

King of kings

2445

Every day, apart from being with his family, Omi was cultivating the Three Wonders Domain.

Omi wanted to continue strengthening the Three Wonders Domain and even, one day in the future, he would create the Three Wonders Space.

Since all of Omi's relatives had been resurrected, Omi had kept a much lower profile.

Because Omi had resurrected so many of his relatives, he was also afraid of accidents, and if he died again, there would really be no chance of resurrection.

A person, who had a concern, would become cautious.

Thus, time passed, year by year, swiftly, and in the blink of an eye, a million years had passed.

One day after a million years, the former owner of the Overturning Mirror, Gu Yan, came.

"Hahaha, Brother Tang."

"Ah, big brother Guyan, what are you doing here." Omi was busy welcoming him, ever since that day that brought him back to life, Guyan was nowhere to be seen.

"Brother Tang, I've been in seclusion for millions of years, and now, I've finally regained the strength I once had, and even strengthened it. All of this is thanks to you ah."

"Brother Guyan, why do you say that, to say thanks, I have to thank you." Remember the URL .kanshu8.net

"Brother Tang, if you hadn't brought me back to life with the Hong Meng divine Stone, just using that lotus, then I'd be as weak as a chicken today. Alright, I won't say any more nonsense, I came here today to invite you to go with me to the Evil God Relic." Big Brother Gu Yan said.

"Evil God's Relic ah?"

"Yes, you shouldn't know about this place yet."

"No, no, big brother Guyan, I've been to the Evil God Relic before, but unfortunately, I was kicked out."

"How is that possible, inside the Evil God Relic, it's all three no-space, with your strength, I'm afraid it's still difficult for you to enter by yourself."

"Big Brother Guyan, I have died before and have come into contact with the Three Nothing Spaces, I myself have already studied the rules of the Three Nothing Spaces, and I have also created the Three Nothing Divine Sword and the Three Nothing Domain."

"What? The Three Nothing Realm?"

“Yes.”

“Brother Tang, you’re really a god, only a middle-ranked immortal, but you’re able to peek into the rules of the Three-Free Space and create your own Three-Free Realm, you’re too incredible for me. I originally wanted to be grateful to you and bring you in, but it seems that you don’t need me to bring you in, you can go in by yourself.”

Omi laughed bitterly, “Brother Gu Yan has no idea, the last time I entered, I was kicked out by the people inside, if it wasn’t for the Blue Emperor pleading for me and seeing through I would have been killed by the people called the Bitter Sacrifice.”

“What? They’re so shameless.”

“So, I don’t dare to go there now, after all, I’m not as strong as them.”

Gu Yan said, “Brother Tang, how much condensed power have you reached in your Three Nothing Realms?”

Omi was puzzled and asked, “What is condensation?”

“It’s just strength, the stronger the condensation, the stronger the strength.”

“Oh, I don’t know, there’s no comparison.”

“You try to make it now, I’ll know in a minute.”

Omi immediately made the Three Nothing Domain.

After a while, Guyan said, “Brother Tang, your Three Nothing Domain has only just begun.”

“Yeah, it’s only just started, how much condensation has it gotten?” Omi asked.

Gu Yan said, “Truth be told, your Three Nothing Realm has only just begun, and has yet to produce a hint of condensing power, i.e., zero.”

“Oh, so weak.” Omi was depressed, fruit

Ran, the difference between him and those people of the Blue Emperor was very far.

Gu Yan said, “Don’t be frustrated, Brother Tang, you should know that you are only a middle-ranked Immortal now, we, at first, only after becoming a high-ranked Immortal for a long, long time, we gradually peeked into the rules of the Three-Free Space, and then after a long, long time of cultivation, we created the Three-Free Domain, after that, we continuously strengthened the condensation of the domain. Compared to us at first, you’re already very powerful.”

“En, I hope so. By the way, big brother Guyan, how powerful has your Three Nothing Realms reached?”

“Almost, three horses of condensation now.”

“Three horsepower of condensation?”

“Yes, if I hadn’t died once, I would have reached five or six horses, what a pity that I was so far behind.” Gu Yan said regretfully, while there was still a hint of anger in his eyes.

Omi asked, "How many horses of condensation in total?What can you do with more coagulation?Still, it's still a high-ranking Immortal ah, but with a difference in strength."

Gu Yan said, "There's no need to be frustrated, Brother Tang, although I'm not sure, but I guess that when our Three Nothing Domain condensation reaches a certain level, it's likely that we will create Three Nothing Space.How did the Three Nothing Spaces of the Evil God's Relic come about?That nature was also created, by whom?There's no way to prove that, that Evil God Relic, we also named it ourselves, everyone called it the Evil God Relic after that, and then it really became the Evil God Relic."

"Oh, when the condensation reaches a certain level, it turns into space."

"Right, if one day you can create your own three no-space, then the strength is almost on the same level as the owner of the Evil God's Relic."

"Then what if the strength is even stronger?"

"Who knows, if we can create space, can't we create worlds and universes if we get any stronger?"

"Ah, to create the world, the universe?"Omi's body trembled, as if he had found some direction.

Guyan said, "What is the Three Nothing Spaces?It is the space where there is nothing, a brand new, as yet unused, unadorned space.When one day, we add time, then space, then the sun and moon and the heavens and the earth, and then add some life forms, and so on and so forth decorations, then this space is the same as the world we live in now."

Omi nodded, "I see, when it is possible to reach this level, a world has been created."

"Right."

Omi said, "Then, who created this world we're living in now?Where are the people of creation?"

"Oh, if you ask me, who am I going to ask.All I know is that before we humans existed, there were two other great eras in this world, and in those two great eras, there were powerful people who created many, many divine weapons and various relics."

Omi said, "Where have all those powerful people from the past gone now?"

"I don't know."

"Oh."Tang smiled bitterly, it was a bit like the mortal realm once was, before humans came along, it was the time of the dinosaurs, and the dinosaurs informed that mortal realm.

Perhaps it was the same thing.

"Omi, you made a very good choice by not choosing to become an Immortal Emperor,"Gu Yan said.

Omi smiled, "Really? You know about that too."

"Of course, what I heard from Nian Tian, in the future, there are still many truths waiting to be discovered, for example, the once powerful species that ruled this world, where did they all go, or, what made them extinct?Will the fate of our human race return to the path of the once ancient?Everything still needs to be explored by more geniuses."
