

Charismatic Charlie Wade Chapter 4973-4978

Chapter 4973

The female devil Elaine completely misunderstood the logic of survival in American prisons. Here, if you are really innocent, other prisoners will bully you to death; but if you are a felon with a background, then the other prisoners here will definitely treat you as an ancestor.

At least you know that you are not easy to mess with, so stay away from you as much as possible.

If Elaine admits that she is a drug dealer, these people will definitely stay away from her. After all, in the United States, drug dealers are synonymous with outlaws, and drug dealers never act alone, behind a ruthless, armed to the teeth organization.

However, Elaine was afraid that others would really misunderstand her as a drug dealer, so she shook out the truth when she was nervous.

This is equivalent to personally pressing his position in this cell to the floor. That's why, when the red-haired woman heard what she said, she slapped her in the face without thinking.

And the red-haired woman was not satisfied when she slapped Elaine, she strode forward, stared at Elaine, and said seriously: "Tell you, in my place, if you want to suffer less, just be obedient. Ask your family to put more money in your account, I have a lot to buy, but there is not enough money in the account, this is your chance to show, if your family has enough money for you, you are here You can suffer less.

" After that, she remembered something, grabbed Elaine's collar, and continued: "Oh, by the way, a friendly reminder, the prison guard Jessica Brownstone in charge of this cell, privately She sells cigarettes. She sells American Spirit brand cigarettes.

A pack of cigarettes costs forty dollars, starting from one. However, her cigarettes cannot be purchased through your account in prison. You need to notify the family outside and hand over the cash to her.

, she will bring the cigarettes in." Elaine said nervously: "I...I don't smoke... The red-haired woman sneered, and slapped Elaine's face again, scolding: "Idiot, you don't slap me!" Starting tomorrow, you're going to ask Jessica Brownstone to give me one American Spirit cigarette every day, remember, three packs! My little sisters and I have some tobacco shortages recently, you better know each other, otherwise,

I must make you look good! "Elaine suddenly cried and said: "I was just locked in, and I haven't had a chance to contact my family. Where can I get you a cigarette!" ""Then I don't care! "The red-haired woman said coldly: "In short, before tomorrow night, if I don't see an American spirit, then I will kill you!"

"Speaking, she warned again: "Oh, by the way, forgot to tell you, if you dare to seek a prison warning, I will insert the sharpened toothbrush handle into your throat, we will wait and see if you don't believe it!" Elaine was so frightened that she burst into tears. At this moment, a young Chinese woman stepped

forward and said in a low voice, "Auntie, this red-haired is named Chloe, and the Bedford Hill Correctional Institution has been in custody.

It's been five years, and she's a famous prison tyrant here. Not only does our cell have her many followers, but there are also many people in other cells who mess with her. You'd better not provoke her, otherwise the end will be miserable. Of. When Elaine saw her compatriot, she immediately cried and said, "She is too unreasonable, why do you make a big mouth on both of us... Who am I going to provoke me... I am wronged to death I...

The red-haired woman Chloe was upset when she heard Elaine crying, grabbed Elaine's hair, slapped her with the other hand, and said coldly, "Let me hear you cry again, I will take your Mouth torn! "Elaine really didn't expect that the women's prison in the United States is so dark.

Just a few minutes after entering, he was slapped three big beep pockets in a row.

It was swollen and painful. That Chloe saw Elaine's face swollen into a pig's head, and smiled contemptuously: "Remember, today I'm just teaching you a little lesson, if I don't see smoke tomorrow, I'll be at my own risk! "Speaking,

Chapter 4974

she instructed a woman behind her: "Jenny, you go pick up a basin of water!" The woman called Jenny immediately ran to the bathroom, and soon came back with a basin full of water. Chloe looked at Elaine and said coldly, "I'm sorry, you can only sleep on the floor today. Saying that, she winked at Jenny.

Jenny is not a good thing, she looked at Elaine jokingly, and poured a basin of water on her bed. This time, it wasn't just the quilt she just received. Even the pillows and mattresses were useless when the water was soaked. Elaine didn't dare to speak, let alone resist, so he could only submissively look at his dripping bed, with regret and regret. Naturally, the hatred was This Chloe deceived people too much, and she regretted it because she played a good card.

She choked in her heart and thought: "I really regret it... If I hadn't been beaten by Soleil and Stella's two bastards fooling around, I've already flown back to Jinling now! If I sell the necklace that Charlie gave me, I shouldn't be too comfortable now...

How could I end up in prison in the United States! And I have to be bullied by these prison tyrants..." At this time, Chloe looked at Elaine and sneered: "I heard that all of you Chinese people like foot massage very much.

Come on, go get a basin of hot water and pinch my feet! "Elaine said subconsciously: "I...I won't... ""Won't? Chloe sneered, took a toothpaste from the personal belongings that Elaine had just received, opened the lid directly, pointed the toothpaste at Elaine's mouth, and squeezed in more than half of it in one go, squeezing Elaine's mouth full.

Yes. Elaine tried to dodge while trying to spit out the toothpaste, but Chloe beckoned to Jenny beside her. Jenny immediately called the other two and skillfully pressed Elaine on the wet single bed.

Then two people pressed her shoulders so hard that she couldn't move, and the other person covered her mouth so hard that she couldn't even spit out toothpaste. Her subordinates were already familiar

with the road, Elaine was tightly covering her mouth and could only barely breathe through her nose, but because her mouth was full of toothpaste and the taste was spicy, she quickly choked up and wanted to cough, but it didn't matter.

, a part of the toothpaste mixed with saliva was sprayed out of the nostrils, burning the entire upper respiratory tract, making her whole person extremely painful. At this time, Chloe smiled cruelly, and said sternly: "If you are sensible, put what is in your mouth.

Swallow the toothpaste for me, or else I'll go to the toilet and get something to feed you! When Elaine heard this, he was so frightened that she lost his mind. He ignored the pungent and jerky toothpaste, so he could only grit his teeth and swallow the toothpaste in his mouth.

Budu was burning with pain, and the tears couldn't stop. She couldn't help crying in her heart: "This red-haired female devil is so much worse than Zhang Guifen! Simply a witch! You f*cking wait for the old lady.

In the future, you will fall into the hands of the old lady. Look at how the old lady tortures you ten times and a hundred times!"

Chapter 4975

Elaine collapsed when he heard it, but he dared not speak for a while. Seeing that the entire prison area was watching his jokes, and no one wanted to speak justice for him, he could only grit his teeth and nodded.

Although Elaine was resentful in her heart, facing this Chloe, she did not dare to have any disobedience at all.

After all, people are under the eaves and have to bow their heads, not to mention that they are still in a foreign country, the feeling of being helpless is even stronger.

Fortunately, Elaine can bend and stretch. Seeing that he can't offend this Chloe, he can only resign.

Seeing that she had swallowed all the toothpaste in her mouth, Chloe smiled contemptuously, and asked coldly, "Did you recall the toothpaste just now? How should you give someone a foot massage?"

Elaine hurriedly nodded his head like pounding garlic and said, "I remembered, I remembered..."

Chloe snorted and scolded: "Since you remembered it, why don't you go get a basin of water to wash my feet?! You will break your legs!"

As soon as Elaine heard that he was going to break his leg, he screamed in fright, and quickly picked up the basin and said, "I'll go, I'll go!"

After speaking, Elaine trotted all the way and brought a basin of hot water into the bathroom.

Seeing Elaine's obedient appearance, Chloe knew in his heart that this newcomer was shocked by him again.

Chloe has been at Bedford Hills Correctional Institution for a long time, and she knows very well that here, the law of the weak is the most basic way of survival.

For a prison tyrant like Chloe, if he wants to secure his position, he must deal with every newcomer who comes in.

Be sure to defeat all her will on the first day the newcomer arrives, and make her an obedient dog.

Only in this way can we ensure that there will be no second small team in this cell.

The only way to ensure that the position of the boss is not threatened.

And every newcomer, if he wants to be alone in this cell, he must have strong fists and courage.

Just like Elaine, if she dares to fight against Chloe on the first day she comes in, under Chloe's provocation, she will fight against Chloe first, even if her head is beaten with blood, just grit her teeth and don't bow her head. , Chloe will never come to trouble her again, and will even change her strategy immediately, from high-intensity oppression at the beginning to win over and win over.

But if Elaine was trampled underfoot by Chloe on the first day, then as long as she is still in this prison in the future, she will never be able to turn over in front of Chloe.

Because, for a wicked person like Chloe, the more cowardly and submissive people are, the more they will be bullied and oppressed crazily by her.

At the moment, Elaine doesn't know that in Chloe's eyes, she has become a target of wanton abuse. She originally wanted to use her actions to please Chloe, but she didn't know that Chloe had more. Much torture awaits her.

Although Elaine has never washed others' feet in her life, she used to go to beauty salons to enjoy various treatments, among which foot massage is basically a must-have item, so she followed her example based on her previous memory. Soak Chloe's feet.

Seeing Elaine's obedient appearance, Chloe was in a good mood. While enjoying Elaine's service, he said with a smile: "After you finish it for me, remember to do it for my good sisters too, give it to me. Whatever you do, you can do it for them, and if you dare to slack off, you will sleep in the toilet tonight!"

As soon as Chloe finished speaking, seven or eight people came out of the crowd in a row. Elaine collapsed. If one person squeezed for half an hour and all seven or eight people came down, the afternoon would be over.

Not to mention how long it takes, I have to exhaust myself half to death.

So, she could only ask in a pleading tone: "Chloe... Can I do half of it today, and the other half tomorrow... I'm getting old, and I can't bear it..."

Chapter 4976

Chloe pulled his foot out of the warm water, kicked Elaine's chest, and said coldly: "Old woman, you have to figure out where you are here, what I said, you have to obey this choice, otherwise if you do, I have 10,000 ways to kill you, do you understand?!"

Elaine had already broken a rib. She was kicked like this. Although she didn't hit the broken rib, the associated pain still made her cry.

Elaine couldn't help but look at the other inmates, hoping that someone could speak justice for him, or plead for Chloe for him, but he didn't expect that the entire prison area, including the one who spoke to him just now, even The Chinese girl who helped her translate was also watching her own jokes, so she could only nod her head more swallowed, and cried, "I understand... I understand..."

Chloe hummed, looked at the time, and said, "There are just four hours left for dinner. In these four hours, you don't have to do anything, just give us a few massages!"

Elaine understands that he and this Chloe have no qualifications to negotiate conditions, nor any possibility of gaining sympathy. In order to avoid more torture, he can only obey her.

Not daring to disobey, he could only grit his teeth and nodded.

Even an experienced technician in a pedicure shop can't beat the clock for four hours at a stretch, let alone a novice like Elaine.

Within half an hour, she was so tired that her hands cramped and her back was sore.

But Chloe didn't give her any chance to breathe. On the contrary, she beat and kicked her repeatedly because Elaine became weaker, and the tears of Elaine's torment never stopped from the beginning.

Four hours later, Elaine was so tired that he was in severe pain, and his hands and arms were so painful that he couldn't even lift them up.

Just when she was halfway through pinching the last person, the prison guard came over and knocked on the fence door, and shouted coldly, "It's ready for dinner, everyone line up immediately!"

Everyone stood up and lined up, and Elaine finally stopped.

But because she squatted for too long, she couldn't even stand up now.

The iron fence door opened, and a female prison guard stepped forward to count the number of people. Seeing that Elaine was still squatting on the ground, she immediately stepped forward and scolded: "1024, line up immediately! If you don't enter the line within three seconds, don't eat at night!"

Elaine could only use all her strength, while crying, she gritted her teeth and insisted on standing up, walking into the queue with difficult steps.

Afterwards, the entire prison area, led by the prison guards, went to the restaurant to eat.

Elaine could only hang behind her from a distance because her legs were sore and numb.

On this road, every step she took was extremely difficult, but she could only persevere.

The female prison guard also deliberately slowed down at this time, came to Elaine, and whispered: "1024, is your family rich?"

Elaine was stunned for a while, not daring to speak for a while.

The female prison guard smiled and said, "Your lawyer has deposited \$10,000 in your prison account, and you can buy things in the store with your ID card."

Saying that, the prison guard lowered his voice and said, "By the way, let me introduce you. I'm Jessica Brownstone. If your family wants to sell cigarettes, remember to contact me. American spirit, one thousand dollars a piece."

"One thousand?!" Elaine asked subconsciously, "Didn't Chloe say four hundred dollars a piece?"

Jessica Brownstone smiled and said indifferently: "Four hundred dollars is yesterday's price, and today's price is one thousand. If you want to buy it, call your family and ask them to contact my sister. Otherwise, I can't guarantee what that Chloe will do to you at night!"

Chapter 4977

Elaine knew that this place was full of snakes and rats, and now was not the time to reason with this American prison guard, so he hurriedly asked her, "Can I call home now?"

"That's alright." Jessica Brownstone said lightly: "After dinner, it's air time, and then you can use your ID card to call your family."

Saying that, she slipped a note into Elaine's hand quietly, and whispered, "This is my sister's phone number. If you want to buy cigarettes, please contact her."

As soon as she heard that she could call her family, Elaine was so excited that she couldn't add more. When she was eating in the restaurant, her hands were shaking so much that she couldn't even pick up a spoon, so she could only reluctantly take a few mouthfuls, and hurriedly followed the big The troops went to the venue to let out the wind together.

The place where the wind is released is a playground in the middle of the prison, surrounded by high walls and buildings, about half the size of a football field. Almost a thousand prisoners are crowded here at this time. On the edge of the playground, there are prisoners. Dedicated small shop, and a row of card pay phones.

Elaine arrived at the first time

Elaine knew that this place was full of snakes and rats, and now was not the time to reason with this American prison guard, so he hurriedly asked her, "Can I call home now?"

"That's alright." Jessica Brownstone said lightly: "After dinner, it's air time, and then you can use your ID card to call your family."

Saying that, she slipped a note into Elaine's hand quietly, and whispered, "This is my sister's phone number. If you want to buy cigarettes, please contact her."

When she heard that she could call her family, Elaine was so excited that she couldn't add more.

She can't wait to call Charlie right now, crying and letting Charlie do everything possible to save herself.

However, if you want to call home, you have to wait until dinner time is over and everyone is out on the playground.

So Elaine could only follow the army to the restaurant.

In the restaurant, Elaine could only hold the dinner plate because his hands were too weak, and then reluctantly took the dinner plate to an unoccupied corner.

When she sat down, Chloe appeared out of nowhere and sat opposite her with a dinner plate.

And her party members, that is, the female prisoners who had just enjoyed Elaine's pedicure service, also swarmed over and surrounded Elaine.

Malan was a little panicked and quickly asked Chloe, "Are you okay?"

Chloe looked at Elaine, smiled, raised her eyebrows and asked, "I heard from Jessica, your family is rich, and you can charge \$10,000 at a time when you charge your card?"

Elaine can only say with promise: "I...my son-in-law is a more filial person...he...he must be afraid that I will be wronged here, so...that's why he asked the lawyer...to save some more money..."

Chloe nodded and said with a smile, "Since your family is so rich, the conditions I offer today may have to be adjusted a little."

Elaine asked nervously: "You...how do you want to adjust..."

Chloe smiled and said, "It's nothing. It's nothing more than changing one cigarette a day to two a day. This shouldn't be a big deal for your family's conditions, right?"

Elaine said with a pained face: "You...you said before that Jessica could buy cigarettes for four hundred dollars, but she just told me that one cost one thousand dollars..."

Chloe was not surprised at all and said with a smile: "\$1,000 is nothing to you, two items are only \$2,000, but if you spend the \$2,000, I can assure you that at Bader Ford Mountain Correctional Institution, no one will bully you again."

When Elaine heard this, he quickly asked, "Is what you said true?"

“Of course.” Chloe said with a smile: “As long as you can get your family to buy two cigarettes from Jessica a day, what happened to you today will never happen again, and my sisters and I will never be the same. Not only won’t bully you, but will cover you!”

Chapter 4978

Hearing this, Elaine was slightly relieved.

\$2,000 a day, converted into Huaxia coins, is indeed not a small sum, but she believes in her son-in-law’s ability to make money.

After all, charlie usually goes out to show others Feng Shui, and he can earn several million Huaxia coins casually, which is hundreds of thousands in US dollars, which is enough for himself to live a long, peaceful life in prison.

Thinking of this, she hurriedly said to Chloe, “Okay! As long as you can keep your promise, I’ll call my son-in-law after dinner!”

“Okay!” Chloe nodded with great satisfaction.

She has been in Bedford Hill Correctional Institution for so long, and she has never met such a financially capable inmate.

Originally, as long as she asked someone to buy a cigarette from Jessica, she would get fifty dollars in addition to a cigarette.

And just now, Jessica told her in private that if Elaine’s family could buy cigarettes from her at a price of one thousand dollars, she would get three hundred dollars in addition to the cigarettes.

Even though Bedford Hills Correctional Institution is a women’s prison, cigarettes and tampons are absolute hard currency here.

As long as you have these two things, you can get everything you want in prison.

As for the dollars she got from Jessica, Chloe had Jessica deposited into her jail account.

Although she doesn’t need to spend much money in prison, it is actually the safest way to store the money in the prison account, because when she is released from prison in the future, the account balance can be refunded and exchanged for cash.

In the past, Jessica could get two or three thousand dollars a month, but now that Elaine came, it was like a cash cow.

Two cigarettes a day not only guarantees that he can get all the things he needs in prison, but also makes a net profit of \$600, so that’s 12,000 a month.

Therefore, she decided to change her strategy for Elaine and try her best to squeeze more dollars from Elaine.

Afterwards, Elaine used her right hand, which was trembling even more than a Parkinson's patient, to reluctantly deal with a few mouthfuls of food, and then quickly followed the large army to the venue for the wind.

The place where the wind was released was a playground in the middle of the prison, surrounded by high walls and buildings, about half the size of a football field.

More than a thousand inmates in the entire Bedford Hills Correctional Institution were almost all crowded here at this time.

On the edge of the playground, there are also small shops for prisoners, as well as a row of public telephones with cards.

Elaine came to the public phone immediately and waited in line for a long time before finally lining up for a phone, inserting her ID card in prison, and she immediately called Charlie.

At such a time, she knew that it was useless to call her daughter, and the only one who could save her was her wonderful son-in-law.

At this moment, Charlie had just finished dinner at Fei's house.

Abbas's subordinates are still following the clues of Soleil and Stella, and in the prison, Wanlong Palace has already arranged three female warriors.

It's just that the three female fighters are not currently in the same cell as Elaine.

The phone suddenly prompted a local call from New York, and Charlie guessed almost instantly that it was his mother-in-law, Elaine, who was calling from prison, so he pressed the answer button, and asked in a confused manner: "Hello, Who is it please?"

On the other end of the phone, Elaine's sobbing voice came: "Good son-in-law...it's me, good son-in-law... Mom is so miserable in prison... You must save mom..."
