

Dragon Husband Chapter Chapter 1880

Chapter 1880 Walk through three levels

Several people present were stunned.

Will you tell us what the third level is?

really.....

As always, it is in line with Wiliam's arrogant character.

But is the second level really that easy?

And even if Wiliam was lucky enough to pass the second level, what if he knew about the third level?

You know, these three levels are set up by human idiots, and each level is more terrifying than the other.

No one passed the second pass, let alone the third pass.

Wiliam, Wiliam, being arrogant is a good thing, but I hope you have enough confidence to say this.

Otherwise, it will only be reduced to a joke.

"Hmph, don't be too arrogant, kid." At this time, a cold snort came from not far away.

Everyone followed the sound and saw an old man with messy and gray hair walking quickly.

This old man, ignoring Xu Rushuang at all, stood directly in front of Wiliam with a pile of things in his hand.

Su Emei hurriedly explained to Wiliam in a low voice: "Wiliam, this is our elder who controls the world, Elder Dongfeng."

She hesitated for a moment, and then added: "The last person to go through the three levels was his son, and then he never came out..."

Elder Dongfeng looked straight at Wiliam, as if he wanted to see some trump card in him.

Xu Rushuang said, "Elder Dongfeng, I didn't expect you to come here in person."

Elder Dongfeng said indifferently: "I'm here to see, who doesn't want this life and dares to go through three levels."

"But I saw a young man who didn't know what to do." Elder Dongfeng said again.

The scene was embarrassing, and he didn't think that Elder Dongfeng would not even give face to the Sect Master, so Wiliam couldn't come down to the stage directly.

Su Emei hurriedly said to Wiliam: "Wiliam, don't blame Elder Dongfeng, he is also for your own good, and I can't bear to see you die here at a young age. Elder Dongfeng was originally a very kind person, but since his death After his son's death in three stages, his temperament changed greatly, and he always wanted to destroy the little goddess, so that people in the future would no longer have unnecessary delusions."

Wiliam nodded, but wanted to push the door open.

What's the point of talking at the door?

waste time.

"Wait, since you want to die, I won't stop you, I will give you these things." Elder Dongfeng handed over the things in his hand.

Wiliam looked at it, but it was a silver-white armor and some other protective gear.

Wiliam took another look at the elder Dongfeng, and took over these protective gear.

Then, without looking back, he pushed open the door and entered.

"Wiliam, take care! We are waiting for you at the door of the second pass." Su Emei shouted to Wiliam worriedly.

But he could only see Wiliam's arrogant back and his arms that were raised and shaken at will.

The door closed slowly.

"Hmph." The old man Dongfeng snorted coldly, but sat down with his legs crossed.

"Elder Dongfeng, do you have confidence in Wiliam?" Xu Rushuang asked with a smile.

"My son is a genius, but he still died in the three stages. I don't believe that this kid can do better than my son at a young age. I'll just wait here. Wait for his body to be sent out." Color said coldly.

Xu Rushuang smiled bitterly and said, "Okay, then I have confidence in her. Emei and I will wait for him at the second gate. After all, there are not many people in this world who can impress my sister."

Xu Rushuang knew some things about Wiliam better than Elder Dongfeng, so he had more confidence in Wiliam.

After Wiliam opened the door, he found himself standing in a field of ice and snow.

This icy and snowy place looks huge, as big as a football field.

But when Wiliam tried to move forward, he found that he couldn't walk at all.

Around him, there seemed to be a four-sided barrier blocking him, confining him to the corner in front of him.

It seems that this is the rule and cannot go forward.

Wiliam didn't make any other attempts and just stood still.

At this time, a desolate voice sounded in the ice and snow, "The twenty-sixth person."

Wiliam raised his head and looked at the sky.

The sky was so white that no one could be seen.

But Wiliam could guess that the owner of this voice should be that human idiot.

"Senior idiot, you're polite." Wiliam handed over his hands slightly and said to this side icy and snowy.

"I advise you to spend nearly as much time putting on the protective gear in your hand." Senior Human Chi didn't appreciate it at all and said indifferently.

Wiliam smiled, but just put the protective gear under his feet.

He received Xu Rushuang's love, but he did not say that he needed to use these things.

"Hoho, the twenty-fourth." The voice of the senior human idiot sounded again, but there was more disdain in his tone.

Wiliam naturally knew what the twenty-fourth meant.

Perhaps in the eyes of the mortal idiots, he is already a dead person.

“The first pass, Jie Bing wears the heart pass.” After Senior Human Chi said this sentence, there was no more sound.

But this piece of ice and snow suddenly trembled slightly.

The temperature is dropping at a very terrifying speed.

The first level has officially begun!

This kind of temperature drop, if ordinary people are here, I am afraid that they will be frozen into popsicles in an instant.

However, Wiliam didn't care and looked up at the sky.

coming.

Wiliam can naturally perceive where the threat is coming from.

In the sky, something is about to come out.

Sure enough, in the next second, a sound of breaking wind rang out.

It was almost too late for Wiliam to react. An ice arrow with the thickness of his arm came from the sky!

Shot straight at Wiliam's chest!

“Bang!” The unicorn armor on Wiliam's body also grew out instantly, covering Wiliam's body completely.

The ice arrow slammed into Wiliam's body, causing Wiliam's body to take a step back and directly against the barrier.

Strong enough!

Wiliam thought to himself.

This ice arrow is not only strong, but the chill contained in it is even more trembling!

It should be as cold as the extreme bloodline on Feng Xue's body!

Wiliam understood for a while.

This level, if it is not for the extreme bloodline of the ice element, I am afraid that relying on the strength of the body alone will not be able to withstand it.

This scene in front of me is to trap Wiliam in place, and can only passively accept the piercing of this ice arrow!

Seriously, there is no door to heaven, and it is seamless to enter the earth.

In the blink of an eye, the sound of breaking wind rang out again, as if the one just now was just an appetizer, and then, it was official—

Thousands of arrows pierce the heart!

However, Wiliam showed a slight smile. Facing the threat of ten thousand arrows, Wiliam was not worried.

Need to worry?

On Wiliam, part of Fengxue's blood is also flowing!

To deal with this calamity, Wiliam's winning ticket is in his hands!
