

## His True Colors Chapter 1361-1370

### Chapter 1361

The next morning, Su Guoyao arrived at the office very early in the morning in order not to miss the meeting, which was closely related to his turnaround, and he didn't dare to slow down.

The others had also received the news that the old man was going to have a meeting, but they were not in a hurry.

When Su Guolin arrived at the meeting room and saw that Su Guoyao had already arrived, he couldn't help but reveal a sarcastic smile on his face.

"Brother, you are active in the meeting, but when it comes to making contributions to the company, you don't have any ability at all." Su Guolin said.

Su Guoyao shook his head, it was commonplace for him to be mocked by his younger brother, but in the past Su Guoyao couldn't find a chance to fight back, after all, his personal ability was limited, and he really hadn't helped the company make any contribution.

"Su Guolin, I'm still your big brother no matter what, do you need to be so aggressive? And soon, my status in the company will change, and I'm afraid you'll have to suck up to me again," Su Guoyao said. Su Guoyao said.

Su Guolin couldn't help but hold his belly and laugh, sticking up for him? Isn't this a big joke?

The entire company knows how useless Su Guoyao is, and even some ordinary staff wouldn't take Su Guoyao seriously, so how could he possibly suck up to him?

"Big Brother, you can't be taking the wrong medicine, or didn't take your medicine today, how could you say such confused words, I, Su Guolin, still need to stammer you, you don't look at what status you

have in the company." Su Guolin shook his head, suspecting that Su Guoyao's brain might have been squeezed by the door, which is why he said such funny things.

"We'll see, you'll know what I've done in the meeting later." Su Guoyao said indifferently.

Su Guolin's eyebrows furrowed, this guy usually doesn't have such confidence, could it be that he has really done something big?

Did he really negotiate the cooperation with Feng Qian?

How is it possible that he did this in just one day?

Although Su Guolin thought that this was an impossible thing, he already had hidden worries inside, because if Su Guoyao really did it, his status in the company would immediately become higher, which would definitely threaten Su Guolin.

No, even if he made a deal to cooperate, he still had to find a way to steal the credit, so that he couldn't have a position in the company.

As the Su family personally came to the conference room one after another, after the people arrived, the old man appeared slowly, always holding a teapot in his hand.

It's been an indispensable part of the old man's daily routine to drink tea, and a day without it would be uncomfortable.

"It's not a big deal to have a meeting this early today, Dad?" Su Guolin couldn't wait to ask the old man.

After taking a glance at Su Guoyao, the old man said, "There is indeed something important, and I'm afraid it will affect the company's future fate."

When the old man looked at Su Guoyao, Su Guolin's eyelids began to jump. Although he had doubted that Su Guoyao had really made a deal, he was reluctant to believe it.

And now, looking at the old man's attitude, Su Guoyao seemed to have really done it!

Su Guolin secretly gritted his teeth, after bullying Su Guoyao for so many years, he wouldn't allow Su Guoyao to turn over a new leaf, he had to kill his chances of turning over a new leaf.

"Dad, what's the big deal?"

"Uncle, it can't be that the cooperation with Feng Qian has come true."

"No way, he really did it?"

Everyone in the conference room had an incredulous expression, because in their hearts, Su Guoyao was a waste of space.

"The partnership is not currently negotiated," The old man said.

As soon as the words came out, Su Guolin instantly breathed a sigh of relief, while the others, also reasoned out a reasonable expression, this is Su Guoyao's own strength well, not a deal is the right thing to do, if a deal is done, that would be strange.

"But the cooperation is not completed, but Guo Yao brought back a very important news, and this news, which is currently unknown to other companies, is very favorable to us." The old man said.

This sentence again made Su Guolin's dropped heart hang.

"Dad, what news is so important?" Su Guolin asked.

"The direction of Feng Qian's development and plans." The old man said.

Su Guolin's forehead directly wrinkled a Sichuan character, the direction of Feng Qian's development and plans, that should be a very internal matter, how could Su Guoyao know about it?

And so far, Fengqian has only been listed, and no one has even met Fengqian's owner or even the staff.

"Dad, you can't be fooled by some people, Feng Qian hasn't officially moved in yet, how could he know these things?" Su Guolin said with a suspicious glance at Su Guoyao.

This problem, the old man had already suspected Su Guoyao last night, and now, he did not choose to believe all of it, just to plan ahead.

"Regardless of whether it's true or not, since we know about it, we should make some preparations for this matter, even if it's false, it's no loss to us, but if it's true, the benefits are too great." The old man said.

It was understandable for the old man to think this way, so Su Guolin didn't say anything to refute it, but asked, "What is Feng Qian's plan, exactly?"

The old man looked at Su Guoyao, since he was the one who found out this information, he should naturally be the one to tell the others, after all, it was his contribution.

Su Guoyao had the right to speak alone in the meeting for the first time, which allowed him to finally find a sense of presence, and he knew that this was just the first step in changing his status, and that his weight in the meeting room would become heavier and heavier in the future.

Su Guoyao cleared his throat, and then said everything he knew.

When the people heard that Fengqian will develop the western part of the city as a new city, they all revealed their skepticism.

And the introduction of the world's famous brands into the city can't be called unattainable, but a joke.

"Brother, where did you hear such unreliable gossip, the key thing is, you actually believe it, although Feng Qian can let Mo Yang work, but this is limited to Yun City, you should not think that his influence, can affect the whole world." Su Guolin said with a face of disdain, Yuncheng and the international comparison, that is just a grain of dust, the two are not comparable.

## **Chapter 1362**

For Su Guolin's words, Su Guoyao directly chose to ignore, because he sang against himself, this is a very normal thing, Su Guoyao does not need to care about his attitude.

"I know you think this is an incredible thing, but soon, the regional director of those brands will come to Yuncheng for a site visit, and whether this is true or not will be revealed. Su Guoyao said.

After all, Su Guoyao said that he was very confident, and he also said that there would be regional directors to visit the city, so this matter cannot be faked.

"If that's the case, the construction of the new city, for the use of building materials, but the amount is very large, if we can find the opportunity to cooperate, the future of the Su family, there is no limit.".

"Yes, if we can contribute to the new city, the Su family's status in Yuncheng will definitely rise sharply."

"The Su family's opportunity has finally come, we will become a first-tier family in the future!"

The crowd was already excited, as if they had seen the dawn of the future.

But there was only one person who could not be happy, and that was Su Guolin.

Because the credit for this was Su Guoyao's, and he didn't want to see this happen.

In Su Guolin's mind, he would never want Su Guoyao to turn over a new leaf.

"Dad, since there is a high possibility of this matter, please leave the cooperation to me, I am more capable than big brother and more sure of doing it." Su Guolin said, he wants to seize the first opportunity and take the task of talking about cooperation over his head, only in this way can he curb Su Guoyao's chance to turn over a new leaf.

"Su Guolin, have you forgotten that I've been in charge of this matter since yesterday?" Su Guoyao's cold voice.

Su Guolin looked straight at the old man, not caring at all what Su Guoyao said, and continued: "Dad, you should be very clear about the abilities of my elder brother and I. If we leave such an important matter to him, if we mess it up, we will lose our chance, but if I were to do it, I am 80 percent sure that I can do it."

The old man was also torn inside, he could tell which of his two sons was more capable, Su Guolin was indeed better than Su Guoyao, and it was indeed more feasible to leave this matter to him.

But the news was brought back by Su Guoyao, and in yesterday's meeting, no one dared to take over this task, at this time Su Guolin clearly wanted to steal Su Guoyao's credit.

"Dad, if I can bring back this news, I'll be able to negotiate a cooperation, he's more capable, so why can't I find out about it?" Su Guoyao said with a calm face, he has an advantage in this matter, one is that he took up this matter yesterday, and the second is that he brought back this first-hand news, at least can prove that he has done a certain degree, which is incomparable to Su Guolin.

So Su Guolin was anxious, but Su Guoyao, on the other hand, was very calm.

The old man nodded his head, feeling that Su Guoyao's words made sense, after all, he could bring back such an important piece of information, which meant that he must have gotten through to Fengqian certain internal relationships, which the current Su Guolin couldn't compare.

"Dad, I just didn't do it, doesn't mean I can't do it, what he can do, I can do the same, isn't it just a message, as long as you let me do it, I can bring you back more news." Su Guolin was a little anxious, even the speed of his speech became very fast.

"You can do it?" Su Guoyao looked provocatively at Su Guolin and said, "Now Feng Qian Company doesn't even have a single ghost shadow, how can you do it, can you know someone inside?"

"If you can know them, why can't I?" Su Guolin gritted his teeth and said.

"I know, but Boss Feng Qian's friend, this person, you never know who, and I already have favorable conditions now, why should I let you waste your time." Su Guoyao said.

"Then give me your favorable conditions and let me do it." Su Guolin said.

Su Guoyao didn't think that such impudent words could be said by Su Guolin, it really ruined his three views.

"Su Guolin, do you still want face?" Su Guoyao snapped coldly.

Su Guolin didn't care about his face, he only knew that if this matter was made by Su Guoyao, his status would be far less than Su Guoyao's, and he would never have a chance to turn over a new leaf in the future.

After all, the cooperation with Feng Qian will be the biggest change that the whole Su family faces, and there is nothing that can be compared to it in the future.

"I just want to give the company a more stable factor, I don't want to let such a good opportunity go to waste in the hands of a waste like you." Su Guolin said angrily.

Although many people regarded Su Guoyao as a punk, no one would ever say such words in front of the old man, and Su Guolin only spoke out on impulse.

At this time, others inevitably felt that Su Guolin was a bit too much.

"Pah."

The old man smashed a heavy punch on the conference table, and the entire conference room was instantly silent.

"Are you guys done arguing?" The old man said with a gloomy face and a cold voice.

Su Guolin was all smart, and realized that he had said something wrong, but it was too late to regret it.

Su Guoyao lowered his head and said, "Dad, please believe me, this time, I will be able to prove my ability, and will never let you down, and my connections are by no means comparable to Su Guolin."

"This matter is yours to handle." The old man said.

This wasn't a surprise to Su Guoyao, because it was the right thing to do.

But Su Guolin couldn't control his impulses and said to the old man, "Dad, are you going to let this opportunity go by in vain? The future of the Su family can be on this matter, how can you give it to him."

The old master was also angry, Su Guolin was so unforgiving, even if he really had the ability, the old master was unwilling to use it.

Family rivalry can be there, but it has to be within certain boundaries, and if it develops into an enemy, it's never something the old master wants to see.

"Alright, if you continue to pester, from now on, remove all your positions in the company." The old man said.

This sentence, like a pot of cold water, poured a chill over his heart and made Su Guolin regain his sanity.

He knew that the old man always said one thing and never said another, and if he didn't give up, I'm afraid he would only be an idler in the company, and then what was the difference between him and Su Guoyao, a loser.

"Today's meeting is over here, let's adjourn." The old man got up and left the meeting room.

The others didn't dare to say much about the argument between the two brothers, after all, the company's future was in the hands of whoever was in charge, and now it had become so confusing that no one dared to take a position easily at this time.

### **Chapter 1363**

When Su Guoyao was about to leave the conference room, Su Guolin blocked his way.

"What else do you want?" Su Guoyao asked in a cold voice.

Su Guolin's eyes were filled with anger, in his opinion, a trash like Su Guoyao should honestly be a bottom in the company, when did such a trash dare to argue with him in the company?

"Su Guoyao, I'll give you one last chance to let me talk to Feng Qian, or else I'll make you get out of the Su family completely." Su Guolin gritted his teeth and said.

Faced with Su Guolin's threat, Su Guoyao not only didn't feel afraid, but had a ridiculous feeling.

"By what right do you want me to get out of the Su family, haven't you noticed that your position is threatened? And I can tell you, the cooperation of Feng Qian, I will definitely come to fruition, and no matter what little moves you make behind the scenes, you can't stop me." Su Guoyao said.

Su Guolin fiercely clenched his fist and said, "Are you really that confident? What do you think you are, Feng Qian's boss, could never value you as a trash."

Su Guoyao pushed Su Guolin away and said mercilessly, "I'm your brother, don't bother with these words with you, but if you want to mess up, I can only treat you as a brother without you, don't do anything that you will regret."

Su Guolin was trembling with anger, when was this guy's turn to be so arrogant in front of him?

"Su Guoyao, just wait, I'll make sure you lose everything."

On the other hand, Han Qianqian had arranged for Xiaolong to go to the Tian family, to follow Tian Honghui in and out of the company, to observe Tian Honghui's every move, to cultivate the temperament of a person who was the boss.

Tian Honghui was very puzzled by Han's arrangement, but Tian Changsheng, an old fox, sensed why Han had done this.

These big figures who don't want to show their faces easily will usually train their own puppets to make others think that the puppet is the boss on the surface, but he himself is manipulating everything in private.

Han Qiangiang's behavior makes Tianchang Sheng feel that his background is even more unfathomable.

As for Xiaolong, he is also doing his best to study. Although he feels that he can't shoulder this heavy responsibility, but since Han Qianqian entrusted him with this matter, he must do his best not to disappoint Han Qianqian.

He was a low-level gangster who suddenly became a boss, and such a transformation was not easy for him; after all, if one's temperament wanted to be changed in a short period of time, it would require a large degree of mental change, which was not easy to do.

"Dad, why did Han Giang do this?" After spending a day in the company, Xiaolong was almost inseparable, and Tian Honghui felt very uncomfortable with all the restrictions on his freedom, so when he returned home, he asked his questions to Tian Changsheng.

"Can't you see that Han Qianqian wants to train Xiaolong into a puppet, and the one who follows you is no longer a small punk, but the obvious boss of Fengqian Company," Tian Changsheng said.

This statement made Tian Honghui unconsciously sneer a little.

Xiao Long as the boss of Feng Qian?

Han Qianlian was too proud of him.

For Xiaolong, who had not seen much of the world, how could he be in control when he was suddenly in Fengqian's position?

"Dad, it seems that he really doesn't have good eyesight, today all day, Xiaolong gave me the feeling that he is just a pawn, let him be a general, it is too high." Tian Honghui said.

Tian Changsheng also had this thought in his heart, after all, Xiao Long's social status was too low, he didn't understand what kind of shape real high society was in, and there were many things he hadn't seen, to give him the temperament to be a boss, it would certainly be a long time to change, and Feng Qian had already completed, leaving little time for Xiao Long, how could he complete the transformation.

"No matter whether Little Dragon has the temperament to be the boss or not, he is the boss as long as Han Qianqian lets him be." Tian Changsheng said.

This sentence made Tian Honghui couldn't help but sigh, this is probably fate.

The Tian family had spent many years to become the number one family in Yun City, while a socially blind person like Xiaolong was about to become the hottest person in Yun City just because he met Han Qianqian, which was really a joke.

"Dad, this man is still about luck, and Xiaolong is about to be higher than our social status." Tian Honghui laughed bitterly.

Tian Changsheng didn't care about these points, Xiaolong was a puppet after all, in his opinion, what was more important was the relationship between the Tian family and Han Qianqian, whether it would be able to continue to develop in a positive way, as well as the matter of the new city, whether the Tian family would be able to get a chance to work together.

"Although we don't have luck, we still have a chance, and as long as we seize the opportunity, we might be able to get out of Cloud City." Tian Changsheng said.

Father and son chatted for a long time, but the topic couldn't get around Han Qiangli after all.

At this time, Han Qianqian was in the hotel with Qi Yiyun, staring at him with big eyes.

"Su Yingxia obviously already knows that the two of us know each other, so why do you deliberately avoid it, making me think that she doesn't know anything." Han Qianqian asked to Qi Yiyun.

Qi Yiyun looked indifferent and said, "Did I deliberately avoid it, I just didn't want to disturb you, so I walked away, what's wrong with that?"

"Chi Yiyun, I'm warning you, if you try to stir anything up between my relationship with her, I will absolutely not let you go." Although Han Qianqian was indebted to Yi Yun, he would never allow Yi Yun to ruin his relationship with Su Yingxia, nor would he allow any misunderstanding to arise between them.

The first time I saw her, I thought I'd be a good match for her, but I didn't think she'd be a good match for me," she said.

"I came all the way to Cloud City to find you, and this is how you treat me?" Chi Yi Yun gritted her teeth and said unwillingly.

"I didn't ask you to come to me, and I never thought I would meet you so soon, so if you have any grievances, deliberately leave Cloud City tomorrow, and I'll have someone send you away." Han Qianqian said indifferently.

Qi Yiyun raised her pink fist and looked furious, but she quickly acted as if nothing had happened, laying directly on the bed and said to Han Qianqian, "I'm going to bed, I have class tomorrow, so don't you dare disturb me."

#### **Chapter 1364**

Han Qianli smiled helplessly, the current Yi Yun Qi was exactly the same as before she was reborn, no matter what kind of blow she received, she could act as if nothing had happened.

Han Qianli knew that his debt to her would grow deeper and deeper, but even though he knew the situation, Han Qianli was unable to make any changes, and there was no way to get rid of Qi Yiyun if she didn't leave.

Sleeping on the couch has become a habit for Han Qianqian, and even though the space is small, it allows Han to have a comfortable sleep.

The next morning, YiYun didn't say anything to Han QianQian and went to school.

This is the way Yi Yun Qi handled the problem, as if nothing had happened, there was no need to be concerned about everything, but this situation, often to suffer a great deal of grievances.

After Han Qianli woke up, he received a call from Nangong Boling, the regional director of the first-tier brand, who will arrive in Yuncheng today, which means that Han Qianli's plan for the new city has taken the most important step.

"You don't have to go to Tianjia Company today, I'll take you to meet some people." Han Qianliang called Xiaolong, and since he was the boss of Feng Qianliang, it was natural for Xiaolong to receive those regional directors when they arrived.

"Boss, I'll come to the hotel right away." Xiaolong promised readily, but inside he was very apprehensive, because he knew that the people the boss asked him to meet were definitely some not-so-small characters.

When that group of regional leaders appeared in Cloud City, the Su family received the news at the first time, the old man deliberately arranged for people to keep an eye on this matter, after all, he still had some doubts about Su Guoyao's words, but when the news came out, all the doubts vanished, which made the old man very excited inside.

If the new city can really be developed, and the Su family can participate in this project, it will make the Su family's status in Yuncheng rise several steps in succession.

"Early in the morning, what are you happy about?" When the old lady saw the old man's face full of hidden smiles, she couldn't help but ask.

The old man said happily: "The promotion of the new city, it seems not false, those brands regional director, has been to Yuncheng, did not expect Su Guoyao silent for so many years, this time to the Su family made such a great contribution."

The old lady has heard about the company's affairs, for the old man to give such an important task to Su Guoyao, she still has some disagreement, because in her opinion, Su Guolin can better handle this matter, how would Su Guoyao this waste on?

Although they were all her sons, the old lady never thought that Su Guoyao's ability could compare to others.

"Now that it's been implemented, you should leave it to Su Guolin, you don't know how capable Su Guoyao is, if you mess it up, the Su family will have no chance at all." The old lady said.

This statement made the old man frown and said, "Even you think so?"

"What can we do, who let Su Guoyao so many years of useless, it's not that we did not give him a chance, but which time he did it?" The old lady said.

The old man thought deeply, it is true that they have given Su Guoyao many opportunities, but Su Guoyao has never made them satisfied.

In fact, in the old man's heart, he has thought about this matter again and again, let Su Guolin handle it, on the surface does seem to be more confident, but Su Guoyao can get this kind of insider information, but not Su Guolin can do, which also shows that Su Guoyao has a relationship that Su Guolin can't match.

In this case, if you judge the matter by your personal ability, I'm afraid it would be even worse for the good if you leave it to Su Guolin.

"Actually, I've thought about it, but this is something that Su Guoyao has to do." The old man said.

The old lady was filled with confusion and asked, "Why?"

"Su Guoyao knows Boss Feng Qian's friends, and I'm afraid the relationship is not shallow, which gives him an advantage, but Su Guolin doesn't." The old man said.

The old lady shook her head with a disdainful expression, in her opinion, Su Guoyao just got lucky, but this kind of luck, absolutely can't last forever.

"Suit yourself, you're in charge of the company anyway." The old lady said.

At this time, the old man suddenly had a painful expression and covered his chest.

When the old lady saw this, she hurriedly sent the medicine to the old man's mouth in a panic.

The old man had suffered from heart disease for many years, which could not be cured, and in recent years, his condition had worsened, and in his own words, he could not live much longer, so he hoped to see a better development of the Su family while he was alive.

According to his last life, the old man should have died when Han Qianqian was twenty-two years old, which was half a year later, but now it seemed that he couldn't last that long.

"Is he better yet." The old lady asked.

After taking the medicine, the old man's expression eased considerably, but it also made him sigh and say, "I don't know how much longer I can hold out, but I hope to see the day the new town is completed."

At this time, Xiaolong had already received Han Qianqian, and although he hadn't yet seen the people Han Qianqian was talking about, Xiaolong was clearly getting nervous, his expression was stiff, and even his speech seemed very unnatural.

"Boss, is the person you want to meet today the regional head of those brands?" Xiaolong asked to Han Qianqian.

"Nervous?" Han Giangli smiled and asked.

Xiaolong nodded with a stiff neck and said, "How can I not be nervous, if it wasn't for the boss, I would never have met with people of this level in my life."

Han 3,000 waved his hand indifferently and said, "How you used to bully the weak, just treat them with that kind of attitude, you treat everyone as ordinary people from that street in the school, so you won't be afraid."

"Boss." Xiao Long smiled bitterly at these words, where did he dare to treat those brand managers with that kind of attitude, and said: "They are different from those ordinary people, I am already afraid enough just standing in front of them."

"They don't eat people, and you're my subordinate now, you're afraid, you're embarrassing me, you don't want me, the boss, to lose face, do you?" Han Qianqian said faintly.

Xiaolong took a deep breath, trying to build up his courage, but it didn't help, and made him even more nervous.

Han Qianqian continued, "You don't want to be looked down upon, do you? Have you never thought that one day you will be able to go back home in style?"

After a pause, Han Qianqian then asked, "Who else is in your family?"

"Parents, and a sister." Xiaolong hadn't been home for two years, and for him, home had been a scary place, because not only did his family look down on him, but even those in the village were respectful of him, afraid of having anything to do with him.

"Do you just want to bring honor to your parents? When you've done that, I'll let you go home in style, how about that?" Han 3,000 said.

"Boss, my parents don't want me to go home. Every time I go back, they won't even let me in, and the whole family, except for my sister who treats me like family, who can tolerate me?" Xiaolong said with a bitter smile on his face.

"Since your sister treats you like a brother, don't you want her to see when you're great? She will be very happy, and don't you want to make those who despise you regret it? How about I arrange a fleet of ten Rolls Royces for you to drive into the village, enough to surprise them?" Han Qianqiang said.

Xiao Long's blood boiled for no apparent reason, and if there were really ten Rolls-Royces driving into the village, those who underestimated him might not even dare to breathe.

And let her sister see how powerful he is, little Niko will definitely have adoring little eyes, and her parents will never turn him away again.

"Boss, can I really to?" Xiaolong asked weakly.

"You're the boss of Feng Qian now, what's wrong with that, but the premise is that you can't make me lose face, or else all this is just empty talk." Han Qianqian said.

Xiaolong took several deep breaths one after the other, for no other reason than to show the little ninny the luxury car, he also had to work hard to do so.

And those people in the village who scolded him behind his back on ordinary days, Xiaolong also had to show them what he was capable of.

"Boss, for the sake of my sister, I won't let you lose face." Xiaolong said.

Han Qianqian smiled faintly, everyone will have their own desires, as long as they grasp the desire, they can make them fearless, it seems that in Xiaolong's mind, the sister is still very important, which provoked his desire.

Feng Qian Company is still an empty shell today, but everyone in Cloud City knows that when Feng Qian opens its doors, it will surely become one of the most influential companies in Cloud City.

"Boss, the company is so big, how many people do we have to recruit." Entering the company, Xiaolong said with a sigh on his face, his upcoming becoming the boss of the place made Xiaolong feel like he was dreaming.

"It doesn't matter how many people there are, the most important thing is that the deck is big enough, even if we only need one office room, the whole building, it has to be ours." Han Qianqian said with a smile.

For Han 3,000 words like this, Bruce can only use one word to describe, that is rich and generous, no money can not dare to play so ah.

It didn't take long for those in charge of the brand to come to the company one after another, these people are usually high and mighty, but today, they are more and more restrained, because the big boss has made it clear that the people they are going to meet today, that must not be offended, whoever dares to make the slightest mistake in this matter, they don't have to work.

A very strange phenomenon happened in front of Han Qianqian, Xiaolong was nervous, while those in charge, also had a nervous face, these two groups of people met together, as if they were competing to see who was more nervous.

Han Giangli coughed softly before Xiaolong came back to his senses and quickly said to the few brand managers, "Hello."

The men also responded in a panic.

"Hello."

"Hello."

"Hello."

.....

Seeing this situation, Han 3,000 forced to hold back his own smile, since both sides are so tense, let them slowly ease up, not bothering to teach Xiaolong what he should do, after all, most of the company's things, Xiaolong still need to be responsible for their own, now as he adapt to this situation in advance.

At the same time, Han Giang also knows that these people in charge of tension, must have something to do with Nangong Boling, which is also more certain that Nangong Boling's control over these well-known brands.

Although Han Qianli could not confirm how many ultra-luxury brands Nangong Boling controls, the number is definitely not small.

I'm afraid that his wealth has reached an unimaginable level, and those on the world's rich list are not enough for him to fight alone.

In addition to the Su family knew that the regional head of the brand came to Cloud City, the Tian family and Mo Yang, also received the news at the first time.

The company's main business is to provide a wide range of products and services, and to provide a wide range of products and services to the public.

"Dad, who the hell is he, the person in charge of these brands, just said he'd come." Tian Honghui asked Tian Changsheng with a heavy face, the head of the brand came to Cloud City together, this is by no means something they would make their own decisions, they must have received orders from the head office, or even the biggest boss, which means that these well-known fashion bigwigs, all have to do things according to Han Qianqian's will, such energy, is unimaginable to Tian Honghui.

The company has been in the process of developing the new product for the past two years, and has been working on the new product for the past two years.

But Tian Changsheng was unable to rely on his own imagination to guess Han Qiangli's specific identity, because there are too many capable people in the world, so how could he be able to guess at random?

"Does it matter who he is? The important thing is that he can easily change any person's life and even the status of a city," he said. Tian Changsheng said.

Tian Honghui took a deep breath, thinking of the first time he met Han Qianxiang, when he didn't give a damn about Han Qianxiang, and even thought that Han Qianxiang was just a little kid, at most using his family background to fake a tiger's power.

But as his knowledge of Han Qianxiang deepened, Tian Honghui realized how foolish his initial thoughts were.

I'm afraid that what he can do is no longer as simple as just using his family background.

"I can't imagine what Cloud City will become in the future, it won't be a first-tier city." Tian Honghui said, startled.

Such a thought was pure fantasy, because an eighteenth-tier city wanting to develop into a first-tier city was not something that could be achieved by relying on the power of one person.

But Tian Honghui felt that other people might not be able to do it, but Han Qianqian could, because his one sentence had gathered the world's major brands, and who knew what kind of waves his next sentence would cause?

"Maybe it depends on whether he is happy or not, but these things are still too long term, and now we have to figure out how we can participate in Feng Qian's plan to cooperate." Tian Changsheng said.

Tian Honghui nodded, this time the construction of the new city west of the city will certainly change the pattern of Yun City greatly, and if the Tian family wants to maintain its current position, it will certainly have to participate in the construction of the west of the city, or else the other families will take the lead, I'm afraid the Tian family will no longer be qualified to call it the first family of Yun City.

"Dad, do you have any good ideas about this?" Tian Honghui asked.

"Whether it's you or me, I'm afraid it's difficult to make such a request," Tian Changsheng said.

Tian Honghui frowned, if the two of them couldn't do this, who else in the Heavenly Family could do it?

"Dad, if you say that, isn't there no hope at all for our family?" Tian Honghui smiled bitterly.

Tian Changsheng shook his head and said, "Have you forgotten that we still have Tian Ling'er?"

"Spirits?" Tian Honghui looked at Tian Changsheng in dismay, not knowing what the old father had in mind.

"That's right, only Ling'er can help the Tian family participate in the plan for the west side of the city, after all, Han Qianli treats Ling'er as his sister." Tian Changsheng explained with a smile.

Tian Honghui subconsciously shook his head, although he said that, but such an important matter, but to put his hopes on Tian Ling'er, in his opinion is still somewhat inappropriate, after all, Tian Ling'er does not know business matters.

"Dad, are you serious, this matter, leave it to Ling'er, what do you want her to do?" Tian Honghui was curious.

Tian Changsheng couldn't help but laugh and said, "Have you forgotten that your daughter has the greatest skill, our family, but no one can escape."

The greatest skill?

Tian Honghui thought carefully and seriously, and really didn't think of what Tian Changsheng was saying.

Can Tian Ling'er be anything more than a spoiled brat at home?

"No way!" Tian Honghui looked at his father with dismay and incredulity in his eyes and said, "Dad, you're not talking about pampering, are you?"

"Why can't it be?" Tian Changsheng said.

Tian Honghui laughed bitterly, spoiling this kind of tactic, it's okay to use it on one's own family members, but Han Qianxiang is after all just an outsider, there is a high probability that he won't buy it, using this kind of way to exchange for cooperation, in Tian Honghui's opinion is too unrealistic.

"Dad, we're eating this because she's my daughter and your granddaughter, but Han Qianxiang has no blood relationship with her," he said. Tian Honghui said.

This truth, Tian Changsheng naturally understood, but Tian Changsheng had also felt in Han Qianqian's eyes, he seemed to really treat Tian Ling'er as his sister, that kind of look of emotion flow is absolutely unable to deceive people.

It was precisely because of this that Tian Changsheng felt that Ling'er's methods would work.

The reason why Han Qianli has true brother and sister feelings for Tian Ling'er is because before she was reborn, when Su Yingxia was pregnant, Tian Ling'er would go to the hillside villa almost every day to keep Su Yingxia company, but Han Qianli was not by Su Yingxia's side at that time.

It was out of gratitude that Han Qianqian treated Tianling'er as his own sister.

"Since you think it's feasible, let's give it a try." Tian Honghui said helplessly, he had no other good solution, so he could only treat a dead horse as if it were alive.

## **Chapter 1366**

In addition to the first batch of brand leaders arriving in Cloud City, dozens of others arrived on the same day, representing almost all the world's well-known luxury brands.

After all, to be able to gather so many people in charge of luxury goods, it could not be for no reason.

For a time, all the big families in Cloud City began to speculate about the possibility of the matter.

The Su family, with the advantage of information, has already started to deploy the cooperation plan with Feng Qian.

Su Guoyao, as the person in charge of the Su family's cooperation with Fengqian, came to the gate of Fengqian's company as soon as he heard the news.

No one knows who is the boss of Fengqian now, so Su Guoyao can only wait for the rabbit by the dumbest way.

At the same time, Su Guolin, the one who wants to go against Su Guoyao, is thinking of how to sabotage Su Guoyao's plan.

A private tea garden will not receive ordinary customers here, and only VIP customer service is available in the tea garden.

Of course, there is a reason why a tea garden can make such a high specification.

The environment of the tea garden is absolutely first-class in Cloud City, and the privacy of each room is very good, especially suitable for discussing cooperation, or very confidential matters to exchange here, there is no fear that the news will be revealed through the walls.

Su Guolin is here today, and the person he is about to meet is a long-time rival of the Su family.

The other party is also in the building materials business in Cloud City, and as the saying goes, peers are enemies, and Su Guolin's invitation to the other party obviously had an unusual purpose.

"Su Guolin, I didn't expect you to ask me out for tea, which really makes me wonder about the reason." The other party was a fat-headed middle-aged man with a greasy face and a rather rich appearance.

"Yang Guangyuan, I'm looking for you today, I have something good to tell you." Su Guolin said.

Yang Guangyuan laughed disdainfully, the competition between him and the Su family has never stopped, and he often uses tricks in secret to steal partners, over the years, it's not like there haven't been times when his face was red and his ears were red, Su Guolin looked for him to tell him something good, isn't this bullsh\*t?

"Don't tell me these mysterious things, what kind of person you are, don't I know clearly? The customers you stole from me, I can remember clearly now." Yang Guangyuan said coldly.

"If you want to say that, haven't you ever stolen a customer from me? It's just one another," Su Guolin said.

Yang Guangyuan looked impatient and said, "What do you have to say, just say it quickly, don't waste my time, if it wasn't for giving you face, I wouldn't even come today."

"Sit down first and talk slowly, you will definitely be very interested in what I have to say." Su Guolin said and poured a cup of tea for Yang Guangyuan.

Yang Guangyuan wanted to turn around and leave, but was particularly curious as to what Su Guolin was looking for him for, since they were enemies.

Curiosity drove Yang Guangyuan to sit down in front of Su Guolin.

"Go ahead." Yang Guangyuan said.

"You know who's here in Cloud City today, right?" Su Guolin asked.

"This matter, the first time has been spread in Cloud City, how could I not know, but the reason why these people come to Cloud City, there are all kinds of speculations, but I feel, none of them seem true." Yang Guangyuan said.

"I know the truth of the matter." Su Guolin said with a smile.

Yang Guangyuan's curiosity was immediately piqued, because the presence of so many luxury goods leaders made him feel like something big was happening, but he couldn't figure out what was going to happen after thinking about it.

If Su Guolin really knew the inside story, he could help him out.

"What do you know?" Yang Guangyuan asked curiously.

"If you want to know about this matter, I hope you can promise me one thing." Su Guolin said.

Yang Guangyuan frowned and said unhappily, "Su Guolin, you don't want me to let you have any cooperation, that's impossible, although no one knows the truth yet, but sooner or later it will be exposed, the worst I can do is to wait for some time, and naturally I will know."

"Don't worry, I don't want your cooperation, I just want you to promise me that you can't tell anyone about the conversation between the two of us today," Su Guolin said.

Yang Guangyuan was slightly startled and said, "It's that simple?"

"It's that simple!" Su Guolin said, "Yang Guangyuan's hands are crossed, and he looked at Su Guolin with a dignified expression.

Yang Guangyuan, with his hands crossed at the waist and a heavy expression on his face, looked at Su Guolin and said, "Su Guolin, what kind of medicine are you selling in your gourd?"

"Mr. Yang, how can I set a trap for you, are you still afraid of me?" Su Guolin said with a smile.

"Afraid?" Yang Guangyuan snorted coldly and said, "Raozi will be afraid of you, what a joke, okay, I promise you, tell me, those people came to Yun City, what is the reason."

"They came to Yun City, and Feng Qian has a decisive relationship." Su Guolin said.

"Aren't you talking nonsense, many people saw them walk into Feng Qian's office building with their own eyes, you think I don't know, you kid aren't playing with me, right?" Yang Guangyuan said with an unhappy face.

Su Guolin waved his hand, signaling Yang Guangyuan not to worry, and continued: "It's not that simple for them to go to Fengqian, Fengqian will build a new city in the west of the city, and these luxury goods will be stationed in the west of the city, according to the boss of Fengqian, he wants to build the west of the city, to build the largest shopping center in the Asia-Pacific region, can you imagine, what concept is this? "

The largest shopping center with all the luxury items?

Just west of town?

Yang Guangyuan subconsciously dug his ears, suspecting that he was hallucinating.

The west side of the city was just an abandoned factory site, so how could anyone build a new city in the west of the city?

And the largest shopping center in the Asia Pacific region is not a statement that anyone is qualified to make.

"Are you messing with me? The biggest shopping center in the Asia-Pacific region on that piece of land on the west side of the city? Do you take me for a fool?" Yang Guangyuan said, "I have no choice but to shake my head," Su Guolin said.

Su Guolin shook his head helplessly, but Yang Guangyuan didn't even realize that this was not a joke, even though he had made it so clear.

If Feng Qian didn't do it, how could he call in so many luxury brand leaders?

"Yang Guangyuan, you don't think it's possible, so why would the person in charge of these luxury goods appear in Cloud City?" Su Guolin asked rhetorically.

This question, however, made Yang Guangyuan confused.

Yes, if Fengqian didn't intend to do it, why would there be so many people in charge of luxury goods?

But how could Su Guolin tell him such an important piece of information?

### **Chapter 1367**

"Su Guolin, what on earth do you have in mind that you would tell me such an important piece of first-hand news?" Yang Guangyuan looked at Su Guolin with a questioning face.

The Su family knew about this matter, which undoubtedly had the unique advantage of allowing the Su family to deploy the cooperation plan in advance, but at such a time, Su Guolin told such important news to his rival, which made Yang Guangyuan feel a little suspicious.

Su Guolin is not a kind-hearted person. How could he let his rival know about the Su family's great development opportunity for no reason?

"I won't hide it from you, the cooperation with Feng Qian is Su Guoyao's responsibility." Speaking of Su Guoyao, Su Guolin's eyes became gloomy, he said that he would never let Su Guoyao's plan succeed.

So rather than see the Su family throw away this opportunity to cooperate, Su Guolin had to do everything he could to prevent Su Guoyao from succeeding, only then could he maintain his position in the company.

Only then will Su Guoyao have no chance to ride on his head.

"Su Guoyao, that's the loser who did nothing, why would he be put in charge of such an important matter?" Yang Guangyuan wondered, the most capable junior of the Su family should be none other

than Su Guolin, such an important cooperation, it is reasonable to say that Su Guolin is also responsible for it.

"Because this information was found out by Su Guoyao, that's why it was handed over to him, and I, in no way, can give him any chance to turn over a new leaf in the company, and I won't allow him to ride on my head." Su Guolin said.

Hearing these words, Yang Guangyuan suddenly realized, finally understanding why Su Guolin had told him such important news.

It turned out that Su Guolin was afraid that if Su Guoyao negotiated this cooperation, it would affect his position.

Yang Guangyuan couldn't help but laugh and said, "Su Guolin, the price you're making the Su family pay will be too high, you have to know that the new city means a large amount of building materials to provide, and it's not just as simple as making money, it can also improve the family's status, you'll not only make the Su family lose the opportunity to make money, but also the opportunity to improve their status."

"What about this?" Su Guolin said in a cold voice, "Even if I lose the future of the Su family, I won't allow that trash to ride on my head."

"Hahahahahaha." Yang Guangyuan let out a loud laugh, he never thought that because of Su Guolin's selfishness, he would allow such a great good thing to fall on his head.

Although this was an internal battle within the Su family, he, the fisherman, was effortlessly profiting from it.

"Su Guolin, how should I thank you?" Yang Guangyuan asked.

"I don't need you to thank me, just remember that we can't tell anyone about our conversation today," Su Guolin said.

Yang Guangyuan nodded his head and said, "Don't worry, I am not such a shameless person, I took such a big benefit, so how could I betray you, but ....."

Looking at Yang Guangyuan's appearance, Su Guolin had an ominous premonition and said, "But what?"

"You know, I've always been interested in your wife, you see, I've kept such a big secret for you, how about getting your wife, to have a drink with me?" Yang Guangyuan smiled.

Su Guolin clapped his hands, he didn't expect Yang Guangyuan to be so deranged, taking such a great benefit, but he still threatened him.

"Yang Guangyuan, don't go too far, I've given you such a great benefit and you still threaten me?" Su Guolin said cross-eyed and green-eyed.

"Don't be anxious, don't be anxious." Yang Guangyuan waved his hand and said: "I'm just joking with you, look at how anxious you are, don't take it seriously, don't take it seriously."

Su Guolin secretly gritted his teeth, Yang Guangyuan's style of life has always been indiscreet, this is known to many people, he can say these words, can never be just joking as simple as that, but Su Guolin now cocooned himself, let Yang Guangyuan grasp the handle, he also does not dare to completely turn the other cheek with Yang Guangyuan.

"In the future, don't make such jokes casually." Su Guolin said and left the room directly.

Yang Guangyuan's mouth showed a strange curve, poured himself a cup of tea, drank it all and then said to himself: "Su Guolin, Su Guolin, can your wife get away with such a big grip in my hands? You are ruining the Su family. If the master of the Su family knew about this, would he still let you go? Although I got the benefit, but I, Yang Guangyuan, will not let go of any opportunity, who let your wife look pretty."

Su Guoyao was still waiting at the entrance of Feng Qian office building, a person slightly bored, his feet have lost a lot of cigarette butts, it can be seen, he is still a little anxious.

After all, only the Su family knows the inside information in the entire Yun City, for the Su family, this is a great opportunity, and once he negotiates this matter, his status in the Su family will also be raised, which is something Su Guoyao has been looking forward to for many years.

"Finally a chance to turn over a new leaf, Su Guoyao, you must seize it, you must not fail." Su Guoyao secretly cheered himself up.

At this time, a group of people who looked like they were coming from a bad place, came towards Su Guoyao.

Su Guoyao had an intuition that these people were coming for him, but he didn't provoke anyone recently, so there shouldn't be any trouble on the horizon.

After those people walked in, the leader asked Su Guoyao, "Are you Su Guoyao?"

When he heard his name, Su Guoyao subconsciously nodded his head.

"Give me a shot." After the leader identified Su Guoyao, he immediately greeted his men.

Su Guoyao panicked, and before Su Guoyao could even ask who the other man was, he was kicked to the ground, followed by a beating and kicking, so Su Guoyao didn't even have the chance to fight back.

Su Guoyao was quickly knocked unconscious and then dragged away by those people.

Soon after, Yang Guangyuan appeared at Su Guoyao's place, smiling and waiting quietly for Boss Feng Qian to show up. For Yang Guangyuan, he would do anything to achieve his goal, so putting Su Guoyao in the hospital was just a commonplace tactic.

"Hey, it's really a misfortune for the Su family to have such a talented person as Su Guolin." Yang Guangyuan sighed with a smile on his face, if it wasn't for Su Guolin, how could he have such a good opportunity.

After waiting for half a day, those in charge of luxury goods, one after another, left Fengqian.

The company, Yang Guangyuan knew that Boss Feng Qian should appear soon, and straightened up his clothes, ready to face the future nobleman in the best image.

## Chapter 1368

When Han Qiangnian and Xiaolong appeared, Yang Guangyuan's heart was filled with doubts, they were neither the person in charge of the luxury goods, nor the boss of Fengqian.

At the same time, Han Qianqian also frowned. According to his estimation, it should be the time for Su Guoyao to appear, but a stranger came, what's going on?

The Su family is the only ones who know about Feng Qian's plan in Yuncheng, and it is absolutely impossible for the Su family to disclose such important information to others.

"Boss, what does this guy do?" Xiaolong softly asked Han Qianqian.

"Remember who you are now, you are Boss Feng Qian." Han Qianqian reminded.

Hearing this, Xiaolong subconsciously straightened his back.

Although Yang Guangyuan didn't think in his heart that these two could be related to Boss Feng Qian, but since they could come out of Feng Qian Company at such a time, they must be people from Feng Qian Company.

After walking forward, a smiling Yang Guangyuan asked the two of them, "Excuse me, is the boss of Feng Qian Company yours?"

"Who are you?" Xiao Long asked in an indifferent tone, just a glance at Yang Guangyuan, without even looking at him.

Yang Guangyuan was stunned, this guy, is really the boss Feng Qian, how come he doesn't look like one at all?

"Hello, my name is Yang Guangyuan, and I'm in the building materials business in Cloud City, so please forgive me for taking the liberty of interrupting you today." Yang Guangyuan introduced himself.

In the building materials business!

Han three thousand hearts felt even more strange, at the same time building materials merchant, isn't this guy is the Su family's competitor, how did he come here.

"Your intrusion is very presumptuous." Xiaolong said coldly.

This said Han Qianqian almost laughed, did not expect this guy is quite good at pretending, it seems that it is not too difficult for him to adapt to the identity of Feng Qian boss.

Yang Guangyuan was slightly embarrassed, and although he was upset, he didn't dare to show it on the surface, because he didn't look like much, but he was actually the one who could change his fate.

"I know Feng Qian's plan, and you should need me as a partner." Yang Guangyuan said.

Han Qianli was slightly stunned, he knew Feng Qian's plan, how could this be?

How could anyone other than the Su family know about the Fengqian Project?

He didn't tell the second person about it, and with Su Guoyao's personality, he couldn't have told his competitors either, except that he had a brain cramp.

Xiaolong didn't know how to respond to Yang Guangyuan's words, so Han Giangiang could only say, "My brother has something important to do today, so you should leave quickly and don't waste his time."

Yang Guangyuan is a very black guy, it is very difficult for him to accept the rejection of others, there have been people who do not want to work with him, Yang Guangyuan will invariably retaliate in secret.

However, facing the boss of Feng Qian Company, he had no guts even if he had the heart, after all, Feng Qian's office building was taken care of by Mo Yang, which means that he should have a very good relationship with Mo Yang.

If Yang Guangyuan was found out for causing trouble, Mo Yang might not let him off easily.

Thinking of this, Yang Guangyuan could only say: "Big boss, give me a chance, I will not let you down."

Xiaolong snorted coldly, and then passed by Yang Guangyuan's side.

When he got back to the car, Xiaolong asked Han Qianqian nervously, "Boss, I didn't reveal my secret, did I?"

"No, but how could Yang Guangyuan know about this?" Han Qianli looked out of the window at Yang Guangyuan with a puzzled face. Could it be that Su Guoyao was really confused and told him about this?

If that's the case, Su Guoyao's reputation as a punk isn't just empty talk, but he's even capable of doing such an idiotic thing.

Su Guoyao is still lying unconscious in the hospital, not only Han Qianqian is confused about this matter, even the old man of the Su family is also anxious.

The company's main office is located at the heart of the city.

This made the old man so furious that he could not get a hold of the phone.

"I told you long ago that it's unreliable to let Su Guoyao do this, and you still don't believe it, but now you regret it, he didn't even answer the phone at such an important time." The Su family's old lady said to the old man with a grumbling face, she had never held any hope for Su Guoyao, and the current outcome also proved that her thoughts were correct.

The old man looked like he was gnashing his teeth, he gave Su Guoyao a chance because Su Guoyao had the innate advantage to know Boss Feng Qian's friends, but who would have thought that it would end like this?

"The regional director of those luxury goods has already left, and Boss Feng Qian must have already appeared. The old lady continued, and then sighed heavily.

The old man was livid, and he was beginning to regret leaving this matter to Su Guoyao.

At this time, the phone rang, but it wasn't from Su Guoyao, but from the eye-catcher arranged by the old man.

"What's the situation?" The old man asked in a deep voice after picking up the phone.

"Yang Guangyuan has just made contact with Boss Feng Qian, but he is too far away and didn't hear what they said, but looking at Yang Guangyuan's expression, it shouldn't be a good result." The other end of the phone said.

"Yang Guangyuan!" The old man looked startled, although Su Guoyao did not appear, but Yang Guangyuan should not appear only, because this matter, only the Su family only know, how could he know?

"Boss, when I first came here, Yang Guangyuan was here, I thought it was a coincidence, so I didn't inform you, but now it seems that Yang Guangyuan should be premeditating." The other end of the phone continued, saying that he appeared late, so he didn't see the scene of Su Guoyao being beaten up by the crowd.

The old man bit his teeth and hung up the phone, Yang Guangyuan had already planned it, which meant that he was afraid that he also knew Feng Qian's plan, but the old man couldn't figure out from what source he knew it.

"What's wrong?" Seeing the old master's expression was not quite right, the old lady asked curiously.

The old man took a deep breath and said in a deep voice, "It's Yang Guangyuan."

"Yang Guangyuan?" The old lady's expression showed a hint of consternation and said, "How could Yang Guangyuan appear, did he also know the news?"

"I'd like to know what this is all about, but now it seems that someone has betrayed our Su family!" The old man's eyes revealed his ruthlessness," he said.

## **Chapter 1369**

Betray the Su!

The only people who knew the news were those from the Su family who had access to the conference room.

Now that Yang Guangyuan, an outsider, has learned such important news, there is only one possibility, that is, the Su family has leaked the news internally.

The new city project is a turning point that can change the Su family's future, and the old man had great expectations for this matter, but now, not only did the news leak out, but also Yang Guangyuan, a long-time rival.

The old man's hostility instantly rose in his heart, no matter who it was, if he found out, he would only end up being expelled from the family.

"Do you suspect that it was Su Guoyao who told Yang Guangyuan about this, and what did he gain by doing so?" The old lady was confused, asked the old man, "What makes you think Su Guoyao did this?"

The old man's face was as frosty as ice and said, "What makes you think that Su Guoyao did this? I think just the opposite of you, because Su Guoyao had to rely on this matter to turn around the company, he would never do that."

"If he didn't do it, how could he hide? Now even you can't reach him." the old woman said with disdain. The old lady said disdainfully.

Obviously, the old lady could say such a thing because she was extremely prejudiced against Su Guoyao, because no matter what factors were considered, the chances of Su Guoyao betraying the Su family were minimal.

On the contrary, it was possible for others to profit from this opportunity.

"If we can't reach him, it doesn't prove that he betrayed the Su family," the old man said. The old man said.

The old lady was helpless, she really couldn't understand why the old man suddenly trusted Su Guoyao so much.

One thing led to another, and in the old woman's heart, she was not even willing to acknowledge her eldest son.

"Isn't it him? Won't you know if you find him?" The old lady said.

The old man took a deep breath and picked up the phone.

"Call an emergency meeting right away, notify everyone, and come to the office immediately."

Hanging up the phone, the old man set off to the company.

The old lady also wanted to know what was going on, so she went with him.

The Su family was sitting in the conference room, and everyone had a puzzled expression on their faces.

Nowadays, the Su family's major event is the cooperation with Feng Qian, so it made them wonder if Su Guoyao has already made a deal to cooperate.

If this is the case, I'm afraid that in the future Su Guoyao's status will no longer be comparable to Su Guolin.

"Do you think it's possible that Su Guoyao has already taken care of the cooperation?"

"No way, so fast, does he really have it in him?"

"If it weren't for this matter, why would the old man suddenly call an emergency meeting, in my opinion, it's highly probable."

"If this were to come true, wouldn't Su Guolin be overpowered in the company?"

At this time, Su Guolin had not yet come to the conference room, so the others were cautiously discussing.

For so many years, Su Guolin's status in the company had always been higher than Su Guoyao's, and almost the entire company was used to Su Guoyao being a useless loser, and many senior employees would not take Su Guoyao into consideration.

But now, the situation has changed, Su Guoyao can make such a big cooperation, he will certainly be used by the old man, and his future status in the company will be self-evident.

Not long after, Su Guolin appeared with a gloomy face, and the others also stopped discussing the topic.

After all, the current situation is their guess, whether Su Guoyao has a deal or not is still unconfirmed, and they don't dare to offend Su Guolin easily.

Choosing to take sides without a clear result is an absolutely stupid move.

After waiting for a long time, the old man finally appeared, and when his face was gloomy, the entire atmosphere of the meeting room became rigid.

The others couldn't help but wonder if Su Guoyao had failed, or if not, the old man shouldn't have had such a serious and cold expression.

"I didn't expect that there would be a mole in the Su family." The first sentence of the old man's words made the crowd tremble with fear.

A mole has appeared.

Today's meeting was afraid that it was a Hongmen Banquet.

If there really was a traitor, and the old man caught him, would he still have a foothold in the Su family in the future?

The others were puzzled, but Su Guolin's face changed. He had only met Yang Guangyuan today, so how could the old man have noticed so quickly?

Could it be that Yang Guangyuan betrayed him again?

The old man deliberated over the changes in each person's expression, and most of them showed a puzzled expression, but Su Guolin was gloomy.

This made the old man's heart heavy, could it be that the mole who betrayed the Su family was his most trusted son?

"Someone has revealed Feng Qian's plan, and you should know what this news means to the Su family, and I'm curious to know what benefits Yang Guangyuan has given you." The old master continued.

"Old Master, Feng Qian's plan, was Yang Guangyuan aware of it?" A certain person spoke up.

Yang Guangyuan, as an old rival of the Su family for many years, if he really knew about this, it would be quite a blow to the Su family.

Because Yang Guangyuan has always been very shameless in his competitive tactics, the Su family has not lost to him once, and if they lose again this time, they may never have a chance to turn back.

If Yang Guangyuan is allowed to grow bigger, he will definitely leave the Su Family with no room to survive in Yun City, which is a fatal blow.

"Yang Guangyuan is a vicious guy, if we let him talk about the plan with Feng Qian, our company will be targeted by him in the future."

"Who, who is the mole, dared to betray the Su family, this is to put the Su family on a desperate path."

After all, the Su family's interests were still related to their own development, and without the Su family, they wouldn't have a better chance to make money.

The old man deliberately paid attention to every change in Su Guolin's expression, and compared it to the others, he already had an answer in his heart.

But he couldn't figure out why Su Guolin was doing this!

"Su Guolin, don't you have anything you want to say?" When the old man spoke, the meeting room instantly fell silent.

Everyone's eyes gathered on Su Guolin, and they felt strange that Su Guolin, as the person with the most power under the Su family's old man, didn't make any comments at such an important time.

Could it be that the ..... Su family's mole is him?

"Dad, leave this matter to me, I will find out who the traitor is." Su Guolin blurted out, he could not admit that he was the mole, or else the old man would never let him go.

## **Chapter 1370**

"You left the company early today, where you went and who you met." The old man got straight to the point and asked.

Asking this question already showed that the old man was suspicious of Su Guolin.

Because in this conference room, he had observed everyone's expressions change, and except for Su Guolin who was a bit strange, everyone's reactions were normal.

And Su Guolin was also the last person who wanted to see Su Guoyao's cooperation because he didn't want Su Guoyao's status in the company to be higher than his.

So Su Guolin definitely had a motive to betray the Su family.

"Dad, do you suspect me?" Su Guolin said in a deep voice.

"I'm not doubting you, but I want to ask you what exactly is in it for you to do this." The old man said.

When the old lady heard this, she frowned, the matter hadn't been investigated clearly, and the old man seemed to have decided that Su Guolin was responsible for this.

The company's future development, in the old lady's opinion, is something that only Su Guolin is capable of leading.

He is the most likely successor to the old man in the future, so how could he betray the Su family?

"The matter hasn't been investigated yet, how can you doubt Guolin?" the old lady said to the old man with a face of dissatisfaction. The old lady said to the old man with a dissatisfied face.

The old man smiled coldly, before he saw Su Guolin, he suspected everyone, but after coming to the conference room, he was certain that Su Guolin was the mole.

"This has nothing to do with you, don't interfere." The old man said coldly.

Although the old lady didn't interfere in the development of the company, she was also a member of the Su family, and it was such an important matter, if there was a misunderstanding, wouldn't it ruin Su Guolin.

"How does it have nothing to do with me, he is my son, don't I know what he is like, how could he do something that damages the Su family, the future Su family is all his." The old lady said.

The old man turned his head to stare at the old lady, with an icy look, his eyes even more revealing a cold air, and said: "If you are talking, leave the conference room."

"What do you mean, are you going to turn against me?" The old lady was also in a temper and didn't give an inch.

"In front of company events, no matter what your status is, it's useless." The old man said, immediately called the security guards.

This makes the old lady's heart thump, she two married for many years, although there are quarrels, but turn over to this extent is unprecedented.

This means that the old man is really angry.

"Guolin, you're not afraid of the shadow, Mom believes in you." The old lady said to Su Guolin before she left the meeting room.

Su Guolin endured to keep his expression from showing a flaw, but in his heart, he was already walking on thin ice, and if the truth was found out, the old man would never be forgiving.

And Su Guolin didn't expect the matter to be revealed so soon.

"Dad, if you suspect me, you need to have proof, right, why do you say I did it for no reason?" Su Guolin said.

"The entire company, who else wants Su Guoyao to fail but you, who else doesn't want to see Su Guoyao turn over a new leaf." The old man said.

Su Guolin smiled faintly and said, "Dad, just because of this reason, so you can assume that I did it?"

It was true that the old man had no proof that Su Guolin had done it, but at that moment, his cell phone rang.

It was Su Guoyao calling.

The old man immediately pressed the answer button and turned on the speaker mode.

"Where have you been? Why can't you get through?" the old man said in a questioning tone. The old man asked in a questioning tone.

"Dad." Su Guoyao's voice appeared very weak, explaining to the old man, "I was waiting for Feng Qian's boss at Feng Qian Company today, and somehow a group of people came and beat me into the hospital, I just woke up and I don't know what happened."

"Do you know who did it?" The old man asked.

"I'm not sure, but I suspect that the news of the new city has been leaked, and I'm afraid that the person who beat me up was a competitor." Su Guoyao said.

"Yang Guangyuan." The old man said.

Hearing these three words, Su Guoyao gritted his teeth, his methods have always been unclean, it is not surprising that he did this kind of thing.

"Dad, how did Yang Guangyuan know this news?" Su Guoyao asked.

The old man looked up at Su Guolin, which should be the work of this second son of his.

"Who do you think would betray the Su family?" The old man asked.

When Su Guoyao heard this, the first thing that came to his mind was Su Guolin, because Su Guolin had said that he would never allow Su Guoyao to succeed.

Besides him, there was no one else in the Su family who would dare to do such a thing.

"Dad, Su Guolin said that he would never allow me to succeed, and this thing, he wouldn't have done it," Su Guoyao said.

"Whether it's him or not, I'll find out, you rest well." The old man said.

"Dad, I'm sorry, I missed today's opportunity, but don't worry, when I'm better, I'll ask my friend to help pull the strings again." Su Guoyao said.

"Don't worry, I won't leave this matter to anyone else."

After saying that, the old man hung up the phone.

Now that Su Guoyao's suspicion had been eliminated, the old man could be even more certain that Su Guolin was responsible for this matter.

"Whether you did it or not, I'll find out, and once I find out that you had something to do with it, think about what will happen to you." The old man said to Su Guolin.

Before he did this, he didn't think about the consequences, because he was only thinking about how to make Su Guoyao fail and how to trample on Su Guoyao.

At this moment, Su Guolin was already regretting a bit.

Once the truth was found out, he would not only lose his position in the company, but also the Su family, which might not be able to tolerate him anymore.

The old man left the Su family company and went directly to Yang Guangyuan's company.

If you want to find out about this matter, it is naturally more direct to find Yang Guangyuan, and it is the most truthful to get the answer from Yang Guangyuan.

Yang Guangyuan had a lot of grievances at the hands of Xiaolong, but he didn't dare to vent them easily and could only hold them in his heart.

"Boss, the master of the Su family is looking for you." At this time, the secretary came to Yang Guangyuan's office.

"Master Su?" Yang Guangyuan frowned, how could this old thing come to see him in person?

"Let him in." After saying this, the secretary was just about to turn around, but she was called by Yang Guangyuan again.

"Your skirt today, but it's too long, next time, otherwise, I'll have to change the secretary." Yang Guangyuan said with a lecherous smile on his face.

The secretary threw a wink at Yang Guangyuan and said, "Boss, you've seen me when I'm not wearing it, what do you care about the length of the skirt?".
