

## The Amazing Son In-Law Chapter 1141-1150

### Chapter 1141

At this moment.

Tomson Villa!

It was late at night, Marven and his wife were sleeping soundly in their bed.

At this time, Marven's cell phone suddenly buzzed twice.

Worried that the phone would disturb his wife's sleep, he quickly picked up the phone, and then found that he had received two WeChat messages.

At this time, it was 12 o'clock in the night. He didn't know who would send WeChat to him at this time, but he guessed that there must be something important at this time.

So he immediately unlocked the phone and found that the WeChat was sent by Mr. Orvel.

"Mr. Ye, something happened in Changbai Mountain. Liang and I are at your doorstep. I wonder if you have time to come out to see us?"

Marven frowned.

There was an accident in Changbai Mountain, which proved that the Wu family had another idea of taking away Wei family father and son.

So he got up lightly and went downstairs to the door of the villa.

Mr. Orvel and Liang were standing at the door and waiting respectfully.

Seeing how nervous their expressions were, Marven asked, "What happened?"

Mr. Orvel said, "More than half an hour ago, the Wu family sent people to Changbai Mountain. This time there were a lot of them, around 16 people."

Marven nodded and asked, "Then, just talk about the result."

Mr. Orvel respectfully said: "They intended to take the Wei family father and son. The two sides had a gunfight. Liang's and my men killed 15 of them, and one of them escaped."

Marven nodded and asked, "Are your people lost?"

Liang said, "Mr. Ye, I lost three of my people, and the Mr. Orvel lost one. That's four people in total."

Marven said with a hum, "It's okay, it's a victory overall."

Mr. Orvel nodded and said: "I think the Wu family will not let go of the two failures. They may soon have a full hands on Changbai Mountain. Liang and I have already begun to raise people. Recently, we have rush more to Changbai Mountain. But I am worried. This time the Wu family will send their queen master."

Marven frowned, "Queen master?"

"Yes!" Mr. Orvel said: "It is rumored that there are eight heavenly kings under the Wu family. These eight heavenly kings are all warriors, and they are extremely powerful!"

Having said that, Mr. Orvel said again: "Mr. Ye, our people can deal with ordinary people. But if we deal with masters of martial arts, it may be a man's arm blocking the car. A dozen subordinates do not matter, but I am afraid that we won't be able to resist it. What happens, in case they rescued the Wei family, I could not shirk the blame!"

Marven knows that big families have super masters in captivity.

In his own impression, the Ye family had many masters when they were young.

The strength of these masters is far beyond the cognition of ordinary people.

For the super family with trillions of assets, only the real top master can protect the safety.

So Marven asked him, "Mr. Orvel, what do you think?"

Mr. Orvel hurriedly said: "Mr. Ye, please forgive me. I have always felt that there is no need for Youngzheng and his son to continue to live in the world. Your enemies are now using them as bargaining chips and are trying their best to fight for it. Instead of doing this, it is better to use this for Killing the father and they will never cause trouble!"

## **Chapter 1142**

Marven smiled slightly and said: "If everything is solved by murder, then the Wu family would be dead long ago. Some people deserve to die and must be killed as soon as possible, such as the gang of beggars; but some people don't. It's boring."

After Marven finished speaking, he smiled, and then said, "Think about Ichiro in your kennel. Actually, he could have been killed long ago, but why I keep him? It's because I think this person must live, and there are more possibilities when he's alive. If he dies, many things will lose a lot of fun. The same goes for the Wu family and the same for the Wei family."

In Marven's heart, everything in the world complements each other, reinforces each other and restrains each other.

He kept Kobayashi's life so that he can live with his brother Jiro.

The purpose of keeping the lives of the Wei family father and son is to let them and Wei appear to live together.

If Ichiro is really dead, if he wants to check and balance Jiro, or even Kobayashi Pharmaceutical, he will lose a best bargaining chip.

If Liang's heart becomes rebellious in the future, then he can use the Wei family father and son to counter him.

This is the ancient art of the emperor.

The real emperor would never truly believe in a treacherous official, but he would never completely favor a loyal official.

However, it is bad to not have treacherous ministers because they are the key to counterbalance loyal ministers.

If he is a loyal minister without the checks and balances of a traitorous minister, then he will become increasingly arrogant and ignorant, and will gradually become a traitorous minister.

That's why Marven needed to check and balance between different people and different people.

After all, the Ye Family is a top-notch big family. The children of the Ye Family have learned the Four Books and Five Classics from a young age, familiarize themselves with ancient history, and study the techniques of emperors. These methods are almost brought out of their bones.

Therefore, Marven shook his voice and said: "Killing Youngzheng and his son means that I am afraid of the Wu family. This is a sign of weakness, and I never show weakness."

Having said that, he said lightly: "If I'm right, the Wu family has probably dispatched the Eight Heavenly Kings, and maybe they are already on their way to Changbai Mountain."

"Ah?!" Mr. Orvel and Liang were both dumbfounded.

Liang said in surprise: "They shouldn't be so fast. After all, they just lost 15 people. They should have to go back and rest for a while before making a comeback."

"No!" Marven said confidently: "If Regnar could mobilize martial artists, then he should have dispatched martial artists long ago. Therefore, I guess that the man who can really send martial artists should be the Old Master of the Wu family!"

"The old generation of entrepreneurs are still very powerful. Mr. Wu started from scratch, and his ability, courage, and valor must be much better than ordinary people. If he is in charge of everything behind his back, the means must be much higher than that of Regnar! He will definitely be among others. When you think it's least possible to launch an attack, he will launch a fatal blow."

After that, he smiled indifferently: "And when the most unlikely attack is just after the failure, everyone thinks he would definitely retreat to rest, but he wants to hit the opponent by surprise."

Mr. Orvel exclaimed and said, "Mr. Ye, what shall we do now? Shall we send someone over overnight?"

Marven waved his hand and said calmly: "If the opponent dispatches a martial artist, it's not enough to see how many we can send, it'll all be fodder."

Mr. Orvel was shocked: "Mr. Ye, what should we do?"

Marven said lightly: "You don't have to worry about this matter, I have my own arrangements, after all, flying from Suzhou all the way to Changbai Mountain, the distance is still quite far, there is still enough time to prepare!"

Hearing Marven's words, Liang's eyes flashed with joy, and a heavy rock in his heart fell to the ground.

Therefore, he said gratefully: "It seems that Mr. Ye is already confident! Liang is here, thank you Mr. Ye!"

Liang is the one who fears the Wei family father and son the most.

He didn't want the Wei's pharmaceuticals that he had finally gotten, and in a blink of an eye to drop it off his hands!

### **Chapter 1143**

Seeing that Liang was a little nervous, Marven smiled indifferently, turned off the topic and asked, "By the way, how are you doing at Wei's Pharmacy?"

Liang looked straight and reported: "Mr. Ye, the overall development of the pharmaceutical factory has been fairly stable recently, but it has encountered some obstacles in developing new markets."

"What's in the way?"

Marven wondered, according to the strength of Wei's Pharmaceutical, it should be said that there are few rivals in the domestic pharmaceutical industry.

However, for the development of new drugs, as long as a good prescription is found, there should be no problem.

But if the prescription is not good, the strength of the pharmaceutical company is meaningless.

Liang hurriedly replied: "Recently, Wei's Pharmaceuticals has invested heavily in developing a new Chinese patent medicine. The main effect is to drive away evil spirits and reduce dampness, cool the blood and relieve the core of the stomach, and treat stomach symptoms such as stomach pain, stomach acid, and retching. It has good curative effects."

Marven nodded and said, "Stomach disease is also a disease that modern people easily get. As far as I know, there should not be too many stomach medicines in China. Except that Sanjiuweitai is somewhat famous, I have never heard of it. Are there any other well-known Chinese patent medicines for the treatment of the stomach? In this case, you shouldn't be too hindered, right?"

Liang frowned and explained: "I developed this medicine because I saw that there are too many people in the city nowadays. Many young people who go to work have stomach problems at a young age, and

there is a large group of potential customers, so I brought the team to tackle problems. I found a suitable recipe from countless ancient recipes, but I didn't expect to be a step ahead by foreign companies, and they also optimized our original recipes."

Marven frowned: "Foreign companies? To plagiarize our ancient traditional medicine prescriptions? Don't those companies mainly focus on western medicine?"

Liang shook his head and said, "It's not a western medicine, but Kobayashi Pharmaceuticals obtained an ancient prescription from our country, and then developed a kind of stomach powder based on it. The efficacy of this stomach powder is indeed stronger than our stomach medicine, so now the stomach powder market has been taken over by Kobayashi Pharmaceutical, which is very unfavorable for us."

He paused for a moment, and then said with a little frustration: "Leave aside, Kobayashi Pharmaceuticals has developed our ancient traditional medicine prescriptions. The level of development of our ancient traditional medicine prescriptions is indeed very high. Since the era of Masao Kobayashi, they have been profiting from Kampo medicines all over the world. , Kobayashi Pharmaceutical's background is too deep."

"Kobayashi Pharmaceutical?" Marven couldn't help frowning when he heard this, and asked: "Kobayashi Pharmaceutical was so weak before, is it still so competitive now?"

Liang nodded, sighed, and said, "Kobayashi Pharmaceuticals is the top pharmaceutical company in Asia after all. As long as it doesn't hurt the bones, it has strong competitiveness, and they have the best hardware laboratory and R&D team in Asia. Therefore, they can optimize a stomach powder based on the ancient prescription."

Marven smiled slightly. He didn't expect that Jiro really had two brushes. The entire Kobayashi Pharmaceutical was pitted by himself for more than 10 billion, and he was about to turn over so soon.

At this time, Liang also sighed: "We didn't make good use of the essence left by our ancestors. We finally let foreigners plagiarize it. It's really a shame."

Marven asked: "How big is the impact of Kobayashi Pharmaceutical on you now?"

Liang said: "The gastric medicine alone will have a very big impact. In the long run, Kobayashi Pharmaceuticals is now actively developing new drugs. I estimate that in the future it will gradually eat away our development space. The income has already been greatly affected. Almost all the money invested in stomach medicine has been squandered, and we will continue to research and develop new medicines. If it succeeds, it will be fine. If it fails, it will take us further into the quagmire."

After talking, Liang said again: "During this time, the World College Sanda Fighting Competition is about to begin. It will be held in Wrestvel. This game is sponsored by Kobayashi Pharmaceutical, and the promotion is very big."

Marven asked curiously: "Will Jiro come?"

Liang said: "I don't know this yet, but it is said that the award-giving guest for this finals is a high-level Kobayashi Pharmaceutical official. It is still unclear who it is. It may be Jiro."

Marven nodded lightly.

#### **Chapter 1144**

In fact, there are countless kinds of magical ancient medical prescriptions recorded in the “Nine Profound Heaven Scriptures”. There are dozens of stomach medicines alone. Just picking one out can help Liang completely crush Kobayashi Pharmaceutical.

However, the pharmaceutical industry is a very profitable industry, so he certainly cannot help Liang in vain.

So he said to Liang: “Liang, I have a few good recipes in my hand. They can be produced and they are definitely best-selling magical medicines. If I use the recipes to buy shares, how many shares would you give me?”

Liang almost said without hesitation: “Mr. Ye, what Liang can have today. It depends on your achievements. The entire Wei Pharmaceutical is yours. You will give me a word I will accept it immediately!”

Liang was also very clear in his mind.

Without Marven, he could not inherit Wei’s Pharmaceuticals.

Without Marven, if the Wei family father and son came back, he would not be able to hold Wei’s Pharmaceutical.

Therefore, he was willing to completely adhere to Marven, even if he gave up Wei’s Pharmaceutical, he would never give the Wei family father and son a chance to stand up.

Marven nodded and said, “Well, if the prescription I gave you is more effective than Kobayashi’s stomach powder, then you give me 80% of the shares of Wei’s Pharmaceutical, and I will continue to improve it in the future. The prescription is for you to ensure that Wei’s Pharmaceuticals can grow into a company of hundreds of billions in the future. By that time, your personal assets will exceed 20 billion.”

The current assets of Wei’s Pharmaceuticals are about two to three billion, but they still have certain debts, coupled with the recent poor management, and the overall decline.

If Marven can really enable Wei’s Pharmaceuticals to grow into a large group of hundreds of billions in the future, even if Liang is given only 10%, he can double his assets.

So for him, he has no reason to refuse.

And he had heard about it a long time ago that Mr. Ye’s one-handed magic pill, if the prescription he took out, it would surely be able to sell!

Therefore, Liang agreed without hesitation, and said excitedly: “Thank you Mr. Ye! Liang has nothing to say!”

Marven is not trying to take advantage of Liang, but the top prescription is really priceless!

For example, the male magic drug Viagra, its parent company, made hundreds of billions in profits because of this drug.

Therefore, if you give it to him in vain, it is simply a mentally disabled person.

Win-win cooperation is the best solution.

So Marven said to Liang: "In this case, you should go back first. Tomorrow I will ask the lawyer to sign a contract with you, and I will give you the prescription at that time."

Orvel hurriedly asked, "Mr. Ye, what should I do about the Wu family?"

Marven smiled indifferently: "I have my own decision, so don't worry!"

### **Chapter 1145**

At this moment, there are two solutions in front of Marven.

First, he immediately went to Darren and asked Darren to send masters from the Ye's family to Changbai Mountain to intercept them. There are many masters from the Ye family, so dealing with the eight heavenly kings shouldn't be a problem;

Second, he immediately set off to Changbai Mountain, personally snipe the eight heavenly kings at the foot of Changbai Mountain.

After thinking for a few seconds, Marven decided that he should solve his own problems and go to Changbai Mountain personally to get the Eight Heavenly Kings settled.

Marven has been getting the "Nine Profound Heavenly Scriptures" for some days, and his constant enlightenment has enabled him to continuously improve.

At the same time, his body has been tempered with spiritual energy, which is even more different from ordinary people at this time.

Not to mention that he has refined so many Rejuvenation Pills himself, relying on the Rejuvenation Pills to raise his body to a higher level.

As far as Marven's current strength is concerned, let alone the Eight Heavenly Kings, even if it doubles, it will not be Marven's opponent.

However, he must go to Changbai Mountain as soon as possible.

Because the eight heavenly kings of the Wu family may have already set off.

Regnar is several hundred kilometers further south from Wrester, so this gave Marven some time window.

If he is not efficient, it is possible that the Eight Heavenly Kings will arrive at Changbai Mountain first.

So he immediately called Zak Chen and blurted out and asked, "Can you arrange a plane for me? I want to set off to Changbai Mountain immediately."

Zak Chen hurriedly said: "No problem, master, Wrestvel Airport has our business jet, and it is the world's fastest civil business jet specially customized by the Ye family, which is much faster than ordinary jets."

After speaking, Zak Chen said: "The Ye family has always believed in that timing is greater than anything else, so the Ye family's plane is faster than all the family's private jets!"

"Very good!" Marven said with satisfaction: "You can let the plane wait at the airport to get ready for take-off. At the same time, let your Shangri-La helicopter pick me up at Tomson. I will rush to the airport immediately."

"no problem!"

As Zak Chen said, he hurriedly asked: "Mr. Ye do you need help when going to Changbai Mountain? If you need it, I will call the family."

Marven said indifferently: "I don't need a helper anymore. You can do me a favor and prepare a helicopter to wait for me at Changbai Mountain Airport. After getting off the plane, I will use the fastest time to reach a village at the foot of Mountain."

"No problem!" Zak Chen said immediately: "I will make arrangements. If there is no helicopter in Changbai Mountain, I will immediately transfer from another place. You will definitely solve this problem before you arrive at Changbai Mountain, Master."

"it is good!"

Marven hung up the phone with satisfaction, and Mr. Orvel immediately said, "Mr. Ye, I am willing to go with you!"

Liang on the side also folded his hands and said, "Mr. Ye, Liang is also willing to walk with you."

Marven thought for a while, and said to the two of them: "Since you want to go, then follow me."

Both of them were stubborn and loyal to Marven. At this time, they were unwilling to let Marven go to Changbai Mountain alone.

Marven also knew very well that if the two of them wanted to be more devoted to him, they have to see his true strength.

Especially for Liang, Marven must make sure that this person has no two minds about him, so he can safely give him the peerless prescriptions in the "Nine Profound Heavenly Scriptures".

So this time to go to Changbai Mountain, he might as well let him follow the experience to see the true strength of his masters!

Soon, Zak Chen's helicopter flew to Tomson.

Marven and the three got on the helicopter and immediately went to Wrestvel Airport.

### **Chapter 1146**

At this time, at Wrestvel Airport, Ye's private plane deployed in Wrestvel was ready to take off at the end of the runway.

As long as Marven got on the plane, the plane could take off immediately.

And this plane can send Marven to Changbai Mountain in two hours.

In contrast, the private jet of the Wu family takes at least three hours.

Moreover, the Wu family does not have the Ye family's ability to simultaneously mobilize resources across the country or in the world.

As the Eight Great Heavenly Kings arrive at Changbai Mountain, there will be no helicopter waiting for them. At best, Wu's family will prepare off-road vehicles to take them to the foot of the mountain.

According to Mr. Orvel, from Changbai Mountain Airport to the small village where the Wei family lives, off-road vehicles need to drive at least two hours without snow.

If it snows and the road conditions are not good, it will take more than three hours to arrive.

But the helicopter is much faster, flying straight, forty minutes.

So Marven still has time, and he can definitely arrive before the Eight Heavenly Kings.

The helicopter stopped directly at the end of the airport runway, next to Ye's business jet.

As soon as Marven got off the helicopter, the door of the business jet opened.

What he didn't expect was that it was Zak Chen who opened the door!

Marven looked at him in surprise and asked, "Why are you here?"

Zak Chen hurriedly said: "Mr. Ye I really don't worry about you going alone. I'm afraid you don't want me to follow, so I can only do this. Please don't blame it."

Marven nodded gently: "You are already here, and I can't drive you down. Let's go and let the plane take off as soon as possible."

Mr. Orvel knew that Marven was Zak Chen's young master for a long time, so he was not surprised about it. However, he knew very little about the Ye Family, so every time he met Marven, he respected Marven as Mr. Marven instead of Mr. Ye.

Of course, this is also related to Marven's unwillingness to reveal his identity. If you call him Mr. Ye, some people may be able to connect him with the Ye family.

However, Liang on the side was stunned by this young master.

Zak Chen is a smart man. He knew that the young master brought Liang with him, and he knew that Liang was already his confidant.

Moreover, since the young master is going to take him to Changbai Mountain, he must be ready to show his skills in front of him, so there is no need to deliberately conceal his identity.

Liang was shocked at this time, he knew who Zak Chen was, so with Zak Chen's young master, he immediately guessed the identity of Marven.

At this moment, he was shocked.

He never dreamed of Mr. Ye, not only a master with the ability to reach the sky, but also the eldest master of the Ye family, the top family of Orgeyon!

The superior strength is already admirable, and he didn't expect the family background to be even more prominent!

No wonder everyone says Mr. Ye is a real dragon on earth!

With such ability and background, of course it can be called the four characters of the real dragon on earth!

Thinking of this, he immediately knelt on one knee and said respectfully to Marven: "Mr. Ye, you are the very noble young master of the Ye family, but you are willing to fight the injustice for me, for my dead mother, and win the family property for me. I am unforgettable!"

Marven said calmly: "Liang, if you are grateful and want to follow me with all your heart, I will definitely give you a splendid wealth!"

After all, he looked at Mr. Orvel and smiled and said, "Mr. Orvel, you are the same."

Orvel immediately knelt to the ground and said respectfully: "Mr. Ye as early as the moment you rescued me from Wu's bodyguard, my life is yours!"

#### **Chapter 1147**

The Ye Family's business jet drew up in the dark, galloping in the direction of Changbai Mountain at a very fast speed!

The speed of this airplane is indeed much faster than that of ordinary airplanes. Even Marven couldn't sigh. No wonder Ye Family can stand on top of China's top family. You can tell from the details of the airplane alone.

In important cities across the country, arrange such airplanes to ensure that the family can arrive one step ahead of others in case of emergency. As long as they seize the opportunity first, they have the possibility of winning.

Zak Chen told Marven: "The young master actually still has a faster plane in the Ye family, but there is one and only one of this plane, which was stored by Master Ye at Orgeyon Airport."

"Oh?" Marven asked curiously, "Is there a faster plane?"

"Yes!" Zak Chen nodded and said, "I don't know if you have heard of the Concorde? Years ago, the French developed a supersonic passenger plane that can fly at twice the speed of sound and cruise at an hourly speed. 2150 kilometers."

Marven said in surprise: "I have heard of Concord Technology, but isn't this aircraft already retired?"

Zak Chen said: "Retirement is just withdrawing from the public's vision. That's because this aircraft is flying too fast, the flying cost is too high, and the noise of breaking through the sound barrier during flight is too loud, and ordinary people can't afford it. However, after retiring, four of the best in condition were bought by the world's top big families. After they were bought, these aircraft have always received the best maintenance."

Marven couldn't help but marvel.

Unexpectedly, his grandfather still has such a big hand, and bought a Concorde airliner.

But this also shows the extraordinary courage of the older generation of entrepreneurs.

Regardless of the fact that a Concorde airliner may be extremely expensive, but with it, the father can be two or three times faster than others at the most critical moment.

An ordinary business jet can fly at a maximum speed of eight or nine hundred kilometers per hour, but the Concorde can reach 2.5 times that!

If there is a \$1 billion order, waiting to be signed in the United States, and whoever can get the order soonest, then the Ye family must be the only one to get the order.

Someone else's plane takes eleven or twelve hours to fly, while this plane only takes about five hours. In other words, he has already signed the contract before others arrive.

Two hours later, Marven's plane had landed at Changbaishan Airport.

At this time, on the side of the runway, a helicopter was already waiting here.

After Marven got off the plane, he asked Zak Chen, "Help me ask the airport staff if Wu's private plane has landed here."

Zak Chen hurriedly made a call with his mobile phone. After a while, he admired Marven and said, "Mr. Ye you are so knowledgeable. The airport tower has just received an application for an exclusive private jet. They will land in an hour, here."

Marven nodded in satisfaction: "One hour's time advantage is enough. Let's go to the foot of Changbai Mountain to see the scenery!"

Then he stepped into the helicopter that had been waiting for a long time.

Zak Chen, Mr. Orvel and Liang also boarded the plane.

The helicopter immediately climbed and flew towards the foot of Changbai Mountain.

The time at this moment was more than four o'clock in the morning, and because it was winter, there was no trace of the sky to light up at this time.

However, a round of beautiful moon in the sky still clearly outlines the outline of the earth.

The helicopter flew out of the airport and passed over the city. Right in front of it was the majestic Changbai Mountain.

The outline of Changbai Mountain under the moonlight is particularly clear. Because the whole mountain range is white, it looks very beautiful under the moonlight.

Forty minutes later, the helicopter landed one kilometer outside the village.

### **Chapter 1148**

Mr. Orvel had been to Changbai Mountain once before, so he was somewhat familiar with the terrain here. He pointed to a snow-covered mountain road next to the plane and said to Marven: "Mr. Ye this is the only road into the mountain. If the Eight Heavenly Kings at home don't take a helicopter, they have only one way to come."

Marven nodded and said, "If that's the case, then we'll stay here and wait."

Mr. Orvel hurriedly said, "Mr. Ye do you want to call all of our men here to help?"

Marven faintly spit out two words: "No need."

Zak Chen was somewhat worried about the safety of the young master, and couldn't help but said: "I also understand the eight heavenly kings of the Wu family. They are indeed strong. You may not be their opponent. To be cautious, let's call some people over to help!"

Marven waved his hand and said coldly: "To deal with today's matter, only the four of us are present, and only the four of us know about it. If anyone other than us knows, they will be punishable!"

The other three people looked horrified.

They could hear the powerful pressure and the strong domineering from Marven's words.

It seems that Marven wants to keep all the eight heavenly kings here today!

The Eight Heavenly Kings at this time just landed at Changbai Mountain Airport.

After the plane landed, the eight people walked out of the plane and then left the airport directly through the normal passenger passage.

They were not like Marven. Marven didn't go through the passenger passage at all, but took a helicopter off the runway.

The main reason why they did not receive such treatment was that the Wu family had no influence here at all.

The Wu family is a Wrestvel family. Although it is the so-called first family in Wrestvel, it is far behind the real top family.

Their strength is mainly covered in the Wrestvel area, and they have begun to decline after crossing the north of the Yangtze River.

And the strength gets weaker as it goes to the north, not to mention the Changbai Mountain which is so close to the north.

However, although top families like the Ye family are Orgeyon's family, their national development strategy, just like the United States' global development strategy, must be two words: comprehensive dominance.

The United States is the global hegemony, and the Ye family is the national hegemony.

For Ye Family, it has the home field anywhere in the country.

If Ye's family thought, they could kill the Wu family anytime in Suzhou, in the Wu family base camp.

This is the embodiment of the strength of a top family!

At this time, the Eight Heavenly Kings headed by Linyuan, after leaving the airport, saw two off-road vehicles parked at the airport gate.

These two off-road vehicles were the drivers temporarily arranged by the Wu family.

The Wu family has no influence here. The 16 people sent yesterday rented 5 off-road vehicles here before they went to rescue the Wei family and his son.

This time, the Wu family rented two off-road vehicles at a high price online and let the Eight Heavenly Kings drive there in person.

After the Eight Heavenly Kings got off the plane, they took two off-road vehicles and headed towards the mountains.

On the road, Linyuan, the head of the Eight Heavenly Kings, was sitting in the co-driver. He picked up the walkie-talkie and said coldly: "Brothers, we have to drive more than two hours. Anyone who dares to stand in front of us will be killed without mercy!"

### **Chapter 1149**

On a mountain road that stretches for tens of kilometers, two off-road vehicles drove one after the other.

These two vehicles are also the only two vehicles on these dozens of kilometers of mountain roads.

Driving in the snow is not easy, because when you look around, the lights can hit all the places in white.

Linyuan was dazzled by the white snowfield outside, and said with some annoyance: "That kid Charrie is really a beast. Since the father and son offended him, he just sent them to this bird place. What are they doing in a ghost place that doesn't sh!t? It's really unlucky for us to come here now."

The man driving the car said helplessly: "I asked before I came, this Marven kid is a devil. He not only likes sending people here to dig ginseng, but also likes sending people to black coal pits to dig for coal, I heard that he had previously brought the boss of a listed company to a construction site to carry cement."

"What's this?" Linyuan said lightly: "Have you forgotten how the Beggars died? A dozen people were welded to death in the car and sank to the bottom of the river. The bodies have not been salvaged until now, knowing that they are waiting for them. What is fate?"

The driver smiled and said, "Everyone is dead, what fate is there?"

Linyuan said: "There are fish, shrimps and crabs in the river. A car-welded iron cage is sunken at the bottom of the river. There are more than a dozen dead bodies inside. Sooner or later, these people will be eaten into bones by those fish, shrimps and crabs. Small fish eat skin, have you all done small fish massage at fish spas? That kind of fish, even the dander will be eaten completely, and it won't take long for them to leave even a trace of meat on their bones. "

A man in the back row blurted out, "No wonder the family wanted to kill him, this kid is so evil!"

Linyuan said indifferently: "We can't take it lightly. Today's battle must be retired."

The driver asked, "Brother, do you think there will be masters on Changbai Mountain?"

"Probably not." Linyuan said: "The people Ragnar sent here just a few hours ago. According to the only one who survived, the other party did not have close contact with them, it was all gunfights. So I guess the other party should have no master, just bodyguards with guns."

"That's good." The driver said with a smile: "We are brothers. We have practiced golden bells and iron jerseys when we were young. I dare not say that we are top masters, but it is definitely not something that ordinary bullets can hurt. It seems tonight It's just a battle of butchering dogs. You can win easily and return to Suzhou triumphantly."

Another man said: "It would be fine if Marven was here too, we can definitely kill him and go back to receive the reward from Mr. Wu!"

Linyuan smiled and said, "That Marven shouldn't be here. The Wu family investigated before. Before we set off, the others were still in Wrester." "

Having said that, Linyuan said with emotion: "It would be great if he was there, holding his head back and returning to Mr. Wu. Mr. Roger said he would give us several hundred million."

The driver said at this time: "By the way, brother, since this Marven is so evil, does the strange disease that the second son of the Wu family developed some time ago has something to do with him?"

Linyuan shook his head: "This is really bad, but it's not impossible."

As he said, he said with emotion: "The strange disease of the second son is really unheard of. It has not been cured for so long, and there has been no relief. It is really weird."

At this moment, Marven on the hillside stood in the snow with his hands full and negative.

Behind him, Zak Chen, Orvel and Liang were already shaking in the snow, their faces pale and purple.

While rubbing his hands, Zak Chen cursed his mother: "The eight heavenly kings of this dog day are too slow to come! I think it will be bright in an hour!"

Orvel looked at Marven and asked with concern: "Mr. Ye are you not wearing so little clothes?"

Marven shook his head slightly, now he has no fear of severe cold.

Don't say standing here for an hour or two, even if you let him stand here for a day or two, or for a month, he will never get frostbite.

### **Chapter 1150**

Liang also sucked his nose from the cold. When the four of them first arrived here, Marven was worried about exposing the target, so he let the helicopter go first. Otherwise, he could sit in the helicopter for a while, at least to block the cold of Changbai Mountain wind.

After waiting for another ten minutes, Marven suddenly saw four beams of light from two cars on the winding mountain road.

Zak Chen also saw the light and said nervously, "Mr. Ye they should be here!"

Marven nodded and said with a smile: "After waiting for them for so long, I almost fell asleep."

Orvel hurriedly took out a pistol from his waist, gritted his teeth and said, "d\*mn, I want to see how awesome these eight heavenly kings are today!"

Marven said lightly: "Mr. Orvel, put the gun away, the gun is useless to them."

Mr. Orvel was taken aback, but after a while he figured it out again.

He had seen some skills in the metaphysical world before, including Marven, who was able to directly order Tianlei. If a warrior with a deep cultivation base can block bullets, it is not surprising.

Zak Chen asked at this time: "Mr. Ye what will we do later? If there is anything we can help, please let us know."

Marven smiled slightly and said, "You don't need to help anything, just follow behind me and watch."

Orvel said hurriedly: "Mr. Ye you can just draw a few sky thunders and cut these eight heavenly kings directly into ashes, just like that fake Feng Shui master in Wrestrvel."

Marven smiled and said: "I'm tired of always using thunder to strike people. Since today is an encounter with martial artists, let's just use force to discuss it."

Zak Chen had never seen the scene where Marven struck Wrestrvel with thunder, but he had heard of it and heard a little.

But he has always felt that it should be a coincidence, because he has never seen anyone who can order Tianlei in his memory.

Although the Ye family knew a lot of people in metaphysics, they had never heard of anyone who had the ability to reach the sky.

At this moment, seeing the two cars continuously hovering up the winding mountain road and getting closer and closer, Marven took the initiative to walk to the center of the mountain road and walked down the mountain.

The remaining three looked at each other and hurriedly followed.

Linyuan was already drowsy while sitting in the car, but the brother who was driving took a look at the navigation and said to him, "Brother, we are almost there."

Linyuan hurriedly asked, "How far is it?"

The other party said: "The navigation display is less than 5 kilometers away."

Linyuan stretched out and said cursingly: "It's finally here. Let everyone cheer up. No matter how weak the enemy is, we can't take it lightly."

One of his juniors immediately took out the walkie-talkie and said: "Everyone cheer up, we are almost there!"

The person in the car behind replied via the walkie-talkie: "Yes, we have already started warming up."

The vehicle continued to drive, and at the moment when it turned a curve, the driver suddenly saw the light hitting directly ahead, and there was a person standing in the middle of the road!

The driver beside Linyuan exclaimed: "f\*ck, is that a human or a ghost?!"
