

His True Colors Chapter 1231-1240

Chapter 1231

To Qin Lin, Cloud City was a place that was at odds with Han Marchant, so he was confused as to why Han Marchant had to go to Cloud City, but as a subordinate, how was he qualified to ask these things, so he could only bury this confusion in his heart.

"Have you ever attended a reunion?" Han Qianli suddenly asked Qin Lin.

Speaking of reunions, Qin Lin smiled bitterly, this kind of gathering was probably something that many people couldn't do without, but the nominal reunions only existed in reality, there were all kinds of comparisons, job comparisons, car comparisons, and even a comparison of whose wife was prettier.

If it's someone who didn't do well in school at first, if he or she mixes well, he or she will also deliberately belittle those who did well at the reunion, but didn't develop too well out of society.

For Qin Lin, the reunion wasn't simply a party at all, and what prompted the existence of the reunion was still the desire of those who mixed well and wanted to show off.

"Boss, a reunion is nominally a meeting of old classmates to contact each other and get in touch with each other's feelings, but in reality, it's just a climbing comparison, I used to be just a jerk, I was ridiculed and belittled in various ways at the reunion, but they didn't treat me as a classmate when they were sarcastic." Qin Lin said.

Han Qianli faintly smiled, it seemed that Qin Lin's reunion experience didn't leave him with too good an experience ah.

But he was also telling the truth, the so-called liaison of affection was just a front, women marrying better than anyone, men working better than anyone, this was simply a show-off party.

"If you show up at the reunion now, it's likely that many people will be sticking up for you." Han Qianli smiled.

Speaking of which, Qin Lin couldn't help but raise the corners of his mouth, the current him was indeed different, not to mention appearing at the reunion, even if he didn't go to the reunion, there were quite a few classmates who knew that he was doing well now and had specifically looked for him at Feng Qian, hoping that he could help arrange a job, and his current identity had already spread among his classmates, and what surprised Qin Lin the most was that the goddess who hadn't even bothered to look at him during his school days had specifically looked for him.

But Qin Lin wasn't interested in these things in the slightest, nor did he want to use his current glory to get back at the people who had mocked him, nor would he use his job to take care of his classmates' future.

Qin Lin knew very well that the status he had was given to him by Han Qianqian, so he would never use his status and power for personal gain.

"Boss, a girl I used to like very much at school also came to see me after hearing about my current status." Qin Lin said.

Han Giangli raised his eyebrows at Qin Lin, his expression appearing very ambiguous, and said, "How is it now, any further developments?"

Qin Lin shook his head and said with a sigh on his face, "I once fantasized that if I became successful and let her know that I had become powerful, would she like me, and that fantasy was so sweet that I would even think she would marry me."

After a pause, Qin Lin continued, "But when something like that actually happened, I realized that I didn't like her at all, and she came to me, and I couldn't find any trace of my original heartfelt feeling."

"Why?" Han Qianliang was puzzled, the goddess of the school days, this should be the first love that many people couldn't forget, and Qin Lin actually didn't take advantage of this opportunity.

"Perhaps when one has money, a woman becomes the cheapest thing, and I know she's not for me, but for my current position and wealth." Qin Lin explained.

Han Qianqiang slapped Qin Lin's shoulder, this was a very dangerous idea of his, he could think that this female classmate was here for his money, but he must not imagine women as the cheapest things, once he had this thought, Qin Lin was afraid that he would have to die alone.

"Not every woman is like this, why don't you think about it, why should she want to be with you when you've accomplished nothing? Do I have to live on the streets with you to be considered loving you?" Han 3,000 said.

"This" Qin Lin smiled bitterly, in this world, you probably couldn't find anyone willing to live on the streets with him, who would be willing to entrust his life to a loser?

"No matter what, you can't see too much, otherwise, what's the point of living," Han Qianqian said.

Qin Lin inadvertently looked at Han Qianqian and was shocked to see that his boss, who was just a minor, how could he have such a mature mindset, with the conversation he had just had, Qin Lin even felt like he was talking to an elder.

This feeling was too strange.

The maturity beyond his years that Han Qianli possessed had reached an unimaginable level.

"Boss, why do you seem like you've experienced a lot of things, but your age is too out of place." Qin Lin said.

Han 3000 was apparently young in age, but his experiences were definitely unique to this actually, so his understanding of things had its own unique characteristics.

But there was no way for him to explain these original reasons to Qin Lin.

"It's a bystander, and I can see more as a bystander."

At this moment, Shi Jing, who was dressed in a foreign dress, finally walked out of the room.

Han Giang roughly looked at the time, it had been an hour, women really were strange creatures, and it took so much time to go out and change clothes, and this was still under the circumstance that Shi Jing hadn't brought all of her Han Clothes, Han Giang didn't dare to imagine how far the time front would be stretched if Shi Jing changed clothes in the Han Clan.

"How was it?" Shi Jing looked serious as she asked Han Qianqian.

In Han Giang's eyes, Shi Jing had always been the most beautiful mother, she had very good maintenance and her rhyme at this age was richer than other women, so she could be said to be the best mature woman in Han Giang's eyes.

"Believe it or not, even if a dish towel were on you, it would never look bad." Han Qianli said with a smile.

"If you used that mouth of yours on Nangong Qianqiu, she wouldn't be so bad to you." Shi Jing said speechlessly.

It wasn't that Han Three Thousand was incapable of pleasing Nangong Qianqiu, he could say even meatier flattery than Han Jun if he wanted to, but he wasn't willing to do so, and the key reason why

Nangong Qianqiu rejected him wasn't that Han Three Thousand couldn't sweet-talk him, so even if these words were said to Nangong Qianqiu, they wouldn't be of much use.

"She doesn't like me, not because I can't say what she likes," Han Qianqiang said.

Shi Jing quickly stopped this topic, after all, this was something Han Qianli didn't want to mention, and she didn't want a nice day to be ruined because of Nangong Qianqiu.

Chapter 1232

Qin Lin was the driver, and the three of them drove towards the Dragon Lake Villa.

On the way, Qin Lin asked Han Qianqian, "Boss, do you need to give a greeting to the Dragon Lake Villa, I happen to know this person, I should be able to arrange the best banquet hall."

Dragon Lake Villa was an upscale place of consumption, watching the food being served was all very superficial routine, so in Qin Lin's opinion, this kind of general class reunion would definitely not get too well arranged in Dragon Lake Villa, but with Han Qianli's current status, he should get the best wherever he went.

"No need, I'm just an escort today." Han Three Thousand said.

Shi Jing glared at Han Three Thousand and said, "What do you mean by an escort, talk so badly."

Han Qianqian deflated, what did he call it if he wasn't an escort, and the probability that Shi Jing was pulling him along was that he wanted to earn face for himself as well.

"How about just arranging something?" Han Giangli asked tentatively.

"That's not necessary, today's reunion was called by the class president back then, he's developed well abroad, so we can't spoil it for him." Shi Jing said.

Han Qianqian suddenly stroked his chin, sizing up Shi Jing with a thoughtful look.

Shi Jing was uncomfortable by Han Qianqian's strange stare and said, "Why are you looking at me so strangely?"

"Mom, does my dad know about this class president of yours?" Han Marchiang asked.

At the mention of Han Cheng, Shi Jing's expression became slightly flustered and said, "How would he know, we haven't had a reunion for a long time, and I haven't had the chance to take your father there."

Han Giang nodded his head as if he was an old god and said, "This class president must not be an ordinary person, Mom, you didn't used to like him, did you?"

"What are you talking about, go away, you dare to ridicule Old Mother, your skin is itching." Shi Jing looked viciously at Han Qianqian threateningly.

Han 3000 was not afraid of threats and smiled with an ambiguous face, "Don't worry, I'll definitely keep this a secret and won't let him know."

Han 3000 looked at this with the heart of a joke, as he didn't think that Shi Jing would cuckold Han Cheng because of a squad leader, and with previous unrequited loves and even romances being memorable, it was only reasonable that Shi Jing would behave this way.

"More?" Shi Jing stared at her round bulging eyes, clearly already having murderous intentions.

Han Qianli quickly made a motion to seal her mouth, showing that she could keep her mouth shut.

Shi Jing, on the other hand, became a little nervous inside as Han Qianqian brought up the past events of that year.

Back then in the class, she did have a crush on the class president, and even though this matter had passed many years ago, it still held a certain weight in Shi Jing's heart, so immediately being able to see her own male god from many years ago, it was inevitable that Shi Jing would still have some nervousness in her heart.

The closer the Long Lake Villa was, the less traffic there was on the road, but whenever you could see vehicles passing by, they must be luxury cars, which also indicated that the people who could enter and exit the Long Lake Villa were either rich or noble people.

When the vehicles drove into the parking lot of the Long Lake Villa, it was more like seeing an exhibition of luxury cars, where the million-dollar cars were so inconspicuous that they didn't even have a presence at all.

"A rich man's paradise." Han Qianli said with a sigh after getting off the car.

"Boss, it's really not wrong at all to use the word paradise to describe the Long Lake Villa." Qin Lin said with a smile.

"Oh? Is it hard to believe that there's something to be said about it?" Han Qianli was curious.

Qin Lin looked at Shi Jing, as if there were some things he couldn't quite say in front of her.

Shi Jing was also curious as to why Qin Lin would say that, and after seeing his concern, she said, "Don't worry and say it boldly, I'm curious too."

"Boss, for men, what other reason could it be called paradise." Qin Lin said implicitly.

Han Qianqian suddenly understood what Qin Lin meant, if there was such a service, the word paradise would indeed be appropriate ah.

Shi Jing had a despicable expression, she would naturally feel disdain for this kind of playing with women as a woman, but this was just the norm in a corner of society, and she couldn't change it even if she didn't care.

"Men, there isn't a single good thing, 3000, if you become like this in the future, you won't recognize me as your mother." Shi Jing said to Han 3,000.

Han Three Thousand had a frank expression on his face, even if he had a need for this, he would never use it in this way, after all, his peach blossom luck was too strong, where would he need to use money to satisfy these things?

What's more, Han Qianli's desire for this aspect was only on Su Yingxia, even Chi Yiyun, who had been so beautiful back then, Han Qianli could not be swayed in the slightest, and it was even more impossible for an ordinary woman to make him have such thoughts.

"I'm but a man of the clocks," Han Three Thousand said.

"Boss, when do I come to pick you up?" Looking at Shi Jing's eyes, Qin Lin just wanted to hurry up and flee this place, after all, the boss's mother seemed to be a bit unhappy with him right now.

"Wait for my call." Han Giangli said.

"Yes." Qin Lin drove his car and quickly slipped away.

Shi Jing walked over to Han 3,000 and instructed Han 3,000, "This subordinate of yours is not a good thing, have less contact with him in the future."

Han Qianqian smiled helplessly and said, "Mom, he didn't do anything, he just said the truth."

"The truth won't do, I can't let him bring you down anyway." Shi Jing said stubbornly.

"Okay, okay, I know, I'm about to leave Yanjing anyway, so I definitely won't have much contact in the future." Han Marchiang said.

Shi Jing knew about Han Three Thousand's departure from Yanjing, but she had never asked about it in detail, and now that she had the time, she was able to satisfy her curiosity.

"You've developed so well in Yanjing, why did you go to Yun City, I've learned that Yun City is just a small, unpopular third-tier city." Shi Jing looked at Han Qianqian with a strange face.

Compared to Yanjing, Cloud City was indeed somewhat unimpressive, but to Han Three Thousand himself, Cloud City was much more significant than Yanjing, and the weight of a Su Yingxia was enough to compare Han Three Thousand's position in Yanjing.

Money and power were all worthless to Han Three Thousand, and the most important thing to Han Three Thousand in his reborn life was still getting married to Su Yingxia.

"Because there's a very important person waiting for me, I'll introduce you to him when I go to Cloud City in the future," Han Three Thousand said.

These words, instead of confusing Shi Jing, made her even stranger.

Han Marchian had never been to Cloud City, so how could someone be waiting for him in Cloud City?

"Is it a woman?" Shi Jing continued to ask.

Han Qianqiang knew that if she affirmed this answer, Shi Jing would definitely think more about it, but she would find out about it sooner or later, and if she lied, she would inevitably be read to in the future, so she could only nod her head.

Chapter 1233

But to Han Giang's surprise, Shi Jing not only didn't think much of it, but had a very pleasant smile on her face.

"Mom, you don't really think I like men, do you?" Han Giang said with a black face, the only possibility that Shi Jing would react this way was that she had misunderstood Han Giang's sexual orientation before.

"How could it be, mom wouldn't think like that, let's go, let's take you to meet mom's old classmates." Shi Jing said as she took Han Three Thousand's hand.

Han three thousand sighed helplessly, he was just normally rejecting the good intentions of some women, he didn't expect this misunderstanding to arise.

Shan Shui Ting, one of the lowest consumption banquet halls in the Long Lake Manor, this was also the banquet hall that many people who were not financially strong enough but had to puff up their faces would choose.

From afar, Han 3,000 saw a middle-aged man with a big belly, who had even shown some signs of baldness, standing at the entrance of the Mountain Water Court, accompanied by a woman in a tight skirt, dressed in a florid manner, who looked like a young wife at a glance.

"Mom, he's not your former class president, is he?" Han Giang couldn't help but ask, standing at the door to greet people, this was usually something only people in the appointment bureau would do, other people who were being asked to do so couldn't be anti-climactic, and Shi Jing had mentioned before that it was her class president who had called for this reunion.

Although Shi Jing hadn't seen the class president for many years, she couldn't believe this change.

How could the class president who was so instrumental back then become such a big-bellied, balding fatty?

"It should shouldn't be." Shi Jing said with some obvious resistance.

Han Giangiang couldn't help but laugh, the destruction of the male god image, Shi Jing was reluctant to admit it ah.

But this was good, the remaining feelings in Shi Jing's heart were probably all shattered.

Walking up to that person, Shi Jing carefully sized him up, he had indeed changed a lot, but could still see some similarities from his appearance, this was indeed her class president good.

"Shi Jing?"

"Wei Liu?"

Liu Wei's eyes greedily looked up and down at Shi Jing, he didn't think that after so many years of not seeing her, Shi Jing was so charming, compared to the little girl beside her, it was more likely to move him.

A young and beautiful girl is a hurdle for a man to overcome, but for a man, the real poison has to be a mature woman like Shi Jing.

As a man, Han Giang naturally understood what Liu Wei's extremely aggressive eyes meant, so his first impression of Liu Wei was very bad.

Even if Han Qianqiang didn't have a good feeling for his father, he would never allow other men to hit on his mother.

"I haven't seen you for so many years, I didn't expect so much change, you're really pretty now." Liu Wei said with a smile, praising other women in front of his own woman, but he was not restrained in the slightest.

The little girl beside him, on the other hand, didn't have much of a reaction other than a hint of displeasure on her face, which could also show her status in front of Liu Wei.

"After not seeing you for so many years, you've changed quite a bit." Shi Jing barely smiled, it had only just met and had already shattered the illusions in her heart.

"Yeah." Liu Wei patted his beer belly with a sigh on his face and said, "No longer as handsome and dashing as you were back then, but fortunately, you have a successful career and have earned a few small bucks, otherwise, it's impossible to invite you to the Dragon Lake Villa party ah, you live in Yanjing, you should know what kind of place the Dragon Lake Villa is."

Liu Wei's tone clearly had some flair to it, but to Shi Jing, this kind of flair was a bit too inferior.

Although the current Han family wasn't as good as it was back then, Shi Jing was at least a widow, but she was just as many as the world she should have seen.

"The quality of the Dragon Lake Villa is indeed one of the best in Yanjing, and it didn't cost you much this time." Shi Jing politely socialized.

These words made Liu Wei even more proud, waving his hand even more and saying, "It's nothing, as long as money can solve the problem, it's not a problem for me, I haven't been in foreign countries for so many years for nothing."

Next, a succession of other students arrived, Shi Jing had said before, most of the people who came to the reunion were back from abroad, one dressed like a dog, or a few tastes, but the content of their chat was a bit nauseating for Han 3000, all kinds of subtle hints of how successful and rich they were, just about all their assets on the table.

Han Three Thousand couldn't fit into these conversations, so she found herself a quiet corner to stay in.

"Shi Jing, I heard from some of my classmates before that there's a little situation in your family, it's not serious, right?"

"Yes, I've also heard about it, but unfortunately I'm abroad and can't help much, this time it just so happens that everyone is back home, if you have any difficulties, just tell us and we'll help you think of a way."

"We're all old classmates, so don't be polite to us."

A group of male classmates started a conversation around Shi Jing, this is not without reason, because among the women present, Shi Jing is definitely the most eye-catching, not only Liu Wei is not pure-minded, other people also hold bad intentions, thinking to take this opportunity to be able to get closer to Shi Jing, it would be even better if they could kiss her.

This situation was something Shi Jing hadn't expected, and while the male classmates were showing her affection, she also felt the hostility from those female classmates.

"More concern from everyone, my family's situation is no longer a big problem now." Shi Jing said.

"You're still embarrassed, but I've heard that your family is facing financial difficulties and your business is plummeting, how can there be no big problem, don't be reluctant to tell us old classmates for the sake of saving face, we all really want to help you."

"A classmate, how can we not save you from death, if you have a problem, just ask, now your classmates, but all of them are not ordinary people ah."

The people who said these words were all back from abroad, and the classmates who lived in the country itself, each and every one of them didn't say a word, although their social status wasn't enough for them to know enough about the Han family, but the recent Wuji Summit was making a lot of noise, even ordinary people had heard about it, and there were people who said that the Han family was going to rise, so in their opinion, the Han family really didn't have any problems, it was just wishful thinking on the part of these people who wanted to help, wanted to get something from Shi Jing.

"There really isn't any, thank you all for your concern, since today is a class reunion, let's talk about our past affairs, I'm capable of resolving the rest." Shi Jing said.

"You have the ability to solve it? Look at these boys, they'd love to eat you up, wouldn't it be easier to let them help?" At that moment, a very abrupt voice sounded behind the crowd.

Chapter 1234

At the same time the voice sounded, the crowd turned their heads.

A high-heeled woman in a wrap dress with a rugged figure appeared within view, flamboyantly dressed, but it had to be said that this woman had a deadly allure to men, both in looks and figure.

"You you are." Liu Wei was the first to walk towards her, but with puzzlement in his eyes, because today was a class reunion, but he had no impression of the person in front of him, so he felt a little strange.

The woman smiled slightly and said to Liu Wei with a fawning look, "Class President, you don't even remember me, don't I, Lin Fang, deserve to be remembered by you?"

Lim Fong?

These two words gave Liu Wei a very familiar feeling, but he couldn't remember who this person was at the moment.

At this time, another male student stepped forward and said with a surprised face, "You're actually Lin Fang, you and Shi Jing used to compare who was the class flower."

Speaking of this matter, everyone suddenly realized, back then, the class flower matter, but there was no shortage of trouble, Lin Fang was not satisfied with Shi Jing becoming the class flower, but also engaged in a selection activity in the class, and even spent money to gather a lot of students, the scene, there would be many people who had received her benefits.

But of course, Lin Fang was only performing to be recognized as the class flower, after all, she had a certain gap between her posture and Shi Jing, so in the hearts of her classmates, they still thought that Shi Jing was the prettiest.

But now, Lin Fang's mature taste was completely comparable to Shi Jing.

What's more, Lin Fang was dressed more externally, which allowed the men to get the message that she seemed to be easier to handle compared to Shi Jing.

"So it's Lin Fang, forgive me for forgetting about you, the class flower."

"Lin Fang, I didn't expect that after so many years of not seeing you, you're getting prettier and prettier, you really are the class flower."

"Quietly this body, how well maintained, who else in our class can compare to you."

A group of visual animals immediately licked towards Lin Fang, just like a wolf pack whose muscles had been there for a long time seeing a piece of fresh meat.

Shi Jing smiled helplessly, for the class flower competition back then, she didn't take it to heart at all, even in Shi Jing's eyes, class flower was just a name without a name, it didn't have any value at all, so she never went for it either, it was just Lin Fang's unilateral view that it was a competition.

In the face of the male classmates' verbal boasts, the very enjoyable Lin Fang walked up to Shi Jing and took a voluptuous step, which could not fail to make those male classmates' heartbeats quicken.

"Shi Jing, it's been decades, we haven't seen each other since we graduated ah." Lin Fang said faintly.

"Yeah, like most of your classmates, you've gone abroad, so it looks like you should have developed quite well." Shi Jing said.

Lin Fang smiled proudly, the word very good could not sum up her development, nowadays, Lin Fang was already a debutante in a certain high society abroad, and it was quite the famous kind, and the number of big people she knew was countless.

"I'm so good, of course I'm developing well, there's no one I don't know in the top twenty of the world's wealth list." Lin Fang said.

As soon as this was said, many students were stunned, the top twenty of the world wealth list, she actually knew them all, this couldn't be bragging!

Lin Fang enjoyed the surprise of the crowd and the envious looks she got from them, that was why she returned to China for the reunion, of course, the most important thing was that she wanted to prove that she was better than Shi Jing.

Back then, she had been very unhappy with the class flower selection and wanted to find a chance to take it out on herself, and today was the perfect time to do so!

"I know your family is in trouble right now, do you want me to help?" Lin Fang continued to speak to Shi Jing.

The Han family crisis was irrelevant to Shi Jing, and Han Three Thousand's current development was a top-notch existence in Yanjing, although it was not as exaggerated as Lin Fang knowing the top twenty of the world's wealth list, Shi Jing believed that with Han Three Thousand's current age, his future achievements could definitely have even greater breakthroughs.

"It's just a small matter at my home, I don't need your help." Shi Jing said.

"A small matter?" Lin Fang laughed contemptuously and said, "I heard that the Han family is going bankrupt, can this still be a small matter?"

Lin Fang's tone was full of ridicule, and Shi Jing also felt that she deliberately wanted to target herself, but holding the principle that more is better than less, she didn't do anger.

"Even if I go bankrupt, that's my own business, so don't bother." Shi Jing said.

How could Lin Fang let go of Shi Jing so easily, after all, this was an opportunity that had been hard to wait for, and continued, "So, a woman must be strong on her own, what with marrying into the gentry, that's just climbing up to the rich and powerful, if you don't have some real skills, in case the dream of the gentry is shattered, it can become useless."

These words were plainly saying that Shi Jing was useless.

But for these two's rivalry, no one else came out to regulate it.

For one, those girls didn't dare, after all, one was the daughter-in-law of the Han family, and the other claimed to know someone in the top twenty of the world's wealth list, where were they qualified to stir things up.

As for those men, they were even more reluctant to get involved because this was an opportunity for them to play healer to comfort Shi Jing if she was hurt in this matter.

Although Han Giang was sitting in a far corner, he had heard the conversation between Shi Jing and Lin Fang clearly, and although he didn't know what the relationship between these two was, Lin Fang was full of targeted looks and clearly saw Shi Jing as a thorn in his side.

"Mom, since you brought me here, I won't let you down." Talking to herself, Han Qianqian pulled out her phone and dialed Nangong Boling's number.

Nangong Boling had purposely met up with Han Giang before he left Yanjing, and they exchanged contact information so that when Han Giang was going to the Nangong family, he would be able to contact Nangong Boling at the first opportunity.

The other side of the world.

The phone rang, and when Nangong Boling saw that it was Han Three Thousand calling, he looked a little surprised, after all, it wasn't that long since he had left Yanjing, had Han Three Thousand figured out so quickly that he wanted to come to the Nangong family?

"Nangong Boling, how many of the top twenty in the world wealth list are yours?" After the call was connected, Han Qianli asked directly.

Nangong Boling didn't know what Han Three Thousand wanted, but out of fear of him, he had no intention of hiding it and said, "Seven out of ten."

Han Three Thousand Thousand smiled, if this was heard by an outsider, they would be shocked, but to Nangong Boling, it was a rare and ordinary thing, after all, he was the one behind the world's economy, and many of those so-called tycoons were just his puppets.

Chapter 1235

"Help me ask them if they know a woman named Lin Fang, and if they do, tell her to keep a low profile and don't force me to do anything." Han Giangli said.

Nangong Boling was in a fog, it was just a woman, how could Han Qianli be so serious, but no matter what happened, since Han Qianli had such a request, Nangong Boling naturally had to meet it, after all, it was just a small matter.

And this woman was related to his puppet, if he didn't deal with it properly, it wouldn't be good for him if Han 3000 put the blame on him.

"Okay, I'll do it right away." Nangong Boling said.

Hanging up the phone, Han 3000 continued to close his eyes in the corner, he really didn't have the heart to get involved in these petty matters of classmate rivalry, after all, he had seen too much and was already feeling bored.

On the other hand, Lin Fang was still displaying her superiority in front of Shi Jing, she seemed to hate to step on Shi Jing and ruthlessly ravage her before she could relieve her anger.

"Shi Jing, this is your chance, you have to grasp it well, after marrying into the Han family for so many years, with your ability, you haven't done much for the Han family, right, now you can help them, don't you want to?" Lin Fang said.

"What do you mean?" Shi Jing asked in puzzlement.

"As long as you're willing to beg me, I'll help you, how's that?" Lin Fang said with a smile.

It dawned on Shi Jing that Lin Fang had said so much to make her bow down to her.

But for Shi Jing, what did the Han family's situation have to do with her? But now she had been kicked out of the Han family by Nangong Qianqiu.

And although she didn't care about the class flower competition back then, it didn't mean she was willing to bow down to Lin Fang for no reason.

"You're overthinking it, I won't beg you." Shi Jing said in a cold voice.

Lin Fang's face changed and her tone was icy as she said, "Do you believe that one word from me will immediately finish the Han family."

"Fine, I'm not in the Han family anymore anyway, what happens to the Han family has nothing to do with me." Shi Jing indifferently shrugged her shoulders.

Lin Fang hadn't expected such a reaction from Shi Jing, in her opinion, this level of threat from herself should have scared Shi Jing to death, how could she not care in the slightest?

Could it be that Shi Jing has been divorced and that's why she doesn't care about the Han family?

Thinking of this, Lin Fang had a smug smile on her face again and said, "Shi Jing, you're not getting a divorce and being dumped by the man, are you?"

It was an extremely humiliating thing to be abandoned, and if that was the case, Lin Fang didn't mind throwing salt on Shi Jing's wounds.

But this was bound to disappoint Lin Fang, although Shi Jing had been kicked out of the Han family by Nangong Qianqiu, her conjugal relationship with Han Cheng hadn't changed.

"I'm disappointed for you, I haven't divorced yet and I won't divorce in the future." Shi Jing said.

"Che." Lin Fang laughed disdainfully and said, "If you haven't divorced, how can you not care about the Han family's situation, or is it that you're afraid to admit it in front of your classmates because you're afraid of losing face?"

"Something out of nothing, why should I admit it, Lin Fang, the battle for the class flower in person was a student's uproar, it has nothing to do with me, and you also got the name of class flower through bribery, after so many years, you won't still mind this matter, right?" Shi Jing gradually lost her patience, her repeated concessions didn't get her a sea view, but rather Lin Fang's gain, so she didn't mind tearing her face off with Lin Fang.

The bribery was a disgrace to Lin Fang, and it was obviously dishonorable to get the name of class flower by this means.

Although many students knew about this matter, no one had ever brought this matter to the stage to mention it.

When Shi Jing said this, it was clearly a slap in her face, which made Lin Fang instantly get antsy.

"I think you're the one making a mountain out of a molehill, the name of Class Flower lives up to its name, when did I bribe someone?" Lin Fang said in a stern voice.

When Shi Jing was strong, it was not weak, and having followed Nangong Qianqiu for so many years, she had more or less learned some strong aura.

Having reached this point, Shi Jing wasn't going to give Lin Fang any face, pointing at those students and asking, "How many of you have received benefits from Lin Fang, you should know yourselves, this is a fact that everyone knows, do you still need me to name them one by one?"

Lin Fang was so furious that she subconsciously raised her hand and wanted to hit Shi Jing.

Shi Jing is not a soft persimmon to be pinched by anyone, directly grabbed Lin Fang's wrist that raised her hand and said: "Want to hit someone? Is that why you're furious when the dirty deeds you've done are revealed?"

Seeing that things were about to get out of control, Liu Wei, who was the squad leader, finally stepped forward at this time, walked between the two and said, "How long ago was this, when it was still young and we were all ignorant, do we still have to fuss over this little thing now that we are adults?"

"I've never taken this matter to heart, but certain small-minded people are clearly still counting on it." Shi Jing said indifferently.

Small-bellied!

These four words were undoubtedly a secondary injury to Lin Fang, making her even more hysterical.

"Shi Jing, I'm going to make you regret for what you said today." Lin Fang gritted her teeth and said.

Shi Jing still had a carefree attitude and said, "Aren't you just able to bring down the Han family, I'll wait to see what you do."

A strong person had no weaknesses, and even less worthy of being threatened.

The attitude that Shi Jing was displaying now was that of a strong person, and because she was fearless, Lin Fang couldn't do anything with her at all.

Han Qianqian on the side heard these words but couldn't help but laugh out loud because his one phone call had made Lin Fang become nothing, how could those so-called tycoons, who now only wanted to quickly get rid of her, help her deal with the Han family?

But that alone didn't seem to earn Shi Jing any more face, so Han Giang pulled out his phone again and dialed Qin Lin's number.

Previously, Qin Lin had talked about making his acquaintance with the owner of Dragon Lake Villa and asking him to help change a banquet hall, so this was no small matter.

"Qin Lin, help me arrange for the banquet hall, I want to keep a low profile, but some people are forcing me to be high profile ah." Han Qianli said indifferently.

Qin Lin on the other end of the phone cheerfully said, "Don't worry boss, I'll call him right away and ask him to arrange it, he'll probably be flattered if he knows you're at Dragon Lake Villa."

Han 3000 had no actual status or power right now, but his reputation in Yanjing was too strong, and although the owner of Long Lake Villa had some backstage connections, he would never let go of an opportunity to please Han 3000.

In less than ten minutes, a group of staff members from Long Hu Mountain Villa arrived at the Mountain Court in groups!

Chapter 1236

The arrival of the outsiders made Shi Jing and Lin Fang's war of words subside a bit.

Liu Wei, as the initiator of this reunion, naturally had to deal with this situation, but in his head he still felt strange, these staff members, how could they suddenly appear, and there were so many of them.

Before the many staff members, there was a middle-aged man with a completely different aura standing in front of them, dressed in a suit, he didn't look like an ordinary person.

"You are" asked Liu Wei carefully, he could show off in front of his classmates, but would never be defiant in front of others, after all, he had money that was also abroad, as the saying goes, strong dragons don't crush snakes in the ground, he still understands this truth.

And in a first-tier city like Yanjing, any one of them could be richer than Liu Wei, so he wouldn't dare to be disrespectful even more.

"May I ask if General Manager Han is here? I'm the owner of Long Lake Villa, my name is Zeng Xiao." Zeng Xiao introduced himself.

The owner of the Dragon Lake Mountain Resort!

Other than Liu Wei drawing a breath of cold air, the others also stared at it.

Long Lake Villa could have the status of a first-tier mountain village in Yanjing, which must be inextricably linked to its owner, how could an ordinary person, how could they have made it this far?

So this boss, must have a huge chain of relationships.

But why did he suddenly appear?

I'm afraid his status in Yanjing was higher than any other person present.

"So it's Mr. Zeng, what is it you want?" Liu Wei's attitude seemed more cautious, afraid of offending the big man in front of him.

"I've already prepared the Long Hu Pavilion for you, I don't know if General Manager Han is here, if he arrives, I'll lead you over now." Zeng Xiao said.

Dragon Lake Pavilion!

These three words once again made Liu Wei's scalp numb, when choosing the meeting place, Liu Wei had a very careful understanding of the Dragon Lake Manor, he knew that every banquet hall in the Dragon Lake Manor required a different identity to be reserved.

The most entry-level banquet hall such as the Mountain Water Pavilion was for the general public.

The Dragon Lake Pavilion, on the other hand, was the highest level banquet hall in the entire Dragon Lake Manor, and had to be a truly top person to be able to book it.

This made Liu Wei wonder, who exactly is this General Manager Han that he was talking about, that he was able to get such a high treatment, and that Zeng Xiao was personally present.

Could it be that there was still a big figure from Crouching Tiger Hidden Dragon among this crowd of students?

Liu Wei unconsciously turned to look at the group of old classmates, but according to his memory, there was no one surnamed Han among them, could it be that Zeng Xiao was mistaken?

"Tseng, are you sure it's us? This Mr. Han you're talking about, we don't seem to have one here ah." Liu Wei said.

"It's me." At this moment, Han Qianqian, who was in the corner, finally spoke up.

Shi Jing couldn't help but smile, from the moment Zeng Xiao showed up, she had guessed that Han Three Thousand was the one who had set this up, and the fact that Han Three Thousand spoke at this time made this matter even more certain.

Shi Jing knew that Han Qianqian had done this on purpose, presumably to earn some face for her, and although Shi Jing didn't care too much about this kind of face-saving project, it was good to be able to vent her anger in front of Lin Fang.

Han Three Thousand walked up to Shi Jing and said, "Mom, this shabby place isn't worthy of your identity, so I purposely asked Zeng Xiao to arrange the Long Hu Pavilion, you won't blame me, right?"

Shi Jing forced a smile at Han Qianqian's pretentious question and said, "How could I blame you, but the Dragon Lake Pavilion, wouldn't it be too high-profile."

Han Giang was happy in his heart, he didn't expect her to cooperate with him in acting, in that case, let the play be more complete.

"How could it be high-profile, in my opinion, it's not even worthy of your identity." Han 3,000 said.

Zeng Xiao walked up to Han Qianqian at the right time and said in an extremely respectful manner, "Mr. Han, I'm really sorry, I didn't know you were here in a big way, I was slacking, and I hope you can forgive me."

"Let's go, let me go see what the highest level banquet hall you have here is like," Han Marchant said.

"Yes, Mr. Han, please follow me." After Zeng Xiao said that, he led the way.

And those students, after flabbergasting, also hurried to catch up.

"Long Hu Pavilion, I didn't think I'd ever have the chance to eat at Long Hu Pavilion in my life."

"So what if it's the Dragon Lake Pavilion, is it great?"

"Yeah, aren't they all banquet halls for eating, is there any difference."

"Hey, you guys live in a foreign country, naturally you don't understand the grading of the banquet hall of Long Lake Villa, let me tell you this, as far as I know, in the more than ten years that Long Lake Villa has been open, the number of times that Long Lake Pavilion has opened its hall, less than ten times, and every time, it was a big person that you can't imagine, this place, known as a symbol of status, ordinary people don't even have the chance to take a look at it. " As a local student, he explained the position of Long Hu Pavilion in the Long Hu Villa for those who had returned from abroad.

"Shi Jing's son, is he that powerful?"

"Yeah, just a little kid, how could he have so much power."

"Is he fierce or not, don't you guys have eyes? Even the owner of Long Lake Villa has personally appeared, is this still fake?"

"Yea, ordinary people don't have the qualifications to be alarmed to the point where the boss himself comes out ah."

Hearing these words, Lin Fang's heart was very unpleasant, she came to the reunion today to take revenge for that year, but she didn't expect Shi Jing's son to make a fool of himself.

Sneaking up to Liu Wei, what the others said, Lin Fang didn't want to believe, so she could only learn about this matter from Liu Wei.

"Liu Wei, Long Hu Pavilion, is it as powerful as they say it is?" Lin Fang asked in a low voice.

Liu Wei's eyes kept staring at Han Qianqian, as he was really curious about what kind of status Han Qianqian had that he could disturb Zeng Xiao.

As for whether or not the Dragon Lake Pavilion was so powerful, Liu Wei nodded very directly, after all, he had done a deliberate understanding and investigation of the Dragon Lake Villa, so he naturally knew what kind of people the Dragon Lake Pavilion had been open to.

It could be said that those who had been able to eat at the Dragon Lake Pavilion were all top big shots.

"Indeed, as far as I know, the people that Long Lake Pavilion has hosted are of extraordinary status, and not at a level that we can touch." Liu Wei said.

Lin Fang disdainfully skimmed her mouth, she was by all accounts a debutante who traveled in the rich and famous list, what kind of people with extraordinary status hadn't been seen.

And her purpose of coming to the reunion today was to humiliate Shi Jing, so how could she be willing to admit that Shi Jing's son was powerful?

"Is it possible to be in an extraordinary position and be more powerful than anyone I know?" Lin Fang was disdainful.

"It's on different levels, you know, the rich, and Long Hu Ting, the powerful, Lin Fang, I have a strange feeling, her son, I'm afraid, is more powerful than all of us think." Liu Wei said.

Chapter 1237

Liu Wei's well-intentioned reminder wasn't taken to heart by Lin Fang because her sense of superiority was too strong, a mere Long Hu Pavilion was nothing in her eyes.

After all, Lin Fang was a debutante who went in and out of major high class banquets abroad, the people she knew were all world famous, under such horizons, it was hard for anyone to be placed in her eyes, not to mention the other party was her long-held enemy, how could she change her mind about Shi Jing because of this small change?

"Liu Wei, do you know why you think that?" Lin Fang asked to Liu Wei.

Liu Wei looked at Lin Fang with a puzzled look on his face, not understanding what she meant by these words.

"How do you mean?" Liu Wei was confused.

Lin Fang laughed contemptuously and said, "This means that you are not strong enough, that's why you put such a small thing in your eyes."

Feeling Lin Fang's disdainful tone, Liu Wei smiled helplessly, to say that he was rich, he was already considered a successful person, but to say that he was powerful, there were indeed some gaps, but that didn't mean that Liu Wei was ignorant, what kind of place was Yanjing, it was the capital of power, and

the number of times that the Dragon Lake Pavilion was open already showed that this place wasn't simple.

Shi Jing's son was able to be personally received by the boss and also opened the Dragon Lake Pavilion, could it really be that simple?

"I hope you don't do anything that you'll regret," Liu Wei said.

Lin Fang didn't even know how to laugh, such a shitty place, what else could she regret?

Following Zeng Xiao, the crowd finally arrived at the Dragon Lake Pavilion, the environment as well as the layout of the facilities here was completely different in style from the Mountain and Water Pavilion, and it gave people an extremely high class feeling, just standing here, one would inevitably have the illusion that they had become a high end person as well.

"This place is really an untold number of grades better than Shan Shui Ting."

"I didn't expect that in my life, I would actually have the chance to eat at Long Hu Pavilion, what an honor it must be."

"Shi Jing, it's still you who's awesome, if it wasn't for you, we wouldn't have the chance to follow suit."

"Yes, yes, yes, it's still Shi Jing who's awesome, this kind of place is not open to just anyone."

A certain portion of the students began to flatter Shi Jing, and these words would undoubtedly seem particularly harsh to Lin Fang's ears.

"This is even good, I see you guys ah, you really have no insight, what's so good about it, a bunch of rotten wooden products, even if it was given to me, I'd think it's out of style." Lin Fang said in a gloomy manner.

Zeng Xiao, as the owner of Long Lake Villa, heard these words and immediately revealed his displeasure.

Rotten wood products, any object here was the work of a master craftsman, and it was qualified to be auctioned.

"In the eyes of the common people, there is only gold, probably for you, gold and blue is the only thing that is in style." Zeng Xiao retorted with a light tone.

Lin Fang laughed coldly and said, "Boss Zeng, I didn't think that in your eyes, I'm just a commoner who likes gold, you're really a dog's eye, the people I'm in contact with, that's all the top foreigners, they're the ones who understand style."

Zeng Xiao smiled faintly and said, "I see, the moon is rounder abroad, is that what you mean?"

"That." Lin Fang said unabashedly.

Zeng Xiao no longer spoke, to him, one more word with a woman like Lin Fang would be lowering his taste.

Walking up to Han Qianqian, Zeng Xiao said, "Mr. Han, I've asked the kitchen to prepare a feast of the highest standard, please wait a moment."

"Fine, there's still a good show waiting to happen, and I'm in no hurry to eat." Han Qianqian said something that puzzled the crowd.

There was still a good show to be put on?

What kind of drama would that have to be.

With a curious face, Shi Jing walked over to Han Giang and asked softly, "Son, what else is there to play, tell mom."

"I'll let you know later, but telling you now wouldn't it even be a surprise," Han Qianqiang said.

Shi Jing quickly shook her head and said, "I don't want any surprises, you have to let me be a little prepared."

"No, just don't say it." Han Qianqian said with a strong attitude.

Shi Jing gave up after a hateful glance at Han Three Thousand, really having no choice but to take Han Three Thousand.

At this time, the news of Han Qianli's presence in the Dragon Lake Villa had already spread throughout the entire Dragon Lake Villa, and all the bosses who were meeting here were inevitably a little excited after receiving this news, after all, this was the best opportunity for them to meet up with Han Qianli, and once they were able to reach a cooperation with Feng Qian through Han Qianli, it was an incomparably glorious thing.

But before Feng Qian also let slip the words, wanting to get cooperation directly through harassment of Han Qian, this is absolutely impossible, that is to say Han Qian's attitude in this regard is very firm, will not allow anyone to harass him, which makes those bosses a little fear, the opportunity in front of them, but do not dare to act easily.

As the saying goes, there are always people who are willing to take a risk to try, after all, the opportunity is here, and to see it missed is still unacceptable to a certain group of people.

And so, in less than a short while, the first group of people arrived at Long Hu Pavilion.

Their attitudes were very humble and humble, not daring to make the slightest faux pas in front of Han Qianli, and their tone of voice and attitudes almost all placed themselves in the lowest position, some even bending over in a gesture towards Han Qianli.

With the first group of people, there would naturally be a second group of people, after all, no one was willing to fall behind and be taken advantage of by others, and the news that Feng Qian had once released was suddenly thrown away by all of these people.

It seemed that everyone chose intermittent oblivion, just to be able to see Han Marchant one side, and to be able to hand over their business cards, to be remembered by Han Marchant that was the best.

Wave after wave of people came and went, making Shi Jing's old classmates, one by one, dumbfounded, they didn't even have the desire to chat with each other, so they watched with great interest as Han Qianqian received those bosses.

The domestic students were more or less able to understand this situation, after all, being locals, they had also heard a lot about Han Marchant, and perhaps they weren't too clear about the inner workings of things, but they also had an understanding of Han Marchant's influence.

As for those foreign students, they were completely befuddled, they couldn't understand why a little kid could be respected by so many bosses, and these bosses acted like they were inferiors in front of him, pleasing and flattering words, they could really say anything.

"Shi Jing's son, is he really that powerful?"

"At such a young age, what kind of achievement does that have to be to be taken seriously by so many bosses?"

Chapter 1238

The crowd marveled and wondered what kind of person Han Qianqian was that could cause such a stir, while also being greatly impressed with Shi Jing.

But Lin Fang was an exception, the more people thought Han Qianqian was powerful, the more disdain she felt.

A mere child, how could he possess such great power, so in her opinion, these people were simply Shi Jing's deliberately invited to put on an act, just to make others think that she was powerful, right?

But this acting was a bit too fake, if her son was an adult, getting this kind of treatment would be understandable, but Han Qianqian was just a little kid, how could this be convincing?

"You guys can't be blind even if you're blind, can you really believe this is true?" Lin Fang said with extreme disdain.

"Lin Fang, these bosses are here in person, isn't that true enough?" Everyone knew about the grudge between Lin Fang and Shi Jing, but Shi Jing didn't care at all, and they were also clear that it was completely Lin Fang who was unilaterally provoking trouble.

So when Lin Fang said those words, someone immediately refuted them.

Hearing could be false, but the facts were now in front of them, how could there be falsehood?

"Boss? You guys know they must be the bosses, maybe taking off those cheap imitation name brands is just odd jobs, in my opinion, these people are simply Shi Jing deliberately hired to act." Lin Fang explained.

This statement, though, was not impossible, and for a moment it made many people doubt the truth of this matter.

Indeed, Han Qianqian was just a child, how could he have reached such heights and how could he have so many bosses come to see him personally?

But at the same time, some people would think that Han Qianqian had asked Zeng Xiao to personally receive him, this matter was not false, and the status of a boss like Zeng Xiao must be very high in Yanjing, so it was actually understandable that other people would show up.

Just as the crowd was divided in their speculations, Lin Fang's phone suddenly rang.

When Lin Fang saw the caller ID, a proud smile immediately appeared on her face and she even raised her phone at her classmates, purposely letting them see the name of the person on the caller ID.

"You should have heard of this person's name before, he should be ranked seventeen on the world wealth list right now." After saying this, Lin Fang immediately pressed the answer button.

Although she could show off in front of her classmates, she didn't dare to delay for too long for an incoming call from such a big person, in case the other party hung up, she would most likely never be able to contact them.

But after the call was connected, Lin Fang's expression instantly changed.

The other party only had two sentences, not acknowledging the relationship with her and reminding her to be low-key.

This situation made Lin Fang a little confused, she thought she hadn't done anything, so why would the other party suddenly say that?

As soon as the phone hung up, it rang again immediately afterwards, and it was another person ranked on the wealth list.

This time, Lin Fang didn't show off anymore, as she had a bad feeling about it.

As expected, the other party still said the same thing, and then just hung up the phone.

Lin Fang was completely dumbfounded, and even she couldn't figure out why this had happened.

But it was comforting to know that Lin Fang knew more than just these two big names, and cutting ties with them wouldn't affect Lin Fang's status in the major high society places abroad.

The nightmare, however, was only just beginning.

The phone rang one after another, and almost everyone said exactly the same thing, without omitting a single extra word.

The unknown Lin Fang was a little weak in the knees, she felt that the upper class society she had so easily squeezed into seemed to be slowly moving away from her, and there was no reason or sign at all.

Why was this!

Why is that!

Lin Fang's heart was overflowing with huge questions, she had just returned to China, how could this happen.

At that moment, Liu Wei who noticed that Lin Fang's face was not right walked up to her.

"What's wrong?" Liu Wei asked.

Lin Fang's mind had exploded, she had used every means in sight to squeeze into the foreign circle, and now, everything was ruined, and ruined inexplicably.

"Are you all right, if there's anything wrong, tell me and see if I can help you figure it out." After receiving more than ten calls, this was definitely a big problem, so Liu Wei felt that he had the opportunity to take advantage of the weakness.

After all, Shi Jing had become distant to him now, but if he could get his hands on Lin Fang, it would be a good choice.

"The people I know who are on the rich list called me one by one, saying that they cut ties with me and told me to keep a low profile, and I don't even know why." Lin Fang said to Liu Wei, she really needed someone to help her now, to help her figure out what the problem was and why those people would call her at the same time.

Liu Wei took a breath of cold air.

The people that Lin Fang knew were all at the top of the world, they must have been instructed by someone to call at the same time, and the person who could instruct them to do something, what kind of status must that be.

Liu Wei's first thought was to back off, it was obvious that Lin Fang's trouble was not something he was qualified to solve, if he accidentally got involved, a small person like him couldn't afford the consequences.

"This, I'm afraid I can't help you." After saying that, Liu Wei intended to slip away, keeping his distance from Lin Fang was the only way to make him feel safe.

But Lin Fang held Liu Wei's hand, she was now treating Liu Wei as a lifeline, so how could she let him leave easily.

"Don't leave, as long as you can help me figure out this problem, I'll agree to anything." Finding the problem was the only way to solve it, and although it had already happened, in Lin Fang's opinion, as long as she remedied it in time, the matter could still have a chance to turn around.

"Recently, have you offended anyone?" Liu Wei, who was held back by Lin Fang, said helplessly.

Lin Fang shook her head at the first time, don't look at her just now very arrogant, but doing things abroad, she was very low-key, because Lin Fang had a clear perception, she knew who she was and what status she possessed, once she was too high-profile to find trouble for herself, all her efforts would be in vain, so she was very careful and cautious, she would never be able to offend some big person for no reason.

"In my opinion, you must have offended someone of a higher status than those people to cause them to call you at the same time, you should be able to understand that you can order these people, that is definitely not a simple person." Liu Wei said.

This reasoning Lin Fang naturally understood, and it was because she understood that she found this matter very strange.

Suddenly, Lin Fang turned her eyes towards Han Qianqian!

Chapter 1239

If Lin Fang really wanted to find someone she had recently offended, she couldn't think of anyone other than Shi Jing, and the way Han Giang was acting now, she became the most likely person to do it.

But how was that possible!

Even if everything that was happening in front of him was true.

Even if he really had the status to make so many bosses grovel.

But the ones Lin Fang knew, they were all on the world's rich list, so how could he be qualified to move them?

At the same time, Liu Wei also noticed the way Lin Fang looked at Han Qianqian and trembled, even as cold sweat instantly seeped out of his back.

It was him?

It's him!

No way!

Was Lin Fang's connections something he could command at will?

If that's the case, this kid's energy is too terrifying!

You know those can be big names on the world's rich list, so why would he be able to do that.

"No way," Liu Wei subconsciously got out of his mouth.

"Of course it's impossible." Even if she couldn't find a second possibility, Lin Fang wouldn't believe that it was Han Qianqian who did it.

"With the current state of affairs, he definitely has a lot of influence in Yanjing, but it's impossible for that influence to spread to foreign countries, after all, he's still a child." Liu Wei spat out a mouthful of bad luck, only to feel that he had really thought too much, how could such things be related to him.

Lin Fang nodded, no longer thinking about this matter being related to Han Qianqian, but instead going to remember what she had done before returning to China, whether she had accidentally offended some big shot's wife or daughter, or some lover.

But with Lin Fang's careful and cautious personality, if such a thing had really happened, she would have remembered it, but now there was no memory of it in her head at all.

After almost an hour, Han 3,000 finally dealt with the bosses who came to introduce themselves, and the business cards in their hands were already a thick stack.

After those people left, Han 3,000 didn't throw away the business cards, but put them into his pocket.

"It seems that only those who can seize the opportunity are winners, they're considered to be remembered by you." Shi Jing said with a smile to Han Three Thousand, Han Three Thousand's action of putting the business card away should have been a chance for cooperation in Shi Jing's opinion.

But Han Three Thousand's intention in putting away the business card was never what Shi Jing imagined.

"All the people on the business card will become Feng Qian's blacklist," Han Three Thousand said.

Shi Jing looked startled, she thought that those people had seized the opportunity, but never thought that it would end up like this!

Han Qianli had asked Qin Lin to let the word out that anyone who harassed him wouldn't get the chance to work with Feng Qianli, and that was no joke, since they didn't believe in evil, Han Qianli would naturally have to show them what a promise was all about!

"What a great scene, delaying so many classmates for dinner, Shi Jing, if your son wants to show off, it doesn't have to be at this time." At this time, Lin Fang's discontented voice rang out.

Since Han 3,000 was indeed delaying the meal, Shi Jing revealed an apologetic expression and said to everyone, "I'm really sorry for the delay, I'll tell them to serve the food quickly."

"It's nothing, it's all trivial, we're not hungry yet, there's no rush."

"Yeah, there's no rush, there's plenty of time."

"Shi Jing, your son is so productive, he's really blessed."

Most people weren't dissatisfied with Shi Jing, the delay wasn't long after all, and they didn't want to offend Shi Jing either.

With Han Qianqiang's status performance, if they were able to get closer to Shi Jing, they might be able to get their own son to help out in the future, so how could they go against Shi Jing?

Looking at those classmates' compliments, Lin Fang was furious, she was the one who should be the focus of the show, all those people should be pleasing her, how come it was Shi Jing who had become the focus now.

"Shi Jing, you didn't spend less money by inviting so many people to act." Lin Fang decided to debunk this illusion and she also decided in her heart that these were all fake and were all arranged by Shi Jing on purpose to save face.

After all, now that the Han family was already a tiger on the loose, how could a kid like Han Qianqian be so powerful?

"Lin Fang, I can't invite so many bosses, and who is the owner of Dragon Lake Villa, I advise you to ask around, don't be so insightful." Shi Jing said.

Insignificant?

Lin Fang's lungs were so angry at these four words that they were about to explode, what hadn't she seen in the upper class circles abroad, and Shi Jing actually said that she hadn't seen it.

"Shi Jing, don't you think it's funny to say that yourself, what circle am I from and what are you to say that I haven't seen anything?" Lin Fang retorted full of anger.

Shi Jing was by no means a soft persimmon to be taken advantage of, and although she didn't want to ruin the anger of the reunion, Lin Fang's words had already angered her.

But before Shi Jing spoke, Han Qianqian spoke up, "It seems they reminded you to keep a low profile, but you still didn't get it."

Low-key!

It was a phrase that everyone had mentioned in those phone calls just now.

And when Han Third Year said this, it was as if Lin Fang's heart stopped beating.

She had just thought that this matter could have something to do with Han Three Thousand, but quickly dismissed this absurd idea because she didn't think Han Three Thousand would have so much power.

But now, Han Three Thousand's words clearly indicated that what had just happened was related to him.

This left Lin Fang dumbfounded on the spot!

Really!

It's really him!

He's mobilized over a dozen of the world's wealth lists!

Only Liu Wei in the audience knew what had just happened to Lin Fang, so what Han Giang said was incomprehensible to the others, but the impact on him was unparalleled.

Liu Wei, whose face was pale, subconsciously took a few steps back and put some distance between him and Lin Fang, he didn't want to stand up to Lin Fang at a time like this.

Although Lin Fang was a woman worth playing with, Liu Wei was still able to distinguish clearly who was more important between a woman and his own future.

"Have you forgotten so quickly that you are now worthless, those people you know, who dares to admit your relationship with them?" Han Giangli continued.

This sentence, once again, hit Lin Fang hard, as if his heart had been struck by a hammer.

The fact that he knew so clearly was enough to show that he had done what had just happened, and Lin Fang couldn't find any reason to doubt Han Three Thousand.

"It's you, it's really you!" Lin Fang didn't dare to look at Han Qianqian incredulously, staring at him as if his eyes were about to roll down from their sockets.

The others saw this situation and were in a fog, not understanding what was happening at all.

Even Shi Jing was the same, not understanding why Lin Fang had become like this.

But Shi Jing knew that the good show that Han Qianqian had spoken of earlier had already taken place!

Chapter 1240

A scene that one didn't expect happened.

The aggressive Lin Fang, suddenly ran in front of Han Qianqian and thumped his knees on the ground.

"This"

"What's going on, what's wrong with Linfang!"

"What's going on, why are you suddenly on your knees?"

The students, who were already confused, were even more baffled at this time.

The high and mighty Lin Fang, who had just said that she knew big names on the world's wealth list, flaunted in front of Shi Jing and kept going to belittle her, but now, she was kneeling down to Shi Jing's son.

This extreme change was so unexpected that one could not think of an original reason.

"Liu Wei, what's going on?" A male student quietly approached Liu Wei, before he noticed that Liu Wei and Lin Fang had a conversation, and Liu Wei's face was also quite unpleasant at this time, which meant that he must know some inside information.

Hearing this, Liu Wei subconsciously shook his head, this amazing energy displayed by Han 3000 made him not have the guts to discuss this matter at all, he was worried that Han 3000 would take his anger out on himself, then his lifetime of hard work would most likely turn into a basket of water.

"No, I don't know." Liu Wei said.

"How could you not know, I just saw you clearly talking to Lin Fang, and if you didn't know anything, would you be so scared?" The male student refused to let Liu Wei go and continued to ask questions because he was really curious.

By all accounts, Lin Fang's status wasn't low, not to mention knowing so many big names, the image of suddenly kneeling down was just too bizarre.

"Just don't ask, I don't want to be calamitized." Liu Wei said helplessly.

"Don't worry, if you tell me, I will never tell anyone else, don't you believe my words?" The man said.

Liu Wei looked at the man with disdain, can you believe his words?

During the school year, it was this guy who was the one who had a shabby mouth and was also someone who liked to snitch, a complete troublemaker, if he really told him, I'm afraid it wouldn't take three minutes for all the students to know about it.

"If you want to know, go ask Shi Jing's son yourself." Liu Wei said.

The man raised his mouth in disdain and said, "It's not a big deal, is it interesting to be so secretive?"

Not a big deal?

To Liu Wei's ears, this really made him want to laugh, if it was a big deal, would Lin Fang need to kneel down to Han Qianqian?

And can what happened to Han 3,000 be a big deal?

He had, however, managed to mobilize more than a dozen big names on the world wealth list in a short period of time, and this kind of energy was almost on a level that Liu Wei couldn't imagine, and he still couldn't figure out exactly how Han Qianqian had managed to do this.

At this time, Lin Fang spoke to Han 3,000 and said, "Please, give me another chance, I promise to keep a low profile."

Lin Fang's status as a famous debutante abroad was something she had spent many years of time and effort to get to the top, and she didn't want to just lose it somehow, so while kneeling in front of everyone was a humiliating thing to do, Lin Fang would do anything as long as she could salvage it.

"I've already given you the opportunity, but unfortunately you don't know how to cherish it, so you need to bear the consequences now." Han Giang said indifferently, he was inherently uninterested in destroying this kind of woman, but Lin Fang had repeatedly forced Shi Jing, which made Han Giang intolerable.

And how could he go back on what he had already done?

"I'm sorry, I'm sorry, I didn't know you were so powerful, I apologize to you for what I just did, please give me another chance, I can't lose them, or I'll have nothing." Lin Fang actually cried in a rush, it was enough to see how badly this matter had hit her.

After all, it took half a lifetime of effort to achieve recognition, and now that it was all ruined overnight, Lin Fang even felt that her life had become meaningless.

"Do you think that you really have any value in the minds of those people who would go back on their word for a woman like you?" Han Qianli asked.

This statement directly confused Lin Fang, as she was well aware of the position she played in front of those people, so she would be extra careful when facing them, afraid of accidentally angering them and getting kicked out.

Those people, who could be the world's top rich people, yet they had no shortage of warblers around them, could never take any woman to heart.

Playthings were playthings, they could be discarded at any time.

Lin Fang knew that what had happened couldn't be undone, so she was in a strange state of mind.

If it couldn't be salvaged, why did she kneel down and apologize to Han Qianli?

Lin Fang, who had a gloomy face, stood up and said to Han Qianli, "You're the one who ruined me, I'll never let you go."

Han Qianqian was dumbfounded, was this woman mad because she was driven mad, and she dared to say such words to him?

What right does she have to target Han Gongqiang?

"There's a saying about not shedding tears until you see the coffin, and it suits you well, but I hope you don't use it." Han Giangli reminded.

"My life is ruined, so what if I die!" Lin Fang gritted her teeth and said, the energy and effort of the first half of her life had all gone down the drain, and now she could never go back to that high society, so she had nothing to fear.

"If you think that's enough to scare me, I might as well tell you bluntly that your life is worthless in my eyes, and you'll probably die in a car accident when you walk out of this Dragon Lake Villa." Han Qianli said indifferently.

The conversation between the two of them left the onlookers clueless, but Han Qianli's last words made one's scalp go numb.

Killed in a car accident, Han Third Thousand's so obvious implication seemed to indicate what had happened to Lin Fang.

But did he really dare to do that to someone?

Apart from Liu Wei, many people thought that Han Qianxiang was the one who was really scaring Lin Fang.

But Liu Wei knew better than anyone what kind of weight Han Qianqian's words carried, being able to move people on the wealth list at will, arranging a car accident, was even easier for him to do.

At this moment, Liu Wei made one thing clear in his heart, no matter what happened, he must not offend Han Qianqian and Shi Jing, after the smooth end of today's reunion, he also had to quickly dispel

his thoughts about Shi Jing, otherwise, Lin Fang's nightmare would befall him, he didn't want to make the same mistake as Lin Fang.

After all, Lin Fang had only said some nasty things about Shi Jing, and that had already led to this result, anyone who had ill intentions towards Shi Jing would definitely end up in an even worse situation.
