

## The Amazing Son In-Law Chapter 1171-1180

### Chapter 1171

Horiyah was extremely embarrassed when she heard Noah's insults, she was angry but she didn't dare to speak out.

She still hopes to have a family and everything will be happy, so she wants to take a step back and hope that Noah can accept her as soon as possible.

Noah hated Horiyah.

But he hates Horiyah, not abalone.

So while eating abalone, he said coldly: "A woman like you who is not obedient to men will stay in this house in the future, and she must be a good servant!"

Horiyah had no choice but to eat her own noodles without talking.

In fact, Horiyah at this time didn't know that her husband had already been infected with a venereal disease. If she knew, she would definitely not make such an abalone dinner for her husband.

She knew that Noah likes abalone the most, so she made such an abalone banquet to please him, but she was scolded bloody by him.

Noah turned his grief and anger into appetite and ate a dozen large abalones by himself.

Because he was upset, he even finished a small bottle of wine and drank it.

The previous owner of this house left a lot of good wine in the cellar in the basement downstairs.

There are red wine, white wine, and champagne.

When the Wu family bought a house, they wanted a package price, so they left all these wines.

Noah took out a bottle of Moutai from the wine cellar and pulled Jay. The two of them drank more than a kilogram in total.

After eating and drinking, Noah returned to his bedroom, planning to take a nap.

However, when he lay down, he suddenly felt that something was wrong.

What's wrong?

His place is really itchy.

Seafood is a hair item, and liquor is also a very powerful hair item.

Together, these two things are a perfect match.

Noah was itchy at first, but he couldn't stop it.

He grabbed desperately, and even the grabbing was a bit broken and bleeding, but still nothing got better.

The bone-erupting itching had already made him unbearable. He hurriedly turned over from the bed and went to see Mrs. Xiao in a hurry.

When he saw Mrs. Xiao, he was a little impatient and said, "Mom, give me some money. I have to go to the hospital now."

Old Mrs. Xiao frowned and asked, "What's wrong with you? Why are you going to the hospital? Don't you know it costs money to go to the hospital?"

After experiencing all kinds of disasters before, the current Old Mrs. Xiao regards money more than anything else.

Noah said with an expression of pain, "...I feel very uncomfortable, so I have to go to the hospital to have a look."

The Old Mrs. Xiao asked him: "How do you go back to tell me in advance?"

Noah said in embarrassment, "Well, it's not easy to speak up, mom, just give me some money and let me go to the hospital for a look!"

Old Mrs. Xiao exclaimed, "Could you be sick from that aspect?"

Noah didn't expect that his mother would be able to guess it all at once, and said embarrassedly: "I can't be sure now, so I want to go to the hospital."

The Old Mrs. Xiao looked terrified, and blurted out: "Did you and Horiyah that s!t a few days ago?"

"This..." Noah hesitated for a moment, and then gently nodded: "When I was in Wu's house, that happened between me and her that day..."

## **Chapter 1172**

Noah's voice became smaller and smaller, but the Lady Xiao still understood.

Upon hearing this, the Lady Xiao said nervously: "Oh! That Horiyah was in the black coal kiln. Who knows what wild man she was with. I think she is not only pregnant with someone else's wild species, but also came back with all kinds of diseases! come! I'll accompany you to the hospital for a thorough investigation!"

When Noah heard this, he also guessed that he was probably infected by Horiyah from the disease, and he became even more annoyed.

But the irritation turned to more irritation. Now for him, the top priority is to go to the hospital to check if he's sick.

So he hurriedly said: "Oh, Mom, how embarrassed to let you accompany me with this kind of thing, and I can do it myself if you give me the money."

Old Mrs. Xiao said earnestly: "No, if I don't go, I will always feel uneasy, don't say anything, I will go with you, and go now!"

After that, the Lady Xiao got up immediately, ready to go out.

Noah had no choice but to nod his head and left home with his mother helplessly. "

.....

Just when Noah and Mrs. Xiao went to the hospital.

The Wu family's only remaining subordinate in Changbai Mountain finally found an opportunity and got into the morgue of the local hospital.

He spent a lot of money to bribe the gatekeeper of the morgue, and the other party made an exception to let him in.

He called on the eight people who died in the avalanche of Changbai Mountain, and said to him: "You can see it, but you must be psychologically prepared. The death of these eight people is very miserable!"

The Wu family's men nodded, and opened the eight freezers for corpses one by one.

When the body bag was opened, the Wu family's subordinate was shocked and stunned!

Although the death of the Eight Great Heavenly Kings was indeed miserable, he could still recognize that these eight corpses were the Eight Great Heavenly Kings.

So he took out his mobile phone, took a photo of the eighth heavenly king's body, and sent it to Regnar.

At this time, Regnar was waiting for news in Suzhou.

Although the Wu family has determined and affirmed the fact that the Eight Heavenly Kings have been killed in their hearts, everyone still has the last gleam of hope.

But when these photos were posted, all the hopes of the Wu family collapsed completely.

The eight heavenly kings are really dead.

And died of an avalanche.

This is too unacceptable.

Sending out eight top masters over there, before seeing the enemy die in an avalanche first, isn't this f\*cking bullshit?

Elder Wu also suffered a blow.

The Eight Heavenly Kings have followed him for so many years and started this business with him. Deep down in his heart, he has a deep feeling for the Eight Heavenly Kings.

Now that the Eight Great Heavenly Kings were all killed overnight, he would really not accept this kind of result for a while.

After seeing the photos, Roger was shocked and felt that something was wrong.

He opened his mouth and said: "Dad, grandpa, why do I feel that the eight great heavenly kings have so many injuries that look wrong? If they were in a car and had an avalanche, then they would most likely be caught in the car with snow. , The injuries on their bodies should also be mostly crush injuries, but how I look at them now, they all seem to have been injured!"

As he said, he zoomed in on the photo of Linyuan's right arm and said: "Look at Linyuan's right arm as a whole bloody, it doesn't look like it's being crushed!"

"There is also Iron Fist. His right arm was almost the same as Linyuan's right arm at the time. But other people's right arm did not suffer such injuries. If everyone had suffered an avalanche in the car, everyone would suffer. Injuries, the types should be similar, there shouldn't be such a big gap."

Elder Wu, as well as all the Wu family members, showed extreme horror at this moment!

Elder Wu tremblingly asked, "Roger, you mean, the Eight Great Heavenly Kings were killed?"

### **Chapter 1173**

The Wu family did not want to believe that the Eight Heavenly Kings were beaten to death.

Because if this is true, it proves that they have a very powerful enemy in the dark.

But they have no idea who this enemy is.

The Wu family didn't believe Marven, and the people around him had this kind of strength.

Regnar even speculated that whether the Eight Great Heavenly Kings went to Changbai Mountain this time and accidentally provoke the local master of seclusion in Changbai Mountain.

Elder Wu also thinks this thing is very possible.

He is now deeply distressed. The Eight Heavenly Kings are not only his old friends, but also a major reliance on the prosperity of the Wu family. Now that this reliance is gone, it is likely to cause an earthquake in the family.

As expected, Mr. Wu did not expect it.

The Wu family dispatched the Eight Heavenly Kings to Changbai Mountain, and all the halberd breaking events spread throughout the region within a short period of time.

But all powerful family owners watched the fire from the other side, watching the jokes of the Wu family.

The rise of the Wu family depends on two things.

The first is that when Mr. Wu was young, he was courageous and strategic, stirring up the Wrestvel sea of commerce, and pushing the Wu family step by step to where it is today.

The second is the eight heavenly kings!

The Eight Heavenly Kings are the right arm of Mr. Wu, as well as the Wu family's strategic weapon to deter foreign enemies. Anyone who pulls out is the mighty power of the Megatron.

Relying on the eight heavenly kings, the Wu family established a reputation in Wrestvel, and no one dared to make bad ideas.

Otherwise, with the financial resources of the Wu family, the interested people have long been jealous, and they want to rush to tear the Wu family to pieces.

Today, all the eight heavenly kings have died in Changbai Mountain, and all the families in the south of the Yangtze River are all thinking together.

In the current Wu family, Mr. Wu is bedridden, and the eight heavenly kings died in battle. Who doesn't want to get a share?

For a time, the situation in the south of the Yangtze River changed, and the forces in Suzhou were turbulent, which pushed the Wu family into the forefront.

.....

On the other side, Noah and Mrs. Xiao also came to Wrestvel People's Hospital.

After arriving at the hospital, he hung up in andrology department.

What embarrassed him was that he was already in his forties and fifties, and it was embarrassing to see andrologist with his mother.

However, Mrs. Xiao is so overbearing. If others don't let them ask about the things she wants to do, then she will definitely fight with them to the end.

The mother and the son waited at the entrance of the clinic. Noah desperately endured the extreme itching. After waiting for more than 20 minutes, he finally yelled Noah's name.

So, Noah stood up and said to Mrs. Xiao: "Mom, wait for me at the door, and I will go in by myself."

Old Mrs. Xiao said immediately: "No, I want to go in too!"

Noah looked very embarrassed: "How can he take mom to the doctor to see this kind of thing..."

Old Mrs. Xiao gritted her teeth and said: "What? Do you want to hide this from me?"

#### **Chapter 1174**

Noah said hurriedly: "I definitely can't hide from you, mom. It's just that after a while, the doctor will check on me. It would be too embarrassing to be in front of you. Don't worry, I will definitely know the results of the check. I'll give you the details?"

The Old Mrs. Xiao nodded, and said: "All inspections and results must be shown to me, dare to hide that I will never forgive you!"

Noah stepped into the consulting room while getting up and struggling to endure the itching.

In the consulting room, a doctor older than him was sitting in front of the computer when he saw him coming in, and he asked, "Why is it uncomfortable?"

Noah hurriedly said, "Doctor, I constantly feel itchy in my place, and I don't know what's going on, so I want you to see it."

The doctor had seen more similar cases, so he nodded and said, "Take off your pants."

Although Noah was a little embarrassed, he still took off his pants obediently.

The doctor just glanced at it and exclaimed: "You seem to be in a serious situation. Didn't you go to that kind of place?"

Don't mention how embarrassing Noah is. Wherever he has been to a romantic place, he is nothing more than the sound of the waves with his wife.

But he changed his mind to think about what the doctor meant, doesn't it mean that his wife Horiyah is similar to the woman in Special Place?

But he can only say to the doctor: "Doctor, I haven't been to any Special Place."

The doctor didn't believe what he said at all, because every man who came to see a doctor with an STD would not admit that he went to the Special Place.

So he said lightly: "They are all men, and I can understand many things. It is not uncommon for your age to go to Special Places occasionally, but I still have to give you some suggestions."

Noah hurriedly said, "Doctor, please tell me!"

The doctor said lightly: "First of all, you must protect yourself when you go to that kind of place. Don't be refreshed for a while. Don't do anything without protection. Sometimes condoms are not only to protect women, but to protect men."

Noah nodded and said, "I see, thank you doctor, do you have any more?"

The doctor said again: "In addition, it is recommended to try to go to larger, more formal, and high-end places. Although many roadside warblers are very cheap, their bodies carry many venereal diseases and germs. Maybe there are AIDS. Say you are so old, in order to save so much money, why bother to toss yourself like this?"

Noah's face is green...

Doesn't this mean that in the eyes of the doctor, Horiyah is as dirty as that roadside warbler?

At this time, the doctor gave him a meaningful look and said, "You see, in order to save a little money, you are now suffering from a whole body disease. I think you need at least tens of thousands for treatment. Isn't this not worth the loss?"

Noah asked in horror: "Doctor, what's wrong with me? What is this?"

The doctor said: "In my experience, first of all gonorrhoea and syphilis are indispensable, because your body's erythema is very special. I have been in the doctor field for so many years and I can't read it wrong."

Hearing these two diseases, Noah only felt that the sky was spinning, and he almost fainted.

d\*mn, he never dreamed that Horiyah would have so many diseases!

At this time, the doctor said: "I think there should be serious inflammation in your area. If you don't treat it in time, it is very likely that your prostate and your reproductive system will be endangered. So I will prescribe some tests for you as soon as possible. Do it and wait for the results. We will be conducting targeted treatment based on your actual situation!"

As he said, the doctor sighed and said, "The most worrying thing is actually AIDS. Because AIDS has been latent for a long time now, it cannot be distinguished from the naked eye. If there is AIDS, it can't be cured. It's a lifetime thing."

Noah was about to collapse at this time!

Ever since Horiyah came back, he has only heard the waves with her once, but he did not expect to infect himself with so many diseases once.

Had it not been for Ragnar to support her, she would have to be killed himself when he went back!

## **Chapter 1175**

When Noah came out of the ward with a bunch of test application forms, the Lady Xiao hurried forward and asked: "What did the doctor say? How is the situation? Is there anything serious?"

Noah didn't want to talk to the Lady Xiao at first, but when he thought that the Lady Xiao would have to look at various inspection reports when he looked back, he couldn't hide it, so he cried and said, "The doctor told me that it is very likely to have gonorrhoea and syphilis. , There are some inflammations, and the possibility of AIDS is not even ruled out..."

When Mrs. Xiao heard this, she looked terrified, and subconsciously stepped back.

Noah thought that the Lady Xiao was frightened, and hurriedly stepped forward to help her without standing still.

As a result, the Old Mrs. Xiao hurriedly waved her hands and said in horror: "You stay away from me and don't touch me. AIDS is terrible. I haven't lived enough yet..."

Noah's expression was extremely ugly, and he realized that his mother was afraid of infecting herself.

His own mother is really realistic!

So he had to sigh and said, "Mom, in this case, then you can wait for me here, and I will check it myself."

Mrs. Xiao hurriedly said: "Oh, I'm old and a little tired. I'm going home first. After checking the results, remember to take pictures and send them to my WeChat as soon as possible."

In fact, the Old Mrs. Xiao is not tired, she is really scared.

For her the most feared thing is death.

Anything related to death, or that might make her die or make her life short, she will stay far away and stay away.

Now that she heard that her eldest son might get AIDS, the first thing she thought of was not the safety of her son, but herself.

Noah also knew what kind of person his mother was. He sighed helplessly and said: "It doesn't matter if you go back, but you have to give me some money, otherwise, how can I pay the examination fee later, in case the doctor wants to give it to me? What about prescribing medicine? Medical expenses are still needed!"

While walking outside, Mrs. Xiao said without looking back: "I will send you 10,000 on WeChat right away. If it is not enough, you can tell me."

After speaking, people have already passed out andrology.

Noah's heart was depressed, and his own mother was so selfish at all times, and she really did not "disappoint" him at all.

However, the most important question for him right now is to quickly confirm what diseases he has suffered.

Gonorrhea and syphilis are not big things. The big deal is to spend more trouble and suffer more. As long as he doesn't get AIDS, then everything is easy to say.

He felt that if he really got AIDS, his life would be over, so he could just go home and kill Horiyah...

Noah stayed in the hospital for an afternoon. After doing a lot of various examinations, the final conclusion was almost the same as the doctor's initial judgment.

First of all, gonorrhea and syphilis are confirmed.

Secondly, urethritis is also very serious.

In addition, there is some ulceration and suppuration.

Fortunately, there is no AIDS.

Then the doctor immediately prepared a treatment plan for him, starting with a 14-day first-stage treatment cycle.

#### **Chapter 1176**

Starting today, for the next 14 days, he will come to the hospital for infusions every day, and he will have to infuse five or six bottles every day.

Noah hurriedly asked: "Doctor, can the medicine be used today to stop itching for me? To tell you the truth, I'm so f\*cking itching right now. It's so irritating. I don't know what's going on. Itchy, the more you scratch, the more itchy..."

The doctor said: "This kind of disease is very itchy. It is originally ulcerated, purulent and inflamed, and the lesion is in the sensitive area. It must be very itchy, but you can rest assured that if you are given medicine today, This itching will go down."

Then the doctor said: "From now on, you must avoid seafood, spicy, alcohol, and smoking. Otherwise, it will greatly aggravate the condition."

When Noah heard this, he immediately said to the doctor: "Doctor, I ate more than ten or twenty abalones at noon, and I drank more than half a kilogram of Maotai. There will be nothing wrong, right?"

After listening to the doctor, he immediately said with a straight face: "You want to die? Don't you know that these are hair things? You still eat seafood, you can't eat kelp, you know?"

Noah said with a sad face, "Hey, I don't know. I want to know that I have these diseases. If you beat me to death, I dare not eat or drink..."

The doctor sighed and said, "Okay, there is no treatment today. You can go back."

Noah became anxious and blurted out: "Why can't the doctor treat it today? I'm almost itching to death. You can treat me quickly, or I will definitely scratch it!"

The doctor shook his head and said, "You have to inject a lot of antibiotics for the treatment of this disease, but how do you inject antibiotics when you drink alcohol? Have you ever heard of a disulfiram-like reaction? Go in with cephalosporin antibiotics here, and immediately When react, it will kill you. Do you want to itch an extra day, or do you want to die here today?"

Noah almost cried.

You can't use medicine if you itch like this bird, isn't it killing your own?

So he begged: "Doctor, how much do you give me some anti-itch medicine, otherwise I can't handle it..."

The doctor sighed and said, "Well, let me prescribe some cleansing liquid for you. You can go back and use it first, and it will have some anti-itching effect."

After speaking, the doctor said again: "Yes, I have to tell you not to scratch, because it is already damaged, and it will be more serious if it is scratched. The pus and blood that flow out contain a lot of bacteria. It may cause your affected area to spread and spread, and the situation becomes more and more serious. If the area of the rupture becomes larger and larger, a serious infection may lead to sepsis, which can also be life-threatening."

Noah wiped a tear from his eyes: "It's a crime...Well, how can you encounter such a thing..."

The doctor sighed with emotion and said, "After all, we should start with personal hygiene, and in that aspect of life, we must pay more attention to protecting ourselves. Don't go out to such street places to find flowers."

Noah couldn't say why he got the disease, so he could only nod his head: "Thank you doctor, I know..."

The doctor hummed, and then asked him: "By the way, I think you should be married at your age?"

Noah nodded.

The doctor saw him nod and confessed, and said, "You should take your lover to the hospital for a check. This disease is extremely contagious. If you are recruited outside, it will be easy to infect your lover when you return home. ."

Noah was more uncomfortable than death at this time, and his anger hit the sky.

I infect her?

d\*mn, these are all her infections!

This dmn btch.

I must kill her when I go back!

**Chapter 1177**

Noah tried to endure the itching, and when he rushed home, Horiyah was cooking dinner.

Seeing that Noah liked to eat abalone made by herself at noon, she was ready to continue to please him, so in the afternoon when Noah went out with the Lady Xiao, she went to the vegetable market again.

This time, she bought a large king crab for Noah. The king crab was big and delicious, and it was Noah's favorite.

And this king crab is not cheap. She bought the big one, which cost more than two thousand.

Originally, Horiyah had no money, so she gave all the money to the Lady Xiao, but she had an idea and stole a high-end imported cooking machine from the kitchen. By the way, she ordered two bottles of Moutai from the underground wine cellar and took them out. Sold it for 20,000.

Horiyah planned that the remaining money would not be reported to the Lady Xiao, and she would save it to go to the hospital for an abortion tomorrow, and treat her venereal disease by the way.

When the Lady Xiao went home, she didn't care to settle the account with Horiyah. She bought a lot of disinfectant on the road. When she got home, she went back to her room and began to give her room, corridor, bathroom and terrace all-round disinfection and sterilization.

After receiving Noah's inspection report and confirming that he did not have AIDS, the Lady Xiao was still not at ease, so she wiped all the places she could touch with alcohol.

Noah entered the door with a black face at this time.

As soon as he entered the door, he smelled fishy and fresh crabs.

He was wondering, Horiyah came out of the kitchen wearing an apron and said with a smile: "Oh, my husband, are you back? I steamed you your favorite king crab, you want to eat more tonight. If you like to drink, drink half a bottle of Moutai to moisturize it."

Noah was already half to death, but when he heard this, his whole body almost burst.

At noon, you stinky lady cheated me. At night, you still want to eat seafood and drink liquor!

By the way, I haven't counted you on the fact that you infected me with a disease!

Thinking of this, Noah rushed forward immediately, slapped Horiyah's face with a slap, and directly knocked her to the ground.

Before Horiyah could react, Noah rode on her, angrily and bowed left and right. The slap was almost as if he didn't need money, and he slapped to death.

Horiyah was beaten up and yelled, and the entire villa was like a pig farm.

Jay and Theresa rushed out of their respective rooms, and when they saw their parents were fighting again, they hurried forward.

Jay couldn't help saying, "Dad, what's the matter with you? Haven't you separated from mother? Why are you fighting again?"

"Yes, Dad!" Theresa also said hurriedly: "Mr. Wu specifically explained that the two of you must not fight each other, what if he blames it!"

Noah slammed Horiyah's face with a fist, and said angrily: "I'm going to grandma of Wu, even if he's the king of heaven today, he can't stop me from beating her!"

As he said, he scolded angrily: "You stinky shameless b\*tch, you infected me with a disease, and you deliberately made seafood for me. What do you mean? You want to kill me? You give it to me. With so many green hat things, I haven't even calculated it yet, so you dare to slap me again!"

When Horiyah heard this, she was immediately stunned!

She cried and said: "My husband, I really don't know, you are sick! If I know, if you kill me, I can't make seafood for you!"

While pumping her, Noah cursed with gritted teeth: "You still pretend to me that you don't get sick yourself, don't you know it yourself?"

Horiyah cried: "I did get sick, but I didn't expect to be able to infect you. After all, we have only been there once since I came back. Since then, every time you tried to have s3x with me, , Did I not refuse you every time, I lied to you, insisted on doing things with me, I also found all kinds of excuses to refuse, why? Isn't it just because I'm afraid of infecting you?"

Noah slapped again and yelled, "You f\*cking infected me, don't you know?"

Jay and Theresa were about to collapse almost embarrassingly.

Listening to this, mother has infected father with a venereal disease...

Where did this venereal disease come from? Of course they both knew it well.

STDs must come from the same source as the child in the mother's stomach.

### **Chapter 1178**

Jay, a shameless person, felt hot on his face at this time.

What the h\*ll do you think this is?

Theresa was also extremely helpless, at this time she didn't know if it was time for them to fight.

It's really a human tragedy.

Noah grabbed Horiyah by the head and beat her for more than ten minutes, until he knocked Horiyah until she fainted, and then stopped out of breath.

Horiyah was already in a coma at this time. The Old Mrs. Xiao just sterilized the entire room. She walked down and saw the following scene. She immediately said to Noah: "How can you beat her to death?"

Noah said aggrievedly: "Mom, this stinky lady has cheated me so badly. I can't beat her up yet?"

Old Mrs. Xiao complained: "You can teach her to get it, how can you fight so hard? What if Mr. Wu finds out and blames you? What if Mr. Wu feels that our family is not worthwhile? You are not. Are you joking about the future and future of your whole family?"

Jay suddenly understood at this time and blurted out: "Yeah, Dad, if Mr. Wu knows, what can we do? If he gets angry, he might withdraw all the money from the villa and the investment in our Xiao Group. By then we will have to live on the streets again!"

Noah's expression went black and white, and he said depressedly: "Okay, call an ambulance first and take her to the hospital. Isn't this stinky lady going to have a baby? It just happened to be together this time!"

Horiyah was rushed to the hospital overnight, where she was rescued before she recovered.

After Regnar heard his assistant report this incident, his body trembled.

This family, I have seen it, the dirtiest, most disgusting, stupid family in the world.

Five people are refreshing their lower limit all the time!

He even found sadly that he had used all tactics to deal with Marven now.

No matter it was the inferior Xiao family, or the eight heavenly kings of dragon and phoenix among the people, it seemed that there was no threat to Marven.

Even the Eight Heavenly Kings are not as good as the Xiao family.

At least the Xiao family members are still alive, but when the Eight Heavenly Kings go out, they all died.

Now the Wu family has lost the eight heavenly kings, which can be described as internal and external troubles.

Coupled with the previous reputational influence, Wu's stock has been falling continuously.

Now their market value has saved more than 200 billion, all the way down to less than 100 billion.

The Wu family now can't even compare to the Song family in terms of strength.

Moreover, it is certain that the Wu family is no longer the first family in the region.

If this continues, it is likely to fall out of the first-line family sequence.

By that time, the Wu family had really fallen into a hurry and could never get up again.

Roger was also very depressed.

He liked Warnia very much, and thought Warnia would be a high climber if she married him.

But now it seems that if Warnia marries him, it is his own high climb...

He couldn't help asking Regnar: "Dad, do you think there is hope for my affairs with Warnia?"

### **Chapter 1179**

Hearing his son's question, Regnar felt mixed.

Not long ago, he thought that his son could see Warnia, that was the glory of the Song family.

But now, he felt to his heart that Warnia couldn't have a good view of his son.

The current Wu family has not only shrunk seriously, but more importantly, its reputation has been completely ruined.

In addition, the eight heavenly kings died of Changbai Mountain for unknown reasons. How can the Wu family compare with the Song family now?

So he doesn't have any hope at all now that he can marry Warnia to his home as a daughter-in-law.

It's a pity that his son, and he still seems a little unaware.

When the Wu family was in its heyday, people didn't agree, let alone now.

Think about it carefully. Not only is this son not self-aware, he also lacks control and understanding of the situation.

It seems that the Old Master is right, the Wu family is really inferior to one generation.

Now the Wu family is in his own hands and it has shrunk by half. If it is passed to his son in the future, it might become a third-rate family.

So he told Roger: "It's not the time to deal with the love of children. Let's first find a way to let the Wu family tide over this difficulty. Once the Wu family is relieved, we can continue to discuss the marriage with the Song family."

Roger nodded and sighed: "If we can be bound to the Song family, then our life will be better."

Regnar sighed, thinking that his son would really think about something.

No one else wants to play with you when you are beautiful, let alone when you are in trouble.

But he didn't tell his son this, because the family already looked like this, he didn't want to continue to dampen his confidence and enthusiasm.

In fact, this is where Regnar is inferior to the Old Master.

In other words, this is the key to the weaker generation of the Wu family.

When Elder Wu came out to enter the world by himself, he had to face everything himself and carry everything himself.

But after he worked hard for a career, he began to feel sorry for his son, and felt a lot of unnecessary suffering, so naturally there was no need for his son to taste it. He had a strong foundation that he had laid out for him.

But the key is that the older generation of entrepreneurs, the reason why they are so awesome, is because they are too good at enduring hardship.

For people like Mr. Wu, it was really rolling in the swamp, and tigers snatching food.

Only in this way can you develop a person's true great ability.

It's a pity that when Regnar arrived, they had no chance to withstand such a test.

By the generation of Roger, he even didn't even know what he suffered.

.....

After Marven came back, he led a peaceful life again.

However, he was always thinking about doing a good job in the pharmaceutical business, so he called Meiqing's son Paul, and Paul revisited Wei's Pharmaceuticals with him.

Wei's Pharmaceutical is one of the top Chinese patent medicine companies in Wrestvel, and has developed many Chinese patent medicines that sell well across the country.

However, in the past few years, Chinese patent medicines have been declining across the country, and Kampo medicines represented by Japan and South Korea have gradually become the mainstream.

Whether it is Chinese patent medicine or Kampo medicine, the real core is the classic traditional medicine left by the ancestors of China.

Marven has many very powerful prescriptions. First of all, it might even cause a major earthquake, so he was not prepared to shock the world. He just prepared to come up with some classic prescriptions to deal with daily diseases, and let Wei's Pharmaceutical make a few best-selling drugs.

## **Chapter 1180**

But before giving the prescription to Liang, the shares must be changed.

These prescriptions are truly invaluable, and a single prescription may be able to exchange several or even a dozen Wei's pharmaceutical wealth.

As soon as Paul received his call, he heard that he was asking for his help, and he did not ask what it was, so he immediately agreed.

The two met early the next morning at Tomson.

Dave knew that he was going to meet Paul, and his heart immediately itched.

Since Viola came back these days, he has always wanted to see Meiqing, but he has never dared to see her.

Because he was afraid that Viola will know that Meiqing returned to China, the vixen's skills exploded, and then will go out to trouble Meiqing.

So after he knew that Marven was going to see Paul, he asked him privately: "Good son-in-law, you are going out with Paul this time on errands, are you going to Aunt?"

Marven smiled helplessly and said, "Of course Aunt will not be there, Dad, if you want to see Aunt, please ask her yourself!"

Dave said awkwardly: "I dare not!"

Marven sighed and said, "Then I can't help but..."

Dave pleaded: "Good son-in-law, can't you find a chance to form a game and let me meet your Aunt?"

Marven said: "It can be, but I'm afraid someone will get angry when they find out."

Dave hurriedly said: "Don't tell her not to do it!"

Marven said earnestly: "Even if you don't tell her about this kind of thing for a while, she will know it sooner or later, and she will definitely be very angry if she knows that we did these things behind her back."

As he was talking, Marven's cell phone rang, it was Paul's call.

He just wanted to get rid of his chattering Old Master, so he hurriedly said to him: "Dad, I won't tell you yet, Paul has already come to pick me up, I have to go now."

After speaking, Marven hurried out without waiting for him to speak.

When he arrived outside the main entrance of Tomson, Paul had already driven his Rolls Royce and was waiting here.

Seeing Marven came out, he hurriedly waved to him, and said with respect: "Mr. Ye, I am here!"

Marven nodded, walked to the front, opened the car door and sat in.

Paul wore a very formal suit and tie today.

I can see that his suit is still very good, it should be tailored by some big brands or high-end tailors.

Paul asked Marven: "Mr. Ye, what cooperation do they have with you at Wei's Pharmacy today?"

Marven said: "Wei's Pharmaceuticals is going to transfer 80% of the shares to me. I want you to be my legal counsel to help me complete all contracts and legal procedures."

Paul was shocked when he heard this.

He has heard of Wei's Pharmaceuticals. Although this company is not among the top 500 in the country, it is at least a large company with a market value of several billion. Is Marven going to acquire 80% of the company's shares?

So he asked Marven, "Mr. Ye, what is the purchase price of your 80% shares?"

Marven said indifferently: "I don't need to spend money to acquire 80% of the shares, but I want to provide them with prescriptions."

"Ah? Doesn't it cost a penny, just make prescriptions?" Paul felt unbelievable. After all, it is a billion-dollar pharmaceutical company. Marven doesn't give people a penny, and takes away 80% of others' shares based on prescriptions. This is too awesome. What kind of prescription is needed to be so valuable.

"Yes." Marven nodded and said, "Trust me, my prescription is more valuable than their pharmaceutical factory."
