

The Amazing Son In-Law Chapter 2721-2730

Chapter 2721

Ruoli has always been a little inferior when she grew up.

She had not been accompanied by her father since she was a child, and she grew up to the age of eighteen before she was finally sent to her father as a bodyguard.

After coming to Su's house, she could see Zynn's express love for Zhiyu every day, and she was very envious every time she saw it.

She knew that that man was not only Zhiyu's father, but also her father as well.

But she couldn't call him father in front of him, and she couldn't even act like a baby in front of him.

He would show his love as a father only when no one else was present. Once there was a third person around him, he would immediately change back to the face of the Su Family Master.

Therefore, Ruoli admired Zhiyu in particular.

She felt that Zhiyu was a swan who had been loved by thousands of people and was born extremely noble.

And she is nothing more than the ugly duckling in the fairy tale.

And she is only the first half of The Ugly Duckling, there is no chance to become a swan.

The illegitimate daughter is synonymous with the inferior in the upper-class society.

Even if everyone knows that she is the illegitimate daughter of Zynn, they will only look at her with contempt, so there is still a world of difference between herself and Zhiyu.

Now, not only did her sister Zhiyu look down upon her, but she also took the initiative to match her sister, which made Ruoli warm and moved in ecstasy.

So, she took Zhiyu's hand and cried and said, "Sister, if anyone will bully you in the future, you can tell me, I will vent your anger! I have no other skills, nor have I been involved in anything. Learning, that is, I still have the ability to fight and kill. No matter who bullies you at that time, I will teach them severely for you!"

Zhiyu smiled and said: "With you sister, I will feel relieved. Sister is also someone who has super expert protection. If anyone dares to bully your sister, I will ask you for help!"

Ruoli nodded vigorously.

Liona on the side hesitated for a moment, and said: "If you are with Marven in the future, you must properly control your temperament, and don't always fight and kill as you did before."

Ruoli nodded in shame, and said with a face of being taught: "Don't worry, Auntie, I won't do anything that hurts the world again in the future!"

Liona nodded slightly with relief: "After the turmoil in Japan passes, you can live normal again. Change your status and start again."

Ruoli nodded slightly with a dazed expression.

In fact, she knew very well in her heart that referring to the crimes she had committed before, the Japanese would never give up searching for her in this life.

It is impossible to be absolutely safe even after a facelift and a new identity, because her DNA has already been collected when she was arrested, and this is something she can never change.

Ruoli has watched many criminal investigation programs. Many criminals have been at large for more than ten or even twenty years. After such a long period of time, they changed their environment, new identities, and even some people have completely changed their appearance. , But the police still rely on DNA to bring them to justice.

Therefore, she always felt that she had only temporarily escaped from Japan, but that incident might accompany her for life.

Marven said at this time: "Auntie and Miss Su, you two should stay in the room to rest. I will arrange for someone to take you away in the evening."

Liona said, "Thank you, Marven."

Marven smiled slightly: "All should be done."

Zhiyu mustered up the courage and said: "Benevolence!"

Marven looked at her and waited for her to follow.

Chapter 2722

Zhiyu hurriedly said: "Benevolence, can I have your contact information? Liona saw that her daughter mustered up the courage and asked Marven for contact information. For fear that Marven would refuse, she hurriedly added: "Oh yes! Marven, You'd better leave us a contact number, so we can communicate with you if we have anything in the future."

Marven can see it through, the elder is opening up, it is not good to refuse, pulled out the cell phone and said: "I'll say my number note it down then."

Zhiyu embarrassingly said:" Well mine, and Mom's mobile phone was taken away by your subordinates."

Marven nodded and said, "In this way, I will ask Mr. Chen to arrange for someone to send the mobile phone back to you, and then let them send you my WeChat ID."

Zhiyu was overjoyed and hurriedly said: “Then you will work hard, benevolent! Liona remembered something at this time, and then said: “By the way, Marven, at the previous auction, someone never stopped increasing the price to buy the small set that your father lived, you were there, right?”

Marven smiled and said, “Yes, it was me.

Liona asked curiously, “Why did you let me buy it in the end?”

Marven shrugged and said, “I thought you needed that house more than me.”

Liona smiled with emotion, and said, “Thank you for showing love.

“It should be.”

After bidding farewell to Liona and Zhiyu temporarily, Marven took Ruoli and came out of the room of the mother and daughter.

As soon as he left the room, he saw that Zak Chen was already waiting outside. He saw Marven come out, hurried forward, and respectfully said: “Master, I have already arranged it here. After half an hour, I will send Zynn to the airport, but he is here. There are several other people here who are also under our control. What do you plan to do? Do you want to send them with him?”

Marven waved his hand: “No, if you send them over, doesn’t it mean that you have arranged a few servants for Zynn? Let Zynn go to Syria by himself. When he gets there, he will have to fetch water and eat. He has to shovel the pit by himself so let him go and hone it.

Marven said again: “As for the other people, just send them all to Kennel.

Zak Chen smiled and said, “Okay young master, I will make arrangements!

Marven said again, “By the way, I will send you an account later and ask Zynn to remit the promised 100 million U.S. dollars, and then send him away when the money arrives.

“Okay!

Marven then sent the Swiss bank account number sent by Hamid to Zak Chen. After Zak Chen got it, he went to Zynn as soon as he got it.

Zynn didn’t dare to delay, so he immediately called the group’s overseas financial officer. He asked the other party to remit 100 million U.S. dollars to this account immediately.

Although Zynn is not the owner of the family, he still has the authority to transfer 100 million U.S. dollars. Therefore, the financial officer immediately reported to Hamid after verifying his identity. An account transferred 100 million U.S. dollars.

Ten minutes later, Marven received a call from Hamid. On the phone, Hamid’s shocked voice was a little incoherent, and he blurted out: “Brother, I just received a call.

Shouldn't you arrange the remittance of 100 million US dollars?!" Marven smiled and said calmly, "Well, I arranged it.

Hamid exclaimed: "Brother! What did you send me so much money for?!"

Marven smiled and said: "It's just a little care, and I have said that, I must support the brother's career in the future. If my brother is to give a tribute, don't forget your brother!"

Chapter 2723

Hamid did not expect that the huge sum of 100 million U.S. dollars in Marven's mouth turned out to be nothing more than the word "little care".

He was so moved that he even choked in his voice, sobbing and saying, "Brother, you are really my reborn parent. My stumped leg is healed thanks to your magical medicine, but I didn't expect that you would still support me with such a large sum of funds, I don't know how to repay your kindness.

Marven smiled and said: "Acquaintance is destiny. If you and I meet once, it is destiny. Since there is destiny first, I should do something.

After speaking, Marven said again: "By the way, after you have this money, I don't know what your plans are?"

Hamid said without hesitation: "Brother, let me tell you, since my leg was broken. Until now, my team has lost a lot of talents. I have never had a chance to replenish it. Now I have plenty of funds on hand. I plan to bring the old department together, and increase the size of the team as much as possible. Buy some relatively advanced weapons and equipment, of course, even heavy equipment, mainly for individual combat equipment, as well as upgrades on light equipment. "

Marven said: "Brother, I advise you not to blindly expand the army at this stage."

Why?" Hamid asked very puzzledly: "My brother, what do you think?"

Marven said seriously: "The place you are now entrenched can be said to be easy to defend and difficult to attack, plus the enemy's weapons and equipment. It's not very sophisticated, so it's not so easy to attack you. You blindly expand your army, but it doesn't make much sense. After a

pause, Marven continued: "But in my opinion, your biggest problem now is that your defense is relatively weak.

"You have only a few helicopters, one fell-one less; the same is true for armored vehicles, one less one."

Instead of doing this, you might as well put more effort into infrastructure construction, and do your best to engage in infrastructure construction. Improved defense ability. Come up, then keep a low profile and accumulate your strength!

"Infrastructure?" Hamid asked in surprise: "Brother, what kind of infrastructure can I do in my mountain nest?"

Marven smiled and said, "Of course it is to dig deep holes and accumulate food! After all

, Marven reminded him again: 'I know, although your opponent is stronger than you overall, but they can't produce any real weapons with great lethality, so at most, they are some old fighters and artillery, which can't even use missiles, so between you Fighting is not considered modern warfare at all, it can only be regarded as a war model from the 1940s and 50s to the 1960s and 70s.

"If it is modern warfare, your base area will be completely useless. The other side dispatched several sorties of bombers. Or simply launch a few tactical missiles, and it will blow you up directly.

"But fortunately, everyone can't fight the modernization war, so it makes sense for you to engage in infrastructure construction!"

"Moreover, the more you do this, the more you have to strengthen your own base area!

Chapter 2724

"For example, you can launch the soldiers for the construction of a large number of air-raid shelter in the village, Artillery hole, then purchase a number of mining equipment, in the mountain, the mountain use as cover to build positive fortifications, as well as the inverse slope of fortifications.

" In this way, the others as long as you are bombed, you can hide in the fortifications, and you can minimize the loss whatever the other party hits you with.

"Moreover, once you have the reverse slope fortifications, it will be even more difficult for the opponent to lay down your base area. Even if they can break into your valley, your soldiers can directly cover the entire area with firepower from the reverse slope fortifications halfway up the mountain. The valley, let them come back and forth.

Hamid on the other end of the phone, when he heard these, his eyes lighted up.

Marven continued at this time: 'You strengthen your defenses and turn yourself into an iron bucket. Then they will not be able to defeat you, and then they will definitely give up dealing with you and choose to go to war with other opposition forces, and you, try not to take the initiative to attack, just shrink in your base area, the enemy will come and you will block, the enemy will withdraw and you will raise, In that way, you can not only preserve your strength very well but also have the opportunity to continuously absorb the defeated skirmishers by virtue of your strong defensive ability."

Hamid said excitedly, "Brother, where do you learn this? Yes? It sounds very reasonable!

Marven smiled and said: "Learned from my ancestors, let you do a good job in infrastructure and defense construction, and at the same time do not take the initiative to attack. To be king. "

After speaking, Marven said again: "Let you wait for the stragglers who are armed by other opposition factions. This is called watching the fire from the other side.

Hamid said with emotion: "I can further enhance my defense ability based on the experience taught by my brother, but if my brother's army asks me for help, then how am I embarrassed to really watch the fire from across the bank?

Marven laughed and said: "What's the matter with this? Excuse me? If someone beats someone else, just look at it.

Hamid said embarrassingly: "I'm afraid that will make the entire opposition camp spurned.

Marven said seriously: "It doesn't matter to spurn, the most important thing is to survive. We don't take the initiative to look for things, and we don't get too close to other opposition parties. We do our best to preserve our strength so that in case the opposing party fails one day, you Here is another hard bone. If the other party can't chew, then they have a great probability of recruiting you. Once they recruit you, it will be easier to deal with, so that you can negotiate terms with them and change the position. After that, Marven smiled slightly and said earnestly: "This is called forward and attackable, and retreat and defense.

Long.

Hamid was silent on the other end of the phone.

Marven told these strategies and tactics, which he had never thought of before.

Their current strategic situation is relatively simple. It is nothing more than fighting indiscriminately. As long as they meet, they will definitely fight.

However, most people just pay attention to the present, there is no long-term systematic strategic planning at all.

In contrast, Marven, although he grew up in a peaceful age and space, he has never seen what war is like, but he has learned various allusions in Chinese history since he was a child and has a certain theoretical basis for various strategies.

Moreover, in the few wars of the nation against foreign enemies, many classic battles were fought, which further highlighted Huaxia's unique strategic thinking. Therefore, Marven synthesized his own cognitive foundation and quickly got a better understanding of Hamid's current situation. A relatively more accurate judgment.

As long as Hamid can implement the strategic instructions of digging deep holes, accumulating food, and slowly becoming king, no matter whether the opposition can succeed or not, he himself has a chance to succeed.

After Hamid heard this, the whole person was greatly inspired, and blurted out: "Brother! After listening to you, I really have a sense of relief! I will arrange for someone to purchase a batch of light industrial and mining equipment, and immediately start working on the main pass and surrounding Build fortifications on the mountain and purchase more weapons, ammunition, food, and medicine, and be prepared to stick to the base for a long time!

Chapter 2725

The relatively slow military development, the relatively weak military strength, and the relatively low military quality are common problems in some small war-torn countries.

There is a huge disparity in economic strength between countries, and the disparity in military strength is even more shocking.

Hamid himself is not from a real military school. In addition, he is in a relatively backward and chaotic environment, so he has no strategic mind at all.

The strategy he can think of is to live as long as possible.

In the encirclement and suppression the previous two days, the reason why he was not wiped out was also due to government intelligence errors. They thought that the village was just a small stronghold, but they didn't expect it to be Hamid's base camp, and Hamid's base is easy to defend. Attack, so it will fail.

However, being easy to defend and difficult to attack does not mean that it cannot be attacked.

The first time it was the opponent despised, but if the opponent prepares and makes a comeback, and Hamid does not care about defending, then there is a high probability that he will be overwhelmed.

Although Marven and Hamid are still relatively short-lived friends, he doesn't want to hear the news that he was killed someday.

Besides, Zynn was sent there immediately, if he had just arrived in Syria and did not die in his own hands, but died in the hands of Hamid's opponent, it would be more or less embarrassing.

After all, Marven still wanted to keep him for future use.

In case Zhiyu is unable to inherit the Su family, he can still let Zynn come back.

As for what conditions Zynn had to pay by then, all the initiative was in Marven's hands.

So in other words, a considerable part of Zynn's billion dollars is also used to strengthen his personal safety.

But Zynn's billion dollars was a great favor for Marven.

Because these billion dollars, and the series of strategic guidance he gave Hamid, are of great significance to Hamid.

Therefore, while being moved, Hamid asked Marven very modestly: "Brother, I understand the importance of infrastructure, but according to what you said, how should I implement it? Is there a relatively detailed plan?"

With that, Hamid said apologetically, "I'm sorry, most of the soldiers under my hand have not read any books, let alone let them make suggestions."

Marven smiled and said: "This situation is understandable."

After that, he further explained: "When I came to your place, I probably observed the topographic features of your place. Except for the relatively narrow entrance to the mountain each in the north and south, the others are almost all surrounded by mountain peaks, at least seven or eight. Is it a mountain?"

"Yes!" Hamid hurriedly said, "There are eight mountains in total. The two mountains on the east and west are the highest. The others are relatively short, but they are steeper. Heavy equipment and armored vehicles definitely cannot run over."

Marven smiled and said: "that could not be better, depending on your situation, you put the infrastructure projects into three phases, the first eight to be in this mountain fortifications built eight positive and eight The reverse slope fortifications, to put it bluntly, are two fortifications on each mountain, one front and one back, and then two frontal fortifications are added separately on the mountainsides on both sides of the north and south entrances."

"The construction of fortifications must be as strong as possible, relying on the structure of the rocky mountain, and then using reinforced concrete to create permanent fortifications to ensure that ordinary gunfire cannot destroy it."

Hamid hurriedly asked: "My brother, what about the second and third stages?"

Marven said: "In the second stage, you must at least double the fortifications. Make sure that at least half of your soldiers can hide directly in the permanent fortifications. In this case, the opponent's artillery fire and intensive attack, your soldiers can be preserved in the permanent fortifications."

As for the third stage, you need to ensure that all soldiers can survive in the permanent fortifications for a long time. The fortifications on the mountain can all communicate internally. The permanent fortifications can not only defend and live, but also be used to store strategic materials. After you achieve this, you can sit back and relax!

Chapter 2726

Hamid said without hesitation: "Okay! Just follow these methods!"

After finishing speaking, he hurriedly asked again: "Brother, what suggestions and instructions do you have?"

Marven said: "Besides, you still It is necessary to purchase a large amount of food and medicine immediately and store it in a dry and safe environment. For the first time, you must store a total of more than three years of rations!"

Hamid exclaimed: "Three years?! So many?! An adult person eats, at least two hundred kilograms of grain a year, for two thousand people, it would be 400 tons, and three years would be 1,200 tons!"

Marven asked, "Then I ask you, how much is 1,200 tons of grain?"

Hamid thought for a while, and said: "The current market price is about three hundred dollars per ton of wheat, and 1,200 tons. Including the transportation cost, which is 400,000 dollars. The money is not much, but the point is this. How to store more food? And the food will not taste good after a long time."

Marven said helplessly: “Now it is for you to engage in strategic reserves, not for you to eat fresh food every day!

“Think about it, you first keep your three-year rations in your hands, and then purchase supplements according to the actual consumption of the year.

In this way, you will always have an extra three-year ration in your hand!

“And as long as the food is stored properly, it won’t go bad after three years. The climate in the Middle East is relatively dry and it’s easier to store, so you can use it every other year. A new batch of grain replaces the oldest batch.”

Using this method, you can guarantee that the food stored in your hand will not last more than three years.”

Once the opponent can’t beat you down, prepare to encircle you, or trap you to death, even if you can’t get any food in, you can still After three years

Marven concluded: “The principle of weapons, ammunition, and medicine is the same. You must make more arrangements and plan for cycle rotation. You must have strategic reserves in your hands, and you must always prevent the people fighting with you for a long time.

Hamid suddenly realized, and exclaimed: “Brother, I understand! This trick is amazing!

Marven said helplessly: “What’s so wonderful, this truth, in China, everyone who has studied in elementary school basically knows that you have come to China to study at a loss, why didn’t you learn history of China?,

Hamid is embarrassed. He was ashamed and said: “Hey, I mainly wanted to go to China to get a gold plate. By the way, I could practice Chinese well, but other aspects were really overlooked.”

After speaking, he immediately said: “My brother, I understand what you mean. Yes, the main thing is to do everything possible to use those 100 million US dollars to strengthen defenses. Not only must the fortifications be strengthened, but the defense materials must also be adequately prepared. Don’t worry, I will arrange for people to purchase food, ammunition, and medicine, and also purchase some infrastructure equipment and building materials.

Marven snorted and said, “In this case, the problem of defense and materials can basically be solved, but there is another problem that needs you to start acting immediately!

Chapter 2727

Hearing that Marven said that he still has a problem that needs to be dealt with immediately, Hamid hurriedly asked: Brother, what problem are you talking about?

Marven said: “The last time I came to your place, I found out that your base now all depends on diesel units Power generation.

“Yes. “Hamid said: “Diesel generator sets are fairly convenient to use, but the cost is a bit high.

Marven said: "This is not a bit high, but rather very high. The cost is at least several times that of coal power!"

Hamid said hurriedly: "I have been implementing the strategy of saving electricity here. Basically, I don't use electricity or use less electricity during the day. Electricity, ordinary soldiers only use electricity for lighting at night, so the overall electricity consumption is not high, and the cost is acceptable."

Marven retorted: "You just didn't think about it for a long time. If you have a dozen or even dozens of fortifications in the future, then each fortification needs to be provided a corresponding power system to ensure the lighting, ventilation in the fortifications. Communication, even cooking, if this is the case, your diesel power generation will not be available at all, and the cost of fuel consumption will be very high when running at full power."

When Hamid heard this, he exclaimed: "Oh, I! I even forgot this! But I don't have any good solutions now. The government army can't provide electricity to me, and I have no ability to build a thermal power plant, so I can only use diesel generators to generate electricity. Question Marven said: "Although your area does not have the possibility of developing thermal power, you can try to develop a fixed photovoltaic power generation."

The Middle East itself has sufficient sunlight, and although the construction cost of photovoltaic power generation is relatively high, the subsequent use cost is relatively low. Low maintenance cost. You only need to invest two or three million dollars at a time to build several independent power systems that are powered by solar power and stored by batteries. This way, you can completely get rid of fuel power generation and generate electricity every day. The electricity is enough for your two thousand soldiers to use normally."

'Photovoltaic power generation solar panels can be placed directly on the roof, or on the hillside near the internal reverse slope fortifications, which can also prevent enemy damage. Then put your diesel generator set in a safe cellar and only maintain it at ordinary times. Restart in an emergency to provide an emergency power supply. In this case, you are equivalent to having two power supply systems.

Speaking of this, Marven said earnestly: "Anything, as long as it has something to do with war, you must make an emergency plan. This set is no longer good, and you should change to another set immediately. Only in this way can the chance of survival be improved. In my heart, most of your subordinates do not have any literacy level, and you have not studied the military systematically, so your team itself has a lot of shortcomings from the theoretical basis. If you don't force yourself to think more and study more, It is difficult to survive the continuous war."

Hamid also realized the importance of Marven's words and immediately said: "My brother reminded me! I must strengthen my understanding of this aspect in the future and strive to hurry up. Improve myself!"

After finishing speaking, I was busy again: "I will start to work on photovoltaic power generation as soon as possible. 100 million US dollars is a huge sum of money. Many problems can be solved easily. In the future, I will try my best to upgrade all aspects. The transformation must live up to the expectations brother!"

Marven is happy to see Hamid's attitude, but also a little relieved that he can now do not expect Hamid Monkey worship phase, able to survive had been regarded as the beginning of a success.

Then Marven remembered something, and then asked him: "By the way, the people under your hand have never read any books. If you really want them to operate infrastructure equipment to build fortifications, can these people do it?"

Hamid didn't even think about it. Said: "It's definitely not possible to rely on the group of people under my hands. When I mention this, they get angry. I asked them to dig a cellar. They dig a cellar, and they can dig a damn eight. I expect them to build permanent fortifications. Absolutely impossible. While speaking, he smiled and said:'

But

I happened to know a friend who was in the construction industry in Iraq. He has many construction workers under his hand. In Iraq, he has long been used to the days of the war. As long as the reward is enough, they won't even go to the moon to dig a hole. I will contact him in a while and ask him to send someone over as soon as possible!

Marven said: "It's good to have this relationship. In fact, the kind of permanent fortifications I'm talking about doesn't require too much cost, nor does it need too high technical content, you can find a way to find an old Chinese movie "Shangganling" to learn and understand this, for your current situation, this movie is definitely the best teaching material! Because you are also facing a highland war, and there is little difference in weapons and equipment. As long as you can make good use of the high ground, make good use of the tunnels, and the strategic advantages of the reverse slope to build fortifications, even if the enemy's artillery is extremely powerful, it will be difficult for them to defeat you!"

Hamid did not hesitate and said: "Okay! I will find a way to download it over the satellite network and watch it thoroughly brother."

Chapter 2728

Marven exhorted: "You must take this movie seriously with respect to understanding and learning!"

Hamid blurted out, "Don't worry, my brother! I must study with humility!"

Marven said, "That's right, When the construction workers you are looking for arrive and start construction, you must choose some clever and alert civil soldiers from your team to help and learn, so that while you can speed up the progress of the project, you can also help Your subordinates learn construction experience, maybe after a period of time, you will be able to pull out an engineering company under your hand!"

"Okay!"

Hamid said immediately: "I must find a way to form an engineering company!"

Marven again said: "This matter must be dealt with as soon as possible, otherwise they may not wait for the fortifications to be completed, and your entire army will be dealt with in one fell swoop. "

Hamid busy:” I will start to do it today, the fortifications before that, let me keep a low-key.

“Okay.

Marven said with satisfaction: “

US \$400,000 for grain, US\$1 million for canned food with a shelf life of more than two years, and US\$1 million for medicines and consumables, and US\$3 million for photovoltaic power generation. , 20 million U.S. dollars to hoard guns and ammunition, and another 40 million U.S. dollars to build permanent fortifications. The remaining money can be used as a reserve and used flexibly. Basically, you can increase your overall strength by more than one level. Get it right!”

After Hamid thanked Marven so much for his kindness, he hung up the phone and immediately began to study the specific plan of infrastructure construction, and at the same time coordinated various resources to prepare for the start. At this moment, Zak Chen and Ruoli next to Marven. They looked at him with shock.

Ruoli couldn't understand why Marven suddenly instructed others how to fight a war on the phone. After all, this was a peaceful age. War was too far away from ordinary people, and she didn't know Marven went to Syria.

As for Zak Chen, he was shocked and speechless.

He was puzzled and couldn't help but wonder: “I really don't understand why the young master should help that Hamid? Does the young master want to develop in the Middle East in the future?!”

Chapter 2729

Marven himself knows that a truly high-return investment is no different from gambling.

The risk is high, but once the bet is won, the profit is even greater.

Now that he makes a moderate investment in Hamid, it is almost equivalent to his mother's investment in those just-starting Internet companies in Silicon Valley.

Investing in them at this time only needs to pay a small price, and once they succeed in the future, they will be able to reap huge returns.

Although Hamid's armed forces are not a company, he is also a project with great development potential. If it succeeds, there will be inexhaustible benefits. Therefore, it is for him to invest more energy and give him more advice and support. Invest in the future.

Moreover, this investment is nothing more than a blood-saving pill and some strategic experience, and the 100 million US dollars of real money, which is all sponsored by the Su family.

Once Hamid is engaged, he will have a return period of at least several decades in the future.

So Marven didn't explain to the two of them anymore, but said to Ruoli: "Ruoli, your current identity is still too sensitive to allow you to leave freely for the time being, and you are still wronged to stay here during this period of time.

Ruoli said without hesitation: "I will obey all the arrangements of the master!

While speaking, Ruoli still had a sad look in her eyes.

Marven saw the sadness in her eyes, and remembered that she had been here for a long time. If nothing else, she must have missed her mother very much.

Moreover, her mother gave birth to her in October when she was pregnant by herself, and then dragged her up. Now that she is unclear about her life or death, her mother must be very worried.

After thinking about it, Marven opened his mouth and said: Ruoli, you have cut off contact with the outside world for so long, your mother must be very worried about you, right?

Ruoli looked very gloomy when she heard this, and nodded gently: "I miss her. She must still be looking for me everywhere. If she doesn't find my body, she can't believe that I'm really dead."

Marven nodded and said, "Let's do it, you give me your mother's contact information, and I will let someone bring your mother to Wrestrvel. Then you can meet your mother.

Ruoli was immediately surprised. Asked: "My dear Master! Do you really want me to meet my mother?!"

Marven nodded and said, "Of course, you will meet again, but you still have to make sure that the news of your life is not leaked to other people. At most, only your mother will be allowed. People know, so you can't let you take the initiative to contact your mother."

Otherwise, if your mother knows that you are alive, emotional, suddenly uncontrollable, and then tell other people, once the news leaks out, it will be very troublesome if it reaches the Japanese."

"With their perseverance to catch you, they will definitely apply for extradition to Japan for trial."

Of course, Ruoli understands Marven's caution, so she hurriedly said, "Then, what do you think?"

Marven said. "I asked Mr. Zak Chen to invite your mother over in the name of the Ye family, but I won't tell her about you. When she comes, I will take her to meet you directly. What do you think?"

Ruoli said with red eyes: "My dear master, as long as I can see my mother, if she leaves, I will be satisfied! If it is really inconvenient, even just make a phone call."

Marven smiled and said: "It is better to let your mother come to Wrestrvel without knowing you are alive. That way it will be more controllable. If she has enough time, she can stay here with you for a while. We can claim that she is here to talk to me about cooperation. After all, I heard that when you had an accident, Su family completely turned his face with He family. At this time she can come to me to talk about cooperation, and it will not arouse other people's suspicion.

Ruoli nodded and said excitedly: "Thank you, benefactor! Then everything has been arranged through hard work!"

Chapter 2730

Marven looked at Zak Chen and said, "Mr. Zak Chen, you will remember Ruoli's mother's contact information in a moment, and first communicate with her in the name of the Ye family to see if she is willing to come over, if she is not interested in cooperating with me. Interested, tell her that the young master of the Ye family wanted to talk to her about dealing with the Su family together."

Zak Chen hurriedly said: "OK young master, I will implement this later."

Marven turned to look at Ruoli and said, "Ruoli, give Mr. Zak Chen your contact information, and then go back to the room to rest."

"OK, Master!"

Northeast Desert City at this moment.

This small town is one of the coldest places in China.

Even though it is the end of the first month, the minimum temperature in Mocheng still reaches minus 17 -18 degrees, almost the same as the freezer compartment of the refrigerator.

During the coldest time of the winter, the temperature here can reach about minus fifty degrees.

The He family, one of the four major martial arts families in China, took root in this county-level city with a population of less than 100,000.

The ancestors of the He family were not native Mocheng people.

They originated from the Jiaodong Peninsula. During the Ming and Qing Dynasties, they were well-known martial arts families on the Jiaodong Peninsula. Their ancestors have always lived by playing darts and running martial arts schools.

However, at that time, the He family mainly practiced outside martial arts, so they were far from the level of the martial arts family.

Until the end of the Qing Dynasty, when the Jiaodong peninsula was turbulent, when the He elder and his family broke through the Guandong, by chance, they obtained a fragment scroll of the inner family boxing method.

The reason why it is said to be a fragmented scroll is mainly that nearly half of its content has long been lost. There are many defects in both the boxing method and the corresponding mental method.

But even so, after the He family moved to the northeast, they relied on this incomplete inner family boxing technique to rank among the martial arts family.

Moreover, the inner family boxing method that the He family got is very incomplete, so when the family is training hard, the internal force is often disturbed and the meridians are reversed. Once this happens, it can be severely injured for several months. The martial arts was completely abolished, and many younger generations even died as a result.

Therefore, the He family gradually came up with a response plan, which is to practice this internal martial art in extremely cold places as much as possible. The extremely cold weather helps to better control the internal force, thereby reducing the probability of accidents.

Because of this, the He family moved to the coldest desert city in China a few decades ago, and then took root here.

Ruoli spent her childhood and entire teenage years here, and her mother, Roma, had been living here since she broke her arm to save Zynn and rarely left Mocheng.

However, in the recent period, Roma has been running outside for almost half of the time.

At first, when Ruoli was arrested in Japan, she heard Zynn say that he would save Ruoli, and went to Japan to see Ruoli in person, so that she could rest assured to wait for her to return home.

Unexpectedly, the news that Ruoli was missing and that Old Su betrayed Ruoli soon came out.

Since then, Roma spent most of her time in Japan looking for Ruoli's whereabouts.

Although she knew it was a needle in a haystack, she still tried her best to search for a long time in Tokyo and surrounding areas, and then spent huge sums of money to hire search and rescue ships to search in the Japanese waters, and even search in coastal areas in China, but she never found any relevant clues.

She had just returned from the southeast coast the day before yesterday. This time she ran through several key port cities, and still hadn't heard any news of anyone sneaking ashore.

She knew very well that the longer time was delayed, the less likely it was that Ruoli would survive.

So, she discussed with her father Luther He and planned to raise some more funds, and then search the coastal areas of the Jiaodong Peninsula to see if she could find Ruoli's whereabouts.
