

The Amazing Son In-Law Chapter 2051-2060

Chapter 2051

At this moment, Warnia was very upset.

She didn't expect Nippon Steel to be so difficult to chew.

Moreover, during the entire negotiation process, she has been very passive, prepared so many hole cards, until the last hole card was also opened, and failed to finalize the cooperation.

Deep down in her heart now, she has a strong sense of frustration.

And she also had a hunch that she always felt that it would be difficult to get the result she wanted in this negotiation.

Maybe, this time she will return without success.

On the way back to the hotel, she told her family about her guess.

Although Mr. Song was a little disappointed, he still encouraged her and said to her: "Warnia, this time you are cooperating with Nippon Steel, you shouldn't put too much pressure on it. It's good if this matter is negotiated, it's not right for us. There is no loss, nothing more than a little less, it doesn't matter."

Honor also sent a message, saying: "Yes Warnia, Nippon Steel is notoriously difficult to eat. There are so many companies in China who want to cooperate with them in-depth, but none of them really reached a conclusion. So even if it's really impossible to talk about it, there is nothing to lose."

Honor's words immediately aroused the potential competitiveness in Warnia's heart.

She feels that the more people and so many companies have failed to achieve, the more she wants to win it!

Otherwise, she would become one of the countless losers.

However, the current situation is not very clear, so Warnia dared not be too confident, so she said in the group: "Tomorrow I will try my last time to achieve success, but forget it."

Grandpa Song said: "It's okay. Don't worry too much about success or failure. Grandpa doesn't want you to wrong yourself for business, understand?"

Warnia felt a little more comforting, and replied: "OK, grandpa, I see."

Honor said with a smile at this time: "Warnia, brother believes in your abilities, and brother believes that if you wake up early tomorrow morning, you will wait for the good news of your successful signing!"

Warnia knew that it was her brother who was comforting her, so she made a smile and said, "Brother, then I will borrow your good words!"

Back at the hotel, Warnia was a little bored, so she didn't even eat dinner. She just stayed in her room alone, combing through the plans she wrote, trying to find out the reason for not moving Nippon Steel.

Due to excessive immersion, she did not realize that it was ten o'clock in the evening.

At this time, her doorbell rang.

She stood up, walked to the door, looked through the cat's eyes, and found that it was her personal assistant, so she opened the door.

Outside the door, the young female assistant said: "Ms. Song, you haven't eaten anything at night. You should be hungry. Would you like me to order some food for you from the catering department and send them to the room?"

Warnia did feel a little hungry, so she nodded and said, "Okay, you can help me order something."

With that, Warnia asked again: "Have you eaten?"

The female assistant nodded: "We have all eaten."

Warnia smiled slightly: "That's good."

Twenty minutes later, the hotel waiter pushed the dining car and delivered the dinner the assistant had ordered for Warnia to the room.

Warnia closed the computer, and just about to sit down and take a bite, she suddenly received a call from Hashimoto.

Chapter 2052

Warnia couldn't help but wonder, "Why did Hashimoto Kinzaki call me so late?! Could it be...could it be that they have already discussed the results?!"

Thinking of this, Warnia inevitably felt a little nervous. She hurriedly connected to the phone and asked, "Mr. Hashimoto, what can I do for you?"

Hashimoto Kinzaki smiled and said, "Ms. Song, I have given feedback to our chairman of your final cooperation intention today. He recognizes your sincerity very much, so let me inform you that I will cut the mess tonight. The contract is signed!"

Warnia did not expect that what she was waiting for was the most anticipated news, and she asked in surprise: "Mr. Hashimoto, what you said is true?!"

Hashimoto Kinzaki laughed and said: "I don't dare to talk nonsense about this. After that, I'm just the representative of the group to negotiate with you. The chairman of our company is the one who really made the decision. Since he has said so, there will be no falsehood."

Warnia said excitedly: "That's great! Mr. Hashimoto, does the chairman of your group want to sign the contract tonight?"

"Yes!" Hashimoto said: "Our chairman's meaning is that since Miss Song is so sincere, then we should also show our sincerity and sign the contract as soon as possible."

Warnia hurriedly said, "Okay! Mr. Hashimoto, please give me an address, and I will be there!"

Hashimoto Kinzaki said: "Miss Song is like this. Our chairman originally took a vacation at the hilltop villa in Nishitama County today, so what he meant is to let you sign a contract in Nishitama County now."

Warnia asked: "Nishitama County? Where is it? I don't know Tokyo very well. Please forgive me..."

Hashimoto Kinzaki said with a smile: "Nishitama County is about 70 or 80 kilometers west of Tokyo. You should be able to get there in more than an hour. Your driver must know the location. If you are convenient, you can come now."

Warnia said without hesitation: "Okay, no problem, I will set out now!"

After hanging up the phone, Warnia immediately called her assistant again, and said with excitement, "Swallow, hurry up and prepare. Let's set off in five minutes and go and sign the contract with the chairman of Nippon Steel!"

"Ah?!" Warnia's assistant Swallow asked in surprise: "Ms. Song, Nippon Steel has agreed to sign?!"

"Yes!" Warnia blurted out: "Their chairman told us to sign the contract now! You should ask the other to prepare quickly, and also ask the driver to prepare!"

"OK, President Song!"

Five minutes later.

Warnia walked out of the room in a hurry.

The two female assistants met her at the door, and Swallow said, "Mr. Song, the driver is already waiting at the door of the hotel. Let's go straight down!"

"Okay!" Warnia nodded, and said eagerly: "Then let's go downstairs!"

In the car, Warnia told the driver the address given to her.

The driver immediately entered the address into the navigation, and while starting the car, he said to Warnia, "Miss Song, the traffic is very smooth now. We will be there in about an hour and 20 minutes."

"Okay." Warnia nodded.

Swallow on the side said at this moment: "Ms. Song, do you want to tell Mr. Song this good news in advance to make him happy?"

"You are right." Warnia just wanted to take out her mobile phone, call her grandpa, and tell her family about her major progress.

However, when she thought of her brother Honor on the way back in the afternoon, she hesitated and thought: "In the afternoon, my brother, in order to cheer me up, joked that I would receive the good news of my successful signing in the morning. I might as well sign the contract first, and wait until tomorrow morning to tell them and give them a real surprise!"

Thinking of this, Warnia put away her mobile phone and said to Swallow: "The contract has not been signed yet. Now I say it, this will be a bit hasty. Let me tell them after the contract is signed and the dust settles!"

Chapter 2053

The vehicle Warnia was in, quickly drove out of downtown Tokyo and continued on toward the mountainous areas in the western suburbs of Tokyo.

Although Japan is mountainous, the capital Tokyo is located in the Kanto Plain, so the entire Tokyo is flat, and there are almost no peaks in the city. One has to go west for dozens of kilometers until Nishitama County before entering the mountainous area.

Mountainous areas are mostly winding roads, but the road conditions are very good. Commercial vehicles continue to drive on the winding mountain roads with nine bends and eighteen bends, and the altitude is gradually increasing.

Because it was in the mountains and it was a long night, almost no cars were driving along the winding road for dozens of kilometers. Looking down from the sky, only Warnia was in the car with its lights on, circling through the mountain road.

She was very happy at this time.

Although in the final cooperation plan with Nippon Steel, the Song family gave up the controlling rights, but fortunately, the controlling rights did not fall into the hands of Nippon Steel, which is a relative compromise solution.

Since taking over as the head of the Song family, Warnia has been working hard, but it is true that she has not made very outstanding results immediately.

Therefore, she personally attaches great importance to this cooperation with Nippon Steel.

I also look forward to using this cooperation to prove to everyone that I really have the ability to make the Song family better and better.

At this time, the car has already run most of the winding mountain road, occasionally when the car drove to the east side of the mountain, one can see the night view of the entire Tokyo east side at the feet.

Sitting next to Warnia, Swallow took out her mobile phone with some excitement. While taking pictures of the scenery outside the window, she exclaimed: "The night view of Tokyo from the mountain is really unique..."

With that said, she tried to take a few photos, and said with some regret: "Oh, it's not clear to take pictures on the phone at night, so I can't capture this kind of mood at all!"

Warnia smiled slightly and said, "If you take a photo at night, the light is too weak, so long exposure time is needed. If you really want to shoot this kind of night scene, you have to find a place with a wide view, use an SLR with a tripod, and use a long exposure. This kind of feeling can be photographed in the same way."

Swallow said in surprise: "Mr. Song, you know photography!"

Warnia smiled and said: "It was popular to join various interest clubs when I was in college. I have fewer cells for singing and dancing, so I chose photography."

Swallow smiled and said, "Then I will learn from you if I have a chance!"

Warnia nodded and said: "If the contract is successfully signed, we will rest in Tokyo for a few days and relax. Then I will buy an SLR and a tripod, and we will come here again to take night shots."

"It's great!" Swallow said cheerfully: "This way, I can stroll around and take a look in Tokyo!"

As they were talking, the vehicle drove into a U-shaped curve on the winding mountain road, and the driver subconsciously slowed down and entered the curve. After a slow and steady turn, a low roar suddenly came in front of him.

The driver subconsciously turned on the high beam, and then he was stunned to find that a full-loaded heavy truck was in the middle of the road, leaping downhill and quickly diving toward him!

The opponent's car is very large, and it is going downhill and extremely fast. Once a collision occurs on such mountain roads, the consequences will be disastrous.

The driver of the commercial vehicle kept flashing his lights and honking his whistle, but the other party remained unmoved.

What's more frightening is that the mountain road itself is very narrow, with only two lanes on the left and right, and the other side is driving in the middle of the road, so there is no room for commercial vehicles to dodge at all!

When Warnia saw this, several questions flashed in her mind: "What's the matter with that truck?! Why doesn't it slow down?!"

Before she could understand, the Truck banged directly on the front face of the commercial car!

Since this big truck is downhill and full of muck, its tonnage and inertia are large.

Warnia's commercial car was in front of it, exactly like paper!

Chapter 2054

The sudden impact directly knocked the engine compartment of the entire commercial vehicle into the front seat!

The driver and the other assistant sitting on the co-pilot died instantly!

Warnia sat in the middle row of the commercial vehicle and had buckled her seat belt, so at the moment of the impact, she was firmly tied to the seat by the seat belt.

However, because of the great inertia during the impact, she had four ribs broken by the seat belt!

And Swallow next to Warnia had no such good luck!

When she got in the car, she was a little slack. She always felt that she didn't need to buckle the seat belt when she was sitting in the back. So at the moment of the impact, she flew out and slammed into the back of the front passenger seat!

At this moment, her whole body was smashed including the head, and she instantly lost consciousness and went into a deep coma.

Because of the rib fracture, Warnia felt terribly painful in her chest, but before she could catch a breath, the entire front face crashed into a commercial vehicle with scrap metal, and was pushed back by the big truck!

Because the two front wheels of the commercial vehicle were smashed into a mass of scrap iron together with the wheel hub, there was a group of sparks abruptly pierced with the ground under the front face of the commercial vehicle!

Warnia turned her head back hard at this time, glanced back, and she was suddenly cold in shock!

Behind the car is that U-shaped curve!

However, this big car obviously wanted to push the commercial car she was sitting in directly down the cliff!

The height here is at least hundreds of meters, no matter what car, rolling down from such a high cliff, I am afraid it will fall into a pile of scrap iron!

And the people sitting inside are afraid that they will die too!

At this moment, she immediately realized that all of this was not accidental!

This big car deliberately did not turn on the lights, deliberately drove in the middle of the road, deliberately hit her car by going downhill, and not only did not decelerate at all after the impact, it even slammed on the accelerator, trying to push itself into the cliff with others!

At this time, she could no longer think about who was murdering her behind her back.

Because she knew that her life might only have less than a minute left.

She had never expected that she would be buried in a foreign country today in her great years, and a strong feeling of grief suddenly appeared in her heart!

At this moment, the first thing she thought of in her mind was not herself, nor her grandfather and other relatives, but the man that always lingered in her heart, Marven!

She choked in her heart: "I originally thought that there is still a long way to go in life, so it is okay to wait for Master for a few years or even more than a dozen years, but who would have thought that my life is about to fall down a cliff in Japan. Alas, I die in a foreign country..."

Thinking of this, Warnia was already full of tears.

She endured the severe pain in her chest, took out the phone, clicked on the top of Marven's portrait, and then clicked the voice message button.

At this time, the commercial vehicle has been pushed to the edge of the cliff by the truck.

Warnia looked at the phone and cried and said, "Master, I...I really love you! If there is a chance, Warnia will be your woman in the next life..."

As soon as the voice fell, the entire commercial vehicle had been completely pushed out of the edge of the cliff, rolling and falling into the abyss...

Chapter 2055

When the business car rolled and fell off the cliff, Warnia was already nervous to the extreme.

However, the more at this critical moment of life and death, her brain became more sober.

Her brain was spinning fast at this moment, and many things came to mind in her mind all of a sudden.

Because of the speed of thinking in her mind, it seems that time has slowed down.

When the commercial vehicle hit the cliffside boulder, Warnia felt that her whole body was completely destroyed by the violent impact.

Fortunately, she is still sitting in the luxury car seat of a commercial vehicle. This kind of seat is very comfortable and safe. The most important thing is that the body contact part is very soft.

The soft part of the seat can greatly alleviate the huge impact on the body, which is like putting eggs in a box wrapped in cotton, and the safety factor is greatly increased.

But because of that, Warnia still had huge inertia when she was hit, and she almost fainted her whole body. The huge inertia even squeezed her internal organs together.

The pain was beyond imagination!

But at this moment, she suddenly thought of something, something she had been carrying close to her body!

At this time, after the vehicle hit the boulder, it bounced up several meters into the sky and then continued to roll down. Warnia tried her best to spin her hands into the pockets of her clothes.

Immediately afterward, she took out a wooden box the size of a ring box. Because the car body was still rolling, she could only grasp the wooden box with both hands, and did not dare to relax, for fear that the wooden box would let go!

Because she knew that what was in this wooden box was her only life-saving straw!

Warnia quickly opened the wooden box, and when the vehicle was about to collide next time, she did not hesitate to put the pill stored in the wooden box into her mouth!

Boom!

This time, the impact of the vehicle was more serious!

The commercial vehicle directly faces down and hit a boulder!

In an instant, Warnia's car door on the right side was smashed into a huge depression!

This powerful force, the recessed car door directly hit Warnia's right knee, and even broke her right leg!

The severe pain caused her to scream, and then, the whole car began to roll violently on the rocks full of steep slopes!

While the vehicle was rolling over, Swallow repeatedly bumped up and down in the carriage. She was so terrible that she had already lost her life.

Warnia watched her body roll back and forth in the carriage, she wanted to help but she couldn't take care of herself. She could only watch her and her tears suddenly burst!

When the vehicle vacated again, the window was already completely broken due to the rolling speed too fast, so Swallow's body was thrown out of the window...

Warnia broke down and cried. She herself suffered all the injuries, and almost all of her brain, internal organs, and limbs were severely damaged. She even felt that she was on the verge of dying.

However, the pill that Marven gave her was kept in her mouth and never swallowed.

She knows that the pill can only save hers once, if she swallows it early, maybe she will die when the vehicle rolls and falls!

Therefore, there is only one belief in her mind: "I must persist and persist! Do my best to persist to the end, and then leave the destiny to God!"

Immediately afterward, another thought emerged in her mind: "No! Not to hand over the destiny to God, but to Marven!"

It was another violent impact.

Warnia felt that she was about to lose consciousness.

Between the last electric light and flint, she bite into the pill and swallowed the pill with a bit of medicine fragrance into her abdomen!

In the next second, Warnia had completely lost all consciousness, and her body continued to roll down with the car.

At this time, a strong medical force was dissolving in her belly.

The power of the medicine was conducted extremely fast, and it quickly poured into every part of her body through the meridians.

At this time, Warnia's body had almost lost all vitality, but at this moment, the powerful medicine made her body instantly recover.

Chapter 2056

This is like a city that was plunged into darkness due to a power outage. At the moment when the power supply was suddenly restored, the entire city was instantly re-lit!

Just as Warnia recovered rapidly, the commercial vehicle she was riding in finally fell to the bottom of the valley.

At this time, the vehicle is already full of defects.

The front of the car completely collapsed into the first row of seats, all the windows were shattered, and the metal body was also cut into countless hideous holes by the stone.

And the whole car has been deformed in the constant rolling, like a can that was stepped on!

However, Warnia's consciousness is constantly recovering. Broken ribs, leg bones, arms, as well as body wounds, damaged brains, and internal organs are all quickly regaining vitality.

Within a moment, she regained her mobility.

She wanted to unfasten the seat belt, but the plug of the seat belt had been severely deformed together with the plug.

The seat under her body has also been completely deformed by the impact.

But fortunately, the seat belt can barely go around the body, and her body will also be able to escape from the deformed seat.

The phone under her feet is still on. Although the screen of the phone is severely broken, it still lights up, which means it can still be used.

So Warnia hurriedly grabbed the phone in her palm and hurriedly fled out of the car!

The doors of the car were no longer usable, but the windows on both sides became two completely deformed frames.

She struggled and crawled out of the car.

At this time, she heard the sound of water and at the same time smelled a pungent smell of gasoline.

The fuel tanks of family cars are almost invariably under the car, and most fuel tanks are made of engineering plastics.

Although the fuel tank can withstand most collisions and accidents, it is basically difficult to protect yourself in the face of such a 360-degree rollover accident.

Therefore, the fuel tank of this commercial vehicle was also punctured by several large openings, and dozens of liters of gasoline flowed out through these openings.

The commercial vehicle that Warnia rides has a fuel tank capacity of 70 liters, and a two-liter Coke bottle can be used as a container, which can fill a full 35 bottles.

The driver had just filled up the fuel after returning to the hotel, and it took less than ten liters to drive over, and there were at least 60 liters of gasoline in the car.

You must know that gasoline has a lot of energy when burning. Not to mention 60 liters of gasoline. Even a large Coke bottle of gasoline is enough to burn a car into iron slag!

At this time, the damaged engine of this car is still humming, which means that the spark plug of the engine is still igniting and the fuel injection nozzle is constantly injecting fuel to push the piston movement of the engine.

Once there is an oil leak inside the engine compartment, flames are likely to escape from the engine compartment, and then ignite all the gasoline!

Warnia did not dare to delay, although she was surrounded by dense woods and grasses, but in order to escape, she could only dive into the woods.

Just when she was not ten meters away, a strong fire suddenly burst out behind her.

The gasoline starts to burn from the position of the engine compartment and ignites the gasoline leaking around.

Gasoline burns extremely fast, and in the blink of an eye, the commercial vehicle is quickly consumed by the fire.

Warnia turned around and looked at the burning flame, tears filled her eyes.

Her other assistant and the very nice driver she was with, in Japan were all in the car at this time.

Although she knew that they were dead as early as the first time they hit, she still felt like a knife at the thought of their bodies being burned beyond recognition by the fire.

And Swallow...

The little girl who had been talking about learning photography with herself a few minutes ago was already separated from her...

After the rest of the catastrophe, Warnia ignored the hot flames, her legs were slightly bent and slowly knelt on the ground, covering her face with her hands, crying bitterly...

Chapter 2057

When Warnia was uncertain of her next moments in Nishitama County, Tokyo, Japan, Marven was preparing to soak in the hot springs at the Champs Elys Villa in the mountains on the outskirts of Wrestvel.

With him in the hot spring pool, his wife, Avella.

Just like when they were bathing in the hot springs with Elsa, Marven wore swimming trunks, while Avella wore a one-piece swimsuit.

The graceful posture was revealed in front of Marven, making Avella more or less ashamed.

In fact, the couple did not plan to take a hot spring together.

Marven wanted Avella to come first. When Avella came over in a bathrobe, she happened to be seen by Viola, so Viola said that Marven and Avella should be together.

Avella stepped into the hot spring water first, and Marven put the two people's mobile phones on the stone platform next to the hot spring pool before they were ready to enter the water.

At this moment, the phone rang suddenly.

It's a WeChat.

He turned on the phone and found that Warnia had sent WeChat.

Moreover, it is a voice.

This made him feel somewhat embarrassed.

If he clicks on the voice message and listens to it, doesn't know what it is. But if he clicks on it on the spot, what if it says something in it that makes his wife Avella misunderstand?

It is safer to listen to the ear in the earpiece mode, but it will inevitably make Avella think more.

So Marven had to click to change the text.

Warnia's accent is very standard, and the recognition rate of WeChat voice-converted text is also very high, so her words were completely transformed all at once.

Marven looked at the text, and his whole person was suddenly shocked!

"Why did Warnia suddenly speak to me saying the three words I love you? Why does she say that if she has a chance, she will be his woman in the next life?!"

"Could it be... is there any danger she encountered?!"

Thinking of this, Marven hurriedly said to Avella: "My wife, you can soak for a while, I'll get a drink."

Avella nodded and exhorted: "You put on some clothes, don't freeze."

"it is okay."

Marven said, put the thick bathrobe on him, turned around and entered the villa.

Dave and Viola both went back to their rooms to rest, and Marven clicked on the voice directly in the living room.

Immediately afterward, Warnia's sad and desperate voice came out: "Master, I...I really love you! If there is a chance, I will be your woman in the next life... .."

In this voice message, in addition to Warnia's voice, there are also violent impacts, harsh sounds caused by friction between metal and the ground, and the roar of engines...

Marven felt a little in his heart!

Listening to this voice, Warnia must be in an accident!

He immediately called her, and it turned out that the other party was temporarily unable to connect!

He hurriedly sent Warnia a voice call invitation on WeChat, but the other party did not respond!

Marven panicked suddenly.

He knew that Warnia was in Japan and had not yet come back, so he could also speculate that she must have something wrong in Japan.

Now, he couldn't get in touch with her at all. What Marven thought of the first time was to call Mr. Song to ask about the situation.

So, he immediately dialed Mr. Song's phone.

Chapter 2058

At this time, Mr. Song was ready to go to bed.

Since taking the Rejuvenating Pill, his body has grown stronger, but it also made him more cherish his hard-won health. Therefore, he has been adhering to the health concept of going to bed early, waking up early, getting active, and exercising, so he rests earlier every day.

Suddenly received a call from Marven, he quickly connected the phone and said: "Oh, Master, you are calling me so late, what's your order?"

Marven said: "Master Song, I want to ask what is Warnia's situation now? Why can't I contact her suddenly?"

"Warnia?" Mr. Song said in surprise: "We had contact in the evening. She is in Tokyo, Japan, and is negotiating cooperation with Nippon Steel."

Marven said: "A few minutes ago Warnia sent me a voice message, suddenly saying something about her next life, and then I went back to her, and she is no longer available. I suspect Warnia may be in Tokyo. What happened to her!"

"Encountered an accident?!"

Mr. Song suddenly sat up from the bed and blurted out: "Master, in the voice that Warnia sent to you, did she encounter something?"

"No." Marven pondered: "This is what I worry about the most. Warnia didn't say anything specific in the voice message, but it made me feel like she wanted to say goodbye to me."

Grandpa Song said nervously, "I will call the people next to her and ask what happened!"

"Okay! If you have any news, please be sure to notify me as soon as possible!"

Father Song hung up the phone and called Warnia first.

Sure enough, as Marven said, Warnia's phone could not be connected at all.

The old man Song couldn't help but be stunned, and then he hurriedly beat Warnia's assistant Swallow.

Swallow is Warnia's confidant and her right arm. If Warnia encounters anything, she must know.

However, what made Old Man even more nervous was that Swallow couldn't get through!

He is really panicked now!

He immediately called Honor and said: "Honor, come to my room immediately! Something happened to Warnia!"

A minute later, Honor rushed in panic, and as soon as he walked in, he blurted out nervously and asked: "Grandpa, what happened to Warnia?!"

Father Song said nervously, "Warnia is missing! I called her and Swallow, and neither of them could get through!"

With that, Mr. Song asked again: "Honor, how many people did your sister take to Japan this time?!"

Honor said: "It seems that she took two assistants with her, as well as a local driver."

Father Song hurriedly asked again, "Do you know who the other person is besides Swallow?"

Honor thought for a while and said, "It seems to be Silviana."

Father Song hurriedly ordered: "Quick! Find that Silviana's phone number and contact her immediately to see if you can contact her!"

Honor nodded in a hurry, then took out his mobile phone, called the director of the human resources department of the Song Group, and said: "Silviana who went to Japan with Warnia, do you have her contact information?"

The other party replied: "Yes Young Master, should I send it to you now?"

Honor said: "Send it to me, hurry up!"

Soon, a bunch of phone numbers reached Honor's phone.

Honor called immediately, and after a while, he heard a prompt from the phone: "Sorry, the call you dialed cannot be reached temporarily, please call again later..."

Honor looked at the old man Song with a nervous expression, and said, "Grandpa...The two assistants around Warnia can't get in touch, this...what the hell happened... .."

Father Song was sweating profusely. He kept tapping his palms and muttered anxiously: "It's broken, it's broken! Warnia must be in a difficulty! What can I do... "

Honor said without hesitation: "Grandpa, or I will take someone to Japan! We should go now!"

Chapter 2059

Honor offered to go to Japan, and Mr. Song had some comfort in his heart.

He even thought to himself: "Honor and Warnia are not brothers and sisters, but it is really rare for Honor to be so concerned about her."

Thinking of this, he sighed and said: "Honor, you go to arrange the plane, I will go with you!"

Honor hurriedly said: "Grandpa, don't follow along. You are old and you are not familiar with the place. It will be even more troublesome if there is something short and long, and my dad is still abroad. There can't be no one sitting here in Wresvel, you stay at home, and I must find a way to get Warnia back!"

Mr. Song hesitated for a moment, and knew in his heart that it was really difficult for him to play any role as in the past.

Moreover, if both himself and Honor go to Japan, the Song Group would have no leader.

After that, it's a big family with hundreds of billions. Even during the holidays, the various tasks to be dealt with every day are very tedious. If there is really no one in charge of staying here to guard, if something happens, it is likely to cause a Great loss.

So, Mr. Song nodded slightly and said, "That's fine! Then I will stay at home. You can choose some capable personnel as soon as possible, and hurry up and leave as soon as possible!"

Honor immediately said: "Grandpa, don't worry! I will make arrangements!"

Immediately afterward, Honor called a few assistants and a dozen bodyguards. At the same time, he arranged a plane at the airport and took off directly to Japan in an hour.

Elder Song also called Marven back and said to him: "Master, Warnia and the people around her can't be contacted. I'm afraid they have had some accident. I have arranged honor to leave immediately and rush to Tokyo!"

Marven asked on the phone, "Is there no clue?"

Father Song sighed: "Yes, there are no clues. I asked the hotel. The hotel only said that they left by car more than an hour ago, but no one knows where they went."

Marven asked again: "Didn't Warnia tell you what she was going out to do?"

"No..." Mr. Song said very sadly: "Warnia returned to the hotel from Nippon Steel in the evening and told me about the progress of the negotiation, and also explained that she may continue to communicate with them. But where she went tonight, I don't know at all, and she never said a word."

Honor is indeed extremely clever.

As early as when Warnia and Nippon Steel's Hashimoto Kinzaki had been frustrated in their negotiations, he had been constantly encouraging Warnia, giving her blood, and making her more eager for success.

And in the afternoon, he deliberately uttered the so-called blessing of "Maybe you will receive a surprise tomorrow morning", which gave Warnia a psychological hint even more subtle.

So after she received the phone call from Hashimoto to sign the contract, she naturally thought of giving her family a surprise, so when she left the hotel, she did not tell anyone other than her companions of the itinerary.

This is exactly what Song's honor is.

At this moment, Marven was very worried.

Hearing that Honor was going to Japan, he didn't think much and certainly didn't have any doubts about him.

He just felt that since Warnia's whereabouts in Tokyo are unknown, the best thing he should do now is to find someone in Tokyo to help, and quickly follow the hotel where Warnia stayed to check for clues and see where Warnia went after leaving the hotel.

So he hung up the phone of Mr. Song first, and then called Nanako.

Chapter 2060

At this time, Nanako has just returned to Tokyo from Kyoto.

A few days ago, she temporarily accompanied her father to stay in Kyoto for a few days to change her mood to relax, but because of the many family affairs, she stayed for three days and returned to Tokyo.

After receiving Marven's call, Nanako was a little surprised. After that, the time in Tokyo is one hour earlier than in China. It is more than 10:30 in the country now, and it is already 11:30 in Tokyo.

Therefore, Nanako asked excitedly and surprised: "Master, why are you calling me at this time?"

Marven asked hurriedly, "Nanako, are you in Tokyo now?"

"Yes." Nanako said: "My father and I just came back this afternoon, Master, you seem to be a little anxious from your voice, what's the matter?"

Marven said: "A good friend of mine suddenly disappeared in Tokyo. The last voice message she sent me seemed to have encountered an accident, but I can't contact her at all now, so I want to ask you for help. Arrange for someone to investigate where she went tonight."

Upon hearing this, Nanako hurriedly said: "Master, no problem! Tell me the general information, and I will arrange for a full investigation! The influence of our Ito family in Tokyo is still unmatched, as long as people are really there. I will find her where she is missing in Tokyo!"

"Okay!" Marven hurriedly told Nanako some personal information about Warnia, the hotel she stayed in, and the time she left the hotel and asked: "Nanako, please arrange for someone to mobilize the surveillance video and take a look at her. Which car did she take, and where did she drive the car too!"

"Okay, Master!" Nanako also attached great importance to it, blurting out: "Then I will make arrangements!"

Since the Matsumoto family went offline and the Takahashi family was seriously injured, the Ito family's influence in Tokyo has naturally increased greatly.

Many of the dependent forces and organizations that followed the Takahashi and Matsumoto families in the past are now taking the initiative to show their favor to the Ito family, and Nanako has gradually incorporated a part, which greatly expands the external power of the Ito family.

Among them, it includes the big runaways controlled by the Takahashi family.

Just like those little brothers of Orvel in the underground world.

They may not be able to get on the table, but they are all groups that breed in the dark of the city, so they are like rats in the sewers, with a strong sense of smell and extremely fast action.

When she asked them to find someone, they all moved immediately.

Because the last place where Warnia appeared was a hotel in the city center, the monitoring equipment was very complete. Therefore, the external forces of the Ito family immediately locked onto the commercial vehicle that Warnia was in when she left through the hotel's surveillance video.

As a result, everyone began to follow the trajectory of the car through the monitoring system. Because the Ito family offered a reward of hundreds of millions of yen, they were all trying their best to pursue the clues. Every group hopes to be the first. Find Warnia's whereabouts.

At this moment, in a valley in Nishitama County, western Tokyo.

Warnia walked carefully through the dense forest at the bottom of the valley alone.

The valley is hundreds of meters deep, not only has dense forests and vegetation but also has towering mountains on both sides, so the phone has no signal at all.

At this time, she had only one thought in her heart: walk out of the mountain alive, and immediately ask Marven for help once the phone has a signal.

While marching through the dense forest, she secretly thought in her heart: "Today's matter must be someone deliberately murdering me. If they know that I am still alive, then I will definitely not be able to leave Japan alive!"

At the same time, there is a perception in her subconscious: "Now, no one can save me except Master!"
