

The Amazing Son In-Law Chapter 2291-2300

Chapter 2291

Su Zhiyu said, "I want to go back and find a master to do some calculations and see if he can give me some hints."

Su Zhifei couldn't help laughing, "Didn't you just finish saying that you didn't believe this?"

Su Zhiyu said seriously: "There is no other good way, so I might as well give it a try."

After speaking, she asked Du Haiqing, "Mom, is there any famous master in Orgeyon? Don't you always go to the temple to worship Buddha and donate incense money? Do you know any good monks?"

Du Haiqing said earnestly: "Don't talk nonsense, the eminent monks practice Buddhism, and fortune-telling is a matter of Taoism!"

Su Zhiyu hurriedly asked, "Then do you know a capable Taoist leader? I'll go and beg him to have a look!"

Du Haiqing thought for a while and said, "I really don't know this. I haven't asked someone to start a divination for many years. The last time I asked someone to start a divination, it was about the same age as you."

As she said, she couldn't help but think of Ye Changying, and she couldn't help but sigh.

Afterwards, she said to Su Zhiyu: "By the way, I heard that the Ye family built their ancestral tomb some time ago and specially invited Lai Lai, a descendant of the Lai family from the United States. Your grandfather and Lai Lai also have some personal relationships. If you really think of it, you can ask your grandfather to ask if Mr. Lai is still in Orgeyon."

"Mr. Lai?" Su Zhiyu frowned and asked, "Why haven't I heard of it? Is it amazing?"

Du Haiqing said: "Mr. Lai is the heir of Lai Buyi, a master of Fengshui in the Song Dynasty. He is the most powerful master in the world today.

Su Zhiyu exclaimed, "Are you really a cow?! Then I'll call Grandpa and ask!"

After speaking, he quickly took out his cell phone and called Grandpa Du Zhenhua.

As soon as the phone call, she will ask Du Zhenhua on the other end of the phone: "Grandpa, my mother said you know a Master Lai who is proficient in five elements and gossip?"

Du Zhenhua asked in surprise: "Zhiyu, what do you want to do with this?"

Su Zhiyu blurted out: "Grandpa, I want to find my savior, but there has been no progress, so I want to find a breakthrough with the master."

Du Zhenhua said: "Master Lai has already returned to the United States some time ago."

"Ah? Going back?" Su Zhiyu said disappointedly, "When did you go back?"

Du Zhenhua said: "It didn't take long. I went back just a year ago. After he came to China, he stayed in Yeling Mountain for more than three years. I should have wanted to go back a long time ago."

Su Zhiyu said with great regret: "It's so unfortunate...what should I do...Grandpa, do you know other masters?"

Du Zhenhua said: "Masters know a lot, but the only one who truly can be called the word "Master" is Master Lai."

After speaking, he said again: "In this way, I will help you ask Master Lai, if he wants, he can directly help you with a trivia."

Su Zhiyu asked in surprise, "Grandpa, is what you said is true?"

Du Zhenhua smiled and said, "Can Grandpa lie to you? The main reason is that Master is old and has a strange temper. If he is willing to help this, I dare not promise you."

Chapter 2292

Su Zhiyu hurriedly said, "It's okay, it's okay, just ask for me."

Then she asked, "By the way, Grandpa, if he is willing to help, do I have to go to America again?"

"No need." Du Zhenhua said: "Master Lai has great magical powers. If he agrees, I will give her your birth date and tell him about the things you want to ask. It should be fine."

Su Zhiyu said in amazement, "So amazing?"

Du Zhenhua laughed and said, "I Ching and gossip are the supreme wisdom of our ancestors. It is said that the magic of it, we modern people have only learned a little about it."

Then, he said, "It's midnight in the U.S., and I'm not very good at contacting Master Lai. Or wait patiently. When the evening comes in the U.S., when it's morning, I'll call Master Lai. phone."

Su Zhiyu hurriedly said, "Grandpa, please, please!"

.....

At this moment, Marven had already returned home in a hurry and prepared lunch.

Although Viola broke his leg, she still insisted on crutches and beat him in the kitchen.

As he was busy preparing the food, Viola said with a look of ashamedness: "Good son-in-law, Mom should have cooked for you. It's just that Mom's legs are inconvenient. You have to bother you to cook yourself. Mom is really right. live!"

Marven smiled slightly: "Mom, don't be so polite, anyway, I don't have anything to do. It's also right to do housework."

While talking, he said to Viola: "Mom, Avella and Dad should be coming soon too. I will cook another tomato and egg soup. When they come back, we can have dinner."

Viola hurriedly said, "That's really hard work for you, son-in-law, mom will wash the tomatoes for you!"

Marven served the best food, and his wife Avella and his wife Dave also drove home one after another.

As soon as Avella came back, he said to Marven with some excitement: "Husband, today Lori from the Emgrand Group called me and said that the six-star hotel under construction in the Emgrand Group is about to start the overall interior decoration. Bid for the design!"

"Really?" Marven pretended to be surprised and asked, "This project should be a lot, right?"

Avella excitedly said, "It's not just too big, it's simply too big...The Emgrand Group's six-star hotel project has been launched since last year, with an investment of 2 billion RMB. Now that the main body construction has come to an end, it is time to finalize the interior decoration plan, and after the main body construction is over, the internal hard and soft decoration will begin!"

After all, Avella went on to introduce: "The entire hotel budget of 2 billion, half is used to buy land and infrastructure, and the other half is almost all used for post-renovation, of which at least 300 million is used for hard furnishings, soft furnishings, and various top furniture and bedding. The procurement of sanitary ware and electrical appliances is about six to seven billion yuan. Now the executives of domestic big-name household appliances, sanitary ware and decorative building materials have all come to Wrestvel and are preparing to participate in the subsequent bidding!"

Marven smiled and asked, "How much budget does Emgrand Group have prepared for the decoration design?"

Avella said: "The quotation for this kind of commercial decoration design is generally around 300 yuan per square meter. The six-star hotel of the Emgrand Group has a total business area of 130,000 square meters. Some repetitive designs in the same room type are removed. The design project is at least seventy to eighty thousand square meters, and the cost of decoration and design alone costs twenty to thirty million!"

When Viola on the side heard this, she was surprised and said: "Mom! Avella ! Are you joking with your mom?! Just engage in decoration and give 20 to 30 million design fees?!"

Avella nodded and said seriously: "It's not a joke, this price is still relatively low. If it is a large design company or a well-known designer, the price will be even higher. The design cost per square meter is at least 800 to 1 thousand!"

Chapter 2293

Hearing this, Viola couldn't help exclaiming: "Mom! A design cost of 800 to 1,000 per square meter, wouldn't it cost 50 or 60 million? This is too scary!"

Avella smiled and said, "What's so scary about this. Some internationally renowned designers have to charge hundreds of millions of yuan for the exterior design of a building!"

Viola touched her chest, and hurriedly asked her, "Good girl, are you planning to take this project?"

Avella said earnestly: "Of course I want to accept it, but my studio is not that big at present. I am afraid that when I accept such a project, I will not be able to compete with opponents when bidding, and there is too much preparatory work. If I want to bid, Now I have to put my heart and soul into it and prepare for bidding..."

With that, Avella couldn't help sighing again, and said, "Hey, the scale of the company is still quite large after all. I am afraid I can't digest such a large project."

Viola asked in amazement, "Isn't design just about moving the computer? What can't be digested?"

Avella said: "It's not as simple as you think. With a business area of more than 100,000 square meters, there are more than a dozen room types that require a whole house design, and there are several restaurants of various types, as well as leisure and entertainment. , The administrative office part and the security, security and fire protection planning, the overall design volume is very large."

"It's like making an animated movie. Don't ordinary people think it's just to find a group of people to paint? But in fact, one second picture requires 20 pictures, one and a half hour's animated movie, at least Tens of thousands, or even hundreds of thousands of pictures, require hundreds of people to do a good job for several years."

After that, Avella said again: "We have not many people in our studio. Even if we can carry out such a large project, we can't finish it by ourselves. We have to subcontract to other design studios to do it together. We need at least dozens of people. Designer, it took more than half a year to finish..."

"And this is only the first stage. When the construction starts, we have to follow up the whole process. The construction period is at least one year, so the overall follow-up will take one and a half years."

"Dozens of designers, within a year and a half, a good designer's annual salary is hundreds of thousands more, and the average salary is at least 200,000, so the salary cost alone has to be tens of millions!"

Viola blurted out in surprise: "I'm good! The salary alone is tens of millions? Is this too cruel?"

Avella earnestly said: "This is the way it is originally, and I am still conservatively estimating. If the construction period is longer and the plan is revised more, the overall time cost and labor cost will increase."

Marven on the side asked curiously: "My wife, what are you going to do? Do you want to fight for it?"

Avella nodded and said, "Although the strength of my studio is not strong, I still want to try it out. If I can take this project down, I can take advantage of mergers and acquisitions while working on this project. A small design team, in that case, when this project is finished, then my studio can be improved by at least two orders of magnitude, reaching a medium-sized scale!"

After speaking, she said with some worry: “However, my studio is really small. There are so many companies bidding this time. I really don’t know how sure.”

Marven smiled and said, “My wife, if you are interested, just let it go. If it is done, it will be a great opportunity. If it is not done, we will have no actual loss. It is nothing more than a waste of energy. What do you think?”

“Yes...” Avella nodded lightly, and said, “I just want to try hard, so starting from today, I will lead the team to work overtime to come up with plans and bids to prepare for this time. Bid!”

As she said, she herself said with some emotion: “But I heard that many design companies are looking for people to trust relationships in order to get this big order, and some even want to give the senior management of the Emgrand Group money and rebates. I don’t know. Will the Emgrand Group engage in black-box operations at that time...”

Marven smiled and said: “How can a large group like the Emgrand Group with a market value of more than 100 billion engage in black-box operations on tens of millions of design projects?”

Chapter 2294

But even though he said that, Marven had already made up his mind at this time, to say hello to Lori, and quietly handed this project to Avella .

The Emgrand Group was originally its own business, and since my wife is so interested in this project, she naturally wanted to give her a chance to practice.

So he said to Avella , “Chura, you don’t have to think about so much now, just concentrate on making preparations. I believe you can do it!”

“Yeah!” Avella also nodded very firmly, and said, “I will definitely work hard! Try to get this big project down!”

After lunch, when Avella went to the company, Marven went back to the room and called Lori.

As soon as the phone was connected, Lori said, “Master, you are calling for your wife’s bidding, right?”

Marven smiled and said, “You guessed it.”

Lori hurriedly said: “Master, originally, I wanted to entrust the design project of our hotel’s decoration directly to the wife’s company, but I was also worried that if the project was passed directly, the wife would be suspicious, so I told her this In fact, I intend to start a bidding meeting so that the wife’s company can obtain this project through internal bidding, which seems more natural.”

Marven praised: “Lori, you did a good job of this matter, and you considered it comprehensively. I also called to tell you about this matter. My thoughts are the same as you. Let Avella participate normally. Make a bid, and the group will directly decide on her studio, and then let her feel that she is the bidding for her ability.”

Lori promised: "Master, don't worry, I will arrange these."

Marven asked her: "When does the group plan to officially start bidding?"

Lori said: "I plan to give a rough draft in one week and start bidding in one week."

"Okay, I'll leave this to you."

After hanging up Lori's call, Marven thought that there was nothing important in the afternoon, so he didn't plan to go out again.

Thinking of the New Year, he promised everyone who came to the home to give gifts to prepare some pills in return for everyone, so he planned to take advantage of this free time to refine the pills.

He called Qin Gang, and Qin Gang answered the phone and asked respectfully, "Master Ye, what do you want?"

Marven said, "Ms. Qin, you help me prepare some medicinal materials and bring them to my home in the afternoon."

When Qin Gang heard Marven's words, let himself prepare medicinal materials, he immediately realized that Marven should be planning to refine medicinal materials, so he excitedly said, "Master Ye, what medicinal materials do you need? Prepare to send it to you best!"

Marven said, "In this way, I will post your recipe on WeChat in a moment, and you can prepare as I request."

Qin Gang said without hesitation, "No problem, Master Ye, you send me the list, and I will let Aoxue send it to you when I'm ready!"

Chapter 2295

Hearing that Marven was going to reconcile medicine again, Qin Aoxue was happily unable to add.

She was happy, not because of how eager for Marven's magical medicine, but because her father asked herself to deliver the medicine to Marven, so she had the opportunity to meet Marven.

Qin Aoxue has been spending winter vacation at home during this period. Except for daily training, she has basically nothing to do at other times. The days can be said to be boring.

She wanted to find a chance to meet Marven, and even asked Marven to guide herself again, but she heard that Marven has been busy recently, so she was not as embarrassed to come over and harass.

It just so happened that taking advantage of the opportunity to deliver the medicine, I could meet with Marven, and by the way, find an opportunity to invite Marven to sit at home.

Qin Gang prepared all the medicinal materials neatly according to Marven's needs, and put them all in a medicine box and handed them to Qin Aoxue, and said, "Aoxue, you send these medicinal materials to Tangchen First Grade to Master Ye."

Qin Aoxue immediately said happily, "Good dad, I will drive to Master Ye's house!"

Qin Gang nodded and said, "Wait a moment."

After speaking, he stood up, took out a beautiful red sandalwood box from the safe, and put it in Qin Aoxue's hands. He confessed: "This is a superb purple ginseng that has been in the market for more than 400 years. The three-hundred-year-old purple ginseng photographed on the photo above is even better. If you help me bring it to Master Ye, you will say that I honor him."

Qin Aoxue carefully took the wooden box and said seriously: "I know Dad, these medicinal materials and this superb purple ginseng will be delivered to Master Ye's house by myself."

"Yeah!" Qin Gang nodded and said with emotion: "Last time at the Chinese Medicine Expo, Master Ye spent a lot of money and bought the 300-year-old purple ginseng. Not long after, Master Ye took out the Rejuvenating Pill. So I speculate that this superb purple ginseng is the medicinal material needed to refine the rejuvenating pills. With this superb purple ginseng, Master Ye may be able to refine a batch of rejuvenating pills."

Qin Aoxue hurriedly said, "Dad! I won't help you ask Master Ye for medicine this time! Last time Master Ye refined the magic medicine, you asked me to ask Master Ye for the medicine cheeky. I was always embarrassed... .."

Qin Gang hurriedly said, "Don't worry, you can just give this top-quality purple ginseng to Master Ye this time, and don't care about the rest. I believe if Master Ye really uses it to refine the Rejuvenation Pill, it shouldn't I will forget our Qin family."

Qin Aoxue breathed a sigh of relief and said, "Dad, then I'll go by first!"

"Okay, you go."

Qin Aoxue drove her car out, and hurried to Tomson First Grade.

Half an hour later, Qin Aoxue came to the door of Marven's villa.

When she pressed the doorbell, Viola was taking a nap in the room on the third floor.

Marven came down from the second floor, opened the courtyard gate, saw Qin Aoxue, and said with a smile: "Aoxue, you have worked so hard to make a special trip."

In front of Marven, Qin Aoxue was always shy and uncontrollable, and said with a little nervousness, "Ye...Master Ye, how are you doing recently?"

Marven smiled and said, "It's good, why do you ask?"

Qin Aoxue hurriedly explained: "I heard that you are very busy during this time, and you went to Japan for sister Wanting's affairs. I am afraid that you are too tired..."

Marven waved his hand: "No, this little thing is nothing to me."

Chapter 2296

"That's good!" Qin Aoxue smiled sweetly, and hurriedly passed the medicine box in her hand and the red sandalwood box to Marven, and introduced: "Master Ye, the medicine box contains the medicinal materials you need this time. My dad has already I have prepared it for you. There is also this red sandalwood box. Inside is a top-quality purple ginseng that is more than 400 years old. My dad said that he got it by accident and said that this purple ginseng must be big for you. Use it, so let me bring it to you..."

Marven was a little surprised and said, "The best purple ginseng for more than 400 years? Where did your dad get such a good thing?"

Qin Aoxue spit out her tongue: "I don't know about this. My dad usually collects medicine through a lot of channels. Many drug dealers and farmers in the south and north of the country specially supply him. If anyone has some top-quality medicinal materials, they will be the first I showed it to him for a while, I guess it was received by the drug dealer, and then sent it over."

Marven nodded, and thought to himself: "I ate more than half of the 30 rejuvenation pills that I refined last time. The rest is divided, sold, and given away, which is basically consumed. It's almost there. I originally thought that there would be a chance to refine it a bit more, but I also knew that the best purple ginseng that was more than three hundred years old was hard to find, so I never found a chance to refine it. I didn't expect Qin Gang to send Qin Aoxue over."

In fact, although Marven did not have the best purple ginseng for three hundred years, he did have a thousand-year-old snow ginseng handed down by his mother's family that Wei Liang had sent.

The value of Thousand-Year Snow Ginseng is much higher than that of 300-year-old purple ginseng. If that kind of medicinal material is used to refine rejuvenating pills, it is indeed overkill and violent.

According to the records in the "Nine Profound Sky Classics", Thousand-Year Snow Ginseng has far more uses than 300-year-old Purple Ginseng!

Thinking of this, he took a closer look at the top-quality purple ginseng sent by Qin Aoxue, and couldn't help but sighed: "The quality of this top-quality purple ginseng is better than the one I bought at the auction before. ! Your dad should have spent a lot of money, right? Such an expensive gift is indeed a shame..."

Qin Aoxue hurriedly said, "Master Ye, don't say that. With your kindness to our Qin family, let alone a purple ginseng, even if you give you all the assets of the Qin family, you should!"

Marven laughed, and joked: "You are really a puppet selling Ye Tian and don't feel bad about it. You Qin family has worked so hard for generations to build such a family business. You gave me everything as soon as you opened your mouth?"

As he said, he put aside his joking tone, and said seriously: "Okay, I will accept this purple ginseng, you help me thank your father, and also tell him, wait for me to use this best purple ginseng to make a pill Come, I will give him one."

When Qin Aoxue heard this, she was very excited, and quickly bowed, "Thank you, Master Ye!"

Marven smiled slightly and said calmly: "Yes, you don't need to be so polite."

After speaking, she said to her: "Aoxue, come in and sit for a while, I will make you a cup of tea."

Qin Aoxue subconsciously wanted to agree, but after another thought, she asked a little worried: "Master Ye, is your wife at home? Would she be unhappy if she saw me coming to the door?"

Marven smiled and said, "Why? He was a very good person at first, and his hospitality was very enthusiastic. If he is at home now, he will definitely invite you in himself. It is not my turn at all."

Qin Aoxue asked in surprise, "Is your wife not at home?"

"Not here." Marven said casually: "Her company is relatively busy and has already resumed work. Only my mother-in-law is the only one at home."

Qin Aoxue hurriedly said, "Then I can't even go in. If your mother-in-law misunderstands it, it will cause you trouble."

Marven smiled and said: "No, no, my mother-in-law suffered some injuries on her leg, and now she basically takes a nap in the room every afternoon, and she basically won't go downstairs when she wakes up."

Qin Aoxue was relieved now, chuckled, and said, "Then I will cheekily ask for a cup of tea made by Master Ye!"

Marven flashed over, made a please gesture, and said, "Come in!"

Chapter 2297

Seeing Marven's sincere invitation, Qin Aoxue nodded and happily followed Marven into the villa.

After entering the house, Marven invited Qin Aoxue to sit on the sofa in the living room, then took out the tea set and made a pot of tea for her.

Qin Aoxue carefully held Marven's tea and said, "By the way, Master Ye, I went to see sister Wanting two days ago!"

"Oh?" Marven asked curiously, "Did you go to her company or to her house?"

"Go to her house." Qin Aoxue said, "I am worried that sister Wanting will be in a bad mood after so many things, so I went to see her at her house."

Marven nodded, remembering that since the Song family's crisis was resolved and Warnia Song regained the position of heir to the Song family, he hadn't had time to see her again, so he asked Qin Aoxue, "How is Wanting's current state?"

Qin Aoxue tilted her head and said, "Sister Wanting is in good condition."

As she said, she remembered one thing and hurriedly said: "By the way, Master Ye, sister Wanting has an Akita dog in her house. It is very pure and cute. I think there is no good Akita in Wrosvestel. She Said that your friend gave her?"

"Yeah." Marven said with a smile: "When I was in Japan the other day, I took her to live with a Japanese friend. The Japanese friend raised a lot of Akita dogs. Seeing Wanting liked it, I gave her one. only."

Qin Aoxue's eyes were full of envy, and she said, "Sister Wanting's Akita is called Xiaoyou. It's a girl. I've already told her that when Xiaoyou grows up, I will let Xiaoyou give birth to a litter of puppies. Me!"

Marven smiled and said, "Then you have to wait at least a year."

Qin Aoxue said, "It's okay, one year will soon pass."

Then, she asked Marven again: "By the way, Master Ye, do you have time in the last few days?"

Marven asked curiously, "What's the matter?"

Qin Aoxue said with some embarrassment: "That's it... Since the last time I won Ito Nanako and won the championship, I have been practicing hard at home, but I always feel that my progress is slow. A senior coach teaches hand-by-hand, so if you have time, I would like to invite you to come to my house and give me some guidance by the way. I don't know... Master Ye, it's not convenient for you... .."

Marven thought for a while, and said with a smile, "This is a trivial matter. Let's do it. When I finish the medicine, I naturally invite everyone to sit and have a meal together, and give the medicine to everyone by the way. I will bother your father. Prepare a banquet at home and invite everyone to your house for a small gathering. I will go there a few hours in advance and give you guidance."

When Qin Aoxue heard this, she said excitedly: "That's really great Master Ye! In this case, I will tell my dad when I go back, let him prepare the best banquet at home!"

Marven nodded and said with a smile: "By the way, do you know who sent her sister Wanting's Akita?"

Qin Aoxue shook her head: "Sister Wanting said it was your friend, but didn't say who it was."

Marven smiled and said, "It's Ito Nanako who you won in the game."

"Ah?!" Qin Aoxue exclaimed and blurted out: "Is it her?"

Marven smiled and said, "Yes, it's her."

Qin Aoxue hurriedly asked, "Master Ye, how is Ito Nanako's injury? Last time, I didn't control the effectiveness of the pills you gave me very well, so I injured her by a miss, and I don't know how she recovered... .."

After speaking, Qin Aoxue sighed with some guilt: “Actually...In fact, Nainazi’s strength has always been much stronger than me, and the champion of that competition should have been hers. I am completely dependent on the god you gave from Master Ye Medicine has been able to improve in a short period of time. Although I won the game, I hate to win...”

Marven waved his hand: “Aoxue, in fact, there is nothing glamorous and disgraceful. The competition is compared to your own strength and how well everyone controls the rules. Although part of your strength is improved by the elixir, it is also It belongs to your personal strength, and you have completely passed the doping test of the competition, proving that you have not taken any prohibited substances that are banned by the competition, so all this is in compliance with the rules of the competition.”

After all, Marven said again: “It’s like the black technology that swimmers used to participate in competitions-shark skin bionic swimsuit.”

“This kind of bionic high-tech swimsuit can greatly reduce the resistance of swimmers in the water. American swimmers including Phelps, in just one month, rely on the shark swimsuit to break With 14 world records, Phelps won more than 20 Olympic gold medals alone.”

“Of course, the help of this kind of swimsuit is indispensable, but none of the rules of the game at the time explicitly prohibited this kind of swimsuit, so people can get the gold medal with peace of mind. There is nothing disgraceful.”

Qin Aoxue nodded gently, and said, “I understand what you mean...”

Marven smiled slightly: “The game is played by the rules, so you don’t need to have any psychological burden in this regard. Not only can you not have a psychological burden, you will continue to participate in such international competitions in the future and strive for more glory for your country!”

Qin Aoxue hurriedly said, “Good Master Ye, Aoxue will definitely go all out and win more championships in the future!”

With that said, Qin Aoxue looked at the time and said shyly: “Master Ye, you must have something else this afternoon. Aoxue won’t bother you much. Don’t forget the things you just said... .”

Marven nodded and said, “Don’t worry, I will contact your dad after I finish the medicine.”

Qin Aoxue nodded, stood up and said respectfully: “Master Ye, then you stay, Aoxue will leave first!”

Marven also stood up and said, “I will send you off.”

Chapter 2298

Sending Qin Aoxue out of the house and watching her leave, Marven took the medicinal materials she sent back to the bedroom on the second floor of himself and XiaoAvella .

The medicinal materials Qin Aoxue sent were enough for him to refine a batch of healing pills and a batch of rejuvenating pills.

The pill to heal injuries is no longer useful for him, but this kind of medicine is indeed very effective for ordinary people. Warnia Song suffered an accident in Japan at the time, and it was the pill that saved his life.

Therefore, refining a batch of such medicines and giving them to people like Qin Gang, Solmon Wang, Li Tailai, and Shi Tianqi can also be regarded as a reward for the gifts they gave them years ago.

As for the Rejuvenation Pill, Marven also planned to make another batch, one of which was given to Qin Gang, as for the rest, he could keep it for emergencies.

In one afternoon, Marven refined ordinary healing pills and 30 rejuvenating pills each.

Seeing these newly refined pills, Marven suddenly thought of Viola, his mother-in-law.

In fact, with a small trauma like her broken leg, at most a quarter of a healing pill can make her jump alive.

And in his hand, there are as many as thirty.

Count it down, enough to break her leg 120 times.

At this moment, Marven also hesitated whether to reward her with some medicine dregs so that she could recover earlier.

But after another thought, he immediately dismissed the idea and muttered, "Forget it, she is not worthy!"

.....

When Marven was refining the pill, Du Zhenhua, who was far away in Orgeyon, called Lai Qinghua who was on the other side of the ocean.

Lai Qinghua is nearly a hundred years old, but because of taking Huichun Pill, his body is still very healthy.

He usually wakes up at five o'clock in the morning and does a set of Taijiquan and then a set of Wuqinquan to achieve the goal of physical fitness.

After punching, he will go to his study and use three old coins to simply give himself a divination.

Divination with three ancient coins is the most commonly used method of six lines and eight trigrams.

Unlike most Fengshui masters, Lai Qinghua's three ancient coins are almost all treasures of ancient coins.

The biggest one is the priceless Warring States Three Kongbu.

The remaining two are the extremely rare Taixia Zhenxing in the world.

Many people who have played with ancient coins for a lifetime may not have the opportunity to see one of them.

Just as he finished a hexagram and was comprehending the hexagrams represented by the few copper coins in front of him, Du Zhenhua called.

Lai Qinghua answered the phone and smiled slightly and said, "I'm wondering why today's hexagram image appears to be an old person, and the inner image seems to be separated by thousands of mountains and rivers. I didn't expect your call to come."

Du Zhenhua sighed: "Master Lai really has a brilliant plan. I admire and admire it!"

Lai Qinghua smiled and said, "Zhenhua, you don't have to slap on the horse like this between you and me. What can you find me so early?"

Du Zhenhua hurriedly said: "Master Lai, this is the case. I have a granddaughter who has always wanted to find her savior, but after searching for a long time, I still found nothing. So I would like to ask you to help me and give her a hint. I don't know you. is it convenient."

Lai Qinghua smiled and said, "Your granddaughter knows how to pay for Entuo. If so, give me her birth date and tell me the general clues about her rescue. Let me take a look."

Du Zhenhua hurriedly informed Lai Qinghua about Su Zhiyu's birth date and the time and passage of her and Su Zhifei's kidnapping in Japan.

Lai Qinghua muttered to himself: "The incident happened in Japan. Japan is east of China, and the East is in Fengshui, it is the position of the blue dragon..."

With that said, Lai Qinghua pinched and decided, then grabbed the old money on the table, closed his eyes, shook it in the palm of his hand for a moment, and then threw it out.

It didn't matter if he looked at it, his brows immediately frowned, and he said, "Strange! Zhenhua, there is a sign of looking for a dragon in your granddaughter's hexagram!"

"Looking for a dragon?!" Du Zhenhua asked in surprise, "Master Lai, what do you mean by looking for a dragon?"

Lai Qinghua said sternly: "Searching is searching for searching. The dragon is the dragon of the real dragon. This hexagram shows that the person your granddaughter is looking for has a very strong life and is extremely difficult!"

Chapter 2299

Du Zhenhua was surprised when he heard this, but he couldn't help but be overjoyed.

He couldn't help laughing: "Master Lai, this person is said to be able to kill many top ninjas in Japan on his own. His strength is indeed extraordinary, and his life is harder. It should be normal too?"

Lai Qinghua said very solemnly: “Zhenhua, there are many people with hard fate, and nothing else, but all the widows of Coff are hard as iron, but the fate of a real dragon is extremely rare. In ancient times, I dare not say that I would be able to achieve the Ninth Five-Year Exalted, at least he must be a prince and general, an extraordinary person!

Du Zhenhua was silent for a moment and said seriously: “Master Lai, my granddaughter really wants to find this person, I wonder if you can give me a hint?”

Lai Qinghua sighed: “This life is better than me, I can’t see through...”

Du Zhenhua exclaimed, “Master Lai, there is a fate you can’t see through?!”

Lai Qinghua smiled bitterly, and said seriously: “Fate is like an official title in ancient times. Since ancient times, officials at a higher level have crushed people to death, and at a higher level, I am beyond the scope of my ability. In any case, I can’t see through.”

Du Zhenhua asked in surprise: “If you can’t see through, how do you know that he is the destiny of a real dragon?”

Lai Qinghua laughed and said: “My fate is the python. In the law of feng shui fate, the python is second only to the dragon. Therefore, above me, only Long Ge. It is like the prime minister can surpass him. On the head, there is only the Nine-Five Lords. As long as it is the fate that I can’t see through, it must be the fate of the true dragon.”

As he said, he recalled Marven’s appearance in his mind, and said with full respect in his tone: “I was fortunate to have met a man who was destined by a true dragon. I don’t know how good this person your granddaughter met is, but it won’t be bad if you want to...”

Lai Qinghua has always been full of respect for Marven.

At the beginning, he calculated that his time limit was approaching, and at the same time, he calculated that the East had the opportunity to continue his life, so he agreed to Ye Zhongquan’s request to go to Orgeyon to find a geomantic treasure for the Ye family.

It was also when he arrived at Ye’s house that he could see that Marven was in the “Dragon Shoal” situation.

At that time, Marven was at the lowest point of life and destiny, and his fate was not comparable to him.

Therefore, he can count Marven’s fortune.

After he broke the predicament of Longkun Shoal, Marven’s fate soared, and from that moment on, he could no longer see Marven’s fate.

Right now, he couldn’t figure out who Su Zhiyu was looking for, so he could also conclude that the person Su Zhiyu was looking for was the fate of the real dragon.

Du Zhenhua sighed helplessly when he heard this, and said, "It seems that if my granddaughter wants to find this person, I am afraid it will take more work!"

Lai Qinghua said solemnly, "Zhenhua, I don't recommend that your granddaughter keep looking."

Du Zhenhua asked in surprise, "Why? Master Lai, what do you say?"

Lai Qinghua said earnestly: "The hexagram shows that your granddaughter is in conflict with the life she is looking for, and the other party is the most powerful Longge. This is like a bicycle and an overloaded train running at high speed. If the two do not collide, they will naturally be in peace, but if they do collide, the bicycle will definitely have no chance of winning."

When Du Zhenhua heard this, he couldn't help taking a breath.

He has great trust in Lai Qinghua.

So he hurriedly said, "Master Lai, thank you for your reminder. I will call my granddaughter and ask her not to look for it anymore."

Chapter 2300

Lai Qinghua hummed and said seriously: "It is time for her to stop, otherwise it will be like a moth to the fire, and it will be her own that will be hurt in the end."

Du Zhenhua repeatedly thanked him, then hung up the phone in a hurry, and then sent a video call to Su Zhiyu.

The reason why he wants to make a video call is because he knows that the other party will use the speaker directly after the other party picks up the video call. In this case, not only Su Zhiyu can hear what he wants to say, but his daughter Du Haiqing and grandson Su Zhifei can also hear it.

What Du Zhenhua feared was that Su Zhiyu did not believe in divination and fortune-telling. If she clearly told her that there were tigers in the mountains, she would probably not retreat, but would rather go to Hushan.

Therefore, he wanted to solemnly inform them of this in front of Du Haiqing's family of three, even if he could not persuade Su Zhiyu, there would be Du Haiqing and Su Zhifei.

It was dinner time. Su Zhiyu was indeed having dinner with her mother and brother. When she received a video call from her grandfather, she was suddenly happy, thinking that the divination had already had a result, so she immediately pressed the call button.

After the video was connected, Du Zhenhua smiled and asked, "Zhiyu, what are you doing?"

Su Zhiyu hurriedly said, "I'm preparing to eat, Grandpa, how about you?"

Du Zhenhua smiled and said, "I have finished eating."

After speaking, he asked, "Where are your mother and your brother?"

Su Zhiyu immediately switched the cameras, took pictures of her mother and brother, and said, "Mom and brother are there. By the way, Grandpa, have you let the master help you?"

Du Zhenhua nodded and said, "Forget it."

Su Zhiyu couldn't hide his excitement and asked, "Really? Does the master give any clear clues?"

Du Zhenhua hesitated for a moment, then sighed lightly, and said, "Know the fish, Master Lai helped you with a trigram, but the trigram shows that the person you are looking for has a very high life and a very hard life, so even Master Lai can't see through any clues related to him either."

"Ah?" Su Zhiyu was extremely disappointed? said, "Grandpa, didn't you say that Master Lai is very good? Why can't I find any clues?"

Du Zhenhua explained: "It's not that you can't find clues, or you can't see through. Even Master Lai has a lower fate than the person you're looking for."

Su Zhiyu said annoyedly: "I think that Master Lai just can't find any clues, so I find a reason to justify it."

Du Haiqing hurriedly said, "Know the fish, don't be rude!"

Su Zhiyu blurted out: "Mom, isn't what I'm telling you the truth? Master Lai said that he could find it if he found it, and he said he could not find it. Is it an excuse to hide your incompetence?"

Su Zhifei on the side opened his mouth and said, "Zhiyu, don't be so extreme. If you are really a liar, he will definitely not tell you one thing. He will only tell you something ambiguous or baseless. ."

"For example, if you are looking for someone, he may tell you in a straightforward manner that the person you are looking for is in the northwest, and then you can find the rest by yourself. As for whether you can find it, it has nothing to do with him."

"And since Master Lai can directly say that he can't see through, then I believe this is definitely not an excuse."

Although Su Zhiyu doesn't believe this, she doesn't want to argue with her family too much at this time, so she said angrily: "Since even Master Lai can't see through, then I will rely on myself to find it slowly!"

Du Zhenhua hurriedly said at this time: "Zhiyu, if you listen to Grandpa's advice, stop looking for this person."
