

## His True Colors Chapter 1081-1090

### Chapter 1081

Almost everyone thought that this was an anomaly in the weather, and when the sunlight penetrated Cloud City again, there was no one who took what had just happened to heart, only Fei Lingsheng, who was an Extreme Master, felt a little strange.

The sudden change of clouds that had just emerged gave her a very strong feeling of oppression, which was by no means caused only by the weather.

"What's wrong with you?" Discovering the composed looking Fei Lingsheng, Huang Snapdragon asked curiously.

"What happened just now is not that simple, perhaps it has something to do with your master." Fei Lingsheng said.

"My master?" Snapdragon Huang was full of doubts, how could the change in weather be related to Master, could it be that Master could still control the weather?

But much later, Han Qianqian returned to Fei Lingsheng's house.

After not seeing him for many days, Huang Snapdragon ran to Han 3,000 with an excited face, pretending to miss him so much that he was close to tears. ,.

"Master, my disciple misses you, I ....."

Before the words were even finished, Han Giangxi gave Huang Snapdragon a hard stare, the guy was like a goosebumps peddler and his acting was so poor that Han Giangxi couldn't stand it.

"What was that about?" Fei Lingsheng stepped forward and asked Han 3,000 directly, trusting her intuition, so she made sure to find the answer on Han 3,000.

There was no need to conceal anything from these people in the courtyard, and Han Three Thousand said directly, "Perhaps the previous divine realm was all an illusion, and the current me has only reached the true divine realm."

Along the way, Han Qianli thought deeply about this matter, the late Heavenly Tribulation might not be late, but rather Han Qianli had misunderstood his strength before, and the God Realm he had imagined before was not a God Realm at all, which was why it didn't lead to a Heavenly Tribulation after he had broken through.

It wasn't until he absorbed the abilities left behind by past emperors that he truly reached the divine Realm, thus triggering the Heavenly Tribulation.

"True God Realm, are you saying that the change in the weather just now was caused by the Heavenly Tribulation?" Ferrington said.

"Good." Han Giangli nodded and continued, "I can sense the pull of a force that seems to be trying to take me away from this world, the higher world that Lin Long called a higher world should exist."

"The Heavenly Tribulation, a test leading to another world?" Fei Lingsheng was also a smart person and immediately understood the significance of the existence of the Heavenly Tribulation, apart from allowing the tribulation taker to transform his body, he could also go to another high level world.

Of course, the only way to go was to pass the test of the Heavenly Tribulation, and if you couldn't pass it, you would probably just be pulverized to pieces.

"It should be like this," Han Giangli said.

"You suppressed your breath, so the Heavenly Tribulation dissipated again and you had a chance to leave here, so why didn't you do so?" Fei Lingsheng was puzzled as he looked at Han Qianqian, Xuanyuan World was now enveloped in the crisis brought about by the Linlong, it was very likely that the entire Xuanyuan World would be destroyed, and Han Qianqian had a chance to be able to leave here before, but he didn't do so.

Was it fear?

Fei Lingsheng's heart denied the idea, because with her knowledge of Han 3,000, he would never be cowed by the holocaust.

Everyone had their own secrets, and Han 3000 could be honest with Fei Lingsheng and the others about all the secrets about the Xuanyuan World, but the things of Earth he would never let these people know.

Han 3000 was filled with curiosity about that high level world, but had absolutely no desire to visit it in the slightest, what he wanted to do more than anything was to return to Earth through the hidden spatial tunnels of Xuanyuan Mountain, because that was where there were people worth caring about.

"Do you still need why?" Han Third Thousand asked rhetorically.

Fei Lingsheng knew that Jiang Yingying was very important to Han 3000, but he had killed Yi Qingshan for the sake of this sister, and he hadn't given Yi Qingshan the slightest chance.

But didn't he have half a yearning for the other world?

"You stay and there's a good chance you'll die here with her, a risk you could have avoided," Fei Lingsheng said.

Han Qianli shook his head with a smile on his face, what risk or not, he never thought about it, from the moment he decided to come to Xuanyuan World, Han Qianli had already prepared his heart, and after coming to Xuanyuan World, there were only two things Han Qianli had to do, try to find a way to solve the crisis for Earth, and return to Earth, as for other things, they were not in Han Qianli's scope of consideration at all.

"Master, what you mean is that the weather change just now is a passage that can allow you to go to the other world?" Snapdragon Huang, who had already been shocked beyond words by the conversation, finally came back to his senses and asked Han Qianqian with an incredulous face.

What other world, what holocaust, this was no longer a category that Snapdragon Huang could understand, although he had already heard Han Qianqian say that the Linlong came from another world, but this matter was not actually confirmed by the evidence, and Snapdragon Huang had always held a skeptical attitude, but now, Snapdragon Huang had to believe it, because the other world, almost actually presented itself to him.

"What, are you interested in the other world?" Han Giangli asked.

Huang Snap Yong unconsciously shook his head, he didn't think he was capable of such a thing, it would have to be a legendary divine realm for him to have a chance to go, and only a chance, because he had to succeed in the tribulation to pass the test, Huang Snap Yong didn't have the guts to take such a big risk.

"Master, will you eventually leave the Xuanyuan World after all?" Huang Snap Yong asked, in his opinion, even if Han 3000 didn't have the tribulation to leave now, he would eventually face this matter in the future, because he was already the strongest person in the Xuanyuan World, there wasn't the slightest bit of remembrance here, and if he wanted to become stronger, he would have to go to a higher-order world.

It was good that Han Marchant was leaving, but it was completely different from what Huang Snapdragon thought, Han Marchant would not go on an endless pursuit of his own realm, nor would he go to a higher-order world, he would return to Earth and seek a peaceful life with Su Yingxia and his mother and daughter.

"Good, I'll leave sooner or later," Han Giangli said.

Snapdragon Huang's expression was bleak, and there was a small sense of loss within him, but he also knew that no matter what he did, he couldn't leave Han Marchant behind, and wasn't qualified to do so.

"Since you've been able to invoke the Heavenly Tribulation, when do you plan to deal with the Lunar Dragon?" Fei Lingsheng asked to Han 3,000.

Originally, Han Qianqian had planned to use Fei Lingsheng's tribulation to deal with the Linlong, but it was now unnecessary, and it was even more of a distant matter to want Fei Lingsheng to reach the God Realm, because now Fei Lingsheng was like a mole in Han Qianqian's eyes, which meant that the difference between the God Realm and the Extreme Master Realm was huge, and it was impossible to want Fei Lingsheng to reach the God Realm in a short period of time.

## **Chapter 1082**

More importantly, the Lunar Dragon was now recovering, a perfect opportunity, if time moved further back, the Lunar Dragon would only become stronger and stronger, and it would be more and more difficult to deal with it.

It could be said that now was the best opportunity to deal with the Linlong, and if we missed it, I'm afraid that a very irreversible and dangerous situation would form.

"I came back to tell you that I plan to go to the Dark Forest," Han Giangli said.

"Now!" Fei Lingsheng looked startled as she looked at Han Marchant, although she had guessed that Han Marchant would change his plans, she hadn't expected it to be so soon.

"While it's still recovering, this is a very good opportunity," Han Three Thousand said.

This was something that Fei Lingsheng understood, and since Han Three Thousand had already decided, this was something that no one could change.

"Sovereign Han, have you thought about it?" She could not help in this matter, but in her opinion, such a hasty decision was unwise, after all, the Linlong was too powerful, in order to seal the Linlong, Xuanyuan world almost all the strong fallen, but now, Han Marchan wanted to rely on his own strength to deal with the Linlong, this is not a fool's dream?

Moreover, Han Qianli didn't have to take this responsibility on himself, it was the fate of the entire Xuanyuan World that was at stake, so it should be all the cultivators who would work together to solve this trouble.

"Sovereign Zhantai doesn't need to worry about me, I'm afraid that if the current moment is missed, the Xuanyuan World will truly be destroyed, so I must do this," Han Giangli said.

"Master, in case ..... you don't come back, how am I going to explain this to my aunt, she'll kill me." Snapdragon Huang said, but despite what he said, it wasn't that he was afraid of how Jiang Ying Ying would deal with him, but he just wanted to use Jiang Ying Ying to make Han 3000 think a little more about going to the Dark Forest.

"If I do die, no one will survive, so you don't need to worry about her killing you." Han Three Thousand smiled, now that he was the strongest person in Xuanyuan World, once he died in the Dark Forest, then the fate of Xuanyuan World would not escape destruction, no matter who it was then, it would be a dead end.

Huang Snapdragon's eyelids jumped as he hurriedly said, "Master, I feel sure that you will be able to return safely, you are invincible in my mind, how could Lin Long be your opponent."

In the face of Snapdragon Huang's self-satisfaction, Han Giangli only laughed, but he actually wasn't at all sure of himself right now.

The Lunar Dragon came from a high level world, it was strong, but exactly how strong it was was not something Han Three Thousand could imagine, and it was unknown how much effect the Heavenly Tribulation could have on it, so now Han Three Thousand was like a guinea pig, paying the price of his own life for the sake of experimenting.

If there was a choice, Han Three Thousand wouldn't do this, but unfortunately for him now, there was no choice at all.

"Alright, what needs to be explained is done, I'm going on my way, take care of yourselves." Han Three Thousand said.

The three of them, Huang Snapdragon, sent Han Marchant to the door, there were many things they wanted to say inside, but they couldn't, so they could only watch Han Marchant walk further and further away.

"Will Master be able to come back after this trip?" Snapdragon Huang slumped his head, looking like he was completely drained of his essence.

Fei Lingsheng's face was pale, in her opinion, the hope of Han Qianlian dealing with the Linlong on his own was very slim, but in the current Xuanyuan World, there was no one qualified to help, and the Extreme Master realm was just cannon fodder at best, it couldn't possibly be of any use.

But Fei Lingsheng didn't want to say these discouraging words, and said to Huang Snapdragon, "In your mind, isn't he invincible, and even you don't have faith in him anymore?"

Huang Snap Yong was stunned, he took a deep breath, puffed up his chest and said, "How could that be, how could I not have confidence in my master, my master can definitely beat up the Lin Long, just wait, we'll be able to taste the dragon meat in a short while."

Fei Lingsheng smiled faintly, Huang Snapdragon's morale boosting words were a bit exaggerated, but they were quite uplifting.

Eating dragon meat, this was something people often talked about, but no one had ever been able to do it.

"Zhantai Patriarch, should we continue to stay in the Imperial Dragon Hall, or should we return to the Three Thousand Year Sect?" Huang Snapdragon asked Zhantai Liuyue.

"Go back to the Three Thousand Year Sect." Zhantai Liuyue said without hesitation, the Royal Dragon Hall was a place that wasn't worth keeping, and having been away for such a long time, she didn't want the people within the sect to worry about her, so it was time to go back as well.

With a single thought from Snapdragon Huang, the winged tiger descended from the sky, this flyable transport was undoubtedly the most convenient.

"Fei Ling'er, we can leave, I'll be sure to have Master inform you when the Dragon Meat Feast is held." Huang Snapdragon said.

"Don't worry, I'll definitely come."

The winged tiger soared into the sky, carrying the two of them towards the Three Thousand Year Sect.

Fei Lingsheng lifted his head until the two of them disappeared into the sky, then he lowered his head and went back to his room.

Three-thousand Sect.

The news of Han Qianli killing the emperor and becoming the new emperor had spread to the Three Thousand Thousand Sect, and now almost the entire Imperial Court knew about it, so now the Three Thousand Thousand Sect, even though it was just a new sect, had become the number one sect within the Imperial Court, after all, its master, but the current emperor, was incomparable.

But while everyone was excited, Jiang Yingying was inexplicably worried, this strange feeling that something seemed to have happened to Han Qianxiang, a foreboding feeling lingered in her heart and couldn't be dissipated.

A day later, Huang Snap Yong and Zhantai Liuyue returned safely, and when Ying Ying Jiang learned of this, she ran all the way to the front of the clan.

But she only saw the two figures of Huang Snap Yong and Zhantai Liuyue, not Han Qianqian at all.

"Huang Snap Yong, where's my brother?" Jiang Yingying walked up to Huang Snapdragon at the first time and asked urgently.

Huang Snap Yong could see the worry in Jiang Ying Ying's eyes, but there were too many people here, and the situation about the Dark Forest was not yet able to be widely spread, so he could only say, "Senior Aunt, let's find a place where no one is around, and I'll tell you slowly."

Jiang Ying Ying directly carried Snapdragon Huang and left the clan, heading towards the back of Phoenix Mountain.

Huang Snapdragon was like a defenseless chicken that could only resign itself to its fate.

When she arrived at the back of the mountain, the first time she released Snapdragon Huang, she asked, "What's going on, what exactly happened, is my brother in some kind of danger?"

## Chapter 1083

Snapdragon Huang told all the information he had, all of it, without hiding anything from Jiang Yingying.

After hearing this, Jiang Ying Ying immediately had to leave.

Snapdragon Huang quickly said, "Aunt Shigure, where are you going."

"To the Dark Forest, of course." Jiang Yingying's voice was low and said.

As soon as Snapdragon Huang heard this, he immediately panicked and went forward to pull Jiang Ying Ying, but before he could speak, he was blown out by Jiang Ying Ying's fist.

A pain-filled Snapdragon Huang curled up on the ground and said, "Teacher's Aunt, you can't go, Master is going to use the Heavenly Tribulation to deal with the Linlong, not only will you not be able to help, but you'll also cause trouble for Master."

Jiang Ying Ying turned her head to look at Snapdragon Huang with cold eyes and said, "Do you want me to just watch?"

"Only Master can deal with the Linlong, how can you cause trouble for Master at such a critical time, in case Master is distracted to protect you, wouldn't that harm Master?" Although Snapdragon Huang didn't want to say such words to hit Kang Ying Ying, but in this situation, he had to say it because it was the only way to get Kang Ying Ying to stay.

"I have the ability to defend myself." Jiang Ying Ying said disdainfully.

"How can you defend yourself under the holocaust, you went, only to have my master protect you, maybe my master would have been able to deal with the Lin Long, but it was because you went that you

caused my master to lose his life, you did that, not helping him, but harming him, do you want him to die?" Snapdragon Huang gritted his teeth and said.

Jiang Ying Ying walked in front of Snapdragon Huang with a murderous look on her face.

Without any fear, Snapdragon Huang looked straight at Ying Ying Jiang and continued, "You have no idea of the power of the Heavenly Tribulation, nor do you know how powerful the Lin Long is, even you, Yi Qingshan, can't defeat it."

"You're looking for death!" Jiang Yingying angrily strangled Huang Snap Yong's neck, if she used the slightest force, Huang Snap Yong would be dead.

But Huang Snap Yong still wasn't afraid, he knew that he couldn't let go, or else, Jiang Yingying's visit would most likely cause unnecessary trouble for Han Qianqian.

"Have you forgotten that Master came all the way back to save you because you were captured by Yi Qingshan, and you thought you were powerful, that you could help, but you couldn't even deal with Yi Qingshan." Huang Snap Yong continued.

Jiang Ying Ying wanted to go to the Dark Forest because she was worried about Han Qianyang, but as for whether she could help or not, she hadn't even thought about it.

These words from Snapdragon Huang hit her hard, but he was telling the truth, even if she couldn't deal with Yi Qingshan, how could she help Han 3000 deal with the Lunar Dragon?

If she went there, it was very likely that she would become a burden to Han Qianliang, and then Han Qianliang would not only have to deal with Lin Long, but also have to find a way to protect her.

Seeing that Jiang Ying Ying's mood had calmed down a bit, Huang Snap Yong was relieved in his heart and continued, "Aunt, all we can do now is to wait for our master to return safely, this matter, in the entire Xuanyuan World, only he can do it, anyone appearing will become a problem for him."

Jiang Ying Ying took a deep breath and let go of Huang Snapdragon.

Huang Snap Yong stood up with difficulty and asked Jiang Ying Ying, "Aunt, don't you believe in Master's strength?"

"Of course I believe him." Jiang Ying Ying said without thinking about it.

"If we believe it, we can't get him in trouble." Snapdragon Huang said.

"He is laying down his life for the Xuanyuan World, and if anything happens to him, I want the entire Xuanyuan World to be buried with him." Jiang Ying Ying said indifferently.

This statement seemed like a joke, and with Jiang Ying Ying's current strength, she couldn't do it.

But Huang Snapdragon had a strange feeling, as if she wasn't joking.

Xia Guo Jingwu Mountain.

Su Yingxia held the sleeping Han Nian in her arms and looked towards the Dark Forest.

Today's Jingwu Mountain, there were no longer any challengers appearing, Su Yingxia had almost beaten those strong people of the Xia Kingdom with one person's strength, not even daring to breathe, although this made many experts feel a sense of shame, but despite this, with so many lessons learned from the past, no one dared to challenge Su Yingxia anymore, after all, no one wanted to be seriously injured at Su Yingxia's hands.

Stroking Han Nian's head, Su Yingxia said to herself, "You haven't seen your own daughter yet, how can you do such a dangerous thing?"

From the moment Su Yingxia sensed Han Qianli forcing his breath, she knew what Han Qianli wanted to do, and now Han Qianli had gone to the Dark Forest, confirming her suspicions even more, but she knew even better than Han Qianli that Han Qianli's plan could not succeed.

After possessing Fuyan's memories, Su Yingxia understood the Lunar Dragon better than anyone else, it had already endured the baptism of Heavenly Tribulation, and trying to use it against it was a complete dream.

Unless a miracle happened, otherwise, Han Three Thousand Year would only have a path to death.

"No matter what, the three of us will be together as a family." After Su Yingxia said this, she stood up.

Han Nian, who was affected by the movement, opened her eyes and appeared somewhat dazed, asking Su Yingxia, "Mother, are we leaving?"

Su Yingxia smiled and nodded, not at all nervous or scared when she was going to face danger, and said, "We're going to meet daddy."

When the little girl heard the word daddy, her sleepy eyes instantly became enlightened and said excitedly, "Is daddy coming to pick us up, where is he."

Seeing the little girl looking around, Su Yingxia couldn't help but kiss Han Nian's little cheek and said, "Daddy is in a dangerous place, will Nian'er be afraid?"

Han Nian shook her head without hesitation and said, "Nian'er isn't afraid of anything, as long as she can find daddy."

Su Yingxia nodded and said, "Mom will take Nian'er to find daddy now, daddy will be very happy when he sees Nian'er."

Down the mountain!

This was the first time Su Yingxia had walked down Jingwu Mountain since she had arrived in the Xia Kingdom, and this small move of hers immediately alerted countless experts.

"Descending the mountain, she's descending the mountain!"

"What does she want, she's not going to come and challenge us."

"This is finished, will it find its way to our heads."

A small action that caused countless people to panic was enough to see how much psychological pressure Su Yingxia had brought to those so-called experts.

And even the lord of the Xia Country couldn't hide his panic after hearing about this matter, fearing that Su Yingxia would cause any more unrest, after all, there was no one who could stop Su Yingxia in the current Xia Country.

In order to avoid Su Yingxia causing a big commotion, the country's lord could only appear again with a hard scalp.

"Don't worry, I'm leaving here, you don't need to be afraid of me." When the State Lord appeared, Su Yingxia said indifferently.

Leave this place!

The sovereign was relieved and at the same time looked a little helpless, after all, Su Yingxia was so powerful, if she went to another country, it would also not be good news for Xia Kingdom.

#### **Chapter 1084**

Dark Forest Border.

When Han Qianli arrived here, he was able to feel the presence of the Lunar Dragon and its strength more clearly.

Han 3000 actually had no confidence in using the Heavenly Tribulation to deal with the Lunar Dragon, he had no idea if the power of the Heavenly Tribulation would be able to severely damage the Lunar Dragon, but in the absence of any other options, he could only try, and also while the Lunar Dragon's strength had not returned to its peak.

"Gods bless, I hope this time it will be safe." Han Giangli, who had never believed in the theory of gods and demons, couldn't help but pray in secret, although he had the courage to face the danger, it didn't mean he was willing to face death.

Whenever he thought of Su Yingxia and Han Nian, Han Three Thousand was extremely obsessed with the matter of being alive, as he couldn't leave the mother and daughter behind, and he had to shoulder the responsibility of his husband and father.

As soon as he stepped into the Dark Forest, a powerful aura locked onto him for a moment.

"I didn't expect you to come so soon to die." Lin Long's voice once again reached Han Qianli's ears.

Han Qianli's face was as frosty as ice as he walked towards Xuanyuan Mountain.

Many exotic beasts were encountered along the way, but with Han Qianli not concealing his strength at all, the exotic beasts chose to actively avoid Han Qianli, not daring to think about Han Qianli at all.

Exotic beasts liked to eat humans, but they also had a higher intelligence than other animals, knowing who could be used as food and who could pose a threat to them.

In a short while, there were many exotic beasts following behind Han Qianqian, seemingly looking for an opportunity, many of which were not among any of the records of the Xuanyuan World, after all, the mystery of the Dark Forest could not even be explored by the strongest of the Extreme Master realms, so no one really knew how many [My Love Novel [www.avracity.com](http://www.avracity.com)] varieties of exotic beasts were hidden here.

With more and more exotic beasts following him, it was like having an army behind him, but this didn't make Han Qianli worry about fear, within the Dark Forest, only the Lin Long was his opponent, and these exotic beasts whose strength couldn't be on the stage were not enough to be feared.

"Little one, help me get rid of these things." Han Qianli said indifferently.

The red-eyed jade python moved with the order, and when it revealed its true body, the foreign beasts that were following it instantly scattered, fleeing in all directions in a particularly spectacular scene.

The red-eyed jade python spat red letters, and instead of returning to Han Qianli's arm, it simply walked beside him.

"Little thing, if I die here today, you should flee as far away as you can." Han Third Thousand said to the red-eyed jade python.

The red-eyed jade python spat out its red letter with a provocative look, clearly very dissatisfied with Han Three Thousand's arrangement.

This method of communication couldn't help but make Han Three Thousand regretful, if the Red-Eyed Jade Python could communicate directly in human language like the Lin Long, it would be much more convenient and Han Three Thousand could know all of the Red-Eyed Jade Python's thoughts.

Unfortunately, the red-eyed jade python's realm was so different from that of the Lin Long that getting it to speak was probably a fantasy.

As he got closer and closer to Xuanyuan Mountain, the scent of the Lunar Dragon became stronger and stronger, and Han Qianli unconsciously slowed down some of his pace, having felt the strength of the Lunar Dragon before when he was in the Imperial Dragon Hall, but compared to this time, it was clearly a bit stronger now.

"Looks like you've recovered quite a bit again." Han Qianli said faintly.

The Lunar Dragon's ability was able to easily control the entire Dark Forest, so even without Han Giang's deliberate voice transmission, it was still able to hear it clearly.

"If you know, why don't you run away?" Lin Long asked curiously.

"I'm here to k\*ll you, why should I run." Han Giangli asked rhetorically.

The Lunar Dragon gave a cocky laugh, k\*lling it?

These losers from Regulus World are trying to k\*ll it, isn't that a joke?

Its strength was already beyond the scope of the Xuanyuan World, so how could anyone be able to k\*ll him here?

Unless it was someone from another world, otherwise, no one could threaten it.

"Kid, are you saying such big words on purpose to amuse me, if so, I have to admit that you succeeded." The Linlong mocked with disdain.

Han Qianqiang's face didn't change, he himself knew that such words would definitely be mocked, but that was what he was doing, he was merely telling the truth.

"Big words? I advise you to better be careful, or you'll regret dying at my hands." Han Qianli said coldly.

"In a few words, you want me to value you and put you in my sights? It would be an insult to me if I considered you a rival." Lin Long said.

Such a derogatory comment didn't make Han Giang lose his confidence, but from the start, he himself had little confidence and had come to the Dark Forest with nothing more than an attitude of giving it a try.

"Why did you come to the Xuanyuan World to dominate because your strength was too low there and you were unwilling to submit to others?" Han Qianqian asked, since the Linlong was a creature from a higher world, there must be a reason why it appeared in the Xuanyuan World.

Perhaps it was a character that would rather be the head of a chicken than the tail of a phoenix, but that meant that with the strength of the Lunar Dragon, it was only a weakling in that world, which made Han Qianli unable to imagine what kind of experts were there.

"I can come to such a sh\*tty place when I want to, do I still need a reason?" Lin Long said.

"But why are you doing this, the cultivation environment here shouldn't help you to improve your strength, you are willing to come here at the expense of your realm improvement, is it because you were bullied too badly in that world, or you have a very powerful enemy, that's why you had to take refuge in the Xuanyuan World? It seems you're a coward too, only able to flaunt yourself in your own world of Regulus?" Han Qianqiang said these words in a questioning tone.

The red-eyed jade python trembled as it listened to the side, this kind of deliberately irritating comments, once the Lin Long do anger, I'm afraid he will directly k\*ll Han Qiang, why did he say these words?

"Boy, with those words, you want me to be angry?" The Lunar Dragon said indifferently, without any emotional turmoil.

But the calmer it was, the more Han Giang knew that it was hiding itself.

"No, I didn't intend to make you angry, I just wanted to try and see if you can't leave Xuanyuan Mountain yet." Han Qianli said with a smile.

"With your strength, how can you allow a bystander to insult you like this, and you haven't made a move to k\*ll me yet because you can't leave Xuanyuan Mountain, right, what would you do if you did?" Han 3000 said curiously.

## **Chapter 1085**

In fact, this problem, Han 3,000 had already discovered the moment he entered the Dark Forest, the Lin Long did not appear immediately, which was a very strange thing, after all, it was trying to k\*ll itself, and now that the opportunity had been placed in front of the Lin Long, it was slow to make a move.

So Han Qianqian made a bold guess and deliberately provoked the Linlong, trying to confirm his guess.

As it turned out, he guessed right, although he didn't know why, but the Lunar Dragon was definitely unable to leave Xuanyuan Mountain for the time being for some reason, perhaps related to the recovery of its strength, which was very good news for Han 3000.

He wanted to use the Heavenly Tribulation to deal with the Lunar Dragon, and if the Lunar Dragon wanted to avoid it, it shouldn't be a difficult task, but if it couldn't leave Xuanyuan Mountain, it would be relatively easier to succeed.

"Kid, why do you think so?" The Linlong asked.

Hearing this, a faint smile appeared on Han Qianqian's face, if he was only eighty percent sure that Lin Long couldn't leave just now, then he was one hundred percent sure now, otherwise, Lin Long would never ask such nonsense.

"I'm as predictable as God, how could this little matter be difficult for me?" Han Giangli smiled.

"Even if I can't leave Xuanyuan Mountain, I can still k\*ll you, so don't play tricks on me, tell me how you know." Lin Long said in a stern voice.

Han Giang said indifferently, "If I tell you, you'll make my death more painful, right?"

"You're smart, it's all death, but the process can be quick or painful, take your pick." Lin Long said.

This was definitely the strongest opponent Han 3000 had ever encountered, so much so that he wasn't even confident that he could deal with the Lunar Dragon right now, but regarding the matter of death, Han 3000 wouldn't accept it.

Even if it was so powerful that it could destroy the heavens and the earth, Han Three Thousand Thousand would never sit still and wait for it to die.

Continuing towards Xuanyuan Mountain, it soon appeared in front of Han 3,000.

As the saying goes, looking at the mountain to run away from a dead horse, although the Xuanyuan Mountain was already visible, it was actually still a long way away.

But even so, when Han Qianqian saw the Lin Long that was entrenched in Xuanyuan Mountain, he would still be shocked!

Its body was almost as large as the entire mountain, and to the naked eye, a hundred feet long was more than enough, and it might even be even more exaggerated.

The entire mountain of Xuanyuan was clearly very small under its entrenched presence, giving a visual illusion that could easily lead people to misunderstand that Xuanyuan Mountain wasn't very big.

"Little fellow, you're quite lucky that you had the courage to fight it and didn't die." Han Qianlian said to the red-eyed jade python with a sigh on his face, when he first saw the red-eyed jade python, Han Qianlian was still wondering what kind of creature was able to hit it so badly, but now it seemed that it was not easy for the red-eyed jade python to survive.

"I didn't expect this little thing to be one of your exotic beasts, but it caused me to starve for a day when it ran away," The Lin Long suddenly said.

These words made the red-eyed jade python's body shake, it had always been the only one to treat other exotic beasts as food, when was it its turn to be food.

But this was Lin Long's words, and the red-eyed jade python couldn't refute them.

"You're really quite similar." Han Giangli said with a sudden sigh as he looked at the Linlong.

"Like what?" The dragon was puzzled.

What Han Qianli called quite similar was very similar to the image of dragons circulating on Earth, after all, on Earth, dragons were just legendary creatures that no one had actually seen, and some experts even speculated that the image of dragons was just imagined by the ancients, and that such creatures didn't even exist in the world.

In the past, Han Qianli was also curious about this matter, but he had always believed that dragons really existed, because those images that had been passed down were very real even in terms of details, if someone hadn't seen them with their own eyes, how could they leave such realistic details?

Now, it seems that the words of certain experts are not all that trustworthy, and their narrow-mindedness in denying that the world doesn't exist if they haven't seen something they haven't seen is completely arrogant.

"Like a legendary creature in my world, they're also called dragons." Han Giangli said.

The huge head of the dragon, which was drooping at the top of the mountain, suddenly lifted up, and due to the movement, so much so that the Xuanyuan Mountain talus fell with a loud rumbling sound.

"You're not from the Xuanyuan World either?" The Lunar Dragon asked Han Qianli in shock.

Looking at its appearance, Han Qianqian knew that the Lunar Dragon had misunderstood his words, and it was probably under the delusion that it was also from a higher world?

"Are you just allowed to come from other worlds, but not me?" Han Giangli said faintly.

First time!

For the first time, the Linlong had a hint of scruples towards Han Three Thousand, and without knowing the details of Han Three Thousand, it was possible that Han Three Thousand was hiding his true strength, just like it was.

If that was the case, Han Three Thousand Years was not an opponent he could take lightly.

"Where are you from." The Linlong asked.

It was actually afraid!

Han Marchian couldn't help but laugh, it really was a dodgy waste of a wimp, and with just a word or two, it started to get scared, I really didn't know what class of existence the Lunar Dragon belonged to in that higher world.

But Han Giangli wasn't lost, even if the Linlong was just a wimp, it wasn't something he could deal with, and he wouldn't take the Linlong lightly because of that.

"Do you want to see my true strength?" Han Giangli asked.

The Lunar Dragon suddenly had an ominous premonition, it was just a pity that it couldn't leave Xuanyuan Mountain yet now, or else its first thought would have already caused it to run away.

In the higher world, the Linlong was only a mount of the lowest level of strength, and it was because of this that it suddenly had a slight fear of Han 3,000, because if Han 3,000 came from that world, a creature of its lowest level would definitely not be a match for Han 3,000.

"Don't you dare pretend to be in front of me," The Linlong said.

At this time, Han Three Thousand no longer deliberately suppressed his breath, and since he was going to use the Heavenly Tribulation to deal with the Linlong, the faster the better, and the longer it dragged on, the stronger the Linlong would recover, which would make Han Three Thousand even more difficult in this matter of dealing with the Linlong.

Due to no longer suppressing his breath, the Heavenly Tribulation soon made its appearance again.

In the sky above the Dark Forest, dark clouds and thunder rolled in an instant.

The Lin Long appeared to look up at the sky with some confusion, and soon it realized what was going on.

Wasn't this a Heavenly Tribulation?

This guy is actually going through a robbery?

That's ridiculous, is that what he's really capable of?

## **Chapter 1086**

"Kid, do you want to survive a robbery in front of me? Is that what you call real strength?" The Lin Long said disdainfully to Han 3,000, with this level of strength, it wasn't even worth being afraid of him, he thought Han 3,000 was a strong man from another world.

These words were a bit desperate for Han Qianli, because the fact that the Lin Long would say that was obviously because he didn't take the Heavenly Tribulation seriously, but it was Han Qianli's strongest method, and if the Heavenly Tribulation couldn't even deal with the Lin Long, there really wasn't much he could do about it.

"The power of the Heavenly Tribulation, is it something you can resist?" Han Qianqian said faintly.

The Linlong suddenly let out a loud laugh, and it realized that Han Qianli was trying to use the Heavenly Tribulation against it.

Ridiculous, it was ridiculous.

"Kid, you're really an idiot, I've already been baptized by the Heavenly Tribulation, so how could I be afraid of it." The Lin Long said.

Han Qianqian's face changed and said, "What do you mean?"

"Haven't I made it clear enough that in order to go to that world, you have to go through a Heavenly Tribulation, and only after you succeed in the Tribulation do you think I'm going to be able to go?" Linlong said.

Despair!

Han Qianli's current mood could only be described by these two words.

The Lin Long had actually experienced a Heavenly Tribulation, which was why he was able to go to that higher world, didn't that mean that the current Heavenly Tribulation was nothing to the Lin Long at all?

But until the final moment, Han Giangli would not give up.

Even if the Lin Long had already experienced a Heavenly Tribulation, he would still give it a try.

It wasn't that Han Third Thousand was stubborn, but that he simply had no other way, and if he didn't do so, he would have to wait for death.

Han Qianqian unleashed his full strength, wanting to make the Heavenly Tribulation come more fiercely as well.

The more powerful it was, the higher the likelihood of being able to cause damage to the Lin Long naturally.

The Lunar Dragon watched as if watching a show, although it could have stopped Han Three Thousand, it didn't do so, it wanted to make Han Three Thousand completely desperate, it wanted to show Han Three Thousand how stupid this solution was.

"Don't worry, take your time, I'll wait for you." The Lunar Dragon said.

To the Lin Long's completely carefree attitude, Han Three Thousand could only pretend not to hear it, his heart couldn't falter at this point, and once the breath he was holding slackened, Han Three Thousand might not be able to raise it again.

The thunder rolled and gathered momentum, and countless lightning bolts converged in the dark clouds.

The cultivators of the entire Xuanyuan World were now sensing a powerful force that made them tremble.

Imperial Dragon Hall.

Fei Lingsheng unconsciously looked in the direction of the Dark Forest after sensing this power, and although she couldn't see anything, she knew that Han Qianli had already started and that there was no way out for him.

"I hope you can really succeed, if even you can't deal with the Lunar Dragon, I'm afraid that the Xuanyuan World will be truly destroyed."

Three Thousand Sects.

The four of them, Jiang Ying Ying, Huang Snap Yong, Zhantai Liuyue, and Yan Qing Hua, stood on top of the mountain, all of them looking at the direction of the Dark Forest.

"Master this is the beginning of the tribulation, I hope the lightning tribulation will k\*ll the Lin Long." Snapdragon Huang placed his hands together on his chest and prayed with a devout face.

Although Jiang Ying Ying didn't say anything, her expression was already heavy to the extreme.

Although she had faith in Han Qianqian because ever since she had known him, there was nothing he couldn't do.

But this matter was very dangerous after all, and Jiang Yingying would be very worried even if she trusted Han Three Thousand.

Once an accident occurred, Han Three Thousand's life would be on the line, which was unacceptable to Jiang Ying Ying.

"Brother Three Thousand, you mustn't have anything happen to you, Sister Ying Xia and Nian Er are still waiting for you at home." Jiang Yingying said silently.

While everyone was worried about Han Three Thousand, there was another person who was anxiously rushing towards the Dark Forest.

She was Su Yingxia.

Han Qianlian and Jiang Ying Ying would never have imagined that Su Ying Xia had already arrived in the Xuanyuan World and had brought Han Nian with her.

"Mom, there's thunder." Han Nian curled up in Su Yingxia's arms, clearly terrified of the sound of thunder coming from the air.

Su Yingxia tried to reassure Han Nian as much as possible, stroking her head and saying, "Don't be afraid, daddy is right there, he'll protect Nian'er with daddy."

Hearing the word daddy, Han Nian's emotions only this much more stable, it seems that in her heart, daddy is a hero imagine, as long as daddy is there, there is no need to be afraid of anything.

This was related to the thoughts that Su Yingxia had instilled in Han Nian since childhood, so Han Qianli wasn't around Han Nian, but Su Yingxia would tell Han Nian something about Han Qianli every day, and would tell her how powerful Han Qianli was, which naturally formed Han Nian's perception of Han Qianli's great image.

But this time, Su Yingxia knew very well in her heart that Han 3000 was mostly dangerous, and the strength of the Lin Long was completely different from the level of the Xuanyuan World, which was not a quantum level at all.

Boom!

At that moment, the first great thunderstorm erupted in the air, which signaled the first Heavenly Tribulation to strike down in the air.

As the target of the Heavenly Tribulation, Han Third Thousand ran towards the Lunar Dragon at the first time, trying to channel the Heavenly Tribulation on the Lunar Dragon.

At that moment, the Lin Long made a move that Han Qianlian had never expected.

Although it didn't leave Xuanyuan Mountain, it raised its tail and directly intercepted the Heavenly Lightning in midair.

"Kid, I've already told you that the Heavenly Tribulation poses no threat to me, do you still not believe me?" The Lunar Dragon said to Han 3,000.

Han Qianqian looked at the spot where the Lin Long had been struck by the Heavenly Lightning and there wasn't a single mark, not even a flesh wound, which couldn't help but make Han Qianqian despair once again.

He hadn't expected his plan to be so vulnerable in the face of the Lin Long's might!

"This is still just the first Heavenly Lightning." Han Giang gritted his teeth and didn't give up, he had no way to retreat, so he could only do his best.

The Linlong didn't stop Han 3,000, now it was like watching a monkey, watching Han 3,000 perform, sooner or later it could k\*ll Han 3,000 anyway, it didn't care about wasting a bit of time.

After sleeping for a thousand years, it was nice to be able to see a good show.

"You have to work hard, there are a total of three heavenly thunderstorms, you still have two chances left." Lin Long said.

Han Giangli took a deep breath and ignored Lin Long's ridicule, pushing the power in his body with all his might, he wanted to make the Heavenly Lightning come even stronger, even if the chances were slim, he had to try his best.

But at this moment, a familiar voice left Han Three Thousand dumbfounded on the spot.

"Three Thousand."

Han Three Thousand's entire body was as stunned as if he had been electrocuted!

When he turned his head and saw Su Yingxia not far away, it was even more like a dream.

Was this ..... a hallucination before death?

#### **Chapter 1087**

"Dad."

Han Qianli, who hadn't been struck by heavenly thunder, was now dumbfounded by lightning.

Never in his wildest dreams had he imagined that Su Yingxia and Han Nian, had come to the Xuanyuan World!

If it was a different time and place, this matter might have been the biggest surprise of Han Qianli's life.

But right now, there was only surprise, not joy, because he was facing great danger, and the appearance of Su Yingxia and Han Nian would also put the two of them in danger.

Han Qianli couldn't even accept his own death, so how could he accept the two of them being in danger.

With a flash, Han Qianli appeared beside Su Yingxia, with a thousand words inside, but not a single word could be said.

"Daddy." Han Nian's tender face looked at Han Three Thousand with an innocent face.

Han Third Thousand just nodded subconsciously.

When Han Nian opened her arms to Han three thousand for a hug, Han three thousand felt even more at a loss for words.

To think that when she left Earth, Han Nian was still just an infant in infancy, but now, she had learned to call out to people already.

Based on the estimate of the time it took Han 3000 to come to Xuanyuan World, which was less than a year, it was clear that there was some difference between the timelines of Earth and Xuanyuan World.

"What are you waiting for." Su Yingxia saw that Han Three Thousand was unmoved and reminded him.

Only then did Han Qianli regain his senses and quickly embraced Han Nian in his arms.

Although it was the first time she saw Han Qianli, Han Nian didn't feel any stranger to Han Qianli, she directly kissed Han Qianli on the face and said to Su Yingxia with a smile on her face, "Mom, I finally found my dad."

The words were a bit heartbreaking for Han three thousand, it was his choice to leave Earth in the first place, he had chosen to help it solve its troubles, but he had forgotten that his daughter's childhood needed him around as well.

It was only at this moment that Han Giang felt that he wasn't worthy of being a father at all.

"Why are you still standing there, don't you want to see us?" Su Yingxia pursed her lips and said to Han Marchant, who was already a mother and still had a shy side in front of Han Marchant.

Han three thousand quickly shook his head, he would dream of a mother and daughter, and how could he not want to see them.

It was just that this time of year was a bit desperate for Han three thousand, it was already very difficult for him to deal with the Linlong by himself, the appearance of Su Yingxia and Han Nian would undoubtedly give Han three thousand even more scruples, which would make it even more impossible to deal with the Linlong.

"Why are you here." Han Qianqian asked to Su Yingxia.

"My daughter misses you, so of course I came to find you." Su Yingxia said as if it was a matter of course.

"However, it's very dangerous right now, so hurry up and take her away, I'll come find you after things are settled." Han Qianli said anxiously.

Su Yingxia stubbornly shook her head and said, "I've recovered most of Fuyuki's memories, and I know more about the Lunar Dragon than you do, I know how you want to deal with it, but it won't work."

Han Qianli had actually expected that Su Yingxia would awaken Fuyuki's memories sooner or later, after all, Su Yingxia had inherited all of Fuyuki's abilities, she was like Fuyuki's new host after his rebirth, it was just that she said it wouldn't work, which Han Qianli couldn't understand.

Was it possible that the Linlong was really impossible to deal with?

"What do you mean?" Han Giangli asked.

Su Yingxia unconsciously looked at the Linlong, the terrifyingly huge body that coiled around the entire Xuanyuan Mountain, such powerful exotic beasts were long beyond the power of the Xuanyuan World.

"It's not a creature that belongs to the Xuanyuan World, its power can easily destroy this world, the holocaust is meaningless to it." Su Yingxia said.

The Linlong was also able to hear the conversation between the two, when it heard Su Yingxia's words, it seemed to reveal a smug expression and said to Han Qianli, "It seems that she is more knowledgeable than you, in front of absolute power, any tricks are pale and powerless, not to mention the Heavenly Tribulation, even if all the strongest people in the Xuanyuan World over the past generations were resurrected, it wouldn't be able to pose a threat to me, unless, the people of that world appear, but it's impossible."

Han Three Thousand's face couldn't hide his despair, he knew that Su Yingxia wouldn't lie to him, so the weight of this statement was too much.

If he couldn't deal with the Linlong, Han Three Thousand would die here.

And now it wasn't just him who would die, even the lives of Su Yingxia and Han Nian wouldn't be saved.

"If you know you can't deal with it, why did you come?" Han Qianqian looked at Su Yingxia in puzzlement, unable to figure out why she was doing this.

Su Yingxia's eyes fluoresced, entering the Dark Forest, she had already thought about accepting the outcome of death, as to why she came, of course it was to be with Han Qianli.

"No matter what, the three of us will be together as a family, even if it means death." Su Yingxia said.

"But ..... Nian Er is still so young, how can we let her bear this outcome with us." Han Giangli said with some anger, in his opinion, Su Yingxia shouldn't be so irrational, after all, Han Nian was still so young, how could she bear to do such a thing.

"The spatial tunnel back to Earth, at Xuanyuan Mountain, I didn't think that Nian'er and I wouldn't be able to go back, even if I don't die with you now, when you die, it will destroy the Xuanyuan World, at that time, Nian'er and I will die as well." Su Yingxia said.

Han Giangli sighed, so Su Yingxia had already thought of this, that's why she had brought Han Nian with her, she probably thought that even if she was dying, the three members of the family must meet one another.

At this time, Lin Long suddenly laughed.

"What are you laughing at?" Han Giangli asked in puzzlement.

Why was Lin Long laughing?

Of course it was because of Su Yingxia's words.

It had previously mistakenly thought that Han 3,000 was from a higher level world, and had even been a bit jealous of Han 3,000, but now that it knew from Su Yingxia's words that Han 3,000 was from a lower level world, how could it not laugh?

Compared to the world of Xuanyuan, Earth was an even more backward cultivation civilization, even for the cultivation world in the vast universe, Earth was already a civilization that had been abandoned by strong cultivators, how could someone from such a place be worthy of its scruples?

"You actually came from Earth, it's a place where there's a lot of waste, and the Earth world, it's long since become unsuitable for cultivation, I was worried that you came from a higher world, of course it's a joke." Lin Long said.

Earth wasn't like the Xuanyuan World where everyone could get a chance to cultivate, and the environment was indeed already unsuitable for cultivation, so on some levels, Earth was indeed below the Xuanyuan World.

But that didn't mean that it was a place where there were clouds of waste.

## **Chapter 1088**

Han Three Thousand handed Han Nian over to Su Yingxia, even though he knew he couldn't be a match for Lin Long, even though he knew that the Heavenly Tribulation couldn't harm Lin Long.

But until the last moment, Han Three Thousand would never give up.

"Dad, fight it." Han Nian cheered on Han Three Thousand.

Han Three Thousand smiled faintly and said to Su Yingxia, "You guys go farther, I won't give up."

Su Yingxia didn't stop her, this was Han Three Thousand's personality, how could she give up lightly until the last moment?

And to Su Yingxia, it wasn't impossible that Han Giangli would create a miracle.

"What? You haven't given up yet?" Lin Long asked to Han Marchant.

"Why should I give up." Han Qianqian asked back.

"Fine, it's just as well that I'm relieved, it's been many years since I've been active, so I'll give you this chance, remember, if you can't hurt me, your wife and children, they'll all die very painfully." Lin Long said.

Han Nian's face was cold and he gritted his teeth, Lin Long's words had touched his bottom line, it was a reverse scale that no one could touch.

Urging the power in his body again, the sky began to accumulate the Heavenly Tribulation Thunder again, and this time, it was clearly even more powerful than before, almost the entire Xuanyuan World was enveloped in a huge thunderstorm.

Su Yingxia, who was far away, hugged Han Nian tightly, Han Qianli had used all her strength, but unfortunately she knew that it was useless, because the strength between him and Lin Long was more than just a rank difference.

"Mom, can daddy beat this big worm?" Han Nian suddenly asked Su Yingxia.

"Daddy will try his best." Su Yingxia didn't tell Han Nian the true answer because in this little girl's mind, daddy was a hero and she couldn't let Han Nian think that Han 3000 would lose.

The second Heavenly Tribulation struck down in the air.

The rumbling sound was deafening, and countless cultivators were now in a trembling state even though they were thousands of miles away.

"You're dead or not." The air was filled with Han Qianqian's roar, and when he extradited the Heavenly Tribulation on the Linlong, a desperate scene occurred.

Even though the second Heavenly Tribulation was already much more powerful than the first, the Lunar Dragon still took it with a relaxed appearance and didn't look injured at all.

Such an outcome was within Su Yingxia's expectations, which couldn't help but make her sigh.

"How is this possible!" Han Giangli gritted his teeth as he said, "The Heavenly Tribulation hit the tail of the Lin Long, but it didn't even hurt the dragon's scales, not even a trace of being struck by heavenly lightning.

"I've already told you that the Heavenly Tribulation is useless to me, even if I were to do it ten hundred times more, it would still be the same result." Lin Long said.

Han Giangli's clenched fists were pale and his arms trembled slightly, not from fear, but from anger and resignation.

This was the first time he felt despair and powerlessness.

Facing the Lin Long that was so much stronger than himself, Han Jiangnan had no way out, but waiting to die like this was something he was not willing to do.

"Do you know what it takes to stimulate a person's greatest potential." Lin Long asked to Han Three Thousand.

These words gave Han Qianqian a strong sense of foreboding.

"It's anger, and only anger can make a person truly mad." Lin Long continued.

"What do you want!" Han 3,000 gritted his teeth as he asked.

"Make you angry, make you mad." After Lin Long said these words, his huge tail slapped towards Su Yingxia and Han Nian with a speed that was too fast for the naked eye.

"Yingxia, Nian'er." At this moment, Han Qianli tore his heart out and roared, his scalp about to burst open.

To him, the two most important people in this world were Su Yingxia and Han Nian, and he would never allow these two to be harmed in any way, much less in front of him.

When Han Giangli tried his best to rescue the two, he found that he simply couldn't keep up with the Linlong's speed.

Su Yingxia's strength wasn't weak, but as she said, the power of the Lunar Dragon had long since surpassed that of the Xuanyuan World, and in the Xuanyuan World, no one could be its opponent, and it was only a matter of a thought for it to destroy the Xuanyuan World, let alone just kill two people.

"Welcome Summer, Nian Er."

Bang!

In just a blink of an eye, Su Yingxia, who was holding Han Nian in her arms, was blown away by the tremendous impact of the Lunar Dragon.

Even a God Realm powerhouse couldn't carry this level of heavy damage.

Han Qianli saw the blood mist that filled the sky.

Han 3,000 saw Han Nian's tiny smile as his mouth overflowed with blood.

Han three thousand saw Su Yingxia's gentle eyes.

At this moment, Han Qianli felt like he had lost the whole world as his heart was instantly emptied.

"How about you guys, I won't let you guys die." By the time Han Qianli caught up, Su Yingxia and Han Nian had already fallen heavily to the ground, but even so, Su Yingxia was still hugging Han Nian tightly.

Su Yingxia had been unable to speak, and blood kept gushing out of the corners of her mouth, so she couldn't control it at all.

Han Nian, on the other hand, had closed her eyes.

This scene made Han Qianli angry to the extreme.

"Believe me, there's still an afterlife." Su Yingxia said to Han Qianli with extreme effort.

"No, I don't want an afterlife, I want it now, I want it now." Han Qianli said in a panic, holding the two of them in his arms as he kept saying that you guys would be fine.

But the truth was that Su Yingxia soon lay quiet and lifeless in Han Qianli's arms.

Su Yingxia was also a strong man and had challenged all the experts of the Xia Kingdom at Jingwu Mountain, the fact that she was so vulnerable in front of Lin Long showed that once Lin Long made his move on Han 3,000, Han 3,000 would end up like this as well.

With red eyes and tears of blood, Han Qianqian no longer had any worries at this moment.

The only thing he had to do was to take revenge for Su Yingxia and Han Nian's mother and daughter.

Even if it meant death, he wanted Lin Long to be buried with him.

After carefully putting down the two of them, Han Qianli's expression had become icy cold to the extreme.

"Get angry, the angrier you are, the more power you can show, I need your strength." Lin Long said to Han Giang.

"If you don't kill me, what are you waiting for?" Han 3,000 asked.

"You finally felt it? You are a strong man from a thousand years ago, you are much more than that, I need you to show your true strength, I will use your power to seal the heavens, only then will I be able to stay in the Xuanyuan World forever, without interference from the higher worlds." The Lunar Dragon said, and as things stood, it no longer hid its intentions.

But to what the Lin Long said, Han Giangli was very puzzled, what did it mean to be strong a thousand years ago?

Could it be that a thousand years ago, he had some kind of connection with the world of Xuanyuan?

## **Chapter 1089**

"No matter what you want, I'm going to k\*ll you today." Han Qianli said in a cold voice.

Since he already knew that the Heavenly Tribulation was of no use to the Lin Long, Han Third Thousand no longer intended to use the power of the Heavenly Tribulation to deal with the Lin Long.

Although his own strength was only at the Divine Realm and could not reach the point of dealing with the Lunar Dragon, as the Lunar Dragon said, anger could explode one's greatest potential, and at the moment, Han Third Thousand's body was like a black hole, constantly devouring the spiritual energy of heaven and earth, and this time was different from the time he had to deal with the Emperor, Han Third Thousand did not have any concerns, nor did he worry about whether or not the power would burst through his body.

Su Yingxia and Han Nian were already dead, and he no longer had any remembrance of this world.

As long as he could avenge these two, even if it cost him his life, Han Three Thousand would be willing to do anything.

"Yes, that's right, the explosion of your greatest potential, you'll only be qualified to become my tool for sealing the heavens." Seeing Han Third Thousand's rapid enhancement, instead of being worried, the Lin Long was very excited and looking forward to it.

For many years, Lin Long had been running away from the pursuit of the High World, and the only way to truly solve this trouble was to seal the entire Xuanyuan World so that no one inside could leave and no one outside could enter.

To do this, it would take a powerful energy to do so.

Back then, when all of them would establish the formation of the Dark Forest, it was Lin Long's move to seal the heavens, but unfortunately, the energy at that time was not enough to do this, so Lin Long had to sleep for a thousand years waiting for an opportunity.

Now that the opportunity had finally presented itself, the Lin Long couldn't wait, it knew that as long as Han Qianxiang could explode with enough energy, he would be able to complete the Heaven Sealing feat today.

"I hope you don't disappoint me, I've been waiting for a thousand years and I don't want to wait any longer." Lin Long was suddenly nervous and even prayed in his heart.

Han Third Thousand's power rose rapidly, his clothes were torn once again, his entire body most naturally exposed between heaven and earth, if Huang Snapdragon saw this scene, he would probably still say that.

At that moment, Han Third Thousand felt a few stirring forces somewhere in the world of Xuanyuan, and it was very familiar to him.

It was the bones!

It's the power of the bones!

Han Giangli carefully sensed the location of the bone power.

A 'come'.

A shock to the heavens!

All the skeletons were pouring towards Han Qianli from all directions.

Seeing this scene, Lin Long became even more excited.

"I didn't expect, I didn't expect that you were really him, I didn't guess wrong, I didn't guess wrong." Lin Long said excitedly.

Han Qianli was completely unconcerned with what the Linlong was saying at this point, when the skeleton possessed his body, Han Qianli felt that his realm, once again, had risen a level, and the great power contained within his body was somewhat out of control.

"To avenge my wife and daughter, take my life!" Han Giangli shouted, and his entire body formed a huge storm of power that attacked towards the Lunar Dragon.

"What a powerful force, it's a pity that it's still a bit weak for me, but it's enough for sealing the heavens." The Lunar Dragon said.

The moment the Lin Long's voice fell, its massive body transformed into a humanoid form with white clothes floating.

Although the body changed, the goal remained the same for Han Qianli, whether he was now a human or a dragon, Han Qianli's only goal was to kill him and avenge Su Yingxia's mother and daughter.

"Go to hell." Han Third Thousand shouted, punching out his fist.

The dragon smiled slightly and didn't look condensed, as if the power displayed by Han Three Thousand wasn't even in his eyes.

"Perhaps you have yet to recognize the gap between us." Lin Long said indifferently.

When the fist would arrive, only Lin Long lightly stretched out his left hand and deflected it with his palm.

Han Giangxi felt his fist blast into a copper wall, all but never progressing half an inch!

"How could this be, how could this be." At this time, Han Qianqian could clearly feel his unprecedented strength, but he had never dreamed that under such power, the Linlong would be able to deal with it so effortlessly!

"What's impossible, that's the difference in strength, have you forgotten what she said, we come from different worlds and our strength is fundamentally not on the same level." Lin Long said.

After he finished speaking, he lightly waved his hand, and Han Qianli receded violently as if hit hard.

Boom!

Smashing on top of the mountain wall of Xuanyuan Mountain, Han Qianli appeared to be in a wretched state.

All of his strength was crumbling away at this moment, and Han Qianli felt as if all of the bones in his body had fallen apart.

"Without me, you would be the absolute ruler of Xuanyuan World, with your strength, no one can be your opponent, you can even go through the tribulation of the heavens to see how powerful the other world is, but unfortunately, you met me, this might be destiny, destined to become my tool to seal the heavens." Lin Long said with a smile on his face to Han Giangli.

Not being able to take revenge and kill the Lin Long, Han Qianqian had a reluctant heart.

But despite his reluctance, he couldn't do anything in the face of absolute power.

At this time, Han Qianli suddenly thought of something.

He had read about spatial tunnels in the Hidden Book Pavilion, and even knew of a way to be able to reverse time and space.

If he could find a spatial tunnel, would this be an opportunity if he could reverse time?

Back in the past, would Su Yingxia and Han Nim, come back to life?

Such an idea might be absurd, but with Han Saniang at his wit's end, it was the only hope, and even if it was only a secret record and no one else had ever done it, Han Saniang was going to find a chance to give it a try.

Give up?

Resigned?

This wouldn't be Han Three Thousand's final choice.

"I can't beat you, so can't I run?" Han Giangli pretended to run away and headed towards the summit of the mountain.

Seeing this scene, Lin Long couldn't help but laugh, not expecting that someone who was so spirited just now would now live to become a coward.

As expected, in the face of death, anyone was feared.

"In my territory, you still want to run, you don't really think you can leave the Dark Forest, do you."  
Lin Long said with a smile.

Han Qianqiang didn't care, according to what Su Yingxia said, the spatial tunnel was at Xuanyuan Mountain, and with enough time, he would find it, so he didn't need to bother with Lin Long now, even if he was treated as a coward who was afraid of death.

"Hey, what a pitiful person, even if you were given the chance, where would you be able to run to, you might as well be a good tool for me and complete the sealing of the heavens for me." The Linlong said, it wasn't in a hurry to stop Han 3,000 because in its eyes, Han 3,000 was already a turtle in a jar and there was nowhere to run.

## **Chapter 1090**

No matter what Lin Long said, Han 3000's mindset wasn't affected because this was the only chance he could grab and he was going to try regardless of the outcome.

The word give up had never appeared in Han Three Thousand's life, and the deaths of Su Yingxia and Han Nian were something that had to be reversed for Han Three Thousand, unless he died as well.

"Spatial tunnel, where exactly is the spatial tunnel." The eager Han Qianqian silently chanted, he knew that he didn't have much time left, and if he delayed any longer, he would become a tool for the Lunar Dragon to seal the sky once it lost patience.

At this time, the Linlong didn't know Han Qianli's calculations yet, and only felt that it was a desperate man in a downward spiral, which was why it was confused and fleeing, trying to find a chance for its own survival.

But how could anyone survive in front of it?

With the strength of the Lin Long, it was the absolute master in the Xuanyuan World, no one could disobey it.

"Han Qianqian, your wife and daughter are dead, why won't you go and stay with them, even if you really were to escape, would you still be able to live with peace of mind?" The Lin Long chuckled, in its eyes, Han Qianliang was like a mole struggling for its life, this image gave it a strong sense of superiority, to think that when it was ravaged by strong people in the high level world, it was also in such a mess.

At this time, Han Qianliang had reached the top of Xuanyuan Mountain, a huge cavern appeared in front of him, the cavern seemed to run through the entire body of Xuanyuan Mountain, with no bottom visible at a glance, this should be the best place for a spatial tunnel to hide, but Han Qianliang couldn't feel any spatial fluctuations.

"Oh, so you're looking for a spatial tunnel and want to use it to get out of here." The Lunar Dragon suddenly realized, but it didn't show any worry on its face.

"This is a spatial tunnel?" Han Qianliang asked Lin Long.

"Yes, this is indeed a spatial tunnel, it's just a pity that it has long since failed, it would be impossible for you to leave from here and return to your original world." Lin Long said.

The word despair had played out many times today, and Han Qianliang never expected that his last chance would end up in this manner.

The spatial tunnel was not working, which meant that his plan was out of the question.

Was this really the end of it?

Did fate have a path of death in store for him?

Han Qianliang suddenly made a lifelong leap.

When Lin Long saw the situation, he scoffed more than a little, not expecting Han Qianxiang to not give up yet, but this place was already a wasteland, so even if he jumped, what was the point?

"If it wasn't for the fact that I haven't recovered my strength, I wouldn't want to waste so much time with you." Lin Long said disdainfully, in order to complete the sealing of the heavens, in addition to the sacrifice of Han Three Thousand, Lin Long also needed his own strength as a support, in the event that it hadn't recovered its peak strength, he wasn't one hundred percent sure of sealing the heavens, so he could only wait, after all, he had waited a thousand years for this opportunity, he didn't want to fail because of any slip-ups.

Han Qianli fell into the hole in the ground, as Lin Long said, the spatial tunnel seemed to have really failed, even as Han Qianli fell to the bottom of the hole, he didn't feel any energy fluctuations.

Han Qianli's eyes were streaming with tears of blood, he knew that his last chance was truly gone, he could only accept the fact that Su Yingxia and Han Nian were dead and that he was about to have the last moment of his life.

The countless reluctance caused the power within Han Qianli's body to become agitated, he had never been this powerless before.

Gradually, the power within Han Third Thousand's body formed an energy storm, and based on the addition of the full skeleton, the storm became larger and larger, with the wind raging and the sand and stones ringing.

With Han Third Thousand as the eye of the wind, the storm turned into a huge tornado in a very short period of time, covering almost the entire cavern that ran through Xuanyuan Mountain.

At this time, Han Giangli, who had his eyes closed and bloodstains on his cheeks, had no idea what had happened.

At this time, his mind was constantly recalling the words he had read in the secret book.

"What's going on here!" Feeling the change in the power of the tunnel, the Lin Long revealed a horrified face.

It had slept in Xuanyuan Mountain for thousands of years, it knew more about this spatial tunnel than anyone else, many years ago, the power of the spatial tunnel had been absorbed by the formation of the Dark Forest, this place had long since become an abandoned place, how could such a strong power fluctuation suddenly appear.

"This isn't the power of the spatial tunnel, this is Han Qianli's?" Lin Long felt a little unbelievable, because Han Qianqian had already exploded his full power before, when he was at the peak of his powers, but how could he have become stronger again at this point!

At this time, something incredible also happened to the Earth Apocalypse.

Many Heavenly Character powerhouses all rushed to the forbidden area at the first time, and even the next oldest appeared at the first time.

"What's going on, why is the spatial tunnel crumbling."

"Does it mean that the spatial tunnel is closing down?"

"If the space tunnel closes, wouldn't the threat to Earth be lifted forever?"

"But Han 3,000 isn't back yet, is he going to stay in the Second World forever!"

People were talking, some were glad that this was a good thing, because after the space tunnel closed, Earth would no longer be threatened by the Second World.

Some, however, were feeling sorry for Han Qianli, after all, Han Qianli had risked his life to go to the Second World, perhaps the collapse of the spatial tunnel was what he had done, but he hadn't come back yet, once the spatial tunnel closed completely, he would never be able to return.

The next old man was trembling slightly, as Han Qianqian's nominal master, he held Han Qianqian in high esteem and even felt that the future of the apocalypse would rest on Han Qianqian's shoulders, and only he could revive the apocalypse.

But now this situation that was happening right now was likely to prevent Han Three Thousand Year from coming back.

Such a fact hit the next oldest very hard, even if the space tunnel closed, the Earth would not be threatened, and the apocalypse had no meaningful existence, it made the next oldest feel that nothing was more important than Han 3000 being able to come back safely.

"How much have you given for this matter, are you going to use your own life to help the Earth resolve its crisis?" The next old man said with a pained face, although such a sacrifice was great, he didn't want to see this, after all, Su Yingxia and Han Nian had also gone to the second world, it was very likely that all three members of this family would die.

But the truth was already in front of him, even if the Second World was unwilling to accept it, he could only face it.

"All kneel down." After a forceful yell from the next old man, he himself was the first to kneel down.

The others followed suit, which was considered the greatest gratitude to Han Qianli.
