

## Charismatic Charlie Wade Chapter 5039-5044

### Chapter 5039

At this time, charlie was somewhat hesitant.

He did not doubt the commitment of these men.

It's just that he knows very well that once someone with a heart wants to track down the clues that happened here today and find them, there are absolutely 10,000 ways for the other party to let these ordinary people speak.

Not only let them speak, but also let them know everything and say everything.

For charlie, not only did the revenge of his parents remain unreported, but even the mysterious organization that was going to kill his grandfather and grandmother's entire family did not investigate any actual clues at the moment.

In this case, charlie couldn't reveal his identity prematurely.

Therefore, he said to these people: "Everyone, I will let you take you out first, and then I will finish the work at hand, and there are still some things I need to interview with you. After the discussion, I will give you back your freedom. ."

At this time, charlie's idea was to wait for all the dust to settle, use spiritual energy to erase the memories of these people today, and then let Abbas arrange people to send them back to where they came from.

As a result, no matter who came to them and wanted to investigate their entire experience in Mexico during this time, it would be impossible to ask anything about them from their mouths.

At this time, in the iron prison, the very old lady choked and begged charlie: "Mr. Wade... Could you please let me take my son out... ."

charlie thought her son was one of these people, so he nodded and said, "Don't worry, I will take everyone out."

The old lady cried and shook her head, then stretched out her trembling left hand from the gap between the iron railings, pointed to a person lying in the simple operating room opposite, and cried and said, "That is my son, who they cut some time ago. they took half of my son's liver, and today they took out one of my son's kidneys, I'm afraid he's dying..."

charlie's expression froze, and he immediately sensed it with his spiritual energy, and immediately found that the man lying on the hospital bed was dying at this time.

As the old lady said, after the man was mutilated by these demons, his body was already exhausted, and he was afraid that he might die of anger at any time.

So, charlie immediately looked at that Ah Liang and said coldly, "Hurry up and open the door!"

Ah Liang didn't dare to delay, and quickly opened the iron door with the key.

Later, charlie said to the old lady, "Go and see your son, he is dying."

As soon as the old lady heard this, she burst into tears, and her whole body was spinning, and she almost fainted.

Fortunately, several victims who were also detained here took action in time to support the old lady.

The old lady came back to her senses, ignoring her weakness, and hurriedly begged to the people around her, "Please help me to see my son..."

Several people quickly helped the old lady out of it and went straight to the operating room opposite.

At this time, the breath of the middle-aged man lying on the bed was extremely weak, and the old lady rushed to the operating table and cried and said, "Yaoer, Yaoer, wake up, Yaoer, look at your mother and tell her. Is it okay to say it? Mother, please, my youngest child..."

The middle-aged man has reached the end of his life, and his breathing has almost stopped, so how can he hear the old lady's call.

charlie felt that the old lady's body was about to die, so she stepped forward and said to the old lady, "Old lady, your body is also very weak, don't be too sad."

For Charlie, his Rejuvenation Pill and Sanxue Rescue Pill can basically save the old lady's son.

However, charlie is also very clear that these medicinal pills are without exception, and they are all invaluable. Even for the people around him, it is impossible for everyone to have one, so in this case, he naturally does not want to take one out to save him. a stranger.

In charlie's view, although this is a bit ruthless, it is also excusable.

After all, in this world, there are many suffering people and many dying people. It is impossible for me to save everyone. It is already a great merit to save other people, including this old lady. In this case, why bother? Compassionate.

The old lady burst into tears at this time, and she cried and said, "I was deceived by someone and said that I would come to Mexico to become a seafarer, saying that it was the bombardment of the New Year's ship that would make me happy. I persuaded him not to come, he said. I didn't listen to anything, I wanted to accompany him to come and have a look, and I could rest assured, but who would have thought that I was deceived here by these beasts..."

Saying that, she looked up at charlie and begged bitterly: "Mr. Wade, I beg you... I beg you to have my son carried out, you don't have to do anything, just help me Find an ambulance, if I can't get him back, I'll accept my fate..."

charlie sighed and said seriously: "Old lady, her condition is not only weak, he doesn't even have complete organs, he can't be saved, let alone in a backcountry like Mexico, even if he is placed in New York now, he will not be able to survive. Maybe someone can save him and heal him."

The old lady cried and said, "If I can't cure it, I will also cure it... Even if I can give him a kidney, as long as it can make him live for ten more days and midnight, I am willing!"

#### **Chapter 5040**

charlie shook his head and said seriously: "Old lady, your physical condition, let alone give your son a kidney, even if it is the dose of anesthesia required for general anesthesia, you can't bear it."

The old lady was stunned for a while, looked at charlie, and then at her son who was motionless on the hospital bed, she seemed to have accepted her fate.

So, she slumped to the ground and murmured in extreme pain: "I have four sons, the first three all died, and only my youngest survived. I have lived with him for so many years, if he died I can't live anymore..."

Saying that, the old lady looked up at charlie, and begged bitterly, "Mr. Wade, I also ask you to show mercy at that time, arrange a few strong laborers, and help our mothers dig a hole and bury it, it can be considered safe. now..."

charlie didn't expect that the old lady had only this son alive.

Seeing the grief-stricken appearance of the old lady, charlie could conclude that once her son was completely breathless, she would most likely die on the spot due to excessive grief and anger.

After pondering for a moment, charlie sighed and said to the old lady, "Old lady, you don't have to be so pessimistic, I have a medicinal pill here, which may save your son's life."

With that said, charlie took out a blood-scattering pill and handed it to the old lady.

Seeing that the old lady was suffering, charlie didn't want to save them from the fire pit, but in a blink of an eye, their mother and son died and were buried in a foreign land, so he decided to help.

Seeing charlie handing over a pill, the old lady couldn't help but ask him, "Mr. Wade...this...will this really save my youngest's life?"

charlie nodded and said, "The entrance can save your life, but you can take half of it for him and take the other half yourself. In this way, your son can come back to life and your body can improve a little. It's not very big, and if you go well in the future, it may not be a dream to live to 90."

Hearing this, the old lady couldn't think about it, she said to charlie gratefully, "Mr. Wade, thank you for your kindness!"

After speaking, without thinking, he stuffed the whole pill into his son's mouth.

At this time, the old lady didn't quite believe that the medicine would be useful, but she knew in her heart that this was her last life-saving straw, so she had to give it a try.

But what she never dreamed of was that as soon as the pill entered her son's mouth, it immediately turned into water and flowed into her abdomen.

Just when she was still a little stunned, her son suddenly opened his eyes. When he saw his mother in front of him, he couldn't help but ask, "Mother? I... Am I not dead yet?"

The old lady was instantly ecstatic, she hugged her son and cried, "You're not dead, you're still alive!"

The old lady's son sat up subconsciously, the whole movement was very smooth, and there was no sign of weakness.

After doing it, he asked with some doubts: "Didn't you say you want to have an operation on me and remove one of my kidneys? Didn't the operation happen?"

The old lady was first surprised and then delighted. She quickly pulled her son and blurted out, "Younger, hurry up and kowtow to Mr. Wade! If he hadn't rescued you, you'd be dead."

The old lady's son was still surprised, but when he looked down and saw the huge incision on his abdomen, he immediately realized that his kidney might have been cut off.

But when he saw that the old lady had already knelt down, he didn't think about it, and quickly knelt down with the old lady on the ground.

The old lady looked at charlie and said gratefully, "Mr. Wade, thank you for saving my youngest life..."

charlie shook his head helplessly, looked at the middle-aged man, and said seriously: "Pity the hearts of parents in the world, you must treat the old lady kindly in the future, and give her a good retirement."

The middle-aged man vaguely felt something, did not dare to hesitate, and said quickly: "Don't worry, I will!"

charlie nodded, just as Abbas took it and started to move the bodies of the members of Crazy Juarez down, so he said to Abbas: "Abbas, you bring all these victims up. , find a place for them to rest."

"Subordinates obey!" Abbas immediately took the order and said to several people, "A few, please come with me."

The old lady suddenly remembered something at this time, she stretched out her hand and tugged the sleeve of her right hand, took off a bracelet made of chicken blood vine, and handed it to charlie: "Mr. Wade, I have nothing to repay you, this one. According to my grandma, the bracelet has been passed down in our family for more than a thousand years, and it is the only valuable thing in our family, please don't dislike it!"

charlie smiled and said, "Old lady, since it is inherited from your family, you should keep it well."

A man next to the old lady who had just helped her over, said subconsciously at this time: "This...isn't this Scarlet Cane? Aunt , this Scarlet Cane bracelet is quite common in the southwest of our country. ,

you can buy one for ten yuan from a roadside stall, how can you spread such a thing in your family for more than a thousand years...”

The old lady said with a serious face: “This is not a chicken blood vine, this is a phoenix bone vine!”

Chapter 5041

“Phoenix bone vine?”

When charlie heard these three words, his brows suddenly wrinkled slightly.

In the records of the “Jiuxuantianjing”, there is indeed a medicinal material called “phoenix bone vine”, and the records of this medicinal material in the “Jiuxuantianjing” are extremely rare. The sought-after treasure.

The main reason why it is said to be a treasure of heaven and earth is that this kind of thing is not only extremely rare, but also very easy to die during the growth process.

The vast majority of phoenix vines, from germination to death, are only three or five years old, and very few can persist for more than ten years, and this kind of plant must grow for more than fifty years before its vines begin to lignify. This is what is called lignification in botany.

However, the process of phoenix bone vine woodification is extremely slow, and it takes at least a hundred years to completely woodize from the inside out.

The strange thing about this thing is that only the completely lignified phoenix vine has medicinal value.

But this thing is very rare, and most of them can't live to the age when they start to lignify. Even if they live to that age, they rarely can completely complete the lignification, so this thing is better than thousand-year-old ginseng, thousand-year-old ganoderma lucidum, or even ten-thousand-year-old clam. It is even rarer.

Finding a phoenix vine in the true sense is almost equivalent to finding someone who has lived for 120 years, or even 150 years old, and is not paralyzed, blind, or deaf in human society. elder.

Its rarity can be imagined.

Moreover, there is an even more miraculous aspect of this medicinal herb. If it does not have aura as a medium, the medicinal value of this thing is nothing compared to ordinary Chinese herbal medicines.

However, once it is catalyzed by Reiki, it can exert its truly powerful medicinal effects.

In layman's terms, this thing is like nuclear fuel. Only when its nucleus is bombarded with neutrons can its fission reaction be triggered.

Moreover, this thing is the core medicinal material of several higher-order medicinal herbs.

With charlie's current strength, what can be refined is one of the medicinal pills called Reshaping Pill.

Remodeling Dan, as its name suggests, is the best at remodeling.

Human limbs and organs do not have the ability to reshape and regenerate. Unlike geckos, a broken tail can be reborn.

Once a limb or organ is damaged, it will become disabled for life, or even lose the ability to move and take care of itself, or die on the spot. No matter how good modern technology is, it is impossible to save it.

In this case, using the Remodeling Pill, no matter what kind of defects the body has, the Remodeling Pill can make it grow and restore to its original state.

The amputee Yuhiko Ito, Tanaka Koji, and the broken arm Kairi can all return to normal if they have a remodeling pill.

As for Li Yalin, whose internal organs, except for the brain, were almost smashed into sieves and now frozen into popsicles by the Fei Family Freezing Center, as long as he has the Remodeling Pill, he will be able to come back to life.

Chapter 5042

With this phoenix vine, these people will be saved!

And charlie originally thought that this kind of phoenix vine, which only appeared in legends, might not be able to meet him for decades.

But he never imagined that when he came to Mexico at this time, he would meet himself in this underground operating room that did not see the light of day!

charlie was extremely excited, and at the same time carefully observed the bracelet that the old lady handed him. It looked dark brown, but at least one-third of the lines were as bright as blood, and the overall thickness was about the thickness of the pinky finger, which could be seen. , this should be a whole wooded vine, which has been simmered and heated, and then carefully bent to make jewelry.

And this thing seems to be somewhat different from the common chicken blood vine. The most important thing is this phoenix bone vine, which seems to have a finer texture, and there are almost no pores on the surface, and it is like fresh blood. The color is very bright, and the color matches the material. At first glance, it is the kind of texture that is difficult to artificially synthesize.

However, it was difficult for charlie to judge for a while whether this thing was the phoenix vine recorded in the "Jiu Xuan Tian Jing", so he subconsciously asked: "Old Lady, are you sure that the material of this bracelet is called phoenix Bone vine?"

"Sure!" The old lady said very firmly: "This bracelet is handed down from our ancestors. I heard from my grandma that our ancestors practiced medicine in the Tang Dynasty for more than 200 years. Later, during the Anshi Rebellion, the elderly, middle-aged, young and four children In this generation, only a six-year-old child died. Since then, the ancestor's medical skills have been completely lost, but the ancestor who survived inherited this bracelet from his grandfather. At that time, his grandfather told

him, This bracelet is made of phoenix bone vine, it is extremely precious, and he must pass it on, so this bracelet has been passed down to this day.”

When the young man next to him heard this, he couldn't help but muttered: “Old lady, I have a lot of research on plants, why have I never heard of such a thing as phoenix vine? Besides, your ancestors handed down such a plant. Wooden bracelet, where is it precious?”

The old lady shook her head and said blankly: “What is phoenix vine, I don't know, what it looks like in nature, I don't even know, and what exactly is this bracelet precious, to be honest, I am also at a loss. The bracelet was passed on to me, and I was only responsible for taking good care of it, but I don't know what's so special about this thing...”

Saying that, she looked at charlie a little ashamed, and said, “Mr. Wade, old lady, I didn't deliberately make up stories to deceive you, but you saved me, but I'm a poor old woman with nothing. Your great kindness and virtue really can't be repaid, so I gave you this only valuable thing as a thank you. This thing may not be precious, but it has indeed been passed down from our ancestors in the Tang Dynasty all the way to today, even if it has no real value, and it has some historical value, and I hope you don't dislike it...”

charlie nodded lightly, took the phoenix vine in his hand, and looked at it very seriously for a long time.

After a long while, charlie suddenly remembered the records in the “Jiu Xuan Tian Jing”, and judging the authenticity of the phoenix bone vine is actually very simple, as long as the aura is injected into it, you can feel the surging medicinal power of the phoenix bone vine stimulated by the spiritual energy.

So, charlie put a little spiritual energy into it.

charlie consciously controlled the entry of the aura, and only used a little bit to find out, but what he didn't expect was that this aura seemed to stir up a thousand waves, and there seemed to be a force inside the bracelet in his hand. Start surging!

charlie was shocked, and quickly took back all his spiritual energy, then looked at the old lady, and asked seriously, “Old man, do you really want to give me this bracelet?”

“Yes.” The old lady nodded again and again and said gratefully, “Mr. Wade, you saved my youngest. If you don't dislike this bracelet, I will give it to you!”

charlie was pleasantly surprised. This bracelet is invaluable to himself. Refining the Remodeling Pill can save many people. When refining other high-level pills in the future, it may be even more useful!

What is even more rare is that although the phoenix bone vine is extremely rare, it is really used for alchemy.

If you refine a batch of remodeling pills, I am afraid that even one-tenth of them will not be used!

Thinking of this, charlie said to the old lady: “Old Lady, this is your family's treasure, I am truly ashamed, so let's go back and leave me a contact information, and when I return to China, you will definitely come to visit! “

## Chapter 5043

In fact, Charlie wanted to give the old lady a rejuvenation pill directly.

It was not easy for the old lady to live in this life, and now she has been reduced to such a place, and her body and spirit have suffered a lot of damage.

In this case, if you give her a rejuvenation pill, and then give her a lot of cash, it will not only allow her to live a few more years, but also allow her and her son to spend the rest of their lives in peace, and they can think more for the rest of their lives. A little bit of happiness.

However, Charlie knew that he couldn't give her a rejuvenation pill directly under such circumstances.

After all, this elixir is really too precious, and if the soldiers of Wanlong Palace see it, they may feel unfair.

It is impossible for them to know how valuable this seemingly worthless bracelet is to them.

They will only feel that they worked hard and risked their lives to do things for themselves, but they gave a rescued old lady and her son two priceless elixirs, and this elixir, for them. For those in the martial arts, it is even more inexhaustible.

As a result, there will inevitably be gaps in their hearts.

As the saying goes, don't suffer from the few but suffer from the uneven, how can I let the soldiers of the more than 1 million Dragon Palace feel disappointed.

As for the Blood Rescue Pill that he gave to the old lady's son just now, Charlie believes that they should accept it to a certain extent. After all, the old lady is so old, and she has lost three sons one after another, and she is about to lose her first son. Four, help her at this time, and I don't want her to die.

Therefore, Charlie planned to not give Huichundan for the time being, and then come to visit after he returns to China. At that time, he will not only give the old lady a Huichundan, but also help the old lady solve all the problems in life.

As soon as the old lady heard Charlie said that she was going to visit her home country, she quickly said, "Mr. Wade, I should bring my youngest to visit you after returning home. How can I let you come to my house..."

Charlie smiled slightly and said seriously: "Old lady, you don't have to think about it so much, after today, I will let the soldiers of Wanlong Hall settle you two first, and when the time is right, I will personally escort the two of you back to China. ."

The old lady pursed her lips and hesitated for a moment, then said gratefully: "Then... then I will trouble you, Mr. Wade... Both of our passports were taken and burned by this group of people, and we have nothing to do with it. Well, you now let us go back to China by ourselves, and we can't go back either..."

charlie nodded: "Then you don't have to worry, I will arrange it."

After that, he said to Abbas: "Abbas, let someone bring them all up."

Abbas nodded immediately and arranged for a few people to be brought up.

At this time, the other soldiers of Wanlong Hall had already removed the bodies.

Among them was Hadik, an Indian doctor who was shot in Tianlinggai because of an attempt to escape.

Later, Abbas came to charlie and said respectfully, "Mr. Wade, the bodies have all been moved down."

charlie nodded and said lightly, "Put these corpses, including those alive, in the cell."

Abbas said subconsciously: "Mr. Wade, the cell area is limited, I'm afraid it won't fit..."

charlie said lightly: "It's okay, pile the bodies together, like stacking firewood, one by one."

After Abbas heard this, he immediately nodded and said, "Okay, Mr. Wade, this subordinate understands."

After that, he looked at his subordinates and ordered, "Do as Mr. Wade asked immediately."

"As ordered!"

Soleil, Xu Jianxi, and A Liang, the living people, were so frightened that they were crying loudly at the moment, especially Soleil, who was trembling with fright, and begged charlie: "Mr. Wade, please shoot me to death, beg Please..."

charlie said lightly: "You are a heinous beast, not worthy of dying in my hands."

#### **Chapter 5044**

At this time, a Wanlong Palace soldier walked to her side, grabbed her by the collar, and dragged her directly into the cell.

At this time, the corpses in the cell were about to pile up into mountains.

charlie said to Abbas, "Abbas, find me a lighter."

Abbas also had the habit of smoking cigars occasionally, so he took out a cigar lighter from his pocket and handed it to charlie.

charlie threw the lighter to Soleil, and said lightly: "You take this lighter, I will have someone lock the cell later, and then have someone pull out all the oil in the fuel tanks of the cars on the ground. , pour it in here, if any of you can't stand it, you can use this lighter to light the gasoline to free yourself. If you don't dare to light it, you can also choose to guard these corpses inside and wait for death. How to die is your choice. "

Soleil was so frightened that her whole body was paralyzed into a puddle of mud.

And Ah Liang, who was being taken into the cell, was so frightened that he burst into tears. He couldn't imagine how he would be burned to death by the fire, so he blurted out, "Mr. Wade, please let us fend for ourselves, don't give us a lighter. Ah...I'm afraid none of them can't control the fire..."

Ma Kui almost collapsed and said: "Do you still want to slowly boil to death if you don't fire it?! Do you know that these corpses will rot and stink tomorrow! Even if we are not killed by the smell, we will be fermented. The poisonous gas produced is poisoned! Do you want to die in a pool of blood like that?!"

When Ah Liang heard this, he was so frightened that he wet his pants, and he was even more frightened than before.

But fear returned to fear, he never dared to talk about telling Charlie not to fire lighters anyway, because after hearing Ma Kui's words, he suddenly felt that a fire to solve everything might be the best solution.

Soon, after all the corpses were piled into the cell, the survivors were also locked in.

At this time, they could only stand or collapse next to each other in a small open space, and behind them was a dense mountain of corpses.

Charlie stepped in front of a few people, looked at their despair and fear, and asked coldly, "Do you still remember those who were killed by you, what did they look like before they died?!"

Everyone quickly lowered their heads, not daring to look at Charlie.

And in their minds, the incomparably miserable appearance of all the people who were killed by them before they died unconsciously appeared.

Cause and effect cycle, retribution is unhappy.

This group of people exclusively seek benefits by mutilating others, and it can be said that they are extremely vicious and evil.

Many people's hands are contaminated, not just one human life, but many human lives.

It is already cheap for them to apologize to them with death.

If there is really reincarnation, then in the next few lifetimes, I am afraid that they will have to suffer all the hardships in the world before they can reckon with their sins.

Seeing that none of these people dared to speak, Charlie sneered and said to Abbas, "Abbas, let everyone withdraw."

"Okay!" Abbas nodded, ordered everyone else to withdraw from the underground operating room, and then walked out with Charlie.

After going out, the soldiers of the Wanlong Palace drove all the vehicles of the Crazy Juarez members into the yard, emptied the fuel tanks one by one, and let the gasoline pour in through the entrance of the underground operating room.

Soon, Soleil and the others, who were squeezed by the mountain of corpses, saw a trickle of oil and gasoline flowing down the stairs.

Soleil watched as the gasoline was getting closer and closer to her, she couldn't help but looked at the lighter in her hand, and asked Ma Kui with a blank expression and incomparable dejection: "Old Ma, when do we order... "

Ma Kui endured the pain and said: "Don't order it now, we have to wait for more gasoline, and try to get a big fire, and you will lose consciousness in an instant. If you are slowly burned to death, it must be very painful.. ..."

Ah Liang remembered something, and suddenly cried and said, "Uncle Ma... those guys who had their kidneys removed last time were... they were burned to death by gasoline... At that time... At that time I said that I would kill it and then bury it, the Mexicans insisted... They said that digging a hole was too tiring, so it would be better to burn it... So those Mexicans just...just..."

When Ah Liang said this, he couldn't help recalling the scene at that time. His emotions were already a little too frightening. He didn't dare to talk about the situation at that time, he just cried and said, "Uncle Ma... I'm really scared, Ma. uncle....."
