

The Amazing Son In-Law Chapter 1671-1680

Chapter 1671

At this moment, Ito Yuhiko was sitting in his car and cursing.

Hiroshi Tanaka covered his face, and said with some nervousness and aggrievedness: "My President, Mr. Marven is extremely powerful and acts extremely casually. At first, Yamamoto Kazuki only said the words sick man of East Asia in front of him, and he was beaten up. If you really intend to kill him, you still don't know what kind of lethality will erupt, so even if you hit me, I will remind you from the bottom of my heart, don't talk to this man Right"

Ito Yuhiko's expression was extremely ugly.

He knows Koichi Tanaka.

This kid is loyal to him, even if he asks him to perform a caesarean on the spot, I am afraid he will not hesitate.

Therefore, what Koichi Tanaka said must be from the heart.

Thinking of this, Ito Yuhiko couldn't help but wondered: "Could it be that that kid is so powerful? Even so powerful that Hiroshi Tanaka felt for a while that the patriarch of the dignified Ito family couldn't even offend him?"

Yuhiko Ito frowned and asked Koichi Tanaka: "Then you tell me, what should I do now? Can't you really just give him the 4.5 billions for nothing?"

"It must be impossible." Tanaka Koichi said, "Chairman, the 4.5 billion USD we only paid Kobayashi Pharmaceutical were remitted through Ito Corporation's public account. The bank has clear remittance records. Kobayashi Pharmaceutical did not pay the corresponding shares for the 4.5 billion USD We can sue the court to demand that Kobayashi Pharmaceutical must return all the 4.5 billion USD We will definitely win this kind of lawsuit."

"Fighting a lawsuit?" Ito Yuhiko's expression was very gloomy: "You let me Ito Yuhiko to fight with him? Go to the court and cry that this kid didn't pay me the money?!"

Koichi Tanaka said seriously: "President, this is the safest way and the way with the highest success rate."

"impossible!"

Yuhiko Ito said with a cold face and angrily said: "If the outside world knew that a young Chinese man would dare to take 4.5 billion USD and not return me, and I could not get him to return the money. Go to the court for help, where do I put my face? Where do I put the face of the entire Ito family? With this precedent, then other people can't ride on my neck and sh!t?!"

Because the underground world is legal under the Japanese government, many Japanese families and consortia will get involved in the underground industry and even cultivate their own underground forces.

Chapter 1672

The Ito family is not only Japan's top chaebol, but also the top power of Japan's underground world.

There are three strongest underground organizations in Japan. The Yamaguchi group ranks first, and the Ito family ranks second.

The underground world is a world where the weak is eaten by the strong, and the most important thing to survive in this world is to stay strong.

For people in the underground world, sometimes it is not that they are cruel, but the law of survival forces them to be cruel.

If you have been implementing the principle of whoever beats you, you will dare to fight hard, and over time, no one will dare to provoke you.

But if you don't go back after being beaten once, but swallow your anger and admit that you are unlucky, then from this day onwards, everyone in this world can come to bully you.

Moreover, there is another very important criterion for surviving in this world, that is, no external force can be used to solve problems.

If a person in the underground world asks the police and the court for help, that person will immediately be disgusted and rejected by the entire underground world.

Therefore, what Ito said, he couldn't get back the 4.5 billion USD through legal means. He had to let Marven honestly and intact, and return the money to the Ito family's account.

Therefore, he gritted his teeth and said: "There are only two solutions to this matter. The first one is to let Ye, and honestly return the money to me, and this matter must not be disturbed. Everyone knows it; the second one is to kill him directly!"

Hiroshi Tanaka said with some anxiety: "I, I am worried that Mr. Marven will not agree to your request."

Ito Hirohiko snorted coldly: "No? If you don't agree, choose the second plan and kill him!"

Although Koichi Tanaka didn't know how powerful Marven really was, he always felt that Marven was extraordinary.

And Marven is not only strong, but also the key means seems to be very powerful. Otherwise, how could Ichiro give him all the shares of Kobayashi Pharmaceutical 90?

Therefore, he felt that they should try to avoid the conflict with Marven as much as possible, otherwise, he might cause a big trouble.

So, he hurriedly changed the topic and said, "Mr. President, I don't think you should worry about Kobayashi Pharmaceutical's 4.5 billion USD now. The money will definitely not run away. It's just a matter of coming back early or late. Don't forget, the Chinese Orgeyon Su family will be coming soon!"

Ito Yuihiko frowned and asked: "Did the Su family say that the specific day has come?"

"No." Tanaka Hiroshi said: "They said they would come at any time. After all, the trip is a private jet, you can fly anytime you want."

After speaking, Tanaka persuaded: "My President, the Su family is not only watching this opportunity, but also the Takahashi family. I heard that the Su family came here this time. Choose one of the Takahashi family to be a partner. At this time, you must not make any extravagance!"

Yuhiko Ito gritted his teeth and nodded, and said: "In this case, I will bear the wave of the kid named Ye, and you will keep an eye on him. If he does not leave Japan for the time being, then I will leave him alone. Take down the Su family cooperation first!"

Chapter 1673

Thinking of the Su family's cooperation, Ito's expression looked a little melancholic.

Sitting in the car, he sighed and said with emotion: "Koichi, in the past ten years, the speed of our national economy has been relatively slow, so the strength of several top families, including our Ito family, has shrunk somewhat. And the successor is weak..."

Hiroshi Tanaka hurriedly asked: "My President, We once led the world in its development speed in the decades after the war, why hasn't it kept up with it in the past decade?"

Ito said with regret: "There are many reasons for this lag in economic development, firstly because Japan's local resources and land have been very scarce; secondly, because Japan has not made major innovations in the Internet and high-tech fields in recent years."

With that, Ito Yuhiko continued with emotion: "You see, many Japanese companies that had advantages in various fields more than ten years ago have gradually lost their original advantages in these years;"

"Look at the previous companies such as Sony, Panasonic, Hitachi and Toshiba. They are all in the world. I think that Sony's color TVs were the best in the world and sold all over the world. Sony Ericsson's mobile phones were also World-renowned, Panasonic and Hitachi's home appliances, and Toshiba's semiconductors are all top-class in the world, but what about now? All are gradually declining!"

"Most of the TVs in the world are produced in China, which are cheap, affordable and cost-effective; the world's mobile phones are divided into two parts, the United States' Apple occupies a large part, and the remaining large part is China's Huawei, Xiaomi, Vivo and Oppo. What about Japanese mobile phones? Even South Korea's Samsung is absent, and it's already decadent!"

Koichi Tanaka couldn't help but feel frustrated: "Mr. President, you are right. We in Japan have indeed completely lost many traditional advantages, especially in electronic products..."

Ito sighed: "More than electronic products? In addition, Japan's steel industry was once the world's top, our special steel, even the Americans have to look up, but because Kobe Steel was exposed to a long-term fraud scandal. , And it plummeted!"

"Originally, Japan's Shinkansen technology was the world's best. High-speed rail technology was invented by us. The strength was unique in the world. But who would have thought that China's high-speed rail would come to the top, so that our Japanese high-speed rail technology and the high-speed rail technology of Germany and France all Decreased into the second-rate in the world, Japan's Shinkansen has also lost a lot of overseas markets..."

Koichi Tanaka also kept sighing: "We, the Ito family, hold different proportions of shares in the companies you mentioned. They are lonely, and our assets are shrinking. This is indeed a very serious problem... ."

Yuhiko Ito hates that iron cannot be made into steel and said: "Not only that, but the most important thing is that our young people in Japan are seriously lacking in creativity as a whole!"

"Look at China in the past few years. A large number of world-class Internet companies have been born, such as Tencent, Alibaba, Toutiao, JD.com and Pinduoduo, as well as DJI drones that account for more than 70% of the world's drone market. In contrast, Japan has never had an influential Internet company in recent years! If we continue to develop like this, we will lose all our advantages!"

Hiroshi Tanaka nodded: "In contrast, the top families in China, with the continuous development and progress of all walks of life, their wealth and influence are also increasing. They now have the ability to directly challenge Europe and the United States. They don't put Japanese companies in their eyes at all."

"That's it." Ito said with melancholy: "Before, they were still chasing us. As a result, in the blink of an eye, they surpassed us and chased the United States, but we were left behind by them. In the back of our heads, so that we now want to make a breakthrough in business, we have to turn back to please the Chinese family. It really responds to the old Chinese saying, 30 years in Hedong and 30 years in Hexi... ."

Speaking of this, Ito Takehiko seriously said: "Because we have been stagnating and China has been developing rapidly, we now need to be firmly tied to China's top families. This time the Su family's cooperation is right. For us, the significance is very important and should not be lost."

Hiroshi Tanaka nodded in a hurry and blurted out: "President, please rest assured, I will definitely go all out!"

The Japanese economy has been sluggish in recent years.

Chapter 1674

As Japan's top chaebol, the Ito family is constantly being weakened.

Also confused with them, there is another big family in Japan, the Takahashi family.

Both companies are now actively seeking breakthrough points, so they all pin their hopes on top Chinese families.

As the top family in China, the influence of the Su family has been continuously increasing in recent years, and with the rapid development of the Chinese economy, the strength of the Su family has also been soaring.

The focus of the Su family in the past few years has been on maintaining and consolidating the domestic market. After consolidating its position as the first family in China, it has only begun to turn its attention overseas in the past two years.

Therefore, in recent years, many Japanese families and chaebols are eager to develop in-depth cooperation with the Su family.

Over the past ten years, China's import and export trade has continued to grow, shipping demand has increased, and port construction and development have been extremely fast. Now, China accounts for seven of the world's top ten ports in terms of throughput.

Today's global trade relies very heavily on shipping. The vast majority of oil, ore and various goods rely on ocean transportation.

For example, the oil in entire East Asia and Southeast Asia is almost transported from the Middle East to ports by giant tankers;

Entire East Asia and Southeast Asia's iron ore also depends on a large number of giant freighters, transported from Australia and Brazil.

The Su family has been in the port business for many years and has its own industries and shares in major domestic ports. It is now preparing to build Asia's largest shipping company and build Asia's largest shipping fleet, which can just match their domestic ports for resources Complementary.

In order to build the largest shipping fleet in Asia, the Su family not only invested heavily on their own, but also prepared in-depth cooperation with consortiums in Japan and South Korea, giving them a certain share and letting them participate in depth.

The reason for winning the consortium of Japan and South Korea is mainly because Japan and South Korea are both developed countries, and the demand for shipping is also very large. In addition, South Korea's Busan Port, Japan's Tokyo Port, and Yokohama Port are all established large ports in Asia.

If the Su family can also hold the resources of these ports, by that time, the shipping company headed by the Su family can control the lifeline of entire East Asia to a certain extent, and the future profit space will be huge.

The Japanese and South Korean consortiums are extremely excited about this news. They all hope to reach a cooperation with the Su family and then get on the boat of the Su family.

In Japan alone, there are at least a dozen families and consortia that hope to cooperate with the Su family.

Among them, the strongest ones are the Ito family and the Takahashi family!

Chapter 1675

In the afternoon, Marven expelled nearly half of the entire staff of Kobayashi Pharmaceuticals in a desperate manner.

Originally, those people from Kobayashi Pharmaceutical were still thinking of using a strike to fight against Marven, but he didn't expect that Marven was not at all soft to them, and they all fired them, leaving none.

This incident caused a huge earthquake in the Japanese business community!

First of all, no one thought that Kobayashi Pharmaceutical, which is an excellently developed company, would change ownership. Now 90% of the shares have been transferred to a Chinese and it has become a Chinese company.

Secondly, no one thought that after Kobayashi became a Chinese company, it would kill half of its employees in one go!

In Japan, apart from bankruptcies, very few companies will suddenly expel so many people.

Especially for manufacturing companies like Kobayashi Pharmaceutical with nearly 10,000 employees.

If half of them are fired at once, four or five thousand people will be fired!

Moreover, except for the employees in the production positions, the R&D, promotion and sales positions were all laid off. This operation method makes everyone feel incredible.

In their view, this method of layoffs is tantamount to abolishing martial arts.

But Marven didn't care.

What he needs is not the brand of Kobayashi Pharmaceutical, nor the reputation and patents. What he needs is only the production line of Kobayashi Pharmaceutical.

As long as Kobayashi Pharma honestly produces JX Weisan for him according to his requirements, that is the greatest value of Kobayashi Pharmacy at this stage.

The rest of Kobayashi Pharmaceutical that has not been expelled are all the people in charge of the production line.

Immediately afterwards, Marven immediately held a meeting at Kobayashi Pharmaceutical, appointing Liang as the general manager of Kobayashi Pharmaceutical and Ichiro as the deputy general manager.

At the same time, Marven also very clearly warned the remaining people in charge of the production line: "You people in charge of the production line will listen carefully. If you work for me honestly, listen to me and do things according to my instructions. Then your job can be retained and your income can be guaranteed. What I can promise you is to follow me honestly and I will make your income never lower than before."

As he said, Marven turned around and shouted sharply: "But! If anyone among you dares to play with me carefully, dare to fight against me, then I am sorry, I will immediately kick you out of Kobayashi Pharmaceutical!"

When the people who stayed heard this, they immediately acted like tamed wild dogs, and honestly didn't dare to say more.

When the group is angry, everyone wants to fight, because they feel that when everyone is tied together, Marven must not dare to do anything to them. After all, he certainly does not want Kobayashi Pharmaceutical to be paralyzed suddenly.

But what everyone didn't expect was that Marven didn't play cards according to the routine at all. Before everyone was tied together and confronted him, he had already driven out half of the people!

This immediately caused all the people who were evicted and their families into a serious economic crisis.

Therefore, how can the remaining group of people dare to have any thoughts of making troubles, to keep the job and to ensure that the salary is not lower than before, which is to ensure that their family life will not be affected in any way and let them completely relax.

At this time, how can they have the least thought of confrontation?

As a result, a group of people quickly surrendered and decided to continue working for Marven's Kobayashi Pharmaceutical.

Chapter 1676

Marven nodded in satisfaction, and said to Ichiro: "From today, you must cooperate with Liang to readjust all production plans, stop all production of Kobayashi Pharmaceuticals before, and fully switch to production immediately, understand?"

Ichiro hurriedly expressed his heartfelt words: "Mr. Marven, don't worry, I will definitely cooperate with Mr. Liang!"

Liang said to Marven at this time: "Mr. Marven, Kobayashi Pharmaceutical's production capacity is still very strong. If the production of JX Weisan is fully started, the demand for raw materials for JX Weisan will be huge. We have to do this in advance. Prepare, otherwise, once the production raw materials are insufficient, production capacity will be severely restricted."

Marven nodded and said, "I will solve the raw material matter."

When he said this, Marven thought of Qin Gang, the lord of the Qin family far away in Wrester.

The Qin family originally started from the medicinal material business.

Moreover, Qin Gang was also very trusted by Marven, so Marven planned to hand over all the raw materials and medicinal materials business to him.

After that, he immediately took out his cell phone and called Qin Gang.

When the phone was connected, Qin Gang was eating.

Seeing that it was Marven's call, he respectfully said, "Master, why made you call me at this moment?"

Marven smiled and asked, "Mr. Qin, I have something to ask you."

Qin Gang said respectfully: "Master, please do not hesitate to ask."

Marven said: "What is the annual supply of medicinal materials in your Qin family?"

Qin Gang thought for a while, and said: "Last year, our Qin family made more than 200,000 tons of various medicinal materials and supplied them to more than 30 pharmaceutical companies across the country."

Marven snorted and asked, "Can you supply one million tons a year?"

Qin Gang exclaimed: "One million tons?! Master, one million tons is almost equal to the total annual output of botanical medicinal materials in the three eastern provinces. Our total annual output in the country is also more than 5 million tons, the largest medicinal material in the country. The company can produce seven or eight hundred thousand tons a year..."

Marven asked him: "Then do you have the confidence to supply one million tons a year?"

Qin Gang said: "Master, all the medicinal materials are in the hands of pharmaceutical farmers across the country. As long as I buy them, one million tons is not a big problem. The key is that I have no channels to digest so many medicinal materials! In fact, personally, I am eager to sell more medicinal materials, but the key is to find a strong enough next home."

Marven smiled and said: "To be honest, I have taken over Kobayashi Pharmaceuticals in Japan. In the near future, all the production capacity of Kobayashi Pharmaceuticals will serve me, and I am also going to continue to expand the production line. This year, I will consume one million tons of medicinal materials, which is not a big problem. I can trust you. If that is so nice of you to cooperate with me, then I will give you all the orders for the supply of one million tons of medicinal materials!"

As soon as Qin Gang heard this, he was so excited that he got up and got up from the dining chair. He couldn't care about throwing the bowls and chopsticks to the ground, and said excitedly: "Ye...Master... You...what you said is true?!"

Marven smiled indifferently: "When did Marven tell you a lie?"

Qin Gang was immediately ecstatic, so excited that he couldn't add anything!

He was excited and thought to himself: "If Master can really digest one million tons of medicinal materials from the Qin family every year, it would be equivalent to five times the business volume of the Qin family! That way, Isn't the Qin Family's strength going to soar?! And my dream of revitalizing the Family can be easily realized?!"

At this moment, he almost regarded Marven as the reborn parent of the entire Qin family, and said excitedly: "Master! Since you look down on Qin so much and are willing to pull a certain Qin, then Qin will never give it. You are holding back! Don't worry, no matter how many medicinal materials you want, even if I have to fight with my life, I will definitely get it for you! And I will definitely give you the best quality and the lowest price!"

Chapter 1677

After Qin Gang hung up the phone, Aoxue next to him hurriedly asked curiously: "Dad, what did Master? Why did he call you?"

Qin Gang, who was still trapped in excitement and couldn't help himself, took about a few seconds to recover, and said excitedly: "Aoxue! We Qin family, we are going to meet the great opportunity!"

Aoxue asked in surprise: "Dad, what great opportunity?"

Qin Gang was so excited that even his words were a little trembling, and said, "Master has annexed Kobayashi Pharmaceutical, saying that he will let the Qin family supply him with raw materials and medicinal materials. The demand for a year is almost One million tons!"

"Oh my God!" Aoxue exclaimed in a dumbfounded voice: "One million tons?! Our family now has a supply of about 200,000 tons a year, right?"

"Yes" Qin Gang said excitedly: "Master asked us to supply one million tons a year, and our Qin family's revenue immediately doubled! Isn't this a great opportunity?"

Aoxue nodded repeatedly, and said with gratitude: "Master has really taken good care of our family. He can think of us for everything. He has helped us so much, and don't know how to repay his kindness."

Qin Gang also agreed very much and said: "Master is the second parent of our Qin family. Whether the family can rise in the future depends entirely on Master!"

After speaking, he couldn't help but look at Aoxue, and sighed: "Aoxue, Master is right, our family has had such a great kindness, and he will always take care of you like this, you have to hurry."

What exactly did Aoxue's father mean? Knowing that he wanted to hold on tight, in fact, he wanted to make her act faster and make substantial progress with Master.

She suddenly said with a little shame: "Dad, many things are not what I want to do. After all, Master has a wife. Although I like him, I still have more than enough energy."

Qin Gang nodded, and then said earnestly: "Aoxue, otherwise, you will come forward to meet with Master for the supply of medicinal materials. Anyway, you are graduating this summer and you should enter the internship period soon. Now, just serve the Master's pharmaceutical factory wholeheartedly! This way you will have more opportunities to get along with him."

Aoxue thought for a moment, then nodded immediately: "Okay, dad!"

Like Nanako, she is already in her senior year this year.

There are basically no classes in the next semester of the senior year. After the Chinese New Year, she will enter the internship period.

At that time, almost all senior students will find a work unit to start an internship, and Aoxue is no exception.

She studied finance and management at the Wrestvel Institute of Finance and Economics, and she was asked to cooperate with Marven, which happened to be a professional counterpart.

Thinking of this, Aoxue couldn't help but look forward to it.

She herself has always been melancholic for not having the opportunity to get along with Marven often. If there is a work issue with Marven in the future, it means that she will often have the opportunity to see him.

This made her feel very excited

Tokyo, Japan at this moment.

After Marven's killing of chickens and monkeys, the only remaining executives of the entire Kobayashi Pharmaceutical were as honest as sheep.

Ichiro also cooperated with Paul in the local commercial department in Tokyo to complete the transfer and change of the shares of Kobayashi Pharmaceutical.

Chapter 1678

Now, 90% of Kobayashi Pharmaceutical's shares are all under the name of JX Pharmaceutical.

Because the next production work of Kobayashi Pharmaceutical is of great importance, Marven cannot leave Tokyo for the time being. He wants to ensure that all production lines of Kobayashi are successfully converted to JX Weisan before leaving Japan.

Therefore, the first production line to complete the conversion work is Kobayashi's Tokyo production line.

Marven asked Liang to take inventory of all the medicinal materials of Kobayashi Pharmaceutical, count all the medicinal materials that can be used to produce JX Weisan, and then calculate how much other medicinal materials are needed based on the production capacity of the Tokyo production line.

After counting the demand, he immediately sent the list to Qin Gang, and asked him to immediately make arrangements to prepare these medicinal materials as soon as possible, and then quickly transport them to Tokyo by air.

At the same time, Liang had to count the medicinal materials needed by several other production lines, and send them to Qin Gang one after another, so that Qin Gang could prepare, and then send the prepared medicinal materials to other production bases.

After doing all this, Marven and his party, led by Ichiro, came to the luxurious flat-floor villa of the Kobayashi family in central Tokyo.

Originally, Zak Chen had arranged a hotel for Marven, but because of Ichiro's kind invitation, Marven decided temporarily to stay at Ichiro's house.

This flat-story villa of Ichiro's is the entire top floor of an 80-story building. The indoor construction area alone is thousands of square meters. It is extremely luxurious. It also has exclusive use of the entire roof terrace and its own helipad. , Sky infinity swimming pool, can be said to be the ultimate luxury.

After nightfall, Marven took a bath and called his wife Avella to report that he was safe. Then he stood alone on the large terrace on the top floor, watching the bustling night view of Tokyo, with thoughts flying.

Kobayashi Pharmaceutical is a key part of his energy accumulation.

If Kobayashi successfully converts all production to produce JX Weisan for him, then JX Weisan can be marketed worldwide in the shortest time.

Moreover, Marven had already figured it out clearly that the price of his Weisan scattered in the domestic market would never be increased, and to give back to the domestic people with the greatest cost-effectiveness, but the price overseas must soar.

The selling price of retail terminals should be at least two to three times higher than RMB 100.

That is about sixty a box.

In this way, the net profit of each box is at least 30s.

Since JX Weisan can greatly relieve and treat many stomach diseases and discomforts, it will definitely become an essential medicine for every family in the future. Therefore, Marven estimates that JX's future income will increase rapidly at a rapid rate. , Maybe it can make tens of billions a year, and it's still in USD.

If you develop a few other categories, it will really make a huge profit.

Marven is not a greedy person. The main reason why he can't wait to make more money is that he hopes to improve his overall strength as soon as possible.

The parents' grievances have not yet been repaid. The many Orgeyon families that formed the anti-Ye Alliance led by the Su family back then had to pay the price for the death of his parents.

Even the Ye Family bears a unshirkable responsibility in this matter.

Marven knows very well that if he wants to oppose the entire Orgeyon family and make them surrender to him, the first thing is to improve his strength!

If one day, he can return to Orgeyon as the raptor crosses the river, then all Orgeyon's families will tremble in front of him!

Chapter 1679

Kyoto City is hundreds of kilometers away from Tokyo.

The huge mansion with a century-old history of the Ito family is located in the center of Kyoto City.

The Ito family residence is next to Nijo Castle, the residence of Oda Nobunaga, one of the three masters of the Warring States Period in Japan. Although the area is slightly smaller than Nijo Castle, the overall area is larger than the largest single-family villa in Orgeyon. Even much more.

Around the mansion, there is a moat dug during the war, and it still bears the responsibility of guarding the mansion.

On the city wall, 360-degree surveillance with no dead ends was installed to ensure that this mansion would not be violated by anyone.

And behind the towering city walls are bodyguards with live ammunition.

The buildings in the mansion are all typical Japanese-style wooden buildings. Each one has a history of at least a hundred years. There are dozens of ancient trees with a history of 100 years in the courtyard, plus those mottled and countless. The century-old stone sculptures are antique and full of charm.

At this moment, in the large courtyard, a beautiful young woman is sitting alone in a wheelchair, looking up at the hazy sky. This beauty is the eldest lady of the Ito family, Nanako.

She is waiting for the first snow this year in Kyoto.

In the past, the snow in Kyoto would come a little earlier, but this winter is an exception.

Although the winter of this year was cold, and every day was extremely cold, but no snow fell.

Earlier today, the Kinki Regional Meteorological Department issued a heavy snow warning, saying that it will be heavy snow in Kyoto tonight, and Nanako loves snowing days, so she waited early in the yard.

However, after waiting till late at night, there was still no trace of the heavy snow, the sky was very cloudy, there was no starlight, and even the moon could not be seen clearly.

The housekeeper of Ito Mansion looked at Nanako from a distance for a long time. Seeing that it was late, he walked over and respectfully said, "Miss, it's late. It seems that the snow will not fall tonight, the weather's too cold, you should go back to your room and rest earlier."

Nanako looked at the hazy moon in the sky and whispered softly: "Since the weather forecast has said, there is still some hope after all. You should go back to rest first and leave me alone."

The housekeeper sighed slightly, and said distressedly: "Miss, or go back to rest first, I will arrange for someone to wait here, if it snows, let them notify you as soon as possible."

Nanako smiled lightly and said, "I'm here to watch. I just want to see the first snowflake falling from the sky, and I want to feel the first snowflake on my face. I have waited for the snow to fall. If I go in now, I will lose the fun."

The housekeeper hurriedly said: "But now it is cooling down, the temperature is getting lower and lower, and you will catch a cold if you stay outdoors for a long time."

"It doesn't matter." Nanako said with a smile: "I will wait until twelve o'clock, no matter whether it is snowing or not, I will go back to my room to soak in a hot spring. You can rest assured, although I am injured, I still have relatively strong physical fitness. , The temperature is colder, it will not have any effect on me."

The housekeeper nodded helplessly, and said respectfully: "I'm nearby. Miss, call me whenever you have any needs."

Nanako chuckled softly: "Okay, thank you!"

The butler carefully retreated to the distance, and Nanako continued to look up at the sky.

For some reason, Marven's appearance suddenly appeared in the cloudy night sky at this moment.

She felt like spring blossoms in her heart, and thought to herself: "Master Ye, don't know if it snows in Wrestvel? I wonder if you are looking at the night sky above your head now? don't know, do if you will think of me?"

Chapter 1680

Thinking wildly, the phone in her pocket suddenly vibrated.

She took out her mobile phone and found that it was Hiroshi Tanaka who was calling, so she hurriedly put away her thoughts, connected to the phone and smiled: "Tanaka, why call me so late?"

Hiroshi Tanaka sighed and said, "Miss, something happened today. The president is very angry. He just smashed a lot of antiques in the house."

Nanako felt nervous, and hurriedly asked, "Tanaka, what happened? Is father having any trouble?"

Koichi Tanaka said: "Today, the president took me to Kobayashi Pharmaceutical, intending to sign a share agreement with the board of directors of the company. After the agreement was signed, the president and the financial staff sent 4.5 billion USD to the account of the company." Then some people came in and the trouble began.

When Nanako heard this, she asked in a puzzled way: "Isn't my father always wanting to invest in Kobayashi Pharmaceuticals? Today this is what he wanted, so why is he angry?"

Hiroshi Tanaka said helplessly: "Before the president, the financial staff made the payment, we didn't know that company had actually changed hands."

“Changed ownership?” Nanako asked in surprise, “What’s the matter? Didn’t it mean that Jiro is missing? Is he back again?”

“No,” Koichi Tanaka explained: “It’s not Jiro who is back, but Jiro’s brother, who is said to have been dead, suddenly came back alive!”

“Huh?” Nanako said with a bit of sorrow: “What’s the matter? Why am I getting more and more confused?”

“Hey” Hiroshi Tanaka sighed and said, “This is nothing. The point is that Ichiro, as the sole heir of Kobayashi Pharmaceuticals, transferred all the shares of Kobayashi Pharmaceuticals, 90% that is to be exact, to a Chinese company called JX Pharmaceuticals.”

Nanako was surprised and said: “Isn’t my father investing in Kobayashi Pharmaceutical for 30%? Then Ichiro only has Kobayashi Pharmaceutical 70% shares. How can he transfer 90% of the shares of the company?”

Hiroshi Tanaka said in a stunned voice: “This is the reason why the president is angry! He signed a share agreement with Masayoshi, the acting president of Pharmaceuticals, and paid after the signing, but Ichiro is back, which means The equity agreement signed by Masayoshi is invalid.”

Nanako nodded slightly and said, “So, my father’s plan to buy a stake in Kobayashi Pharmaceutical has been lost?”

“It’s more than an intention to fail,” Tanaka sighed: “The chairman of JX Pharmaceutical clearly told the president that Ito Co., Ltd. remitted the 4.5 billion USD to Kobayashi Pharmaceutical, he will not refund!”

“Ah?!” Nanako exclaimed, “How come there is such a shameless person? The act of holding shares is an equity transaction. When we pay, the other party must pay the corresponding shares. If the other party is unwilling to pay the shares, then it must return the money the same way, and even paying liquidated damages, why did the other party not give us shares and deduct our money?! This is too much, right?! Doesn’t he know law?”

Koichi Tanaka said very depressedly at this time: “Miss, the other party is simply an extrajudicial fanatic!”

“Extrajudicial fanatic?” Nanako frowned: “With the character of her father, it is impossible to be willing to suffer from this dumb loss, right? Does he have no countermeasures?”

Hiroshi Tanaka sighed: “Of course the president is not willing to suffer from this dumb loss. He originally wanted to fight the other party desperately, but he was persuaded by me. the president can’t offend him! Oh, right, speaking of it. You even know this person, Missy.”

“I know?” Nanako asked in surprise, “Who is he?”

Koichi Tanaka said: “That’s Aoxue’s coach, Marvin Ye who injured Mr. Yamamoto Kazuki with one palm!”

“What? Master Ye?!”

When Nanako heard this, she exclaimed in excitement, and blurted out: “Master Ye has come to Japan?!”
