

A Billionaire's Reincarnation Chapter 451-460

Chapter 451

Chen Hao Xuan saw a faint white light from the display of the scanning device at the wound on his hand, and as soon as the white light appeared, his wound began to heal rapidly. Chen Haoxuan remembered this white light, he came to this world because of this white light, now he has this white light inside his body but cannot see the bead, obviously the bead has already fused with him.

The bead had fused with Chen Hao Xuan, so Chen Hao Xuan could not find the bead, so he once again aimed at the fragmented information on the genetic warriors. He wrote out the genetic warrior manufacturing information that he remembered in his mind. The information in the front was complete, but not the back, which was riddled with scraps.

It took Chen Hao Xuan a month to find all the materials that could be seen in the genetic warrior information, thanks to the help of the Dragon Group, otherwise even if Chen Hao Xuan had money, he would not have been able to gather all these materials, because there were many materials that were priceless and could not be bought with money, and some ordinary people had never even heard of them.

Chen Hao Xuan does not think about what those defective areas are, he has to rely on the actual research to slowly perfect him, he is confident that even if he cannot create this genetic warrior, he can still create genes similar to the genetic warrior, and maybe even surpass the genetic warrior.

Chen Hao Xuan tried the medicine on himself, he is invulnerable to all poisons anyway, any medicine will be useless to him, it will only make his body stronger and stronger. However, he himself knows that he is different from others, so he usually takes white rats and other animals to experiment after he has tried it on himself and feels that there is no problem.

For the sake of Chen Yina and the girls' safety, Chen Hao Xuan had not touched Chen Yina and the girls during his research on genetic warriors. Just imagine, he experiments with so many drugs on himself every day, he is fine, but Chen Yina and the girls are ordinary people! If their lives were in danger, Chen Hao Xuan would regret it.

Chen Hao Xuan stayed in his research institute for a month, he did not come out during this month, his meals were sent to the door by Chen Yina and the girls, when Chen Hao Xuan was hungry, he would open the door to serve, if he was not hungry, he would not open the door, Chen Yina and the girls did not care whether Chen Hao Xuan ate or not, anyway, when it was time to eat, they would send the food over, four times a day, breakfast, lunch, dinner and snack.

A month later, Chen Hao Xuan came out, and when he came out, Jiang Dong and the others could not help but let out a gasp when they saw Chen Hao Xuan: "Boss, are you taking height increasing pills?" Jiang Dong said to Chen Haoxuan in surprise, the Chen Haoxuan he saw was now over two meters tall, being one meter eight Jiang Dong needed to hold his head high to see Chen Haoxuan.

Chen Hao Xuan scratched the back of his head awkwardly and said, "I was recently researching something, that did a little experiment on myself, I didn't expect that I didn't succeed in my research, instead I made myself taller."

"Boss, I think you should go and join a basketball competition, with your height, you will be invincible." Lin Hao joked.

"With my strength, I'll go play basketball, do I need to play? If you give me the basketball, I'll just throw it and hit it, so what's the point?" Chen Hao Xuan joked.

"Boss, now that your body has grown taller, your strength should have improved a lot too, right?" Jiang Dong said excitedly, if Chen Haoxuan's strength had increased again, then Chen Haoxuan would definitely make them stronger as well.

"It feels like it, but exactly how strong it has become, I don't know yet, after all, I haven't tried it before." Chen Haoxuan said.

"Boss, why don't we go to the deep mountains and try how strong you really are?" Lin Hao suggested, their strength would destroy everything if they fought in the village, only in the deep mountains where no one was around would they dare to let go and give their full strength.

"Let's go, let's all go together." Chen Haoxuan said to Jiang Dong and the others.

Lin Hao, who was the captain, yelled excitedly, "Everyone gather immediately."

Lin Hao's voice was so loud that Chen Yina and the others, who were chatting in the living room on the first floor, heard him, and they thought that something big had happened, otherwise why would Lin Hao be yelling so loudly! They ran to the balcony to look down, they seemed to be too selfish, there were so many people downstairs, but all they seemed to see was Chen Haoxuan, they exclaimed and shouted for Haoxuan and ran down quickly. It had been a month since they had seen each other and they all missed Chen Haoxuan.

"Hao Xuan, Hao Xuan" Chen Yina and the girls fluttered around Chen Haoxuan like a beautiful butterfly.

Zhou Kexin was faster, she was the first to run to Chen Haoxuan, her eyes narrowed with happiness as she hugged Chen Haoxuan. There was only one Chen Haoxuan, so Chen Yina and the girls had to stay by Chen Haoxuan's side, but they were so happy to see Chen Haoxuan that they couldn't help but bounce around him.

"Long time no see, ladies." Chen Haoxuan reached out and stroked Zhou Kexin's hair as he smilingly said to Chen Yina and the girls.

Zhou Kexin raised her head, wanting to talk to Chen Haoxuan, but when she raised her head she realised that her head had only reached Chen Haoxuan's chest, no, not even close to his chest. Zhou Kexin's face was full of questions. In the past, they could kiss Chen Hao Xuan's lips when they stood on their heels, but now they could not kiss Chen Hao Xuan even if they stood on their heels, at most they could reach Chen Hao Xuan's shoulders.

Suddenly Zhou Kexin seemed to think of something, she violently pushed Chen Hao Xuan away, pointed at him and shouted angrily "He is not Hao Xuan, Hao Xuan is not as tall as him, he must be a fake." It was normal for Zhou Kexin to be suspicious, it was normal for a person to grow taller, but to grow that tall in a month, who would believe it?

The moment Chen Yina and the girls heard Zhou Kexin's words, they realized Chen Hao Xuan's height, their smiles instantly disappeared, a faint killing intent emitted from them, someone actually wanted to pretend that their favorite was Chen Hao Xuan, this was something they absolutely would not allow.

Chen Hao Xuan laughed and gently explained to Chen Yina and the girls, "Nana, Ke Xin, I am really Chen Hao Xuan, I had a problem doing research and all this height became what it is now. If you still don't believe me, you can ask me, only you and I know the secret, if I can't answer, I am definitely not the real Chen Hao Xuan."

"Then tell me, which part of my body did you touch for the first time?" Hua Ling Wei really asked.

"Breasts." Chen Hao Xuan said smilingly, the first time he grabbed Hua Ling Wei's chest was still fresh in his mind!

"Hao Xuan, tell me, that promise that you once told me was the most important to me?" Chen Yina was also a bit unconvinced if Chen Hao Xuan was for real.

"After graduation - we'll get married." Chen Haoxuan looked at Chen Yina with a smile and said.

"Mmmmm." Chen Yina nodded her head happily and desperately, even though she was now married to Chen Haoxuan, every time she heard Chen Haoxuan say this promise, she was so happy and excited, so excited that she wanted to get married again.

At this time, Jiang Dong spoke out, "You guys go to the underground research institute to see if the boss is in there or not you will know the result, if the boss is still in there, then this boss must be fake, if not, then it is real."

Chen Yina said to Zhou Kexin and the girls, "You guys stay here and watch him, I'll go check it out." After saying that, she took small steps all the way to Chen Haoxuan's institute, she was the big sister,

and her words, Zhou Kexin and the girls would all listen, willingly, because if it wasn't for Chen Yina's tolerance, how could they have been with Chen Haoxuan.

Soon Chen Yina came running back with a joyful face, her mouth constantly cheering, "It's true it's true, it's true brother Xuan"

"Hehehe, you guys play at home first, I'll go out with Lin Hao and the others for a bit, I'll be back in the afternoon." Chen Haoxuan smilingly said to Chen Yina and the girls.

"Mmmmm, you come back early then." Chen Yina and the girls nodded their heads in a good manner.

"Let's go! Let's go into the mountain." With a big wave of his hand, Chen Haoxuan set off towards the mountain with a hundred people.

At the bottom of the mountain, Chen Haoxuan and the others all walked at a fast pace, and when they waited until they reached the mountain, Chen Haoxuan yelled out, "Let's have a competition to see who gets to Dragon Head Mountain first." Dragon Head Mountain was deep in the mountains, a very high and majestic mountain, because from a distance it looked a bit like a dragon's head, so it was called Dragon Head Mountain, there was a clearing under Dragon Head Mountain, Chen Hao Xuan and the others loved to come here to train, there was no one here, the environment was good, it was by the water, and there were many big trees around.

After they had run to the foot of Longtou Mountain, Chen Hao Xuan walked to a rock more than three metres high, he raised his fist, the veins on his hand bulged out, looking over, his arm was full of explosive power. Jiang Dong and the others heard a boom as the rock in front of Chen Haoxuan instantly turned into a smash, they were all strong, but the movement of Chen Haoxuan's fist they could not see clearly at all.

Chen Haoxuan shook his head and said to himself, "This rock doesn't work, it's too unhardened, I'll try it from which side."

Jiang Dong and the others were surprised to see Chen Hao Xuan who had walked up to a small mountain, which was as tall as a two-storey building and as wide as an acre field, and they wondered in surprise, was Chen Hao Xuan trying to blast this mountain flat? That was too powerful, wasn't it?

Chen Hao Xuan raised his fist again and struck out with a fierce blow, and with a loud boom, a crater two meters deep appeared in front of Chen Hao Xuan, and a crack appeared all around.

"Wow..." Jiang Dong and the others showed shocked expressions, a punch that made a two-metre deep hole in the mountain, even with explosives, was simply beyond the range of human beings.

Chen Hao Xuan was satisfied to see his masterpiece, "Well, taking a rock like this to test my strength is what suits me."

Chen Hao Xuan's twin fists waved and the boom boom boom sounded non-stop as Chen Hao Xuan blasted out stone dust flying all over the sky, which made Jiang Dong and the others only see a cloud of dust all over the sky and not Chen Hao Xuan's figure at all. When the sound stopped and the dust slowly dispersed, they were shocked to find that the small mountain in front of Chen Hao Xuan was gone, and there was only a ground of stones, obviously, the small mountain had not been shattered by Chen Hao Xuan's fist.

Chen Hao Xuan turned around and said to Jiang Dong and the others, "My strength has increased quite a lot, as for my speed, I don't know, how about this! All of you come together and attack me."

Chapter 452

Jiang Dong and the others rubbed their palms together, excited, they hadn't fought with Chen Hao Xuan for a long time, the thirty-six of them had never been Chen Hao Xuan's opponent before, now there were a hundred of them, they were eager to see if the hundred of them could defeat this demonic being.

"Brothers, charge! Defeat the boss and I, Jiang Dong, will buy you a drink." Jiang Dong yelled, not caring whether others listened to him or not, and ran towards Chen Haoxuan after yelling.

"Brothers, use all your skills, defeat the boss, it's hard for the boss to not recognise us." Lin Hao roared loudly and this time, all the men didn't hesitate anymore, all of them rushed towards Chen Haoxuan.

Lin Hao surrounded Chen Hao Xuan and then attacked him from all sides, and often used small stones as darts to throw at Chen Hao Xuan when he wasn't looking. But Chen Hao Xuan was that powerful, as long as the things Lin Hao and the others threw could hit him, he would fling them away with a slap, and those who attacked him were constantly thrown out by him.

Chen Hao Xuan's strength he himself knew very well, if he fought hard against Lin Hao and the others, it was very likely that he would seriously injure them, all he chose the most arrogant method, catching Lin Hao and the others and throwing them out.

Lin Hao and the others were helpless, as soon as they got close to Chen Hao Xuan, their own bodies would appear in mid-air, as to when Chen Hao Xuan grabbed them and threw them out, they really couldn't see because Chen Hao Xuan's speed was too fast.

After half an hour of fighting in this way, Chen Hao Xuan didn't have any problems, while Lin Hao and the others fell and got bruises, which looked serious, but in fact they were only minor traumas, which didn't bother them. Being the captain of the team, Lin Hao, he led 99 people to attack Chen Hao Xuan without any result at all, which was a dereliction of his duty, so he started to think of what he had to do to defeat Chen Hao Xuan.

When Lin Hao saw two of his teammates attacking Chen Hao Xuan together, a scenario that forced Chen Hao Xuan to dodge, he thought of a good note, the Chain Strike, an ancient method of warfare that has always been used, where if there are enough people, the most powerful move can be stretched out against the enemy.

"Boss, can we stop for a moment and stand again in half an hour, we will be able to defeat you by then." Lin Hao shouted confidently to Chen Hao Xuan.

"Okay, I'll wait for you guys." Chen Haoxuan stopped and responded.

"Everyone follow me, I have something to say to you all." Lin Hao waved to his team members and shouted loudly.

Lin Hao led his subordinates into the woods, while Chen Hao Xuan he sat by the stream, catching fish from the stream from time to time, all the fish in the stream were small, the size of a finger, and all very white. Chen Haoxuan used the silk thread on his wrist to catch the fish, and as soon as he waved his hand, a small fish would be pulled out of the water by him. Once Chen Hao Xuan caught these small fish, he used a dagger to break open the belly of the small fish, remove its guts, wash it, sprinkle some MSG on it, and then just eat it raw.

The fish inside the creek were absolutely the best, because there was no pollution in the creek, the water of the creek could be drunk directly, all the fish inside the creek were so clean that they felt delicious even if they were swallowed directly raw, but with MSG it was even more delicious.

When Chen Hao Xuan had eaten almost a hundred small fish, Lin Hao and the others came out of the woods, and looking at their confident faces, they must have really figured out how to deal with Chen Hao Xuan. "Boss, we're ready, are you ready?" Lin Hao excitedly shouted to Chen Haoxuan.

Chen Haoxuan said casually, "Come on! Let me see your new masterstroke."

"Brothers, don't let the boss underestimate us, everyone give me your full strength, go." Lin Hao roared loudly.

Lin Hao and Jiang Dong were the first to strike, as they took two steps, four of their team members quickly followed, followed by the rest of the team, as soon as the player in front of them took two steps, they immediately followed. Four by four on, trying to defeat Chen Haoxuan in a frontal attack.

Lin Hao and Jiang Dong, one attacking Chen Hao Xuan's upper body and the other attacking Chen Hao Xuan's lower body, seemed seamless, but to Chen Hao Xuan, a man with super intelligence, there was a way to break any move. Chen Hao Xuan instantly thought of how to break Lin Hao's and Jiang Dong's moves, he spun violently and made a whirring sound, Lin Hao's fist hit Chen Hao Xuan's chest and

instantly deflected to the other side, Jiang Dong's kick hit Chen Hao Xuan's foot, his encounter was the same as Lin Hao's and instantly deflected to the other side.

Jiang Dong and Lin Hao missed the blow and didn't linger for a moment, they immediately rolled to the left and right because if they didn't leave, they would block the team members behind them and if they blocked the team members behind them, then their chain of blows would be ineffective.

As soon as Yang Lin and Jiang Dong rolled away, four players immediately attacked Chen Hao Xuan, one jumped up and kicked Chen Hao Xuan with a very sharp flying kick, one slightly to the left, another slightly to the right and one rushed straight at Chen Hao Xuan. There was someone above, someone below, someone to the left and right, how was Chen Hao Xuan supposed to break such an attack?

Lin Hao and Jiang Dong smiled, as if they could see Chen Hao Xuan being caught by these four players and then the players behind them beating Chen Hao Xuan one by one. Unfortunately, they did not keep such a smile for long, as Chen Hao Xuan stomped his foot and his whole body rose into the air, his hands spread wide, like an eagle soaring in the sky. Chen Hao Xuan flew very high, three metres high, a metre and a half higher than the man who had jumped up and tried to kick him with his flying feet.

There was no landing point in the air, and all the man who had used his flying kick below watched helplessly as Chen Hao Xuan stepped on his body and flew behind him. Chen Hao Xuan was not stupid enough to stand in front of Lin Hao and the others and let them keep attacking him, if that was the case, even if he was good he would die of exhaustion. All Chen Hao Xuan had to do was to break Lin Hao's chain of blows. As soon as he reached the middle of Lin Hao's group, their chain of blows would be completely broken by him.

Seeing that Chen Hao Xuan had easily broken the chain shock he had come up with, Lin Hao couldn't help but stomp his feet like a girl, and secretly praised Chen Hao Xuan in his heart for being his boss, no matter what it was, he was able to come up with a countermeasure in no time.

Jiang Dong gently nudged Lin Hao and said with an evil smile, "What are you angry about! It's not like you don't know how good the boss is, it's normal for him to be able to break your chain shock! Hey, let's see my rope trapping formation next." After Jiang Dong finished speaking to Lin Hao, he shouted loudly to those team members who were still attacking Chen Hao Xuan, "Everyone set up a formation, out of the rope trap formation, trap the boss - we are considered addicted."

All the team members took off the hemp ropes wrapped around their waists, these ropes were used for their training climbing, they were two fingers thick and very strong, unless they were cut with a sharp knife, it would be difficult to break such a hemp rope. All the members of the team quickly set up an eight-trigram formation, one after another throwing the other end of their hemp ropes at their partners on the opposite side and then quickly pulling them tight.

A hundred people were a hundred hemp ropes, if an ordinary person was bound by a hemp rope, he would never be able to escape himself. The twine flew around above Chen Hao Xuan, and Chen Hao Xuan felt like Jiang Dong and the others were spiders, constantly spitting out silk.

"Spin up, tie up the boss, tie up the boss and I, Jiang Dong, will treat you all to a big meal." Jiang Dong said excitedly.

All the team members kept spinning and also kept exchanging positions with other team members, they were tying knots, the more knots they tied, the less likely Chen Hao Xuan would escape.

Chen Hao Xuan seemed to have conceded defeat and he did not resist, allowing Jiang Dong and the others to tie him into a huge dumpling with a hundred pieces of hemp rope. Soon Chen Hao Xuan's whole body was tied up except for his head. Jiang Dong, who was very proud of himself, walked up to Chen Hao Xuan and said smugly, "Boss, sorry, you lost. But don't be sad boss, after all, it took us a hundred people to defeat you."

Chen Hao Xuan laughed out loud and said to Jiang Dong, "Jiang Dong, have you forgotten that I am stronger than Hercules, do you think these hemp ropes can tie me up?"

Lin Hao stepped forward and spoke out, "Definitely you can, because your limbs are all tied up, it is not good to exert force, all you can only exert one tenth of your force now is even good."

Chen Haoxuan didn't say anything, his brow suddenly furrowed as he seemed to be exerting force, snapping sounds kept coming out of Chen Haoxuan's body, Chen Haoxuan suddenly roared out, "Ah-." With a booming sound, all the hemp ropes wrapped around Chen Haoxuan's body were broken by Chen Haoxuan's hard efforts.

"Ah-" Jiang Dong and the others were all dumbfounded, thinking to themselves that Chen Haoxuan's strength was too great! A hundred pieces of twine! These hemp ropes were all new, and the quality of the material was even better. Although they could break one hemp rope, but if it was two together, there was nothing they could do. But Chen Hao Xuan, a hundred ropes could not even tie him up, such strength ten Hercules were not as strong as one Chen Hao Xuan.

"Do you have any other moves?" Chen Haoxuan smiled and said to Jiang Dong and the others.

"Boss, you must not be human, your strength has far surpassed that of humans." Jiang Dong said in awe.

"Boss, the only way we can deal with you now is to use all sorts of schemes, otherwise we don't have any chance of winning at all." Lin Hao looked at Chen Hao Xuan with adoring eyes and said.

"Then go ahead and use them all you want! But don't go too far, or else get me killed, who can give you guys strength. All you guys have to do is make me bleed, and you'll be considered winners." Chen Hao Xuan said, Jiang Dong and the others were not ordinary people now, and there were a hundred of them, all Chen Hao Xuan did not dare to be careless, or else he would really be killed by them accidentally, then it would be useless to regret.

"Good, then boss wait for us for another two hours, after two hours, we will fight again." Lin Hao respectfully said to Chen Haoxuan, and after he finished turning to his subordinates, he said, "Go, let's go to the meeting."

Although Chen Haoxuan was their boss, they really wanted to prove their strength by beating Chen Haoxuan.

Chapter 453

Two hours later, Chen Hao Xuan fought with Lin Hao and his men again. Lin Hao and his men kept coming up with underhanded tricks, traps, throwing sand at Chen Hao Xuan's eyes and using huge logs

as weapons Chen Hao Xuan and Lin Hao and their hundred men, the fight was very lively, booms and screams did not stop.

Chen Hao Xuan and his men did not stop fighting until it was dark. Chen Hao Xuan is not omnipotent after all, he is very powerful and Lin Hao and his hundred men were never able to defeat him, but Chen Hao Xuan was also bruised and battered by them, his shirt was ripped, his face was swollen and he was tired and out of breath.

Lin Hao and the others were even worse, as soon as Chen Hao Xuan shouted to stop, it was as if they suddenly lost all their strength and slowly fell to the ground, panting continuously. They had fought Chen Hao Xuan for so long that if they didn't have a strong will to fight, they would have collapsed from exhaustion, and now when Chen Hao Xuan shouted to stop, their will broke.

Chen Hao Xuan didn't care about Lin Hao and the others, he threw his jacket away and jumped into the stream and took a shower before slowly walking back. When Chen Haoxuan returned home, it was already eight o'clock in the evening. Chen Yina and the girls had been sitting at the dining table waiting for Chen Haoxuan to return for dinner. Why do they have to be so serious?

It had been a long time since they had eaten with Chen Haoxuan, so they had started preparing a sumptuous dinner this morning. Chen Hao Xuan took a shower, changed into clean clothes and sat down at the table to eat the delicious food that Chen Yina and the girls had prepared for him.

During the meal, Jiang Xiang Han asked Chen Hao Xuan what Chen Yina and the girls wanted to know: "Hao Xuan, your body is now so much stronger than before, and you have become so tall, so the rest of you should have become bigger too, right?"

When Chen Hao Xuan heard this, he first froze, then smiled bitterly, "I haven't looked yet." He really hadn't looked, he had gone to fight with Lin Hao immediately after he came out of the Institute, and when he took a shower, he was in a hurry because he was afraid that Chen Yina and the others would wait too long, so he didn't have time to look at his penis! But although Chen Hao Xuan did not look, he dared to conclude that his penis must have grown a lot bigger.

The first thing that I want is for Chen Hao Xuan to get bigger, but I am worried that Chen Hao Xuan will have a problem if he continues to study like this, just like today, he has become so tall after not

seeing him for a month, if he gets any taller, they will need to stand on a bench to kiss Chen Hao Xuan. "Hao Xuan, you should not experiment on yourself anymore, if you want to do it, do it on animals, otherwise something will happen, how can we sisters live!" Jiang Xiang Han said seriously to Chen Hao Xuan.

"Don't worry guys, I am invulnerable to all poisons, any poison will be useless to me. The reason my body has become so tall is because I've recently been researching a gene that can make people strong, there might be a mistake somewhere that has made my body taller, don't worry guys, if I have a way to make myself taller, I have a way to make myself shorter." Chen Haoxuan said with confidence.

"Brother Xuan, no matter how powerful you are, for our sake - you must be careful, okay?" Chen Yina pleaded tearfully.

Chen Haoxuan nodded and responded, "Mm, I'll be careful in the future." Chen Haoxuan could understand Chen Yina and the girls' worries, if it wasn't for his special physique, he wouldn't dare to experiment on himself.

"Hao Xuan, are you going to continue doing research?" Zhou Kexin said reluctantly.

"Well, this is my wish, I will persevere no matter what, I hope you can understand me. Also I promise that as soon as I have researched this kind of gene that can make people stronger, I will never do any more research and stay with you guys for the rest of my life." Chen Haoxuan seriously said to Chen Yina and the girls.

"Really?" Chen Yina and the girls' eyes were filled with joy, they could think of how long and happy life would be in the future.

"Well, it's true." Chen Haoxuan responded.

The happiness of having so many people, especially so many beloved women eating with you, made Chen Haoxuan want to give up his dream. Chen Yina and the girls kept on giving Chen Haoxuan dishes, chattering and asking Chen Haoxuan if this was delicious and how about that?

Chen Hao Xuan did not sleep with Chen Yina that night, he wanted to, but he did not dare, fearing that his body had some kind of drug that had not disappeared. Looking at the sexy bodies of Chen Yina and the girls, Chen Hao Xuan's heart was stirring, and in order to suppress this desire, he hid in the research institute and devoted himself to researching the genetic warriors.

Chen Hao Xuan had never cared about his height before, this cared about his body, if he hadn't gone out and been discovered by Lin Hao and the others, he wouldn't have known he had become taller! All after that Chen Haoxuan, every now and then, would measure his height and his weight. Ten days later, Chen Haoxuan experimented with a white rat, which turned out to be the size of a fist from a ping-pong ball, and was so much stronger that it would be difficult for an ordinary person to hold on to it.

Chen Haoxuan was surprised, it was normal to have more strength, but how could it become bigger? If all the genetic warriors he had researched became very tall and big, would they still be human? It could only be described as a new race. But this is powerful, but if they want to live with humans, that won't work.

Chen Hao Xuan did not care about the other things first, but first worked out the information on the genetic warriors step by step, and then experimented on the fist-sized white rat, which almost died several times, but Chen Hao Xuan used all his strength to save it, for which Chen Hao Xuan consumed a hundred-year ginseng. Chen Hao Xuan felt a bit guilty for experimenting on that white rat all day long, so he gave a lot of meat to that rat every day at mealtime.

It was probably because there was only Chen Hao Xuan and the white rat in the research institute, plus Chen Hao Xuan was very good to the white rat apart from experimenting on it. As soon as Chen Haoxuan opened the cage, the white rat would quickly crawl up to Chen Haoxuan's shoulder and keep using his tongue to tinker with Chen Haoxuan's cheek.

As soon as Chen Haoxuan stretched his palm towards the white mouse, the white mouse would run to Chen Haoxuan's palm very obediently. This made Chen Haoxuan very reluctant to experiment on the white mouse again because the white mouse was too cute, fist-sized and round, and from a distance it looked like a pink ball.

Chen Haoxuan continued to experiment on that white mouse and found that it never got any bigger, which made him feel much more at ease, as long as it didn't get too big, he could use it, after all, there were still many two-metre-tall people in the world.

A month later, in Chen Haoxuan's research institute, Chen Haoxuan was laughingly teaching a fist-sized white mouse to play a game: "Ball, you throw this little ball inside this frame." Chen Hao Xuan pointed at a shrunken basketball frame and said to a pink, pink white mouse.

The white mouse's tiny eyes were fixed on Chen Haoxuan, and when he heard Chen Haoxuan's order, he chirped happily a few times, then hugged a small red ball and stood up, running forward desperately on his two hind feet. This white mouse was the one Chen Hao Xuan had studied, and Chen Hao Xuan gave him a name, because the white mouse resembled a ball, all Chen Hao Xuan called him Ball.

With a bang, instead of throwing the little ball into the frame, Ball knocked the basketball frame straight down and he himself fell and rolled far away like a ball.

Seeing how cute Ball was, Chen Hao Xuan couldn't help but laugh and took out a piece of beef jerky and said to Ball, "Ball, here, this beef jerky is a reward for you, you have to cheer up, yo! Next time, make sure you throw it in, okay?" Chen Hao Xuan didn't care if Ball could understand him, Chen Hao Xuan he was now testing Ball's intelligence, all he kept talking to Ball, hoping that after time, Ball would understand his words.

"Kiri" The ball saw the beef jerky in Chen Haoxuan's hand, immediately two eyes shining, rolling and crawling towards Chen Haoxuan's hand to run, sitting on Chen Haoxuan's hand, two front paws grabbed the beef jerky desperately nibble, from time to time look at Chen Haoxuan and let out a twitter sound, seems to be and Chen Haoxuan said: "delicious delicious" "

Chen Hao Xuan knows that the current ball has been smarter than the average white mouse, probably because of the genetic warrior, if that is true, then he Chen Hao Xuan will never lack talent, because he has genetic warriors to make people into geniuses, but now can not be sure, need to really study the genetic warrior to be sure.

Chen Haoxuan he saw that the ball was fine, so he began to experiment on himself, he didn't feel any discomfort, but after the experiment, his spirit was twice as good and he was full of energy even after sleeping for a few hours a day.

After that, Chen Haoxuan played with Ball every day after doing his research, and Ball's IQ was getting higher and higher every day, from throwing a ball into a box, to catching hide-and-seek with Chen Haoxuan, and now he could already play five pieces with Chen Haoxuan. According to Chen Haoxuan's feeling, Ball now has the intelligence of a three-year-old child, and if he has such intelligence in a month or so, what about a year? What about a year?

This day, Chen Hao Xuan took Ball to the roof of the building to sunbathe. When Chen Hao Xuan came out, Chen Yina and the girls did not know because they were not at home, but Jiang Dong and the others knew. When Chen Yina came back, Jiang Dong told Chen Yina the good news, and Chen Yina ran to the roof with great joy.

When they saw the ball sleeping in Chen Hao Xuan's chest, they couldn't help but let out a sigh of surprise, the white mouse was so cute and round that one couldn't recognize it and wanted to pet him.

"Hao Xuan, Hao Xuan, is this a white mouse? Why is he bigger than a normal white mouse? He's so cute! Does he bite, I want to hug him so much." Zhou Kexin said to Chen Hao Xuan with an expectant look on her face.

Chapter 454

Ball was awakened by the sudden sound. He sat up and looked at Zhou Kexin with a pair of tiny eyes curiously, looking very cute. Ball's look was so cute and adorable that it made Zhou Kexin exclaim, and regardless of the situation, she quickly stretched out her hands to hold Ball in her hands.

Ball he had been with Chen Hao Xuan since his IQ had increased, all he could say was that he only knew Chen Hao Xuan alone. Now that he was suddenly held by someone he didn't know, he was frightened and thought Zhou Kexin was trying to harm him, he let out a scream of Kiri, stomped his feet and quickly jumped into Chen Haoxuan's arms, his two front paws grabbed Chen Haoxuan's clothes and Kiri screamed endlessly, no need to think, he must have been shouting for help.

Chen Hao Xuan grabbed Ball, then put Ball on his shoulder and smilingly said to Zhou Kexin, "This is the white mouse used for research, I named him Ball. It's the first time he's seen you guys, so it's normal for him to be scared of you all."

"Oh my god! Hao Xuan, how can you do this, Ball is so cute, how can you use him for experiments?" Zhou Kexin said a little angrily, as if her precious things were going to be destroyed by Chen Hao Xuan.

"Right! Hao Xuan, how about this, you give Ball to us to raise, and you go find another white mouse for the experiment." Chen Yina said expectantly, she was eager to keep Ball as a pet because Ball was really too cute and adorable, it was simply a fierce weapon that specialized in dealing with girls.

Jiang Xiang Han and the girls also asked Chen Hao Xuan not to experiment with Ball anymore, and to experiment with other white rats if they wanted to. They also asked for Ball to be given to them to raise, and even swore that they would raise Ball to be fat and white.

Chen Haoxuan, like Ball, had his eyes on Zhou Kexin and the girls, and didn't know that they didn't take Zhou Kexin and the girls' words to heart either.

After half a day of talking, Chen Hao Xuan remained indifferent, Chen Yina couldn't help but take Chen Hao Xuan's hand and said petulantly, "Brother Xuan, just give us the ball!"

Chen Hao Xuan shook his head and said firmly, "If it was any other request, I would agree to it, but giving Ball to you as a pet is definitely not an option, because my wish needs his payment to be fulfilled. If I were to exchange it for a white mouse, but I could, but it would require a new step-by-step experiment, and that would take a lot of my time. How about this, when my research is successful, I will help you raise a few white mice as smart as Ball, okay?"

Chen Yina and the girls knew the importance, Chen Hao Xuan had said this, if they still protested, maybe Chen Hao Xuan would get angry. "Alright!"

Seeing the disappointed expressions of Chen Yina and the girls, Chen Haoxuan's heart couldn't help but sink, Chen Haoxuan grabbed the ball off his shoulder and held it in his hand, saying to the ball, "Ball,

they are good people, they won't hurt you, play with them, they will like you very much." After saying this, he handed the ball to Zhou Kexin who was nearest to him.

As soon as Chen Hao Xuan let go of the ball, the ball ran back to Chen Hao Xuan with a gurgle. After many times, the ball seemed to know that Zhou Kexin and the girls would not harm him, and Chen Hao Xuan insisted that he play with them, so the ball learned his lesson and stayed in Zhou Kexin's arms. He was still a bit afraid of Zhou Kexin and the girls, but after a while, he was no longer afraid and started to play with Zhou Kexin and the girls.

When Chen Hao Xuan saw how happy Zhou Kexin and the girls were playing with the ball, he couldn't help but think that he must be more careful when studying the ball in the future and not to let the ball get hurt in any way.

After Chen Hao Xuan and Chen Yina had dinner, he took the ball back to the research institute. Chen Hao Xuan saw a vacancy on the genetic warrior information, (Need the genes of the *most* animals) Chen Hao Xuan then thought, this means it must be the genes of the strongest animals, because this genetic warrior is meant to make people stronger. What animal is the most powerful animal gene in the world? Dinosaurs? But dinosaurs seem to have been extinct for a long time, and elephants? Elephants seem to be out of strength without any advantage, tigers? The average expert can kill an adult tiger.

"Just what animal is the most powerful?" Chen Haoxuan frowned, torn.

One day passed like this tangled, the next day was the same, and the third When a week had passed, Chen Hao Xuan slammed the table and roared with bravado, "The most powerful in this world is of course the world's master human, but if it is human, then the genetic warrior material must not say so inside. Then the strongest must be some kind of rare and almost extinct animal, if I were to find it, I might not be able to find it in my lifetime, then I might as well make the strongest gene myself, fuse the strengths of various creatures and develop the world's strongest gene, maybe I can succeed in making a genetic warrior out of it."

After thinking about it, Chen Hao Xuan grabbed the ball, put it on his shoulder and walked out of the research institute. Outside, Chen Hao Xuan did not see Lin Hao and the others, so Chen Hao Xuan went straight to Lin Hao and his residence. At the entrance of Lin Hao's residence, Chen Hao Xuan shouted loudly, "Lin Hao, Jiang Dong, all come out, I want to see you guys."

"Present." Banging sounds came from Lin Hao's and their quarters, seven seconds, Lin Hao and his men only took another seven seconds to go from wearing their pyjamas to changing into their suits, ordinary soldiers would take a few minutes, but Lin Hao and his men only needed a few seconds, this was the difference between an expert and an ordinary person.

Lin Hao and Jiang Dong came out of their quarters almost at the same time and ran to Chen Hao Xuan. When Chen Haoxuan saw how fast Lin Hao and the others were, he couldn't help but nod his head in satisfaction. "I need you guys to help me catch animals, as long as you think that animal is powerful, catch it for me. You can catch it in China or in a foreign country, and I will reward you heavily if you catch more and more, or if you catch an animal that is very powerful." Chen Hao Xuan addressed Lin Hao and Jiang Dong Dong.

Jiang Dong asked Chen Hao Xuan out loud, "Boss, if it's a tiger do we catch it too? That's a nationally protected animal!"

"Catch, why not, the world is so big, there are still many tigers, catching one or two of them won't make them extinct. But don't let the others know, you have to bring the animal back in secret. Be careful yourselves, after all, there are many creatures stronger than humans in this world, you just haven't seen them." Chen Haoxuan exhorted.

"Boss, we understand, but how many people do we have to send out to catch them?" Lin Hao asked.

"Eighty men, the other twenty stay at home to protect me and my wife and the girls." Chen Hao Xuan said.

"When will you go?" Lin Hao asked again.

"Now, you guys go and get ready! I only give you a month, and after a month, whether you have caught a powerful animal or not, you have to report back." Chen Haoxuan said seriously to Lin Hao and the others.

"Yes, I promise to complete the task given by the boss." Lin Hao and Jiang Dong shouted and turned around to pack their bags to prepare to catch powerful animals.

Lin Hao and the others went to help Chen Hao Xuan catch powerful animals, while Chen Hao Xuan did not wait at home for Lin Hao and the others to return, but was deducing what the other vacancies in the genetic warrior material were.

A month later, Lin Hao and the others returned in several large windmills, from which they carried off large cages covered with cloth, one by two , one after another, moving at least two hundred cages. All these cages were moved to Chen Hao Xuan's institute and put into the iron cages that had been prepared long ago.

"Not bad, not bad, you guys did a good job, you write a table of how many animals you caught yourselves to me, I will give you a bonus when I have time." Chen Hao Xuan was satisfied and said to Lin Hao and the others.

Of these animals that Lin Hao and the others had caught, the least powerful was considered a tiger, for even more powerful than a tiger was a four-metre-long Egyptian cobra, there was a giant python caught in the rainforest, twenty feet thick, and if it wasn't for the large amount of anaesthetic and sleeping pills used by Jiang Dong and the others, there were all sorts of strange animals, some of which even Chen Hao Xuan had never seen before. Among these animals, there was one that made Chen Hao Xuan cry and laugh, that was the bear worm, a very small always creature who was very strong and had the title of immortality.

The ball, who had been staying on Chen Hao Xuan's shoulder, now left the Institute where he liked to stay most, he was afraid of the animals in the Institute, he felt that they all wanted to eat him, so he ran to Chen Yina and the girls.

Chen Hao Xuan didn't care about the ball, he didn't need the ball to do experiments for now, but needed to research a new type of gene. Chen Hao Xuan did not need to kill those animals, he only needed some of their blood and skin. In the days that followed, Chen Hao Xuan sighed a lot in the research institute, his failures time and time again made Chen Hao Xuan very disappointed. Chen Hao Xuan used various methods to fuse genes, but they all failed, none of them succeeded, whether it was the fusion of the snake's gene with the tiger's gene or the fusion of the Golden Monkey King's gene with the bear bug.

Chen Hao Xuan knew that it was very difficult to successfully fuse different genes together forcibly, but as long as he was willing to work hard he believed that he could fuse the genes of several animals in a year or so, although he understood it in his own heart, but the sigh of loss was still constant and he couldn't help it.

Chen Hao Xuan after half a month in the Institute, he was full of beard, his eyes a little confused, he was in a bad mood, he said half a month were able to fuse the genes of various animals successfully. In the end, he was so angry that he used a syringe to inject the genes into his body. His body suddenly turned strange, his veins were moving and thickening, the flesh on his body bulged and bulged, as if something wanted to break the skin out.

Chen Haoxuan was scared, he didn't want to die like this, not to mention he hadn't researched the genetic warriors yet, and he couldn't let go of Chen Yina and the girls. He quickly walked to the scanning instrument, in front of which he could see the changes in his body, he saw several kinds of energy clashing in his body.

Chapter 455

Chen Haoxuan he felt that his body was about to be broken by these energies. He had no way to make these energies stop on his own, and could only endure the pain that normal people could not bear. Crunching was the sound made by Chen Haoxuan's teeth, he was in so much pain that his teeth were chattering, cold sweat was constantly coming out from his body, and strangely enough there was some dark substance following these cold sweats coming out from Chen Haoxuan's pores.

It was fortunate that Chen Hao Xuan's will was strong, if it was an ordinary person, he would have collapsed long ago, even experts like Jiang Dong and the others would not have survived for a few minutes. Chen Hao Xuan did not shout out the pain, he just gritted his teeth in pain, his eyes kept staring at the view screen of the scanning instrument, he wanted to see how his body was changed.

Six hours later, Chen Hao Xuan was surprised to find that those energies in his body were much weaker, and the pain those energies illuminated to him was also much weaker, which gave Chen Hao Xuan hope.

The day passed unknowingly under this pain, and after a day, Chen Haoxuan's body could no longer feel the pain, not knowing whether it was paralysis or whether the pain had really disappeared. Chen Hao Xuan saw from the view screen of the scanning instrument that his genes had fused with those of other animals, and his blood had changed, turning a dark red, a very dark colour.

Chen Hao Xuan was now fatigued, but while fatigued he was also excited, so excited that he did not want to go and rest, he came out of the Institute and left the villa as fast as he could. The team members at the entrance of the villa felt their eyes blink, after which a breeze blew by, they felt torn by this, they felt as if someone had just passed by them, but the person was invisible, all they wondered if they were dreaming at that moment just now.

It was Chen Hao Xuan, he was experimenting with his current abilities, he was running at a speed that even he himself was surprised by, it was too fast, just about fast enough to catch up with a bullet. Chen Haoxuan ran to the foot of the mountain in a minute, it was supposed to be a half hour journey, but it only took Chen Haoxuan a minute, so it was clear how fast Chen Haoxuan was now. Chen Haoxuan ran to the foot of the hill, he leapt high up, his feet stomped, and with a boom, he was like a missile being sent out, one metre, five metres, ten metres, fifteen metres, Chen Haoxuan jumped with all his might - jumping as high as a six-storey building, scary! If he were to take the Gillies record, no one would dare not give him first place.

Although it was night, Chen Haoxuan felt like it was daytime, only he couldn't see as clearly as he could during the day. Chen Haoxuan was on the mountain, constantly jumping, and didn't stop until he reached a deep mountain. With a boom, a huge tree was broken by Chen Haoxuan's kick. Chen Haoxuan bent down and had the feeling of a black panther pouncing on a tree directly, then jumped to another tree. Chen Haoxuan could feel that his body was more agile and faster than before, plus he knew that he already had the instincts of several kinds of animals.

He had never been so tired since he came to this world. When he was just experimenting, he was so excited that he did not feel too tired, but now that he was back and finished experimenting, Chen Hao Xuan felt that he could hardly open his eyes, so sleepy and tired that he wanted to sleep. As soon as he fell into bed, Chen Hao Xuan fell into a deep sleep, and even thunder could not wake him up.

Only a demon like him could have slept for three days. If it were an ordinary person, he would have been starved to death even if he had slept for three days. During these three days, Chen Yina and the girls knew that Chen Haoxuan had not eaten, so they were used to it and did not bother Chen Haoxuan.

Three days later, Chen Hao Xuan woke up. When he woke up, he first ate something and then went back to do his research. He made another set of genes that he had punched into his body last time, then went outside and asked Jiang Dong for a few taels of Jiang Dong's blood, then took it and fused it with those animals' genes. It was fine at first, but after twenty minutes, it failed. Chen Hao Xuan concluded that the human genes must be hundreds of times more than all the animal genes, meaning that it would take the blood of a human so to fuse the genes of these animals.

Chen Haoxuan came out of the research institute again, he drove his bullish motorbike to the hospital and bought several blood types from the hospital. After Chen Haoxuan bought it back, he researched the successful fusion of human and animal genes, which made Chen Haoxuan want to freak out with joy.

Chen Haoxuan injected the fused genes into Ball and then put Ball in a very strong cage because he knew that Ball would be in as much pain as he had been in the first place. What dazzled Chen Haoxuan was that he stared at Ball for an hour while Ball stood up and grabbed the edge of the cage with both paws, his tiny eyes and Chen Haoxuan looked at each other, Ball he was wondering, together Chen Haoxuan didn't even lock him up, but why did he suddenly lock him up today? Could it be that he had misbehaved?

After waiting for another hour, Chen Haoxuan wondered if it was because the genes had been fused and then injected into the creature's body and it would be fine? To confirm, Chen Haoxuan experimented on other animals and found that it was really like that.

Now it could be said that Ball was not a white mouse, the white mouse was Chen Haoxuan only, because Chen Haoxuan had experimented successfully on himself before using it on Ball.

The strongest animal genes, Chen Hao Xuan has made, now Chen Hao Xuan has become the majority of the research, I believe it won't be long before Chen Hao Xuan can successfully make the strongest genetic warrior that surpasses all creatures, at that time, he Chen Hao Xuan is the figure standing at the top of the world.

The ball, he is now invincible, he is very fast, even Jiang Dong and the others cannot catch him, it can be said that the current ball except Chen Hao Xuan can catch, others, as long as the ball does not want, no one can catch him.

Chen Hao Xuan stays in the Institute every day, he lives the same life every day, nothing has changed. But outside change is big, all of Chen Hao Xuan's companies are growing, business is big, there are more employees, so far, how many employees Chen Hao Xuan has, Chen Hao Xuan don't even know anymore, there was an estimate, all of Chen Hao Xuan's employees all together, equivalent to all the people in a small country. Now only Chen Hao Xuan no one dares not to admit that he is not a rich and invincible existence, now all of Chen Hao Xuan's companies, Chen Hao Xuan although temporarily do not care, but Chen Yina they use Chen Hao Xuan handed the method of mutual restrictions to manage, the results are very good, basically do not have to worry about.

The reason why Chen Hao Xuan used to want to make money so badly was to show his family that he was better off without them, and also to live a life of luxury, and most importantly to make money for research. A third of it, and it might not even be available. So, in the eyes of others, he has endless money, but in his eyes, he is only a small rich man.

Chen Hao Xuan stays in the Institute all day long and does not feel the loss of time at all, because he cannot see day and night in the Institute. Chen Hao Xuan stayed in the Institute for a year and a half, and this year and a half of dedication got him what he wanted most, he succeeded in researching the genetic warrior, and now he is the genetic warrior, and there is another one, that is our lovely ball, although he is still the size of a fist now, and chubby and pink, at first glance is a harmless category, if you think so, then you are very wrong, if you dare to hurt him, then you You don't even know how to die because his speed is beyond what you know.

Chen Haoxuan he is still two metres tall and he is helpless, he doesn't want to be that tall, the best height he wants is one metre eight. He could make others shorter, but it was difficult to make himself shorter, so Chen Haoxuan had no choice but to accept this fact.

This day when Chen Hao Xuan came out of the Institute, the two men guarding the Institute's passageway were startled to their core by the domineering aura that emanated from Chen Hao Xuan's body, a domineering aura they didn't know how to describe, except that they were now afraid of Chen Hao Xuan, just as a commoner is afraid of an emperor.

"Old board." The two men guarding the Institute's passageway squeaked and shouted to Chen Haoxuan.

"Hm." Chen Haoxuan responded, not caring about the two men.

Lin Hao and the others knew from the intercom that Chen Haoxuan had come out, and like before they wanted to see if Chen Haoxuan had researched something again. Chen Haoxuan was not very strict with them, so they took the initiative to run to see Chen Haoxuan. When they saw Chen Haoxuan, they couldn't say anything for a long time, but they could keep saying in their hearts, "Strong, too strong, just by this aura they all know that the boss is very strong and powerful"

"Lin Hao, Jiang Dong, I have researched my dream, all I will no longer close the research in the future, now you report your work with me, if I am satisfied, you will get the strongest strength." Chen Hao Xuan smiled lightly and said to Lin Hao and the others, although this tone was very peaceful, it changed when it came out of Chen Hao Xuan's mouth and became something that people dared not ignore.

"Our mission has always been to protect the boss and the boss's wife and the girls and to follow orders from the boss's wife and the girls, we have caught a total of one hundred and twenty-three spies and fifty senior agents and over three hundred professional thieves in the past year and a half. We helped the boss and his wife with twelve incidents, all of them minor and not worth mentioning. Also we are now twice as strong as we were a year ago, Jiang Dong and I are the strongest, and the two of us together can beat all the team members." Lin Hao, who was the captain, reported.

"Well, very good, Lin Hao, Jiang Dong, come to me on Friday night, I will make you the most powerful people in the world." Chen Hao Xuan said with confidence.

Lin Hao and Jiang Dong were excited as they heard Chen Hao Xuan's words, although they didn't know how powerful Chen Hao Xuan really was now, but just by the aura that Chen Hao Xuan gave off, they made them envious.

Chapter 456

It was a big event for Chen Haoxuan to come out from the Research Institute. Because he came out so rarely, every time Chen Haoxuan came out of the research institute, Lin Hao and the others would inform Chen Yina and the others at the first opportunity.

In order to see Chen Haoxuan, Chen Yina and the girls left their work to their subordinates and hurried back. When they saw Chen Haoxuan at home, for some reason, they felt that Chen Haoxuan was strange. In the past - Chen Haoxuan had an air of shrewdness and gentleness, but now they actually felt a domineering aura in Chen Haoxuan, a domineering aura that made them cautious when talking to Chen Haoxuan, fearing from the bottom of their hearts that Chen Haoxuan would be angry.

No one had told Chen Haoxuan that his aura was that domineering, so he still didn't know until now. Chen Yina and the girls felt strange to Chen Haoxuan, and Chen Haoxuan also felt that Chen Yina and the girls had become strange, becoming less casual than before.

In the living room, Chen Hao Xuan could not help but frown and ask Chen Yina and the girls, "Nana, Ke Xin, Wei Wei, Sister Han, Yue Chan, what's wrong with you guys? Is it because it's been too long since I've spent time with you guys that you feel strange towards me - is it?"

Hearing Chen Haoxuan's words, Chen Yina and the girls couldn't help but get nervous, Chen Yina lowered her head and didn't dare to look at Chen Haoxuan's sharp eyes, squeaking, "Xuan... brother, we don't know why, the closer we get to you, the more nervous we get, a feeling of being afraid that you might get angry. "

"Yeah, yeah! Hao Xuan, have you done some research on yourself again, all we feel this way?" Jiang Xiang Han asked worriedly.

"Hao Xuan, if I were to describe the feeling I have for you, it would be the kind of feeling a commoner has for an emperor, you have a strong aura of superiority about you, all that's why we are afraid of your anger, it's not because we haven't spent time with you for too long that we are like this." Zhou Kexin plucked up her courage and said to Chen Haoxuan.

Chen Hao Xuan was confused by Chen Yina and the girls, it was true that he had become very strong himself, but the thing of supremacy was not something that could be asked for just by wanting it, because it was something very vain, could it be that the genetic warrior he made could become stronger and also increase his aura? Thinking of this, Chen Hao Xuan couldn't wait to go and turn Lin Hao and Jiang Dong into genetic warriors to see if they would have the same void aura as him after they became genetic warriors.

"I'm going to the research institute to see if something is wrong with me, you guys wait for me, I'll sleep with you tonight." Chen Haoxuan said with an evil smile.

Chen Hao Xuan walked out of the living room and called Lin Hao and Jiang Dong into the research institute, Lin Hao and Jiang Dong's entered Chen Hao Xuan's research institute for the first time, they were curious about the things inside the institute, there were things inside the institute that they had never seen before, although they had never seen them before, but they could feel that they were all very powerful, because they knew they were very advanced just by looking at them.

"Come here, you two." Chen Hao Xuan shouted to Lin Hao and Jiang Dong who were touring the research institute.

Lin Hao and Jiang Dong trotted over to Chen Haoxuan and respectfully said, "Boss, what is it?"

Chen Hao Xuan pointed to the two beds made of steel plates and said to Lin Hao and Jiang Dong, "Listen carefully, I have researched a gene that can make people very powerful, and those who use this gene are called genetic warriors. I have experimented on myself and there is nothing wrong with it, all I am now is a genetic warrior, a genetic warrior that is a thousand times stronger than you guys. But I can't guarantee that there won't be accidents, after all, my own physique is a bit different from yours, all you two have to think carefully, if you want to become stronger - lie on this steel bed if you are not afraid to die."

"Boss, we trust you, you do it!" Lin Hao said and laid down on the cold steel bed, Jiang Dong also laid down without being left behind.

Seeing Lin Hao and Jiang Dong lying down, Chen Hao Xuan began to bind Jiang Dong and the others to the steel bed with strange steel wires, these strange wires were personally practiced by Chen Hao Xuan, they were very strong wires, even Chen Hao Xuan, a demon, needed all his strength to rip them off, if it was Jiang Dong and the others, it would be impossible for them to rip them off in their lifetime.

After tying them up, Chen Hao Xuan began to inject the genetic warriors into Jiang Dong's body. This made them feel torn, nothing was happening, so why did Chen Hao Xuan tie them up so tightly? "Boss, didn't you say that the genetic warrior injection might be painful? How come we don't feel anything at all?"

"Alas, you guys are lucky! When I first researched the gene fusion, I used myself as an experiment, you guys will never be able to experience that pain, one whole day, that day was the most painful time in my life, I will never be able to forget that day. Seeing that you guys don't have any pain at all now, I admit that I am jealous, why should I have to suffer that kind of pain that no one can endure while you guys have nothing at all and can still enjoy my research results." Chen Hao Xuan looked at the view screen of the scanning instrument and said to Jiang Dong and the others.

"You're our boss, you train us, that's your strength, it's the right thing to do, who made you so smart and so powerful." Jiang Dong smiled as he said.

"I'm talking business with you now, you two will become the most powerful humans in the world after today, you can jump five or six storeys high, you can blow away a bus with one punch, you have a speed faster than the wind, and a body more agile than any animal, and all sorts of skills that you will have to comprehend for yourselves later. I am telling you all this because I want to remind you that after today you are no longer ordinary people, you cannot just reveal your strength, got it?" Chen Haoxuan said seriously to Jiang Dong and the others.

"Boss, don't worry, we know what to do." Lin Hao responded seriously.

Chen Haoxuan constantly stared at the view screen of the scanning instrument, worrying that something might happen to Jiang Dong and the others. Overnight, Chen Haoxuan stared at the view screen of the scanning instrument for a whole cross, which moved Jiang Dong and the others so much that if they were women, they would have hugged Chen Haoxuan and cried in his arms.

In the morning, Jiang Dong and Lin Hao were released by Chen Hao Xuan, they were now at the place where they often trained, they both had the same heart now, the very excited kind, they could clearly feel that they were now very strong and powerful, their bodies were full of endless power.

Chen Hao Xuan didn't accompany Jiang Dong and the others, Chen Hao Xuan let Jiang Dong and the others experience their current abilities on their own while he himself was at home hemming and hawing with Chen Yina and the girls. Last night Chen Hao Xuan made Chen Yina wait for the whole night because Chen Hao Xuan had said before that he would stay with Chen Yina for the night, but he didn't expect Chen Hao Xuan to stay the whole night. In order to compensate for this, Chen Haoxuan gave

Chen Yina some pills to take, and after taking them, Chen Yina was no longer sleepy at all and was in high spirits.

Chen Hao Xuan and Chen Yina girls played wildly, several of them took turns, and Chen Hao Xuan was very strong and remained unbowed for so long, which made Chen Yina girls hate and love them, hate because several of them were tossed to death by Chen Hao Xuan, and love because they were tossed to death by Chen Hao Xuan.

Chen Hao Xuan had a hundred bodyguards, those bodyguards all knew that Chen Hao Xuan had given Jiang Dong and the others strong strength, exactly how strong they did not know, in order to find out just how strong Chen Hao Xuan could give others, as soon as they saw Jiang Dong and Lin Hao coming back, they pestered Lin Hao and the others to put on a show.

The result was that Jiang Dong and Lin Hao used a brush to compete with all their subordinates, which they held in their hands, and the brush was dipped in ink, and as long as it was dipped in ink, it was considered to be cut by a knife. Jiang Dong and the two of them were like a gust of wind, making it impossible to catch them, each one felt a dark shadow fly past them, and with it a chill on their necks.

With a swish of their hands, Jiang Dong and Lin Hao reappeared where they had been standing, and said to their subordinates, "Look at your necks."

All the bodyguards looked down, "Holy sh*t, this is too fast, isn't it?" When they saw the ink on their necks and looked up at Jiang Dong and his men again, they could not help but feel a chill in their hearts, if Jiang Dong and his men had just held a dagger instead of a brush, they would all have become dead bodies by now.

Seeing the incomparably shocked expressions of their subordinates, Jiang Dong and Lin Hao both felt very flattered, and Jiang Dong said proudly, "See! This is the ability given to us by the boss, now we are the strongest existence of all creatures in the world, no one can beat us except the boss. Hey, be envious! Work harder if you're envious, perform well, and the boss will grant you - the strength you want."

"I can't believe it - the boss has such a horrible ability to make two people a thousand times stronger overnight, is this humanly possible? Now someone says he's a god - I'd believe it too." Many of the bodyguards were exclaiming this.

At Ina Chen's house, our lovely Chen Xiaonuo was pouting, "Grandma, Xiaonuo wants Daddy and Mummy and the others, Grandma, Grandma" Chen Xiaonuo hugged Li Ping's feet and kept shaking them around, and it was fortunate that Li Ping was not too old, otherwise she might have been shaken down by Chen Xiaonuo.

"Good, good, grandma will take you to see your daddy and mommy." Li Ping squatted down and picked Chen Xiaonuo up.

Chen Xiaonuo was already over two years old, she could already shout and express simple words, she wanted to see her daddy every day, she hadn't seen Chen Haoxuan for over a year, if she didn't have a picture of Chen Haoxuan, she probably wouldn't have recognised him. Chen Xiaonuo, who was playing at the gate today, heard the guard at the gate say that her daddy was home now, which led her to run back inside and yell for Li Ping to take her to see her daddy.

Chen Haoxuan was so busy that he almost forgot he had a daughter, and it was only when Li Ping brought Chen Xiaonuo to him that he remembered he had a baby girl.

Chapter 457

Chen Hao Xuan hugged his baby daughter. He said happily to his daughter, "Xiao Nuo, you haven't seen daddy for so long, have you missed daddy?"

Chen Xiaonuo wrapped her two little hands around Chen Haoxuan's neck and whispered, "Daddy, Xiaonuo has always missed daddy, but Grandma and Mummy said that daddy had to go out. Daddy, don't go out anymore, stay at home and play with Xiao Nuo, okay?" A child of over two years old could say such words, worthy of being Chen Hao Xuan's child, he was just smarter and more clever than others' children.

"Okay, daddy promises you, from now on, no matter where daddy goes, he will take you with him, okay!" Chen Haoxuan happily said to Chen Xiaonuo.

Chen Xiaonuo was also unaware of the danger, she quickly let go of her little hand that was wrapped around Chen Haoxuan's neck and clapped her hands, cheering happily, "Yes yes yes! Daddy is playing with Xiaonuo now."

Zhou Kexin happily said to Chen Hao Xuan, "Hao Xuan, Xiao Nuo is in kindergarten now, so don't play with him too much, he still has to study!"

"Stop it in moderation, I'll know. Right! Xiao Nuo." Chen Haoxuan said happily.

Chen Hao Xuan loved children, especially seeing how cute Chen Xiao Nuo was, he planned to have more, he had plenty of money anyway, even if he gave birth to a nation he could still afford to feed it, as he was a rich and powerful person.

"Nana, don't get tired either, leave the work in your hands to the people below you! Make the arrangements now, in a few days I'm going with you to a mysterious island for our honeymoon. Now I'm going to take our lovely Xiao Nuo out to play." Chen Hao Xuan finished his speech and ran out with Chen Xiao Nuo in his arms.

Chen Hao Xuan carried Chen Xiao Nuo around the village, everyone who met Chen Hao Xuan would praise Chen Xiao Nuo for being so cute, and Chen Hao Xuan could not help but be proud of himself when he heard these compliments. Chen Haoxuan was satisfied, but Chen Xiaonuo was not, she liked playing more than being praised. "Daddy, Xiao Nuo doesn't want to play in the village, Xiao Nuo wants to go to the fields, there are good food there." Chen Xiaonuo tugged at Chen Haoxuan's clothes with her little hand and said in a delicate voice.

"There's delicious food? That's good, let's go." Chen Haoxuan was eager to know what Chen Xiaonuo said was delicious.

Chen Haoxuan carried Chen Xiaonuo to the edge of the field, and as soon as he arrived, Chen Xiaonuo yelled to come down, Chen Haoxuan put Chen Xiaonuo down, and Chen Xiaonuo quickly ran to the field.

Chen Haoxuan sat at the edge of the field and watched Chen Xiaonuo running around the field by herself. After Chen Xiaonuo ran around the field for a while, she didn't know what good things she had found and she happily said to Chen Haoxuan, "Daddy, wait, Xiaonuo has found something delicious."

"Good, then you must be quick, your daddy is hungry now." Chen Haoxuan said with a smile.

Chen Xiaonuo ran to a pile of grass and rummaged for a small engineer's shovel, then ran to a spot in the field and dug merrily. Chen Haoxuan wondered if his daughter had watched too many cartoons, and thought there was treasure when she saw a hole and dug desperately.

"Ah, I found it, daddy, Xiaonuo found something delicious!" Chen Xiaonuo threw the sapper shovel away, then squatted down, and when she stood up again, she had surprisingly grabbed a mouse that weighed half a catty in her little hand, and what she had grabbed was the mouse's tail, and whenever the mouse tried to turn upwards to bite her, she would shake her little hand to shake the mouse down.

"Yikes!" Chen Haoxuan was dumbfounded! How could his daughter be so powerful! She is only two years old and she dares to catch such a big mouse without fear of being bitten! Even Chen Yina and the girls did not have such courage.

Chen Xiaonuo was not afraid of being bitten by the mouse. She grabbed the mouse's tail tightly and ran towards Chen Hao Xuan, jumping and jumping, cheering, "Daddy, look, look, Xiaonuo has caught something delicious."

When Chen Haoxuan heard Chen Xiaonuo's words, he was surprised and said, "Holy sh*t, this mouse is a tasty treat? Even if you catch a mouse, you still want to eat it, is my daughter a devil girl?"

Chen Xiaonuo ran to Chen Haoxuan and held the mouse up to him like a treasure, saying proudly, "Daddy, look, this is the mouse Xiaonuo caught, go back and let Grandma cook it, it's delicious."

Chen Hao Xuan was invincible on Earth, he wasn't afraid of being bitten by a mouse! Because he couldn't bite even if a mouse bit him now. Chen Hao Xuan did not grab the rat's tail like her daughter did, he grabbed the rat's body directly. Strangely enough, once Chen Hao Xuan grabbed the rat, the rat stopped fighting, as if it knew that it could not escape Chen Hao Xuan's clutches, and that it was useless to fight anymore.

"Hey, daddy, what's wrong with the mouse, why isn't he moving, is he dead, grandma said that a dead mouse can't be eaten, daddy, you should throw him away quickly!" Chen Xiaonuo whispered to Chen Haoxuan.

"Is it really dead?" Chen Haoxuan was curious, he hadn't seen Chen Xiaonuo mistreating the mouse! He hadn't scratched it hard himself, so how could it be dead! Chen Hao Xuan grabbed the rat's tail and shook it, he could feel that the rat was still alive, its heart was still beating, but the rat still didn't move, Chen Hao Xuan suspected that it was a sick rat, such a rat could not be given to his baby daughter to eat, so Chen Hao Xuan threw the rat away.

As soon as the mouse landed on the ground, it immediately ran away, which was seen by Chen Xiaonuo, who immediately let out a crisp cry of alarm: "Daddy, the mouse is not dead, he wants to run." After saying that, she didn't care about Chen Haoxuan, she spread her legs and chased after him.

Even though Chen Xiaonuo was small, she was not a slow runner and could basically keep up with the speed of the mouse's desperate run. Chen Hao Xuan followed behind Chen Xiaonuo, he didn't help Chen Xiaonuo catch the mouse, he wanted to see how strong her daughter really was, how could she be so scary at such a young age.

Chen Xiaonuo chased after her for ten minutes, and after ten minutes the mouse ran out of energy before Chen Xiaonuo caught it. Chen Xiaonuo grabbed the mouse's tail again and panted to Chen Haoxuan, "Daddy, you must help Xiaonuo put the shovel in the grass, don't let others see it, yo!"

"Who gave you this shovel." Chen Haoxuan asked curiously.

Chen Xiaonuo didn't know what stealing was yet, she said proudly, "Xiaonuo got it from Uncle Jiang Dong, daddy, Xiaonuo told you! This shovel is very useful, it digs mice so fast."

"Did Jiang Dong personally give it to you?" Chen Hao Xuan asked with a frown, in his heart he secretly said, this is too much to put him, the boss, in his eyes! A sapper's shovel was not an ordinary shovel, he could use it as a weapon, giving a weapon to a two-year-old girl to play with, what if she got hurt?

"No, Xiaonuo took it herself, because Uncle Jiang Dong wasn't around, all Xiaonuo did was take it herself." Chen Xiaonuo said in a delicate voice.

Chen Hao Xuan's first thought was stealing, his daughter dared to steal when she was over two years old, and now she dared to catch a mouse by herself, invincible, too invincible, knowing that when he was over two years old he would cry when he saw a cockroach, let alone catch a mouse.

Chen Hao Xuan squatted down and affectionately said to his daughter, "Xiao Nuo, promise daddy that you won't catch mice anymore, okay?"

Chen Xiaonuo cocked her little head and said in confusion, "Why?"

"Because mice are dirty, and girls can't play with dirty things." Chen Haoxuan said.

"But Uncle Jiang Dong and the others said that if you wash it, it won't be dirty anymore! Daddy, you don't know, mice are delicious, Grandma's are even better than Uncle Jiang Dong's. If you don't believe me, let's go home and Xiao Nuo will ask Grandma to cook them for Daddy." Chen Xiaonuo said happily.

Now Chen Hao Xuan knew that it was Jiang Dong and the others who had caused the trouble, most likely they had seen Chen Xiao Nuo when they were catching rats and then gave Chen Xiao Nuo rat meat to eat, that was why Chen Xiao Nuo was so obsessed with rat meat.

Rat meat is delicious, but a girl likes to eat rat meat, Chen Hao Xuan felt very twisted. After thinking about it, Chen Hao Xuan finally decided to leave Chen Xiaonuo alone, after all, this is Chen Xiaonuo's only hobby now, and as a father he cannot deprive his daughter of her only hobby.

Chen Haoxuan grabbed the mouse with one hand and picked up Chen Xiaonuo with the other, saying, "Come on, let's go home and let your grandmother cook mouse meat."

Chen Xiaonuo kept clapping her hands in joy: "Yes, yes, yes! There is mouse meat to eat."

Chen Hao Xuan left the rat to Li Ping to deal with and then made a phone call to Chen Yina and the girls to come to her mother-in-law's house for dinner. When Chen Yina and the girls came, they came and brought Ball with them. Originally, Ball was the favorite to follow Chen Hao Xuan, but today he slept too late, and when he got up Chen Hao Xuan was gone, he ran out of the institute by smelling the smell, and just happened to be seen by Chen Yina and the girls, so he was caught by Chen Yina and the girls.

Chen Xiaonuo she had seen the ball when she was very young, but how could she remember something so small, when she saw the ball she jumped up in excitement and pointed at it and shouted to Chen Hao Xuan, "Daddy, look, there is a fat white mouse, daddy, help Xiaonuo catch him." In her heart, Chen Xiaonuo thought that the fat white mouse, Ball, must be very tasty.

Chen Hao Xuan really wanted her daughter to eat the ball, so he hugged her who wanted to catch it, "Xiao Nuo! You can't eat this mouse, he's daddy's pet, his name is Ball, you can play with him from now on, okay?"

When Chen Xiaonuo heard Chen Haoxuan say that she couldn't eat it, she immediately felt very aggrieved, she tugged at Chen Haoxuan's trouser leg with her two little hands and pouted, "Daddy, Xiaonuo doesn't want to play with Ball Ball, Xiaonuo wants to eat Ball Ball."

It was fortunate that Ball didn't understand much of what Chen Xiaonuo was saying, otherwise he would have been scared off.

Chen Hao Xuan was really speechless about his daughter's love for eating rat meat, so in order to keep his daughter from eating the ball, he could only make his daughter like the ball. Chen Haoxuan beckoned to Ball and shouted, "Ball, come here."

When Ball heard Chen Haoxuan call out to him, he immediately ran towards Chen Haoxuan in a senior chattering manner and habitually ran to Chen Haoxuan's shoulder. Chen Haoxuan grabbed Ball down and sent him to Chen Xiaonuo, saying, "Ball, this is my daughter, you have to play with him, understand?"

Chen Xiaonuo probably also felt that Ball was cute, she no longer mentioned eating mice, she quickly grabbed Ball's tail out of habit and grabbed him up, scaring him into fighting.

Chapter 458

"Minor. You can't grab the ball like this, you should hold him with both hands or you will hurt him." Chen Haoxuan couldn't bear to see his daughter abusing Ball like this and quickly spoke out.

"Daddy, Uncle Jiang Dong said that if you catch mice, you should catch their tails! Otherwise they will bite." Xiao Nuo's two big eyes blinked as she looked at Chen Haoxuan and said in a delicate voice.

Hearing Chen Xiaonuo's words, Chen Hao Xuan could not help but curse Jiang Dong, the bad man, in his heart for teaching her lovely daughter to catch mice. Chen Hao Xuan patiently said to his daughter, "Xiao Nuo, listen to daddy's words, don't catch mice anymore, if you want to eat mouse meat, tell your grandmother, she will have someone catch it for you. Also, from now on, don't catch any other mice to play with, except for the mouse, Ball, okay?"

"Oh." Chen Xiaonuo responded indifferently, not knowing if she had heard Chen Haoxuan's words or not.

Li Ping took the mice Chen Xiaonuo caught and went to cook them, while Chen Haoxuan and Chen Yina chatted in the living room, and Chen Xiaonuo, who had grabbed the ball, went to her room, seeing that the ball was so cute and her daddy wanted her to be nice to the ball, so she took the ball to her room and shared many delicious snacks with the ball. He sat in front of Chen Xiaonuo and ate snacks with Chen Xiaonuo before.

Chen Xiaonuo was still a child, she loved to play, she played with the ball in her room, her laughter could be heard even by Chen Hao Xuan and the others in the living room.

When it was time to eat, Chen Hao Xuan himself called his daughter to eat. When he came to his daughter's room, he saw his daughter lying on the floor, her two little feet wiggling and her two little hands playing house with the ball, which was so small that every now and then the house would fall over and his daughter would call the ball a stupid mouse. Seeing Chen Xiaonuo and the ball playing so happily, Chen Hao Xuan thought to himself, why not let the ball follow his daughter in the future, so that he could play with her and protect his daughter's safety, knowing that the ball is not an ordinary mouse, he has injected the genetic warrior mouse, it is not too much to say that he is the king of mice.

Chen Haoxuan walked into his daughter Chen Xiaonuo's room and spoke out to Chen Xiaonuo who was playing with the ball on the floor, "Xiaonuo, do you like playing with the ball a lot?"

Chen Xiaonuo cocked her head and said to Chen Hao Xuan, "Yes, the ball is so stupid, but he's so fun, I just don't know if it's good."

Sweating, Chen Hao Xuan sweated furiously, thinking how his daughter was so cruel! Even such a cute ball wants to eat it. "Xiao Nuo, the ball is not an ordinary mouse, it can't be eaten, got it? Don't ever mention eating balls again, or Daddy will be angry. And, from now on, you will play with the ball, sleep, eat and read with the ball, okay?"

"Oh." Chen Xiaonuo said indifferently, at a young age she didn't know how to think yet, she only knew that she had to listen to what daddy and mummy and grandma and grandpa said.

"Let's go, let's go eat." Chen Haoxuan smiled and shouted to his daughter.

Chen Xiaonuo gave a cheer and ran outside, the ball he could understand the word dinner, he probably ate too many snacks, his stomach puffed up round and he wobbled when he walked, making people feel like he would fall at any moment.

While eating, Chen Hao Xuan told Chen Yina and the girls about how Ball would belong to Chen Xiaonuo in the future, and Chen Yina agreed that with Ball, a super little guy, they would never have to worry about Chen Xiaonuo's safety again.

In the days to come, Chen Hao Xuan spent every day with Chen Yina and the girls, going to train Jiang Dong and the others from time to time, while Yang Lin, Liu Junfeng and their good friends often came to the Chen family village to drink and chat with Chen Hao Xuan. Chen Hao Xuan's life is very dashing and comfortable, playing during the day, working at night, making people work, he wants to have a few more children.

Chen Haoxuan's efforts were not in vain, two months later he got Chen Yina, Jiang Xianghan, Hua Lingwei, Han Yuechan and Zhou Kexin pregnant at the same time, which could all go for the Gillies World Record. With so many wives pregnant, Chen Hao Xuan, the husband, needed to take good care of Chen Yina and the girls. They were very touched by this.

Every day, Chen Hao Xuan cooked food for Chen Yina and the girls, not all of which were delicacies of the sea and mountains, but also ordinary dishes, which, although ordinary, became more than delicacies of the sea and mountains through Chen Hao Xuan's hands.

As for his business, he only gave one order, to make money and expand his business.

The two of them chose to have their babies openly because they knew that if they had given birth naturally, their a** would not have been as perfect and they would not have been able to give Chen Hao Xuan better pleasure. The mother and child were safe, Chen Yina and the girls were fine, and so were the children. They gave birth to five children to Chen Hao Xuan, three were boys and two were girls, and with Chen Xiao Nuo, that would give Chen Hao Xuan three sons and three daughters, in pairs.

It was impossible to hide the fact that Chen Hao Xuan had so many children. According to the laws of China, the maximum number of children is two, but Chen Hao Xuan had six, and Chen Hao Xuan was also very dry and went to pay the over-birth fine.

With these six children, Chen Haoxuan's home was no longer as cold as before.

Chen Hao Xuan quit all of Chen Yina's jobs and let them stay home with the children, while he took over Chen Yina's work alone. Chen Hao Xuan has now researched the genetic warrior of his dreams, and all he can say is that he has nothing more to pursue now. If he has to say it, he can only say that he wants to make China strong and let the people of China have a good life.

So after Chen Haoxuan took over his business again, the first thing he did was to raise his salary, and he didn't raise it by a lot, because if he raised it too much, the other companies in China would go out of business, so he gave every employee a hundred yuan raise, and gave the administrators plus two hundred each, and the top brass a thousand each. Chen Hao Xuan gave them a raise and they had more money to spend. They had money, so naturally someone wanted to make money out of their hands and the only way to make money out of their hands was to do business.

The only way to earn money from them is to do business. With more people doing business, this will make the economy of China develop rapidly. Chen Hao Xuan now has wealth that can be rivaled by the country, and he wants to use this wealth in a meaningful way. He gave orders to companies in various countries to sell the best goods from their places wholesale to the new city and capital of China, so that people from all over the world can come to China to buy things that they need to travel a long way to buy. Just like in Rice, many rich people like to go shopping in Rice because of the famous goods from various countries.

In order to make China really strong, Chen Hao Xuan personally financed the construction of a school wherever there were people and the number of people exceeded 10,000, he would send people over to build a school, and the children studying in his school would be free of charge as long as their families were in difficulty, but not the rich ones, if anyone was free of charge, then wouldn't he, Chen Hao Xuan, be feeding the world alone!

These orders were all given at the same time, which quickly changed the country of China again. Previously, in China, apart from the high-tech products produced by Chen Haoxuan's company that the Chinese people could be proud of, other goods were simply not worth mentioning, but now it was different. Famous specialties from all over the country appeared in the capital and the new city of China, some of which you could not even buy even in the place where they were produced. Another sensation is that primary schools have been built in many mountainous areas of China.

Chen Hao Xuan has done so much good for China that it has made many Chinese people see Chen Hao Xuan as a saint, and there are even many books on the way of business and philosophy of life that talk about Chen Hao Xuan, and it is certain that Chen Hao Xuan's name will be written in history in the future.

Businessmen actually have great abilities, just like Chen Haoxuan, who relied on his personal strength to turn China into the world's richest country. Now almost all the rich people in China are Chen Hao Xuan's men, and Chen Hao Xuan can't help it, who let all those rich people want to follow him and get rich! Jiang Dong, Yang Lin, Liu Junfeng, the first people to follow Chen Hao Xuan, are already multi-millionaires, and some are even billionaires. Among them, the richest one is considered Su Shiyin, who is responsible for speculating in stocks and properties and such, and she has helped Chen Haoxuan earn tens of billions of RMB, almost hundreds of billions, with her men.

This year, Chen Haoxuan did so many good deeds for China that the whole country knew about it, and the number one man in China couldn't help but go to Chen Haoxuan to thank him. The number one person in the country of China did not ask Chen Haoxuan to come and see him, but to visit Chen Haoxuan personally. Chen Haoxuan's skills were greater than his, so it was only right that he personally went to see Chen Haoxuan.

Chen Hao Xuan is considered one of the most famous people in this world, once there was a great figure in the country of China who fought with his men to Europe and swept through half of Europe, now there is Chen Hao Xuan, his men are spread all over the world, a constant flow of wealth gathered in the country of China from all over the world, it can be said that Chen Hao Xuan created a feat that no one can surpass, because he used the kindest way to spread himself is forces all over the world.

Chen Hao Xuan he took half a year to deal with the matters he explained down, after half a year, he began to test all his bodyguards, those who passed the test, he let them turn into genetic warriors and become his most powerful and loyal henchmen.

Chapter 459

This day. A strange guest came to Chen Hao Xuan's house, she wore a hat, sunglasses and was dressed very fashionably to find Chen Hao Xuan, he was the world-class superstar Song Fangfang, he came to find Chen Hao Xuan this time to have a very important matter, so important that it could affect her later life.

When Song Fangfang came to see Chen Haoxuan, she said it was a very important matter, so Chen Haoxuan asked Song Fangfang to go to his study, which is actually a data bank, and no one is allowed to enter his study without his permission.

Chen Haoxuan had not seen Song Fangfang for a year or two, and when he saw her again, she had the air of a mature woman, the years had ripened her. Song Fangfang she sat at the desk, took off her hat and sunglasses, her eyes revealed a sincere gaze to Chen Haoxuan, "Haoxuan, I need your help with one thing, you must help me, can you?"

"You say, as long as I can help, I will help you." Chen Hao Xuan said painfully, Song Fangfang he was considered half a friend of Chen Hao Xuan, being a friend of Chen Hao Xuan, Chen Hao Xuan would help, as long as the other party made a reasonable request.

Song Fangfang took a deep breath before she gathered the courage to say to Chen Haoxuan, "I am not young anymore, I want to find a dependency, in the past it was easy for me to want a dependency, but now it is different, my fame has grown, my status has changed, people have naturally changed along with it, my vision has become very high and high, I am not satisfied with all men, all I have come to you, do you know what I meaning now?"

"Borrow ~ seed." These two words appeared in Chen Hao Xuan's heart, this is the same as Jiang Xiang Han at the beginning both do not want to get married but want a child, so they want to find him who is impossible to marry him, but he likes him a lot to borrow ~ seeds. Chen Hao Xuan thought for a moment, then firmly said: "No, I let you pregnant you give birth to the child is my child, I can not let my child is born without a father, although you are rich and famous, but not but can not give the child a complete home, all I will not agree."

"Then - then you marry me." Song Fangfang said what was in her heart, she was aware that Chen Hao Xuan would not marry her, all she did was to let Chen Hao Xuan get her pregnant so that she would have a child with her for the rest of her life.

"I have so many wives, I can't marry again." Chen Haoxuan said awkwardly, although it was said that no man would mind having many women, but Chen Haoxuan was different, Chen Haoxuan did not want to make those who liked him suffer. Chen Yina and the girls were different, they were all living a good life now and called each other sisters, but they had given a lot before, Chen Haoxuan still remembered when Chen Yina and the girls had often shed tears silently in sadness for him.

"Then you let me have a child." Song Fangfang seemed to never give up until she achieved her goal.

"I've said no, if I take you, Nana and the girls will be sad, if I let you get pregnant, my child will suffer, so I won't agree to it." Chen Haoxuan said firmly.

"Then do you want me to end up alone?" Song Fangfang lowered her head and said sadly.

"You can go find a man and get married! There are so many men in this world, I don't believe there isn't a good man." Chen Hao Xuan said with a look of hatred and disdain.

"I have looked for one! But none of them were satisfied." Song Fangfang said disappointedly.

"You are now a world class superstar, you don't need to look for someone to rely on, because now you don't need to rely on yourself anymore, you can't use up your own money for several lifetimes, all you need to look for now is a man, a man who knows how to love you, knows how to care for you, doesn't need to have great talent, just needs to have a heart that truly loves you." Chen Haoxuan said.

"But - but" Song Fangfang also felt that what Chen Haoxuan said was reasonable, but she still felt that Chen Haoxuan was the most perfect man, and if she couldn't be with such a man for a long time, then having such a man would be a very happy choice.

"No buts, if I say no, then no, I can't give you my child." Chen Haoxuan said.

"Fine!" Song Fangfang said disappointedly, her eyes were red, it seemed she was really sad, if Chen Haoxuan wasn't with her, her tears would have already fallen.

Chen Haoxuan stood up and walked next to Song Fangfang, put one hand on Song Fangfang's shoulder and patted it gently, saying, "Actually, you can control your own life, you can let yourself not have such a high pursuit, so that you won't have such a hard time. Also, in fact, in my personal opinion, a good man is not at the top of the pyramid, but among ordinary civilians, because ordinary people have nothing to pursue, as long as that person is a good person, he will treat you wholeheartedly, such a man is a good man, my kind does not count."

Song Fangfang stood up and said in a disappointed tone, "I'm leaving then, take care."

Chen Hao Xuan pulled Song Fangfang's wrist, Song Fangfang felt a sweetness in her heart, thinking did Chen Hao Xuan want to stay and spend a night with her in Lang Man.

Chen Haoxuan felt a little guilty in his heart, so he wanted to do something to compensate Song Fangfang, who was now rich and famous, and the only thing she seemed to need was songs: "Wait, I have a few songs to give you."

Song Fangfang blurted out, "Give me songs again, why are you being so nice to me?"

"Because you sing well, as long as you are made popular, you will be able to trample those foreign singers to death, you being number one is China being number one, all I have to do is help you." Chen Hao Xuan said.

"Hao Xuan, I find that you are doing too much for China, why is that? Can you tell me?" Song Fangfang asked curiously, it was normal for a person to do something for the country, after all, there were many patriots, but someone as patriotic as Chen Haoxuan she had never seen or heard of, if he hadn't seen it with his own eyes, she wouldn't even believe that someone would set out to help the country at such a great cost.

"Because I am from China and I am also from the Chinese government, so I have a duty to do something for China, and when China is strong, I am happy when I look at it." Chen Haoxuan explained.

"You, that's the good thing about you." Song Fangfang gave Chen Haoxuan an admiring look and smiled flirtatiously.

"You sit down first, I'll write a few songs for you now." Chen Haoxuan said.

Song Fangfang sat down and watched Chen Haoxuan write the songs with her eyes wide open, Song Fangfang saw Chen Haoxuan write the songs with such a fast speed! So fast that she wondered if Chen Haoxuan was composing a song? How can one compose a song like this? Does Chen Haoxuan not need to wait for inspiration?

With a hiss, Chen Haoxuan tore off a piece of paper and put it aside, then continued writing. Song Fangfang curiously picked up the piece of paper, and seeing such a wonderful song, she couldn't help but hum in a small voice.

Halfway through the humming, Song Fangfang said to Chen Haoxuan in an unrecognisable voice, "Haoxuan, don't you need inspiration to compose a song?"

Chen Haoxuan raised his head and looked at Song Fangfang, but his hand didn't stop, saying, "I have a lot of inspiration, so I don't need to stop."

Song Fangfang saw that Chen Hao Xuan could create a song while talking to her, she was convinced, thinking to herself that this guy Chen Hao Xuan is really not human, others want to create a good song, without a few months is definitely not possible, but Chen Hao Xuan he can create a song while chatting with you, is simply a demon.

With a hiss, Chen Haoxuan tore off another piece of paper with the song written on it, after which Song Fangfang heard hissing, Song Fangfang was numb, she really wanted to tear open Chen Haoxuan's head to see how Chen Haoxuan's head actually grew, how could he compose a song like this. There are now more than fifty sheets of paper on the table, and more than fifty sheets of paper represent more than fifty songs.

After another moment, Song Fangfang finally saw Chen Haoxuan stop: "Ah, I'm a bit tired, these songs should be enough, so that's all!" Chen Hao Xuan stopped his pen and stretched his back, saying.

Holding the thick stack of papers, Song Fangfang looked at the papers in her hand then at the smiling Chen Haoxuan, Song Fangfang uttered a very rude word: "You're not human, you're a demon."

"Yah! Why is that?" Chen Haoxuan cried and laughed.

"No one can write more than a hundred songs in an hour, if casually there might be, but every song you write is a masterpiece, if I hadn't seen it with my own eyes, beating me to death I wouldn't believe it was true." Song Fangfang said in awe.

"There are all kinds of people, you just don't know it, just like a carpenter genius in ancient China who could make machinery that flew in the sky, what can you say about him? You know there was no steel back then, and it was still made of wood." Chen Haoxuan said.

"He did, but it took him a lot of time to make it, but you're different, you didn't Lang take a bit of time." Song Fangfang said.

"Alright, alright! I'm not human, I'm a demon alright!" Chen Haoxuan cried and laughed.

"Oh, by the way, why are you writing so many songs for me? I don't need that many for one person, a dozen or so songs would be enough." Song Fangfang said knowingly.

"What is enough, as I see it this is not enough at all, in the future when you have finished all these songs, you find me and I will write some more for you. Make sure to suppress those foreign singers, let them know that our Chinese voice is the voice of the heavens." Chen Haoxuan said firmly.

Song Fangfang nodded her head heavily and responded, "Mm, I will definitely suppress the foreign singers and make foreigners sing Chinese songs."

"Now it's almost noon, let's go eat! I'll personally cook you a delicious table of delicious food." Chen Haoxuan enthusiastically said to Song Fangfang.

"Yes, yes, yes!" Song Fangfang was delighted, she had never eaten Chen Haoxuan's cooking before!

During the meal, Song Fangfang saw that Chen Yina and the girls were getting along very well and were very much in love with Chen Haoxuan, she looked at them with envy, she really wanted to be Chen Haoxuan's wife too! It was a pity that Chen Hao Xuan had rejected her, otherwise she would have been willing to be the youngest.

Chapter 460

In the end, Song Fangfang left Chen's village with disappointment. She did not go back to sing the songs Chen Haoxuan had written for her, but went on a trip down to the countryside. I don't know if it was a deliberate arrangement by God, but she met a very gentle, kind and gentle guy in a small village. What moved her was that this guy was seven times like Chen Haoxuan, and she listened to Chen Haoxuan and lowered her demands, so she fell in love, and three months later she got married.

Song Fangfang's is married out, she is her husband's home wedding reception, she invited Chen Haoxuan and a few of her good friends, the day many people's drink high, a number of people to Chen Haoxuan identified as Song Fangfang's husband, but also wanted to Chen Haoxuan caught to the new room, ready to haunt the bridal chamber. Chen Haoxuan was so frightened that he rushed away on his bullish motorbike, and Song Fangfang laughed so hard that she burst into tears when she found out about it. If those people had really caught Chen Haoxuan in the bridal chamber, she, Song Fangfang, would have dared to go into the bridal chamber with Chen Haoxuan, but alas! Chen Haoxuan could not get drunk, and no one came to catch Chen Haoxuan when he was sober.

Chen Haoxuan knows that Song Fangfang can't forget him, but what can he do, he can't marry anyone who likes him, right? Then how could all men in the world find a wife.

Six months later, Chen Haoxuan's hundred bodyguards, who had all passed his test, had all become genetic warriors, and they had learned about the capabilities of genetic warriors. On this day, Chen Haoxuan took fifty bodyguards with him to the Dragon Group, he also brought with him simple versions of the genetic warrior's genes, these genes were not as strong as the ones Chen Haoxuan and the others used, but they could double a person's strength.

Chen Hao Xuan had fought with agents from various countries such as Rice, and he knew the strength of agents from various countries.

Chen Haoxuan went there in a helicopter and when they arrived at the Dragon Group, the first thing he said when he found the group leader was, "Group leader, call out all the members of the Dragon Group and let them compete with my bodyguards."

The team leader thought that Chen Hao Xuan was too arrogant, knowing that the Dragon Group now had over 400 members, all of whom were masters of their craft, and Chen Hao Xuan had only brought 50 bodyguards and dared to challenge their 400-odd members of the Dragon Group, anyone from the Dragon Group would be angry upon hearing this.

The leader of the Dragon Group knew that Chen Hao Xuan would not harm the Dragon Group, because if Chen Hao Xuan wanted to harm the Dragon Group, he would not have done so much for China. The leader knew that Chen Hao Xuan wanted to show off and let them know how powerful his bodyguards were. The team leader ordered and gathered all the members of so Dragon Team in a huge valley, the team leader said to Chen Haoxuan who was standing beside him, "Think carefully, there are more than 400 of us, they are not ordinary people, no one will die in a fight but serious injuries are inevitable."

"Don't worry! My bodyguards are not as strong as they used to be, after the competition, you will know how powerful they really are." Chen Haoxuan said with confidence.

"Let's begin!" Chen Haoxuan shouted.

This time, Lin Hao did not follow Chen Haoxuan to the Dragon Group, so the one leading the group was Jiang Dong, who yelled out, "Put them down." As soon as the voice fell, Jiang Dong and the others turned into one black shadow and rushed into the side of the Dragon Group members, followed by a continuous scream.

"This... how is this possible?" The group leader's mouth opened wide in surprise. The speed of all of Chen Haoxuan's bodyguards was too fast, even the fastest flower speed of the Dragon Group was not as fast as they were, one was fine, after all, the world was so big, it was normal to have one or two people with such skills, but all of them, this was not normal.

He saw the buzzing roar below, and he was itching to jump down and fight with Chen Hao Xuan's bodyguards immediately, but the problem was that he was an elder and couldn't just run down and beat people up without saying a word. "Hao - Hao Xuan, that this hey, didn't you say that all of us in the Dragon Group are good for your bodyguard to fight? Then did you count me?" The martial arts elder was embarrassed and said to Chen Hao Xuan.

"Of course, I see you go down with the group leader and Elder Dongfang! Otherwise your Dragon Group will be defeated even faster." Chen Haoxuan said smugly.

Although Elder Wuzi and the others were not as fast as Jiang Dong and the others, their strength could not be ignored, and they must have superior skills if they could sit at the head of the Dragon Group.

Elder Wuzi and the group leader both ran down to fight with Jiang Dong and the others, while Elder Dongfang did not, his excuse was that he was old.

The Dragon Group had the nutritional water that Chen Hao Xuan had developed earlier, so as long as they didn't die there was basically nothing life-threatening, so Jiang Dong and the others all went out greatly.

An hour, it took Jiang Dong and the others an hour to put all the members of the Dragon Group, Jiang Dong and the others could not lay a hand on the Dragon Group, otherwise the Dragon Group would only last for twenty or so minutes at most.

The leader of the group was in pain, but for the sake of the dignity of the leader of the Dragon Group, he gritted his teeth and stood up, admiringly saying to Chen Hao Xuan, "Hao Xuan, how did you do that, can you make our Dragon Group people have this kind of strength too?"

Elder Martial Fool was no longer as imposing as before, as he slumped to the ground and said to Chen Haoxuan, "Yes! Hao Xuan, if our Dragon Group also has such strength, then we will no longer be afraid of those foreigners, no matter how many of them come, we will be sure to take them out."

"I came here this time to give you such strength, and let you compete just to make you understand more and believe in what I have. These bodyguards of mine they are that powerful because I have researched something called genetic warriors, this kind of thing is injected into a person's body, an ordinary person can become a master the next day, if you are the ones injected, your strength will increase by several times, it also depends on your individual physique, some people can increase by more than ten times." Chen Haoxuan explained.

The group leader forgot about the pain on his body, he excitedly grabbed both of Chen Haoxuan's hands and said, "Haoxuan, where are those things that can make us stronger? Tell me quickly."

"It's that small box I brought, I brought you one hundred and eight of them, you pick the one hundred and eight people who need this stuff the most to come out, but don't choose women, because I want you to form a hundred and eight good men." Chen Hao Xuan Dao did not dare to give it to all the people in the Dragon Group at once, as he was not quite sure if there were any after-effects to the simple version he had developed himself.

"Good, I will go and choose one hundred and eight people out right now." The team leader said happily, but when he turned around and saw all the men of the Dragon Group lying on the ground, he suddenly remembered that they had just fought with Chen Hao Xuan's bodyguards, and now it was difficult to stand up, so it seemed that the selection of the men would have to wait for the next day.

"I think it's better to make the selection tomorrow! Now I'll have my bodyguards send them to the cave where they're recuperating." Chen Haoxuan smiled triumphantly.

"All right!" The group leader responded and limped towards the cave dedicated to recuperating his wounds, he was not badly injured either, he might not survive until tomorrow if he didn't go to rely on nutritious water for treatment.

Jiang Dong and the others were superb beings, they carried one person in one hand from the Dragon Group to the cave where they recuperated from their wounds, a group of people took a hundred people with them on one trip.

Shen Ruyan, who was in the combat department, she didn't know how many times she cursed Jiang Dong and the others in her heart, cursed Jiang Dong and the others for not knowing how to show mercy

to a beautiful woman like her, so that she was now lying on the ground like the others. When she saw Chen Hao Xuan's bodyguards taking a hundred people to the cave where they were recovering from their wounds, while Chen Hao Xuan was standing alone on a boulder, she could not help but feel discontent in her heart, she was hurt like this, but Chen Hao Xuan did not come to comfort her, too impersonal. So she said loudly to Chen Haoxuan, "Damn Chen Haoxuan, can't you see that I can't stand up? Come and help me to heal my wounds."

Actually! Chen Hao Xuan had seen Shen Ruyan a long time ago, but he deliberately ignored her, because in his opinion, it was normal to get injured during training and competitions, and the pain from the wounds could also exercise one's will, which was beneficial, so he did not bother about Shen Ruyan. Now it was different when Shen Ruyan shouted at him, if he didn't bother, others might gossip about him.

Chen Haoxuan slowly walked towards Shen Ruyan, walked to Shen Ruyan and squatted down in front of her, smiling to Shen Ruyan, "What - just a little bit of suffering and you can't stand it anymore?"

"I'm a girl, it's normal for me to be afraid of pain, why are you standing still! Why don't you hurry up and carry me to the treatment." Shen Ruyan said with great dissatisfaction.

Chen Haoxuan helped Shen Ruyan up and then helped her walk, what Shen Ruyan hurt was her foot, and this jumping and walking she did hurt even more. "I hurt my foot, you are trying to kill me by holding me up!"

"Maybe men and women are not related!" Chen Haoxuan laughed awkwardly.

"What bullsh*t not kissing, I'm in pain now, I don't want to walk, you carry me to treatment or I'll tell my grandpa that you let your bodyguard beat me up." Shen Ruyan beamed her little mouth and said.

"Alright, alright!" Chen Haoxuan walked up to Shen Ruyan and half squatted down so that Shen Ruyan could climb onto his back.

Chen Haoxuan had carried Shen Ruyan before, all Shen Ruyan's face was normal as she climbed onto Chen Haoxuan's back: "Let's go!" After holding on, Shen Ruyan even gave a cheer.

"It seems to be a lot bigger." Chen Haoxuan felt the two balls of flesh pressing on his back and blurted out, saying. Chen Hao Xuan had carried Shen Ruyan before, his memory was so good, once he carried Shen Ruyan he immediately remembered the feeling of carrying Shen Ruyan before, he relied on this feeling to distinguish Shen Ruyan's shufeng growth, could be the first person in the ancient world ah!

"What's a lot bigger?" Shen Ruyan asked curiously.

"No, nothing, I just said that the boulder in front of me seems to be quite a bit bigger than before." Chen Haoxuan said with a false statement.

"Has it? It looks to me like it's the same as before!" Shen Ruyan looked at the boulder that Chen Haoxuan had just stood on, and no matter how she looked at it, she didn't feel that it had changed from before, but why did Chen Haoxuan say that it was bigger than before?
