

Chapter 1187

And how did she bring Suzi out of prison and use her to cause her to become pregnant and want to kill her all the time.

That process, like the kind of medicine Lanita took with great side effects, was a nightmare.

Just imagine, even if there is no relationship in this world, it will not harm a girl so badly.

And he, who was the biological father, actually killed his biological daughter like this.

This is really nothing foreign!

Jarod cried miserably behind him, and when he turned around, he was about to hit the wall, but was held back by the two supervisors behind him.

The supervision relentlessly said: "Mr. Lin, you have no right to die, and you should not harm us."

"Let me die, let me die..." Jarod said: "I can only atone for my sin if I die."

"Sorry, you are not qualified to pronounce your death sentence." Supervisor said.

Jarod: "Oh..."

His long wailing was heard by Suzi who was walking outside the gate.

At this time, Suzi also burst into tears.

Darius beside him felt extremely guilty.

He said in a low voice: "Suzi, I...I am too narrow-minded. I thought you would have a sense of pleasure when you saw it. After all..."

Suzi remained silent.

She said nothing.

Just cry.

She didn't know what she was crying.

Crying for your unfortunate childhood?

A teenager crying for his own misfortune?

Crying for a father like this?

Weeping the ugliness of the world gives her a panoramic view?

She didn't know.

She cried silently along the way.

Darius's letter was guiltless.

"Sorry Suzi..." After all, he is too narrow.

He didn't know what to say if he was guilty.

When it was time to get out of the car, Suzi wiped his tears and smiled barely at Darius: "Cousin, thank you, I know you are kind, I know, I used to hate them so much, I want to kill them myself. Every day, I think they will have a very happy ending, and now I finally see it, thank you."

Darius: "Cousin will never take you to see them again."

After a pause, he said again: "I will never force you to see my grandfather, you are right, you and my aunt, you have nothing to do with my grandfather."

After this trip to see Jarod's family of three, Darius understood a truth.

If you really feel that you owe Suzi, let her and her mother live happily and don't have any burdens in their hearts. This is the best remedy for their mother and daughter.

Suzi nodded: "Thank you, cousin."

After a pause, she smiled sweetly: "You are the one who paid me. I can't get my salary for nothing, I went to work?"

"Then tomorrow..." Darius asked tentatively.

Suzi said briskly: "I will go to my mother's place tomorrow. My mother didn't say that she would not recognize her nephew."

"Good!" Darius's heart was filled with joy: "Hurry up and work."

Suzi nodded and went up.

She was only happy in front of Darius, but there was still melancholy that could not be driven away in her heart.

She was bored all afternoon.

The guidance was about to get off work, Galia and Rayna came to her, Galia said: "Tomorrow we are going to my aunt's to eat rural vegetables, we will buy some gifts for her after work, so let's say yes, you pay. ?"

Suzi: "You little shrewd ghost!"

"Will you go?" Galia asked.

"Go! But, do you have to connect the only one?" Suzi said.

"Go pick up the one together!" Rayna said.

It happened that Arron and Christopher didn't come to pick up Suzi this evening. Because of something temporary, Suzi and Galia Rayna went to pick up one of the largest shopping malls that Shen only went to.

As soon as they arrived at the mall, Suzi received a call from Arron, and she connected: "Hey, Arron, are you finished with your business?"

Arron said in a gentle tone: "You come to the top floor and show you something."

Chapter 1188

Suzi was startled, and then asked: "What is it?"

Arron's tone is slightly mysterious: "You'll know when you come up."

Suzi: "

..."

What is going to ask again,

Arron hung up over there.

Suzi turned around and looked at Galia and Rayna. She asked with a grotesque smile: "You two, what the hell are you doing?"

Galia smiled: "Your husband wants to give you a surprise. Someone like President Fu really thought that he could still think of such a romantic scene. He also specially asked us two to bring you to this mall. Come on, go up and take a look."

Rayna also said seriously: "We really don't know what the surprise is."

Lilly also urged: "Mom, go and see!"

Suzi took the only one with Rayna and Galia, and went straight to the sixth floor of the mall.

The sixth floor is the top of the mall.

The first floor of the mall is a cosmetics and shoe bag area.

The second and third floors are the clothing hall.

On the fourth floor is the Living Home Pavilion.

The fifth floor is the gourmet and leisure floor.

Suzi has been to this commercial building several times. She thought that the food floor would be gone on the fifth floor, but she never knew there was a sixth floor.

The direct elevator reached the sixth floor. After exiting the elevator, Suzi realized that the sixth floor was so quiet.

Coming out of the aisle, Suzi was stunned by the sight in front of him.

This turned out to be a furniture hall.

The so-called furniture hall is not ordinary furniture, it is all antique, or even original wooden furniture.

Although Suzi didn't understand precious wood, but when she saw these pure wood furniture, she fell in love with these things at a glance.

Good things are good things.

Good things are really unforgettable.

Suzi saw Arron from a long distance. She came to Arron and asked in surprise: "Arron, these furniture are really good-looking. At first glance, they are superb. Should a coffee table cost tens of thousands of yuan?"

Arron smiled and said, "Well! I didn't expect that you, an architect, would still study furniture so much."

Suzi: "I haven't eaten pork, haven't you seen a pig run?"

Arron nodded: "These furnitures are made of pineapple. A piece of tea costs tens of thousands, almost hundreds of thousands. The entire set of furniture for every style here is more than one million or more..."

Suzi: "..."

Her eyes were round.

After a long while, she said, "Arron, we don't lack furniture in our house."

Arron snorted coldly: "You have always said that you owe your mother, and you have always said that your mother has never had a good life in her life, and you have..."

He used a series of parallel sentences.

Suzi immediately smiled embarrassedly: "Arron, thank you, thank you so much, for being so thoughtful for my mother."

Arron: "I personally let her elders come to see it, I'm afraid she won't want it, so I ask you to come over and have a look first, and if you find it, we will send it to her."

Suzi immediately said: "Arron, you really know my mother too well. My mother may have been influenced by my grandma. She really likes this kind of substantive and antique things. She definitely likes it, that's... .."

It's too expensive.

Although it was his husband who paid for it, Suzi was still very sorry.

Here, Arron has already said to the shopping guide who bought the furniture: "That set is needed. I think that set is pastoral."

The shopping guide said: "One thousand eight hundred million?"

Arron nodded: "Yeah."

Suzi: "..."
