

# Chapter: 1726

And this time!

Another giant in the Imperial Capital, the Zhu family!

This is an existence no less than the Lin Family's comprehensive strength, and even before the Lin Family entered the imperial capital, they were the greatest princes and generals.

Its history is so long that it can even be said to surpass the Lin family.

Once in the imperial capital, it can be said to be the dominant family, even if it is now down, but it is still a lean camel bigger than a horse, and all forces dare not easily provoke it.

even!

After the turmoil of the Lin family, many of the horses under the Lin family began to switch to the Zhu family.

This declining top giant is quite a sign of resurgence.

And it was them who dared to kidnap Yao Lao in such a blatant manner.

“Lao Yao, we treat you as a guest, and please don't be ignorant of praise. You should call the genius doctor Lin quickly and let him come over.”

At this time, a majestic young man was looking at Yao Lao with a smile.

He is the eldest son of the Zhu family, Zhu Qianlong!

Humph!

However, Yao Lao snorted coldly and turned his head directly, without even looking at the other person.

This move. Suddenly, Zhu Qianlong's eyes were filled with murderous intent, and he threatened with evil voices:

“Old stuff, do you really think that my Zhu family dare not kill you?”

Isn't Yao Lao just a bad doctor for them?

Kill it, kill it. Even if the medical industry is a little dissatisfied, is it possible to dare to openly confront their Zhu family?

“Hey, Xiaolong, how did you talk to the elders? What Yao always said is my old age.”

At this time, an old voice sounded, and then an old man walked over with a cane step by step.

Upon seeing this, Zhu Qianlong smiled gloomily and backed away a few steps.

And that old man is Zhu Yuanchao, the head of the Zhu family!

Under that old-fashioned appearance, there is an extremely terrifying dragon hidden.

This old man made Lin Hongtu jealous for fifty years, and even Lin Hongtu immersed him in saying that as long as Zhu Yuan Dynasty did not die, he would not be able to feel at ease.

Obviously, Lin Hongtu knew that as long as the Zhu Yuan Dynasty lived for one day, the Zhu family would still be able to turn over.

So we can see how terrifying the old man is.

Zhu Yuanchao came to Yao Lao's side and said with a big smile:

“Old brother, why are you doing this? We really don't intend to embarrass you. We just want to see the genius doctor Lin. You will sell me a face and recommend it!”

For Yao Lao, Zhu Yuanchao still stored a respect.

Yao Lao glanced at him, but asked vigilantly:

“Why are you looking for him?”

He knew very well that as long as he cooperated with Zhu Yuanchao, he would chew on his bones in the end, which was no less than seeking skin with a tiger.

It would definitely not be a good thing for Zhu Yuanchao to find Lin Fan.

Zhu Yuanchao smiled slightly and said:

“I am very interested in the new vaccine he developed, so I want to talk to him about cooperation, so that it can benefit the society and make a lot of money. Brother, don't you count me a share? ?”

original!

Zhu Yuanchao also took a fancy to the new vaccine. Like Lin Hongtu, he only checked the general situation and knew that the vaccine could make a lot of money.

It is even very possible to let the already fallen Zhu family rise again!

That's why they kidnapped Yao Lao, hoping to find the mysterious doctor Lin through the relationship of Yao Lao.

But Yao Lao frowned and said coldly:

“Then you guys are too late, Lin Shenyi has already reached a cooperation with Xin Baishi, and he is afraid that he won't find new partners anymore.”

If you cooperate with the Zhu family, won't the profits be given to outsiders?

Moreover, at the risk of being annexed by the Zhu family, how could Lin Fan agree?

just!

Upon hearing this, Zhu Yuanchao laughed grimly:

“Xin Bai, a little one, can he compare with my Zhu family?”
