

The Amazing Son In-Law Chapter 4831-4840

Chapter 4831

Therefore, Georgina gradually developed resentment towards her employer's family,

And always felt that the other party was deliberately bullying and oppressing her,

A poor woman who abandoned her husband and left her hometown.

However, she ignored a very simple reality.

The reason why her employer took the risk of taking care of her as an illegal immigrant...

Was because the price of illegal immigrants is relatively low.

Considering their own limited conditions, employers have to make such a choice.

If the price of two people is the same, all employers will not consider the latter.

Most illegal immigrants can also understand this truth, but Georgina didn't think so.

She didn't realize the natural gap between herself and the legal nanny,

She just kept accumulating her own resentment in her heart, and even gradually raised hatred.

In the third year of her arrival in the United States, a fire broke out in her employer's house.

This killed three people in the family, a young couple in their thirties and their eldest daughter,

Who was five years old. Their youngest son, who was under a year old at the time, was missing in the fire.

The fire came from Georgina's hands.

After she set fire, she took the infant to another city.

She entrusted a middleman to sell the child to a Chinese couple for \$30,000 in their 40s who had been unable to have a child.

At that time, this transaction far exceeded the local market price, and the buyer was once persuaded by the high price.

But Georgina was very smart.

She could see the couple's desperate hope for a child,

And also saw that the one-year-old baby was somewhat similar to the man,

So she described the child's appearance to the couple based on the child's facial features,

Saying that the child when grows up, he must be very similar to the man.

In addition, the astute Georgina also hit the most moving pain point:

Because they look alike, as long as they take the child to live in another place,

When the child grows up, no one will doubt that the child is not theirs,

Even if they take him back to his hometown in China in three or five years,

No one will doubt it if they say it is their own child.

Moreover, she also told the couple that, unlike the adopted child,

The child she brought is not yet one year old and will never have any memory of the original parents when he grows up.

In Georgina's words, as long as you buy this child, the family will be passed on in one step.

So, the persuaded couple bought the child for \$30,000, while Georgina got \$25,000.

At the time, the money was more than what she earned as a nanny for two years.

Since then, she has embarked on the evil road of "making quick money".

In the early years, she assumed various identities and specially selected Chinese families with babies.

Later, with the popularity of the Internet, many Chinese families did not dare to hire illegal immigrants as babysitters,

So Georgina changed her career and started other businesses.

Until she caught up with the current line.

Over the years, she has made more and more money.

Her two sons live in large villas and drive luxury cars.

Her eight grandchildren are also healthy and sensible.

The whole family is prosperous and happy.

Because she has been away from home for too long and has many grandchildren,

She is more and more eager to return to China to reunite with them soon.

In her own words, even if they are bad people, they should retire to take care of themselves.

And she is now more and more eager to retire one day.

But she is also very clear in her heart that neither of her two sons is the material for success,

And they have no real skills other than spending money and playing with women,

And her husband, who is only a farmer, has not lived with her for 20 years. And have nothing in common.

In the final analysis, the whole family, a husband, two sons,

Two daughters-in-law and eight grandchildren have no ability to make money,

And rely on her income in the United States to enjoy a good life.

Once she retires, the whole family will enter a stage of sitting and eating.

So for Georgina, how to accumulate more money as soon as possible before retirement has become her most anxious thing now.

Originally, she thought that after the success of Viola's carriage,

Plus a large order from Mexico, she could earn at least 200,000 US dollars,

And she could get one step closer to her success.

But unexpectedly, this happened to Viola.

So, to avoid the limelight for a while and to ensure that business in Mexico is not affected,

She decided to go there in person.

Chapter 4832

After the business in Mexico is done, Georgina will have to come back with another identity.

At that time, Myren will no longer exist in the Chinese circle.

Thinking back on this, she couldn't help sighing softly, and at the same time made up her mind and said in her heart:

"After returning from Mexico this time, I will try my best to make a fortune from him by changing my identity again,"

"After that, I will leave the United States and never come back! "

As she said that, she took out her mobile phone and found pictures of her grandchildren,
And her faith in making money suddenly became firmer.

At this time, her eldest son suddenly called her, and after the call,

He asked flatteringly on the other end of the phone, "Mom, are you up yet?"

Georgina said lightly: "Even if I didn't get up, I was woken up by your phone call."

"If you have something to say, just tell me."

The eldest son smiled and said quickly,

"Mom, do you remember Brother Sun next door to our hometown?"

"Well." Georgina asked him, "What happened to him?"

The eldest son smiled hesitantly and said,

"That... he didn't do much... just... just..."

Georgina said coldly: "If you have something to say, let it come out."

"If you don't know how to let it go, I will hang up first."

The eldest son hurriedly said: "Don't, don't, don't hang up, Mom, I'll tell you the truth,"

"I made the belly of his daughter bigger. It's been more than three months."

"I told him to give his daughter 100,000 yuan and let her go for the abortion,"

"But she is unwilling to let go of the child. She wants to give birth to the child now,"

"And asks me for 1 million yuan for the miscarriage."

"I am not asking you for a favor. I plan to give her 200,000 yuan so that she can drop the child. "

Georgina angrily said, "Is it our family's seed?"

"Yeah..." The eldest son explained quickly: "It's not that Brother Sun called during the Chinese New Year and asked me to arrange an internship for his daughter in a big city."

"I thought they were all old neighbors, and so was his daughter."

"I watched her grow up, and I knew the bottom line, so I got her to be an executive in my friend's company..."

Speaking of this, the eldest son said again: "She was unfamiliar in this place alone."

"I thought that her father is also my big brother. I always have to take care of her. It happened once and for all..."

As he said that, he did not forget to add: "It is indeed our family's species..."

Georgina said indifferently: "It's our family's seed, there's no reason to destroy it!"

"I've worked so hard to make money in the United States,"

"Just to make our family flourish and expand! You let it live, I'll give her a million!"

The eldest son was overjoyed and quickly said: "Mom, you can't let brother and the others know about this."

"If it gets to my wife, the family will be turned upside down..."

Georgina said lightly, "I know, don't worry."

After speaking, she said again: "Have you thought about how to tell her father about this?"

"You are more than ten years older than his daughter. If he knows, he must start messing around, right?"

The eldest son explained: "Actually, Brother Sun already knows that the one million miscarriage fee is what he wants,"

"And he didn't make it difficult for me. Anyway, this matter is her own wish,"

"And it's not that I used force. Even if he's not happy, he can't do anything to me."

Georgina sneered: "He's not happy? His daughter is pregnant with your seed,"

"I think he'll wake up laughing from a dream! Maybe he planned this, and I've seen his family clearly. "

The eldest son said helplessly: "I don't know if he planned it or not..."

Georgina snorted and said, "I'll give you \$50,000 when I turn around."

"You give her the money and tell her to raise the baby with peace of mind,"

"Give birth to the baby, and do a paternity test after the baby is born, as long as it's your seed."

"I will definitely give her the rest of the money."

After speaking, Georgina couldn't help but sigh again and said,

“You and your brother have 8 children, I didn’t get the opportunity to see them growing.”

“When this child is born, I should retire and come back, and I will help you to raise it. “

The eldest son hurriedly said: “Mom, I can’t take this child home after birth.”

“My wife knows that she will make a mess with me.”

“She dares!” Georgina said coldly, “She eats, wears, uses, spends, sits, and lives with me.”

“If she doesn’t have any self-awareness, let her get out as soon as possible. “

The eldest son said embarrassedly, “Mom, even if she doesn’t dare to make trouble with me in front of you,”

“She will definitely make trouble with me in private. It won’t be enough to bother me by then!”

Georgina snorted disdainfully: “As long as she dares to make trouble with you,”

“You will divorce her immediately, and if she leaves, find another girl,”

“Maybe she will give you two more children. Your mother’s face will be stronger in her whole life?”

Chapter 4833

Georgina’s words gave her eldest son great encouragement.

He was on the other end of the phone, and couldn’t hide his excitement and said,

“Mom, if you say this, then I’m really relieved!”

Georgina snorted coldly and said, “I tell you, don’t mess around outside in the future,”

“Especially don’t mess with girls like this one of the Sun family, their level is too low!”

Her son asked quickly: “Mom, what do you mean by this level too low thing? I don’t understand!”

She reprimanded: “I’ll let you learn more English, learn English,”

“I’ve been here for more than 20 years, you can’t even understand what level is, what a fcking waste!”

Her son laughed and said: “Mom, people say that Yin is prosperous and Yang is declining.”

“You alone in our family hold most of the sky, so naturally you are the best...”

Georgina was complimented by her eldest son, and her mood eased a lot, and she asked,

“If I remember correctly when I came back to hometown to worship ancestors a few years ago,”

“I saw that girl from the Sun family. She didn’t seem to have graduated from junior high school,”

“So she is now working in the factory?”

“Yes.” Her son said casually: “She worked outside a few years ago, but she seemed to go home and talk about matchmaking afterward.”

“She didn’t get along with the few boys in the village,”

“So she said that she wanted to go out to work, and her father found me... “

Georgina snorted, and said, “In the future, we have to keep a distance from their family.”

“After the child is born, we will cut off contact with them.”

“If you are looking for a woman outside in the future, you should set your sights a little higher,”

“And at least find a young woman who has graduated from college! This will give you two more children!”

Her son said angrily: “Mom...college graduates are smart, how can they look down on someone like me...”

Georgina sneered disdainfully: “What about graduating from university?”

“How much money can you earn a month after graduating from university?”

“How many lifetimes can you struggle to drive a luxury car and live in a villa after graduating from university?”

“They are successful people, and they really have this great opportunity, and it is too late for them to be happy!”

Her son sneered twice: “But I’m a little old at this age,”

“How can a girl like an old man in his thirties like me.”

Georgina hummed and said: “Look at those female stars,”

“They can earn tens of millions or even hundreds of millions a year by themselves,”

“But there are still many of them who choose to marry a man older than their father, why?”

“Isn’t it because the old men are richer than them?”

She further said lightly: “Your mom has been here for so many years,”

“And I have long understood that no matter what shortcomings a man has, he can use the money to make up for it,”

“Whether he is old, ugly, short, or under-educated,”

“All these are not a problem at all if you have money, but only having no money is the problem.”

“Without money, what is the use of being handsome? Girls are dazzled by love at first,”

“And may even be willing to starve for a day or two.”

“But can’t get along like that for years, so after a year or two,”

“She will understand that it is useless to look good, and only money is the last word.”

Her son smiled: “I know Mom, when you come back, let’s join hands to run the yellow-faced woman away first,”

“And then look for a young and beautiful college student.”

“Yeah.” Georgina nodded and said, “Okay, I still have something to do,”

“I won’t talk anymore, about the \$50,000 thing, you can contact me privately to see if someone wants to exchange currency.”

“If so, I will be able to trade in a few days after I finish my work.”

Her son said excitedly: “Okay mom, I’ll contact you then!”

Georgina hung up the phone, and Jason, who was driving, said with a smile:

“Sister Mei, are you going to hug another grandson again? How many are there? Nine?”

Georgina gave a rare smile, nodded, and said, “Yes, nine.”

Chapter 4834

Jason asked in surprise: “Sister Mei, do you like children so much?”

“If I were you and my two sons had eight or nine children, I’m afraid my brain would explode.”

Georgina waved her hand: “You don’t understand.”

As she said that, she turned to look at Jimmy and Helma who were sitting in the back row, and said,

“Listen carefully, doing our line of work is the most detrimental to the good fortune and future generations,”

“So if you have the conditions, it is necessary to have more children.”

“If God wants a person to cut off offspring, the fewer children you have, the harder it is to fight fate.”

“But if there are enough children, if retribution comes and falls on future generations,”

“Children If there are too many, maybe there will be one or two fish that slip through the net.”

Jason was dumbfounded, and said embarrassingly, “Sister Mei, it’s not as evil as you said...”

Georgina said blankly: “Is it so evil, I don’t know, people say that eggs can’t be put in the same basket,”

“But the key question is, you can’t have only one egg,”

“If you have enough eggs, for god, it will be very tiring to smash one by one,”

“Besides, he will be numb if he smashes more and more, maybe he will stop when it is enough.”

Hearing this, the other three were horrified.

They dared not imagine that the so-called eggs in Georgina’s mouth were actually referring to her own children and grandchildren.

The translation is that if god wants to collect her children and grandchildren,

It will be very tiring for the gods to collect them one by one.

Georgina didn’t take the three people’s shock into her eyes at this time, and just asked lightly,

“How long will it take to get to the border?”

Jason said: “Even if you drive non-stop,”

“It will take at least 30 hours, why don’t we find a city to fly over there?”

“No.” Georgina waved her hand: “What I hate the most is flying.”

“Except for returning home, I almost never fly.”

Jason hurriedly asked: “Sister Mei, are you afraid that the plane is not safe?”

Georgina shook her head: “I know that the plane is very safe,”

“At least it is much safer than taking a car, but that is for ordinary people.”

“For us, the plane is a big sealed cage. Once we get in if the police are there for us. There’s no chance of running.”

Jason nodded suddenly, and asked her again:

“Sister Mei, you have been making money for your family for so many years.”

“It’s almost time to go back to take care of your life, right?”

Georgina said indifferently: “Let’s do it by the end of the year,”

“And I’ll leave by the end of the year. After so many years of hard work,”

“It is indeed time to go back and enjoy some time with the family.”

Jason sighed: “Sister Mei, you are married, and the ancestral grave is smoking.”

“You don’t have to do anything, just enjoy the happiness in the country!”

Georgina sneered: “My husband is just a piece of trash waiting to die.”

“If both sons and grandchildren had changed their surnames to me,”

“I would have kicked him out of the house long ago, how could he have the opportunity to enjoy this luxury.”

Saying that, she looked at Jason and asked him, “By the way, when are you going to go back?”

Jason sneered and said, “I’m still early... I’ve earned a lot less than you in these years.”

“I want to worry about food and clothing in the future, and I have to work hard for a few more years.”

Georgina snorted and said with some anticipation:

“I have been traveling around the United States these years, and I have no fixed place to live.”

“Going back and enjoying the joy of living in my own home, surrounded by children and grandchildren is the real life”

What Georgina didn’t know was that the Cataclysmic Front had already sent all the information,

That had been given to the local police back in China.

At this moment, the police are ready to close the net.

When her eldest son came out of his villa and was about to get into the newly bought Mercedes-Benz G,

A group of police suddenly rushed in.

Chapter 4835

The first police officer held the arrest warrant and said to Georgina’s eldest son:

“Hayden Mei! You are now officially arrested by the police on suspicion of money laundering!”

Hayden, who weighs more than 200 pounds, never dreamed that the police would come to his door one day.

He has always felt that her mother is a person with great ability.

She has a way to make a lot of money in the United States,

And she only needs to exchange her US dollars for Chinese coins here, and then they enjoy prosperity and wealth.

As for whether his mother’s money came from the right way,

And whether it was illegal to exchange foreign currency in private, he didn’t bother to worry about it.

So, he asked the police with a surprised look:

“What do you mean? Why suspected of money laundering? What money did I launder?”

The police said coldly: “We have sufficient evidence to prove that all the assets owned by you and your brother,”

“Are illegal gains obtained through illegal currency exchange!”

“And we also have evidence to prove that you are laundering money for an overseas criminal organization!”

“What?” Hayden said with a look of disdain:

“Every penny of our family is earned by my mother’s hard work.”

“How can it become illegal income in your mouth?”

The policeman frowned and asked him, “Don’t you know anything about the law?”

Hayden immediately said loudly: “Why don’t you understand? I’m a law-abiding citizen!”

“I don’t gamble, cheat, steal, or rob, why do you say I’m breaking the law?!”

Knowing that they couldn’t communicate with him, the officer said to his subordinates:

“Take the person away! Also, go in to see if Hector Mei and Patrick Zhang are there,”

“Arrest them too and bring them for trial!”

Several policemen rushed into the villa quickly and within five minutes,

They brought out the bewildered Hector and the shivering Patrick.

Patrick is Georgina's husband. When he was very poor, Georgina went to the United States with others,

And he pulled two children back at home.

Later, Georgina made a lot of money and despised him more and more,

So she forced him to change the surnames of the two children from Zhang to Mei.

Patrick was useless and poor all his life. At that time, he had just lived a prosperous life with Georgina.

He deeply felt the benefits of being rich, so he didn't want to go back to living in poverty no matter what,

So in order to live a little easier, he agreed to Georgina's seemingly excessive orders.

Over the years, although Patrick and Georgina's marriage has already existed in name only,

But the wealth he earned with her has also passed the addiction of rich people.

He drives a BMW X7 when he goes out and in on weekdays.

Some middle-aged women of the same age or a few years younger than him hang out together,

And he is usually complimented and served by those middle-aged women, and his life is not uncomfortable.

The more so indulging, the more nervous he becomes to see the police.

Patrick's two daughters-in-law were shocked and frightened when they saw that,

Their husbands and father-in-law were arrested by the police,

And hurriedly chased them out to inquire about the situation.

The eldest daughter-in-law was a bit savage, and regardless of the nursing child in her arms,

She sat down on the ground and scoffed:

"Why do you come to our house to arrest us?"

"Do you feel unhappy when you see that our family is doing well? Tell me, who asked you to come?!"

The leading police officer said coldly: "I warn you, the three of them are all criminal suspects now,"

"And we will take them away for investigation."

“You’d better not interfere with our law enforcement,”

“otherwise you will be obstructing public affairs, and you will be held legally responsible for that!”

The eldest daughter-in-law was unrelenting, crying and saying, “Don’t bully me,”

“A woman who doesn’t know anything! Today you want to hit me in my face and take my family away!”

Chapter 4836

The leading police officer said with a serious expression:

“I tell you, the three of them are now suspected of money laundering, and according to the evidence we have,”

“They are involved in a very high amount of money transfer and the case is very serious.”

“According to the criminal law, they will be sentenced to at least 5 years imprisonment for not more than ten years!”

“Not only that, all the deposits, cash, houses, and cars in their names,”

“According to the evidence we have, are all illegally obtained, without exception,”

“And we will seize these assets in accordance with the law.”

“If the illegal income is transferred at this stage to you and their other family members,”

“According to the provisions of the Criminal Law, it belongs to knowingly concealing or transferring the proceeds of crime,”

“And shall be sentenced to fixed-term imprisonment of not more than three years, short-term detention or control!”

“If the circumstances are serious, you will be sentenced,”

“To fixed-term imprisonment of not less than three years but not more than seven years!”

“So I warn you, you must cooperate honestly with our investigation! Otherwise, you will harm yourself!”

As soon as the eldest daughter-in-law heard that she might be sentenced to imprisonment, she was terrified.

The second daughter-in-law has a weak personality.

When she heard this, she was paralyzed on the ground in fright.

At this time, the eldest daughter-in-law also lost the aggressive energy she had just now,

And hurriedly cried and asked the police: "Then what should we do now..."

"You have arrested all the elders of our family, and our orphans and widows are not limited to wait and die?"

The police immediately said: "Don't worry, I will immediately notify your community neighborhood committee and pay attention to your situation,"

"If you have any needs in life, the neighborhood committee will definitely help you solve it,"

"But I still say that you must first Know what is legal and what is illegal,"

"You already have three criminal suspects in your family, so don't push yourself down the road of breaking the law!"

After that, the police immediately waved to the people around him: "Close the team!"

Everyone responded immediately and took the father and son into three police cars to the police station.

Seeing multiple police cars roaring away,

The second daughter-in-law was crying so hard that she quickly asked the eldest daughter-in-law,

"Sister-in-law... What can we do now..."

The eldest daughter-in-law was also frightened and murmured,

"I don't know either... I've grown up so much, and it's the first time I've talked to the police so much..."

The second daughter-in-law hurriedly said, "Sister-in-law, hurry up and give mom a call,"

"We have to let her make up her mind about this..."

The eldest daughter-in-law came back to her senses and said quickly,

"You are right, we should hurry up and call Mom, I will call her now! "

After saying that, she immediately took out her mobile phone and called Georgina.

The mobile phone Georgina kept close to her body was used exclusively by her to communicate with her family members,

And only her family members knew this mobile phone number.

She thought it was another call from her eldest son,

But when she looked down, she found that the caller was actually the eldest daughter-in-law,

And she couldn't help frowning immediately.

She had never liked her eldest daughter-in-law very much.

She felt that this woman was pungent, strong, and even a little stupid.

However, she was also pregnant with a son at the time,

And she was eager to hold her grandson, so she acquiesced to the marriage.

But her dissatisfaction with her in her heart continued to increase as she transferred more and more money.

Just now, she wanted her eldest son to change his wife,

It was not just the talk. She really had this plan,

But she never spared her hands to interfere in this matter before.

And she originally planned that after she retired and returned to China,

The first thing she would do was to drive this eldest daughter-in-law away.

Now, when she saw her calling, she instinctively thought that,

This girl must have overheard what she said to her son. Now she is calling to ask her for help.

So, Georgina answered the phone and asked in a very unfriendly tone:

"Why are you calling me so early? Don't you know it's early in the morning here?"

The eldest daughter-in-law cried and said, "Mom... something terrible happened to our family..."

"Hayden, Hector, and Dad are all taken away by the police!"

Chapter 4837

"What?!" At this moment, Georgina only felt five thunders hit her head.

She quickly asked, "Why did the police arrest them? Did they say why?"

At this moment, she kept praying to god in her heart that,

Her husband and her two sons should be taken away by the police because of gambling, visiting prostitutes, or for something else.

It doesn't matter if they are taken away by the police because of murder.

But shouldn't do it for money laundering!

Because killing people is nothing but a no-brainer!

Two sons, one husband, it doesn't matter which one is sentenced to death,

Or all three are sentenced to death with reprieve, anyway, there will be a day to come out sooner or later.

But once it's because of money laundering, it's really over!

That means that all the assets she has worked hard for so many years will be seized according to law!

Then half of her life's efforts will really vanish in an instant!

Just when she kept praying for god's blessing in her heart,

The eldest daughter-in-law said something that was like a bolt from the blue.

"The police said that they seemed to be involved in some kind of money laundering crime..."

"They also said they would seize all property, including houses and cars... Mom, what should we do..."

Georgina felt as if her soul had been taken away, and she collapsed on the seat.

She was terrified and slapped her face hysterically as she muttered,

"Wake up... this is a nightmare... Must be a nightmare..."

However, the pain of the slap on the face was very clear, and it didn't feel like a dream at all.

Her heart became more and more desperate, and her whole person was like a walking corpse.

On the other end of the phone, the eldest daughter-in-law cried heart-rendingly:

"Mom... think of a way, Mom! We have you as our hope now... Come back and clear the situation for them..."

"Clear them out?!" Georgina screamed and blurted out:

"I have been away from home for more than 20 years,"

"And I have only returned less than ten times in the past 20 years."

"I am blocked, what can I do to clear the relationship?"

"Ah?!" The eldest daughter-in-law on the other end of the phone collapsed and cried,

“If they are sentenced to ten or eight years, what will happen to us mothers...”

Georgina thought of something and blurted out: “Listen to me now,”

“Hurry up and transfer all the valuable things in the family,”

“And find a way to go to the bank to withdraw the deposits!”

“Ah?!” The eldest daughter-in-law blurted out: “I don’t dare!”

“The police told me that if I get money out of the house now, it’s a violation of the law,”

“And I’ll be imprisoned when they find out! I can’t go to jail. I have four children!”

Georgina angrily said: “The police are all scaring you, what are you afraid of?”

“I tell you, if the money is seized, don’t mention the villa you live in,”

“The luxury car you drive, or even the milk powder for your four children.”

“There will be no money or tuition left! Are you taking your children to the streets?”

“l...l...” the eldest daughter-in-law cried and said,

“They will have to leave for us a house to live in?! They can’t just drive us out?”

Georgina gritted her teeth and said, “Let me tell you if it is a crime of money laundering,”

“There will be nothing left in this family!”

“If you don’t want to live a poor life from now on, then do as I say!”

The daughter-in-law blurted out: “I don’t dare...I dare not do it even if you kill me...”

As she spoke, she quickly said, “The second son’s wife is right in front of me,”

“Why don’t you talk to her and see if she dares.”

Chapter 4838

The second daughter-in-law on the side of the phone blurted out without hesitation:

“You don’t dare, I don’t even dare!”

As she said that, she cried and said: “The police will seal up whatever they want to seal up.”

“For so many years, apart from taking care of children at home,”

“I have never done anything against the law, so the police will definitely not be able to arrest me too. “

Hearing this, the eldest daughter-in-law also echoed: "Yes, yes... We are two women,"

"And we can't do anything except giving birth, nurse a child, and take care of a child,"

"And we have never done anything wrong, the police. It definitely won't do anything to us!"

When Georgina heard this, her anger surged deep inside her heart,

And she wanted to rush back immediately and hack the two daughters-in-law to death.

She clenched her back molars tightly, and said in a hysterical cold voice:

"My Mei family has raised you for so many years, but I never thought that I would end up raising two white-eyed wolves!"

"If you two don't do as I say, wait for me to return to China. You are the first people I clean up!"

The second daughter-in-law turned pale with fright at this moment.

Although she didn't know what her mother-in-law had been doing in the United States for so many years,

Every time she saw her mother-in-law, she felt that this woman was very murderous,

And at first glance she did not seem a good person, so hearing what she said,

She was naturally very scared, so she whispered to her eldest daughter-in-law:

"Sister-in-law...this...how can I do this..."

The eldest daughter-in-law was also very flustered at this moment.

Although she was savage, she also knew that she was not even a fart in front of her mother-in-law.

However, she quickly wanted to understand one thing, so she blurted out:

"Mom, I just wanted to understand! Hector and Hyden are both money laundering criminals,"

"And the money is all earned by you... Are you doing something outside? Is it illegal?"

"If nothing else, the money you earned must not have come from the wrong way, right?"

"If it came from the right way, how could the police come to the house to arrest people?!"

Georgina was originally feeling murderous, but when she heard this, her whole heart instantly fell to the bottom.

What she was worried about just now was the wealth that she had earned over the years,

But she ignored one thing. The reason why her husband and two sons went in is that,

What she had done in the United States had been exposed.

If this is the case, then she may not be able to return home in this life.

Otherwise, she is likely to be arrested by the domestic police as soon as she gets off the plane.

Thinking of this, she suddenly fell into deep despair, hung up the phone subconsciously,

And then turned off the only remaining mobile phone.

Others in the car probably understood what happened at Georgina's house, and they were all nervous.

Jason summoned his courage and asked, "Sister Mei, what happened at home?"

Georgina said in despair, "Pull over to the side... Hurry up and pull over!"

Jason hurriedly parked the car on the side of the road.

At this time, she pushed open the car door and stumbled down.

Just after running less than two meters away, she vomited violently with a wow,

And spit out all the food residues in her stomach.

Jason hurried forward, patted her back, and said to Jimmy, "Bring a bottle of water here!"

Jimmy immediately took a bottle of water from the car, unscrewed it,

And handed it to Georgina, saying nervously, "Aunt Mei, hurry up and rinse your mouth..."

Georgina vomited uncontrollably and even vomited out her bile, her face was as pale as paper,

Like a terminally ill patient who was about to die.

She took the water handed over by Jimmy, just took a sip, and then coughed violently.

Chapter 4839

The water mixed with bile and rushed all the way down the trachea to the nasal cavity.

It was an indescribable pain. Georgina murmured to herself: "No... nothing more..."

Saying that, because of the resentment in her heart,

She threw the bottle full of water far away, and roared in despair and hysteria:

“Why! Why is this happening? That’s half my life’s hard work!!!”

Although the ancestors of China have long warned that money is something outside the body,

In fact, many people value money more than life.

A heinous person like Georgina has already put her life and death aside for a long time.

For her, her biggest pursuit is to make more money so that her family can pass on.

If in the future, her descendants can become the second and third generations of wealth,

And continue to be prosperous, that would be the ultimate goal of her life for her.

Her ultimate goal in life is not for any single descendant to get rich,

But in enabling the entire family to complete the change of fate.

To put it bluntly, it means sacrificing herself and making generations happy.

Therefore, if she were to be killed at this moment and her family would not be affected in any way,

She would never have any hesitation.

But now, this matter has developed in the direction she least wants to see.

It was these foundations that she had worked so hard for that fell apart in an instant.

She feels that the death of a person without spending money is not only a tragedy,

But a symbol of success, because in the big families in the United States,

They have passed down wealth for hundreds of years, without exception, died and the money was not spent.

On the streets, those homeless people who can’t even sleep in tents,

And can only curl up under bridges are all typical “they are alive, money is gone” without exception.

Therefore, when all her efforts are in vain and all her foundations are destroyed,

For her, it is the real tragedy on earth, the real disaster!

At this moment, she was distraught. After she threw up everything in her stomach that she could vomit,

She fell on the grass by the roadside, hugging her head and crying.

The other three did not expect that this female demon, who they do not know how many people she had killed,

Would sit on the side of the road so helplessly and cry.

At a certain moment, Jason felt somewhat in a trance.

He originally thought that a person with a hard heart like Georgina,

Who put her life and death aside at the same time would be fearless in this life.

Unexpectedly, she was not afraid of death, but she was most afraid of poverty.

However, in Jason's heart, a sense of pleasure flooded unconsciously at this moment.

He has long criticized her.

On the one hand, this woman has absolute control over their small group, and she has never shown a good face to them.

On the other hand, it is because this woman earns far more than him.

Sometimes, watching others make money is more uncomfortable than losing money yourself.

I would rather lose 100 by myself than see others earn 10,000.

This is the case with him.

Although he is also earning money in the United States alone,

His wife, children, and grandchildren all rely on him to support him in China, but his family is not rich.

Over the years, the cash he has given to his family in total is estimated to be around 10 million RMB.

In his opinion, this amount of wealth is enough for the family to live,

But it will not be as leaky as Georgina's, so although Georgina's family is arrested, his family must be safe.

Chapter 4840

Thinking of this, Jason felt even more proud, and couldn't help laughing secretly:

"Georgina, Georgina, you fcking have it today! You usually scold me like a dog every day,"

"But it ruins the prestige of you stinky b!tch. Why don't you have the arrogance you used to have any more?"

"I don't think you are too old, I want to take you up here and fulfill my phys!cal needs."

“You fcuking look down on me, why aren’t you chattering anymore?”

Moreover, he felt that he had always been jealous that Georgina made more money.

But now, her assets are instantly cleared,

And he has achieved the overtake of Georgina in an instant, and it is a rolling overtake.

Jason, who was smug in his heart, comforted Georgina hypocritically and said,

“Sister Mei, as the saying goes, money is something outside your body.”

“If the domestic police seize it, it is better to work hard in the United States for a few more years!”

“There must be a chance to make a comeback!”

Georgina’s eyes were empty, and she choked in a dazed and decadent manner:

“It’s easy for you to say, my hard work for more than 20 years has been cleared up in one go!”

“This means that everything I’ve done before is in vain! It will take at least another 20 years to get the lost money back.”

“How can I still have so many 20 years?! I am already over 50 this year,”

“And I should have retired and returned to China to take care of my life!”

“But now there is nothing left, even my husband and sons have been arrested,”

“If I knew this, I might as well have stayed in the country and didn’t come out!”

As she said that, she slapped her mouth and roared emotionally:

“I have worked hard for more than 20 years to the end, but it was nothing but a basket of water...”

“More than 20 years! Where the hell am I? What the hell is going on!”

Jimmy on the side hurriedly advised: “Aunt Mei, don’t be impulsive!”

“We still have a business to do, and your top priority now is to hurry up and make more money,”

“Otherwise your husband and sons will come out in the future,”

“And if you don’t have money, you can’t make a comeback!”

Jason also nodded and said,

“Yeah, Sister Mei, for money laundering, the maximum sentence is ten years, right?”

“If they perform better and reduce the sentence, they will only be in their forties,”

“And less than fifty when they come out, it’s not too bad!”

“Besides, you have eight, oh no, nine grandchildren, if you don’t cheer up, what will they do in the future...”

When Georgina heard this, she suddenly came back to her senses and murmured:

“Yes... I have to make money... I have to make more money...”

“If I can make enough money, I will immigrate to Southeast Asia.”

“Go there and take over the children and grandchildren step by step...”

Saying that, she hurriedly stood up and urged, “Get in the car,”

“Get in the car quickly! We have to get to Mexico as soon as possible!”

Jason nodded hurriedly and was about to help Georgina to get back to the car, but his cell phone suddenly rang.

He subconsciously took out his mobile phone from his pocket,

And saw that it was his daughter-in-law who was calling. At this moment, his heart came to his throat.

He didn’t dare to answer the phone, but murmured:

“Why did my daughter-in-law call... this... this... something must have happened...”

Georgina’s pupils shrank suddenly, and she blurted out, “There must be something wrong!”

Jason panicked all of a sudden, pressed the answer shiveringly, and blurted out,

“Hai... Haiying...you...why are you calling at this time...”

Before he could finish speaking, the daughter-in-law on the other end of the phone burst into tears and said helplessly:

“Dad... Mom and Trevor are arrested by the police. The police said they are suspected of money laundering...”

“They also said that the family Assets will be seized... What can I do...”

“Can you come back as soon as possible and think of a way... I really don’t know what to do by myself...”

Jason, who was still laughing at Georgina in his heart, only felt that his eyes were dark,
And he lost consciousness in an instant and fell straight towards the ground...
