

The Amazing Son In-Law Chapter 2981-2990

Chapter 2981

Immediately afterward, he saw that the dying Gu-worm that had been trampled by Marven, suddenly seemed to be beaten with chicken blood, and suddenly recovered to the most obese and most mental state.

Afterward, Marven kicked the Gu-worm towards Cary, and yelled in a cold voice: "Bring him to me!"

The Gu-worm volleyed towards the Cary, with its mouthparts open that were as hard as iron opened.

Cary was shocked, and hurriedly slapped a handprint in the void, shouting at the Gu-worm: "Baby, come back to me!"

Cary felt that he and this Gu-worm had been dependent on life and death for decades, and it was impossible for this Gu-worm to deal with him in turn.

Therefore, he wanted to quickly take back the natal Gu-worm that had quickly recovered its vitality, and then continue to use it to fight Marven desperately.

Anyway, the current situation is like a beast fight. If he wants to survive, he can only work hard with Marven, and there is no other choice!

But what he didn't expect was that the handprint of the summoning was passed, and the natal Gu-worm seemed to have not received it at all, and it flew to the top of his head in the blink of an eye.

He felt the white and fat body of the natal Gu-worm landed on top of his head, and stretched out his hands, trying to drive the natal Gu-worm away from his head subconsciously.

However, just reaching the top of the head with both hands, he felt a sharp pain, accompanied by a crisp click.

His right hand was actually bitten off from the wrist by the Gu-worm!

Seeing his right hand falling to his feet like a free fall from the top of his head, Cary suddenly collapsed and shouted in pain, "Ah! My hand!"

But as soon as the voice fell, another click came!

The natal Gu-worm took another bite in an instant, and directly bit off his left wrist!

The bloody left hand fell from the top of the head, hit the right hand, and was immediately bounced away!

Cary looked at the two bloody, bare arms, and shouted in despair: "Don't... don't kill me... don't kill me!"

As soon as the voice fell, he felt an extreme pain suddenly coming from the top of his head!

Immediately afterward, his whole nerves became extremely sensitive, and he could even feel another cold wind, which was blown directly into his brain from above!

Chapter 2982

The cold wind poured into the skull caused Cary to shiver violently.

What followed was a feeling that was ten thousand times more painful than death by thousand cuts!

This is because the venom released by the natal Gu-Worm is really terrifying, making the pain in nerves a hundred times more acute than before.

Not to mention that the natal Gu-Worm bit a big hole in the top of the head.

Even if someone now takes an embroidery needle and pierces him casually, it is almost equivalent to a thousand arrows piercing the heart.

The extremely severe pain caused Cary to faint for a while, but when he was irritated for a while, he woke up in an instant, and the whole person was in terrible pain.

And at this moment, the natal Gu-Worm had opened its dark mouthparts and plunged into his head to feast on his brains.

Cary immediately died in extreme pain.

His skin color began to grow black and blue quickly at a speed visible to the naked eye.

At the same time, blood was gushing out of his seven orifices.

His corpse knelt in place, motionless, his expression was extremely miserable, as if he was kneeling in repentance for the innocent person who died in his hands.

Seeing that he was already dead, Marven snorted coldly, and said, "It's more than guilty to be so evil!"

At this time, Dan on the side said flatly, "Master Ye, his natal Gu-Worm, since you can manipulate it, you must subdue it. It will be of great use in the future!"

Marven snorted coldly, "What use do I have for this bug that eats human brains?"

Dan hurriedly said: "Master doesn't know that this natal Gu-Worm is a baby that has been raised in Cary's hands for at least 20 to 30 years.

This thing has lived for 20 to 30 years and has been omnipotent. It can be regarded as a magic weapon that this evil man has cultivated in his half-life cultivation base!"

Marven sneered and said, "If I leave this ghost thing, don't I have to feed it with human brains?"

Suddenly, Dan was speechless, hesitated for a while, and then said: "I just think that killing the Gu-Worm like this is indeed a loss..."

Chapter 2983

Marven said disdainfully: "I haven't fallen to the point where I need to rely on this kind of thing!"

As he said, he held a thundering warning in his hand and yelled: "Thunder!"

Immediately afterward, another sky thunder descended, and instantly smashed the skull cap of Cary.

In an instant, Cary, together with his natal Gu-Worm, were all smashed into powder by the lightning!

A gust of wind blew, and the powder that Cary turned into disappeared into ashes and completely dissipated in the air.

Dan stared at all this in amazement, and sighed in his heart: "Today, I really witnessed a miracle..."

This Master is indeed a man with great magical powers! No wonder he has a way to make Master Qinghua twenty years younger!

There is such a great supernatural power that can summon the sky thunder, and it is rejuvenating, so what is it?"

Marven looked at Dan at this time, and said lightly: "You helped me capture Cary, but you were sleek and self-interested.

In addition, you helped my enemy come to Wrestvel to find my whereabouts.

Although you have merit, It's not enough to offset all the faults, so from now on, I will put you and Mike under house arrest in Wrestvel, and I will let you go after I solve the Old man Chengfeng."

Dan's expression was very bitter, but he also knew in his heart that it was useless to beg Marven for mercy, and it was useless to show loyalty to him at the same time.

This was because Marven had already had a scale in his heart, and as a result, he had already determined that he would never change his own decision because of others' begging for mercy or obedience.

Cary just now is the best example.

Therefore, the best choice for him right now is to be obedient and let Marven do what he wants.

Although house arrest is painful, at least it can save his life.

If he cooperates with Marven well in the future, he may still have the opportunity to make up for his merits.

So, he bowed his body and said respectfully:

“The old man has no objection to the decision of Master, and everything is decided by Master Ye is what I fully accept...”

Marven nodded in satisfaction, and said: “If this is the case, then let’s go back.”

Dan quickly agreed, but when he raised his head and stood up, he suddenly let out an exclamation.

“Huh?! Isn’t this Cary even being cut out of the relic by thunder?”

Chapter 2984

After hearing this, Marven subconsciously looked at the place where Cary was split into powder by lightning, and he saw a gray-brown thing the size of a duck egg on the ground.

He couldn’t help frowning, and said, “Why is there such a big relic? I think it might be a kidney stone, right?”

“It’s not right...” Dan said, walking over involuntarily, picking up the gray-brown thing.

He looked carefully for a moment, and couldn’t help exclaiming: “My God! This...this turned out to be Ambergris!”

“Ambergris?” Marven frowned.

He had dragged Qin Gang to help find Ambergris a few days ago, but he didn’t expect that Cary had a piece on his body.

However, Marven didn’t care too much.

Because, Ambergris is actually not uncommon.

Rich people can buy it at any time as long as they are willing to spend money.

The first time he met Jinghai at the Pavilion auction, there was a Song Era back-flow incense burner in the Treasure Pavilion.

At that time, in order to sell this Songhe back-flow incense burner at a high price, the auctioneer also specially matched it with two boxes of ambergris.

What Marven needed for alchemy was ambergris that was at least ten thousand years old, and ordinary goods had no meaning at all.

So he said to Dan: “This thing shouldn’t be surprising, I don’t know what Cary did with such a piece.”

Dan hurriedly said: “You don’t know Master Ye. If it is ordinary ambergris, the whole is waxy, and this thing is relatively flammable.

As long as it is dry ambergris, it can be burned directly by the fire Yes, but this one is a bit special.”

As he said, he continued: "After being struck by your sky thunder, even the flesh and blood of Cary turned into powder, but this ambergris can still be preserved intact. The incense has become a fossil!"

"It has become a fossil?!"

Marven exclaimed, stepped forward, and asked, "Can you be sure this thing is really a fossil?"

Dan handed the piece to Marven and explained: "You see, Master Ye, this thing is now extremely hard and dense, and it is no longer waxy, more like a stone.

It's not that the texture is relatively special, and I don't necessarily recognize it as ambergris."

Marven asked curiously: "Have you ever found a fossil of Ambergris before?"

Dan hurriedly said: "There are some, but they are abroad, and they were bought by mysterious people at extremely high prices as soon as they came out.

Marven asked him: "Do you have any research on Ambergris?"

Dan nodded and explained: "Ambergris has a strong medicinal effect, and it can let people get rid of distractions and relax completely.

It is very suitable for entering a state of meditation.

When deducing the knowledge of the Book of Changes, it is very useful and of great help, so most feng shui masters are very fond of ambergris.

Even if you have no money, you must buy some incense containing ambergris. I usually prepare some, so I just did some research."

After speaking, Dan said again: "Most of the ambergris on the market are obtained by killing sperm-whales in the deep sea, but the ambergris obtained by these two methods will not take too long."

After a pause, Dan continued: "It is said that some masters in the past needed Ambergris as old as millennia, or even more than ten thousand years, as medicine."

"But this kind of thing is too rare. The only way to find it is to go to the bottom of the deep sea."

"This is because humans tens of thousands of years ago did not have the ability to kill sperm whales.

At that time, the sperm whales sank to the bottom of the sea after death, forming a whale fall.

After the bones were eaten by the creatures on the bottom, the ambergris would stay on the bottom of the sea, buried in the sand."

"However, finding a piece of ambergris that has been buried for more than 10,000 years in the sea is not much different from finding a needle in the haystack, so almost no one can do it.

The ambergris fossil found before is said to be due to geological movement.

It was melted into the rock layer tens of thousands of years ago, and it did not reappear until a few years ago.”

Marven was overjoyed. If this piece of Ambergris can really reach the level of a fossil, it must have a history of at least tens of thousands of years.

In this way, this thing may really meet the needs of refining the pill of cultivation!

Chapter 2985

Marven collected the ambergris, and when he looked at Dan, he also felt that this bad old man was more pleasing to the eye than just before.

So he opened his mouth and said: “From tonight, you and Mike will be staying at Shangri-La.

I will let someone arrange a room for you and provide you with three hearty meals and other daily necessities every day.

The only price is that is, you cannot contact the outside world for the time being, let alone leave the hotel without authorization.”

After speaking, Marven added: “This is also the best deal I can give you. Believe me, Shangri-La is much more comfortable than a kennel.”

How dare Dan be dissatisfied, so he can only bow down honestly and say: “I must follow the instructions of Master Ye...”

Marven nodded and called Zak Chen. Ten minutes later, he came all the way by helicopter.

Zak Chen left the two people to solve the taxi that Marven drove, and then left Phoenix Mountain with him and Dan.

After sending Marven back to Tomson First Grade, Zak Chen took Dan back to Shangri-La, found a room in the closed administrative area, and arranged both him and Mike in.

At the same time, their mobile phones were also confiscated, and the room phone was cut off, completely cutting off contact with the outside world.

After Marven returned home, he stored Ambergris in the underground storage room of the Villa.

After all the other medicinal materials are available, he could take time to start refining the Cultivation pill.

In the morning of the next day, there was another rumor in Wrestvel.

It is said that last night, sudden lightning hit the Phoenix Mountain Cemetery.

Some people say with certainty that the lightning struck a car, and the driver of the car was burned into fly ash.

It was also said that the thunder and lightning last night caused the violent ghost who had killed people to be condemned by heaven.

Some people even said that Phoenix bird itself was in the Cemetery last night.

Anyway, all sorts of pretentious remarks have emerged one after another.

However, Marven didn't pay attention to any of these.

Chapter 2986

He thought that he had made an appointment with Melba to meet at the Emgrand Group, so he dropped his wife at the construction site of the Emgrand Hotel early and drove to the Emgrand Group by himself.

Lori has been waiting here for a long time.

Melba was the first to arrive at the Group, and after showing her identity, she was immediately invited to Lori's office.

Lori did not know Melba, but she also knew that she was the right-hand invited by Marven, and she was also the only daughter of Professor Watt from Wrestrvel University of Finance and Economics.

Therefore, as soon as she saw Melba, she showed great enthusiasm.

After all, the two of them will do things for Marven in the future, although they have no distinction between them as superiors and junior, and they are there meeting for the first time.

In the future, they will be responsible for the business, but Lori still hopes to have a good relationship with her and strive to be Marven's right-hand woman with her.

Although Melba graduated from a top university in the world, she still has insufficient practical experience.

Seeing Lori, a strong woman who relies on her own strength and has become the manager of a 100 billion market value enterprise step by step, she also has full respect, and she didn't expect Lori to be so young.

Lori was also surprised by Melba's youth and beauty.

After enthusiastically meeting her, she invited her into the office, she smiled and asked her: "When did Miss Watt return to China?"

Melba hurriedly said, "I just came back a few days ago."

Lori asked curiously: "You have been in America before?"

"Yes." Melba nodded and explained: "I was born and raised in the United States, so I live in the United States most of the time."

Lori asked again: "How do you feel about Wrestrvel?"

"Very good." Melba said with a smile: "In fact, I feel much better here. One is that I have a more sense of belonging. Another very important reason is that I feel safe in the country."

"That's true." Lori sighed: "I also stayed in the United States for a while.

The law and order there is indeed much worse than in China. After ten o'clock in the evening, except for the downtown area, I dare not go anywhere.

People often rob with guns in the streets and alleys, which is especially dangerous for women."

Melba nodded in agreement, and said helplessly: "The law and order issue has always been a stubborn illness over there.

When I was there, I usually stopped going out after 9 o'clock in the evening."

Chapter 2987

Lori smiled and said, "But here, you can rest assured, you can go out boldly at any time."

Melba nodded and asked Lori cautiously: "Lori, is Mr. Ye a person easy to get along with at work?"

Lori smiled slightly and said, "He is very easy to get along with in life, but at work, he is not easy to get along with at all."

"Really?" Melba was a little nervous at once, and hurriedly asked: "Then the reason why he is not easy to get along with is because he is too strict with his work?"

Lori pursed her mouth and smiled, and said:

"No, on the contrary, the reason why the young master is not easy to get along with at work is because he is completely a hand-off shopkeeper at work.

After handing over the work to the people below, basically, if you don't show up once for a few months, you won't even be given a chance to get along with him at work.

This is why I say that he is not easy to get along with at work..."

Melba originally felt relieved, but when she heard the meaning of this sentence, she was a little disappointed in her heart, and she secretly thought:

"If I can't see Marven in the next few months, he doesn't care about my work situation, then wouldn't it be difficult for me to see him?"

Melba was thinking, someone knocked on the door, and a woman said, "Ms. Lori, Mr. Ye is here."

It was Lori's secretary who spoke.

Lori's secretary did not know Marven's true identity. She only knew that he was Lori's distinguished guest.

Every time he came to the Emgrand Group, Lori paid great attention to him. So after Marven came, she immediately brought him over.

Upon hearing that Marven was here, Lori hurriedly stood up, walked to the door and opened the office door, looked at Marven, and said respectfully:

"Mr. Ye, you are here, please come in."

Marven nodded slightly and stepped in.

Lori hurriedly told her secretary: "For a while, I will not receive any visitors.

All meetings and visits will be delayed until I inform you, but if Miss Song from the Song family comes, you will take her and come to the office."

The secretary nodded immediately: "Okay Ma'am, I see."

Marven entered the office at this time.

Seeing Melba standing on the side of the sofa in the reception area somewhat restrained, he asked a little surprised:

"Melba, why don't you sit down?"

She said with some embarrassment: "Mr. Ye, you sit first, and then I will sit..."

Chapter 2988

Marven waved his hand: "You don't need to be so rigid in front of me, just be natural, sit down."

Melba nodded, and carefully sat on the sofa again.

At this time, Lori also closed the door and walked over, and said respectfully: "Master, would you like to drink something?"

"Just drink plain water." Marven said casually.

Lori hurriedly poured a glass of water for him, and then sat opposite Marven and smiled: "Master, before you came, I just talked about you with Miss Watt."

"Oh? Really?" he smiled and asked: "What were you talking about me?"

Melba was a little embarrassed when she heard Marven's questioning. She didn't want him to know that she was asking Lori about how he was getting along at the workplace.

Lori also belongs to the kind of woman with extremely high emotional intelligence, so she smiled slightly and said to him:

"The two of us were talking about future work. After all, we will be working together in your company in the future.

Many things need to be communicated."

After that, she looked at Melba and said:

"Master, Miss Watt has just returned to China and is ready to accept a new business from scratch, so you must give her more guidance and help her enter the state earlier."

Marven didn't think much, nodded lightly, and said seriously:

"That's for sure. I personally attach great importance to this business, so once this business starts, I will definitely put more energy into it."

Melba felt a little sweet again in her heart.

"According to Marven, there will still be many opportunities to meet him in the future."

At this time, Lori asked again: "Master, do you have any specific ideas about the ocean shipping business? For example, where do we start first?"

Marven said: "I hope that we can directly start the core business as soon as possible.

Instead of focusing too much energy on familiarizing ourselves with the industry and integrating resources.

When we start this business now, the first goal is to let our own freighter set sail as soon as possible."

Melba hurriedly said: "Mr. Ye, I have carefully considered this aspect. The first preparation is to register an ocean shipping company as soon as possible.

Then obtain the relevant operating qualifications and shipping permits. As long as these are resolved, our ship theoretically can pass reasonably and legally."

Chapter 2989

She said, "But because we are starting everything from scratch, and now we don't have any ships dedicated to port resources.

So we have to synchronize some ship and port related resources when we make preparations.

It's easy to say that when the time comes, I will go to clear the relationship, but you must pay attention to the ship as soon as possible.

Because the orders of major shipyards are very large, whether it is a container ship, a bulk carrier, crude oil or LNG Ships, from ordering to delivery of the vessel, it takes at least one year."

Marven nodded and said: "In this regard, I plan to make two-handed preparations.

The first is to hurry up to place orders with major domestic and foreign shipyards so that they can start scheduling production for us.

The second preparation is to dock some ships. With the resources of the leasing company, we have built a preliminary shipping fleet for us by means of leasing."

Melba hurriedly said: "I have already started to prepare for this.

I have already started to learn more about the largest boat leasing companies in China, and I can touch them about the leasing plan at any time.

I think I should prepare for the first five A freighter, based on these five freighters, run through the world's major routes and ports."

Marven agreed and said: "No problem, you can start leasing now, and you must solve the problem of five freighters within one month.

We can start the business as soon as the freighters arrive."

Then, he said: "Warnia and Nanako will also come over in a while, just to talk to them about the transportation business, and many port resources of the Ito family can also connect with us."

"Great." Melba hurriedly said.

"In this way, our company has not registered yet, and we have already negotiated the business in advance.

As long as the qualifications are released and the ship is resolved, we can immediately start operating the actual business."

Having said that, Melba asked again:

"By the way, Mr. Ye, I would take the liberty to ask, how much do you actually prepare for the start-up capital for the ocean shipping business?"

Melba is very clear about the basic logic of most businessmen.

As long as they come out to do business, they have several common characteristics.

The first is that almost everyone will exaggerate their investment and capital reserves.

A person invested 500,000 yuan to open a shop. When others asked about his design investment, he would definitely increase a certain percentage on this basis.

On the one hand, it is for the sake of face, and on the other hand, it is also to raise the barrier of entry for this industry.

The second is that the biggest dream of almost all businessmen is the empty glove white wolf.

For the businessmen, the empty glove white wolf is the peak commercial achievement, because only the empty glove white wolf can achieve absolute net profit.

Therefore, she didn't know how much money Marven could spend to run this business.

He thought slightly for a moment, and said: "In the first stage, I will first put out 5 billion US dollars as the start-up capital.

I may add tens of billions of dollars in the future, but it depends on our first stage. How effective it gets?"

Chapter 2990

After that, he asked Melba: "In your opinion, five billion dollars is enough for the first stage?"

Melba said without hesitation: "More than enough, absolutely enough!

In this way, I can expand the scale on the basis of the original idea, and we can place an order for ten new freighters to the shipbuilding enterprise at once.

So next year, our capacity will be greatly improved."

Marven nodded, and said, "These are all for you to decide."

At this time, there was another knock on the door and the voice of Secretary of Lori: "Miss Lori, Miss Song, and Miss Ito are here."

Lori hurriedly said: "Please bring them in quickly."

Marven said to her and Melba at this time: "Warnia and Nanako are still not quite clear about my situation in Ye's house.

Please pay attention to it later and don't say anything."

The two nodded and agreed.

At this time, the office door was pushed open by the secretary, and the glamorous Warnia walked in with the virgin Ito Nanako.

Seeing Marven, Warnia respectfully said: "Master Ye!"

Nanako couldn't hide her excitement and said, "Master Marven!"

Melba was amazed when she saw the stunning beauty in the two of them.

She really didn't expect that there were so many beautiful women besides Marven.

Just being Lori has already shocked her, but she did not expect that the two beauties at the moment are no worse than Lori.

Moreover, Melba thought very confidently, if I add myself, the four women, it would not be exaggerated to say that we are the four gods...

She couldn't help wondering why so many beautiful women called Marven differently.

For example, she was calling him Mr. Marven, Lori was calling him Master Marven, and Warnia was called Master Marven Ye, and Nanako called him Master Marven.

Somehow, she always felt that Nanako's name for Marven was really ambiguous. It sounded more intimate than Mr. Ye, Master Ye, or Young Master.

Marven said to the two at this time: "You two are here just right. I'm talking about ocean transportation with Melba and Lori."

After speaking, they made a brief introduction to each other.

Afterward, Nanako said:

"By the way, Master Marven, I have received news that the Su family's ocean shipping group has completed the shareholder change, and now all the shares are in the name of Miss Zhiyu from the Su family.

There is a very large ocean-going transportation fleet held by this group, but they are still in a state of being blocked, and the entire group cannot be activated.

If you can find a breakthrough from Zhiyu, you will definitely be able to get twice the result with half the effort!"
