Lin Feng?” Inside the Lin family villa, Figmen Lin put down the book in his hands and frowned.

The Foresters have very many backs, most of which are largely forgotten when they are out of the center of power.

They were making waves out there, but the Lin family didn't take them seriously at all, so even Lin's old man had to think for a while before he remembered this one.

"I thought he stayed in Bliss as I recall?"

"He'll already be in Kyoto!" Behind Figmen Lin, Lin cheerfully poured a cup of tea and handed it to Figmen Lin.

"Just a side door, when did the Lin family ever think of them except when they were taking the blame!" Figmen Lin took a sip of tea, tasted it, and suddenly smiled, "After all these years, it's still the tea you brewed that's most to my liking, the other people brewed it, either the temperature doesn't work, or the tea leaves didn't disperse, it's too astringent!"

For the forest family, the side door had another use for taking the blame.

Once the Lynx commits some transgression, or the people at the top strategically violate some law, they will definitely pull a side door out to take the fall.

Of course, for these side doors, the Lin family's compensation was very rich.

It's one way for such a large family to maintain their existence!

With a sip and a smile, Lin Xiang said, "Lin Feng came to Dan City this time and had a conflict with Haoden Ye, so I guess he'll take action against Haoden Ye next!"

She thought for a moment and frowned, "Do you want me to help Haoden Ye out!"

“Oh, there’s no need for you to do anything, just a word from you...” said Figmen Lin, suddenly turning his head to look deeply at Lin Xiang, “Yu Mo, you...Is it a love affair with him!”

Her delicate body trembled slightly, and Lin Yao’s pretty face blushed as she coquettishly said, “Master!What are you talking about, I, Lin Yumo, am rich in experience and haven’t seen any men, how could I have feelings for a loser like him!”

Lin gave her a deep look, his eyes shining with some warmth, but it quickly disappeared.

“Oh, you young people’s affairs, Master doesn’t want to interfere, this person is carrying a different treasure and cannot be deduced by common sense, you can consider it!”Figmen Lin took a deep breath, a pensive look on his face.

“Then... then I’ll go and tell my family to keep Lin Feng honest!”Lin Xiang carefully looked at his master and glutinously said.

“No!You don’t want to help with this matter, instead... you’ll have to have people help you create momentum, just say that Haoden Ye has offended the Lin family!”Figmen Lin’s eyes glittered inside!

“Huh?”Lin Xiang looked at him dumbfoundedly and said, “Master, what are you doing!That would make it even more likely that Lin Feng wouldn’t stop, and would probably make the rest of the Lin family take a shot at Haoden Ye!He’s just a little doctor, and you’re in danger of killing him!”

Figmen Lin’s eyes narrowed, a strange light shining inside them, “Don’t worry, there is naturally a reason for Master to do this!”

Although Lin Xiang is young, she was born in the first family of China, so she is naturally not an ordinary person who can compare to other people.

But with her mind, it was hard for her to guess Lin's reason for doing so.

On the one hand to train Haoden Ye, and on the other hand to try to harm him, what is Master doing?

In the Spiritual Medicine Hall Medicine Conference, after Haoden Ye spoke out his alchemy method, many doctors began to try it at home.

Depending on each person's talent, the effects of the pills they made were different, but the worst would be no worse than the most effective migraine treatment remedy available today, so the alchemy craze began to fill up in Dan City.

For several days, the threshold of the Spiritual Medicine Hall was about to be breached, and many doctors came to the hall, wanting to ask Professor Hua and Jiao Yuchun about other secret alchemy recipes.

At this time, Haoden Ye's first batch of Jade Dew Pills were also on sale.

After negotiations, the price of the Jade Dew Pill was finally set at twenty-five thousand per pill.

However, even at this high price, less than an hour or two after the pills began to be sold, all the pills were snapped up.

Due to the chain reaction, aphrodisiacs, which previously sold in low volumes, are also selling like hot cakes.

Even on the black market, the price of the Jade Dew Pill was flipped to seventy to eighty thousand a piece.

Based on his own profits, Haoden Ye also raised the purchase price of the rock flowers, so that the village people made more.

However, compared to the unprecedented prosperity of the Spiritual Medicine Hall, business on Haoden Ye's side was much bleaker.

Because no one at all knew that he also sold the Jade Dew Pill, and even if someone saw it occasionally, they wouldn't believe it was true.

The next day, there are many fake drugs on sale in the market, there are many "Wang Luwan", "Yu Lujiu" and other herbs for sale, the packaging is the packaging of the Yu Luwan, the name looks similar, without careful identification, you can not see the difference.

Except for a few good friends, no one knew that what Haoden Ye was selling was the real Yulu Pill.

At noon on this day, Haoden Ye and Lin cheng were brushing Weibo when their father-in-law, Robert Shen, walked into the pharmacy with some friends.

"Oh, this is my son-in-law's pharmacy, how about you all take a look!"

These two days, Robert Shen had also heard about the big sale of the Spiritual Medicine Hall Jade Dew Pills, making him feel very proud of himself.

In particular, he was clear that the Jade Dew Pill was still developed by Haoden Ye himself.

Of course, he couldn't resist selling out, so he asked some of his best friends to come to Haoden Ye's pharmacy to check it out and buy some Yu Luo pills back.

However, it was only when they arrived at the entrance of the pharmacy and saw the dismal business here that Robert could not help but frown.

"Professor Shen is not joking, you said your son-in-law sells jade dew pills, why is there not a single person in front of the pharmacy, don't you know how

well the jade dew pills are selling now?" Professor Zhang Jiabin Zhang, who had always been on par with Professor Shen academically, laughed derisively.

Several other people also saw the dismal state of the pharmacy and frowned.

"Yeah, now that you can buy the Jade Dew Pill from the Spiritual Medicine Hall and go out and resell it, you can sell it for almost a hundred thousand, and the Spiritual Medicine Hall has started to stop controlling it, so it won't sell it unless you have a prescription!" Another professor, Shen Binfei, also said.

They didn't mean any harm, but it was just a joke between good friends squeezing each other.

Don't look at them in front of people with a straight face, but in private chatting as if they were talking in a comic book, to squeeze each other to death.

Chapter 268

Robert Shen looked a little embarrassed and smiled dryly, "It should be that the Jade Dew Pills are sold out, let's go in and take a look!" Inwardly, I wondered, "Did Haoden Ye lie to us?"

"Dad! What are you doing here!" Seeing Robert Shen bring people, Haoden Ye quickly got up to greet them.

"I'm bringing some of my colleagues over to your place!" When Robert Shen sweeps his eyes around the store, who is there except Lin Cheng?

"You're doing so well here, selling out of medicine so quickly!" Robert Shen chuckled, and took a special look at his colleague as he said it.

Robert Shen did not want to lose face in front of his colleagues, and a look at the situation, the pills should be sold out, so a little proud of it.

“Huh?” Haoden Ye quickly shook his head, “Dad you’ve misunderstood! I’m not even open yet!”

In an instant, Robert Shen’s face pulled down and gave Haoden Ye a fierce stare, somewhat hateful. “Even if that’s true, you can’t tell the truth, where does that put his old face.”

And Shen Binfei a few people couldn’t help but secretly laugh, if they really were selling Yulu pills, how could there not be a single customer.

Robert Shen’s face was very ugly and glared at Haoden Ye, “Haoden Ye, whether your business makes money or not Dad doesn’t force it, how can you lie to Dad!”

Haoden Ye sounded confused and looked at Robert Shen in wonder.

Shen Binfei saw that Robert Shen couldn’t hang on to his face, and quickly smiled, “Professor Shen, don’t be angry, I think Haoden Ye also lied to you that they sell jade dew pills here just to make you happy!”

Robert Shen looked even more ugly, but Haoden Ye listened with a puzzled face, “I’m just selling the Jade Dew Pills!”

“Haha, Yeh, don’t lie to your father-in-law! Selling Jade Dew Pills and your business here is still so bad!” Shen Binfei laughed and scolded him, whirling around to realize that his words seemed to be a bit mocking, and quickly changed his words, “I mean, what you’re selling here should be the Wang Lu Pills!”

Haoden Ye had also heard of this kind of counterfeit, and quickly shook his head at the news, “What I’m selling is the real Jade Dew Pill, just like the one from Spiritual Medicine Hall!”

The few people in Shen Binfei certainly didn't believe what they heard, and couldn't help but snicker at the sound of another laugh.

And after Robert Shen was furious, he calmed down.

Haoden Ye was the one who took the Jade Dew Pill home to them, he ate it with good results, at that time there were no Jade Dew Pills for sale!

"Haoden Ye, hurry up and bring the jade dew pills you sell to give a few elders a taste!" Robert Shen had to say that in order to prove Haoden Ye's innocence.

"Haha, Professor Shen, you can't be serious, the Jade Dew Pill is a medicine of seventy to eighty thousand in the market, even if Haoden Ye really sells it, he wouldn't dare to bring it to us to taste it!" Shen Binfei chuckled.

That's right, even the entry price of the Jade Dew Pill was at least twenty-five thousand, and there were nearly five or six of them, that's nearly a hundred thousand!

Robert Shen said so, and they were even less convinced that Haoden Ye was really selling Jade Dew Pills.

"Well then, cheerful, you go to those jade dew pills and give these uncles of mine a taste!" Haoden Ye also realized that a few people had misunderstood him and quickly told little cheerfulness.

He sounded very casual, like he was saying something worthless.

"Haha, no, I wouldn't dare eat it even if you did bring it!" Zhang Jiabin quickly waved his hand.

A few other professors followed suit, shaking their heads, and Robert Shen grew increasingly ugly.

Just then, a car suddenly stopped in front of the door and a figure got out of the car.

“Dr. Jiao!” As soon as the man entered, several professors recognized him as Jiao Yuchun.

At this time, Jiao Yuchun’s face was pale, as soon as she entered the door she simply ignored a few people and walked directly to Haoden Ye, “Doctor Ye, I’ll tell you one thing, you must come with me!”

Looking at the two men who should be very familiar with each other, several professors stared.

They didn’t expect that Haoden Ye knew Jiao Yuchun.

“Dr. Jiao, I’m entertaining guests, let’s talk later if there’s anything to be said!” Haoden Ye quickly shook his head.

A few professors listened and stared again, Haoden Ye was talking to Jiao Yuchun like this in order to entertain them.

You know, Jiao Yuchun is Professor Hua’s bottom line, how many giants in Dan City wanted to hire him but couldn’t!

And I heard that in the last Spiritual Medicine Hall Younger Generation Competition, Jiao Yuchun easily got the top prize.

Also, the alchemy technique that was gradually gaining momentum was advocated by Jiao Yuchun, and there were rumors that he was the only one who knew how to do it.

Of course, outsiders didn’t know that the one who taught the alchemy technique was Haoden Ye, and that day Haoden Ye spoke the alchemy

technique as Jiao Yuchun's main force, so other people also found Jiao Yuchun powerful by blackmail.

"If you guys have things to talk about, just go ahead and entertain us later!" Robert Shen was beaming with pride at this point.

I couldn't explain it just now, but I don't have to explain it now.

Haoden Ye and Jiao Yuchun were so close, how could the Jade Dew Pill sold be fake.

"Oh, looking at how close Little Leaf relationship is with Dr. Jiao, the jade dew pills being sold must not be fake!" Robert Shen was afraid that his colleague still didn't believe him, so he even smiled.

"Of course it's not fake, our Spiritual Medicine Hall gets its Jade Dew Pills from Dr. Ye! What, do you still suspect Dr. Ye of lying?" Jiao Yuchun looked puzzled.

Hearing his words, Robert Shen and the others were all directly stunned.

The Spiritual Medicine Hall is the number one old Chinese medicine shop in Huaxia, and they have to buy from others?

For a moment, several old professors were unable to react.

"Oh, of course I believe Yeh, it's just that a few of my colleagues don't, so if you have something to say, hurry inside!" Robert Shen smiled in satisfaction and waved his hand at Jiao Yuchun.

Jiao Yuchun nodded and pulled Haoden Ye to the alchemy room.

And then, several old professors who had returned to their senses ran to Lin cheerfully.

With their income, it's like a pill to take a jade dew pill once, but you can't miss the opportunity!

Haoden Ye was pulled to the back of the alchemy room by Jiao Yuchun in bewilderment, and Irina was startled, "What's the matter? Why are you in such a hurry!"

At the place where no one was, Jiao Yuchun looked even more ugly.

"You haven't heard? Now there are rumors out there that you've offended the Lin family, and the Lin family is looking for an opportunity to screw you!" Jiao Yuchun hurriedly said.

Hearing this, Haoden Ye was also dumbfounded.

Didn't he help Jiao Yuchun beat Lin Feng in the competition?

Did that offend Lin Feng?

And he was wearing makeup that day, how could Lin Feng know who he was!

"What the hell is going on!" Haoden Ye frowned.

"I don't know, but I'm guessing this person is probably Lin Feng, anyway you've been a little more careful lately!" Jiao Yuchun looked grave.

Haoden Ye was unconcerned, it was just offending the Lin family, and they could still openly kill themselves.

He said carelessly, "I don't think the Lin family would dare to do anything to me!"

Chapter 269

"Are you really stupid or fake stupid, if you offend the Lin family, do you still have a good life?" Jiao Yuchun rolled her eyes and looked a little angry!

Hearing him say that, Haoden Ye did start to worry.

However, he didn't regret that he had helped Jiao Yuchun punish Lin Feng, so he didn't have any regrets about this matter either.

And after helping Jiao Yuchun that day, he obtained a purple bubble, which showed that he was doing a good thing and the reward was still huge.

"You don't have to worry, the Lin family is such a big family, why would they deliberately get on my bad side?" Haoden Ye didn't care.

"My Divine Doctor Ye, take care of yourself, the Lin family is the number one family in Huaxia, you are a superb doctor, but you are nothing in their eyes!" Jiao Yuchun smiled bitterly.

"Okay, I know all about it, I'll be careful, thank you Dr. Jiao!" Haoden Ye quickly expressed his thanks.

Seeing that he still wasn't nervous at all, Jiao Yuchun smiled bitterly.

The two of them came out of the alchemy room, where several professors had already eaten the Jade Dew Pill and were relishing the effects of the medicine they had just taken.

“Haha, Haoden Ye this medicine works really well, I’ve been smoking for over ten years and my breathing has been bad, after taking your medicine, I feel like I can breathe a lot easier!”Zhang Jiabin said with a sigh on his face.

“Yeah, I felt it was a bit expensive before, but after taking it I realized it’s not even expensive to sell for 100,000, I just took your medicine and my tired phlegm in my lungs for a few years got better!”Shen Binfei also said.

“Oh, the Spiritual Medicine Hall sells for twenty-five thousand, we don’t have much money with us, how about we give you ten thousand each first?”Professor Sima waited for the crowd to finish before smiling.

Upon hearing this, Haoden Ye quickly waved his hand and said, “Several of you are friends of my father-in-law, how can you still have the nerve to charge money for this little bit of medicine, I can’t sell it here anyway, so just give it to your elders!”

A few people got embarrassed when they heard, it was nearly 100,000 yuan, and Haoden Ye said that he would give it away.

Robert Shen just heard a few colleagues praise Haoden Ye’s medicine, is secretly proud of it, at this time heard Haoden Ye said no money, heart quietly nodded.

“Looks like Yeh is still good at being a human being!”

His son-in-law had become a genius and was doing things in such a measured way that he had glory on his face.

“How can I say this, your medicine is so effective, the cost must not be low, at least we have to give you a cost price!”Shen Binfei quickly shook her head.

They didn’t like to take advantage of others, especially juniors like Haoden Ye.

“Don’t be polite, Haoden Ye has made quite a bit of money working with the Spiritual Medicine Hall, not bad for you guys!” Robert Shen was immediately generous.

Haoden Ye also nodded along, “A few elders are my father’s colleagues, so don’t be polite to me!”

Robert Shen had said so, and it would be preposterous for them to give any more money, and they thanked him gratefully.

Of course, they didn’t forget about Jiao Yuchun, and after a few polite words with Haoden Ye, they pulled Jiao Yuchun along and started chatting.

Haoden Ye and the others can see it every day, but Jiao Yuchun is a rare opportunity to see it, a few people will also pull Jiao Yuchun to talk about wellness.

Seeing that it was getting late, only then did Robert bid farewell to Haoden Ye and left, saying to Haoden Ye on his way out, “Little Ye, I don’t think your business here is very good, why don’t I go and give the school some publicity for you?”

“That won’t be necessary, I don’t expect this pharmacy to make money anyway!” Haoden Ye hurriedly waved his hand.

He was very satisfied with the present situation in the pharmacy, and if the store had been full of customers, he would have been too busy to teach Lin cheng how to make pills.

When Robert Shen saw that he was insistent, he stopped insisting and abandoned the plan.

Seeing them leave, Jiao Yuchun reminded Haoden Ye once again, "You have to be careful, there is a limit to how much I can help you, and when we run into this kind of big family, our Spiritual Medicine Hall has to give in!"

It was only after he left that Lin Xiang stepped forward and asked, "Boss, what's up with Dr. Jiao being so panicked!"

With a slight smile, Haoden Ye didn't say much, but walked to the sofa and sat down, allowing Lin Xiang to follow suit.

"Little cheerful, you're from the Lin family, aren't you!" Haoden Ye didn't have any nonsense, directly picking out the words.

"Well, I'm a Lin's sidekick, so what's up?" Lin Yao wondered.

"Are you telling the truth?" Haoden Ye's eyes became profound.

Since she had known Haoden Ye, Lin Xiang had never seen Haoden Ye look so serious, but she was panicked by him.

However, in just an instant, Lin Xiang came back to his senses and nodded, "Not bad, I'm just a side door!"

Meeting Haoden Ye's clear eyes, Lin Xiang actually felt guilty: "Why are you asking this!"

"An ordinary Lin family sidekick, is that so powerful?" Haoden Ye frowned.

He asked this because he wanted to determine how powerful the Lin family was, if it was just rich, then he could still handle it.

He had seen Lin Cheng's martial arts that day and thought that it would be very difficult for him to fight him.

“It looks like I’ll have to use the koi fish to save my life once it’s in danger!” Haoden Ye sighed in his heart.

Knowing Haoden Ye’s thoughts, Lin Xiang was amused, “Does he think the Lin family’s way of dealing with him is to use force? He’s too whimsical!”

This matter was not on Haoden Ye’s mind, so a few days passed.

These days father-in-law Robert Shen’s attitude towards Haoden Ye was much better, a little more concerned than before.

He also reminded Haoden Ye to give some of the Jade Dew Pills to a few of his relatives, as a way to bring Haoden Ye and his relatives closer together.

Haoden Ye naturally did as he was told, and it wouldn’t take much of the Jade Dew Pill anyway.

Within a few days, Haoden Ye forgot about the Lin family and moved on to other things.

That’s what I want you to do... is to get Muah Shum!

After the time for Maya Shen’s great aunt had passed, Haoden Ye proposed that the two of them try to complete what they hadn’t done before again.

For this, Maya Shen naturally wouldn’t refuse.

However, when things came to a head, Maya Shen suddenly became nervous.

Girls always thought more about relationships than men, and even though she was able to fully accept Haoden Ye in her heart, having sex for the first time still made her very nervous.

Several times Haoden Ye thought it was going to work, but it all ended in the sound of Maya Shen's crying.

Haoden Ye loved Maya Shen very much and knew that she was always nervous, so he stopped embarrassing his wife.

Of course this doesn't mean that Haoden Ye has given up trying, he's still trying to emotionally conquer his wife.

To put it bluntly, the paper creates a little romance to relax Maya Shen's mood.

However, Haoden Ye, who knew nothing about women, was still inexperienced in this area ah, the most successful time, two people can candlelight dinner in the living room, almost about to succeed.

At the critical moment, Robert Shen and his wife returned, leaving the two men somewhat in the dark.
