

## The Amazing Son In-Law Chapter 1741-1750

### Chapter 1741

Aman Hotel Tokyo.

After taking a shower, Zhiyu turned on the laptop in her room, and again, together with her brother, had a video conference with Zynn who was far away in Orgeyon.

The two, brother and sister, truthfully reported Takahashi's huge concession to Zynn, and Zynn was greatly surprised.

In Zynn's view, Takahashi's true knowledge is too high, not only has the determination to kill the Ito family, but also has the consciousness of letting Lee give the Su family and be willing to be a younger brother.

Such a person can be said to be teachable.

Zhiyu said: "Dad, we will meet Takehiko from the Ito family tomorrow as agreed in advance, but I think Takehiko has already lost his competitiveness in this cooperation. The first one really knows better conditions."

Zynn gave a hum, and laughed: "Then go through the cutscene. After finishing the superficial work, you can sign with the Takahashi family, but before signing, you have to go to the major ports in Japan. Take a look at the actual operations of Tokyo, Yokohama, Nagoya and Osaka Ports."

Zhiyu nodded and said, "Don't worry, brother and I have already planned the schedule."

"That's good." Zynn smiled with satisfaction: "I didn't expect Machi Takahashi to be willing to reduce the share to 25%. You must know that your grandfather's psychological price was 30% at the time, and the maximum tolerance limit was 35%. Directly on the basis of his tolerance limit, he cut down 10%. After the contract is signed, your grandfather will be very happy and will definitely give you great credit!"

Zhifei smiled and said, "Dad, if Grandpa really gives us a great credit, can you let him give the entire ocean shipping business to our family?"

Zynn smiled and said, "I will definitely win this business from the Old Master, and I think the probability of the Old Master agreeing is very high. You will do a good job of preparing for cooperation in Japan. Then I will talk to the Old Master. Talk about it, try to let him give this business to your brothers and sisters."

Zhiyu hurriedly waved his hand: "Dad, I don't want to do it, just let Brother take over."

Zynn asked in amazement: "Why? Why don't you want to do such a good opportunity?"

Zhiyu said seriously: "I will go to the United States to study for an MBA after finishing this matter."

Zhifei hurriedly said, "Oh, grandma, you are so talented, what MBA is you still studying? It's a waste of time. It's better to go back to work in the family earlier and lock up some resources in advance!"

Zhiyu shook her head: "Learning is endless. I don't want to come back to work so early, and I am not so interested in family resources."

Zynn hurriedly said: "Zhiyu, you are not too young anymore. It's almost time to consider marriage. MBA is too time-consuming to get through. It's better to get married in two years."

Zhiyu asked back: "Get married? To whom?"

Zynn said: "Your grandpa will naturally help you choose the best one."

"I don't want it." Zhiyu shook her head: "If I let my grandfather choose for me, then I might as well find someone who looks pleasing on the streets of Tokyo and marry casually."

"Stop talking!" Zynn angrily said: "Don't let your grandpa ask you to go to Japan to talk about cooperation, but he will never allow you to marry a Japanese!"

Zhiyu curled her lips and deliberately said to Zynn sullenly: "Who said I was going to marry a Japanese? There are also many Chinese people on the streets of Tokyo, okay? I met one on the way, who was tall and handsome. He's pretty fanciful, I think he's pleasing to the eye, or I can marry him, it's much better than going back and letting my grandfather choose for me."

Zhifei said awkwardly: "Do you know his name?"

Zhiyu hummed: "I'm just making an analogy. It doesn't matter what his name is. I can ask him next time I meet."

Zhifei smiled and said: "I guess there is no chance to see him. With Takahashi's character, he will definitely not let him leave Japan alive."

Zhiyu raised his eyebrows and said: "How do you know that Takahashi can kill him? I think that man is very capable, and Takahashi may not be able to do anything to him."

Zhifei shook his head and said with a smile: "The strong dragon does not hold down the snake. Even if the two fists can beat four hands, they may not be able to beat forty or four hundred hands."

## **Chapter 1742**

Hearing this, Zhiyu's expression became a bit solemn.

What she said just now was just to anger her father, but when she really thought of the figure of that man, Zhiyu was quite worried for him.

Thinking that Machi Takahashi might not let him go easily, Zhiyu blurted out: "Next time I have an interview with Machi Takahashi, I will warn him. If he dares to quietly attack that man after the cooperation is reached, then I terminate cooperation at any time!"

“Naughty!” Zynn sternly scolded, “As the representative of the Su family, everything must be based on the interests of the Su family. How can you let a strange man affect the interests of the Su family?! As long as we can get Machi Takahashi The biggest concession clause, what does the life and death of this strange man have to do with us?!”

Zhiyu also moved a bit of anger, and argued for reason: “The man offended the Takahashi family to save a little girl from bad boys. How can I let the Takahashi family kill him?”

Zynn said disdainfully: “When the Takahashi family kills him, don’t you just look at it?”

Zhiyu said angrily: “Dad! How can you do this?! Are there any principles and ethics?”

“Principles and ethics?” Zynn said coldly: “My principles and ethics are for the interests of the Su family! For the interests of the Su family, I don’t need any principles and ethics!”

“I...”

Zhiyu was speechless.

Zhifei hurriedly finished the game at this time: “Dad, Zhiyu, we haven’t finished talking about our business, why are you two still arguing?”

Zynn said with a gloomy expression: “Okay, don’t talk about these meaningless things, Zhiyu, you’re going to study the MBA, let’s discuss it after you come back.”

“No need to discuss.” Zhiyu said with a very cold expression: “The admission notice of Harvard Business School has been sent to my mailbox. School starts in August, and I will leave in May.”

“You kid!”

Zynn was about to say something. Zhifei just received a call on his cell phone. The call was from an assistant who came to Tokyo with them.

The other party said in WeChat: “Young Master the patriarch of the Matsumoto family in Tokyo, Ryoto Matsumoto begs to see you and the young lady at the hotel reception!

“The Matsumoto family?” Zhifei frowned, “Is the Matsumoto family ranked third in Tokyo?”

“Yes!”

Zhifei looked at the video conference interface on the computer and asked, “Dad, Zhiyu, the Matsumoto family’s man, want to see us, do you want us to meet?”

Zynn said disdainfully: “As far as I know, the strength of the Matsumoto family is much worse than that of the Takahashi family and the Ito family. We only need to choose between the Takahashi family and the Ito family. There is no need to waste energy planting garbage.”

Zhifei said to the assistant on the phone, "Reject the Matsumoto, just say that I have taken a break and I will not see guests."

Zhiyu opened his mouth at this moment: "Brother, let's see. This Ryoto Matsumoto still has some abilities. It is really not easy to bring the Matsumoto family together on his own, and as the saying goes. The smiley man, the patriarch of a family came to the hotel to see you personally. This has already put the figure very low. If we don't even see him, it will be more or less justifiable."

Zynn opened his mouth at this time: "Zhiyu, you like to think more about things. This is good, but you can't think about everything so much. It will be too late! If you see this Ryoto Matsumoto tonight, maybe tomorrow The 4th, 5th, and even the 40th and 50th families in Tokyo will come to the hotel to ask to see you. Can you handle it?"

"This" Zhiyu didn't know how to answer at once.

Zynn continued: "Okay, this matter is still up to your brother, reject it."

Zhiyu nodded: "Okay"

### **Chapter 1743**

The lobby of the Aman Hotel.

Ryoto Matsumoto, who is not yet forty years old, is looking forward to meeting with the Su family.

He personally came to the hotel to meet the Su family this time, hoping to use a humble attitude to seek an opportunity to interview the Su family.

Although the strength of the Matsumoto family is not as good as that of Takahashi and Ito, Ryoto Matsumoto feels that his ability is not weaker than anyone, and he is young and bold. He is definitely the ideal partner for the Su family.

However, the Matsumoto family had insufficient precipitation in the early years, and it was far from the Takahashi and Ito families.

Although Ryoto Matsumoto resolutely led the Matsumoto family to develop rapidly and catch up with them, there was still some distance from them.

In fact, the Matsumoto family can be said to be the fastest rising family in Tokyo.

Ten years ago, it was unknown. Today, ten years later, it is second only to Takahashi and Ito. This speed is regarded as a miracle to the outside world.

Therefore, Ryoto Matsumoto believes that as the head of the family, he came to the hotel to ask for a meeting in person, which definitely gave the Su family a lot of face.

However, he didn't know that in the eyes of the Su family, the strength of the Matsumoto family was about half that of the Takahashi family or the Ito family, so the Su family naturally wouldn't take him in their eyes.

At this time, Ryoto Matsumoto is full of confidence. He is a recognized business genius in Japan, a young and rich man who has the real ability to fight the world, so he thinks that the Su family should give him a chance to have an interview, and he will definitely use it. Their eloquence and vision convince them to cooperate with them.

Ryoto Matsumoto's assistant was somewhat apprehensive, and said, "Boss, do you think the Su family will be willing to cooperate with us?"

Ryoto Matsumoto tidied up his suit and tie, and said confidently: "When I meet in a while, I will use my abilities and charm to make the Su family realize that my Ryoto Matsumoto is their most perfect partner! As for Takehiko Ito and Machi Takahashi, they are just a bunch of old men with outdated thinking and worrying abilities!"

As soon as the voice fell, Su's assistant made a call to the front desk.

The little girl at the front desk answered the phone and immediately came to Ms. Matsumoto, bowed and said: "Mr. Matsumoto, I'm really sorry, Mr. Su and Ms. Su don't have time to see you, please go back."

Ryoto Matsumoto was stunned, and after a while, he asked in a daze, "What are you talking about? They don't have time to see me?!"

The little girl at the front desk nodded slightly and said, "It is true, so please go back."

Matsumoto immediately felt hot on his face!

I am also the patriarch of the Matsumoto family anyway, and a leader among young Japanese entrepreneurs. Those who came to the hotel to meet with the Su family in person can say that they have put their identity very humble.

But I never dreamed that even though I came to see them so humbly, I would still receive the most ruthless and direct insult from the other party!

"No time?!"

"Just let me go if they don't have time?!"

"The Su family is too arrogant, even too much, right?!"

"Even if you are China's top family, even if you do have very good big projects, you can't put my face on the ground, right?!"

"What's more, if you step on my face, you don't step on it yourself, let a hotel front desk step on it. Where do you put my face?!"

Thinking of this, Ryoto Matsumoto had a dark face and said coldly to the front desk: "Contact them again and tell them that I am the patriarch of the Matsumoto family and the president of the Tokyo

Young Entrepreneurs Association. I came here today just to see the young master and young lady of the Su family, so that they must take time to talk to me once!”

#### **Chapter 1744**

The front desk was frightened by his hideous expression, and he said falteringly: “You gentleman, I’m really sorry! The assistants of the two distinguished guests have clearly told us that the two distinguished guests really don’t have time to see you, so please don’t embarrass us...”

Ryoto Matsumoto’s original strong self-confidence was instantly crushed by the powder hit by the front desk girl!

He cursed almost hysterically, “My name is Ryoto Matsumoto, not ‘You gentleman’! Do you understand?”

The girl at the front desk took a few steps back in fright: “I’m really sorry, Mr. Matsumoto, I’m just passing on the reply from the guest. Please forgive me...”

In the lobby, many people watched Matsumoto whispering.

These people whispered in twos and threes. Although they couldn’t hear what they said, from their expressions, Matsumoto could see that they were all laughing at him!

He has always been arrogant, thinking that he is in the top spot among young Japanese companies in terms of ability.

Unexpectedly, he took the initiative to come to see them, but the other party didn’t bother to see him!

This made Matsumoto very resentful in his heart.

Ryoto Matsumoto clenched his fists and gritted his teeth, and his entire popularity trembled violently.

The more confident and conceited people are, the worse their psychological endurance.

The more people feel that everyone has to look at them, the more afraid of being looked down upon by others.

Ryoto Matsumoto is the most typical example.

At this time, he was angered to the extreme in his heart, but he couldn’t find a source to vent.

And his blushing appearance made the people around him despise the sarcasm.

Although many people may not have the strength and wealth of Mr. Matsumoto, they see Mr. Matsumoto making a fool of himself in the public, and they are still very dark in their hearts.

Seeing that everyone was laughing at him, Matsumoto’s assistant hurried forward and said in a low voice, “Boss, let’s go first, in case someone has something good take out their phone and shoot the video and put it on the internet. It’s hard to deal with the impact of...”

Matsumoto gritted his teeth and nodded lightly.

The moment he turned and left, he felt the whole world laughing at him behind his back.

Bite the bullet and return to his car, Matsumoto immediately urged the driver to drive as soon as he got in. He was afraid that he would walk slowly, and would make people laugh, for fear that the ridicule of those people would fall into his ears.

The assistant could not help but persuade him: "Boss, the Su family must feel that our overall strength is still much worse than that of Takahashi and Ito, so they are regarded as cooperation options and do not want to waste time with us, but this must be their loss!"

Matsumoto was silent for a long while, with bloodshot eyes, gritted his teeth and said, "Want to choose between Takahashi and Ito? Very good! Since they don't want the face, don't blame me for being cruel! This time, it happened to be. I have a great opportunity to surpass Takahashi and Ito in one fell swoop!"

The assistant asked in surprise: "Boss, you...what do you mean by this? Why can't I understand..."

Mr. Matsumoto said in a cold voice with a vicious expression: "You don't need to understand, just do as I tell you!"

The assistant immediately said: "Boss, just give your orders!"

Ryoto Matsumoto said coldly: "The first thing, I write a check for 20 million. You take it to the head of the Iga family and tell him that it is only a deposit. If he is interested, come to the house. We will talk, if he is not interested, the money will be my gift to him!"

## **Chapter 1745**

The Kobayashi Pharmaceutical production line in Nagoya has soon been able to produce qualified Weisan.

This is mainly because Kobayashi Pharmaceuticals itself is a top pharmaceutical company in Asia, with very advanced production lines, even more advanced than those of JX Pharmaceuticals back in China.

Therefore, their production line switched to JX Weisan, as long as the formula and medicinal materials are in place, there is almost no difficulty.

After the production line went into normal operation, Marven left Nagoya and headed to Osaka together with the group of people.

Because there is Kyoto between Nagoya and Osaka, according to Marven's original plan, after Nagoya's affairs are over, he plans to go to Kyoto and see Nanako.

However, there are three ninjas following all the way right now, and he doesn't want to bring these three people to Kyoto.

So, he planned to solve these three people in Osaka, and after all the troubles are dealt with, he will go to see Nanako.

After making this decision, he felt somewhat regretful.

He thought he could see Nanako earlier, but he didn't expect to wait until the end of the trip to Japan this time.

Marven was more worried about her body, and didn't know how she was doing now.

When Marven left Nagoya, he found that Tenglin's three ninjas seemed to be more low-key than before.

They doubled the distance to follow Marven, and were completely afraid to approach him. On the one hand, it seemed that they were throwing a rat for the unknown whereabouts of Tenglin Qingtian, and on the other hand, because they could not figure out who was secretly targeting them. So were more cautious.

The convoy drove onto the expressway and passed by Kyoto.

No one knows that the seemingly calm and quaint ancient city of Kyoto at this time has actually been feeling undercurrents.

Machi Takahashi felt that Takehiko was secretly targeting him, so Tenglin transferred a group of ninjas from the family, who had already lurked to Kyoto secretly, and closely monitored the Ito family's residence in Kyoto.

Once Machi Takahashi orders them, they can kidnap Nanako or kill her directly.

And Takehiko Ito was unaware of these at this time. At this time, he was meeting with Zhifei and Zhiyu in Tokyo.

However, the meeting process was not pleasant.

Although Takehiko is very enthusiastic, he can also see that Zhifei and Zhiyu seem to have come and walk through the scene.

Although the two brothers and sisters are also very polite and serious, and they talk very comprehensively, Takehiko always feels that, deep in their hearts, they are not very concerned about this cooperation.

At the meeting, he proposed to obtain a 35% share in the cooperation. Originally, he wanted to leave 5% room for a counter-offer to the other party, and it would basically be possible to reach a consensus by letting the other party press down to 30%.

However, he did not expect Zhifei to directly throw a sentence: "Mr. Ito, from the opinion of our Su family, if it is higher than 20%, we can't think about it."

"what?!"

Takehiko was immediately stunned, and exclaimed in his heart: "20%? This is too d\*mn dark!"

## **Chapter 1746**

Zhifei has his own consideration.

In the view of the Su family, Machi Takahashi has two advantages compared with Takehiko: first, he wants to kill the Ito family; second, he is willing to reduce the share to 25%;

Therefore, looking at Takehiko now, he thinks that Takehiko must be at least equal to Takahashi's two points, and the other point is better than Takahashi's conditions.

The first is to kill the Ito family, which is already an extreme request.

Whether it is asking the Takahashi family to kill the Ito family or asking the Ito family to kill the Takahashi family, as long as it is killed, it will be the ultimate.

Therefore, even Takehiko is willing to join hands to kill the Takahashi family. At this point, he is only equal to Machi Takahashi.

In this way, unless he can get more favorable terms than Machi Takahashi's expulsion on the second article, there is no need for the Su family to consider it.

That's why he offered a 20% share. If Ito agrees, then persuade him to agree to join forces to kill the Takahashi family. In that case, he won another 5% interest for the Su family.

However, as soon as Takehiko heard about 20%, he couldn't stretch himself immediately.

He was very angry and secretly thought: "I want 35%, you give me 20%, and he said that if it is higher than 20%, it will not be considered, and there will be no room for bargaining. This is too much, right?"

"This matter requires me to take advantage of my own domestic port and let you foreign capital come in to make money, but you only let me account for only 20%. Isn't it a bit deceptive?!"

Thinking of this, Ito's anger rose in his heart. He said coldly to Zhifei: "Mr. Su, 20% is too low. I admit that the Su family is strong and there are many ocean-going ships in hand, but you can't do that either to squeeze me this hard?"

Zhifei said seriously: "Mr. Ito, the squeeze is far from talking, but we do have a lot of initiative now. Japan's economy is now declining. It is difficult for you to do this business at this stage. You want to earn this money, only cooperate with us."

After a pause, Zhifei said: "Although the 20% is less, after the business is running, the amount of this piece is still very large. If we make 10 billion USD a year, the Ito family can share 2 billion. , What is the concept of two billion USD? I believe it is impossible for the Ito family to have so much profit in a year, right?"

Takehiko shook his head and said, "Mr. Su who does not calculate the account like this. If I do this by myself, although I may not make an annual profit of 10 billion USD, the problem of doing more than 1 billion is not big. If you work hard by yourself, maybe you can achieve the scale of two to three billion. If you look at it this way, am I not at loss?"

Zhiyu spoke with a bit of arrogance at this time: "Mr. Ito, you just said that you might be able to achieve the scale of two or three billion USD with your hard work. In my opinion, it is impossible."

Takehiko Ito frowned and asked, "Why is it impossible? My family is one of the best in Japan!"

Zhiyu smiled and said with a bit of pressure: "To be honest, if the Su family is not ready to do this business, you may have this opportunity, but since the Su family is going to enter the market now, then the Su family is there. It is certainly impossible for you to do such a large scale, and even the Su family may not allow you to do this business."

Takehiko's pride was hit hard.

He did not expect that Zhiyu, who had never spoken very much, could speak so directly!

It can even be said that they don't give any face to Takehiko!

Feeling the shock, Ito's unconvinced emotions burst instantly. He gritted his teeth and said coldly: "If this is the case, then there is no need to talk about it. The Ito family will operate this business by themselves! You will see with your own eyes how I do this business!"

Zhiyu smiled slightly: "Mr. Ito, then I wish you good luck!"

#### **Chapter 1747**

The negotiations between Zhifei, Zhiyu, and Takehiko ended up unhappy.

When the brother and sister left Ito Co., Ltd., Takehiko scolded the two angrily on the spot.

On the way back to the hotel, Zhifei asked Zhiyu: "Zhiyu, I just planned to flicker Takehiko, and see if he can agree to the 20% ratio. Why did you suddenly turn your face with him?"

Zhiyu smiled slightly and said, "20% is obviously lower than the lowest price he can afford, so no matter how you talk to him today, he will not be able to agree to this ratio. If you really want to force him, you must give him enough pressure."

Zhifei asked: "Do you have any good ideas?"

Zhiyu said: "You call Machi Takahashi, saying that you plan to sign a contract with him tomorrow, but before signing the contract, you have to talk to him about the details. The time is set to be tomorrow morning."

Zhifei asked: "How do you say? It's so decided. Give them a contract?"

“No.” Zhiyu said indifferently: “I plan to sign the contract, but the details have to be finalized. We can just find a reason and say at that time. There are some details that need to be discussed again, and I can move the signing date later. Right?”

While speaking, Zhiyu said again: “If you let the wind go now, Takehiko will definitely be very anxious. If not tomorrow, he will lower his posture and take the initiative to talk to us again.”

Zhifei nodded and said, “Okay, then listen to you, I’ll call Machi Takahashi!”

Machi Takahashi received a call from Zhifei. When he heard that the Su family was about to sign a contract with him, he was so excited!

Later, while arranging his staff to prepare for tomorrow’s signing ceremony, he let people go out and told the whole of Tokyo that the Su family was ready to sign with him.

This news immediately spread among the Tokyo business elite.

Countless people called and sent messages to congratulate Machi Takahashi, because they believed that once the Takahashi family and the Su family cooperate, the Takahashi family will surely surpass the Ito family and become the first family in Japan!

Takehiko also received the news very quickly. He was still angered, but after hearing the news, he almost went out of anger.

He did not expect that as soon as the news came out, the Takahashi family would become a hot target.

Now, the entire Tokyo city is beginning to chase Machi Takahashi, who regards Machi Takahashi as the future richest man in Japan, immediately let Takehiko realize the meaning of Zhiyu’s previous words.

If the Su family united with the Takahashi family, he would definitely not have a bright future.

If this were the case, the Ito family seemed unscathed, but actually suffered heavy losses.

In the past, he was able to equalize with the Takahashi family, but if this cooperation is lost, the Takahashi family will quickly leave him behind.

At that time, all the aura on him will be robbed by Machi Takahashi.

The invisible loss is almost immeasurable!

Takehiko, who was extremely bored, shut himself in the room and thought about it all afternoon.

In the end, after nightfall, he reluctantly made a decision and called Su family to try to talk again.

If it doesn’t work, I will directly agree to the 20% cooperation terms of the Su family.

At this moment, Zhiyu and Zhifei had just finished eating in the revolving restaurant on the top floor of the hotel. After the two returned to their rooms, Zhiyu was going to take a bath first.

At this time, the door bell rang, and she saw from the LCD screen that her brother was knocking on the door, so she opened the door by hand.

Zhifei stood at the door, holding his mobile phone, and said with a smile: "Zhiyu, you are a god! Takehiko just called me!"

Zhiyu leaned on the door frame and asked with a smile, "What did he say?"

### **Chapter 1748**

Zhifei said excitedly: "He means he is willing to consider our proposals and conditions, but he still hopes to have a face-to-face talk. What do you think?"

Zhiyu said, "I think it's okay. Call him back and ask him to come to the hotel to talk to us early tomorrow morning. If the talk is good, we will cooperate with him. Machi Takahashi won't be there. Let's talk again; if the talks are not good, we will go directly to sign the contract with Machi Takahashi!"

"Okay!" Zhifei said eagerly: "I'll call him back!"

As soon as Zhifei's voice fell, four black-clad ninjas suddenly rushed down from the ceiling of the hotel corridor?!

Zhiyu and Zhifei hadn't had time to react, they were already subdued.

Zhiyu roared in horror: "Who are you?!"

One of the masked ninjas said coldly: "Miss Su, I'm Mr. Ito's subordinate. I have something to do with you, so please cooperate!"

"What?!" Zhiyu and Zhifei were both dumbfounded!

Zhiyu was horrified, and thought to himself: "Takehiko just called and said that he was going to negotiate with them again. Why did he send ninjas to them in a blink of an eye?!"

"Could it be that his renegotiating is false and the kidnapping is true?"

Zhiyu hurriedly blurted out: "You people, is there any misunderstanding in this? We are just about to renegotiate the meeting with Mr. Ito. What are you doing?"

The man grinned: "Ms. Su, ask what you should ask, don't ask what you shouldn't, just walk with us, we won't kill you, but if you want to resist, or use some tricks If you do, I'm sorry, I will let you two die in Japan!"

Zhiyu realized that something might be wrong, and blurted out: "You people, if it's about money, you can speak as much as you want. No matter who you are instructed, I can give you double or even triple four times the price!"

The man sneered and said, "Sorry, we ninjas always pay attention to credibility, so I ask Miss Su and Mr. Su to cooperate!"

Having said that, he immediately winked at the two people around him!

The two men immediately took out two special handkerchiefs from their pockets.

A large amount of ether was spilled into the handkerchief.

Before Zhiyu and Zhifei could scream, they were tightly covered with a handkerchief.

Immediately afterwards, the smell of a chemical potion puffed up the nose, making the two of them immediately unconscious!

Afterward, the two ninjas carried the two siblings on their shoulders, tied them firmly with straps, and threw the downhill rope directly from the window of the hotel room, leading them to slide down the ground from the wall as light as a swallow.

Outside, two commercial vehicles had been waiting for a long time. After the black-clothed ninja carried the unconscious Su brother and sister into the vehicle, the two commercial vehicles drove away from the scene quickly!

This series of kidnappings was nothing short of passing, and no one in the entire hotel knew that the Su members had been abducted!

What is even more frightening is that more than a dozen people from the Su family have been poisoned to death in their respective rooms at this time.

It was the military sarin gas used by this group of ninjas that kill them.

This poisonous gas is a military chemical weapon. In 1995, someone used this highly poisonous chemical weapon to cause a terrorist incident on the Japanese subway.

After sarin gas invades the human body through the respiratory tract or skin and mucous membranes, it can cause the death of the victim in a very short time, and the lethal dose is even only 10 mg.

After the two cars drove quickly away from the hotel, the man in the car took out his mobile phone and made a call: "Mr. Matsumoto, the people have been caught, and all the other people in the Su family have died. In their room, secretly, we left the exclusive mark of the Tenglin family!"

On the phone, Matsumoto's excited voice came: "Very good! Very good! You will take them to Kyoto to wait for my orders, kill them when needed, and hide their bodies in the Ito family's mansion in Kyoto! After the death of Su's family's grandchildren and eldest granddaughter, Takehiko's death is unclear! However, there was an exclusive imprint of the Tenglin family on the scene. Ito will definitely think that all of this is the fault of Takahashi, grandson. The family will definitely send someone over to avenge their heirs. Here will be a good show!"

## **Chapter 1749**

The hotel quickly discovered the anomaly.

It was the guests downstairs who first discovered the problem. They found that there were two ropes outside the window, so they informed the hotel reception.

The front desk of the hotel found Zhiyu's room directly according to the room number found by the rope.

When they found that Zhiyu's room was empty and the scene was a bit messy, the person in charge of the hotel immediately panicked!

The Su brothers and sisters are not only their distinguished guests, but the Su family is also one of the shareholders of Aman Hotel Group. Naturally, they dare not neglect any such thing.

Soon after, they came to the room of Su's entourage, looking for someone to ask what happened.

Unexpectedly, besides the corpse in the room, there was nothing!

All the entourages and assistants in the Su family died tragically in their respective rooms!

The death is terrible!

The hotel manager was so scared on the spot that his legs were soft, and he sat on the ground with a puff, and then he wetted his crotch!

In the hotel he managed, more than a dozen people died at once, all of them from the Su family!

Even more desperate is that Zhifei and Zhiyu two brothers and sisters have disappeared!

This is the eldest grandson and eldest granddaughter of the Su family!

They are definitely the two most outstanding of the Su family's generation!

Unexpectedly, they were kidnapped in the hotel he managed!

If the Su family held him accountable, it would be hard for him to die!

He hardly dared to delay, and while letting people call the police, he called his boss, the chairman of the Aman Hotel Group.

He wanted to notify the Su family's situation immediately, so as not to blame the Su family for not reporting in time.

However, in his capacity, he was not qualified to directly contact the Su family, so he could only call the boss, and the boss would relay it on his behalf.

The chairman of Aman Hotel Group was in Dubai at this time. After hearing this, he almost suffered a heart attack on the spot!

Zhifei and Zhiyu were kidnapped in their hotel?

This is simply a great disaster!

What if the two of them really have a shortcoming, the Su family can't destroy him? !

So he immediately called Zynn who was far away in Orgeyon!

After hearing the report, Zynn's blood pressure surged and he almost passed out.

Fortunately, he was rescued in time, and fortunately, there was no serious problem.

However, when they heard that Zhifei and Zhiyu were kidnapped in Japan, the whole Su family was extremely angry!

Mr. Su immediately let all the hermit masters of the Su family fly to Tokyo overnight, and issued two consecutive iron orders:

The first is to dig three feet of land in Tokyo, but find and rescue Zhifei and Zhiyu alive!

Second, find out who is behind the scenes, and if the Su family owns it, they must also punish the whole clan!

### **Chapter 1750**

An hour later, the two private jets took off one after another at Orgeyon International Airport, and nearly 100 top masters from the Su family were dispatched to Tokyo!

At this time in Tokyo, undercurrents are already surging under the calm surface!

After the police in Tokyo learned about this, they were so scared that they blew up the pot!

They know that this kind of killing more than a dozen people and kidnapping two people is not only extremely bad in nature, it is more likely to rise to an international incident!

As a result, the Tokyo police immediately blocked the Aman Hotel, and officers from the Investigation Section were searching for all valuable clues inch by inch.

They first found the mobile phone that Zhifei left behind in Zhiyu's room, and found the call records between him and Takehiko, and then in the room of Su's entourage, they found a ninja dart with the Tenglin family totem.

As soon as these two clues came out, the Tokyo police became even more powerful!

The director of the Tokyo Metropolitan Police Department (TMPD), who came to supervise the scene personally, paled in shock after receiving these feedback.

He looked at the technicians below and asked loudly, “Are you sure that both the Ito family and the Takahashi family are suspected?!”

The police chief in charge of the on-site investigation blurted out: “Director, there is a gossip that both Ito and Takahashi are trying their best to reach cooperation with the Su family, but the Ito family seems to have fallen behind, so they have done something to the Su family. Motivation, and the ninja darts of the Tenglin family were discovered at the scene, and the Tenglin family is under the Takahashi family, so this incident may be the Takahashi family arguing for the Ito family. In short, there are suspicions for both sides... ..”

The chief of the TMPD wanted to cry without tears, and blurted out: “Just the news of the deaths of a dozen people is likely to make a global sensation, not to mention the use of sarin to kill people, this can be regarded as a terrorist attack! It turns out that the eldest grandson and eldest granddaughter of China’s first family is kidnapped. Now you tell me that Master behind the murderer may be one of the two largest families in Japan. How can this case be solved?”

The other party also said helplessly: “Director, I don’t want to make the case so troublesome, but the evidence chain of the case is like this, and our top priority now is to find out the two members of the Su family. If they are dead, and our TMPD will definitely become the laughing stock of the world!”

The chief of the TMPD angrily said: “Let all the police in Tokyo move! Even if you dig the entire Tokyo three feet, you must find people for me!”

The TMPD’s battle was so big that the entire Tokyo metropolis suddenly exploded.

The first to receive news was the big family in Tokyo.

Takehiko had not received Zhifei’s reply, so he took the initiative to call him. After calling him a few times and no one answered him, he immediately sent someone to find out the situation. When he heard the news, he was struck by lightning.

He couldn’t understand, who was so bold that he dared to do something to the Su family.

Although he knew that before Zhifei was kidnapped, he had just talked to him on the phone, but after all, he hadn’t done anything extraordinary, so he had a clear conscience, and he didn’t expect this matter to have anything to do with him.

However, after Machi Takahashi heard about this, he was immediately confused.

Zhifei had already said that he would sign a contract with him tomorrow morning, but was suddenly kidnapped with his sister? Isn’t this a good thing or bad for himself?

When he thought of this, the first suspect he thought of was Takehiko!

This is not only because the Ito family is its biggest competitor, but also because of the death of Tenglin Qingtian, it is highly suspected that it has something to do with Takehiko!

The unclear death of Tenglin Qingtian gave Takahashi a feeling of being watched. Now that the Su brothers and sisters have been kidnapped again, he has naturally attributed it to Takehiko.

Thinking of this, he suddenly became nervous!

Ito can kill more than a dozen people from the Su family and kidnap the Su family siblings, maybe he will do it on himself too!

So many people in the Su family have been killed, which proves that the manpower of Takehiko's organization is very strong, and he must strengthen his safety protection!

So he immediately called Tenglin, who was monitoring Marven, and said nervously as soon as he opened his mouth: "Tenglin, the three of you come back to Tokyo quickly, come back now!"

Tenglin asked in surprise: "Come back to Tokyo now? Mr. Takahashi, don't we need to follow the subject?"

Machi Takahashi blurted out: "You can't take care of him anymore. The b@stard Takehiko is probably the one who tied the Su family. This time I'm afraid I'm going to die! Come back and protect me!"
