

Chapter: 1535

In the end, Bai Yi successfully signed a contract with Mayweather. The first order was scheduled to be delivered in half a month, with a total of 10,000 vaccines.

Bai Yi is finally the first step towards its rise!

“Lin Fan, I think I am dreaming!”

When he came out of the hotel, Bai Yi bounced and said, the smile on his face couldn't hide.

“In this short year, what happened is really incredible, and I also think my luck is exaggerated.”

“You said, shouldn't I be a lucky person like they said?”

Pouch!

Lin Fan was amused at once, thinking in his heart: You have a bullshit, isn't your husband running and breaking his leg?

“Hate, you dare to make fun of me!”

Bai Yi hit Lin Fan angrily, and said angrily:

“I won't sleep you tonight!”

Lin Fan quickly raised his hands to surrender, and said helplessly:

“My wife is right in everything.”

As long as Bai Yi can be happy, Lin Fan can do anything.

For a long time, Bai Yi also sighed deeply and said:

“Over the years, people have always looked down upon me, and now I have finally lived out my appearance.”

Then, she looked at Lin Fan deeply:

“They all say that I have good luck, but in my opinion, you are my lucky star!”

She knew that Lin Fan helped resolve many crises. Although Lin Fan didn't rely on himself, at least it was Lin Fan who helped contact the big men.

Lin Fan smiled slightly and put his arms around her shoulders and said:

“I believe we will get better and better!”

See it!

Bai Yi was also emotional, and whispered:

“Lin Fan, I... shall we have a baby?”

.....

And this time!

After Li Xijun was kicked out of the hotel, he was regretful.

“Bitch! Bastard! Since you dare to ruin me, I will never make you feel better!”

then!

She took out the phone, dialed a number, gritted her teeth and said:

“The person who asked you to arrange it, do you have it? I want that pair of dogs and men to die tonight!”

Originally, she had no intention of letting Bai Yi and the others go. Since they had already taken action against herself, she decided to make them die tonight.

At the same time, Li Xijun also viciously stated that Bai Yi must be killed first!

Then, after she sent her the location of the hotel to the killer, she rushed directly to the airport.

At the beginning, she planned to do the same. After buying a murderer, she escaped overseas, so that no one could win her.

Anyway, she won't return to China anymore. There is nothing to stay in this ghost place, it's better than a foreign one.

Half an hour later, Li Xijun was sitting in the first-class cabin of an airplane, holding a glass of red wine in his hand, with a vicious smile on his mouth.

She looked at the time and estimated that Bai Yi and Lin Fan at this time were already dead!

She is just waiting to watch the news of Jiangshi tomorrow!

boom!

The plane's engine started and was ready to take off.

At this time, her heart was finally let go, and she said to herself triumphantly:

“Dare to offend me Li Xijun? You are destined to be lucky!”

As long as you leave Huaxia, it will be the sky high and the bird will fly, and no one can help her.

just!

How long hadn't waited for her to be proud, the change suddenly happened!

A sirens sounded, and then police cars and military vehicles came from all directions and stopped the plane at once.

The scene was so magnificent that even military helicopters were used, and it looked like it was waiting.

This scene stunned all the passengers present!

“What's the matter, how come all the troops are here?”

“Could it be that there are terrorists on the plane?”

Everyone was suddenly panicked, and for the first time in their lives, such a magnificent and shocking scene.

At this time, Li Xijun was also a guilty conscience because he was a thief, so the moment he saw those police cars was a little disturbed.

His face turned pale instantly, and there was a deep tension in his eyes.

Soon, the cabin door was opened, and soldiers with real guns entered the cabin one after another.

At this time, everyone did not dare to breathe in the atmosphere, and they were obviously terrified.

And those soldiers seemed to be looking for something, and when they arrived in front of Li Xijun, they suddenly stood still!

“Look up!”
