

His True Colors Chapter 1021-1030

Chapter 1021

Strength drew Han three thousand unconsciously close to the wooden box, and a strange feeling rose up inside that was very familiar to Han three thousand.

When Ximen Embers discovered Han Three Thousand's strange condition, he also placed his eyes on the wooden box.

To him, this wooden box was the most inconspicuous item in the entire chamber, but he knew that to be valued by Han Qianqian, there must be something different about it.

However, since he had promised Han Qianqian that as long as he could enter the secret room, the things inside would be his choice, Ximen Embers would naturally not break his promise.

"Mr. Han, what's wrong?" Ximen Embers asked to Han Giangli.

Han Giangli shook his head, he didn't know what was going on, the power in the wooden box was attracting him, the feeling was indescribable.

"Do you know what this is?" Han Giangli asked rhetorically.

Ximen Embers had never been to the chamber before, and knew even less about what was here, and the only answer he could give was that he didn't know.

"Only the head of each family can come here, so I don't know anything about this place."

Han 3,000 nodded and said, "You haven't forgotten what you promised me before, have you?"

"If Mr. Han likes it, you can feel free to take it." Ximen Embers was reluctant, but he had to endure it, and he knew that even if he didn't promise, he wouldn't be able to stop Han Third Thousand.

Han Marchant took the wooden box in his hand and didn't rush to open it, but left the chamber directly.

This was a bit unexpected for Ximen Embers, although he knew he wouldn't be able to get what was in the wooden box, he didn't think he'd even get a chance to take a look at it.

"It looks like the best things have already been taken." After Han Qianli left, Ximen Embers said with a helpless look on his face.

Quickly, Han Three Thousand returned to his room and closed the door to prevent anyone from bursting in.

He had an intuition that something in here seemed to have a very strong connection to him, and when he was in the Forbidden Land of the Apocalypse, the feeling of tugging was extremely strong, but after coming to the Xuanyuan World, that feeling disappeared.

Until today, that feeling had reappeared.

Han Qianqian couldn't be sure if that feeling had come from the wooden box in front of him, but he knew that there must be some sort of connection between the two.

When Han Qianqian finally opened the wooden box, what presented itself to him was not some rare treasure, but on the contrary, it was an extremely inconspicuous item, and if an ordinary person saw it, they would only treat it as something ominous.

A leg bone that, from the surface, was almost rotten!

The moment Han Giang saw the leg bone, he associated it with the skull he had obtained on Earth, he couldn't go to prove that the two bones belonged to the same body, but the feeling they gave him was exactly the same.

Han Giangli took a deep breath, the skull had become one with him, and the leg bone in front of him also contained a great deal of energy, he seemed to have foreseen that it would eventually be integrated into his body.

Although he knew that it would bring a huge boost to his strength, where exactly these bones came from, who left them behind, and why they were able to merge with his body, this series of questions caused Han 3000 a great headache.

There was a faint feeling within Han Giangli that there was some sort of huge secret hidden within, and it seemed that in order to clear this secret, one would have to find an entire set of bones.

"Who exactly are you, the skeleton of your power, did you leave it to me on purpose?" Han Three Thousand said to himself.

At that moment, a sharp knock sounded outside the door, and upon hearing this rhythm, Han Three Thousand knew that it was Huang Snapdragon coming, as there was no way that Jiang Ying Ying would disturb him with such a knock.

After collecting his leg bones, Han Three Thousand opened the door.

Sure enough, the person standing outside the door was Huang Snapdragon, and he looked like he was panting.

"The sky is falling?" Han Giangli said indifferently.

"Master, something big has happened." Huang Snapdragon said breathlessly.

"If you dare to disturb me over a trivial matter, I'll break your legs, go ahead." Han Giangli said.

"Royal Dragon Hall, someone's coming." Huang Snapdragon said, this was his third time coming into contact with someone from the Royal Dragon Palace, but the feeling would still make him very nervous, so much so that he ran all the way back from Phoenix Mountain to the Ximen Residence.

Hearing that, Han Giangli frowned, this was quite a big deal for someone from the Royal Dragon Palace, and he wondered what the emperor had planned this time.

"Let's go and take a look." Han Three Thousand said.

After Han Marchan received the news, countless eyes in the West Wing City released the news at the same time.

Ever since Han 3,000 was about to open a sect on Phoenix Mountain, there were many more strangers in Western Wing City, and these people, who had spies from other families and eyes from other sects, were all paying close attention to Han 3,000's every move.

Now that the Royal Dragon Hall was coming, these eyeballs naturally had to inform the forces behind the news first.

Arriving at Phoenix Mountain, Han Qianli met the person from the Royal Dragon Palace, and this time, the person was not as imposing as the previous two, but was instead extraordinarily gentle.

When the visitor saw Han 3,000, he took the initiative to step forward and introduced himself, "Greetings, Patriarch Han, my name is Yuexia, and I am one of the Emperor's men."

Yuexia, a name that Han Qianli found a bit interesting, but what he didn't know was that these two words represented, but the Imperial Dragon Palace was under one person.

As the emperor's henchman, Yuexia's power in the Royal Dragon Palace was second only to the emperor himself, and the fact that he had personally come to the West Wing City this time was enough to show how seriously the emperor took this matter.

"Hello, if you don't mind, call me Mr. Han, or Three Thousand is fine." The title Sovereign Han was still a little uncomfortable to hear, and Han Three Thousand wasn't quite used to it.

Yuexia smiled and said, "Calling Mr. Han looks rusty, in that case, I'll call you 3000."

Han Three Thousand's eyebrows shot up, he hadn't expected this kind of smartness from Yuexia, but it also showed the attitude of the emperor, it looked like the emperor had sent someone this time, and he wasn't looking for trouble.

"There isn't even a place to sit here, so please forgive me, Elder Moon." It was only when Han Qianqian blurted out the word Moon Elder that he felt something wasn't quite right about the title, it was a priesthood title for Earth, and he didn't know if there was such a thing as a Moon Elder in Xuanyuan World.

Under the Moon noticed Han Qianqian's strange look and smiled, "Those who know me well call me Moon Elder, so there's nothing wrong with you calling me that, no need to think about it."

"I don't know what it is that Elder Moon came to see me for," Han Qianqian asked directly, as the saying goes that nothing happens without a fight, and since he was here, he must have some sort of purpose, so naturally he could avoid beating around the bush.

Chapter 1022

Luna also found it painful to Han Qianli's straightforwardness and pulled Han Qianli aside, after all, some of the words were explained by the emperor himself and couldn't be heard by anyone else except for Han Qianli to know.

"Secretive, I don't know what this old man wants." Huang Snap Yong said with an unhappy face, he also wanted to hear the purpose of the moon down, but he didn't expect him to drag Han 3000 away, this was clearly a deliberate attempt to prevent him from hearing.

"No matter what he wants to do, the Three Thousand Year Sect should not be sanctioned by the Royal Dragon Palace anymore." Jiang Ying Ying said, the rules of opening a sect, which she had understood these days, had to be approved by the Emperor, but the creation of the Three Thousand Year Sect was without the Emperor's knowledge.

Originally, Jiang Yingying was a little worried about this matter, but she never thought that the emperor had personally sent someone to the West Wing, which meant that her worries were unnecessary.

Because if the emperor was going to deal with the Three Thousand Clans, he would definitely not just let an old man come.

"Why?" Snapdragon Huang's brain wasn't intelligent enough for him to have the IQ to be able to figure these things out, so he could only ask to Ying Ying Jiang.

"Do you know what IQ means?" Ginger Ying Ying asked rhetorically.

"Of course I know, doesn't that mean a person is smart or not?" Snapdragon Huang said as if it were a matter of course.

"Too bad you didn't." Jiang Ying Ying said helplessly.

On the other hand, Yuexia said to Han Qianqian, "The Emperor has given you permission to open a sect in the Western Wing, and he also has the intention of supporting the Three Thousand Clans."

"Oh?" Han Qianli smiled, which was a bit of a surprise, he had thought that the emperor would be hostile towards him because of this, but he hadn't expected to personally send someone to tell him such things.

But Han Qianli wasn't stupid, it definitely wasn't that simple for the emperor to do this.

"I wonder if the emperor has any other requests?" Han Qianli asked.

"A strong sect means a strong imperial court, which the emperor is happy to see," Yuexia said.

Han Qianli nodded, the reasoning made sense, and continued, "I wonder what kind of support is intended to support the Three Thousand Year Sect?"

"At the early stage of the founding of the Three Thousand Sect, there will definitely be a shortage of manpower, so the emperor intends to send people to the Three Thousand Sect to appoint elders who can help you train the disciples under the sect, don't worry, these people are carefully chosen by the emperor and are definitely not useless, I believe they will soon arrive at the West Wing City." Yuexia said.

Han Qianli hid the coldness on his face, appointing elders was just sending a few eyes to his side, wasn't it?

And the fact that this matter had been dispatched without his consent meant that the emperor hadn't even given him the chance to refuse.

What a support!

Han Qianqian said with a calm face, "Thank you for the emperor's kindness, in that case, I'll accept this great gift, it just so happens that I'm still worried about this problem, I didn't expect the emperor to be so understanding, and I hope that when Elder Moon returns to the Imperial Dragon Hall, he'll bring me a few words of thanks."

"That's for sure." Yue Xia accosted with a smile.

After their conversation ended, Yuexia went back to the city, and he didn't feel any change in Han Qianli's mood during his conversation with him, but he was clear that it was just that Han Qianli was hiding it well.

It was impossible for him not to know what the Emperor's Honor meant by this move, and since he didn't reject it, it meant that he was also scrupulous about the Imperial Dragon Palace.

And Han Qianxiang, was it really just a scruple?

It wasn't all like that, it was just that he didn't want to tear his face from the Royal Dragon Hall so quickly when the Three Thousand Year Clan's feathers were still young.

"Brother Three Thousand, what's wrong?" Seeing Han Qianqian's face full of coldness, Jiang Yingying stepped forward and asked.

Snapdragon Huang stretched his neck, afraid that he had missed a word.

"The emperor has given me the qualifications to open a sect, and he's also sending someone to be an elder in the Three Thousand Year Sect to help me train my disciples." Han 3,000 said.

Hearing this, Huang Snapdragon was stunned!

What kind of treatment must this be, to be worthy of such attention from the emperor.

"Master, you're too powerful, in this way, wouldn't the Three Thousand Sects stand directly above the other sects, to be valued so highly by the emperor, this is something that the other sects can't hope to do." Huang Snapdragon said excitedly.

Jiang Ying Ying's reaction was completely different from Huang Snap Yong's, as she knew exactly why the emperor was doing this, rather than Huang Snap Yong being so idiotic as to think that this was a good thing.

"Brother 3000, do you agree?" Jiang Ying Ying asked.

"Senior Aunt, what are you talking about, it's such a good thing, my Master is not a fool, how could he refuse." Huang Snap Yong really didn't understand how the usually so intelligent Jiang Ying Ying could be confused on this matter, this was a good thing, of course he had to agree.

Han Qianqiang and Jiang Yingying both glared at Huang Snap Yong, when will this idiot learn to think with his head.

"What what's wrong? Am I wrong?" Sensing that the eyes of the two looking at themselves were filled with anger, Snapdragon Huang asked cautiously.

"Calling you an idiot is not wronging you at all." Jiang Ying Ying said disdainfully.

"Master, isn't this a good thing?" Snapdragon Huang asked, puzzled.

"Sending someone as an elder, do you really think the emperor is sincere, he's just trying to send a few eyes to my side to spy on me." Han Giangli explained.

Hearing this, it dawned on Snapdragon Huang that if it was eyes, this wouldn't be a good thing.

In the future, if anything big or small happened in the Three Thousand Clans, wouldn't the emperor be the first to know about it.

"Master, I didn't expect that the emperor would be such an old fox." Huang Snapdragon said through clenched teeth.

For Huang Snap Yong's hindsight, the two of them, Han Qianli and Jiang Ying Ying, didn't even bother to pay attention to it.

"Brother Three Thousand, what should we do next?" Jiang Ying Ying asked.

"Since he's here, it's probably already his bottom line to send someone, if I refuse, it's definitely not good for the development of the Three Thousand Year Sect, so accept it for now and we'll figure out how to deal with these people later." Han 3,000 said, this was the most conservative solution, but it was also the most prudent.

Jiang Ying Ying nodded and reminded Huang Snap Yong, "Don't say anything nonsense in the future, remember your words and actions, or else you won't even know how you'll die."

Huang Snapdragon snapped in amusement, bashfully asking, "Shishu, are you concerned about me?"

"I was worried about the waste of land when I buried you," Ying Jiang said in a cold voice.

The corner of Huang Snap Yong's mouth twitched, so embarrassed that he didn't know what to say.

Han Qianqian patted Huang Snap Yong's shoulder and said, "With your skills, it's better not to pick up girls, so why embarrass yourself."

"Master, what does it mean to pick up girls?" Snapdragon Huang was puzzled.

"Uh this well, for someone with a brain like yours, you won't understand even if it's explained." Han Giangli looked at Huang Snap Yong with a regretful face.

Chapter 1023

Two days later, the people from the Royal Dragon Palace arrived.

And this news instantly exploded among the major clans and sects.

Misty Sect.

When Sect Elder Yan Qing Hua learned about this matter, he first found Sect Master Zhantai Liuyue.

"Patriarch, something big is wrong." Yan Qing Hua said in a panic, although the Misty Sect wasn't the top sect within the imperial court, it was still one of the top three, and now that the Three Thousand Sect had come out of nowhere and had received the care of the emperor, it made Yan Qing Hua feel that his own sect's position might not be maintained.

"What's going on, you're also a sect elder, why are you so panicky when you encounter something?" Zhantai Liuyue looked helplessly at Yan Qing Hua.

"The other day when Moon went to the West Wing City, we were still speculating what he was doing, but now we finally have an answer." Yan Qing Hua said.

"Oh? What's going on, tell me." Zhantai Liuyue asked.

"The emperor has accepted the Three Thousand Year Sect and has also been sent by the Imperial Dragon Hall to the Three Thousand Year Sect to be an elder and help the Three Thousand Year Sect cultivate disciples." Yan Qing Hua said.

Zhantai Liuyue furrowed her brows, she had speculated about the reason and purpose of going to the West Wing many months ago, but now it seemed that none of the countless possibilities she had speculated about were correct.

"Patriarch, why would the emperor think so highly of the Three Thousand Year Sect that he would even personally appoint experts from the Imperial Dragon Hall to be elders, who will be able to steal the limelight from the Three Thousand Year Sect in the future." Yan Qing Hua said with a worried face.

Zhantai Liuyue didn't say anything, but instead contemplated the purpose behind this matter.

The emperor wasn't an old man, there was absolutely no way he would give such preferential treatment to the Three Thousand Year Sect, and the emperor must have some scruples about Han Qianqian, so how could he personally help him expand his power?

"It's definitely not that simple," Zhantai Liuyue said.

"Patriarch, it's been laid out in the open, that's how it is, how can it not be simple, in my opinion, I'm afraid that the emperor is deliberately trying to please the Three Thousand Year Sect, and in the future, the Three Thousand Year Sect's position among the sects will be overwhelming." Yan Qing Hua was very fond of Han Three Thousand, and even had some infatuation, but that didn't prevent her from feeling unfair about it.

Every sect was established by its own strength to step up to a position of glory, and the Misty Sect had paid a huge price to be among the three great sects.

Now, however, the Three Thousand Clans had come on strong, likely replacing one of the three great sects, which made Yan Qing Hua worry about the Piao Miao Sect's situation.

"These so-called elders are all from the Imperial Dragon Hall, right?" Zhantai Liuyue suddenly laughed.

"Sect Master, what time is it, and you still have the heart to laugh." Yan Qing Hua said as if he was speechless.

Zhantai Liuyue laughed even more happily, she knew why the emperor was doing this, it wasn't that he valued the performance of the Three Thousand Year Sect, it was that he didn't trust the Three Thousand Year Sect and that was why he arranged for someone to go to the Three Thousand Year Sect.

"Qing Hua, you're a clever person, so how could you be confused on this matter?" Zhantai Liuyue said.

"How am I confused, doesn't the emperor want to please the Three Thousand Year Sect?" Yan Qing Hua said.

"The elders of the Three Thousand Year Sect, but the people of the Emperor Dragon Hall, would they betray the Emperor?" Jandai Ryuetsu asked.

"Of course not." Yan Qing Hua said without thinking, "Those who betrayed the emperor, but they won't have a good end, and given the courage to do so, they wouldn't dare to do so."

"In that case, do you still not know the intentions of the emperor's move?" Jandai Ryuetsu said.

"Intention?" Yan Qing Hua was in confusion.

Zhantai Liuyue shook her head helplessly, Yan Qing Hua was a very smart person, but she was completely devoid of intelligence in this matter, could it be that it had something to do with Han 3000?

"This is the eyes and ears that the emperor has placed at Han Qianqian's side, can't you figure out such a simple truth?" Seeing that Yan Qing Hua had frowned in distress, Zhantai Liuyue had to explain.

Yan Qing Hua looked up abruptly, "Yeah, these elders, aren't they just eye-witnesses? And it also overrides Han 3,000's rights to a certain extent, which is the emperor's way of keeping an eye on him."

Zhantai Liuyue scoffed and said, "Such a simple thing, you finally figured it out, do I have to commend you."

Yan Qing Hua smiled faintly, there was some embarrassment and said, "Patriarch, I wasn't just momentarily confused, accident, pure accident."

"I don't think you're accidental, you're just concerned? But are you concerned about the Misty Sect or Han 3000, won't you explain it to me?" Zhantai Liuyue said.

"Patriarch, what are you calling this, of course I care about the Piao Miao Sect, how could I care about Han Qianli." Yan Qing Hua said without hesitation, to her, Han 3000 was just a man in the process of infatuation, how could his feelings be compared to the Piao Miao Sect.

Yan Qing Hua had grown up in the Misty Sect, cultivating, becoming strong and becoming an elder, and such feelings were irreplaceable to anything anyone had.

"I believe you." Zhantai Liuyue was merely joking, not expecting Yan Qing Hua to be so serious.

Of course, Zhantai Liuyue wouldn't have the slightest doubt about what Yan Qing Hua had said.

"Patriarch, the emperor is killing two birds with one stone, right?" Yan Qing Hua smiled.

"You're smart now, but the Emperor's move was indeed brilliant, when the world thought that the Three Thousand Sect was provoking his authority, he installed his own people in the Three Thousand Sect and became an elder, which was telling the world that the Three Thousand Sect was still under his control." Zhantai Liuyue said.

"Patriarch, since the Imperial Dragon Hall has acknowledged the Three Thousand Year Sect, when are we going to come to the door to congratulate him?" Yan Qing Hua asked.

"Can't wait to see him so badly?" Zhantai Liuyue smiled.

Yan Qing Hua nodded her head and said, "I want to see if he's really this powerful, he's somewhat similar to the picture book."

Zhantai Liuyue actually had the same thoughts within her heart, she hadn't decided whether to go to the Three Thousand Year Sect before because she was concerned about the Imperial Dragon Hall, but now that the emperor had acknowledged the existence of the Three Thousand Year Sect, the concerns would naturally vanish.

The matter of congratulation could then be elevated on the agenda.

"The time has not yet come, when the day of the opening of the sect, the Piao Miao Sect will definitely pay a visit." Zhantai Liuyue said.

In the West Wing, after meeting with several future elders of the Three Thousand Year Sect, Han Third Thousand locked himself in his room.

Facing the current emperor, Han Three Thousand couldn't confront him directly, so he could only accept it with a hidden face, but the good thing was that those elders' attitude was quite humble and didn't cause Han Three Thousand too much discomfort.

When Han 3,000 unconsciously touched his arm, a hint of panic suddenly appeared on his face, and then he lifted up his sleeve.

The red-eyed jade python that was supposed to be coiled on his arm was actually gone.

"F*ck, I almost forgot to give this guy a few days of freedom, and I don't know where it went." Han Giangli said to himself.

Chapter 1024

Accustomed to the presence of the Red-Eyed Jade Python, its sudden disappearance was a bit uncomfortable, but Han Marchioness would not be able to help but wonder what this guy had been up to.

Half a month later, the Dark Forest suddenly erupted into an unprecedented upheaval, no one knew what was happening in the forest, but the painful shrieks from the countless exotic beasts threw the entire Xuanyuan World into tension, and there were also movements like the sky and earth collapsing, making people even more frightened.

All sorts of speculative versions began to circulate in the Three Kingdoms.

Some said that it was a war between two powerful exotic beasts, and that was why the change in the Dark Forest was caused.

Others said that it was a fight with a foreign beast because a powerful person from the Extreme Mastery realm broke into the Dark Forest and wanted to tame a certain powerful foreign beast.

Others said that the exotic beasts were unwilling to stay in the Dark Forest and wanted to leave that imprisoned land, and this led to even more panic because once the exotic beasts left the Dark Forest, it was almost devastating to the three countries.

No one could count how many exotic beasts survived in the Dark Dark Forest, but everyone in the various countries knew that this exotic beast power was absolutely devastating, and no one could stop it.

"Yi Qingshan, you're the only one who's been to the Dark Forest recently, what exactly have you done?" At a certain inn in the West Wing City, Fei Ling'er questioned Yi Qingshan.

The Dark Forest had been silent for hundreds of years, it was absolutely impossible for this to happen for no reason, so in Fei Ling'er's opinion, it was very likely that Yi Qingshan had broken some sort of balance in the Dark Forest, which had led to today's result.

"I didn't do anything, this matter has nothing to do with me." Yi Qingshan said with a guilty face.

"The way you lie is really convincing, if you don't tell me the truth, when things get to the point of being unmanageable, will you be able to take the responsibility?" Fei Ling'er said angrily, she wanted to know the truth of the matter, and only then could she find a way to control the situation in front of her.

Now there were rumors that the exotic beasts wanted to break out of the cage, although this was somewhat unlikely, because the Dark Forest had a powerful formation to imprison them, and this formation, which was jointly made by many experts from ancient times, was so strong that no one and no exotic beast could break it, but it wasn't 100%, after all, the formation had existed for many years.

And if someone destroyed the strength of the formation, there was a high possibility that the formation would be broken.

"I really didn't, do you think I would do something that would destroy the formation? What good would it be for me for the foreign beasts to leave the Dark Forest?" Yi Qingshan said helplessly.

"Who caused the mess you're in? What kind of exotic beasts did you encounter in the Dark Forest." Fei Ling'er questioned, with Yi Qingshan's Extreme Mastery realm strength, if he encountered an ordinary exotic beast, he would never be in such a mess, even if some high level exotic beasts appeared, it would be easy for him to run away with his strength.

But Yi Qingshan's state of leaving the Dark Forest was clearly not that simple.

"I might have encountered a Lin Long." Yi Qingshan lowered his head and said.

"The Lunar Dragon!" Hearing these two words, Fei Ling'er's beautiful eyes rounded the stool and looked incredulous as she said, "How is it possible, isn't the Lin Long already asleep under Xuanyuan Mountain? Why did you suddenly wake up!"

The Lin Long is a divine level exotic beast, is the most powerful existence of Xuanyuan world, even Xuanyuan world about its knowledge is very little, according to some books, the Lin Long is in a deep sleep, that is, a thousand years of sleep, there is no special can disturb it, it is impossible to wake up for no reason.

"I don't know why, shortly after I entered the Dark Forest, I found the bones of many exotic beasts, from then on I felt that something wasn't quite right, so I followed the direction of the remains to find out why, and I didn't stop until I was close to Xuanyuan Mountain, do you know what I saw?" Seemingly associating it with the fear of that day, Yi Qingshan's eyes showed a look of extreme fear as he said these words.

"What!" Fei Ling'er asked in a deep voice.

"The Lin Long is entrenched on Xuanyuan Mountain, with countless exotic beast bones under the mountain, and it uses exotic beasts to fruit its belly, just, even the White Plume Ape is dead." Yi Qingshan said.

Fei Ling'er took a deep breath of cold air, the White Plume Ape was the most powerful exotic beast that humans knew about the Dark Forest besides the Linlong, and it was all dead, enough to imagine how terrifying the Linlong was.

"You alerted it?" Ferrin continued to ask.

"How is that possible, I made myself look like a mess because I was scared and fled all the way, do you think I would have survived if I had alerted it?" Yi Qingshan said.

Fei Ling'er nodded, if it was true that Yi Qingshan had alarmed the Lunar Dragon, it was indeed unlikely that he would have a chance of surviving.

But why would the Lin Long suddenly awaken?

"Something must have happened in Xuanyuan World that we don't know about, or else it's impossible for the Linlong to awaken, we must investigate this matter." Fei Ling'er said.

"Actually, I have a guess." Yi Qingshan said weakly.

After Fei Ling'er stared at it, she said, "There isn't any yet, hurry up and say it, it's already time, you're still selling out."

"Yes, yes, according to my guess, the Dark Forest should have another powerful foreign beast that we don't recognize, and this foreign beast made the Linlong feel that its position was threatened, so it awakened and defended its position with its strength, which would explain the ground shaking in the

Dark Forest, which must have been the result of the two strongest warriors, but I just can't think of any What kind of exotic beast is it that can be compared to a Lin Long." Yi Qingshan said.

It was unknown whether the Lunar Dragon had awakened because it was threatened, but Yi Qingshan said that the two powerful beasts were engaged in a battle, this was a fact in front of his eyes, the movements made by the Dark Forest could never have been caused unilaterally by the Lunar Dragon, if it wasn't a powerful opponent, the Lunar Dragon wouldn't have made such a big commotion.

"If that's the case, it might still be good news for us," Fei Ling'er said.

Yi Qingshan shook his head, obviously his viewpoint was completely different from Fei Ling'er's, and said, "Do you know that if two divine Beasts engage in a fight, it's very likely that they will destroy the formation, and once there is no formation to imprison the Dark Forest and the beasts break out of the cage, I'm afraid that sooner or later, the Three Kingdoms will be decimated by these beasts."

Such a concern was not unreasonable, and Fei Ling'er appeared even more helpless, as the situation before them was beyond the scope of what they could control.

Even as a strong person in the Extreme Master realm, they were not omnipotent, and that feeling of powerlessness was not half as different as a weak person.

Chapter 1025

"I now realize that even at the Extreme Division, I'm just a mole, facing a divine beast like the Lunar Dragon, there's no difference between it and an ordinary civilian." Yi Qingshan said with a sigh, this was the first time he felt powerless after becoming an Extreme Master, especially when he would think of the state of mind he had when he saw the Lunar Dragon that day, the fear had almost gone deep into his bones.

"Come with me to the Imperial Dragon Hall, I want to tell the Emperor about this." Fei Ling'er said.

"Is it useful? Even if the Emperor knew about it, he wouldn't be able to stop this." Yi Qingshan said, in his opinion, he could only sit back and wait to die now, unless someone could kill the Lin Long to solve this crisis.

However, this was simply impossible, and the divine Tier Exotic Beast was not necessarily a match for even the strongest of the divine Realm.

"Even if there's no way out, we have to come up with something, are we just going to have to wait for death? If you don't go, you'll stay honestly in the West Wing." Fei Ling'er said, she wasn't one to resign herself to her fate, although the chances of resolving this matter were very small, it didn't mean that she would give up without trying.

"Fine, I'll go with you, you're gone, what's the point of me staying here." Yi Qingshan said.

Having decided to go to the Imperial Dragon Hall, the two of them left the West Wing City without delay.

Ximen mansion.

Ximen Embers arrived outside Han Qianqian's room, and he had already taken a clear inventory of the things in the secret room, which had many legendary objects, and some of these objects had once belonged to the White Spirit Family.

Ximen Embers didn't know what method Ximen Chang had used to get his hands on them, but he was clear that these treasured objects were definitely a wealthy fortune, and had been collected bit by bit by successive family heads, and it was his duty to guard them well.

"You won't go back on your word, will you?" Opening the door, Han Giangli saw that the visitor was Ximen Embers, and inevitably thought of the leg bone, this guy wasn't as generous as he appeared to be, he had taken something from him and he didn't even know what it was, he would definitely have a change of heart.

"Mr. Han is joking, since it's something that was given away, how could I possibly go back on my word." To say that he was reluctant, Ximen Embers definitely had such thoughts within him, but since he had already given it to Han 3,000, he didn't want it back, and he didn't dare to think so.

"Then why did you come to me?" Han 3,000 asked.

"The two people you asked me to monitor have already left the West Wing," Ximen Embers said.

Ever since Fei Ling'er had arrived in the West Wing City, Han Three Thousand had asked Ximen Embers to arrange for people to keep a close eye on the two, as Fei Ling'er had so many secrets that Han Three Thousand was curious about.

But she hadn't done anything and suddenly left, making Han Three Thousand feel that something was wrong.

"Really gone?" Han Marchan confirmed.

"Good, and my men are still following them." Ximen Embers said.

"Alright, I get it, you go and get busy."

"Yes."

Closing the door, Han 3000's head full of doubts caused him to unconsciously frown tightly, Fei Ling'er had come to the West Wing on this trip and left without doing anything, could it be that she had already done something and just hadn't been discovered by herself?

This thought made Han Three Thousand's heart faintly uneasy.

At this time, the knocking sounded again, and hearing the breath Han Three Thousand knew that the person outside the door was Jiang Ying Ying, so he directly said, "Come in."

Jiang Yingying pushed her way through the door, looking tired, obviously overworked from the clan's affairs.

"It's been hard on you." Han Three Thousand said with an apologetic face, he, the shirker, had long been used to being the shifter, so only Jiang Ying Ying and Huang Snap Yong did this kind of hard work.

"Brother Three Thousand, have you heard about the recent events in the Dark Forest?" Jiang Ying Ying asked to Han 3,000.

Han three thousand nodded, how could he not know about such a big disturbance, and Han three thousand had heard of many of the rumors in the community.

To be fair, Han three thousand was still a bit skeptical about this matter, because the unrest in the Dark Forest happened after the Red-Eyed Jade Python left, which inevitably led Han three thousand to believe that these matters were related to the Red-Eyed Jade Python.

Of course, so far these were just speculations, and no one knew the truth of the matter.

"I heard another statement today, the formation of the Dark Forest is on the verge of popping and shattering, it will soon be unable to hold up, once the formation is broken, a large number of exotic beasts will leave the Dark Forest, this seems to be a good thing for us as well." Jiang Ying Ying said, their main purpose of coming to Xuanyuan World was to neutralize the threat of Xuanyuan World to the Earth, if those foreign beasts left the Dark Forest, they would definitely deal a heavy blow to the power of Xuanyuan World, naturally, they would have achieved their purpose of coming to Xuanyuan World.

"But we haven't found a way to leave the Xuanyuan World yet, and this situation isn't good." Han Giangli said.

"That's what I'm trying to say, should we try to find a spatial tunnel to leave the Xuanyuan World?" Jiang Ying Ying said.

"Actually, I've already thought about what you're saying, but we don't have any clues at all right now, this is by no means something that can be done overnight, this matter can be left to its own devices, but we mustn't go and break the formation because of us." Han Qianlian guessed what Jiang Yingying wanted to say at the end, she wanted to help then exotic beast break the formation, but doing so would surely bring down the lives and souls.

There were still many commoners in Xuanyuan World, and Han 3000 would never want to cause these people to lose their lives because of her.

In a situation where it was not absolutely necessary, Han Three Thousand wouldn't let those people be buried with him in order to achieve his own goal.

"Brother Three Thousand, isn't this idea of mine too selfish." Jiang Ying Ying asked with her head lowered.

"No, it's understandable that you would think that way, but you have to know that if we harm the commoners here, what's the difference between us and the Xuanyuan World's invasion of Earth to slaughter back then, we're not saints, but we definitely can't be evil either." Han Marchian said.

Jiang Ying Ying breathed a sigh of relief and continued, "Brother Three Thousand, there's something else I want to tell you, I spoke with an elder today and learned that an expert has appeared in the Xia Kingdom, and this expert is strange, a woman with a child, I heard that there is no one in the Xia Kingdom right now, and some people even speculate that she has reached the divine realm, if that's the case, the woman It can be a huge threat to your plans."

"Looks like you're getting along well with those elders." Han Giangli smiled.

"Knowing yourself and your enemy, what we do every day is right under their noses and will be reported to the emperor through them, and I naturally want to find out something about the imperial court," Jiang Ying Ying said.

Chapter 1026

"The innocent girl from back then, I didn't think she had changed and become a scheming city." Han Qianli chuckled and teased.

It was only when Jiang Ying Ying revealed a grudging expression that Han Three Thousand quickly said again, "But this information you've pried into is very important, after all, our target is not just the Imperial Court, if a God Realm powerhouse appears in the Xia Kingdom, it can be troublesome for us."

"Brother Three Thousand, you're so charming, why don't you soak her, won't that turn her into one of us, with the help of a strong God Realm person, we can do twice as much with half the effort." Jiang Ying Ying said with a smile, the little girl was a person who held a grudge, she had just been ridiculed by Han 3,000, and this was a way of treating her.

Han 3000, who had been generalized, smiled bitterly and said, "Didn't you say that she's still bringing this child, so is it hard for me to be a stepfather to someone?"

"What's wrong with that, just think of it as giving Nian Er another sibling, isn't it?" Jiang Ying Ying said as if she was taking it for granted.

"Ying Ying, I think you're trying to get me killed, if your sister Ying Xia finds out about this, I won't be killed." Han Qianli said speechlessly, the relationship between him and Su Yingxia could not allow a third party to interfere, otherwise Han Qianli was afraid that the life of scissors under the pillow would return to him.

"Which is not, this isn't Earth anyway, what you do, Sister Yingxia doesn't know ah." Yingxia Jiang laughed.

"Little girl, are you trying to hold onto me and use it as blackmail capital later?" Han Qianli deliberately questioned seriously.

Unfortunately, Jiang Yingying didn't eat this at all, and she didn't care in the slightest about Han Qianli's seriousness as she said, "Why not, I'm your sister, of course I have to help you keep your secret, but then, if I have any conditions in the future, you'll have to satisfy me."

"Are you done with the clan's business? Do you want me to arrange some other hard work for you?" Han Qianli said faintly.

Jiang Ying Ying didn't say anything and just scampered away.

A day later.

Fei Ling'er and Yi Qingshan, who were dusty and hurrying, finally returned to the Royal Dragon Palace.

In just one day's time, they had traveled from the West Wing City to the Royal Dragon Palace, but if they hadn't been Extreme Master Realm powerhouses, they would never have been able to do this.

"I'm really getting tired, do you need to be in such a hurry?" Yi Qingshan panted, being able to put such a large load on his body showed that this intensity of hurrying was indeed unbearable.

Fei Ling'er didn't look too good either, although it was just a rush, this kind of physical and energy consumption was no different from a battle.

"Cut the crap and come with me to meet the emperor." Fei Ling'er coldly rebuked, she was also tired, but there was nothing to complain about when it came to facing the Dark Forest.

When the two of them appeared at the Imperial Dragon Hall, the golden-armored guards let them go straight away, these guards belonged to the Emperor's forbidden army, they naturally recognized Fei Ling'er, and Fei Ling'er had the right to freely enter and leave the Imperial Dragon Hall.

Above the palace, the emperor looked as if he had been waiting for a long time with respect.

"Fei, are you in such a hurry to come back because of the matter of the Dark Forest?" The emperor asked to Fellingham.

"Good, I wonder what exactly happened in the Dark Forest?" Feyrlinger didn't have any nonsense and asked directly.

"According to the news returned by the border guards, there was a war in the Dark Forest, but it's still unknown who started the war." After the emperor finished speaking, he took a glance at Yi Qingshan, who was curious about this unfamiliar face.

"This is Yi Qingshan, an Extreme Master of the Xia Country." Fei Ling'er saw Emperor Zun's curiosity and took the initiative to introduce him.

The emperor was shocked, he had naturally heard of Yi Qingshan's name, but he didn't expect Yi Qingshan to appear in the imperial court.

"Old Yi has even made an appearance, so I hope to atone for the loss of welcome." The emperor said politely.

Yi Qingshan knew that it was just polite words, and said smoothly, "How intrusive, how intrusive."

"Emperor, Yi Qingshan discovered something when he passed through the Dark Forest, so let him tell you." Fei Ling'er said, Yi Qingshan was the party involved, he could tell the matter more clearly, so Fei Ling'er wouldn't be the messenger.

"Please mention it to Yi Lao," The emperor said.

Yi Qingshan recounted his experience in the Dark Forest again, and when the emperor learned that the Lin Long had awakened from his slumber, his face visibly turned a little paler.

As an emperor, he knew more clearly what the awakening of the Lin Long meant, and also knew what kind of changes a terrifying beast like the Lin Long would bring to the Xuanyuan World.

Once the formations of the Dark Forest failed, allowing the Linlong to regain its freedom, the entire Xuanyuan World would be plunged into a nightmare.

"Yi Lao, are you sure you're not mistaken, it really is a Lunar Dragon?" The emperor asked.

"Although I'm an old man, I'm not so old as to be mistaken about the Lunar Dragon, so if the emperor doesn't believe me, he can send someone into the Dark Forest to investigate on his own." Yi Qingshan was quite dissatisfied when he saw that the emperor didn't believe him.

The emperor's face was heavy, sending people into the Dark Forest, whether they could see the Lunar Dragon or not was unknown, but it was definitely a dead end, because the Dark Forest was not peaceful lately, and even the strongest people in the Extreme Master Realm did not dare to enter easily, let alone those under the Extreme Master Realm.

"Old Fei, according to a secret book of the Imperial Court, the awakening of the Lunar Dragon means that the end of the Xuanyuan World is coming, unless the Imperial Dragon Messenger appears, but whether the Imperial Dragon Messenger is a person or a thing is not mentioned in the secret book at all." This was originally a secret of the imperial court, but in this case, the emperor couldn't hide it.

"The Imperial Dragon Messenger?" Fei Ling'er had never heard of such a thing, and when she looked at Yi Qingshan, he shook his head as well.

"This secret book has existed for more than a thousand years, and I'm perhaps the only one in the entire Xuanyuan World who knows about this legend." The emperor explained.

"What else does the Secret Book say?" Fei Ling'er asked.

"The secret book mentions that the only way to suppress the Lunar Dragon and make it fall asleep again is to find the Imperial Dragon Messenger, the rest, it doesn't mention much." The emperor said.

"We don't even know what the Imperial Dragon Envoy is, what should we do now?" Fei Ling'er said helplessly, with this information alone, it was impossible to solve the trouble at hand.

"There are many ancient secrets stored in the Imperial Court's secret vault, I will use the shortest amount of time to consult them, if there is any news about the Imperial Dragon Messenger, I will tell the two of you first." The emperor said.

Fei Ling'er nodded her head, she didn't ask to go to the Imperial Palace Secret Vault, as it was the Emperor's private restricted area, even as a strong member of the Extreme Mastery Realm, she didn't have the qualifications to go in.

"In that case, go consult it as soon as you can, I have a hunch that the formation of the Dark Forest won't last much longer." Fei Ling'er said.

Chapter 1027

Fei Ling'er was a person who lived in the four seas, but in the Royal Dragon Palace, she had a separate home of her own, which was gifted to her by the Emperor, but the amount of time Fei Ling'er had actually lived here was limited to a handful of times.

Thinking back, the reason why the emperor had gifted her with a separate home was because he wanted her to be able to establish roots near the Royal Dragon Palace, but unfortunately, such a tactic was not able to retain Fei Ling'er.

After all, Fei Ling'er was an Extreme Master realm powerhouse, so how could she possibly put the Distinguished Courtyard in her sights.

"Do you think he will be able to find any information about the Royal Dragon Messenger?" In the Other Courtyard Gazebo, Yi Qingshan asked Fei Ling'er.

"I've lived here for a handful of hours, but I didn't expect the environment here to be this good." Fei Ling'er replied, but she was genuinely impressed with the environment of the Other Courtyard, she hadn't had the time to really stay here before to feel the environment of the Other Courtyard, but this time when she was forced to stay, she had instead discovered what the emperor's intentions were.

"I think it's unlikely, you and I have never even heard of the Imperial Dragon Messenger, so I'm sure there must be very few records about it." Yi Qingshan who didn't get an answer expressed his thoughts on his own, after all, he had lived for several hundred years and hadn't even heard a little bit of rumors about it.

"I have an intuition, a strange intuition." Fei Ling'er said.

"You don't think that the Imperial Dragon Messenger is related to Han Three Thousand Years, do you?" Yi Qingshan questioned.

"Since you can say these words, it means that in your heart, you've also thought so, right?" Fei Ling'er did indeed think so, Han Qianqian was born across the sky, which had to make one think that he was carrying a secret, and if he was the legendary Imperial Dragon Messenger, then it seemed like it was destiny that the Lunar Dragon would awaken at this time.

"Although I thought so, I don't even know whether the Imperial Dragon Messenger is a person or a thing, who is sure that he is related to the Imperial Dragon Messenger, and you have to know that the strongest person now is not only Han Three Thousand, but also that woman from the respectful Martial Mountain, and even in my opinion, that woman is stronger than Han Three Thousand." Yi Qingshan said.

Fei Ling'er didn't refute, but nodded, "It's possible for you to say that, but only time will prove how exactly."

"I'm afraid that I won't be able to wait for that day, I'm now really afraid that the formation of the Dark Forest won't hold up, once the formation is broken, the entire Xuanyuan World will be in ruins." Yi Qingshan said helplessly, blood flowed into rivers and corpses were everywhere, Yi Qingshan's bones chilled just thinking about such an image.

Although he was an Extreme Master, he would be afraid when facing a powerful exotic beast like the Lin Dragon.

Fear had nothing to do with strength, but rather the longer he lived, the more he would be unable to face death.

"There's no use worrying, if this thing will happen, it will come sooner or later." Fei Ling'er did act honestly, in her opinion, it would definitely happen, then there was no need to worry, what she had to do now was to curb this situation.

"If that happens, we will be pushed into battle, aren't you afraid of the Lunar Dragon?" Yi Qingshan was puzzled, as the Extreme Master of Xuanyuan World, but when Xuanyuan World faced a crisis, it was bound to be them who bore the brunt of it, but a beast like the Lunar Dragon, even if it was them, it would just be a death sentence.

"The entire Xuanyuan World will be destroyed if the Lin Dragon is present, is there any other way but to face it, do you still want to hide? And even if you were allowed to hide, you would still be inescapable after all, so why be spat upon before you die." Fei Ling'er said.

Yi Qingshan knew that if he hid at such a critical time, he would indeed bear the scorn of a lifetime, and this scorn would not allow him to escape, as long as the Lunar Dragon left the Dark Forest, no matter where he hid, he would be found by the Lunar Dragon.

"Do you still remember that legend from a thousand years ago?" Yi Qingshan asked.

"A thousand years ago?" Slightly puzzled, Firin asked, "Which thing do you mean."

"The other world." Yi Qingshan said.

Fei Ling'er suddenly realized and said, "Do you want to invade the other world?"

Yi Qingshan nodded and said, "Yes, as long as I can find the spatial tunnel, I can avoid the disaster brought by the Lunar Dragons, wasn't it because the Lunar Dragons awakened a thousand years ago that they wanted to leave the Xuanyuan World in this way?"

Fei Ling'er directly shook her head and said, "No, the might of the Xuanyuan World that gathered the power of the three countries back then is by no means comparable to today, how could what was not accomplished back then be done now?"

Yi Qingshan had very deep knowledge about this matter, he had consulted almost all the information about the invasion left behind back then, because he had one purpose, which was to find the spatial tunnel and go to the other world to have a look, after all, he was now a strong member of the Extreme Mastery Realm, and the Xuanyuan World had nothing to hold on to for him.

"Indeed, Xuanyuan World has suffered heavy losses, but the same is true for the other world, according to the records, they have also lost many experts, for thousands of years, even Xuanyuan World has not slowed down, the other world is naturally the same, it might even be in a more difficult situation than Xuanyuan World, this is an opportunity worth trying, as long as we can find the spatial tunnel, we It will be able to avoid a death." Yi Qingshan said.

He really didn't have much confidence in the face of the Linlong, who had fallen countless strong people before establishing the formation of the Dark Forest, causing the Linlong to fall asleep again, and nowadays, the Xuanyuan World obviously didn't have that many strong people who could deal with such a situation, so fleeing became the only feasible solution Yi Qingshan thought.

"Although there is some truth in what you say, don't forget who led the Xuanyuan World in the first place, even his corpse is gone, how could you possibly do it." Fei Ling'er said.

Speaking of him, Yi Qingshan unconsciously took a deep breath, he was the only divine realm in the legendary Xuanyuan World, and although his realm was unverifiable to this day, in the records, he was indeed the only existence that could command the three armies, and the truth was that he had indeed lost.

"It's not that his corpse is gone, but his bones are scattered in the Xuanyuan World, and I've heard that even the bones of a strong person like him contain powerful energy, and I've been trying to retrieve his bones all these years, but unfortunately, it's like trying to find a needle in a haystack, with no news at all." Yi Qingshan couldn't help but sigh at this point, the Sacred Chestnut was a way to help Extreme Mastery realm powerhouses break through the divine realm, but not one of them, in Yi Qingshan's opinion, as long as he found his bones, it was also a way to break through the realm, but unfortunately, the difficulty of trying to do this was no less than getting the Sacred Chestnut.

Chapter 1028

"Actually, I've been doing the same thing for so many years." Fei Ling'er was frank with Yi Qingshan, this was, after all, one of the ways to break through the divine Realm, and as Extreme Master Realm powerhouses, breaking through the divine Realm was their only goal in life.

"Did you find anything?" Yi Qingshan asked, this old man wasn't a saver, the reason why he had opened his heart to Fei Ling'er was because he wanted Fei Ling'er to be honest with him, also being an Extreme Master Realm powerhouse, how could he not know that Fei Ling'er was doing this.

"No." Fei Ling'er shook her head and said, "Just like you, there was no discovery, and not a single bit of news about it."

Yi Qingshan wasn't surprised, after all, the bones were scattered in the Xuanyuan World, and they weren't anything conspicuous, so the difficulty of finding them was indeed not small.

"It seems that trying to break through the divine Realm is almost a dream for us," Yi Qingshan exclaimed.

"That's not necessarily true, there's no his bones, and there's still the Sacred Chestnut." Fei Ling'er said.

Yi Qingshan directly laughed out loud, of course he knew that there were still Sacred Chestnut, but was Sacred Chestnut so easy to obtain? And with the current situation of the Dark Forest, who would dare to look for the Sacred Chestnut.

"Fei Lingsheng, you're not confused, Sacred Chestnut is in the Dark Forest, and I guarantee that Sacred Chestnut is right next to Lin Long, do you think we still have a chance of getting Sacred Chestnut?" Yi Qingshan said with a speechless face, going to the Dark Forest to look for the Sacred Chestnut now would be tantamount to seeking death ah!

And even if the Lunar Dragon hadn't awakened, they didn't dare to go to the Dark Forest at will, but if they weren't careful, it could kill them.

"Who told you that only the Dark Forest has Sacred Chestnut." Fei Ling'er said, she remembered what Han Qianli had said to her, who told you that I only have one Sacred Chestnut.

Fei Ling'er remembered this sentence, and she had an intuition that Han Three Thousand wasn't joking, or else he wouldn't have brought something as precious as Sacred Chestnut to auction.

Hearing Fei Ling'er's words, Yi Qingshan put away his playful expression and said, "I heard that some time ago, there was an auction of Sacred Chestnut at Feng Mall, do you know something about it?"

"The person who auctioned off the Sacred Chestnut was Han Qianqian, and he told me that he had more than one Sacred Chestnut," Fei Ling'er said.

Yi Qingshan's eyes unconsciously showed a hint of killing intent, when he heard this, a murderous thought directly arose in his head, as long as he killed Han Qianqian, wouldn't the Sacred Chestnut in his hand become his own?

"He's telling the truth?" Yi Qingshan asked in a deep voice.

Looking at Yi Qingshan's expression, Fei Ling'er knew what he was thinking and reminded him, "Don't forget, Han Three Thousand's strength is something that you and I can't see through, if you want to kill him, you'd better think about whether you're capable of it or not, don't steal a chicken and die in his hands yourself."

Yi Qingshan was splashed with cold water by these words and instantly sobered up, indeed, it wasn't that easy to kill Han Three Thousand for the treasure, and it wasn't a good thing to die in Han Three Thousand's hands if you weren't careful.

"Do you believe him? Does he really still have the sacred chestnut in his hand?" Yi Qingshan asked.

Fei Ling'er thought about it and said, "Believe, and he shouldn't lie to me."

Yi Qingshan frowned tightly while showing a worried expression and said, "This guy was able to obtain the Sacred Chestnut, what kind of person is he and what realm is he in, is the Dark Forest just his own backyard for him, coming and going as he pleases?"

"That's why I assumed that the Imperial Dragon Messenger might be related to him." Fei Ling'er explained that she wouldn't link the Royal Dragon Envoy to Han 3,000 for no reason, and that was the most important factor.

Both she and Yi Qingshan knew how difficult it was to obtain Sacred Chestnuts, but Han Three Thousand had more than one, which meant that Han Three Thousand had definitely been to the Dark Forest and had obtained Sacred Chestnuts at the hands of some powerful exotic beasts.

"From what you've said, it's really possible, could it be that the important task of saving Xuanyuan World must be done by him?" Yi Qingshan said.

Fei Ling'er wasn't sure yet, but even if Han 3000 had nothing to do with the Imperial Dragon Messenger, with his strength, he could somewhat help in this matter of fighting against the Lin Long, so befriending Han 3000 was something Fei Ling'er had to do at the moment.

It was a pity that Han 3000 was so guarded and hostile towards her, and it wasn't easy to want Han 3000 to trust her.

"The Three Thousand Year Sect will soon officially open its doors, it's just a pity that the two of us can't see it." Fei Ling'er sighed.

"What does it matter if you can see it or not, he's not welcoming you anyway." Yi Qingshan smiled, although he had only had a one-sided contact with Han Sanqiang, he could feel Han Sanqiang's hostility towards Fei Ling'er, so it was a good thing for Han Sanqiang that Fei Ling'er didn't appear.

Fei Ling'er glared at Yi Qingshan and said, "I don't welcome you either, when are you going to leave?"

Yi Qingshan was strong in his realm and thick-skinned, and said with a shameless look, "In my current state, I wouldn't have a chance to leave even if I wanted to, the Dark Forest is so dangerous, wouldn't it be a dead end if I went there."

"I can ask the emperor to open up the war path for you, to ensure you have a smooth journey." Fei Ling'er said, the so-called War Path was the place where the three countries often fought with each other, besides the Dark Forest, this was the only path that could pass through the three countries, but

this path would not be open to anyone, only during the war between the two countries, the War Path would reflect its value.

Yi Qingshan shook his head repeatedly when he heard this and said, "This road is constantly warring and full of ghosts and spirits, I don't want to go to such a place."

"A strong person of the Extreme Master Realm is even afraid of ghosts, and you're not afraid of laughing off the world's teeth." Fei Ling'er sneered.

In the face of Fei Ling'er's mockery, Yi Qingshan not only didn't mind, but also laughed deadly hard and said, "Who would believe such words, I am, after all, an Extreme Master Realm powerhouse, who would dare to look at me as a laughing stock."

"Are you relying on your thick skin to reach the Extreme Master Realm?" Fei Ling'er sneered at him, not bothering to bother with Yi Qingshan any longer, and went straight back to her room.

Yi Qingshan remained in the pavilion, he put on his heart regarding the matter of Han Qianqian possessing the Sacred Chestnut, although he had given up on fighting for the Sacred Chestnut by force, it didn't mean that Yi Qingshan had given up on this matter.

To Yi Qingshan, breaking through the Divine Realm was his urgent hope, and now that he saw the possibility, he would give it a try no matter what.

"Han Qianqian, wait for me, the Sacred Chestnut belongs to me, no matter what, I will snatch it from your hands." Yi Qingshan gritted his teeth and spoke to himself.

Chapter 1029

Three Thousand Ancestors.

Today was the official opening day of the sect, and Han Qianli, the shirking master, had finally appeared at Phoenix Mountain.

Hundreds of disciples within the sect also finally saw their sect master, and all of these children from poor families looked at Han Qianli with admiration.

To them, although Han Qianli was young, he was the one who gave them the chance to change their fate, like a god, and every disciple kneeled down, expressing the most devout respect to Han Qianli.

Although Han Three Thousand wasn't quite used to the feeling of being kneeled down by hundreds of people, he didn't stop it, after all, he was the sect master and these people were his disciples, so it was only reasonable to be worshiped.

"Brother Three Thousand, someone from the Misty Sect is here." Jiang Ying Ying walked up to the side and said to Han Qianqian.

This was the first sect to visit the door, and Han Three Thousand was a bit surprised, as he had thought that the existing sects within the Imperial Court would not come to the door to congratulate him.

"Master, this Misty Sect is very famous in the Imperial Court, and it's said that this sect is full of stunning beauties and doesn't accept male disciples." Huang Snap Yong looked like he was salivating as he explained to Han Three Thousand.

Han Qianqian never had much interest in women and said indifferently, "Wipe the drool from the corner of your mouth, don't embarrass me."

Under Phoenix Mountain, Zhantai Liuyue and the others prepared a great gift to come, and in addition to Elder Yan Qinghua who was following her, there were more than a dozen sect disciples behind her.

It had to be said that Huang Snapdragon's statement was correct, more than ten people could indeed be called stunning, and any man might not be able to avoid being tempted when he saw so many beauties gathered together.

But other than a moment of amazement when Han Qianqian appeared, there was no other feeling.

To him, these women were indeed beautiful, and the visual impact of standing together was strong, as if he was seeing a group of the world's top models, but the feeling was limited to that, and would not cause Han 3000 to think otherwise.

"Patriarch, this Han Qianli is even more handsome than the picture book, I really didn't expect it." Yan Qing Hua suppressed her stirring heart, she had already fantasized about meeting Han Qianli countless times in her mind, and she even felt that her expectations for Han Qianli might turn into disappointment, but from the first moment she saw Han Qianli, she knew that she wouldn't be disappointed.

Zhantai Liuyue was also somewhat appalled inside, this Han Qianli's looks were indeed somewhat unexpected, the painter hadn't even deliberately embellished his looks, instead, the character in the pen hadn't even fully shown Han Qianli's posture.

"Don't look like you're about to eat someone, you're an elder of the Piao Miao Sect anyway, don't disgrace the Piao Miao Sect." Zhantai Liuyue warned in a low voice, she didn't want to disgrace the Piao Miao Sect because of Yan Qing Hua.

"Don't worry, how could I lose face in front of him." Yan Qing Hua said.

At this time, Han Qianqian walked up to Zhantai Liuyue and unconsciously stretched out her hand and said, "Zhantai Sect Master, I didn't expect you to make a big visit, I'm really flattered."

On the way here, Huang Snap Yong had already roughly introduced Han Qianqian to the Piao Miao Sect, and he naturally knew Zhantai Liuyue's name.

But his handshake was a bit abrupt for Zhantai Liuyue, Earth etiquette didn't apply in the Xuanyuan World.

And Zhantai Liuyue didn't even understand what Han Qianqian wanted to do.

"Brother Three Thousand, there's no handshake ceremony here." Zhan Ying Yue whispered a reminder to Han three thousand.

Han Three Thousand came back to his senses and quickly retracted his hand, saying, "Zhantai Sovereign, let me show you around."

Zhantai Liuyue nodded and said softly, "The environment of the Three Thousand Year Sect is like a fairyland, Patriarch Han really knows how to choose a place, so I naturally want to enjoy such a beautiful place more."

This kind of polite talk Han Qianli didn't take it to heart, Phoenix Mountain was indeed a beautiful place, but it wasn't considered top notch for the Xuanyuan World.

At the top of Phoenix Mountain, this place could overlook almost all of the beautiful scenery near Phoenix Mountain, and as Han Qianli and Zhantai Liuyue stood together, they inevitably thought of Genting Mountain.

The beautiful scenery here wasn't something that could be compared to Genting Mountain, but the feeling it brought to Han Three Thousand was not comparable to Genting Mountain, after all, the person standing beside him at that time was Su Yingxia.

For Han Three Thousand, as long as Su Yingxia was by his side, it was a unique beauty that could not be compared to any scenery.

"Patriarch Han, have you heard about the Dark Forest?" Zhantai Liuyue asked to Han 3000, the recent unrest in the Dark Forest, almost all three countries had received the news, and the Misty Sect was naturally no exception, so this time Zhantai Liuyue came, not only to see what the difference was between Han 3000 and the album, but also to see Han 3000's opinion on the matter.

"I've heard about it, but I don't know much about the Dark Forest, so I can't speculate on what exactly happened." Han Three Thousand said, although he had a sneaking feeling inside that this matter was related to the Red-Eyed Jade Python, but even if that was true, he couldn't possibly tell Zhantai Liuyue about such an important matter.

Han Three Thousand wasn't someone who was oblivious at the sight of beauty, and the only person in the world who could make him be frank and honest was Su Yingxia, who would only have secrets from him.

"Really?" Zhantai Liuyue looked at Han Qianli with a questioning face, clearly having doubts about what Han Qianli had said.

"Does Sect Master Zhantai have other opinions?" Han Marchant turned to look at Zhantai Liuyue and said.

"But I heard that Patriarch Han auctioned off Sacred Chestnuts at the Feng Mall, and the Dark Forest is the only source of Sacred Chestnuts, so if Patriarch Han hadn't been to the Dark Forest, how could he have gotten them? In other words, since you've been to the Dark Forest, how could Patriarch Han not know anything about the Dark Forest?" Zhantai Liuyue threw out a series of questions and it was clear that she was very interested in this matter.

"Zhantai Patriarch's visit seems to be more than just congratulations," Han Qianli said indifferently.

When Zhantai Liuyue noticed that Han Qianqian's eyes were gradually becoming cold, she was somewhat appalled inside, any man who saw her would show kindness and give special treatment because of her beauty, which even in front of the emperor, Zhantai Liuyue had taken a sweet treat.

But she never expected that Han Qianli would be like an iceberg, seemingly completely oblivious to her beauty.

"The unrest in the Dark Forest is a crisis to the entire Xuanyuan World, isn't Sect Master Han concerned about this matter since he's the Sect Master?" Zhantai Liuyue asked.

"The sect has only just been established, and it's not good for Sect Master Zhantai to put so much pressure on me, is it?" Han Qianli said indifferently.

"Isn't this the responsibility one should have as a strong man? The Dark Forest has threatened the world of Regulus for thousands of years, and if the world of Regulus had been able to migrate successfully a thousand years ago, perhaps the people here would not have faced this crisis."

Chapter 1030

Migration!

Hearing these two words, Han Qianli's face changed, his intuition telling him that this migration was related to the invasion of Earth back then.

Although the reason why they invaded Earth had become unimportant since Han Qianli decided to rule the entire Xuanyuan World, Han Qianli still wished to know about this matter when he had the chance.

Controlling his changing emotions, Han Qianli asked Zhantai Liuyue as if he was indifferent, "How much do you know about this matter of migration?"

Zhantai Liuyue shook his head and said, "I only know a little bit about it, the migration back then seems to be related to the Dark Forest, legend has it that there is a divine exotic beast sleeping in the Dark Forest, once when it awakens, it will destroy the entire Xuanyuan World."

A divine exotic beast!

Could it be that the movement in the Dark Forest was related to this divine exotic beast?

"But the world of Xuanyuan was not destroyed without a successful invasion," Han Giangli said.

Zhantai Liuyue let out a long sigh, revealed a bitter smile, and said, "In order to be able to trap the divine exotic beasts, the major experts back then forged formations in the Dark Forest, and this formation consumed the lives of countless powerful people, and if it weren't for them, the Xuanyuan World would have been gone long ago."

The lives of countless people?

The invasion of Earth by the Xuanyuan World back then had similarly caused countless experts to fall.

Han Qianlian still remembered what the next old man had told him, that once upon a time, the apocalypse had thousands of Heavenly Character powerhouses,[PEN www.avracity.com] whereas now, there were only a handful of Heavenly Character powerhouses, and it was all caused by the Xuanyuan World.

Unexpectedly, when the invasion failed, Xuanyuan World also paid a huge price for its actions.

"Other than that, do you know anything else?" Han Giangli continued to ask.

"To know the details, I'm afraid you'll only be able to go to the Imperial Dragon Hall, which houses some secret books that record the Day of Destruction, but these secret books should only be accessible to emperors." Zhantai Liuyue said.

"You call that time the Day of Destruction?" Han Giangli said.

"There used to be a lot of strong Extreme Masters in the past, but after so many years, the entire Xuanyuan World has no more than five Extreme Masters, what is it if it's not Destruction Day." Although Zhantai Liuyue hadn't lived in that era, but through these bits and pieces of information, she could also think of how terrifying the Dark Forest had been to the Xuanyuan World back then, the scene was absolutely devastating.

Countless powerful people had fallen in the Dark Dark Forest, it was a tragic situation that ordinary people could not even imagine.

"I heard that there are divine realms above the Extreme Division, were there no divine realms back then?" Han Qianliang was curious.

Zhantai Liuyue directly shook his head and explained, "Whether the divine Realm exists or not is just a guess, but there was once a person who was suspected of being a divine Realm, but it's unknown what the true situation is."

"Can you tell me more about this divine Realm?" Han Giangli asked.

"It looks like you're already planning to search for the God Realm?" Zhantai Liuyue asked with a raised eyebrow, her words meant that she was testing Han Qianqian's realm, wasn't someone who could be interested in the divine realm, the Extreme Master realm?

Although many people speculated that Han Three Thousand was a newly promoted Extreme Master realm powerhouse, this had not been confirmed by anyone, and Zhantai Liuyue had come on this trip to

see how Han Three Thousand differed from the picture book, but the main purpose was to try to figure out Han Three Thousand's realm, when the opportunity was right in front of her.

"You're asking if I've reached the Extreme Mastery Realm," Han Qianli said with a smile.

Since the words were already so clear, Zhantai Liuyue naturally didn't need to show herself as too hypocritical, and said straightforwardly, "Now the entire imperial court, including even the emperor, is speculating about your realm, of course I'll be curious, the battle of the twenty-eight guests is famous in the imperial court, if it's not an extreme division, how can it be the opponent of the twenty-eight guests, even Zhong Qishan has already submitted to you, it's only Only those who are strong in the Extreme Master Realm can do that."

Regarding his own realm, Han Three Thousand had never had a clear understanding of the division of realms in the Xuanyuan World, so he didn't know how he should divide his current realm.

But since Zhantai Liuyue had said so, Han Three Thousand went along with the situation.

Sometimes it was necessary to keep a low profile, but right now, it didn't matter if Han Three Thousand was even high picking.

"Do you still need to ask me, since you know that only the strongest of the Extreme Master realms can do it?" Han Giangli smiled.

Hearing these words, Zhantai Liuyue's pupils widened significantly in an instant.

Although there were many people speculating that Han Qianli had an Extreme Mastery, the feeling was completely different when Han Qianli himself said such words.

Over the past few hundred years, the entire Imperial Court had only seen one Fei Ling Sheng, but he didn't expect another Extreme Master Realm powerhouse to be born across the sky.

"According to legends, in order to reach the divine realm, in addition to a certain amount of strength, one also needs to invoke heavenly punishment to wash the marrow and refine the bones, and after the tempering of heavenly punishment, the mortal body will no longer be mortal, at that time, it can be called a true god, and the reason why that divine realm in the legends is so unsure of his realm is because in the historical records, the Xuanyuan World has never had heavenly punishment appear. " After Zhantai Liuyue got the answer he wanted, he explained it directly to Han 3,000.

These words reminded Han Qianqian of two words... Tribulation!

And tribulation has always been a very dangerous thing, once one failed to withstand the Heavenly Punishment hammering, it was feared that he or she would be pulverized, or even ashes and bones would be left.

"A strong person who has reached the Extreme Mastery realm can extend his life span by up to a thousand years, this person who may have the strength of the God Realm, is he still alive today?" Han Giangli questioned.

"If he were still alive, I'm afraid he would have proven for the world by now whether the God Realm really exists, and he was seriously injured in the invasion battle, even leaving his head in the other world."

"When the experts of Xuanyuan World sealed the Dark Forest on that day, thousands of strong men consumed his blood to forge a great formation, but they were countered by the Lin Long, originally establishing the formation had been unattainable, but at that moment, a headless warrior appeared and wrestled with the Lin Long, if he hadn't used the last of his energy to delay the Lin Long, the current Xuanyuan World would have ceased to exist ."

As Han Giangli listened to these words, he only felt absurd.

A person who didn't even have a head, yet was able to fight a battle with a Lin Long, how could this sound like bullshit.

But the head stayed in another world, which made Han Three Thousand feel vaguely that the skeleton he had obtained in the first place wouldn't be related to this person.

"It's like you're making up mythological stories." Han Three Thousand said speechlessly.
