

## The Amazing Son In-Law Chapter 2731-2740

### Chapter 2731

In this regard, Luther He, the head of the He family and Roma's father, was a little embarrassed, and said: "Roma, your eldest brother has talked to me these days when you went to the southeast coast.

Roma hurriedly asked: "Dad, eldest brother will talk to you What's the matter?"

Luther sighed and said: In order to find Ruoli, our He family has sent out most of the manpower and various expenses during this period of one or two billion. There is still no news, which has delayed these children's practice. Not to mention, our He family has now turned their faces with the Su family and lost the source of income. If we continue to look for her, the economic gap will become bigger and bigger.

Speaking of this, Luther continued helplessly: "The family is only for the children. The medicinal materials we prepare for practice cost three to five million a month. With so many people and so many mouths to eat and drink, the cost is even higher. Although I also want to find Ruoli, I continued to look for her. Going down, as the head of the family, I can't explain to other people!

Roma lowered her head slightly.

She also knew in her heart that it was impossible for the He family to keep investing in finding Ruoli's whereabouts.

After all, the family as a whole is not a wealthy and rich family, and the daily expenses are huge. Some time ago, she invested a lot of money to find Ruoli, which made her feel very guilty. Although she felt sorry for her daughter and wanted to find her as soon as possible, she couldn't bear it. Drag the He family into the quagmire.

So she said to Luther: Dad, I understand what you said, otherwise, I will go find her myself.

Luther sighed, "If you find yourself, it will be a psychological comfort at best. You know, finding her is like finding a needle in a haystack. We have hired so many people and so many boats, and the cost per day is tens of millions. , But still can't find any clues, what use is it if you go alone ?" Roma fell silent all at once.

Luther hesitated for a moment, and said helplessly: "If it really doesn't work, you should go to Zynn. If Ruoli was betrayed by Su family, even if he did not participate directly, he would have to bear certain responsibilities. We will not talk to them now. Right or wrong, let them put out a certain amount of funds and resources to find Ruoli.

Roma said with a complicated expression: "Dad, I don't want to meet Zynn anymore.

Luther asked in surprise: "If you leave this matter, just forget it with the Su family?!"

Roma smiled bitterly, and said:"Zynn is nothing but the puppet that the old man of the Su family, he will come and go. It can't solve any problem with him, and the old man Su's style is cold and cruel. Liona was

the second lady of the Du family, and the old man did not let her go. If I go Talk to the Su family for an explanation, for fear that the whole He family will be implicated.

Luther said with helpless emotion: “The shamelessness of the Su family is indeed far beyond my cognition. Now Chengfeng’s reputation has been completely ruined. I am afraid that he will be more smashed in the future, and he will have to take care of his face before. It may be completely shameless in the future.

After that, he said again: “We have broken with the Su family now and have lost the biggest source of income. We still have to find a new master as soon as possible. Although the martial arts family has a good reputation, But I don’t have the ability to make money. I can only rely on a big family that is willing to spend money. What do you think about this?

Roma shook her head and said, “Dad, let me tell you, what I think of every day is If I leave, I can’t concentrate any energy on other things. I’m running around these days and I don’t even have the energy to think about what to eat for a meal. Every time I feel hungry and exhausted, it’s directly within my sight. Find the nearest restaurant, and use the fastest time to fill up my stomach.

After speaking, she bowed apologetically and said, “Dad, I can’t help you during this time. Please forgive me.

Luther and nodded. , Comfortingly said: “You don’t have to blame yourself too much, I understand this kind of thing very well.

When it comes to this, he can’t help but sigh, and said: “It’s just that you are the only one in the family who sees the problem relatively deeply. Your brothers see the martial arts practice. With well-developed limbs and a simple mind, coupled with the fact that he hasn’t read any books, the understanding of the problem is indeed a bit superficial for him.

Roma asked, “Dad, do you have any general plans now?

### **Chapter 2732**

Luther said: “I probably thought about it. I still put the main family of cooperation within the scope of Orgeyon. There are many large Orgeyon families. In addition to the Su family, there are also the Ye family and the Gu family. In family cooperation. After all, the enemy’s enemy is a friend. I believe the Du family must have such a plan. Liona’s existence is unclear, no one knows whether she is alive or dead.

They cannot suffer from this dumb loss. Roma nodded, forced herself to think for a moment, and said: ‘Dad, these three families are very strong. If they can cooperate, it’s great, but I still don’t recommend cooperating with the Du family.

Luther hurriedly asked, “Why?

Roma said: “The Du family is in a special situation, not just for the future generations. It’s not bad, and there are people in high positions, so even if they are extremely dissatisfied with the Su family, they are unlikely to cooperate with our martial arts family. If it is spread out, it will affect their reputation, and it is not easy to explain to the outside world.”

Luther suddenly realized, he blurted out: “No wonder! I always feel that the Su family is a bit unlucky now. The ocean transportation business is so large and strong, but the license is suddenly revoked. It seems that it is probably the work of the Du family.

Yes. Roma said: “The Du family will definitely choose reasonable and legal methods. Even if they use the rules of the game, they must be within the scope of reasonable and legal limits. But in their eyes, we martial arts families are walking in the marginal gray area of society. These people, will definitely draw a clear line with us.

Luther nodded and said: “I understand, it seems that I still have to find a breakthrough in Ye family and Gu family only!

After finishing speaking, he stood up and said: “Roma, in this way, I will give you another private transfer. Ten million, you go to the Jiaodong Peninsula and look for a piece of news or sign again. If you still can’t find Ruoli this time, Dad suggests that you also face the reality appropriately. If she is still missing, you can’t watch yourself and the whole He family languish!

Roma nodded gratefully and choked up: Dad, thank you!

Luther waved his hand and exhorted: Don’t tell your brothers about this, do you understand?

“I understand Dad!

Just as Roma finished speaking, the phone rang suddenly.

A strange number with Wrestrvel extension.

She was a little surprised, but still pressed the answer button, and said, “Hello, who is it?

At the end of Zak Chen’s polite call, “Is it Ms. Roma He?

” “It’s me, who are you?”

Zak Chen hurriedly said: “Hello, Ms. He, let me introduce myself. My surname is Zak Chen Craven. I am the person in charge of the Ye family in Wrestrvel.

“People from the Ye family?!” Roma- she was so shocked that she couldn’t say anything. She was talking to her father about the Ye family, and even her father wanted to get on the line with the Ye family. and their representative is contacting her himself!

Chapter 2733

Hearing that it was a call from the Ye family, not only Roma couldn’t believe it, but Luther on the side was also shocked.

Just when Roma was surprised, Zak Chen asked: “Ms. He, is it convenient to speak now?”

Roma recovered and hurriedly replied: “Convenient, please say.

Zak Chen smiled and said, "That's it. On behalf of our young master, I would like to invite Ms. He to meet and have a chat. I don't know if Ms. He has time to

meet? Roma asked puzzledly: "I don't know what your young master wants to talk to me?"

Zak Chen said, "Of course it's a chat. We have scope for cooperation. Our young master hopes to discuss with you whether the Ye family and the He family have the opportunity to develop in-depth cooperation.

Roma suddenly hesitated. She was planning to go to the coast of the Jiaodong Peninsula to find clues about her daughter. At this time, there was really no thought that she wants to talk to the young master of the Ye family about cooperation.

But when she thought of the special situation of the family, she needed to find a strong attachment, so she hurriedly said: "Mr. Zak Chen, when and where does your young master want to meet? If you allow time, can I let other people from the He family come to meet him?"

Zak Chen said: "Our young master is now in Wrestvel. The sooner you meet, the better, but if it's someone else, let's forget. The young master called for an interview with Ms. He specifically.

When Roma heard this, her face suddenly became embarrassed.

She is going to Jiaodong Peninsula, but Wrestvel is in another direction, so if she agrees to go to Wrestvel, she will inevitably delay the plan and itinerary to find her daughter.

However, her father Luther hurriedly winked at her and signaled that she must agree to it.

Seeing her father's face full of nervousness and expectation, Roma struggled for a while, and had to say: "Well, then, since Master Ye thinks of me so much, then I will come to Wrestvel to see him.

After that, she asked hurriedly: "I am in Mocheng. The nearest airport is hundreds of kilometers away from me, and there should be no direct flight to Wrestvel from there. If the fastest is possible, I might be able to reach Wrestvel tomorrow. May I ask Will Master Ye have time tomorrow?"

Zak Chen said: "If Ms. He is convenient, I can arrange a private jet to pick you up.

After a pause, Zak Chen said again: "Let's do it, Madam He, you give me your current address. I will arrange for a helicopter to take off from the nearest airport to pick you up, and then arrange a private jet to wait at the airport, and the helicopter will drop you there. After arriving at the airport, the private jet should be there. At that time, you can directly take the jet to Wrestvel. If you hurry, you will be here tonight.

"So anxious?!" Roma suddenly wondered.

She didn't understand. She can't figure out why Young Master Ye is so anxious to see her.

Even if he really wants to reach a cooperation with her family, there is no need to rush in such a hurry.

Because according to Zak Chen's plan, the transport alone to pick her up and drop her at Wrestvel. The cost of millions.

First, the helicopter has to fly a total of seven or eight hundred kilometers back and forth, and then the private jet has to fly more than 5,000 kilometers back and forth. This is really a big move.

But for Roma, this time schedule couldn't be more appropriate. Because she originally planned to go to the Jiaodong Peninsula, even if she departs today, drive a few hundred kilometers to the airport at night, and the airport is not big, there are no more than ten flights at the end of the day, so she will definitely not be able to leave at night, so she can only buy it for next day. Tomorrow morning's plane will fly to Orgeyon first, and after arriving at Orgeyon at noon, then transfer to Jiaodong Peninsula.

Chapter 2734

In this case, it will be tomorrow afternoon at the earliest to reach the Jiaodong Peninsula.

However, if she can go to Wrestvel first tonight and have a chat with Young Master Ye about cooperation, no matter what the cooperation talks are, she should be able to depart from Wrestvel to Jiaodong Peninsula tomorrow morning.

Wrestvel is very close to the Jiaodong Peninsula, and it takes just over an hour by high-speed rail.

Therefore, not only will this not affect her original plan, it will even be faster.

So she agreed without hesitation and politely said: "I have no problem here, but I have to trouble you to arrange the itinerary there.

Zak Chen smiled and said: "These are all trivial matters. Ms. He will give me the detailed address. Just to mention, I arranged for the helicopter to come there first.

"Okay!

After Roma gave Zak Chen the specific address of the He's family, the two said goodbye to each other and hung up the phone.

As soon as the phone hung up, Luther couldn't help but said excitedly: "This is really sleepy and someone will pass a pillow! Just I was looking for an opportunity to see if I could connect with the Ye family or the Gu family, but the Ye family's phone came over!

Roma nodded, but she couldn't figure it out, and said in confusion, "Dad, I don't understand. Why did the Ye family take the initiative to approach us?

Luther blurted out: "It must be against the Su family, so they thought of coming to win us!

Roma shook her head and said, "In my impression, the Ye family has always been to the martial arts family. There is no high requirement.

Luther waved his hand: "There was no before, it doesn't mean that they can't have it now. Maybe people just want to win over the martial arts family and improve their overall strength?"

“It’s not quite right.” Roma said seriously: ‘After the accident in the Su family, the major families have actually converged a lot. Before, they were able to pass the martial arts family and make small moves behind their backs, but now they dare not mess around, so it seems that the Ye family shouldn’t be suddenly at this time want to win us over.

With that, Roma said again: “Besides, I still have something I don’t understand.”

Luther hurriedly asked: “What’s the matter?”

Roma said, “The caller Zak Chen asked me to go to Wrestvel to see their young master, but shouldn’t the Ye family be in Orgeyon? Even if they have power in Wrestvel, they are not from Wrestvel. In terms of size, this kind of second-tier city shouldn’t need a Ye family master to sit, right?”

Luther frowned and asked her: “Do you think there is fraud in this?”

Roma shook her head and said: ‘There is a fraud or not. I can’t talk about it, I just think it’s weird, it doesn’t seem to make sense, and even if the Ye family wants to talk to us, they shouldn’t find me. Since I lost an arm, I haven’t been out for publicity. Many people don’t even know my identity, how did they contact me directly, and they said my name, their young master just wanted to cooperate with me?’

Luther was also a little puzzled, muttering to himself: “It sounds like it’s not true. It’s too reasonable. Why don’t you call back and ask?”

Roma thought for a while, and said, “Forget it, I’ll go and have a look. If I think about it, it can’t be a trap. I really can’t think of anyone. Deal with me deliberately.”

After speaking, she said again: “When I arrive at night, I will talk to their young masters first, and then try to get a result, so that I will take the first high-speed train to Jiaodong tomorrow morning. It’s faster to set off to Jiaodong.”

Yeah!” Luther nodded and said: “If you have any circumstances then, please contact me in time!”

#### Chapter 2735

When Zak Chen mobilized resources to pick up Roma from Northeast Desert City to Wrestvel, Zynn was escorted on a plane by Zak Chen’s men and flew to Syria.

At the same time, Hamid, who was far away in Syria, also began to mobilize his own soldiers, preparing to follow Ye’s points to strictly implement the nine-character policy of digging deep holes, accumulating grain, and slowly becoming king.

His friend in the construction industry in Iraq heard Hamid say that he could give a 50% project premium, and he was willing to pay five million dollars in advance. He did not hesitate to stop his late payment in Iraq. The project, with a bunch of construction workers who want to make money, hurried to Syria.

Chengfeng didn’t know that his son had already started a journey westward.

He knew that Zynn was looking for a chance to meet Ito Yuihiko today, so he waited for good news in the villa.

And Pollard, who is teaching at Wrestvel University of Finance and Economics, has been suffering from extreme anxiety all morning.

He has been following reports on the eight hostages in Syria, but what makes him feel very nervous is that there is no latest development of any public reports on this matter.

It's not that the local media didn't report it, but the opposition, who had taken the hostages, didn't even speak up.

According to the previous public statements of the opposition, if the US embassy does not pay 80 million US dollars, now they will kill the prisoners one by one at a certain time interval.

It stands to reason that once the opposition and the U.S. embassy talk to no avail, they must kill the hostages to put pressure on the U.S. embassy, but they went silent and did not release any more information. This is really counterintuitive.

Pollard was also worried about Marven's safety and whether he could bring his daughter back.

After all, there was a raging war there, and if it went to Marven alone, it would be difficult for him to easily rescue his daughter.

But he didn't know that Marven had already brought his daughter back to Wrestvel as early as dawn.

At this moment, his daughter Melba is in a dream.

Life in Syria during this period was very difficult, and after being captured, there was a lot of fear, psychological and mental pressure.

Now she finally returned to the peaceful and calm Huaxia, lying on the soft and comfortable big bed of the five-star hotel, which made her completely relax physically and mentally, so she slept very firmly.

Marven told Zak Chen to contact Roma, and he strolled to the commercial area of the Shangri-La Hotel.

This kind of top-star hotel has very complete commercial facilities.

Many top luxury brands prefer to cooperate with five-star hotels.

Because in their opinion, consumers who live in five-star hotels generally have relatively strong spending power, which completely overlaps with their customer groups of luxury goods.

Therefore, many Chanel, Hermes, and Dior stores are opened in five-star hotels.

Marven came here alone, not just rushing to go shopping freely, but planning to buy new clothes for Melba.

When he saw Melba in a cellar in Syria yesterday, the clothes she wore were so dirty that the original color was not visible.

After all, they were arrested as prisoners of war, so in this case, it is difficult to guarantee a decent dress.

However, at noon, he planned to take Melba directly to Wrester College of Finance and Economics and give her father a surprise.

Since it is to give a surprise, his daughter must be delivered to him intact and clean.

If Melba wears something like a beggar and goes there, let alone how Pollard feels after seeing her, the key is that the security guards of Wrester University of Finance and Economics may not let her in.

Marven came to the commercial area and bought Melba a high-end customized garment in the Chanel store.

The style of a high-end fashion brand like Chanel is slightly luxurious, and the style of clothes is more glamorous and sexy. Marven chose an off-white dress casually.

#### Chapter 2736

Chanel's dress is in the style of the British royal princess. The lower body is a knee-length skirt, while the upper body is a long-sleeved small suit style, which is quite a luxurious celebrity style.

The reason why he chose this kind of clothes is mainly that the weather is still a bit cold now. This kind of spring and autumn clothes is just right.

Although the skirt of this dress is very long, if you wear it with bare legs, it will definitely be a bit cold, so Marven bought another black base stockings.

After choosing the size based on Melba's height in his impression, he was about to pay the bill and leave. He suddenly remembered that the pair of sneakers worn by this woman yesterday was too dirty, so he bought her another pair of size 37, White fashion leather shoes.

He didn't know if this size was right for her, but it didn't matter. If it wasn't appropriate, let Melba make do with it. It was better than wearing the clothes that had been on the battlefield.

Carrying the newly bought clothes and shoes, Marven accidentally discovered that there were several dummy models wearing the only underwear in the window of the next store.

He just remembered that he hadn't bought underwear for her yet.

You don't have to think about it. Melba has been tossing for so long and finally arrived in the room in the morning. She must be exhausted. Therefore, it is most likely that she will go to bed immediately after taking a shower. She can't have time to wash her underwear out and dry them all.

That means that when she is going to see her dad, she doesn't have clean underwear to replace.

Therefore, Marven simply walked in.

After entering, he discovered that this turned out to be a high-end lingerie shop.

The salesperson inside is female, and the few customers who are hanging out in the store are also female.

Seeing Marvin, a big man, came to visit the lingerie shop alone, everyone looked at him with a strange look.

Marvin also knew that it was indeed a bit inappropriate to run here alone, so he planned to make a quick deal, pointed directly at a black lace underwear worn by a model, and said: "Come on, please give me this.

The saleswoman was a little embarrassed, yet said: "Sir, you want to do what size?

Size?" Marvin frowned, recalled, opening: "probably about 1 meter 7 tall, slim.

Ok. The salesperson nodded, and then asked, "Then what cup shape is your girlfriend's upper body?

Marvin heard what she meant, and thought: "What cup shape Melba is, how do I know? I didn't touch it. But, besides, she didn't tell me."

"Moreover, when I saw her, she was wearing outdoor sportswear with anti-war slogans. The clothes were relatively loose and looked like she didn't have much chest.

So he scratched his head and said: "Well, I don't know what the specific cup is, but it should not be too big." The salesperson also said with a bit of embarrassment: "That should be the A cup, wait a minute, I help you match the size.

Marvin said without hesitation: "Okay! Hurry up! The salesperson took out two pieces of underwear neatly stacked in the packaging bag from the small warehouse at the back, and asked Marvin: "Sir, do you want to open it and take a look? Check for flaws or thread ends.

Marvin is ashamed to check women's underwear in front of so many people and hurriedly said: "No need, just pack it for me. Come on, pay, do you swipe me, or I swipe you?"

The sales clerk said hurriedly: "Wait a minute, I will sweep you!

Then the sales clerk skillfully puts the underwear into the bag, and then scanned the code for settlement.

After checking out, Marvin ran out carrying the bag without waiting for the receipt.

The salesperson looked at Marvin's back, then looked at the back of the dummy model, and muttered: "I didn't expect this handsome guy to be so decent, and he would come alone to buy such explicit T-shaped underwear for his girlfriend.

For women, silk stockings are absolutely indispensable underwear, not only can set off the figure and temperament but also can be used for warmth.

A few years ago, women were rarely seen wearing skirts in winter, because the premise of wearing skirts is to ensure the temperature of the legs, but it is a little weird to wear skirts on the upper body and pants on the lower body, while the upper body wears a skirt. Wearing long trousers is even more exotic. It was not until the popularization of leggings and bottoming stockings that this problem was solved.

However, although silk stockings have become very common, Melba has never received silk stockings from men.

This feeling is more or less subtle.

But she knew very well in her heart that Marven was showing an expression of care and consideration, otherwise she might really have to wear a dress with bare legs.

She picked up the dress, put it on her body, walked to the mirror, and gestured, looking at herself in the mirror, she couldn't help but sigh: "Mr. Ye bought the size that looks very fit, the style is also very beautiful, and the vision is really good.

She put down her dress and saw another Chanel bag and a shoebox, so she hurriedly opened the shoe box and found that it was a pair of very delicate white fashion leather shoes, so she couldn't wait to take it out and try it on her feet.

After trying it, she was even more surprised to find that: "These shoes are not too big or too small. They are really well-fitting. Don't know how Mr. Ye had such a precise judgment. Is it the result of visual inspection? If it is, then the visual inspection is too accurate.

Thinking of this, she felt a little bit more unusually moved towards Marven.

When she thought that Marven was still waiting for her and her father was even more anxious about her situation, Melba didn't dare to think about it anymore, and quickly got ready to dress and go out.

But when she took off her bathrobe, she suddenly realized that she didn't even have clean underwear to replace

when she arrived at the hotel this morning. She was so tired that she fell asleep on the soft floor of the living room almost the next minute.

In the end, because the body was really dirty, she took a shower forcibly. After the washing, she was so tired that she couldn't open her eyes, so she fell asleep and fell asleep without thinking about washing underwear at all.

Thinking of this, she was very annoyed, and she muttered with self-blame: "Melba, Melba, you are so stupid, why haven't you thought about washing your underwear clean and replacing it? What should I do now, I can't wear dirty underwear anymore. Well, that's too disgusting.

"But ah,

but I have to wear it. I can't let Mr. Ye buy me an underwear. It's too hard to tell.

When Melba didn't know what to do, she suddenly found out that package Among the huge Chanel shopping bags, there is a small pink handbag.

She hurriedly picked up the handbag, only to realize that the brand logo on the bag turned out to be a brand specializing in high-end women's underwear.

"Could it be that this is the underwear Mr. Ye bought for me?"

### **Chapter 2738**

When she thought of this, Melba's face was red immediately reached the base of her neck. Marven bought her a base stocking, which already made her feel very embarrassed, but how could she have thought that he even bought underwear for her.

"Even such a close-fitting underwear." Mr. Ye had to buy clothes for her, which was too shameful for a while.

Melba was very complicated.

On the one hand, she was relieved because there was a solution, but on the other hand, because of the special nature of this matter, she was ashamed to want to plunge into the ice water.

After a while, reality prevailed in her struggling heart. She said to herself: "Anyway, at least the problem of underwear is solved. After this matter, I will pretend not to know, and never will Mr. Ye.

Just when she thought of this, she mustered up the courage and opened the pink package.

The package is opened, and lying inside are two individually wrapped plastic bags.

Melba looked at the two pure black clothes with lace edges, and her embarrassed face became hot.

Although she guessed it must be underwear, she didn't expect it to be black with lace.

In fact, Melba never wears such fancy and somewhat over-the-top underwear. She is a pragmatist. She likes to wear close-fitting clothes with solid colors and skin-friendly fabrics. After all, in her opinion, comfort is the most important thing.

However, right now Marven bought them all, and there was no other choice, so she could only bite the bullet and open it, thinking: Anyway, let's dress first and go out. Her personal belongings are in the United States and some luggage.

The clothes are all in Syria. She didn't bring anything when she returned home. She could only purchase and purchase in bulk after she met her father. "

Immediately, she blushed and opened one of the underwear Marven bought for her.

This is a piece of clothing worn on the upper body, so the first thing Melba does after opening it is to look at the size.

She usually doesn't like to wear clothes that show her figure, so it is easy to be mistaken for a flat figure, but in fact, at 1.7 meters tall, she has a super hot figure. The front and back curls are just basic, the ubiquitous s-shape. The curve is not less than those supermodels.

It is also because Melba's figure is really too hot. Since going to college, she has always attracted some nasty suitors because of her good body, and even many people are like dog skin plasters. Her study and life have brought a huge impact, so she has never worn any clothes that can highlight her figure since then.

For example, in summer, wear loose clothes as much as possible, and never wear skirts above the knees, so as not to show slenderness of her legs.

In winter, she dressed herself up very bloated, and she couldn't see the bulging and curves of her figure.

Marven was fooled. Melba seemed to have no body, so she expected her chest out of stock, he bought the smallest cup directly.

However, the real situation of Melba must be at least two sizes larger than it.

### **Chapter 2739**

Therefore, when she tried on the dress that Marven bought, she was speechless to the extreme, and she couldn't help but mumbled: "Is my figure hidden so well? So easy to be underestimated. How can people wear it hard?"

I am afraid that I will be strangled. Thinking of this, she couldn't help sighing and thinking: "It must be because I have always been subjectively unwilling to show my body, so Mr. Ye has caused such a big error and prejudice. It seems that this will not be possible in the future. Otherwise, he thinks I am a Taiping princess.

Melba sighed, then looked at the dress in front of her and decided to grit her teeth and wear it first.

Afterward, she opened the other bag and took out the clothing that was as thin as a cicada's wings.

She held the piece of clothing with both hands and took a look, she screamed, and subconsciously threw the piece of clothing out, and then immediately covered her hot face, and her heart rate was almost twice as fast as before.

"Oh Gosh," how could Melba touch her hot face, and muttered in shame, "Why would Mr. Ye buy this kind of clothes for me? It's too explicit.

"Isn't he unintentional, but before buying clothes, he must be sure, has he seen the style, doesn't he see that this kind of clothes is too explicit?"

Or, he did it on purpose, but why did he deliberately buy this kind of underwear for me? Is it a deliberate prank, or has a certain nasty taste?"

Melba feels like this whole person strange, look at that piece of clothing that was thrown on the floor, she is almost certain that in this life will not wear something so disgusting

, however, soon put her mind to the idea of just relaxing and overthrow.

“not If you wear this, there is no solution. Wearing dirty, or simply not wearing it is really unacceptable.

“It seems that this is just barely acceptable.”

Thinking of this, she didn't even bother to speculate on Marven's motives, gritted her teeth, and picked up the piece of clothing she had thrown away again.

Ten minutes later, the doorbell in Marven's room rang.

He opened the door, and the one standing outside the door was indeed a completely new Melba.

Putting on Chanel's customized dress, paired with leggings and white leather shoes, Melba feels a bit noble and reserved.

In fact, her dress was worn by the commoner princess in Europe, who had been very popular some time ago, in public, showing her temperament and taste.

But, who would know that Melba's reserved and noble dress turned out to be a set of underwear that made her feel very ashamed.

Marven didn't know what was going on inside. Seeing that she was dressed very appropriately, he couldn't help but say with a little sullenness: “Oh, it seems that I have a good vision. This dress is a perfect match for you, and it looks very sized.

Melba's face immediately blushed to her neck.

#### **Chapter 2740**

Melba thought: “The outside is really suitable, but the inside is not suitable at all. I don't know if you are intentional or unintentional. If you are unintentional and you can say it, if you have the intention, then you are too funny.”

Furthermore, the clothes on the upper body were obviously too small, and she was struck out of breath, but she would never say such words.

So she nodded awkwardly and said, “Great Master, the clothes and shoes fit well.

Marven nodded, with some doubts in his heart, his clothes and shoes fit, and he didn't know whether his underwear fits or not.

However, this kind of question can't be asked, so he simply turned off the topic and said to her: It's getting late, let's go.

"OK" Melba nodded gently.

Marven asked Zak Chen to send a car key, and he drove Melba to University from the Shangri-La.

On the way, Melba had been looking around curiously before, especially when she went to the center of Wrestvel, she couldn't help but said: "Wrestvel is only a second-tier city, how can it be developed so well? It looks like an international metropolis.

Marven smiled and said, "China has been developing at a high speed over the years. In addition to the first-tier cities, there are also largely approved first-tier cities. Wrestvel is now considered to be a quasi-first-tier city.

Melba nodded and said with emotion: "I used to think Wrestvel was not good enough. It's a medium-sized city, and I didn't expect it to develop so well. It seems that the domestic situation is indeed very different from what the media portrays.

Marven smiled and said, "That's natural. Western media are all lemon essence, which is sour all day long.

Melba agrees and said: "It is true. They like to report the smearing content every day when it comes to regions outside."

As she said, Melba felt that she was strangling more and more uncomfortable. Thinking about the shameful style, she couldn't help but feel a little depressed, so she deliberately said to Marven: "Mr. Ye, do you often buy und3rwear for your girlfriend?"

Marven never thought Melba suddenly talked about this, and while embarrassed, he also replied smoothly: "How could it be possible, today is the first time."

Melba pretending to be surprised and asked: "Is it true?"

Marven nodded and said: "Of course it is true."

Melba asked again: "Were you embarrassed when you entered the store?"

Marven sighed: "That's quite embarrassing. There were prosthetic models wearing various und3rwear all over there. I didn't dare to look at them with my eyes, I could only casually look at them. Pointed a set to a model, and then quickly bought it.

Melba nodded lightly and thought to herself: "It seems that the style was not intended by Mr. Ye.

Then, she saw Marven talk about it. The matter seemed to be a bit cautious, and she couldn't help but laugh secretly: "I didn't expect that such a powerful character as Mr. Ye would be embarrassed to that level."
