"My name is White Fox, and the one just now is Purple Rain."

"Ah, you guys are from the five factions."

"Right."The woman in white nodded her head.

Omi asked, "Why did you save me?"

A voice came from outside the door, "I saved you because you're quite ambitious."That woman in purple walked in.

White Fox was busy asking, "Purple, where is that crazy woman?She didn't do anything to you, did she?"

"With her."The woman in purple snorted disdainfully.

Omi said, "I thank the two seniors for saving my life, but thanks aside, if the two seniors' purpose in saving me is the same as Caiyun Fei Fei's, to possess me, then I will never follow."

"Ha."The purple-clothed woman and the white-clothed woman snickered at once.

Omi looked at them with uncertainty in his heart.

The woman in purple was pretty, but if she was the one who wanted to take advantage of Omi and had to force it, Omi might have agreed.As for the white-clothed woman, Omi was dead set against it. The first website m.kanshu8.net

However, Omi was clearly overthinking.

The purple-clothed woman said, "Kid, don't daydream about you, you alone are not good enough for me."

The woman in white also said, "Kid, we're not like that bitch Caiyun Fei Fei, besides, I'm a yin and yang person, while Zi Yu, is a great beauty, you're overthinking."

Omi busily said, "I'm so relieved then, it really scared me to death, I thought you guys would push me too."

"Alright, what's the name?"Zi Yu asked.

"Back to Senior Purple, my name is Omi."

"Omi, you're in the Evil God Relic, there's obviously no way for you to live anymore, Caiyun Fei Fei will kill you if she finds a chance, and we, we can't watch you all the time, I think it's better for you to leave here early."

Omi said, "Truth be told, in the Evil God's Relic, I'm afraid that Caiyun Fei Fei isn't the only one who wants to kill me."

"Are there other people who have such strong killing intent towards you?" The woman in white asked in shock.

"Yes, a man named Bitter Sacrifice, that son of a bitch, I'm afraid his desire to kill me is no less than Caiyun Fei Fei."

"Who the hell are you, and why do so many people want to kill you so strongly?"

"I don't know what kind of bad luck I've had, but I haven't even offended them anyway, so if I have to find a reason, it's that I'm too weak, too easy to bully." Omi said with both fists clenched.

Zi Yu said, "Then I advise you to leave the Evil God Relic, you're so weak, even if you stay here and cultivate, I'm afraid you'll find it difficult to obtain the Evil God's will. You'll also lose your life in vain."

"Really? However, since I'm here, I won't leave. I still hope that the two seniors will take me in."

"I can keep you here to cultivate, but I can't guarantee that you won't be killed by Bitter Sacrifice and Caiyun Fei Fei."

"Thank you."

Omi was extremely depressed, these two enemies, the feud was so unreasonable, Omi hadn't offended them at all, instead one slapped Omi and the other tried to strengthen Omi, it was obvious that Omi was the one who suffered, but instead, he made it look like Omi had offended them.

"Weak, I have to be bullied, I'm not happy, I must bend the rules and surpass them in strength." Omi vowed inwardly.

Omi immediately sat down in the same place to cultivate.

Zi Yu and White Fox did the same, and everyone was quietly cultivating.

Omi sank his heart and carefully felt the Three Nothing Spaces, studying their mysteries, the deeper they studied, the more condensed their Three Nothing Fields became.

A day later, Omi suddenly opened his eyes and seemed to have discovered something.

"Hey, what's going on?"

"Why do I have the feeling that the three no-space here is a bit different from the one I entered after my death before? Where exactly is the difference?"

Omi had a comparison and immediately noticed the difference.

Omi's heart was somewhat tingling with joy because, this was the only way to better discover its patterns and find out its arcana.

At this moment, in the Three Factions, Guyan also said in his heart, "There seems to be something different about the Three Nothing Spaces here, ah, I must find out where it is different, so that I can wish that I can refine the Three Nothing Spaces' mysteries faster."

Omi and Gu Yan, both found out what was different, but the others, who had never died, could not be compared at all.

Presumably, Omi and Guyan's next progress would be very speedy, far surpassing the others.

It was only Omi and Guyan, who was smarter and who could grasp its fundamentals.

Ten years later.

"Haha, I seem to have some eyebrows." Omi's face was happy.

At this time, Omi's voice came from Zi Yu's ear, "Omi, congratulations, you've reached a peerless condensation in your Three Nothing Domain."

"Eh, is that so, hehehe." Omi smiled, this definitely had something to do with his comprehension over the past ten years.

White Fox said, "Omi, you kid can do it, only ten years, you've reached a one-peat of condensation."

"Thank you senior white fox."

Zi Yu asked, "Omi, your comprehension, is very high. Did you have other different experiences? It could stimulate you to deepen your understanding of the three no-space?"

Omi asked, "What does Senior mean?"

"Like, have you ever come across any other relics or anything like that in this no man's land before, or anything else strange that's connected to the three no man's spaces."

"This, let me think." Omi immediately remembered.

In his heart, Omi said, "Yes, I have previously, entered an uninhabited area on the edge of the South China Sea, where I encountered a very, very deep underwater relic, and felt like I ran into a ghost in that underwater relic? Murphy? Is that something that's also associated with the three no-space?"

Omi was delighted, it seemed, he had a lot more inspiration within him.

"Omi, you speak." Zi Yu was busy asking.

"Senior, I'm so weak, what can I run into, once I do, I'm afraid I'll die immediately." Omi didn't tell the truth.

Because, people were selfish, although they saved Omi, it wasn't time to share with them right now, but Omi vowed that if he achieved something in the future, he would definitely share with them, and must wait until Omi's strength, not weaker than them.

"Also." Zi Yu didn't ask any more questions.

White Fox also resumed her cultivation.

Omi did the same.

Right now, Omi, combining the space after his previous death and the encounter with the uninhabited area on the edge of the South China Sea, had a great burst of inspiration, and it seemed that there were very, very mysteries that could be solved.

Studying the mysteries of the Three Uninhabited Spaces was the process of continuously solving the mysteries of the Three Uninhabited Spaces.

At this moment, in the Three Factions.

Gu Yan also looked greatly pleased, as if these 100,000 years had been quite rewarding.

“Haha, it really has allowed me to find many new ideas, it seems that having died once before, it really wasn't without half a meaning, but it still has such profound value.”Gu Yan's face regained confidence.
