

## A Billionaire's Reincarnation Chapter 431-440

### Chapter 431

Chen Hao Xuan, who has strong hacking skills, can speculate on stocks and really fire up anything. Because he has the hacking skills to get the information he wants, he is many times better than those who rely on rumours to draw conclusions.

Chen Hao Xuan has read the history of China and knows that when the stock market first appeared in China, foreigners made a lot of money, causing China's economy to regress for several years. Chen Hao Xuan now wants to make the money back, and also take the foreigners' money to develop his own strength. He will take the foreigners' money and use it to develop his own strength.

Chen Hao Xuan will temporarily save the money he earns in the companies he owns and take it out when he needs it, or give it to those companies as development capital if he doesn't need it.

Chen Haoxuan's stock speculation lasted for half a year. On the 10th of July, if not for Chen Yina's call to let him go back, Chen Haoxuan might have stayed in a foreign country for a year. He had earned tens of billions of RMB, not including the 5 billion RMB he paid back to the team leader.

What Chen Yina said to him on the phone, Chen Hao Xuan felt curious, saying what, remember what he promised her? Chen Haoxuan said he did not remember, Chen Yina was angry and insisted that Chen Haoxuan come back for a trip.

The stock speculation can be done online or with the help of others. With the help of Su Shiyin watching, Chen Hao Xuan was at ease and if there were any problems, Su Shiyin would tell him at the first opportunity.

On the 11th of July, Chen Hao Xuan returned to the city of Xinsan. The people who came to pick him up at the Xinsan airport were Jiang Dong and the others.

Chen Hao Xuan made a phone call to Chen Yina when he got off the plane, and Chen Yina told him to go straight back to her house when he returned to Chenjia Village. So Chen Haoxuan asked Jiang Dong

to drive him to Chen Yina's house. Chen Yina and her family were already waiting for Chen Haoxuan at the door, and when they saw Chen Haoxuan coming, they greeted him happily: "Little Xuan, I haven't seen you for half a year, Aunt Ping misses you so much. Xiaoxuan, come in and sit down. Brother-in-law, my sister has good news for you today, you will be very happy to hear it."

"Oh, what's the news then? Can you tell me first?" Chen Haoxuan asked Chen Feng with great interest.

"Hehehe, you'd better ask my sister!" Chen Feng said with a mysterious smile.

Chen Yina pulled Chen Haoxuan into the house and then took Chen Haoxuan to her room, and only after she entered the room did she let go of Chen Haoxuan's hand. She sat on the edge of the bed, and looking at her face she seemed a little angry.

Chen Haoxuan sat down next to Chen Yina and habitually stretched out his arms and wrapped them around Chen Yina's small waist, saying gently, "Nana, don't you have some good news to tell me? Tell me, let me rejoice."

Chen Yina broke away from Chen Hao Xuan's embrace and sat against him, complaining, "Brother Xuan, have you really forgotten what you promised me?"

"What did I promise you? I don't think so?" Chen Haoxuan said in a tangled voice.

Chen Yina slapped Chen Haoxuan's chest angrily and said in an exasperated voice, "You said before that I would get married after I graduated, do you want to renege?"

Hearing Chen Yina's words, Chen Hao Xuan finally remembered that he had already agreed to get married upon graduation when he had just been with Chen Yina for a short while. Chen Hao Xuan slapped his head hard and complained to himself, "I'm so damned, I forgot about such an important thing." Then Chen Hao Xuan took Chen Yina's hand and said apologetically, "Nana, I'm sorry, I've really been too busy all these years, so ..... you should be able to understand, right?"

Chen Yina was already happy that Chen Haoxuan could admit this matter, so how could she still have the heart to complain about Chen Haoxuan. She happily said to Chen Haoxuan, "Brother Xuan, as long as you admit that this happened, it's fine."

"Nana, wait for me, I'll come in a moment." Chen Haoxuan said and left.

"Brother Xuan ....." Chen Yina wanted to leave Chen Hao Xuan behind so she could ask Chen Hao Xuan when exactly she was going to marry her.

Chen Haoxuan he went back to Chen's village and he bought a bouquet of roses before he went back to Chen Yina's house. Chen Yina had thought that Chen Hao Xuan did not want to marry her, so she left, but now she saw Chen Hao Xuan come in with a bouquet of roses in his hand, she understood that this was a marriage proposal.

Chen Yina was now in the living room of her house. Chen Haoxuan walked up to Chen Yina, knelt down on one foot, held the roses high and said sincerely to Chen Yina, "Nana, I don't want to say any sweet words because those are mostly floating clouds, I want to use my practical actions to express my love for you, marry me! Let me take good care of you, love you and pamper you ....."

Chen Yina looked at Chen Hao Xuan with excited hands protecting her chest and tearful eyes that were full of joy.

When Li Ping saw that her daughter was standing still, she could not help but remind her daughter, saying, "Nana, say yes!" Li Ping had long seen Chen Haoxuan as her son-in-law, and now that this wish had really come true, she couldn't help but shed a few tears of joy in her happiness.

"Ah, oh oh, I - I promise." Chen Yina squeaked, looking a little flustered, as she finished she hurriedly took Chen Haoxuan's rose and happily smelled the fragrance coming from it.

Chen Hao Xuan stood up, he didn't care if there were outsiders around, he picked up Chen Yina and spun her around a few times in place, cheering happily, "Yay, I finally have a wife!"

Chen Yina also laughed and laughed happily.

After spinning around a few times, Chen Hao Xuan put Chen Yina down and said to Chen Yina's family, "I just checked the calendar when I went to buy roses, and I feel that the 19th is a good day, so if you don't mind, I will choose this day to get married to Nana."

Chen Yue Bin he was the head of the family, his words carried a lot of weight, he said happily, "Listen to everything you say, do as you see fit!"

"Good then, then we'll choose the 19th this year, it's the 11th now, let's simply start writing the invitations today! So that the invitees can get ready earlier." Chen Haoxuan said happily.

"Okay." Everyone more than agreed.

Chen Hao Xuan's wedding was a big deal, and he couldn't be sloppy, so he went to make the arrangements himself. He took Jiang Dong and the others to Xinshan City to make purchases, and when he went to buy invitations, he felt that those invitations were too low-priced, so he simply hired a jeweler and a printing house, and he asked the jeweler to help him make the wedding letters out of gold.

## **Chapter 432**

The printer was asked to use the final paper to make the invitation, the middle of the invitation needs to have a happy word, this happy word is concave, this is Chen Haoxuan deliberately designed in this way, this happy word is concave, because to use the gold to make the happy word installed down. Chen Hao Xuan wanted to make people want to collect this invitation when they received it, that's why he made it this way.

Chen Hao Xuan's friends are not many, relatives are not even one, but his friends in the business is very much, China's, rice, H ....., all countries, just not the island. The other people write invitations slowly, think of one to write one, but Chen Hao Xuan is different, he is too cattle, he took out a world

base map on the ground, look at each place, see the place there are people you know, write on the invitation, if not, then draw a circle, indicating that there is no one to invite here.

It took Chen Haoxuan a day to write the invitations, so it was clear how many people Chen Haoxuan had invited. Chen Hao Xuan sent all the invitations out by courier, and the ones that were close by were delivered by Jiang Dong and the others personally.

Chen Haoxuan's friends received Chen Haoxuan's invitations one after another, and those who received Chen Haoxuan's invitations all started to think about how much of a red packet was appropriate. 10,000? It seems a little bit too little, other people's invitations are worth tens of thousands of dollars, let's wrap a million! This is what millionaires think, millionaires usually choose to wrap 100,000 RMB, billionaires have more money and wrap 10 million RMB, and ordinary people, such as the villagers of the Chen family village, they all wrap 1,000 RMB.

Don't look at the fact that these villagers pack a thousand RMB is much less than those businessmen, but this is already their limit, they are still ordinary villagers now, how can they have that much in their wallets! If you know that they usually give 50 or 100 RMB for a wedding banquet, a thousand RMB is a big red packet. If it wasn't Chen Hao Xuan who was getting married, they wouldn't have come up with that much money!

Those businessmen had a purpose for wrapping so much, think about it! If Chen Hao Xuan is happy and gives you a big deal to do, won't you have a chance to get rich?

Chen Hao Xuan gave an order that on the 19th of July, as long as the company he had a part in was on holiday, all employees could receive a red packet of one hundred yuan, foremen could receive a red packet of one thousand yuan, supervisors two thousand yuan, and those of managerial rank could receive a red packet of ten thousand yuan. Don't look at the small amount given, all these red packets given add up to make a rich man live a few lifetimes as a rich man, because Chen Hao Xuan has hundreds of companies, all big enterprises, all these enterprises have many employees, let's not talk about the others, just take the All-in-One Mobile Phone Company! This company currently employs over four million people.

Chen Haoxuan hasn't even started getting married yet! The news from various countries started to broadcast his news, and many reporters were sent to interview him, which was not only to interview him, but also other people. Because on the day of Chen Haoxuan's wedding, there will be many big names coming, people who can be on the world's rich list will come, even the number one person in

China said that when Chen Haoxuan gets married, he will personally go to say goodbye to Chen Haoxuan.

With so many big names going to Chen Haoxuan's wedding, it's major news and it's up to this day to increase the ratings.

Chen Hao Xuan has invited too many people to his wedding, and he doesn't even know where to arrange the wedding banquet. The entertainment street is loaded, but it needs to be renovated to use, trouble. Finally Chen Hao Xuan simply engage in a special, his river row wedding wine, he invited more than a dozen construction companies, let them to the Chen family village to build a bridge.

Chen Haoxuan wanted them to build bridges that were five metres high from the water, all supported by iron pillars below and all with wood above, each four metres wide and separated by two metres from each other. Chen Hao Xuan intends to build nine such bridges, one can be used to line the wedding wine with, two, after the wedding wine line, can be used as a scenery, so that tourists see such a building refreshing.

In fact, this is no way out, because Chen Hao Xuan wants to get married in the Chen family village and does not want to go to the city, and the fields in the Chen family village are full of precious medicinal herbs, and the hills are either pig farming or mountain ponds or pine trees, bamboo, etc. There is no room at all. There is only the river, where anything goes, and building a wooden bridge over the river is an open space.

As for vegetables, this is easy to get, the Chen family village has a large number of chickens and ducks, pigs, fish, cows, and vegetables are grown in the next village, the only thing missing is lobsters and other seafood.

The villagers of Chenjia Village had all received invitations from Chen Haoxuan and were considered guests of Chen Haoxuan, so it was impossible for Chen Haoxuan to ask them to help. So Chen Hao Xuan asked Yang Lin to send all his staff over to help, as his staff were all waiters anyway, it would be most appropriate for them to come and help.

Quite a few guests came to the Chen Village early, they wanted to come over first to have fun because the scenery was now beautiful and more importantly they might be able to meet a few rich

people. Those who wanted to come early were right to do so. After all, people generally go back after the wedding reception because you have little reason to stay!

The Chen family village slowly came alive with a sea of people, most of whom came to see Chen Hao Xuan's wedding and were not guests invited by Chen Hao Xuan.

Zhou Kexin and the girls are now staying at Chen Yina's house for the time being, and they don't know how many words of envy they tell Chen Yina every day, it is each of their dreams to be able to marry Chen Hao Xuan. Unfortunately, this is not ancient times, where a man can only have one wife, otherwise they would all be Chen Hao Xuan's wives.

In Chen Yina's room, Zhou Kexin and the girls were all playing in Chen Yina's room. Zhou Kexin was rolling around on the bed wrapped in sheets, literally rolling in sheets, and after rolling for a while, she suddenly joked to Chen Yina who was applying lipstick in the mirror, "Nana, do you feel any regret now? If you do, don't get married, I'll do it for you."

Chen Yina gave Zhou Kexin a white look and said smugly, "You're thinking beautiful, there aren't many good men like brother Xuan in this world, I don't want them, then I'm not a fool."

"Ooooooooooooo ....., it seems I was born to be a junior's name." Zhou Kexin crawled on the bed and pretended to cry.

Chen Yina stood up, walked to the bed, a slap on Zhou Kexin's plump ass, snapped, if a boy was there, will be out of the evil fire. "What difference does it make if you marry or not, except that you don't have a name, you and I are the same."

Jiang Xiang Han spoke out to Chen Yi Na, "Na Na, have you talked to Hao Xuan about having a baby? If not, you'd better talk to him, seriously, I seem to be carrying a child."

"Brother Xuan is so rich, we can't even feed him poorly by helping him raise dozens of them, when we have time, I'll ask him, then we'll each help him have a baby, okay?" Chen Yina said with a smile.

## Chapter 433

Shen Ruyan, who also received Chen Hao Xuan's invitation, was not happy to see the invitation, but angry, she felt that her beloved thing was snatched away from her, and her heart had a feeling of emptiness. In fact, Shen Ruyan had fallen in love with Chen Haoxuan a long time ago, and she often hinted to Chen Haoxuan that she liked him, but she failed time and again. If you were to ask her when she fell in love with Chen Haoxuan, she would say it was the day she was poisoned and saved by Chen Haoxuan. According to her, she had Chen Haoxuan's blood in her body and it was only right for her to give her body to him, but Chen Haoxuan, a dead wood, just wouldn't agree to her.

Shen Ruyan is in a very similar situation to Zhou Kexin, both of them fell in love with Chen Hao Xuan after being saved by him. Shen Ruyan had investigated Chen Hao Xuan's profile, so she also knew about it, and she also thought about whether she wanted to be Chen Hao Xuan's lover like Zhou Kexin. But the problem was that her status was not good enough! Her family relatives and friends are all officials, both big and small, so if she were to become Chen Hao Xuan's lover, even if Chen Hao Xuan were more powerful, they would not agree.

Shen Ruyan she was now in the Dragon Group, sitting at the peak of a mountain in the Dragon Group, looking down at a patch of coloured clouds in a daze. The Dragon Group was in a valley, which was always bubbling with water vapour, so standing on the peak and looking down, one would see a cloud, and if there was sun, it would be even more beautiful to see the coloured clouds. This is a place where people from the Dragon Group like to come when they are bored because here, they can see far and wide and feel free ..... and such a feeling can make you forget all your worries.

Shen Ruyan likes Chen Hao Xuan's matter, the Dragon Group people all know, especially when Shen Ruyan received Chen Hao Xuan's wedding invitation, that expression, at a glance, you know very sad. So soon after Shen Ruyan climbed up the mountain peak, the leader of the Dragon Group sent Kong Manni and Little Feier to persuade Shen Ruyan.

She turned around and found that it was Kong Mani and her best friend Xiao Feier. She said in a light voice, "What are you doing here?"

"To comfort you! If you hadn't jumped off this peak, we would have lost you as a friend." Little Feier was very direct, her method of comforting was so different that it felt like a blow.

Kong Manni was already out of breath as she climbed to the peak, unlike Shen Ruyan who had studied martial arts and trained her body, she was the same as an ordinary person. Kong Manni sat beside Shen Ruyan, panting, and said to Shen Ruyan: "Ruyan, don't be sad, Chen Hao Xuan is really not suitable for you, and even if he was - you wouldn't have a chance. I am Chen Haoxuan's schoolmate, I know many things about Chen Haoxuan, for example, when Chen Haoxuan was not developed, he lived a very hard life, and it was only thanks to Chen Yina's constant help that he was able to survive, otherwise he might have starved to death, not to mention going to university.

You all should not say that Chen Hao Xuan is so smart, how could he have starved to death. I believe you should all know that the previous Chen Hao Xuan was very stupid and dumb, except for Chen Yina, he basically did not talk to others, such a person has no ability to stand on his own feet. So Chen Yina gave a lot for Chen Haoxuan, and it was normal for her to get Chen Haoxuan's love. And what you did to Chen Haoxuan is not comparable to what Chen Yina did to Chen Haoxuan, so that's where you lose.

He has had a few lovers, and Chen Yina knew about it, but instead of getting angry, she accepted Chen Hao Xuan's lovers with alacrity. Do you think - if it were you, would you have such a heart? Stop being sad, there are no perfect men in this world, and even if there are, they will become less perfect, just like Chen Haoxuan, he was perfect before, right? But he's getting married and still hanging out with those lovers, that's what makes him imperfect ....." Kong Manni gushed to comfort Shen Ruyan.

The first time I saw her, she was in a very bad mood, but after hearing what Kong Manni said, she felt much better. Shen Ruyan took Kong Manni's hand and thanked her, "Little Nini, thank you."

Unknowingly, the 19th arrived, and on the day of the 19th, the Chen family village was very busy, and there were people everywhere at a glance. Don't get me wrong, Chen Haoxuan didn't invite that many people to come, the reason why there were so many people was because all these people wanted to see Chen Haoxuan, the great wealthy man.

Chen Haoxuan did not walk into a church to get married, but got married in the old Chinese way. After the ceremony, Chen Haoxuan took Chen Yina to his room before he went out to entertain the guests.

The people who came today were all big shots, some of whom Chen Haoxuan wouldn't dare if, besides, entertaining them well would give them more opportunities for development.

Chen Haoxuan invited these big shots, are very satisfied with Chen Haoxuan's arrangements, they are used to eating in big restaurants, eating on the wooden bridge is the first time, this bridge is not ordinary bridge, both sides of the bridge have a row of seats, guardrails and backrest, more importantly, the top of the bridge there is a sunshade, so people stay on the bridge feel very cool. There are two waiters at each table on the bridge to pour the drinks and so on, and you can tell them anything you want and they will have a walkie-talkie to bring you what you need.

The wedding banquet today was not a loss, Chen Hao Xuan made several hundred million RMB, and having tasted the sweetness Chen Hao Xuan really wanted to get married every day, but unfortunately this is not ancient times.

That night, when Chen Hao Xuan and Chen Yina had their wedding night, Chen Hao Xuan and his wife did not take any precautions because they wanted to have a child.

Chen Hao Xuan his fame was already high, now it is even higher, the wedding can invite so many big figures, this is not ordinary, is a certain country's president ~ president also does not have that much face. The reason is that Chen Hao Xuan is different from the official, the official at most only gives power, power this thing say he is important he is not very important, but say he is not important but he is very useful. The same is not true for Chen Hao Xuan. To have a good relationship with him is to have a good relationship with money. Money can get through to the sky.

After the wedding, Chen Hao Xuan stayed at home with Chen Yina every day, as a newlywed! He was too embarrassed to leave Chen Yina alone and run out to work by himself.

Chen Hao Xuan was destined to do great things. He stayed at home for a week and then went to Rice, because there was a big business again.

## **Chapter 434**

Rice in Europe is expensive, but rice in Asia is cheap! Especially in China, the country with the most land, Chen Hao Xuan asked Liu Junfeng and the others to help him buy grain and some dried meat and send it to Rice.

Now food in China is as cheap as ever, after all, it's none of Asia's business if Europe is at war. Chen Hao Xuan has to thank the merchants who put up the hoard of grain, if it wasn't for them, grain wouldn't be so expensive. Chen Haoxuan he wants to make money and make money without being convicted of breaking the law. He plans to ship the grain to Rice and then sell it a few cents higher at the previous price, so that he can make money and earn fame, killing two birds with one stone, except that if he does so, he will offend the grain hoarders.

In fact, the reason why grain is suddenly so expensive in Europe is because of these unscrupulous merchants who spread rumours for their own benefit. But this can only fool ordinary people, a smart person will understand once he thinks about it, it's just two small countries at war, it's not their country, they are not panicking!

Chen Hao Xuan is like a god of wealth, every time he gives an order, he can earn thousands of millions, and what's more, hundreds of millions. Chen Hao Xuan found that in the 21st century, it is the most profitable to be a backhand, for example, getting tea from China to sell in the country can be sold at a high price, and getting products from the country to sell in China, which are high-grade goods, every place has its specialties, these specialties are very cheap in the local area, but if you ship them out to sell, you can make a fortune.

Chen Haoxuan may have been too ambitious, he overheard a news story about coal miners who were killed in a coal mine, which has another name, that of a gold mine. In the 21st century there are still a lot of people who use coal, Chen Haoxuan thought, he has the technology, he can contract some coal mines can do.

So Chen Hao Xuan contacted the leader of the Dragon Group and asked him to help him see how many coal mines had been closed, and he wanted all the ones that had been closed. It was normal for coal mines to be sealed, as they were usually closed when too many accidents occurred. These sealed coal mines are rarely mined again because they are dangerous for others, but for Chen Hao Xuan, there is no danger to speak of, and he has all the means to make the mines safe.

Chen Hao Xuan is not only contracting coal mines in China, he is also contracting coal mines in other countries. It is a shame not to earn money!

Chen Hao Xuan stayed in the country for another three months, and after three months he returned to the Chen family village for a week, because Zhou Kexin was pregnant, which made Chen Hao Xuan

sweat furiously, his wife was not pregnant, but his mistress was pregnant. After staying for a week, Chen Hao Xuan began to travel the world.

Chen Haoxuan his assets now, changing more and more every day.

Chen Haoxuan he did not know that his development had caused certain people to panic, those people were thinking that if they let Chen Haoxuan continue to develop like this, they could no longer restrict Chen Haoxuan, they needed to get rid of Chen Haoxuan for the sake of their status.

On this day, Chen Haoxuan returned from a mine, because that mine was after all remote, so basically no one could be seen on the road. Chen Haoxuan had only brought Jiang Dong with him today, who was now Chen Haoxuan's regular driver. In the past, Chen Hao Xuan would take many people with him whenever he went out for fear of being killed, but after so long, all those enemies from the past seemed to have disappeared and never appeared again. With no more enemies, there was naturally no need to bring so many people with him, so Chen Hao Xuan only brought Jiang Dong with him.

Not long after leaving the mine, Chen Hao Xuan he was in his car, his afterimage suddenly saw a few trees on the roadside moving, Chen Hao Xuan had a bad feeling, he hurriedly said to Jiang Dong Dong who was driving, "Jiang Dong, be careful, there seems to be an enemy."

"Got it boss." Jiang Dong replied.

The car Chen Hao Xuan made was not an ordinary car, the glass was bulletproof glass and the tyres were not ordinary either, but the enemy's gun was obviously not an ordinary gun either, the tyres were broken as soon as they were hit.

The wheel is broken definitely can not drive, continue to stay in the car only one way to die, so Chen Hao Xuan to Jiang Dong Dong: "Jiang Dong we rush out to take out these people, remember, must be careful."

They ran very fast, they ran ten meters out of the car before those who wanted to kill Chen Hao Xuan started shooting, they must have just failed to react.

The gun is powerful, but if the person can't do it, even a powerful gun is scrap metal. Bang bang bang ..... shots rang out non-stop, Chen Hao Xuan and the others had to run desperately to keep the bullets from hitting them, Chen Hao Xuan took Jiang Dong and ran into the woods, then Chen Hao Xuan climbed up a big tree while Jiang Dong hid in a dirt pit, they were going to counterattack.

"Hurry up, don't let them get away." A beautiful European woman anxiously commanded her men, saying. Then Chen Hao Xuan was here, he would have been surprised, because this person was familiar with him, this person was not other, it was none other than Aibel, an agent of Rice.

This time, Ai Beier brought dozens of agents also invited the world famous mercenary group, that mercenary group has a hundred people, all of them are experts, only higher than them agents, not lower.

They all thought that Chen Hao Xuan must be running for his life and would not stay and fight with them, after all, there were more than a hundred of them, and all of them were experts, so they would only die if they stayed. It was because they thought so that they all ran as hard as they could to catch up with Chen Haoxuan.

After all the people had already run past, Chen Haoxuan and Jiang Dong came out and the two of them sneaked behind the group of enemies. The two of them were like the Grim Reaper, as long as whoever was at the end, it was his time to die. Chen Haoxuan and Jiang Dong both held a sharp dagger, and for every enemy that lagged behind, they went up and quickly covered the enemy's mouth, and then took the dagger and wiped it on the enemy's neck.

When Chen Haoxuan and the others had taken care of ten men, Ai Beier suddenly stopped, "Stop all, we have chased so far - we haven't seen Chen Haoxuan, Chen Haoxuan he must be hiding, everyone search back, we must find Chen Haoxuan."

At that moment, a foreigner with a full beard spoke out to Ebelle, "Sir, a few of my brothers are missing?"

When Ai Beier heard this, her heart tightened, they had over a hundred experts, but they had been killed by Chen Hao Xuan and they hadn't even noticed. "Everyone pay attention, Chen Hao Xuan is nearby, just now when we were running, he secretly killed the people who were running behind."

## Chapter 435

Ai Beier and the others began to search for Chen Hao Xuan and the others, while Chen Hao Xuan and Jiang Dong were hiding in the distance, secretly supervising Ai Beier and the others, and as soon as they had the chance, they would go over and destroy the enemy.

They had to spread out, and as they searched, they unknowingly spread out even more.

Chen Hao Xuan he found an opportunity, he would not let go, he turned his head, whispered to Jiang Dong, said, "You stay here, I'll go and meet them."

"Boss, I'll go." Jiang Dong seriously said to Chen Haoxuan, they had been following Chen Haoxuan for three years, but they had never done anything for Chen Haoxuan, while Chen Haoxuan had treated them very well, they had long been overwhelmed in their hearts, they wanted to do something for Chen Haoxuan, but they had waited for so long, but never had the chance. Today there were hundreds of enemies trying to kill Chen Haoxuan, this was their chance to repay Chen Haoxuan, if they missed it again this time, they really had no face to follow Chen Haoxuan again.

"Your strength is still too weak, if they all come together, you have no hope of survival. So you might as well wait here and let me go meet them." Chen Haoxuan whispered to Jiang Dong, and said.

Jiang Dong also felt that what Chen Haoxuan said was right, so he could only helplessly say to Chen Haoxuan, "Boss, then be careful."

Chen Hao Xuan nodded his head, then bent down and felt his way to the front. Chen Hao Xuan sneaked up to the vicinity of Ai Beier and the others, when a foreigner came over, Chen Hao Xuan crouched on the ground and saw from the gap in the grass that no one was paying attention to him at this time, so Chen Hao Xuan waited for the foreigner to come over, he quickly stood up, covered the foreigner's mouth, held the right hand of the dagger and swung it around the foreigner's neck, then

pinned the foreigner to the ground, Chen Hao Xuan then used the dagger to cut a piece of cloth on the foreigner's body and wrapped the cloth around the wound on the foreigner's neck.

The nose of a high fighter is very nimble, if there is blood, they can easily smell it, that's why Chen Haoxuan wrapped the wound of the already dead foreigner with the cloth so that they can't smell it. After Chen Haoxuan killed an enemy, he moved to the left. There was an enemy with a pistol in his hand on the left, that enemy was further away from the others, so Chen Haoxuan chose him.

Chen Haoxuan touched over and stood behind a tree, waiting for that enemy to get close, as soon as Chen Haoxuan came out he threw his dagger, the dagger seemed to be a silver light flying towards the enemy Chen Haoxuan was going to deal with, that enemy saw Chen Haoxuan suddenly appear, he was about to shout, his mouth was already open, but when he was just about to shout, his neck went numb and he didn't know anything after that. Chen Haoxuan quickly ran towards the enemy, he believed in his own strength, once his dagger was out, the enemy would definitely die. Chen Haoxuan ran over so quickly because he was worried that the sound made by the enemy when he fell would be heard by others, so he had to hold the enemy's body before he fell.

After holding the enemy's body, Chen Hao Xuan slowly put it down and then cut off a piece of cloth to wrap around the enemy's wound as he had just done.

Jiang Dong, who was in the distance, saw Chen Hao Xuan wiping out his enemies one by one. He was ashamed of himself, he could also kill these enemies, but he could not do it without a sound. When Chen Hao Xuan had killed five of them, the enemy finally realised that there were a few less of their companions as well.

"Everyone be careful, don't spread out too much." Ai Beier spoke out to warn.

"I can't deal with you guys if you don't spread out? Hmph, you guys underestimate me, Chen Haoxuan, and you will pay a heavy price for this." Chen Haoxuan said darkly in his heart as he pushed back to Jiang Dong's side secretly.

After returning to Jiang Dong's side, Chen Haoxuan said to Jiang Dong, "Come, let's go make a trap, let them taste the wisdom of our Chinese people, we can still f\*ck them up without guns."

"Hehehe ....., boss, I like to shade people the most." Jiang Dong said with a yin smile.

Chen Hao Xuan and Jiang Dong left and they went to another mountain ridge where they were going to make traps. Chen Haoxuan they they were fast, so the daggers could split the branches just as well, and the two of them worked together to make traps, one killing trap came out of their hands. After Chen Haoxuan and his team had made more than thirty traps in a row, they deliberately made some noise so that Abel and his team would know that they were on the opposite ridge.

Suddenly a booming sound was heard from the opposite ridge, which sounded like the sound made by boulders rolling down the mountain. She shouted to her men, "Chen Haoxuan is on the other side, let's go over there, everyone be careful, don't scatter, it might be another plot by Chen Haoxuan. In order not to fall for Chen Haoxuan's plot, everyone shoot me immediately if you see a stranger, even if you see Chen Haoxuan, I don't want a live Chen Haoxuan, I want a dead Chen Haoxuan."

"Miss Aibel, we have lost more than a dozen people now, this is the biggest sacrifice since the creation of our mercenary group, so when we kill Chen Hao Xuan, shouldn't you give us some more commission." A bald and strong man said to Ai Beier, he was the leader of this mercenary group, his name was Cassie, what made him great was not his hands but his mind, he was good at making money, and people who were mercenaries were all about money, so they had to choose Cassie as their leader in order to make more money.

"You have the nerve to ask me to increase my commission, your men were killed, it's your men who are useless, it's none of my business, you want compensation, you can go to Chen Hao Xuan!" Ebelle huffed and puffed at Cassie.

"Ai Beier, don't go too far, you asked us to kill Chen Hao Xuan, but you only said that Chen Hao Xuan's men are very powerful, while Chen Hao Xuan is as good as average. Do you think the current Chen Hao Xuan is very average? I am sure that the person who killed my brother was Chen Haoxuan, not Chen Haoxuan's men, you gave us the wrong information, what is wrong with me making you pay for it, huh." Cassie cursed.

"Cassie, I'm telling you, if you can't kill Chen Hao Xuan, I won't give you a single penny and you will be kicked out of Rice, think about it yourself!" Aibel threatened fiercely.

If Chen Haoxuan had heard this, Chen Haoxuan would have stood up straight away and said to Cassie, "Cassie, don't you just like money? If you help me kill Ebel, I'll give you tens of millions of dollars, and if that's not enough, then I'll give you 100 million dollars ....." Unfortunately, Chen Hao Xuan was too far away from Abel and the others, Chen Hao Xuan couldn't hear.

"Count me out for not saying anything just now." Cassie said helplessly, they were all from Rice, leaving Rice, they would lose a lot, for the sake of their families and to live a better life, they had to bow their heads.

"Quickly take your men to go after Chen Hao Xuan, succeed in killing him, your mercenary group, I will take care of it." Ebelle first threatened Cassie, and then later drew a sweet pie for Cassie.

Cassie had no choice, he had to let Aibel lead him by the nose, he led his men at a fast pace ahead, as they reached the foot of the mountain, one of Cassie's men suddenly exclaimed, "Get down." It turned out that the man had inadvertently touched a heel vine, and then he saw a huge boulder in a large tree, and he exclaimed loudly.

With a loud bang, the huge stone killed two people and injured one more at once. "Everyone be careful, Chen Hao Xuan he has drawn us here on purpose, he must have made a lot of traps. Everyone take a long stick in each hand to use to scout the path, so that you won't be afraid of encountering traps again." Ai Beier reminded herself again.

So Ebelle and the others acted as beggars, each with a dog beating stick, constantly hitting the front walk, the place was knocked over and they wouldn't even walk past it.

"How silly they are, we are modern people, how can we make a bad trap!" Jiang Dong, who was hiding on top of the hill, sniggered.

"They aren't Chinese, how would they know how good we Chinese are at installing traps." Chen Haoxuan laughed.

On Abel's side, an agent used a root to find a trap, it was a pit covered with dirt, he knocked on it and felt that the sound was not right, so he thought it was a trap. The agent, feeling proud that he had found a trap, spoke out to Ebel and said, "Sir, I have found a trap."

When Abel heard this, she immediately ran over, she also knocked it with a stick and found that it was really empty, she spoke out, "This could be a trap or it could be that Chen Hao Xuan and the others are hiding inside, No.1, go and bring a big stone over and throw it down, whether it is a trap or a person, I will smash him."

No.1 quickly brought a huge boulder of over fifty pounds and without saying a word threw the boulder at the trap and with a boom, the trap was destroyed. Ebelle was about to make a sound for someone to go over and take a look, but she suddenly heard something make a cracking sound and she sensed danger, she immediately made a sound, "Everyone get down." As she said that, she quickly got down herself.

It was so sudden that those in front of them all got down quickly, but those behind them, although they heard Abel's words, they didn't know what was going on, so they didn't react as fast as those in front of them, poof poof ..... ten such sounds.

She now knew what was making the sound of breaking air, it was ten bamboos, and she saw six of the men she had brought with her die on these dead bamboos. Ai Beier stood up and she chirped loudly, "Chen Haoxuan, come out if you are a man, what kind of a man is hiding?"

Chen Haoxuan didn't bother to pay attention to her! They were enemies now, it was either you die or I live, what kind of a good man, he didn't care because he wanted to live.

When Ai Beier saw that Chen Hao Xuan did not respond, she turned to her men and yelled, "Whoever kills Chen Hao Xuan, the mercenary group I will let him into the secret service, and I will reward him with ten million dollars for being a secret service agent."

#### **Chapter 436**

This time Chen Haoxuan heard it, and Chen Haoxuan he said loudly to Kasi and the others who were at the bottom of the hill, "You are a mercenary group, aren't you? You came to kill me for money? If you

help me kill the people who hired you, I will pay you twice as much as they paid you. Besides, if you can't stay in Rice anymore, you can come to me! I have business all over the world, and also have many friends in the power faction, so with my help, you can go anywhere to develop ....." Chen Hao Xuan kept on fooling around, he wanted to make these people hesitate so that they wouldn't wholeheartedly try to kill him in that case.

The first thing that I'm afraid of is that the mercenaries like Cassie and the others will defect to Chen Haoxuan, and if Cassie and the others do defect to Chen Haoxuan, I'm sure they will die. In order not to Cassie and the others would not betray, Ai Beier said to Cassie and the others, "Everyone don't listen to Chen Hao Xuan, he is trying to make us kill each other while he himself sits on the fishing boat."

"Aibel, you are as treacherous as ever, letting the mercenary corps' men be cannon fodder in the front while your own men stay behind, taking little to no losses. If you really want what's best for your brothers in the mercenary corps, then take your men in the front! Hypocritical, how hypocritical." Chen Haoxuan said loudly.

Ai Beier's face turned purple with anger, she admitted that what Chen Haoxuan said was true, she did it to save her strength, otherwise if all her men died, she would no longer be able to control the mercenary corps. "Everyone go, we must not let Chen Haoxuan get away, snipers, if you see Chen Haoxuan venture out, shoot him down immediately."

Chen Hao Xuan and very Jiang Dong seemed to be watching the show as they lay on top of the hill, watching Ai Beier and their gang of beggars with dog fighting sticks as Ai Beier and the others touched a trap every now and then, causing their casualties to mount up.

The traps that Chen Hao Xuan and the others installed were not just randomly installed, they were all tailor-made for Ai Beier, so all the traps were touched by Ai Beier, causing Ai Beier and the others to lose more than seventy people. What was the difference between this and sending them to their deaths.

At this moment, Chen Hao Xuan's voice came out again, "Ai Beier, do you ever feel that you are a fool, in the past you brought so many men to kill me, only to be slaughtered by me time and time again, you brought so many people for me to slaughter again this time, why do I feel that you are forcing me to be a butcher?"

Ai Beier was mad with anger, she had brought more than a hundred people here and was still abused by Chen Hao Xuan, her dignity and confidence had been dealt a serious blow. "Charge to the top of the mountain for me." Ai Beier roared, she didn't want to care so much anymore, she just wanted to kill Chen Hao Xuan so as to relieve the anger in her heart.

When Chen Hao Xuan saw Ai Beier rushing over with her men, he did not get nervous nor did he run away, he said to Jiang Dong who was lying beside him, "Jiang Dong, I heard that your marksmanship has improved a lot, let's have a competition! If you win me, I'll give you the world's coolest motorbike."

"Sure!" Jiang Dong said excitedly, they originally didn't have any guns with them, the guns they used now were all taken from the enemy, there were more than ten pistols, one sniper rifle and twenty magazines, if they were good at shooting, they would be enough to send Abel and the others to the West.

Snapping ....., Chen Hao Xuan and Jiang Dong fired together, both of them were very bullish, using double guns, the sound of snapping rang out non-stop, as if they were holding machine guns in their hands. Since Chen Hao Xuan and his men had not used any hot weapons, Ai Beier and his men thought that Chen Hao Xuan and his men did not have any hot weapons, so they just charged forward and were killed by Chen Hao Xuan and Jiang Dong in a short while.

Before Ai Beier could even start ordering his men, Cassie started ordering up, he was here to make money, not to die, he yelled out to his men, "Everyone drive and hide, Chen Haoxuan and his men are marksmen."

Chen Haoxuan saw that Ai Beier and the others had each found a place to hide, so he picked up the sniper rifle, he and Jiang Dong took turns to play, one person shot one shot and lost one million RMB if they couldn't hit the seed. Ai Beier is really miserable and has become a gambling tool for Chen Hao Xuan and the others.

Chen Hao Xuan is the greatest expert from the future century and also the smartest chief professor, while Jiang Dong, a master trained by Chen Hao Xuan, is several times more powerful than Ai Beier and the others, and it is normal for the two of them to suppress Ai Beier and all of them.

The number of Ai Beier's men was dwindling, Ai Beier was scared and so was Cassie. Ai Beier wanted to retreat and bring more men to kill Chen Hao Xuan later. They are a mercenary group, they are competitive with other mercenary groups, the weaker ones will always be bullied. If this continued, his mercenary group would go from being the strongest to the weakest, and then it would probably be annexed by other mercenary groups.

Now Cassie wanted to strip Aibel and play with her for days and nights, she had caused the loss of so many of their elites.

Before Ebelle could give the order to retreat, Cassie started to run away with his men, so angry that Ebelle pointed at Cassie and them and roared, "Cassie, don't you dare run away, I'm telling you, if you run away, you're my place and the enemy of our Secret Service."

Cassie didn't care about that! The only thing he wanted now was not money nor power, but to stay alive, as for the threat of Ebel, that was for later, right now staying alive was important.

Chen Haoxuan, who was holding the sniper rifle, could not see Abel as she was hiding behind a rock, but he could see Abel's finger pointing at Cassie. Chen Haoxuan gave an evil smile as he aimed at Abel's finger and pulled the trigger, with a snap, one of Abel's fingers was missing.

The pain was so intense that Abel gritted her teeth and quickly tore a piece of cloth off her sleeve and bandaged her hand. Looking at the bandaged broken finger, Ai Beier's heart was filled with resentment, "Chen Hao Xuan, I, Ai Beier, will not live with you."

Cassie he escaped with his men, but they had lost quite a few of them in their escape and there were only ten alive now, three of them with wounds. "Let's go and move the mercenary group to F State before Ebelle returns to Rice." Cassie said to his men.

## **Chapter 437**

Cassie and the others escaped, leaving only Abel and the twenty or so others behind. Abel felt a great deal of pressure and wanted to escape with her people, but she had just seen that Cassie had escaped with fifty or sixty people, but only about ten had escaped. There were only about twenty of them now! If they ran away like Cassie and the others, they might not be able to escape alone. "What should we do?" Aibel said with a torn heart.

On Chen Haoxuan's side, the two of them surprisingly stopped shooting because Abel and the others didn't show their heads, they knew to fight? Chen Haoxuan he turned his head to Jiang Dong who had an excited face, and said, "Let's split up, you go to the left, I'll go to the right, we'll attack from both sides and exterminate them."

"Good." Jiang Dong said excitedly, his first time participating in a real battle, could he not be excited?

Jiang Dong and Chen Haoxuan separated and the two of them sneaked down the hill.

Ai Beier she heard the gunfire stop, she took out a small telescope and peeked out, finding that Chen Haoxuan and the others had gone there without knowing. "Could it be that they have escaped?" Aibel questioned in her mind.

After a long time, there was still no movement, Ai Beier became anxious, she thought about it, Chen Hao Xuan just faced a hundred or so of them did not flee, now they only have more than twenty people, it is impossible to escape, could - could it be that he sneaked over? She couldn't care less, her men were important, but her life was more valuable.

When Chen Haoxuan saw Ai Beier suddenly stand up and run desperately down the hill, he was stunned and thought, "Did she know I would sneak up on her?"

When Ai Beier's men saw their officer running away, they, the little shrimps, pulled their legs out and ran. Jiang Dong he shot first, snapping ..... Chen Hao Xuan also fired, he only fired three snatches and the men that Abel had brought were all wiped out.

Chen Hao Xuan he shouted to Jiang Dong, "Jiang Dong, don't let that stinking woman get away, chase after her." As he spoke, he was already running a hundred metres away.

Jiang Dong threw down a pistol and followed Chen Hao Xuan to chase after Ai Beier.

Ai Beier was an excellent agent, she was better than ordinary agents, but compared to Chen Hao Xuan and the others, she was not even close, it didn't take long for Chen Hao Xuan to catch up with Ai Beier. Chen Hao Xuan was not the old Chen Hao Xuan, he was now a master of the world, in his eyes, Ai Beier's speed was no different from that of a turtle. Chen Hao Xuan was also very dry, he raised his foot and kicked, with a muffled bang, Ai Beier was kicked away by Chen Hao Xuan.

Jiang Dong, who was at the back, looked at Ai Beier who flew backwards, he had no pity for her, he swept her aside with a leg sweep. Ai Beier fell to the ground, unable to stand up, and spat out a few mouthfuls of blood before she felt better, which showed how hard Chen Hao Xuan and the others had hit her.

"What do you want?" Ai Beier's voice was trembling, she was also afraid of death.

Chen Haoxuan walked up to Ai Beier, squatted down and said to Ai Beier with a harmless smile, "Can you tell me why you came to kill me again this time?"

"Fine! Even if I don't tell you, you should be able to find out. It was our leaders who sent us here because the business you are doing is too big, too big for us to limit you, which we won't allow, so we are getting rid of you." Ebelle said weakly.

Ai Beier was not lying, what she said was true, Rice was afraid of Chen Hao Xuan. If Chen Haoxuan pulled out all of his business in Rice, or invested heavily in Rice, it would bring huge losses to Rice. What Rice fears about Chen Haoxuan is not that Chen Haoxuan has money, but that Chen Haoxuan's business is all over the world, once you restrict him, he can go elsewhere to do business, so Chen Haoxuan who cannot be restricted is a very scary person.

"Want to get rid of me, right? Hahahahaha ..... really don't know what's good for you." Chen Hao Xuan stood up and laughed very arrogantly.

Chen Hao Xuan turned around and said to Jiang Dong Dong, "Jiang Dong, you have made a great achievement this time, I have nothing to award you, so this woman will be given to you! Have fun, and release her when you've had enough, I still need to get her back to deliver a message for me! I'll just go first."

When Jiang Dong heard Chen Hao Xuan's words, his eyes lit up, Ai Beier was a beautiful woman! There were not many such beauties.

When she saw Jiang Dong's wolf-like eyes, Ai Beier's heart couldn't help but be scared, and she shouted, "Help, help ....." The place is so remote that no one would hear you even if you let off a cannon here.

In the distance came Chen Hao Xuan's voice: "When you go back, help me tell your leader, I Chen Hao Xuan not want to pinch just pinch, want to fight with me, then I will take it."

Chen Haoxuan his car broke down, so he had to run back, and when he ran back, he took a plane back to Chen's village. He was going to counterattack and ask him to do bigger business, and he had this in mind, "If you want to kill me, Chen Hao Xuan, then I will make all your money."

When Chen Hao Xuan returned to the Chen family village, the first thing he did was to ask Chen Yina to help him contact all the media in China, as long as they were slightly famous, he was going to hold a press conference to inform all of China that he wanted to recruit talents, with an annual salary of one million, and that those who thought they had what it took would come to the Chen family village to apply for the job.

Chen Yina, who has already graduated, is now considered Chen Hao Xuan's secretary, responsible for helping Chen Hao Xuan manage his finances and oversee each company, and she has a lot of power, as Chen Hao Xuan has given her the power to act first and then to act later.

Chen Hao Xuan is holding a press conference and every member of the media feels honoured to receive an invitation from Chen Hao Xuan, just think! Aren't you excited when a great man remembers you exist?

Two days later, Chen Hao Xuan held a press conference at his home, where he claimed to the journalists that he would more than double China's economy within a year. He was talking about the entire country of China, one person would drive the economy of the entire country of China, such strength is too perverted, right?

The journalists present were no less than the elites of the various media companies, and their astonished hearts quickly recovered as they asked Chen Haoxuan questions.

After that, Chen Hao Xuan said that he wanted to recruit talents in China, and that an annual salary of one million was the least, and if you were also capable, you could be paid 100 million a year. One hundred million dollars a year? The reporters stopped taking notes and recording and asked excitedly what Chen Hao Xuan's requirements were for the talent he was talking about. If their bosses were here, they would have pointed at them and cursed, "How dare you want to jump ship."

A salary of 100 million per year! Who wouldn't want that? So it was justifiable for the journalists to want to jump ship.

## **Chapter 438**

If these journalists were capable. They would have gone on to do great things, so how could they be a small reporter! So for these reporters, Chen Hao Xuan directly said, "You think you are talents, then let's see which one of you can help me find more talents over, whoever helps me find the most talents, he is a talent and I will reuse him, how much is the annual salary, it depends on your strength."

As a result, when these journalists returned to their own companies, they all frantically investigated talents from all over China, and as for the news brought back from Chen Haoxuan, someone else was still in charge since. The media relies on fresh news and first-line news to make money, so they usually have many bridges to rely on to get first-line news. Those journalists who came back from Chen Haoxuan's place used their company's bridges to find talents, and every time they found one, they would go over and investigate it personally, and if it was true, they would persuade those talents to go to Chen Haoxuan's place.

The news in China went crazy, the TV stations didn't even show TV dramas anymore, they all put also news about Chen Haoxuan recruiting talents, every media company found a talent, they would go

and interview them, and the interviews were broadcast live. Probably because of the money, everyone viewers enjoy watching these programs.

Chenjia Village unknowingly turned into a place where the world's talents gathered, and many people who thought they were geniuses packed their bags to go to Chenjia Village for interviews.

The applicant officer is Jiang Xianghan, and as long as she thinks they are a talent, she will send that talent out. If they are a business genius, they will be given 10,000 to make 100,000 within a week, if they are a technician, they will be sent to the factory ....., and as long as they actually complete the tasks set by Jiang Xianghan, they will be able to meet Chen Hao Xuan, who will personally be in charge of them.

In the past, Chen Hao Xuan also advertised for talent, but he didn't get many, because the salary he offered before wasn't much higher. But now it was different. The annual salary was a million, and if one was capable of getting an annual salary of 100 million, one could not even make that much money by opening a company, so what were you waiting for, go to Chen's village for an interview.

Because the salary Chen Haoxuan gives is so high, this makes many bosses who want to have their own companies go to Chenjia Village for interviews, they work hard to open a company as much as a part-time worker, they all do it to make money, Chen Haoxuan gives a salary that is more than what they earn from opening a company, how can they not be moved. It is normal for everyone to think that they are superior. Many people think that they just don't have a chance, and if they are given a chance, they can soar to the top.

With 1.3 billion people, China has more talents than any other country, but why is it so backward? This is all because of the emperors in ancient times, who could not do this or that, but could only cultivate the fields and cultivate the land. Now that the country has been reformed and opened up, the people of China are free. If we give the Chinese people some more time, their wisdom will slowly improve and they will definitely surpass the Europeans.

This is because the ancient dynasties of China before feudalism were all very powerful. For example, the Tang Dynasty was the world's number one power in science and technology at that time, and there were countless inventors in China, so the intelligence of the Chinese people was not weaker than those Europeans at all.

Chen Hao Xuan's advertisement was sent out, and the next day, people came for interviews, on the third day, hundreds of people came for interviews, on the fourth day, tens of thousands of people came for interviews, and after five days, there were still a sea of people coming for interviews.

Chen Haoxuan sent more than 1,000 personnel department employees from the All-in-One Mobile Phone Group to Chenjia Village to recruit talents. Chen Haoxuan wanted to recruit real talents, so each person responsible for interviewing employees was very serious, they thought the other party was a talent to see, they would let him go to Jiang Xianghan, Jiang Xianghan thought it was okay, then they would let him go to Chen Haoxuan, one hurdle after another, as long as they could get to Chen Haoxuan, the interview was half successful.

On Chen Haoxuan's side, no one has come for an interview yet, because those who do need to complete their tasks before they can go to Chen Haoxuan for an interview. Chen Haoxuan is very strict in recruiting talents, but no one is dissatisfied because Chen Haoxuan has said, I hope to recruit talents who can get an annual salary of 100 million, because those who can get an annual salary of 100 million can help him make more money, so I hope others get that salary.

Ai Beier, she has returned to Rice, she is going back with a raging resentment, she has never been bullied like this, she wants revenge, she wants Chen Hao Xuan to die without a burial place. There was no way she would tell anyone why Ai Beier was so angry, because she had been forced by Jiang Dong to do things to her that even she could not have imagined.

It was only when Ai Beier returned to Rice that she found out about Chen Haoxuan's talent recruitment. She knew that Chen Haoxuan was going to fight back, and she knew that Chen Haoxuan would only recruit talent from China, and no talent from other countries would be recruited. Ai Beier thought that Chen Haoxuan did not recruit talents from other countries because he was afraid of betrayal and technology leakage. If she sent a few of the most powerful scientists from Rice to pretend to defect to Chen Haoxuan, she didn't believe that Chen Haoxuan would be unmoved, and then Chen Haoxuan's technology would be theirs, and they might be able to pull in a lot of talents.

After all, there are too many Chinese people who want to come to Rice, and everyone is proud to have spent time in Rice.

She told her boss what Chen Hao Xuan had asked her to bring, and he was so angry that he wanted to tear Chen Hao Xuan apart. She also told her boss about her plan, and he agreed and sent two scientists to China.

Ai Beier herself found a few more scientists privately to apply for jobs with Chen Hao Xuan in China. The scientists she found came to her suddenly and she told those scientists that if they helped her, she would support them to become great scientists.

The scientists that Ai Beier sent out, went to China the next day and came back on the third day because Chen Hao Xuan's people didn't give a damn about them, even if they told them who they were, they didn't give a damn and drove them back with one sentence: "We only recruit people from China, you are foreigners, we don't need them."

When Ai Beier found out, she was so angry! She couldn't beat Chen Hao Xuan, but she couldn't play dirty, so she didn't know how to deal with Chen Hao Xuan. Ai Beier already knew that Chen Hao Xuan's men were now the best of the best, several times stronger than their Secret Service men, take that Jiang Dong for example, a small bodyguard is more than ten times stronger than her, such a person to come to the hard way is really difficult.

Ai Beier is in Rice obsessing about how to deal with Chen Hao Xuan, but Chen Hao Xuan is in China relaxing and leisurely drinking tea and reading information, he is like an ancient emperor, he only needs to move his head, everything else is done by his subordinates.

Chen Hao Rong, who is now living in regret, really wants to turn back time so that he can change his current situation, if time can really turn back, he will treat Chen Hao Xuan well, and when Chen Hao Xuan becomes rich, he will have endless money. Chen Haorong, now he doesn't even dare to tell people that he is Chen Haoxuan's brother, because every time he tells people that he is Chen Haoxuan's brother, he is either beaten up or despised. He didn't even think about it, what kind of person was Chen Haoxuan, could his brother be so shabby too?

Chen Haorong is now working in a wood factory in Pingyuan County, while his wife is working as a waitress in the entertainment street. He originally wanted to take his wife to work elsewhere, but the problem was that the house they rented before had a one-year contract, and the deposit was 5,000 RMB! Their entire fortune didn't add up to that much, so they had to stay in Pingyuan County for the time being.

He had no skills and there were no factories in Pingyuan County, so he had to work in a wood factory for about 1,500 yuan a month, which was very little. And his wife had no choice but to work in the entertainment street. The wages in Pingyuan County were all very low, and the highest was in the entertainment street.

Fortunately, Yang Lin did not know that Fang Zhiyu was Chen Haoxuan's sister-in-law, otherwise Fang Zhiyu would have been fired.

Chen Haoxuan's parents, Chen Zhenghao and Li Xin, are different from Chen Haorong and his wife. Chen Haorong and his wife are regretting, while Chen Zhenghao and his wife are repenting. They are now worse off than before because they have no fields or jobs, their house is still borrowed and their only income is from cutting wood in the mountains.

The people of Li Xin's mother's family keep saying that Chen Hao Xuan has no conscience and does not even want his own parents, but it seems that they themselves are also very heartless, Li Xin and his wife are so pitiful but they do not see them reaching out to help.

Although Chen Hao Xuan's body was born to Chen Zhenghao and his wife, his person was not, so he did not feel sorry for Chen Zhenghao and his wife. So as long as someone scolds Chen Hao Xuan for being unfilial, without Chen Hao Xuan saying so, others will scold the person who scolded Chen Hao Xuan, and the media will be the ones on the news saying that person is wrong. There was also a reporter who went to interview Chen Hao Xuan in the past, and Chen Hao Xuan said this to that reporter.

"Just take a look at Chen Yuebin's family and you will see that I am a person with no conscience. Although they are my neighbours, they are closer than my family because it was their family that helped me when I was abandoned by my family, otherwise I might have starved to death in the first place. Since I started making money, I have repaid them, look at them now, I have made their daughter a senior white collar worker, I have made them live in the most luxurious villas in China, I have made them billionaires, because of me, their family's fate has been changed, so I will let you go and see Chen Yue Bin and his family to know whether I have a conscience or not."

Chen Yina's family is now in a good position, and they are often visited by people with gifts, and their relatives even go to their home twice a day, just to ask them to help their children find a good job.

Chen Hao Xuan has recruited three real talents since he started recruiting, and he has only been recruiting talents for one month, which is only one in a million. Chen Hao Xuan recruited these three talents, some with an annual salary of one million, some with an annual salary of three million, and some with an annual salary of seven million, which are all depending on their three abilities to offer a package.

## Chapter 439

China. One by one, new companies are rising up in Rice, and one by one, companies are relocating to China. The companies that are relocating are those that Chen Haoxuan has a part in, those in Rice are those that Chen Haoxuan started with others, but Chen Haoxuan still has a way to get them to willingly agree to move their companies to China, because the business tax in China is low, and in China you can get Chen Haoxuan's strong support, and the money you make will only be more, not less.

Seventy per cent of all the new large companies opened in China this year are owned by Chen Hao Xuan, and the people responsible for managing the new companies are those who have just been recruited. Nowadays, China feels prosperous and people are living happily, no longer worrying about not having a job because the country's economy is growing fast and there are many companies. It can be said that nowadays, China is hiring people everywhere, as long as you are able-bodied, unlike the previous years when it took months or even a year to find a job because a few years ago, there were too few factories in China.

The rice people can't do anything about Chen Haoxuan, they can't stop Chen Haoxuan's development and they can't restrict Chen Haoxuan, because if they restrict Chen Haoxuan, their rice country will be feudalized like the ancient China. They were desperately studying all of Chen Haoxuan's products, trying to get Chen Haoxuan's technology from them.

He was very happy to be a father, knowing that in his previous life he was a lonely man with a lot of lovers, but no wife and no children.

Chen Hao Xuan named his daughter "Chen Xiaonuo" because Zhou Kexin was Chen Hao Xuan's lover and not his wife, so the daughter was nominally born to Chen Yina, so that Chen Hao Xuan could tell people that he had a daughter in name only. Chen Hao Xuan made the decision to let Chen Xiaonuo, who was only a few days old, adopt Zhou Kexin, Jiang Xianghan and Han Yuechan as her godmothers.

Hua Lingwei, who was the most special among Zhou Kexin and the girls, played with Zhou Kexin and the girls all day long, and many people regarded her as Chen Hao Xuan's woman, and even Zhou Kexin

and the girls looked for Hua Lingwei as their good sister, the kind of good sister with the same husband. But Hua Lingwei is not Chen Hao Xuan's woman, she has never confessed to Chen Hao Xuan, nor has she ever warmed his bed, nor has Chen Hao Xuan ever said he likes her, which makes her very torn.

The fact that Hua Ling Wei, who spent all day fooling around with Zhou Kexin and the girls, knew that Chen Hao Xuan was not the kind of person who was averse to new things and treated Zhou Kexin and the girls very well, and that basically when Zhou Kexin and the girls asked, Chen Hao Xuan would find a way to do it, there were really too few good men like that.

On this day, Chen Haoxuan returned to Chen Yina's home (his villa has now become an office, so he is temporarily staying at Chen Yina's home.) Chen Haoxuan came home and found that Chen Yina and the girls were not there, even Li Ping and the girls were not there, only Hua Lingwei was alone, Chen Haoxuan was curious, Chen Yina and the girls' house was always very lively, usually there would be several people playing at home, but today why was Hua Lingwei alone?

In fact, Chen Yina and the girls did it on purpose, they went out to give Hua Lingwei a chance to confess her love to Chen Hao Xuan, so they would not come back until the evening.

When Hua Lingwei saw that Chen Hao Xuan had returned, she couldn't help but get nervous. Although she could often see Chen Hao Xuan and knew him very well, her nervousness now was different from her usual nervousness, she was nervous for love. Hua Lingwei was probably so nervous that she spoke with a stammer: "Hao - Hao Xuan, you - you're back?" After saying this, Hua Lingwei's face couldn't help but blush.

Chen Hao Xuan draped his jacket on the sofa, then sat in front of Hua Ling Wei, his pair of glasses staring closely at Hua Ling Wei, causing Hua Ling Xiao's heart and liver to pound and pound.

"You... what are you looking at me like that for? Do I have something dirty on my face too?" Hua Ling Wei asked awkwardly with her red dandified cheeks.

"My senses are telling me that something is wrong with you today, say - what's going on? Why are you the only one home and why are you so nervous?" Chen Haoxuan looked at Hua Lingwei seriously and asked.

"I - I ....." Hua Lingwei squeaked and just didn't know what to say, she had already thought of how she should confess her feelings to Chen Hao Xuan, but now when Chen Hao Xuan asked her like this, all her plans were forgotten.

"It can't be that something big has happened, right?" When Chen Haoxuan saw Hua Lingwei was so nervous that she couldn't speak, he couldn't help but wonder if something had happened to Chen Yina and the girls?

"No... no, they just went out to play. I... I was looking for you too, that's why... that's why I waited for you at home." Hua Ling Wei became even more nervous, her small hands constantly rubbing the corners of her clothes.

"Oh, then what did you look for me for?" Chen Haoxuan asked curiously.

"I - I ....." Hua Ling Wei I don't know how many times, just I can't come up with a dong, her face is getting redder and redder, shy plus nervous, her face is flushed, making people doubt if her face will be ripe if she continues to be red like this.

"Your so nervous and your face so red, are you sick and the sick part is some shy part?" Chen Haoxuan questioned.

Hearing Chen Haoxuan's words, Hua Lingwei didn't know whether to laugh or cry, she thought carefully and thought that if she kept on being nervous like this, she would never be able to tell Chen Haoxuan what was in her heart, she tried the psychology she had learnt on TV some time ago, she started to breathe slowly to make her heart stop being so nervous, after a minute or two, she really wasn't that nervous anymore.

Hua Ling Wei took a deep breath and then said all the things she wanted to say to Chen Hao Xuan in one breath, "Hao Xuan, I want to be your lover too, I want to be with you, I love you, can you accept me?"

Chen Hao Xuan smiled, for Hua Ling Wei, he had already accepted it in his heart, but he didn't know what Hua Ling Wei really thought, so he kept putting it off, now Hua Ling Wei said she liked him, then he had no more worries. Chen Haoxuan stood up and sat next to Hua Lingwei, wrapping his left arm around Hua Lingwei's small waist and smiling, "Little girl, which person is as nervous as you are about confessing their love."

Hua Lingwei leaned on Chen Hao Xuan's chest, hearing Chen Hao Xuan's words, she looked at Chen Hao Xuan with excitement and asked, "Do you mean you accept me?"

"What difference does it make if I accept you or not? Everyone in the Chen family village thinks you are my woman, if you don't become my woman, then whose woman will you be?" Chen Haoxuan laughed.

"Have you been hitting on me for a long time?" Hua Ling Wei said petulantly, once a woman had a man, she would naturally learn a skill, pampering.

"It should be that you hit on me a long time ago, this is what Kexin told me, hey ....., there is nothing to say!" Chen Haoxuan joked.

"Alright, alright! Anyway, it's not like having a crush on you is something unseemly, I'm going to confess my love to you today, I'm going to do something very important with you." Hua Ling Wei said mysteriously.

"What is it?" Chen Haoxuan asked curiously.

Hua Lingwei stood up, took Chen Haoxuan's hand and said, "You come with me."

When Hua Lingwei pulled Chen Haoxuan into the room, it dawned on Chen Haoxuan that Hua Lingwei wanted to roll in bed.

At 5pm, Zhou Kexin and the girls came back one after another. When Chen Hao Xuan saw Zhou Kexin and the girls, he genuinely smiled happily, he dared to say that he was now the happiest man in the world, he was rich, he had several loving wives, he had countless men, he had power, money and fame all rolled into one, he was now more than the number one man in a certain country.

After Chen Haoxuan took Hua Lingwei in, Hua Lingwei's whole person has changed, no longer will she be like before, dazed from time to time, it seems that her heart has been untied by Chen Haoxuan.

Chen Haoxuan's talent recruitment plan continues, he wants all the talents in China to get a chance to show their skills so that the country can start to develop. What Chen Haoxuan didn't expect was that he could recruit martial arts masters, and there were quite a few of them, more than two hundred, all of them were masters of the art, although not as good as Jiang Dong and the others, but much better than those agents in Rice. Chen Hao Xuan took all these masters, he left himself sixty-four masters, the rest were all sent to the Dragon Group.

Chen Hao Xuan kept sixty-four for himself, plus Jiang Dong and the others, exactly one hundred. Chen Hao Xuan intended to make these one hundred people invincible in the world, how invincible? Since less than the legendary level nine warriors, he wanted to create a super version of the level nine warriors. But now was not the time, when his business was truly spread all over the world, no one would dare to mess with him anymore, and with no one to mess with him, he would be able to research the unfinished projects from his previous life without worry.

The Rice people did not expect that there were so many talented people in China, one by one they managed the newly opened companies in an orderly manner, and each new company started to make money for Chen Hao Xuan, such speed, such talent, the Rice people had to admire.

Chen Haoxuan basically sticks his nose into every business, so most of the companies he opens are his own companies taking orders from his own companies, creating a cycle. In addition, China strongly supports Chen Hao Xuan, and with Chen Hao Xuan's own strength, it is difficult for business not to flourish.

On January 1st, it was Zhang Bening's birthday and she invited Chen Haoxuan, who also wanted to meet his former best friend, so he put off his other appointments and rode his motorbike alone to Johor Bahru in the evening.

Chen Haoxuan he is the most famous person in China and even the world, a big shot like him will cause a big stir wherever he goes. Chen Haoxuan he put on his sunglasses again and wore a plain suit in order not to disturb Zhang Bening's birthday gathering, and he also rode his motorbike there.

But what Chen Haoxuan never expected was that the security guards at Zhang Bening's house would not let him in, the reason being that Zhang Bening's house invites all dignitaries, all of whom come in BMWs and cars, and people who drive motorbikes, would never be invited.

#### **Chapter 440**

"You can't go in." The security guard at Zhang Bening's house was opening the door to stop Chen Haoxuan, who was riding a motorbike.

There were many people coming to Zhang Bening's birthday party. Chen Haoxuan waited at the door for a while before he had the chance to go in. Since Chen Haoxuan saw that all the people who came to Zhang Bening's party went in without taking out their invitations, he went in without taking them out, and now that he was stopped by the security guard, Chen Haoxuan wondered if he should take out the invitations. Chen Haoxuan took the invitation out of his pocket and handed it to the security guard, but to his surprise, the security guard, after seeing that Chen Haoxuan really had an invitation, said to Chen Haoxuan in a contemptuous tone, "People can go in, but motorbikes cannot be driven in."

Chen Haoxuan couldn't help but stare, other people's cars could drive in, why couldn't his motorbike drive in? Chen Haoxuan asked in a loud voice, "Why?"

"The cars inside the villa are all famous cars, each one is over a million, while your motorbike, I think, is not more than 100,000 at most, don't you feel ashamed to park your motorbike with other people's famous cars?" The security guard cursed and scolded, looking at him as if he had a deep hatred with Chen Haoxuan.

"What if I insist on going in?" Chen Haoxuan said coldly, Chen Haoxuan's tone of voice already indicated that he was already angry. Chen Haoxuan he was already busy these days, if it wasn't for Zhang Bening being his good friend, he wouldn't have come even if he was given a ride to Jinshan.

"Hmph, you because we security guards are dry eaters? It's not impossible for you to drive in with a motorbike, put the brothers down before you do." The security guard said bullishly, there were more than twenty security guards in this villa, and there were four at the entrance, so he did not put Chen Haoxuan in his eyes.

At this time, a black Ferrari drove over, this Ferrari was behind Chen Haoxuan, he stopped for a long time but did not see Chen Haoxuan drive away, so he turned around Chen Haoxuan and drove into the villa, just now he heard what Chen Haoxuan and the security guard said, he could not help but say Chen Haoxuan out loud as he drove into the villa: "Villager."

"See? Those who come here are all rich people, and the rich people look down on you poor people, so you'd better leave before it's too late! Lest you be ridiculed." The security guard said to Chen Haoxuan in a smug manner.

Chen Hao Xuan took out his mobile phone and called Zhang Bening's number, once the call came through, Chen Hao Xuan yelled, "Your security guards are so imposing, they won't even let me in, if you're okay come out and pick me up, I'm right in front of your house. By the way, I don't want people to know my identity, so you should know what to do."

When that security guard heard Chen Haoxuan talking to someone else on the phone, he panicked in his heart and thought, "Could he be some big shot? Oh no, if he really is - I'm screwed."

Zhang Bening she was in her room getting dressed! Suddenly her mobile phone rang and she was ecstatic to see that it was Chen Haoxuan calling; her family and her husband Ma Yichen's family all wanted to meet Chen Haoxuan, and her family must have been delighted that Chen Haoxuan had really come. But Zhang Bening didn't expect to hear Chen Haoxuan's angry roar as soon as she pressed the answer button. After hearing Chen Haoxuan's words, she was also furious that the security guards of her family had the audacity to be so uncaring and not even let Chen Haoxuan into the villa.

Knowing that Chen Haoxuan was angry, Zhang Bening didn't have time to put on her make-up anymore and hurriedly called her family and Ma Yichen's family to go to the door to greet Chen Haoxuan's arrival. She had also made a deal with her family when she arrived and unanimously referred to Chen Haoxuan as Boss Chen, as Chen Haoxuan had said that he didn't want others to know his identity.

Zhang Bening and the others trotted all the way to the entrance. The security guards at the entrance saw Zhang Bening and the others coming and stood on either side of the entrance, telling the others by their actions that they were serious about their work.

There was only Chen Hao Xuan at the door now, everyone else had gone in, so as soon as Zhang Bening arrived at the door, they knew that the person at the door was Chen Hao Xuan. Zhang Bening led her family and Ma Yichen's family towards Chen Haoxuan, and she reminded her family in a low voice, saying, "This is Chen Haoxuan in front, just call him Boss Chen."

Zhang Bening and her family walked up to Chen Haoxuan and shouted in unison, "Boss Chen."

Chen Hao Xuan ignored Zhang Bening and the girls and said to the security guard who had just stopped him from entering the villa, "May I drive my motorbike in now?"

"May... it's okay." That security guard was already scared out of his mind and spoke as a subconscious reply. Zhang Bening's family and Ma Yichen's family had personally come out to greet this man who he had stopped at the door, knowing that he was finished and that the job would definitely be lost.

Chen Hao Xuan again said to Zhang Bening and the girls, "I didn't mess around, I came according to the rules, I took out my invitation when I came, but this security guard didn't even look at it, he still wouldn't let me drive my motorbike in, he made me put it outside before I could get in, I was worried that my motorbike would be towed away by the traffic police and also worried that someone would steal it, so I had no choice but to call you and ask you to be accommodating, but Don't take offence."

Zhang Bening bowed his head guiltily and apologetically said to Chen Haoxuan, "I'm very sorry Boss Chen, it's my poor discipline, I'll fire him right now."

"Firing or not is your business, I'll just go in." Chen Hao Xuan finished speaking and drove his motorbike in.

Zhang Bening was the host of the day she had nothing to entertain Chen Haoxuan, so the person who entertained Chen Haoxuan was Ma Yichen, who used to be Chen Haoxuan's friend, so it was perfect for him to entertain Chen Haoxuan. But it was probably because they had not seen each other for a few years, and because Chen Haoxuan had become a legendary figure, which made Ma Yichen feel that Chen Haoxuan had become a stranger, and at the same time he was worried that Chen Haoxuan might be displeased with them, so he entertained Chen Haoxuan with courtesy and politeness.

Chen Haoxuan was taken to the first floor by Ma Yichen. The people on the first floor were all big shots, so the first floor was not as noisy as the ground floor, and those sitting by the parapet on the first floor could still see the ground floor, so this first floor was not really separated from the ground floor. Chen Hao Xuan sat in the best seat, he could see the scene on the ground floor, and so did the ones on the first floor, because he made the seat high after all.

Chen Hao Xuan saw that Ma Yichen had been treating him politely, as if he was afraid of greeting him badly. Chen Hao Xuan felt very awkward, so he spoke out to Ma Yichen and said, "Ma Yichen, why do I feel as if we are strangers?"

Ma Yichen also knew what Chen Haoxuan meant, so he said awkwardly, "We're so different now!"

Chen Haoxuan laughed, "That's the difference in status, the difference in our direct friendship hasn't changed, so you don't have to be so polite to me, just be the same as before."

"That's good, I was afraid you wouldn't recognise me as a brother anymore." Ma Yichen said happily.

"Ma Yichen, today is your wife's birthday, what gift are you planning to give her?" Chen Haoxuan asked with a smile.

Speaking of gifts, Ma Yichen yin~smiled, "I bought a set of erotic~interesting underwear, this is my gift to her, I'll give it to her when I sleep, hehehe ....."

"Sh\*t, you are really yin~ slutty enough." Chen Hao Xuan slapped Ma Yichen's shoulder and said with a laugh.

"Boss Chen, what kind of gift are you planning to give to my wife?" Ma Yichen asked Chen Hao Xuan with an expectant look, Chen Hao Xuan was now a world-wealthy big shot, his industry was one of the largest in the world, the gift he gave must be very precious.

Chen Haoxuan took out a beautiful bottle with a green liquid inside. Ma Yichen blurted out, "This is perfume?"

Chen Haoxuan proudly introduced it and said, "This is not perfume, this is a medicine, rub it onto your skin, it will make your skin very good, and it is also the best trauma medicine in the world, for knife and gunshot wounds ....., rub some on the wound and it will heal the next day and come without scars. Also you can rub some on your body if you have scars, guaranteed a few hours - the scars on your body will be gone, this medicine is good but you have to remember that you can only take it externally not internally."

"Wow, this medicine is that powerful? If Bening knew you gave her such an expensive gift, she would be so happy." Ma Yichen said happily, he knew how important this medicine was to Zhang Bening, Zhang Bening had been sick when she was a child and had an incision that left a scar on her stomach, Zhang Bening had always wanted to get rid of this scar, but no matter what cosmetics she used, it was useless. Now this bottle of medicine from Chen Hao Xuan can treat trauma and also remove scars beautifully, so he was sure that Zhang Bening would like this gift from Chen Hao Xuan very much.

At that moment, Zhang Bening came out and as soon as she did, all the people congratulated her and gave their gifts to Zhang Bening personally, who took the gifts and kept saying thank you.

Ma Yichen went downstairs to help Zhang Bening. There were too many people giving gifts, so Chen Hao Xuan wanted to wait until the others had finished giving their gifts before he went to give them. But Chen Haoxuan wanted to wait, but someone just didn't want Chen Haoxuan to wait here. This was the person who had just called Chen Haoxuan a hick when he entered the villa. He was holding a gift box in his hand, and as the author descended the stairs, he coldly said to Chen Haoxuan, "Hey, hick, it's someone's birthday today, this is a gift to give, are you ready with your gift? Oh, I forgot, how can a motorbike rider like you afford an expensive gift, I advise you, if your gift is less than a million, you'd better not give it, lest you lose face."

Chen Haoxuan gave the man a blank look and said, "Zhang Bening doesn't open gifts now that she's receiving them, so I won't lose face for the time being if I give a poorer gift."

"Humph, so you're just a freeloader, let's see how I'll expose you later." The man looked at Chen Haoxuan with a dog-eyed look and said coldly.

Chen Hao Xuan was also angry, he hadn't messed with this person at all, so why did this person target him so much? He said irritably, "I'm surprised, I don't know you, and you don't know me, why are you here to mess with me?"

"Because I don't see eye to eye with you." That one said and walked off downstairs.
