

A Billionaire's Reincarnation Chapter 291-300

Chapter 291

Chen Haoxuan he saw that number two was not returning his words. He wasn't stupid enough to keep asking, so he also dealt with number two seriously.

Both of them were not ordinary people, one was a chief professor from the future century and the other was a senior agent from Rice, both of them were equally strong, Chen Haoxuan had not been in the 21st century for long to exercise, but he had plenty of combat experience. As for Number Two, he had been training since he was a child, and his combat experience was also strong, and his body was several times stronger than Chen Hao Xuan's, but how could his combat experience be as strong as Chen Hao Xuan's, the man from the future century.

No.2's body was no match for Chen Haoxuan's sharp blade. Chen Haoxuan kept dodging around No.2, leaving some marks on No.2 in the process.

Seeing how agile Chen Haoxuan was, Number Two fired so many shots in succession, he failed to hit Chen Haoxuan with more than one shot, instead allowing Chen Haoxuan to get close to him again and again, leaving a scar on his body. He simply put his phone away, then also took out his dagger like Chen Haoxuan, and fought Chen Haoxuan hard.

This time Chen Haoxuan was under pressure, and the two of them were in a firefight on the narrow roof of the small building, the clash of daggers and daggers making dang-dang-dang-dang sounds, and every now and then the sound of a thumping, hard fist fight.

The sound of an alarm bell rang and many police officers came at the entrance of the University of Johor Bahru. "Everyone get out of the way, don't hinder us police officers from handling the case." Ma Xiongjian shouted loudly to those who had gathered around the dead man.

The police surrounded the deceased with a cordon, at which time Li De walked up to the deceased to check his condition.

Ma Xiongjian came up next to Li De with a security guard, and Ma Xiongjian said to Li De, "Chief, he is a security guard from the University of Xinshan, and he was at the entrance when the crime happened, so he saw what happened."

Li De, he said to the security guard, "Can you tell me what is going on?"

The security guard said, "Chief, it's like this, when school was over this afternoon, I was standing at the entrance to maintain traffic, and suddenly there was a burst of gunfire, and then I noticed a tall student's head was smashed, and from what I heard the gunfire determined that it was coming from several places, which indicated that there were several people with sniper rifles, blocking this student."

"Could this man be some kind of big shot? Where else would the people who assassinated him need to make such a big effort?" Reid asked curiously.

"This student is the child of ordinary people, he followed a man named Zhu Tian to hang out, so he often followed Zhu Tian to fight with others." The guard said.

"A small punk student, does he need to work so hard? I suspect the assassin didn't want to kill him, but the people around him, and he just happened to be in the way of the person the assassin wanted to kill, so he was out of luck." Reid deduced.

"Right, I remember that when he was shot, it was Chen Hao Xuan who was behind him." The guard suddenly remembered the scene and said.

"Then where is Chen Haoxuan?" Li De said nervously, Chen Hao Xuan was his lucky charm, since he knew Chen Hao Xuan, Chen Hao Xuan had helped him time and again to achieve great success, now although he was still the director, but his salary had increased a lot, his superiors told him that there was no vacant official position now, otherwise he would have been promoted long ago. Chen Haoxuan also gave him a lot of gifts, so he did not want anything to happen to Chen Haoxuan in his heart.

"I don't know, the scene was very chaotic, I guess he ran away too." The security guard said.

"Well, thank you for your help." Reid politely said to the security guard.

"With bullets coming from multiple corners and so much construction around the University of Johor Bahru, it would be a difficult thing to try to stop someone on the ground, unless it was on the roof of a tall building, and yes, the person who stopped the dead man must be on a tall building." As Reid thought of this, he looked up to the tops of the tall buildings around him.

As soon as Li De looked up, he suddenly found two people fighting on the top of a tall building on his right, the fighting skills were so hot to watch that he felt those two people were like characters from a movie, super powerful.

"Ma Xiongjian, look over there, there are people fighting on top of that tall building, I suspect that one of them is an assassin, you quickly lead people to surround the building and evacuate the residents inside. Remember, they're all masters, you have to be careful." Li De said to Ma Xiongjian.

"Yes, Chief." Ma Xiongjian responded.

Ma Xiongjian led a group of policemen to run towards the tall building where Chen Hao Xuan was, and once they reached the tall building, they first guarded each staircase entrance before they started evacuating the residents.

Some of the police officers were responsible for evacuating the residents, while Ma Xiongjian led most of them to the stairway on the rooftop.

Ma Xiongjian could hear the sounds of fighting at the top of the stairway and he suddenly shouted, "Charge, and said leading the charge."

Seeing the sudden appearance of so many policemen, Number Two got scared, he and Chen Haoxuan were equally strong and if Chen Haoxuan had the help of the police, he would definitely lose,

so he thought of running away. He suddenly roared out and charged towards Chen Haoxuan, the dagger in his hand waving continuously.

Chen Haoxuan's feet kicked in and he flipped over, trying to roll over to No. 2's back. But he didn't expect Number Two to jump straight off the roof.

"Don't move." Ma Xiongjian shouted loudly as he led his men on the roof with a pistol pointed at Chen Haoxuan and the others.

The building was sixteen stories high, since they dared to jump, did they think this was the first floor? Their action scared Ma Xiongjian and the others. They rushed to the edge of the rooftop and saw that the two men who were just on top of the small building were having a fire fight in mid-air, and they were relying on grabbing the window to prevent their bodies from falling down.

"You yard! Is this still human?" Ma Xiongjian couldn't help but curse.

"Captain, that man in the white suit seems to be Chen Hao Xuan." A policeman next to Ma Xiongjian said to Ma Xiongjian.

"You two are standing and observing the enemy, report to me immediately if anything happens, everyone else follow me downstairs." Ma Xiongjian said loudly.

They did not dare to look towards Chen Haoxuan and the others, they dared to jump from a sixteen-storey high building, they could also fight in mid-air and grab the window if they wanted to stop, such bullish skills they were ashamed of themselves.

He saw Chen Hao Xuan and a masked man fighting in mid-air, and he was astonished. He didn't expect Chen Hao Xuan's skills to be so powerful that he slowly came down from the roof of the building without any protective tools, and this was the first time he had seen such a scene.

"I hope nothing happens to Chen Haoxuan." Li De prayed secretly in his heart, saying.

With Chen Haoxuan in mid-air, his advantage came out, his agile body could do whatever he wanted in mid-air, while No. 2, he was not comfortable in mid-air, and every now and then Chen Haoxuan kicked him off.

Chapter 292

Number two knew it by now. He was not a match for Chen Haoxuan, and if he dragged on like this, he would definitely be dragged down by Chen Haoxuan, who would then catch him together with the police.

After forcing Chen Haoxuan away, Number Two suddenly released his left hand that was gripping the window, and his body suddenly descended rapidly. After Chen Haoxuan saw Number Two's move, he knew that Number Two was trying to escape, so he also let go and hung down with Number Two.

Ma Xiongjian and the others were still taking the lift downstairs now! There were already a lot of onlookers gathered downstairs, they were all watching from afar because Chen Hao Xuan and the others were fighting in the air causing a lot of things to fall downwards, if they walked in a bit, they would probably be killed by things falling down from the upper floors.

Seeing Chen Hao Xuan and No.2 falling down, all the people watching downstairs were looking at Chen Hao Xuan and them nervously, they all thought Chen Hao Xuan and them were dead, because there was no one downstairs to pick them up and there was no one to pick them up.

When they were about to hit the ground, No.2 started to keep grabbing the window to reduce the speed of his fall by constantly grabbing the window. Chen Hao Xuan didn't, his head was down and he kicked at a window, his body was like a rocket, flying towards number two.

With a bang, Chen Haoxuan's fist hit No. 2's face, probably with so much force that it broke the cloth used for No. 2's mask. Chen Haoxuan now had no place to lend a hand because he was far from the wall, so he wrapped his right hand around No. 2's neck and spun him around with force, turning No. 2 outside while he was inside. Suddenly he quickly let go and pushed No. 2's back with both palms, and No. 2's body suddenly went fast to the front, and now he had nothing left to grab.

As for Chen Hao Xuan, he managed to grab a window on the fifth floor by relying on the bouncing force generated by pushing Number Two, and then slowly came down with one grab and one release.

No. 2, he knew the strength of his body, just now Chen Hao Xuan pushed him so hard, which made him droop much slower, now it was the fifth floor, according to his current speed of descent is equivalent to only the sixth floor jump, his body is so strong, feet first landing he most likely will not die, unless he landed head first. At this moment, he wanted there to be a person below him! Then he could have crushed the man and escaped, but the onlookers were far away.

If he landed feet first, he could live, but he would be crippled and caught by Chen Haoxuan, which he would not allow, and even if he wanted to, Abel and the others would do everything they could to him. So the only way he could do it was to die, head first or bite his tongue. In the end he now landed head first, letting his body arch and relying on the cushioning of his body to forcefully change his position in the air as he fell downwards.

Chen Hao Xuan was in a terrible mood when he saw No.2's move, he had easily found someone who wanted to assassinate him, and now well, he was forced to kill himself while he found out everything.

With a loud bang, Number Two kissed the earth, but the earth seemed to dislike him and just let him turn into a pile of mud.

Chen Haoxuan landed unharmed, his clothes were now in tatters and his handsome face had a few black and blue spots from being hit by Number Two, and he didn't know if Number Two was jealous that Chen Haoxuan was better looking than him and specifically sought out Chen Haoxuan's face to attack.

Chen Haoxuan he didn't go closer to see what happened to number two, because the man had turned into a pile of mud, could he still be alive.

Chen Haoxuan wanted to go back, he didn't take a few steps before he met Ma Xiongjian, who saw Chen Haoxuan and immediately asked anxiously, "Mr. Chen, where is that assassin?"

Chen Hao Xuan pointed to the body of number two and said, "Fell down from the stairs and died."

"Mr. Chen, as this matter has gotten too big, so please also come with us to the police later, we will make a good statement and let you back in right away." Ma Xiongjian politely said to Chen Haoxuan, he knew before that Chen Haoxuan was very powerful, but today he realized that Chen Haoxuan was not powerful, but perverted.

Chen Haoxuan said, "My clothes are too torn, so I want to go back and change a set of clothes before going to the police station with you guys, how about this! You arrange for someone to take me back and drive me directly to the police station by the way."

"Okay." Ma Xiongjian said, and he called his best friend in the police force to pick up Chen Hao Xuan.

Chen Haoxuan was driven to his residence by Ma Xiongjian's good friend Xiao Wang in a police car. After changing his clothes, Chen Haoxuan immediately followed Xiao Wang back to the crime scene.

Li De and the others were still checking for clues and Chen Hao Xuan had nothing to do for the time being, so he opened his laptop and opened a drawing software he had created himself. He had seen what Number Two looked like, so he wanted to draw a picture of it to see if he could find out any information that would be useful to him.

Chen Hao Xuan recalled what Number Two looked like and kept fiddling with his hands on the keyboard. By the time Li De had taken care of things and sat in the police car that Chen Haoxuan was in, Chen Haoxuan had already drawn out the appearance of Number Two and was checking the identity of Number Two throughout.

"Hao Xuan, are you alright?" Li De said to Chen Haoxuan with concern.

"It's fine, let me show you something, this is what the assassin looked like just now." Chen Haoxuan turned his laptop towards Li De and said.

"As expected of Chen Haoxuan, you were able to memorise the other party's appearance and draw it out with just one glance." Li De complimented Chen Haoxuan and said.

"See if you can find out his information." Chen Haoxuan said.

"Yes, I'll go back and have someone check it out right away. By the way, did these assassins come to assassinate you?" Li De asked.

Chen Haoxuan nodded and responded, "Yes, they all came to assassinate me, I was almost finished off by them some time ago, I had a total of more than ten shots in my body, fortunately my body is strong, otherwise there would no longer be a Chen Haoxuan in this world. As for today's incident, it went like this. I was leaving the school when I was suddenly rudely squeezed out of the way by a tall man, and I cursed him, saying that you were in a hurry to go to your next life! I didn't think I'd be right, he was killed by mistake by those who wanted to kill me."

"Hao Xuan, why didn't you call the police after such a big incident?" Li De said in surprise, he didn't expect the case to be that big, assassinating Chen Hao Xuan and nearly taking him out twice.

"They are assassins, killers, they are very secretive in what they do, they kill without morality, they will do anything as long as they can kill the other party, plus they are very powerful killers, so you police came to protect me - it won't do much good. Unless you guys send your experts to protect me." Chen Haoxuan said.

"An expert? We want masters too, but the people in our police force are all ordinary people, so why don't you come to our police force as a trainer sometime?" Li De changed the subject as he spoke.

Chapter 293

"I'm talking to you about the assassin! Why did you withdraw to the point of asking me to become an instructor at your police station! There are two clues now. One is the look of the assassins, and the other

is the sniper rifle and pistol used by the assassins. As far as I know sniper rifles are hard to buy, and it's even more impossible to bring them from foreign countries to China, so those assassins most likely bought them from the local people after they came to Johor Bahru. Your police department also has quite a few acquaintances in the underworld, so you can go and ask people in the underworld about the source of this sniper rifle and pistol." Chen Haoxuan reminded.

"I will send someone to check it out, but your safety" Li De said.

"I'm responsible for my own safety, I don't need you police to protect me." Chen Haoxuan said.

Chen Hao Xuan followed Li De back to the police station, he carefully told the story of what happened, in order to the police believe, Chen Hao Xuan lifted up his clothes, those police officers who made statements saw the injuries on Chen Hao Xuan's body, their scalps were numb, thinking that wounded like this did not die, life force can be stronger than small.

That night, many police officers appeared in the city of Johor Bahru to check the houses, they only checked foreigners, because the assassin who was forced to commit suicide by Chen Hao Xuan was a foreigner, so the police suspected that the other assassins were also foreigners.

Ai Beier, she watched the news and was so furious after learning of the death of her men that she vowed she would kill Chen Hao Xuan and let Chen Hao Xuan's blood wash away the shame Chen Hao Xuan had inflicted on her.

Ai Beier she learned from the news that the police in Johor Bahru City were going around checking all foreigners who could not produce their documents and would be taken to the police station as guests. She told him that they were stowaways and that they would be in trouble if they were caught by the police. She gave him 10,000 RMB and told him that if a policeman asked if there were any foreigners staying with you, he should just say no.

With the police force in Johor Bahru, it was difficult to find out if there were any foreigners in the city in the fastest way possible, but it was much quicker for them to ask at each hotel.

That's how Abel and the others got through, the police came to the hotel where her men were staying, asked, the owner said no, and the officers left.

Ai Beier, she was now a student at the University of Johor Bahru, so she wasn't afraid of people checking, she went back to the University of Johor Bahru, she asked a girl called Mieko out and they went to the river in Johor Bahru.

"Mieko, you must have come to Johor Bahru City for Chen Haoxuan as well, right?" Ai Beier said to Miezi, when she had once taken part in agent training, her instructor had agreed to the islanders' request to help them train a group of agents in order to put pressure on them, and Miezi was among them, she and Miezi had competed against each other I don't know how many times, both of them were about the same, but in some way, she was a bit worse than Miezi.

Ebelle she knew that Chen Haoxuan was a difficult man to deal with, so she needed help, not to put her men at risk.

"Yes." Mieko didn't deny her purpose for coming to Johor Bahru because Ebaele knew her and what else would be worth her rushing from the island to Johor Bahru University except for Chen Haoxuan.

"I have approached Chen Hao Xuan and he told me that he is very much a man of his own country and that he only thinks of his own country, no matter how attractive the terms offered by other countries are. So you don't have to think that you can get anything out of him unless you steal and rob like I did, and maybe you can even force him to give up what you need. I obtained a copy of advanced computer technology from Chen Hao Xuan some time ago, we suspect that Chen Hao Xuan's Thousand Buddha Stone Pagoda website may also have the technology inside, if you cooperate with me to kill Chen Hao Xuan, I promise you that I will give you a copy of that computer technology, of course if we get any more benefits from the operation of killing Chen Hao Xuan, we will follow the old rules, if we can copy it, we will copy it, if not, we will split it in half. " Abel said.

"I can't make that decision, I need to ask my superiors and I will agree to you if he does." Mieko said.

"Fine! Then contact your superior as soon as you can, I'll give you one night here, hopefully I'll hear good news from you the next morning." Ebelle said.

"Ebelle, we're done with our business talk, let's talk about personal matters! You should have used the beauty ploy on Chen Hao Xuan earlier, right? I wonder if you were successful?" Miezi said to Ai Beier with an evil smile.

"No, he's just a log, he didn't even budge when I was so forthcoming, after that I invited him to work in our country of rice, guess what he did, he said a whole lot of big words to reject me. I had no choice before I tried to kill him, we almost killed him some time ago, but unfortunately he was too strong in his own right and we didn't succeed, the only advantage we got was getting the laptop that Chen Hao Xuan used to use." Ebelle said.

"He is indeed a very good boy, if I were a normal person, I would be smitten with him." Mieko laughed.

"Why don't you try it too, with your beauty tricks plus your family's special love-making pills, I'm sure soon Chen Hao Xuan will fall under your skirt." Ebelle joked.

"That's for dealing with ordinary people, against experts, it's useless." Miezi said.

The two of them, Mei Hui Zi and Ai Beier, were wolfing around the river, an idea to make a fight, Ai Beier wanted to use Mei Hui Zi's strength to kill Chen Hao Xuan, while Mei Hui Zi wanted to get Chen Hao Xuan's share of computer technology at Ai Beier's place, and also what she got during the assassination of Chen Hao Xuan, she would not share with Ai Beier, she would take it all for herself.

When she heard that Chen Hao Xuan had been assassinated again, she ran to the police station in a hurry, as she was on a mission to protect Chen Hao Xuan's life.

Shen Ruyan was so angry! She was not hiding when she was assassinated, but she was still strutting around with a group of people for a drink. She didn't know which hotel Chen Hao Xuan was in, so she had to ask around the police station one by one.

Shen Ruyan didn't know what kind of luck she had, but she found the hotel where Chen Hao Xuan and the others were drinking, but the waiter told her that Chen Hao Xuan and the others had already left. Shen Ruyan was so angry! She felt as if she was playing hide-and-seek with Chen Haoxuan.

Chapter 294

Shen Ruyan finally found Chen Hao Xuan at his residence. He was at the entrance of Chen Haoxuan's residence and saw Chen Haoxuan directing a group of people to work on some strange things.

Chen Haoxuan he was preparing for his own safety by hiring his staff and the equipment in his factory from a friend who owned a hardware factory. He was now remodelling his place, he wanted to make his place the safest place to live, others kept walking around, he was worried that someone would try to stop him.

Shen Ruyan walked into Chen Hao Xuan's residence, "Chen Hao Xuan." Shen Ruyan shouted in a delicate voice.

Chen Haoxuan had long since spotted Shen Ruyan, he turned his head and said to Shen Ruyan indifferently, "I am busy now, if there is nothing important, you can come back to me every day!"

Not even giving her the right to speak, she was very unhappy in her heart, if it wasn't for the development of the country, she definitely didn't want to see Chen Haoxuan. She said, "There's something very important to find you, it's about your safety."

Hearing Shen Ruyan's words, Chen Haoxuan immediately instructed the workers he had hired to teach them what to do before he said to Shen Ruyan, "Go, go to my room."

The door to Chen Haoxuan's room had been replaced with an iron door, the window at the top of the room was still broken and he was going to install bulletproof glass tomorrow, Chen Haoxuan sat on a chair by the wall and said to Shen Ruyan, "Come sit here, it's safer here."

Shen Ruyan sat down next to Chen Haoxuan and she spoke out to Chen Haoxuan, "Chen Haoxuan, I heard that there are assassins who want to assassinate you, I know a few very powerful people who are very willing to come and protect you as long as you are willing to spend money."

"I don't need anyone to protect me." Chen Hao Xuan said indifferently, although he knew Shen Ruyan's identity, he did not know whether Shen Ruyan was a good person or not, so it was best to be wary of people like Shen Ruyan.

"Do you think you alone can deal with those assassins? If you have so much money and don't take it out to save your life, do you want to spend it until you go to hell?" Shen Ruyan huffed.

"There are so many people who want me dead now, how do I know if you want to harm me or help me. For my own safety, I don't accept help from people I'm not familiar with." Chen Haoxuan said.

"You - you are really wooden, if I wanted to harm you, would you have survived until now?" Shen Ruyan bit her lips, thinking that she must be furious now.

Chen Hao Xuan turned around, looked into Shen Ruyan's eyes and said seriously, "If you really want to help me - you will help me find out who is trying to kill me."

"Alright! I promise you, I'll go back and help you find out now, and if you're in any danger, remember to call me, maybe I can save you." Shen Ruyan said.

"Alright! If there is really that day, I will call you." Chen Haoxuan smiled and said.

Shen Ruyan left and Chen Hao Xuan continued his transformation.

Shen Ruyan, when she returned, sent a message to her teammates who were at the headquarters, asking them to help find out who was trying to kill Chen Hao Xuan.

Li De of the Hsinshan City Police Department was also using his powers to help Chen Hao Xuan investigate. They started off by using the computer to investigate, as this is the age of the internet and everyone's information is kept in the computer, but this information is not available anywhere, but only in the police department's computer system. And the computer in the police station can only check the identity of Chinese people, not foreigners, so they had to ask foreign countries for help.

As long as the picture is there and nothing else, it is really hard to find this person out.

Chen Hao Xuan he was at his residence, constantly directing his staff to work, and whenever he had time he was fiddling with his laptop, he was making a software to search for pictures, this software can help you search for pictures similar to this one in a short time as long as there are pictures, but if those pictures have set secrets they can't search the road. So if Chen Hao Xuan wanted to search for number two, he needed to sneak into the database of each country and then search again.

The next day, Chen Hao Xuan's place was already remodeled, dozens of skilled workers worked together to remodel it, it was hard not to be fast. Chen Haoxuan's current residence looks very ordinary on the outside, but the mystery inside is big, when entering the living room you need to enter through many small doors, so to speak, you just enter Chen Haoxuan's residence to open a door, every time you open a door you will find four doors, some doors have what can be opened sometimes but not.

This is a bewitching array designed by Chen Hao Xuan, the windows of his residence were made with bulletproof glass, which he borrowed from the police station. There are many places where he lives that have weapons wrapped around them. It can be said that the place where he lives is a hidden crisis, and the place where he lives now, unless he teaches you how to enter or he goes out to fetch you in, it would be very difficult for others to enter Chen Hao Xuan's place, and they would probably be trapped in the Vertigo Formation.

In the morning, Chen Hao Xuan carried his bag with his laptop to his classes at the University of Xinshan. He returned to his classroom, sat down in the seat he always did and found a letter in his drawer, he opened it and read it, it read: "Do you want me to kill you in public, or do you want to come to the back mountain of the University of Xinshan and fight me to the death? I am now waiting for you at the back of the hill, and if you don't come before 12 o'clock, I will come to you."

Chen Hao Xuan thought that the person who wrote this letter was a girl, because the font was very elegant and should be a person with a lot of substance, not a wild one like Ai Beier.

Chen Hao Xuan he chose to go to the back of the mountain to meet those assassins, all the things he designed now did not exist on his laptop anymore, they all existed on the Thousand Buddha Stone Pagoda website so that he was not afraid of being stolen.

Chen Hao Xuan put the laptop in the security room at the entrance of the University of Xinshan City, he also bought a camouflage uniform like the security guard, then he went to the wholesale toy town not far from the University of Xinshan City and bought a telescope, and several boxes of small blades, the small blades he used as flying knives, and the telescope, he used to check the enemy situation.

After he had purchased what he needed, he walked towards the back of the hill at the University of Johor Bahru. On the way, he did not take the right path, he specialised in walking along the roadside or where there were many plants, and he took the binoculars from time to time.

"Report sir, Chen Hao Xuan has gone towards the back of the mountain." Aibel's man, Number Four, leaned into his headset to report the situation to Aibel.

"Continue to monitor." Ai Beier ordered.

Ai Beier turned her head to Miezi who was beside her and said, "Chen Hao Xuan is already here, tell your men to get ready! If your men can't capture him alive, I'll have my men shoot Chen Hao Xuan."

"Don't worry! I have brought ten of my men with me to the University of Johor Bahru this time, a few of them went with me to Rice for agent training, and a few of our island's most honourable senior ninjas, with these masters even our original instructors would be no match." Mieko said smugly.

Chapter 295

"You'd better be careful. Chen Haoxuan isn't easy to deal with." Ai Beier cautioned lightly, what she wanted most was to see Miezi and the others and Chen Hao Xuan lose their battle, then she would

come out and pick up the slack, then she could do whatever she wanted, even if she didn't give Miezi the benefit of the doubt, Miezi couldn't do anything to her.

"For technology we islanders are not as good as you rice, but our island martial arts, that is the number one ninjutsu in the world, our ninjutsu can kill people invisibly, it is something you rice people cannot surpass." Mieke said smugly.

"Then how come you are so bad, you have competed with me so many times, how many times have you beaten me, humph, you don't even brag about it." Ebelle said unhappily.

"I learned fighting arts not ninjutsu so it's normal for me to be half as strong as you, I came to your country of rice mainly to learn how to become a high level agent, we will train our ninjas the same way you train your agents and by then we will be the best agents in the world." Mieke was smug beyond belief, if Ebelle hadn't needed to use her, Ebelle would have fought her.

Suddenly the voice of Number Four came to Ebelle's ears, "Sir, Chen Hao Xuan suddenly went into the bushes and then disappeared, I don't know where he ran off to."

"What are your eyes for? Keeping an eye on it all the time is letting him get away." Ai Beier scolded.

"Ai Beier, don't worry, since Chen Hao Xuan is here he won't leave so easily, just prepare for a good show! Chen Hao Xuan he thinks that if he hides in the woods we won't be able to spot him, he's wrong, a few of my men are high level ninjas, their stealth techniques won't even detect his presence even if you walk up to him, as soon as he enters the woods where we ambushed him we will be able to spot his presence.

When the time comes, you order your men to shoot him in the foot, and as soon as he is shot in the foot, we will be able to capture him alive." Mieke said.

"Okay." Aibel responded.

When Chen Haoxuan he suddenly went into the grass, he didn't leave, but waited there motionless for a long time, that's why the Fourth suspected that Chen Haoxuan had hidden elsewhere, while the Fourth was looking for Chen Haoxuan.

He hid and looked carefully at the high places around him. A sniper rifle is most effective when it is high up, so Chen Haoxuan thought there must be an assassin hiding in the high places around him.

Chen Hao Xuan hid in a pile of grass and searched for a long time without finding the assassin, so he moved to higher ground, he didn't walk up, he hid and hid.

When Chen Haoxuan reached the top halfway up the hill, he found traces of someone passing by in a pile of grass, so he followed those traces carefully, he pulled out a small tube and put a tiny needle in it. This was a weapon he had made yesterday, he only had to blow on a person, the other party would usually think they had been stung by a mosquito, if they were hit by this needle they would quickly pass out and would not wake up for less than ten hours, Chen Haoxuan wanted to capture a few assassins back alive before he made such a weapon, the name of this weapon was blowing arrows.

Chen Haoxuan is like a ghost, sometimes appearing and sometimes suddenly disappearing. Chen Haoxuan was passing a dense tree when he found a few fresh leaves on the ground, the weather is very good these days, no rain and no wind, so under normal circumstances the green leaves will not fall. So Chen Haoxuan thought it was an assassin, there were assassins hiding in this tree.

Chen Haoxuan looked up and found a spot on the tree where the leaves were dense and he suspected that the assassin was hiding there. Chen Haoxuan climbed up the tree very carefully, and the tree did not even sway when he climbed it, so he could see how careful he was.

The assassin's body hadn't moved and if it wasn't for the muzzle of his sniper rifle moving, Chen Haoxuan might not have been able to spot that the assassin was in the tree.

Chen Haoxuan took out his pinky-thick blowgun tube and aimed it at the assassin who was still looking for him in the tree. Poof, a silver needle from the tube turned into a silver light and flew the assassin's neck. The needle was nailed to the assassin's neck and surprisingly the assassin did not move, he thought a mosquito was biting him, he was worried that if he moved, Chen Haoxuan would find him.

Chen Haoxuan he continued to stay in the tree, waiting for the assassin to faint, he didn't have to wait many seconds before the assassin's body started to sway uncontrollably, Chen Haoxuan knew his chance had come and he quickly climbed upwards. The assassin had already been hit by Chen Haoxuan's poison needle, making him dizzy, so he could not feel Chen Haoxuan's arrival. Chen Haoxuan approached the assassin with a slashing palm strike to the assassin's neck and the assassin grunted and passed out straight away.

Chen Hao Xuan retrieved the poisoned needle from the assassin's neck, carefully got the assassin under a tree and hid, he called Li De and asked him to send all the police officers to surround the back of the Sunshine City University in full armour, if he could bring in the Flying Tigers, even better. In addition Chen Hao Xuan also asked Li De to have someone bring a relatively large suitcase that could fit an adult down.

The people who assassinated Chen Hao Xuan were all experts, they were still hiding and trying to assassinate Chen Hao Xuan, Chen Hao Xuan did not have the confidence to fight with them unless those assassins dared to fight him in an open and honest firefight. Chen Haoxuan he now wants to wait for Li De to bring the police, when the police come then the assassins will naturally leave, no matter how powerful they are, they will choose to hide in the face of hundreds of heavily armed police officers.

Li De received a call from Chen Hao Xuan, after knowing that Chen Hao Xuan was assassinated by numerous assassins, he immediately gathered all the police officers to run towards the New City University in full armament, he would call the captain of the SDU and ask them for support.

Chen Hao Xuan is a student and a businessman, yes, his status is average, but his contribution to the country is not small! He has developed the all-powerful mobile phone and used this high-tech product to attract many investors to invest in the all-powerful mobile phone, making the city of Hsinshan full of factories that produce all-powerful mobile phones, which require a lot of labour to start up. If Chen Hao Xuan continues to develop, he will be able to solve the employment problem of a large number of people once he expands his production in the future.

Therefore, Chen Haoxuan's contribution to China is still quite great, so it is only right that a large number of police officers are sent to protect Chen Haoxuan.

"Has everyone spotted Chen Haoxuan?" Ebelle asked her men through the headset.

"Number one didn't spot Chen Hao Xuan."

"Number three didn't spot Chen Hao Xuan."

Ebelle waited for a long time but did not hear No. 4's answer, so she called out, "No. 2 No. 2, have you found Chen Hao Xuan."

Chapter 296

Last paragraph of the last chapter. Abel calling is number four, alas -, it seems you can't code with a hungry stomach, please understand haha!

Chen Hao Xuan he heard the sound of a call coming from the head of the assassin he had caught, the sound was very small but he heard it anyway. He took a closer look at the assassin's head and found that the assassin was wearing a headset on his ear. He took the headset off the assassin's ear and brought it on his own ear, and now he could hear it more clearly.

Hearing the voice coming from the headset, Chen Hao Xuan was happy in his heart because she knew who was trying to assassinate him, he remembered the voice, it was Abel's voice and she was calling her men in English.

Chapter 297

Chen Hao Xuan put these things inside a medical box and brought them back to the police station. Returning to the place where the prisoner was interrogated again, he opened the medical box and placed it a meter away in front of Number Four, smiling evilly as he said to Number Four: "I know you're tempted to kill yourself now, so I prepared these things, later I'll remove the cloth from your mouth, and after you bite your tongue to kill yourself, I'll use these things to bring you back to life, believe me, people can actually survive without their tongues as well. If you are wise, I advise you not to do such a foolish thing, it is not a good feeling to be in pain and not be able to die."

If you're afraid that if I let you go after telling me the truth, you won't be confident that you'll get out alive, I can offer you two ways, the first is that I'll sneak you off to get a facelift, it'll be hard for those mates of yours to find you as long as you pay attention later, and the second is that I'll give you a knife so that you can die a painful death and won't receive any torture."

The fourth appeared a torn look, what Chen Haoxuan said he seriously thought over, seeing his medical kit a meter away, he did not dare to bite his tongue, because even if he bit off his tongue he might not die, how can he die?

"Tell me - what you are after, and I will give you a painful death." Chen Haoxuan said again.

Mmmmm , Number Four nodded twice in a row, and a whimpering sound came out of his mouth.

Chen Hao Xuan walked up to Number Four, grabbed the corner of the cloth on Number Four's mouth and said coldly, "If you dare to bite your tongue, I will bring you back to life and give you a good taste of the Chinese torture tools again." After the warning, Chen Haoxuan ripped off the cloth from Number Four's mouth.

"Our purpose is to want you to serve our country, killing you is because you are not willing to serve our country, so you should be satisfied with this answer!" Number Four said to Chen Haoxuan in English.

"Who sent you here?" Chen Haoxuan asked.

"It's a woman, I've told you enough, give me closure!" Number Four said with a sigh, it seemed that he wanted nothing more than to beg for death now.

"I'm not very satisfied with your answer, if you want quick relief - you'll tell me all your secrets quickly." Chen Haoxuan said seriously to Number Four.

Bang Bang Bang There was a knock on the door at that moment. "Who is it?" Li De shouted.

"Chief, it's Xiao Zhang, I've brought you coffee." The voice of Li Xiao Zhang came from outside the door.

Li De felt that he was really a bit thirsty, so he went over and opened the door.

"Chief, this is the coffee you usually drink." Xiao Zhang said with a pleasing smile.

Li De took the tray and said to Xiao Zhang with a smile, "Thank you so much, go to work! We still have to interrogate the prisoner!"

"Chief, take your time with the interrogation, I'll go to work first." Xiao Zhang's smile looked very happy.

Li De closed the door again, he was not able to see that as soon as he closed the door, Xiao Zhang quickly walked outside and then drove away quickly on a motorbike.

Where the prisoner was being interrogated, Li De smiled and said to Chen Haoxuan, "Haoxuan, have a cup of coffee before you ask!"

"Don't drink it yet, let me see if it's poisoned before you drink it." Chen Haoxuan said.

He picked up a cup of coffee and sniffed it, and he sniffed the other two cups as well. "It's fine, it's drinkable." Chen Haoxuan said, finishing drinking the cup of coffee in one breath.

Chen Haoxuan carried the other cup of coffee to the fourth and said, "Want to drink it?"

"Well, I'm thirsty right now, you let me have a cup and I'll tell you a big secret." Number Four looked as if he really wanted to drink this coffee.

Chen Hao Xuan fed Number Four to finish the cup of coffee, once this coffee was finished, Number Four suddenly seemed to go crazy and laughed out loud: "Hahahaha, you guys fell for it, you Chinese are just benzene, betraying your own good friends to betray your own country for money, hahaha"

When Chen Hao Xuan heard No. 4's words, he seemed to think of something, he grabbed No. 4's collar and said coldly, "What do you mean by that?"

"There is no harm in telling you now, there is a tasteless and colourless poison in the coffee you are drinking, this poison is nothing if you don't add coffee, but as long as you add a tiny amount of coffee, he will turn into a poison that is hopeless in the world, no one can survive more than half an hour after being hit by this poison. Now that we've all had coffee, you'll all go to hell with me! Hahahaha" The Fourth's was very happy and laughed out loud.

No need for Chen Haoxuan to say, Li De he himself spat out a mouthful of coffee that hadn't been swallowed yet.

"You didn't drink it, did you?" Chen Haoxuan said to Li De with concern.

With a bitter face, Li De said, "I took a sip while you took a cup, we're dead."

"Come on, let's go to the hospital now." Chen Haoxuan said.

Chen Hao Xuan and Li De walked quickly outside, and as they led away, Chen Hao Xuan locked the place where the prisoners were interrogated to death, and called two policemen to watch at the door. "Ma Xiongjian, your sister, come out, go and get Xiao Zhang, he has been bought by the assassins and he has just poisoned us." Chen Haoxuan shouted loudly.

"Little Zhang, which one of you has seen Little Zhang?" Ma Xiongjian asked loudly to his colleagues.

"Didn't see it."

"I saw him, he just went out on his motorbike in a hurry." A policeman wearing glasses said.

"Chase him, he has been bought by the assassin, he has just poisoned our chief and Chen Hao Xuan." Ma Xiongjian said anxiously.

When Chen Haoxuan, he and Li De arrived at the hospital next door to the police station, Li De's face had taken on a slightly darker hue, and it seemed that he had really been poisoned. The best way to get poisoned was to wash his stomach, and Li De kept drinking some strange water and then vomiting it out.

Chen Hao Xuan, he felt strange, he didn't seem to be poisoned, his body didn't feel the slightest discomfort. "Could it be that what I drank happened to be non-poisonous?" Chen Haoxuan said darkly in his heart.

Seeing that Li De still had the strength to vomit, he thought that Li De would not be in any danger for the time being, so he quickly answered the police station. He walked into the place where the prisoner was being interrogated and found that number four had long since died, he was black and at a glance he knew he had died of poisoning.

Chen Hao Xuan he took the cup they had just drunk coffee from to the hospital, he wanted the doctor to test the poison.

Before the results of the test came out, Li De's body was much better, it seemed that the poison was not as powerful as the Fourth had said.

Chen Haoxuan he sat by Li De's hospital bed and said to Li De, "Number four died of poisoning."

"Dead then, but Hao Xuan, I feel strange, I clearly saw you drink a whole cup of coffee down, how come you are fine?" Reid asked curiously.

"Maybe it's because what I drank happened to be non-toxic!" Chen Haoxuan said with a smile.

At 2pm, Li De's attending doctor came into the ward, he handed a stack of papers to Chen Haoxuan and said, "Mr. Chen, these three cups of coffee have been tested, the toxicity of all three cups is the same, this poison is very powerful, but if the poisoning is small and can be saved in time it won't be life threatening, just like the Director."

"Ah..., all three cups are poisonous? Then why would I be fine if I drank the next cup of coffee? Could it be that I am invulnerable to all poisons?" Chen Haoxuan muttered to himself.

Chapter 298

"Mr. Chen. You're not wrong, are you? How can you be fine after drinking poisonous coffee?" Li De's attending doctor was surprised, he had been a doctor for so long and had seen what kind of people, but he had never seen one with such a strong anti-toxic body, so strong that nothing happened at all, if Chen Hao Xuan had really drunk a cup of poisonous coffee, then his body could really be invulnerable to all kinds of poison.

"Doctor, he really drank it, I saw him drink it with my own eyes before I did." Reid said.

When Li De's attending doctor heard Li De's words, the way he looked at Chen Hao Xuan changed and became with that strong expectation as he said to Chen Hao Xuan, "Mr. Chen, since you drank a cup of poisonous coffee, for the sake of your life, you'd better come with me for a checkup! It's free."

"Alright!" Chen Haoxuan stood up and said.

Chen Hao Xuan followed Li De's attending doctor to have a check-up, and it turned out that the coffee was still in his body, and his stomach was digesting it quite normally, which puzzled the doctor who was examining Chen Hao Xuan.

"It can't be! A person's anti-poison body is limited, why would Chen Hao Xuan be fine after drinking this kind of severe poison that can kill a person immediately? Weird." Li De's attending doctor muttered to himself.

"No wonder Chen Hao Xuan is so smart, it turns out that his body is just extraordinary and it's normal for people to be extraordinary." The other doctors said.

Li De's attending doctor offered to draw a bit of Chen Hao Xuan's blood for research, Chen Hao Xuan refused, although he didn't really understand why his body was like this, but the first few times he was injured, his injuries would heal very quickly, so he knew his body was very unusual. If the doctor learned of any strange genes from his blood and the news leaked out, he would be like a white mouse and everyone would want to capture him for research.

Li De's attending doctor was disappointed not to get Chen Hao Xuan's blood, there was nothing he could do, Chen Hao Xuan's status was extraordinary and his relationship with Li De was so good, he would die a horrible death if he dared to mess with it.

Now that Li De was okay, Chen Hao Xuan didn't have to worry about him anymore. With No. 4 dead, there was no need for Chen Hao Xuan to stay at the police station any longer, what he had to do now was to find the incriminating evidence that Ai Beier wanted to harm so that he could bring Ai Beier to justice. It wasn't that he didn't want to take Ai Beier out straight away, but if he was found out, he would become an enemy of the empire.

Chen Hao Xuan returned to the University of Hsinshan and made a phone call to Yang Lin, who told him that he was training with Jiang Dong and the others in Chen's village. Chen Haoxuan asked him to return to the University of Xinshan City, saying that he needed his help on something important. When Yang Lin heard that Chen Hao Xuan needed his help, he immediately rode Jiang Dong's motorbike and went to Xinsan City.

Yang Lin he left on Jiang Dong's motorbike without his permission, Jiang Dong's motorbike was parked right outside the door so no one saw Yang Lin ride Jiang Dong's motorbike away. Jiang Dong he thought his motorbike had been stolen and he called the police.

He asked Jiang Dong to borrow his motorbike, so how could Jiang Dong refuse? He didn't need to take someone else's motorbike without saying anything. Yang Lin didn't have the keys to Jiang Dong's motorbike, but he had a little trick to get him to drive it away. This little trick was taught to him by a car thief when he used to hang out.

Yang Lin soon arrived at Xinsan University. After Chen Hao Xuan and Yang Lin met, Chen Hao Xuan asked Yang Lin to help him keep an eye on Ai Beier, what people Ai Beier often had contact with and what she was doing in general! Chen Hao Xuan did not ask him to keep an eye on Ai Beier himself, but asked his good friends to do so.

Although Yang Lin was a gangster at the university, he was very righteous and would not bully the weak students, and often fought for the students who were bullied.

With Yang Lin's help, Chen Hao Xuan was able to get on with other things for the time being. He went back to his place and wrote the image search software again, which he worked on until late at night. Abel was a MiB, so he hacked into MiB***'s system and searched in there. The look of number two didn't come up, nor did the look of number four. Chen Haoxuan wondered if those MiB agents had deleted all their information? This means that the MiGuo people have deleted their information in order to leak the identity of Ai Beier.

In fact, it was Chen Hao Xuan's reason. After Ai Beier had someone bring Chen Hao Xuan's laptop back to Rice, those computer experts thought that Chen Hao Xuan had mastered the most advanced computer technology, and that was why they could not break the website of the Thousand Buddha Stone Pagoda opened by Chen Hao Xuan. So those experts thought, since Chen Hao Xuan has such strong computer technology, then their system can be accessed by Chen Hao Xuan whenever he wants! For the sake of Abel's safety, they decided to save Abel's information on a USB stick and then delete Abel's information.

"Just delete it, I know you did it anyway." Chen Hao Xuan said to himself as he lay on the sofa and looked at the computer.

Chen Hao Xuan turned off the computer and closed his eyes to rest. He reckoned that Ai Beier and the others would come again today, and he was waiting for them now, having been beaten by Ai Beier before, he wanted to get his face back this time and beat Ai Beier and the others into submission, the better to wipe them out.

Abel and the others did come, and they distributed the same tasks as during the day, Mieko's men went to capture Chen Haoxuan, while Abel's men were in charge of stopping him.

In a corner across the kilometre: "Chen Haoxuan's place, I've been there, it wasn't like this before, I think he modified it a bit for his own safety. You tell your men to be careful, there might be some danger in there." Ebelle said to Mieko, who was next to her.

"Just watch it!" Mei Hui Zi sneered at Ai Beier, then turned to her men and said, "Give to capture Chen Hao Xuan alive."

Fifteen black shadows ran quickly towards Chen Hao Xuan's residence, they ran without a sound, like ghosts in the darkness of the night.

They came to a window and one of them took out a dagger and tried to pry it open and blow smoke into it, but unfortunately it took them a long time to realise that it was bulletproof glass and was fixed with iron. The plan to pry open the window and blow smoke failed, so they split up, one to the roof and one through the front door.

Chapter 299

The man who climbed up to the roof came down quickly. It was impossible to get in because the windows on the roof were also fixed.

They found that Chen Haoxuan's door did not use a lock and they opened it with a push. They pushed it open and saw that inside was a small door that only one person could enter through at a time and he let one person in first to explore the way.

Chen Haoxuan had installed an alarm, which was to vibrate an object he carried in his hand if someone broke into his place. When Chen Haoxuan woke up, he turned on a desktop computer that was next to him.

"Wasn't he sleeping? Why is he suddenly awake, did he find our man?" Ebelle muttered to herself, she could see Chen Hao Xuan from the window of his residence at this angle.

"Maybe! But so what if he's awake? I have fifteen experts here and he's only one, what can he do, huh huh" Miezi said with confidence.

Seeing Mieko smiling so confidently, Ai Beier really wanted to strangle her, she lost two of her men in a row, and even if Mieko didn't comfort her, she kept saying that the MiG agents were no better than that. She could not wait for all of Miezi's men to be slaughtered by Chen Haoxuan now, as for Chen Haoxuan she could ask her superiors for support and then fight Chen Haoxuan.

The first of Miezi's men went in and nothing happened, so they went in one after another. When they got inside, they found that there were doors all over the place, most of which could be opened, so they didn't know which way to go. The doors were stainless steel and they used daggers to mark the doors, but the result would be the same, no matter how they turned, they could not get out of the maze designed by Chen Hao Xuan.

If Chen Haoxuan was not at home, they might be able to turn out if they were lucky, but with Chen Haoxuan at home, how could they successfully walk out of the Vertigo Formation, unless they just dismantled all the doors. But the problem was that these doors were made of stainless steel, which was very hard, and it would be very difficult to destroy them by manpower.

"Where are they? Why haven't they moved their hands?" Mieko saw through the window that Chen Hao Xuan was still playing with his computer, she felt very strange. But why hadn't her people appeared after so long?

Ai Beier gloated, "I told you to be careful of Chen Hao Xuan, but you didn't listen, now your men might have fallen into Chen Hao Xuan's trap and are all dead."

"Maybe they can't attack now for some reason, but when the time comes, they will appear." Mieko said seriously.

"My men were masters too, and what happened! One of them was forced to die by Chen Hao Xuan and one was unknowingly captured alive by Chen Hao Xuan, how much better do you think your men can be than my men? Hmph, self-righteous b*tch~." Ai Beier scolded, she was very uncomfortable with people being arrogant in front of her.

"How... how can you do that, I'm your partner." Mieko huffed at Ebaele.

"Partner, that depends on whether you can help me or not, if you can't help anything, you don't want anything from me, huh?" Ebelle, cursed.

Mieko no longer bothered with Ai Beier, she stared closely at Chen Haoxuan as she prayed secretly in her heart, "Yamamoto-kun, show up soon! As long as you catch Chen Haoxuan, I'll sleep with you for a month."

Miezi her men were not like Ai Beier's men who had headsets, it wasn't that they couldn't afford headsets, but their way of fighting was different from Ai Beier's and their way of fighting, they liked to sneak up on their opponents and then take their lives while they were unprepared. They like to sneak up on their opponents and take their lives when they are unawares, whereas Aibel, they like to assassinate people from a distance, so Aibel can use a headset, whereas Mieko cannot because they need to be close to their opponents and if they have a headset, the opponent may hear them.

The computer Chen Hao Xuan was now using could see inside the Vertigo Formation, after he saw that no one else was coming in, he pressed the enter button, as soon as he pressed it, a puff of smoke came out from the ground in the Vertigo Formation, a few ninjas accidentally inhaled a mouthful of the smoke and immediately fainted.

"This smoke is poisonous, cover your mouth and nose and get out quickly." A senior ninja warned out loud, he had slightly inhaled a bit of the smoke because he had opened his mouth to speak and he quickly went and collapsed on the ground.

One by one, the ninjas strung around in the maze, they had thought that the smoke was only where they had just been, but they didn't expect it to be everywhere. All but the few senior ninjas had been dazed by the smoke, and those few senior ninjas were now holding their breath and their faces were red. If they continued like this, they would suffocate to death.

When Chen Haoxuan saw the red faces of these senior ninjas, he couldn't help but laugh out loud and said to himself, "Heh heh, this is the legendary ninja ah! How come they don't hit a kan so much? Can't even reach my side, and still want to come and assassinate me, despise your ignorance."

Across the street from Chen Hao Xuan's residence, Miezi saw Chen Hao Xuan suddenly laughing and she said curiously, "Why is Chen Hao Xuan suddenly laughing, is she making fun of my men?"

"I think so." Ai Beier said with a light smile.

"Ai Beier, you tell your men to shoot together and hit Chen Hao Xuan's feet, then I will go with you to catch Chen Hao Xuan, do you dare?" Mieko said seriously to Ai Beier, she suspected that her men had been killed and she had no choice but to fight for her life herself so that she could gain some advantage for the island.

"What wouldn't I dare, I was the one who stormed into Chen Hao Xuan's house some time ago and beat him to death, then like that gang of your men, they were gone without a single fart." Ai Beier sneered.

Mieko didn't want to talk much to Ai Beier, she Ai Beier said, "Tell your men to shoot!"

"Number one, number three, can you see Chen Hao Xuan?" Ebelle asked her men through the headset.

"Number one here is fine."

"Three here is fine too."

"On my count of one, two, three, number one block Chen Hao Xuan's left foot, number three block Chen Hao Xuan's right foot." Aibel ordered.

"Number one receives."

"Number three receives."

"One, two, three, fire." Abel ordered.

There were two thumps, this time they had brought sniper rifles with silencers, so the sound was minimal and would not alert the nearby residents. The window of Chen Haoxuan's residence, bang bang two times, leaving two marks on the bulletproof glass.

"Holy sh*t, he actually used bulletproof glass for the window." Ai Beier cursed.

"Hohoho, have your men gather! We'll go together." Mieko suggested with a smile, seeing Ebel get defeated made her feel a little better after just losing her men unpleasantly.

Chapter 300

Abel's men were assembling. Chen Haoxuan left the seat he had been sitting in and he walked towards the door. Ai Beier thought Chen Hao Xuan was going out, so she immediately ordered her men through her headset to aim at the doorway of Chen Hao Xuan's residence and if Chen Hao Xuan came out, hit him in the foot.

Unfortunately, Chen Haoxuan was not going out, he was tying up the ninjas who had been dazed in the Vertigo Formation and hiding them in a secret basement, which he had also had dug and was so secretive that it could not be seen without a closer look.

Fifteen ninjas were bound hand and foot by Chen Haoxuan and thrown into the basement. After that was done, Chen Haoxuan continued to sit in the seat he had just taken, and poured himself a glass of red wine and drank it slowly, showing a happy smile every now and then.

Chen Hao Xuan's expression almost infuriated Ai Beier and Miezi, when someone comes to assassinate you, your expression should be one of fear, not a happy smile.

For Chen Haoxuan, it was a happy smile because he had easily captured 15 ninjas who wanted to kill him, and such a reward was worth a smile. The Ebel girls, on the other hand, did not think so, they thought that Chen Haoxuan's happy smile was mocking them.

"Number one, number three, gather." There was anger in Abel's tone as she ordered her men.

When Ai Beier's men had gathered, Ai Beier waved her big hand and took two pistols and walked step by step towards Chen Hao Xuan's residence, she felt that Chen Hao Xuan should know that they were coming and those men of Mei Hui Zi must have been cleaned up by Chen Hao Xuan.

Ai Beier's men hid their sniper rifles by the corner and walked towards Chen Haoxuan's residence with pistols just like Ai Beier, they all had two pistols each. Only Mieko wasn't, she only had one! And it was a very small and delicate pistol, which felt like a jewellery item in her hand, not a murder weapon to kill people with.

Abel and the others walked openly to Chen Haoxuan's place, and Chen Haoxuan continued to play with his computer as if he didn't even see it. In fact, Chen Hao Xuan saw it, he saw it from his computer, he had installed maze grain cameras in many places in his residence, so he could see all the places in his residence, even the toilets and bathrooms, as long as he sat in front of his computer.

In ancient times, force was the strongest, but in modern times, technology is the strongest, as evidenced by the fact that Chen Haoxuan had just taken care of fifteen senior ninjas while sitting down.

When Abel and the others arrived at Chen Haoxuan's door and saw a small stainless steel door, they knew what was going on, the fifteen ninjas must have gone in and been killed by Chen Haoxuan's accomplices, or so they thought.

"Number three, go and open the door and see." Ebelle shouted in a whisper to her men.

Number three pushed the door gently with his hand, no he gently pushed it open, he walked in and saw many identical small doors inside, he turned to Ebelle and they said, "There are many identical small doors inside, I suspect this is a maze."

We went in through the roof, Ebelle said, knowing that Chen Hao Xuan must have installed bulletproof glass and secured that window in his room, but she wanted to try and see if she could pry it open.

The four of them were all masters at it, and they started by topping one up, then one pulled on top, and the others went up as soon as the one on top jumped and pulled.

Ebelle and the others all went up to the roof and crept up to the roof of Chen Hao Xuan's room, "Number one, number three, you two see if you can pry the window open." Ebelle said to her two men.

The two, Number One and Number Three, were prying desperately with their daggers while Arnaud and Mieko held their pistols at the window to prevent any enemies from suddenly appearing.

"Can we pry it open?" Ebelle asked her men.

"It's loose, it'll be pried open soon." Number One replied happily.

With a bang, the window at the top of Chen Hao Xuan's room was finally pried open by them. Seeing the window pried open, Ebelle was happy and she said to her men, "Go down quickly."

Ai Beier and the others were not expecting that this was a trap that Chen Haoxuan had deliberately laid for them. Chen Haoxuan smiled as he saw from his computer that Abel and the others had jumped through the window at the top of his room, he cracked his hands on the computer and typed a strange string of data, and with a bang, another window appeared underneath the window door at the top of Chen Haoxuan's room. It turned out that Chen Haoxuan controlled a quick **panel extending from an iron box installed at the bottom, blocking the window.

Suddenly a bang was heard and Ebelle looked up and saw that the window they had just jumped from above was blocked by a quick steel plate, she was shocked and thought to herself, "No good, we've been hit."

"Attention everyone, we've been caught in Chen Haoxuan's trap. Number one, number three, see if you can take the steel plate off the top." Ebelle said anxiously to her men.

Number One and Number Three worked together to move Chen Hao Xuan's bed out of the way, then moved the wardrobe that was by the wall under the window, and the two of them climbed up to pry the steel plates off.

"Mieko, let's try to see if we can get this door open." Ebelle said to Mieko.

Ebelle and Mieko pulled and kicked at the door, but the door made of steel was so strong that it wouldn't budge after all their tossing and turning. "Abel, get out of the way, I'll try with the gun." Mieko said to Abel.

Bang bang bang Mieko fired five shots in a row, the lock was a bit deformed and it looked like the lock was really broken by them.

Ebelle happily went to open the door, she used all her strength to do so, the door was still the same.

The door wouldn't open, so Abel had to pin her hopes on the window on the roof. "Well? Can you open it?" Abel asked her men.

"No, this steel plate is very thick and strong, unless we use a bomb, we won't be able to get him open." Number One said to Ebelle.

Mieko pointed at Number One and cursed, "This room is so small, it would be strange if we didn't die if we used a bomb."

At that moment, Chen Hao Xuan's voice suddenly came from inside the room, "Ai Beier, thank you for your help in catching Miezi, you can take your friend away now, but it's safer for you to tie Miezi up before you leave, otherwise it won't do you and me any good if she gets away."

When Mieko heard Chen Haoxuan's words, her pistol was immediately aimed at Ai Beier.

Ai Beier also didn't expect Chen Haoxuan to come up with this move, making them kill each other. She did not point her pistol at Mei Hui Zi in order to make her believe what she said, she seriously said to her, "Mei Hui Zi, don't listen to Chen Hao Xuan, he is lying to you."

"Ai Beier, you're at least a senior agent, why are you afraid of her! Can she still beat the three of you by herself? Quickly tie her up, then take the money and give me a way out." Chen Haoxuan's words rang out in the room.

Ooooooooooooo, the police bell rang and a large number of police cars drove into the University of Johor Bahru. Hearing the alarm bell, Ebelle immediately said to Mieko, "The police are here, let's retreat!"

Although Mieko was a very confident person, she was not confident enough to fight a large group of heavily armed police officers. She had a small object hanging around her neck, which was dangling just above her chest and looked very tempting in the past, she picked up the small object and put it in her mouth and made a strange sound when she blew on it. As soon as this sound came out, many people burst out from various parts of the mountain, they were very agile and ran very fast through the woods, and they all gathered in the same direction.

Suddenly Chen Haoxuan felt that these people seemed to be ninjas, only ninjas ran with their bodies leaning forward about 45 degrees, their hands swinging backwards at an angle of about 30 degrees to the horizontal, and their feet stomping backwards. "Could it be that Abel is working with the islanders to try to do me in?" Chen Haoxuan said secretly in his heart, one Ai Beier is already troublesome enough, now there are more islanders who want to kill him, and there is no telling how many islanders there are and how strong they are?

Ai Beier, unlike Miezi who gathered her men together before leaving, she was directly telling her men to retreat individually and gather at their designated location.

Ai Beier called No. 4 many times, but No. 4 did not answer once. She suspected that No. 4 had fallen into the hands of Chen Hao Xuan, and she now only hoped that No. 4 would decisively commit suicide in case their identity was revealed.

The police had not yet completely surrounded the back hill when Abel retreated, which allowed Abel and the others to successfully escape from the police, mainly because they were so fast that they ran to another hill in the blink of an eye, and the police just watched the assassins escape from under their noses.

Li De he was at the foot of the mountain with a few policemen carrying large suitcases, he called Chen Hao Xuan's number: "Hao Xuan, we are now at the back of the mountain, where are you now?"

"I'm halfway up the mountain under a big tree, you should be able to see this big tree even from the bottom of the mountain, it's a big tree with thick leaves, not very tall, but big." Chen Haoxuan said over the phone.

"Just wait, I'll bring someone right away." Li De responded.

When Li De and the others arrived halfway up the mountain, Chen Haoxuan saw them and shouted to them, "I'm here, come here quickly."

When Li De heard Chen Hao Xuan's voice, they rushed over and found Chen Hao Xuan hiding in the grass, with a foreigner with his limbs tied around him. : "Hao Xuan, he's not the assassin, is he?"

"Yes, he is the assassin, because there are many of them, I dare not act rashly, so when I catch one I will call you and ask you to bring a large number of policemen over, otherwise it won't scare them away." Chen Haoxuan said.

"This man is not moving, he's not dead, is he?" Li De questioned.

"Don't worry, he was just stunned by me." Chen Haoxuan said with a smile.

"Oh." Li De said with a dazed look of realisation.

"Hurry up, put him close to the suitcase, just pull the chain of the suitcase halfway, otherwise it will suffocate him to death, and when you send him to the police station, you can't let anyone know that it contains a human being, understand?" Chen Haoxuan said seriously to Li De and the others.

The few people Li De brought with him put the number four into the suitcase and carried it down the hill, since Li De was also there, no one came to ask what they were carrying.

Chen Haoxuan followed Li De back to the police station, while the other policemen continued to chase after Abel and the others.

When they arrived at the police station, Number Four was carried into the place where the prisoners were interrogated. Chen Haoxuan tied Number Four to a chair made of iron, and then Chen Haoxuan threw a piece of cloth into Number Four's mouth before having cold water splashed on Number Four to wake him up.

As soon as Number Four woke up, he found himself tied to a chair and Chen Haoxuan and a policeman were looking at him with a yin smile. When he saw Chen Haoxuan and his men smiling, he knew that he was going to face something very cruel and wanted to commit suicide in order not to suffer like this, but to make him feel miserable, Chen Haoxuan and his men had gagged him, which made it impossible for him to commit suicide.

Chen Haoxuan spoke out, "I know you want to kill yourself now, but I don't want you to die for now, I need to know what you are approaching me for? And why did you want to kill me later? If you tell me, I will give you a large sum of money and let you go, so that you can live a carefree life.

If you don't tell me, even if I don't kill you, your partner will find a way to get rid of you, and you know it. I will now give you ten minutes to think it over, whether you want to die, or live a rich life." Chen Haoxuan said to Number Four, after he finished he took out two cigars and shared one with Li De, and the two of them slowly smoked them.

Number Four, who had been receiving strict training since he was a child, as well as the idea that - for the sake of the country - he could sacrifice everything, these trainings had been with him growing up, so he would not choose to surrender at all. Others didn't know the power of the MiG, but as an agent, didn't he know that? Even if he agreed to Chen Hao Xuan's request and got a large sum of money to leave and go live in a remote place, the MiG agents would be able to find him just the same, and then he would be subjected to the fate of a betrayer, the kind of fate they had all seen, it was the most cruel punishment in the world, and thinking about this punishment, lending him ten thousand guts, he would not dare to betray.

So the Fourth thought, he wanted to agree to Chen Hao Xuan's request, and as soon as Chen Hao Xuan removed the cloth from his mouth, he immediately bit his tongue and killed himself.

Mmmmmmmmm, Number Four looked at Chen Haoxuan and whimpered.

"You promise?" Chen Hao Xuan said to Number Four with a smirk.

"Mmmmmmmmm" Number Four nodded his head.

"Then you wait a bit." Chen Haoxuan said with an evil smile.

Chen Hao Xuan left the police station, he went to a hospital next door to the police station, he used his identity and said to the hospital people that Li De had asked him to buy it, seeing as Chen Hao Xuan was a billionaire and Li De, the director, the hospital people agreed to sell Chen Hao Xuan some tools to treat his wounds, scalpels, scissors, clamps and some medicines.
