"Ah." All six of them stayed, as if death had descended.

"It's over, it's really over this time."

"I'm going to die, had I known that the end would still be death, I might as well have just died in battle with Omi." Team Leader Fen said.

"Oooh, I don't want to die."

Those six people all felt the moment of imminent death.

However, in the next second, they didn't see the powerful demon beast's claws fall.

The six people were too busy looking at the head of the demon beast, only to see that there was an extra person at some point.

"Puff." That person plunged a claw into the demon beast's head.

All the movements of the demon beast came to a halt.

"Boom." The demon beast fell down.

Everyone was dumbfounded and looked at the man incredulously, he was Omi. Remember the URL [.kanshu8.net](http://kanshu8.net)

Omi had actually saved them at a critical moment.

And yet they had just thought they were certain to die, not rushing up to fight and die with Omi.

All six of them felt ashamed of themselves.

"Omi, you're still alive." Yao Fang shouted in surprise.

Omi pulled his claws off the top of the demon beast's head and said as he broke open the beast's skull, "I don't die that easily."

Saying that, Omi bent down and laughed, "Another Hong Meng Beast Core has been harvested."

Omi didn't expect that he had killed fourteen demon beasts today and harvested three Hong Meng Beast Nuclei.

That's right, all fourteen demonic beasts were killed by Omi, and the six of them would have been dead just now if Omi hadn't saved them.

At this moment, everyone's ears, a voice sounded, "Congratulations, you have completed total annihilation in this month-long hunting mission."

"Ah."Hearing this voice, Fen, Du Fei, Hu Guangrong, Brother-in-law Ni, Kasoli, Yao Fang, and the six of them were all silly, looking at Omi incredulously.

They knew very well that they hadn't even killed one of them, so it was Omi who had killed all fourteen demon beasts by himself.

"Heavens, what kind of person is this, one person has killed fourteen demon beasts."

Omi saw the six of them looking at him in a daze and said, "Don't look at me like that, yes, after you guys escaped by yourselves, I still killed those ten demon beasts with great difficulty by myself, and fought for more than an hour.After that, I chased the traces and came here, just now in the stone forest, I came across three demon beasts that I killed, as for this last one, you have seen it, no need to say anything."

"Omi, you killed fourteen demon beasts all by yourself."Kasoli said.

Omi snorted, "You guys are really not righteous enough to leave me behind, I really didn't want to save you guys just now, but I ended up doing it."

Fen was busy saying, "Omi, you misunderstood us, when we ran into the demon beasts just now, you rushed up without even saying hello, we should have let the beasts scatter first and then find the ones that were left alone to kill, but you all rushed up and were surrounded by so many, we thought, you won't survive at all, if we rushed up too, we would only sacrifice ourselves in vain, so."

"Alright, you don't have to explain to me, after all, you really don't have to die with me, and although I won in the end, who knows if I'll be able to kill all the monsters in the end.Go back."

After saying that, Omi took the lead in heading back.

Along the way, no one spoke much, and the atmosphere was made a bit awkward.

After returning to the camp, everyone also went back to their own rooms.

The second day.

Early in the morning, Fen shouted, "Brothers."

Omi walked out of the room and said, "Team leader, what are the arrangements for calling everyone?"

Fen said bitterly, "I'm sorry, but from now on, I'm no longer the leader of Team 9."

"What."

"This month's mission has also been completed, so I think I should go to Group Eight as well.I'm sorry, brothers, but I've thought about going to Group Eight.Thank you all for your understanding and support for me."

Omi didn't say anything, while the rest of them were filled with loss.

"Team Leader Fen, you really want to go to Team 8, you saw it, Omi was so strong yesterday, it may not be without benefit to stay."

"That's right."

Fen said, "No need to say anything, I've already made up my mind, besides, we left Omi behind yesterday and ran away, I'm already ashamed to face Omi."

Omi said, "But I didn't take it to heart, I was just a little disappointed at the moment, and I've come to terms with it after I came back, it's only human nature."

"But inside me, I still feel guilty, Omi, thank you for your candor, from now on, you'll be the head of the ninth team, goodbye." After saying that, Fen walked away.

The crowd sighed.

Omi said, "Since Fen has left, then I will be the leader of Team 9 from now on."

"Team leader."

"Team leader."

"I don't have a problem with you being the team leader." Everyone said, being very submissive to Omi.

"Thank you all, yesterday's incident is over, but I hope that all of you brothers, if you encounter this kind of situation again in the future, don't be afraid of death, it's only best to go forward and face it bravely. Just like yesterday, you guys ran away, but the result was still almost death."

"Team Leader Tang, don't say that, I'm already ashamed of myself, don't worry, there's absolutely no next time."

"Me too, next time even if I know it's death, I'll rush up."

Everyone nodded.

Omi waved his hand and said, "Alright, there's no need to say so much with your mouth, see you next month."

"Uh, team leader, where are you going?"

Omi said, "I'm going to take a trip away from the Wolf World, and it's time for me, to find a weapon of my own. Damn it, I can't take the loss of not having a good weapon this time."

Omi left the Sky Wolf World.

Anyway, Wolf World was free time as long as the monthly quests were completed, so he could go anywhere.

This time, Omi didn't just need to find a good weapon, Omi also needed to find a sword that was known for its speed, and then incorporate it into his Heavenly Yuan Great Compassion Sword, so that Omi's sword would be extremely fast and his strength would soar again, plus if he found a good divine weapon, his strength would probably be many times higher than it was now.

However, how could a suitable divine weapon for him be so easy to find.

Omi would be busy with a lot of things this month, and it was very likely that he would find nothing.

As soon as Omi left the Wolf World, he heard the voice of the Three-Eyed War God, "Omi, not bad, I already know all about your performance, I will report to Princess Nian Shi."

"Erm, thank you, Senior War God."

"It's time to call me Captain Wolf."

"Yes, Captain."

"Every month, you have to complete a hunting mission, where are you going if you're not in there cultivating in preparation for next month's hunting mission?" Three-Eyed Warlord asked.
