

His True Colors Chapter 1511-1520

Chapter 1511

Fei Lingsheng looked at the young man with puzzlement, not understanding where his laughter came from.

After the young man stopped laughing, he said to Fei Lingsheng, "Who told you that he was the only one in Xuanyuan who was strong in the God Realm?".

After savoring these words, Fei Lingsheng's eyes widened.

He clearly meant that there were not only Han Qianqian, but also other God Realm powerhouses in Xuanyuan World.

And this person was obviously him.

Because he could create dreams, which was something Fei Lingsheng's ability could not reach.

Above the Extreme Master, isn't that the God Realm.

"You are also a divine realm powerhouse!" After Fei Lingsheng said this, he began to shake his head violently and said, "Impossible, impossible, how could there be a God Realm powerhouse in Xuanyuan World."

"Why are you so sure that there isn't?" The young man looked curious and asked.

"Because I know enough about the world of Xuanyuan." Fei Lingsheng said.

"Stupid trash, with your ability, how can you understand Xuanyuan World? You don't think Xuanyuan World is really like what you see, do you?" The young man said disdainfully.

Fei Lingsheng questioned herself for the first time, she had lived for hundreds of years, she had been to every place in Xuanyuan World, if she didn't know enough about Xuanyuan World, how could she?

"You are a powerful divine situation in the Xuanyuan world, but but you, why are you still able to stay in the Xuanyuan world." Fei Lingsheng asked, she thought this was a flaw in the young man, because after reaching the divine emotion, it would cause the gates of heaven to open wide, which would then cause him to ascend to another higher dimension, which was not something that human power could refuse.

The reason why Han Qianxiang did not succeed in ascending in the first place was because he had never reached the true God Realm, and was only a pseudo-God Realm.

"That's why you didn't know I existed, I concealed my breath and that's why I was able to stay in the Xuanyuan World." The young man explained.

"Hehe." Fei Lingsheng sneered and said, "Do you really expect me to believe that there is a higher space and a more powerful realm to break through, how could you stay in Xuanyuan World."

"It's because I already knew that Han 3000 would destroy the Xuanyuan World, that's why I waited for him, and after he died, I could ascend without any worries." The young man said.

Han 3,000 would ruin Xuanyuan World?

How is this possible, he just wants to kill the Lin Long now, this is a good thing for the Xuanyuan world, how could it destroy the Xuanyuan world?

Fei Lingsheng felt that the young man in front of him was full of lies.

And even if he really was a strong divine realm, it was impossible for him to foresee the future.

"Who the hell are you, appearing in my dream world, and what do you want?" Fei Lingsheng got to the point, since he created the dream world and appeared in it, he must have a purpose.

"I want you to help me, as long as Han Qianxiang is dead, I can tell you the way to reach the divine realm." The young man said.

Fei Lingsheng frowned and said, "Do you want me to kill Han Qianxiang? With my strength, it's impossible for me to be a match for him."

"Of course I won't let you fight." The young man said with a smile, seemingly with some disdain because he felt that Fei Lingsheng thought too highly of himself.

"What I'm asking you to do is to kill Su Yingxia." The young man said.

"Why?" Fei Lingsheng was puzzled, Su Yingxia is just an ordinary person now, it will not pose any threat to Xuanyuan world, you can even say that she is just an innocent person, her life or death has nothing to do with Xuanyuan world.

And if you kill Su Yingxia, you might provoke Han Qianqian's anger, which will then anger the entire Xuanyuan World, which will then threaten Xuanyuan World.

"You don't need to know why, as long as you can help me kill this woman, I can tell you the way to reach the God Realm." The young man said.

The way to reach the divine realm!

For Fei Lingsheng, this is definitely a great temptation, because her current goal is to reach the divine realm and ascend to another world.

However,

Su Yingxia was more important to Han Qianqian than the world, if Su Yingxia died, Fei Lingsheng could not imagine what Han Qianqian would do.

And if it was up to her, Han Qianqian would never let her go, even if it meant hunting her down from the ends of the earth, Fei Lingsheng would die in Han Qianqian's hands sooner or later.

"Are you afraid of Han Qianxiang's revenge? There is no need. After killing Su Yingxia, you will return to Xuanyuan World, and I can keep you alive." The young man continued.

Fei Lingsheng still didn't dare to agree easily, because this decision was a huge turning point in her life, on the one hand, the God Realm, and on the other hand, it was really hard for her to choose to completely anger the powerful God Realm.

At that moment, the dream suddenly disappeared.

When Fei Lingsheng opened her eyes, she had already returned to reality.

It was at this moment that the dark forest of Xuanyuan World emitted a dragon's roar that resounded throughout the entire Xuanyuan World, causing the world to tremble.

Chapter 1512

After Han Qianli took Su Yingxia out of school, Su Yingxia was completely free and no longer bound by her studies, which made Su Yingxia let herself go.

When Han Qianqian saw Su Yingxia happy, he also unconsciously followed her happiness, and it is true that studying is of little use to Su Yingxia now, because when Su Yingxia starts to cultivate, it will be easier for her to learn certain aspects of knowledge.

When she became a true cultivator, it wouldn't be too late to study those things she was interested in.

"When are you going to teach me to cultivate?" Su Yingxia asked Han Qianli with eyes full of anticipation.

"Whenever you want, you can start whenever you want." Han Qianli said with a smile.

Su Yingxia thought carefully and said, "Why don't you give me another day off and start tomorrow."

As soon as he saw Su Yingxia's eyes roll around, Han Qianli knew she must have some idea and asked, "What do you want to do today?"

Su Yingxia looked mysterious and said, "I won't tell you, just come with me."

The first thing that I want to do is to get rid of the old man's head, and then I'll do it.

But since Su Yingxia wanted to play, Han 3,000 naturally had to accompany him to the end.

Looking at the roller coaster, Su Yingxia revealed a look of amazement and fear and said, "I've wanted to play before, but I never dared.

"I have a more exciting way to play, do you want to try it." Han Qianli said, "In his eyes, the roller coaster is not exciting at all, after all, Han Qianli's own ability is now able to fly in the air, if you take Su Yingxia to the sky and fly around, is not more exciting than the roller coaster?"

Su Yingxia deflated her mouth, and didn't ask Han Qianli what the so-called more exciting way to play is, she always wanted to try the roller coaster, and with Han Qianli's protection, she plans to try it today.

"Let's go, let's go to the queue." Su Yingxia pulled Han Qianqian and squeezed into the queue.

The roller coaster is an exciting project that is usually very popular at amusement parks, and the line was nearly an hour before it was their turn.

After doing warm-up exercises with the staff, the two got on the roller coaster.

Before it was even launched, Su Yingxia was already nervous, constantly taking deep breaths to relieve herself.

On the other hand, Han Qianqiang's face looked as usual, with no waves in her heart at all.

The roller coaster is exciting, but for people like Han Qianqian, it's just child's play.

"Aren't you scared at all?" Su Yingxia felt bewildered because the contrast between her nervousness and Han Qianqiang's calmness was so stark.

"Have you forgotten who I am?" Han Qianli counted.

"It's really boring." Su Yingxia rolled her white eyes.

Not long after, the roller coaster opened, a nervous Su Yingxia squeezed her fist, her face obviously some of the beginning of whitening.

In fact, she is very timid, if not Han Qianli accompanied, Su Yingxia could never challenge such exciting things in her life.

It's a pity that the sense of security brought to her by Han Qianxiang doesn't allow Su Yingxia to get rid of her own fears.

When the roller coaster moved upward and reached the first dive, Su Yingxia had closed her eyes, and the screams in her ears made her even more nervous.

Suddenly, in the middle of the crowd, Han found someone staring at him, and when he looked with his senses, he couldn't find any target.

It was impossible for an ordinary person's eyesight to give him such a feeling.

Han Qianli then covered the entire amusement park with his consciousness, but there was no one who was a cultivator.

Suddenly, the roller coaster's dive began, and the screams became more intense, but Han Qianli had an ominous premonition.

Normally, he would never have such a feeling on Earth now that he had the strength of a God Realm powerhouse.

At this time, a crisp sound suddenly came from Han Qianli's ears, and the track in front of him broke apart!

The tourists who were suffering from the impact of the great excitement did not notice this, but Han Giang Li actually saw it.

Generally speaking, amusement park facilities, especially this kind of excitement, will be tested and inspected every day, the probability of such a major accident is very low, not to mention the seriousness of the track breakage.

The first thing Han Qianli felt was that this was done intentionally by someone, and this person, most likely, was the one who was staring at him just now.

However, the consciousness Han Qianli covered was unable to sense his presence at all, what was going on?

The roller coaster was about to travel to the place where the track broke, and Han Three Thousand had to put this issue aside for the time being and use his ability to get the roller coaster across the track break unharmed to avoid tragedy.

No one knew they had just experienced a moment of life and death, and it wasn't until the roller coaster had completed its journey that the tourists regained consciousness from the tremendous impact.

Han Qianli, on the other hand, was the first to walk toward the staff.

After walking up to the staff, Han Giangli directly said, "This project can no longer continue, the track has been disconnected and must be overhauled."

The staff rolled their eyes and couldn't help but curse, "Nuts."

The reason for the scolding was that the staff felt that Han Qianli was deliberately looking for trouble. The project was running fine, so how could the track suddenly break?

And a little kid's words, the staff subconsciously took it as a prank.

"Can you be responsible if someone is killed?" Han Qianqiang continued, although these tourists and he had never met, even if these people died and Han Qianqiang had nothing to do with it, but since he knew about it, he couldn't let this tragedy happen in front of him.

"You're really sick, to have someone die. Why didn't you just die." The staff said with impatience on their faces.

"If you don't do a checkup, the next busload of people, all of them, will die. Can you bear the consequences of that?" Han Qianli continued.

"You have to leave, don't make a scene, or I'll call security." The staff apparently lost patience and gave Han Qiangiang a shove, trying to push him away.

But Han Qiangiang stood firm as if it was a mountain, and the staff, on the other hand, was almost knocked down by the force of the backlash.

At that moment, Su Yingxia came to Han 3,000 and asked, "What's wrong? Let's hurry up and play the next item."

Although the staff was still surprised by the back shock, but after hearing Su Yingxia's words, they quickly said, "Take your boyfriend away, he's gone crazy."

"You're the one who's crazy." Su Yingxia didn't know what happened, but when she heard that the staff actually dared to scold Han Qianli, the first thing she did was to talk back.

Seeing Su Yingxia looking like she was protecting herself, Han Qianli couldn't help but be happy.

"The track was disconnected, and if this project continues to run, there will definitely be a major accident, so I asked them to overhaul it." Han Qianli said to Su Yingxia.

The track was disconnected?

Su Yingxia was stunned, if the track was really broken, how could they be safe?

Leaning close to Han Qianqian's ear, Su Yingxia whispered, "You can't be mistaken, can you?"

"If it wasn't for me, this busload of people. It would have been dead." Han Qianqian said.

Su Yingxia had great faith in Han Qianli's ability; after all, he was already called a god by the other world. His words should not be false.

And Su Yingxia could not think of any possibility of Han 3,000 stirring up trouble for no reason.

"Your leaders, this matter, you'd better report it, check to rule out the possibility of an accident, in case of a real accident, you can not be responsible for." Su Yingxia said to the staff.

"Two neurotics, if you don't leave, I'll really call security."

At this time, the waiting tourists also got impatient.

"What are you doing. Hurry up and drive."

"Yes, there are still so many people in line, what's the dawdling. Are you guys trying to deliberately stall for time?"

"We bought the tickets, but I don't believe we'll complain about you."

Many tourists started to make a commotion, and the staff had to point at Han Qianxiang and say loudly, "This guy said the track was disconnected and wanted us to check it, but if he hadn't been messing around and stalling for time, it would have opened long ago."

As soon as he said that, the tourists' angry eyes instantly turned to Han Qiangli.

"Nuts, you just sat well, how come you finished, then the track broke."

"You're not looking for an excuse to play again, are you."

"Fool, get out of here, or else I'll be rude to you."

Certain people shouted at Han Qianli and threatened him to get out of the room.

Su Yingxia quietly tugged on Han Qianqian's corner. She said, "Otherwise, let's just leave, because these people don't trust you at all."

Han Qianli could just walk away. Let these guys have a taste of the consequences of ignorance.

But the consequences were too serious for them, and Han 3,000 could not stand by and watch so many fresh lives die before him.

"The overhaul won't take too long, but if something really goes wrong, you'll all die, so if you're not afraid, go ahead and try," Han Qianli said.

As soon as Han Qianli said this, certain people began to hesitate. Certain people began to hesitate, riding the roller coaster was a thrill-seeking ride, but never a life-threatening one.

"How about. It's better to check it out, so that none of us are worried."

"I think we can. It's better to waste a little time than to have a real accident."

"Hey, how do you unlock this buckle. Quickly open it for me."

The more the people who had just shouted, the more they now revealed their fearful side, thinking that they might really die. One by one, their faces changed.

The staff had expected the tourists to directly scold Han 3,000 away, but the situation suddenly became like this, no way. They had no choice but to consult the leaders.

The person in charge soon arrived, with a great temper, and directly scolded the staff.

The company has been in the process of developing the new product for the past three years.

But the case of the broken track is very unusual, but someone did it on purpose.

"You'll thank me after you send someone to inspect it." Han Qianli said indifferently.

"Hurry up and send someone to inspect it, don't waste time."

"Yeah, if there's really no problem, we can play it safe, too."

"In this situation, who would dare to sit."

Some tourists, in order to have peace of mind, followed suit.

He knew that if he didn't put the tourists' minds at ease, the project would have to be closed temporarily.

"Little kid, if the inspection turns out to be fine, I'll be arrested by you today at the police station." The leader gritted his teeth and said to Han Qianqiang, who he thought was the cause of this unnecessary trouble, so he made sure to give Han Qianqiang enough punishment.

"If you really disconnect, you can thank him," Su Yingxia said.

The leader laughed scornfully, as he saw this situation as absolutely impossible, so how could he have the opportunity to thank Han Qianqian?

After a while, the safety officer's rapid breathing suddenly came over the leader's intercom and said, "Manager, something big happened, the track broke!"

Chapter 1514

Hearing these words, the manager was directly confused, and those tourists who had just been on the roller coaster, felt a cold sweat on their backs.

The track broke!

If you run the equipment under these conditions, you can imagine the consequences.

For those tourists, they completely picked up their lives, but even so, certain people were scared to death.

"How can this be!" The manager wiped the cold sweat from his forehead and said, "Take a closer look, is it blurred vision, how could the track be broken."

The safety officer was obviously also very scared, and gasped very badly as he spoke, saying, "There's no mistake, it's really broken, and we need to turn off the roller coaster equipment immediately."

The manager swallowed his saliva, if this was the case, the consequences could be imagined, and he, the manager, would certainly bear a huge responsibility, and probably his life would be over.

"Okay, I'll inform the park right away." The manager said.

"Hmph." Su Yingxia snorted coldly and said, "How about it, now you're willing to trust us."

The manager nodded his head repeatedly and said to Han Qianli with a grateful face, "Little brother, thank you very much, if it weren't for you, something big would have happened today."

Han 3,000 did not think of anything in return for doing this, and thanking him didn't mean anything to him, he just didn't want to see these innocent people die.

And in a way, he was the one who caused the consequences of the broken track, so if the tourists died in an accident, Han 3,000 was also the one who indirectly killed them.

After all, that person was coming for Han 3,000.

"I don't need your thanks." Han Qianxiang said indifferently.

The manager was a little embarrassed, his attitude just now would have strangled Han Qianxiang to death, but now, his heart only had gratitude for Han Qianxiang, but Han Qianxiang obviously did not accept.

"Little brother, thank you, but you saved our lives."

"If it wasn't for you, we would have all died here today."

"Thank you, thank you."

Those who were angry at Han Qianli just now also expressed their gratitude to Han Qianli.

Han Qianli held Su Yingxia's hand and left from the crowd.

"Those people are still thanking you, why are you in such a hurry to leave?" Su Yingxia asked Han Qianli, puzzled. In her opinion, Han Qianli should be thanked by those people for being a hero for once, so why did he leave so quickly?

"If they die, I'll take the main responsibility, so I don't need their gratitude," she said. Han Qianli faintly said.

"Because of you?" It is the responsibility of the amusement park to disconnect the track, so how can it be related to Han Qianli?

"Remember the person I mentioned to you before, from the Xuanyuan World," said Han Qianli. Han Qianqian said.

Han Marchan told Su Yingxia everything, including the incident in which the old man was injured.

Su Yingxia nodded her head, thinking that the orbital fracture had something to do with that person, but didn't Han Qianqian say that he had left Yanxia and gone abroad?

"Remember, but didn't you say he went overseas?" Su Yingxia asked in puzzlement.

The reason why Han Qianli thought so subconsciously was because when his consciousness covered the entire Yan Xia, he didn't feel that person's scent.

But now, Han 3,000 was still overconfident; that person was obviously still in Yan Xia and was right beside him, but he had used some means to conceal his breath, which was why Han 3,000 didn't sense his presence.

About this point, Han 3,000 was also very strange.

After all, he was now a God Realm powerhouse, and it was impossible for an ordinary person to conceal his breath, even an Extreme Master Realm powerhouse like Fei Lingsheng couldn't do it, so he was surprised as to how that person was able to do it.

"I was wrong, he's right next to us, I just haven't found him yet." Han Giangli said.

Beside us!

Su Yingxia subconsciously squeezed Han Qianqian's hand, wouldn't it be very dangerous if such a dangerous person was right next to them!

"You didn't mean to scare me, did you?" Su Yingxia looked to her left and right, her eyes clearly revealing fear.

"Let's go home first," Han Qianli said. Han Qianli said, "If we continue to play, we don't know what will happen, so in Han Qianli's opinion, going home is the best choice, and it won't get those innocent people involved.

Although Su Yingxia was still not satisfied, she was not capricious in this situation and said, "Let's go, I don't dare to play anymore."

Han Qianli was in a heavy mood because he now knew that the other person was right next to him, but he couldn't find out who that person was, which virtually increased the danger to those around him,

and he was able to completely conceal his scent, which meant that as long as he didn't show himself, Han Qianli would never be able to find out who he was, which was the biggest trouble.

How can one have peace of mind by having a bomb that can explode at any moment stay by one's side and cannot be eliminated?

Chapter 1515

When she returned home, Han Qiangang was sitting on the living room sofa with a heavy heart.

Su Yingxia knew that the situation was a bit serious, and did not dare to disturb Han Qianqian easily.

For Han Qianqian, the situation was indeed out of his control, because he couldn't sense the other party's presence, which meant that the other party could do whatever he wanted under his nose, and do whatever was not good for him, and he had no way to stop this from happening.

This gave Han Gongqiang a headache.

And there was one thing that Han 3,000 couldn't figure out: how was he able to completely shield his breath?

You know that in front of a God Realm powerhouse like Han Qianqian, almost no one could do this, unless his strength was the same as Han Qianqian's, and only if he was a God Realm powerhouse.

But with Han Qianqian's knowledge of Xuanyuan World, this possibility was very small, so small that it was not even possible.

In Xuanyuan World, the God Realm is a legendary realm, which means that for the past few hundred years, no God Realm powerhouses have appeared at all, and the fact that Han Qianxiang was able to reach the God Realm was a combination of many factors.

After a few days of healing, his physical condition had obviously become much better. After all, he was also an Eight-Light Realm powerhouse, and his body's ability to heal itself was still very strong.

Seeing Han Qianqian's serious expression, the next old man couldn't help but ask, "Uncle Ancestor, did something happen?"

Han Qianqiang took a deep breath and said, "Do you still remember what the man who injured you looked like?"

"Remember." The next oldest said.

"Can you draw it?" Han Giangli asked, he couldn't sense the other party's existence with his consciousness right now, he could only settle for the second best, if he could know what the other party looked like, he could be considered to have a clue.

"I can describe it, but drawing, I'm not very good at it." The next old man said with a difficult face.

"I've studied sketching for many years, so if you can describe the features to me, I should be able to draw them." Su Yingxia, who was on the side, said.

He and Su Yingxia were considered husband and wife for many years before they were reborn, but he didn't even know that Su Yingxia could still sketch.

"What's wrong, don't you believe me?" Seeing Han Qianli's surprised face, Su Yingxia said with a pout on her lips, "Han Qianli quickly shook her head and said, "I don't disbelieve it.

Han Qianli quickly shook his head and said, "No disbelief, just a little surprised."

Looking at Han Qianli's appearance, she seemed to be completely unaware that she had such skills, Su Yingxia couldn't help but ask, "Has the future me, already given up sketching?"

Su Yingxia has always had a dream in her heart to become a master sketch artist, but there is a certain gap between her dream and reality.

But there was a certain gap between the dream and the reality, and when she left the college and came into contact with the society, she was faced with the problem of survival, and before Han Qianqian appeared, the Su family's life was very difficult, so Su Yingxia had to give up her dream.

"Once in the future, you should have given up, but now, you can do anything you want," Han Qianli said.

Su Yingxia understood the words, because she knew that Han Qianli was reborn, but the next old man felt a little cloudy.

Once upon a time, the future, these two words together, how can feel odd.

When Su Yingxia brought a pen and paper, the old man began to describe it to Su Yingxia with his own memory of the person.

The portrait was finally completed, and the person in the portrait gave Han Qianli a very strong sense of familiarity, he was sure he had seen this person somewhere, but he couldn't remember at the moment.

"Master Uncle Ancestor, do you recognize this person?" The next old man asked.

Han Qianli frowned, the memories in his mind like waves tumbling, constantly changing.

"Yi Qingshan!" Han Qianqiang suddenly said!

This familiar portrait, because some of the features might be wrongly remembered by the next oldest, so there were some deviations, but Han Qianli still recognized that this person was Yi Qingshan.

The Extreme Master Realm powerhouse of the Xia Kingdom of Xuanyuan World!

Han Qianqian had never expected that the fellow from Xuanyuan World would be him.

"Master Uncle, who is Yi Qingshan?" The next old man couldn't wait to ask.

"Xuanyuan World's Summer Kingdom's Extreme Mastery, how could he appear here, and with his strength, how could he hide his breath right under my nose." Han Qianqiang said, biting his back groove teeth.

Yi Qingshan was only an Extreme Master Realm.

Although he was already dominant in Xuanyuan World, he was just like an insect in Han Qianlian's eyes.

Neither the second oldest nor Su Yingxia was qualified to answer Han Qianlian's question, so they were both silent.

Han Qianqian picked up the portrait and confirmed repeatedly, "If this is not Yi Qingshan, who else could it be?"

Could it be that he suddenly broke through the divine realm and that's why he wasn't sensed by Han Qianqian's divine sense?

But how is this possible!

Although many things have changed since his rebirth, the divine realm is not something that can be broken through casually, so how could Yi Qingshan do it!

Chapter 1516

Seeing Han Qianqian's serious expression of silence, the old man didn't dare to interrupt Han Qianqian's thoughts, but he also pondered this matter in his heart.

Since Han Qianqian thought it was impossible for Yi Qingshan's strength to conceal his scent, was there any other possibility?

Did Yi Qingshan use some kind of artifact?

Or, someone helped Yi Qingshan cover up his breath, which are all possibilities.

After a long time, Han Qianli took a deep breath and said, "This is big trouble. Han Qianli took a deep breath and said, "This is a big problem, he can cover up his breath so that I can't find him at all, which means he can do whatever he wants around me."

"Isn't there any other way?" Su Yingxia asked.

Han Qianqiang shook his head, unless Yi Qingshan was willing to show up voluntarily, otherwise, it would be very difficult to find him, because at the Extreme Master realm, he could just change his appearance. He can change his appearance at will, and in this case, even if he passes by Han 3,000, he may not be able to find him. Even Han Qianqian might not be able to find him.

"Master-Uncle Ancestor, could there be a possibility that he leveraged something or got someone's help so that he could conceal his scent?" The next oldest man told his speculation.

But such a guess could not help the situation, because the problem was that the focus was no longer on how Yi Qingshan did it, but on the fact that Han Giangiang had no way to discover him.

"It doesn't matter, I have to find a way to find him." After Han Qianli finished speaking, he looked at Su Yingxia.

Su Yingxia felt that Han Qianli was specifically looking at her. He must have something to say, so he asked, "I'll do whatever you want me to do."

Han Qianli smiled helplessly, the reason he was looking at Su Yingxia was because he wanted to go to the Apocalypse to see the situation of the spatial tunnel in person, and he could also discuss this matter with Fei Lingsheng.

In Su Yingxia's current state, she didn't know if she could accept Fuyan's power.

"I'm leaving Cloud City for a while, and I have to take you with me." Han Qianli said, if he left Su Yingxia, Yi Qingshan would most likely be unfavorable to Su Yingxia, a situation Han Qianli would never want to see.

"You can." Su Yingxia looked like she was dancing with eyebrows and said, "I'll treat it as a trip, you don't know, since I was a child, I've left Cloud City only a handful of times, let alone going further away. You don't know, ever since I was a kid, I've left Cloud City only a handful of times, not to mention going to farther places."

"You continue to stay here and recover from your injuries, and then return to the Apocalypse after you've completely recovered." Han Qianli turned to say to the next old man again. Although the second old man had recovered most of his injuries, he hadn't healed after all, and only at the mountainside villa would he be able to recover at a higher level.

Second Elder already considered Han Qianli as his granduncle, so of course he had to obey what his granduncle said.

"Master-uncle ancestor you can go without worry, I'll watch over the house for you." The next oldest said.

"In that case, let's go." Han Qianli said to Su Yingxia.

Su Yingxia looked particularly excited, though she didn't know where Han Qianli would take her. But to be able to leave Cloud City and see the outside world, to Su Yingxia it was something worth being happy about.

"Don't you need to pack your luggage?" Su Yingxia asked.

"No need. As long as there is money, any problem can be solved." Han Qianli faintly said, this is the rich man's benefit, can use money to buy things, where still need to pack.

"Tsk tsk, what a wealthy man." Su Yingxia said with a deflated mouth.

Han Qianli faintly smiled.

The two of them decided to set off immediately.

After leaving the Genting Mountain villa area, Han 3,000 had a strange feeling in his heart that someone was watching him, but when he used his consciousness to sense it, there was no one nearby, which was probably the shadow in his heart caused by his inability to control Yi Qingshan's whereabouts.

As long as Su Yingxia was by his side, as long as he could keep Su Yingxia safe, it wasn't a big problem for Han Qianli.

And even if Yi Qingshan wanted to deal with him, he wouldn't go looking for the knife. It's not as if he would go looking for trouble from someone like Twelfth Blade Mo Yang.

When she arrived at the airport, Su Yingxia obviously became a bit apprehensive, because she had already said it before. Even the number of times she had left Cloud City was limited to a handful of times, and Han Qianqian could probably guess that Su Yingxia had never been on a plane.

"Compared to a roller coaster, an airplane is much smoother, and if you're not afraid of a roller coaster, are you still afraid of flying?" Han Qianli smiled and said to Su Yingxia.

Su Yingxia did have a little bit of fear in her heart, after all, it was something flying in the sky. If any accident occurred, there was a good chance that it would be dead.

"The failure rate of the plane should be very low, right?" Su Yingxia asked casually.

"Of course." Han Qianli smiled casually. If the failure rate of airplanes is high, who would dare to fly anymore.

After saying these two words, Han Qianli's smile suddenly froze on his face.

The natural failure rate of airplanes was indeed low. And before every flight, there was an inspection to ensure that the plane could operate safely.

But this was a normal situation without any external interference, and if there was any external interference, no one knew what would happen. One never knows what will happen.

For example, a roller coaster track!

Thinking of this, Han Qianli quickly took Su Yingxia's hand. She stood up and prepared to leave the airport.

"What's wrong? I'm afraid, but not so afraid that I won't sit down. Is this not going to sit?" Su Yingxia was puzzled and asked Han Qianqian.

If the plane crashed, Han 3,000 could guarantee his and Su Yingxia's safety, but the other passengers would be implicated because of him, which is why Han changed his mind.

Of course, Han 3,000 is also capable of saving the entire cabin, but if he did, it would be international news.

"I almost forgot about the playground if you didn't remind me," Han 3,000 said.

The amusement park?

Su Yingxia suddenly thought of the roller coaster, and that's how she understood why Han Giangli didn't take the plane.

"That person is so annoying, he ruined my chance to fly." Su Yingxia said with dissatisfaction.

After walking out of the airport, Han Qianli said; "If you want to experience the feeling of flying in the sky, I can satisfy you, but only at night."

When Su Yingxia heard this, her eyes rolled around and asked, "Can you fly?"

"To me, it's just a child's play." Han Qianli smiled.

"Really?" Su Yingxia asked with an expectant face.

"Of course it's true, how about this, we'll play around during the day and drive at night, how about that?" Han Qianli said.

Since Su Yingxia has never been on a trip before, Han Qianli simply took this trip as a trip with Su Yingxia, and played during the day and drove at night, so it wouldn't take too much time.

Chapter 1517

Afterwards, Han Qianli went to find Mo Yang.

Mo Yang, who has now abdicated the throne, and Liu Fang lived a shameless life together, completely immersed in the world between the two of them can not escape. For anything in the outside world, Mo Yang's attitude is unconcerned and unconcerned, and under the violent means of the Twelfth Blade, even if Mo Yang abdicated, his former enemies would not dare to come to him for revenge, for fear of dying in the hands of the Twelfth Blade.

So now Mo Yang. He lived a carefree life.

When Han Qianqian came to the door, Mo Yang was a little surprised. Because he had never told Han Qianqian where he lived.

But when he thought about it, Han Qianqian was the boss of the Twelve Blades, and if he wanted to know where he lived, the Twelve Blades would be able to find out casually.

"Why do you have time to think of me today." Mo Yang asked after he led Han Qianqian into the house.

Liu Fang very virtuously poured a glass of water for Han Qianqian and Su Yingxia.

The offspring of a literary family, all the time reveals a kind of elegance. This is also the reason why Mo Yang will be unable to help himself to love Liu Fang, because the women he has met before are all nightclubs, all flirid and flirid, like a little girl, but Liu Fang is a completely different feeling, is a real woman.

"I want you to go live in the hillside villa." Han Qianli said directly, that's why he came to find Mo Yang, after all, Mo Yang is the person Han Qianli plans to bring to the Xuanyuan world, so that he can start cultivating at this time. It would be better for Mo Yang to integrate into Xuanyuan World in the future.

"What's wrong? You don't mind my environment here, do you? My wife built this with her own hands." Mo Yang deliberately acted as if he was unhappy.

"I didn't mean it." Han Qianliang looked at Liu Fang. There were some words, and I didn't know if it was appropriate to say them in front of her.

Liu Fang was a very reasonable woman, and when she saw Han Qianqian's eyes, she understood that she was not suitable to be present, so she said to Mo Yang: "I'm going back to my room first."

Mo Yang did not say anything, since Han Qianqian has taboos. Liu Fang going back to her room is the best.

"Say what you have to say, you don't want to ruin our relationship. Just for a little while, it'll take a lot of coaxing on my part." Mo Yang said to Han Qianqian.

"No, I think she's quite sensible." Han Qianqian said.

"Being sensible is one thing, being a spoiled brat is another. You're still young, how can you be an adult in the world." Mo Yang disliked her.

Han Three Thousand couldn't help but roll a white eye, this guy knows his business, but he still deliberately targeted him with this question.

"I asked a friend to create a spirit formation for the mountainside villa, where you can cultivate, and you can initially gain some power that ordinary people don't have. You don't have to ask why or why you want to do this. I'll tell you later." Han Qianli said.

Mo Yang's eyelids jumped, the power that ordinary people didn't have, that was Han Qianli's abilities.

This made Mo Yang very impressed, and it could be said that anyone facing this kind of thing. It can be said that anyone can't be calm when facing such things.

But living in the hillside villa also means that the duo world of Mo Yang and Liu Fang is gone. This is also something that Mo Yang is not able to accept, after all, the two of them are now in the stage where they are like glue. After all, they are in the stage of glue. They hate to be like Siamese twins, and they are together every minute of every day. If there was someone else, it would be somewhat inconvenient.

"Three thousand. Can we talk about this matter a little later?" Mo Yang did not refuse. Rather, he wanted his and Liu Fang's world to last for a while longer.

What would happen after a while was unpredictable to Han 3000, but Yi Qingshan's appearance made Han 3000's control of the world change a lot, and no one knew when the unexpected would appear, so in Han 3000's opinion, the sooner Mo Yang lived in the hillside villa, the better, because he wasn't sure when he would suddenly return to Xuanyuan World.

"Something happened in the past two days that caused me to get out of control of certain things, so the sooner you go to the villa, the better," Han Qianqian said.

Mo Yang knew that Han Qianli said all of this for his own good, and he couldn't take Han Qianli's good intentions as a donkey's liver and lungs, so he could only say, "Alright, I'll discuss it with her."

"Cultivation now is crucial to your future, this matter must not be sloppy." Han Qianli said.

"What exactly will the future hold?" Mo Yang really couldn't help but ask his own curiosity.

Han Qianqiang hesitated for a moment and said, "In this universe, there are other worlds, and in the future, I will go to another place called Xuanyuan World, and if your ability is sufficient, I will take you with me."

These words left Mo Yang dumbstruck on the spot.

Although he had accepted what had happened to Han Qianqian.

But this statement from the other world still made Mo Yang a little incredulous.

Although it had always been said that there were alien civilizations in the universe other than Earth, this was just a legend and had never been confirmed in any way.

But now, Han Qianqian told him that there were indeed other worlds other than Earth!

Chapter 1518

Only after a long time did Mo Yang recover from his shocked state.

"Three thousand, Xuanyuan world, what kind of world is it?" Mo Yang asked.

"The world of cultivators, that's why I want you to cultivate, and in that world of the weak and the strong, if you're not strong enough, you're likely to be killed for no reason." Han Giang said.

In Xuanyuan World, strength is a symbol of status, and only by having strength can you protect yourself to the greatest extent.

Mo Yang nodded curtly and said, "Can I tell Liu Fang about these things?"

"It's up to you to decide." Han Giang said helplessly, once a playboy, now actually so attentive to a woman, and I don't know what kind of magic power Liu Fang possesses to make such a change in Mo Yang.

"Okay, we'll talk about it and then come back to you." Mo Yang said.

"No need to look for me, I'll be away from Cloud City for a while, if you've made up your mind, you can just move your things to the mountainside villa and choose a room." Han Qianli said.

The two of them chatted for a while before Han Qianli left with Su Yingxia.

Mo Yang returned to the room.

Liu Fang was half lying on the bed, playing with her phone as if nothing had happened, and I couldn't see any dissatisfaction on her face.

Mo Yang directly came to a hungry tiger to pounce on her.

"It's broad daylight, what do you want." Liu Fang tried to push Mo Yang away with all her strength, but how could she fight against him with the strength of a weak woman.

It was only after a bitter battle that Mo Yang told Liu Fang about going to the mountainside villa.

Liu Fang was a strict woman, but since she has been with Mo Yang, she has done many things out of the ordinary, and to do such a thing in broad daylight is something that Liu Fang never dared to think about.

"Why do you want to stay at his house?" Liu Fang asked, puzzled, her own home living well, suddenly want to go to the foster, and Mo Yang has not refused, really makes her feel strange.

"What I am about to say, you will not believe, but I can assure you, it is absolutely true." Mo Yang said seriously.

Liu Fang had seen Mo Yang's deadpan behavior a lot, and the fact that he was suddenly so serious made Liu Fang somewhat uncomfortable.

"You say it, I believe you."

Next, Mo Yang told Liu Fang all the things that Han Qianqian said, not bad at all.

Liu Fang's mood after hearing this was like watching a fantasy blockbuster.

Cultivation, another world.

Isn't this just one of those bullsh*t fairy chivalry dramas?

"You don't really believe that, do you?" Liu Fang said.

Mo Yang knew that she would not easily believe, after all, this kind of thing is not so simple for anyone to believe.

But Mo Yang had no doubt about what Han Qianqian said.

"It's normal that you don't believe it, but I want you to know that it's all true, absolutely no half-truths, and the reason why I'm with you is because of him, he's the one who told me that I'll be going to the pot of gold in the future because of you." Mo Yang said.

"You're an adult, how can you be lied to because of these words?" Her family is a scholarly family, and she has believed in science since she was a child, and these things that are beyond the realm of science are all heretical statements to her.

At this time, the doorbell suddenly rang.

Mo Yang felt a little strange, could it be that Han Qianxiang had gone and returned?

When I opened the door, the person standing outside was not Han Qianqian, but Blade Twelve.

"What are you doing here?" Mo Yang was puzzled and asked.

"Three thousand asked me to come, I don't know why." Knife Twelve said, he just received an order from Han Qianqian to come to Mo Yang's house, as to what reason, Han Qianqian didn't say much.

"What's the situation?" Mo Yang was puzzled, and he couldn't think of the reason why Han 3,000 had asked Knife Twelve to come to the house.

Han 3,000 did this because he expected that when Mo Yang told Liu Fang these things, Liu Fang would not believe them, so he asked Knife Twelve to come.

Because Knife Twelve already had abilities that ordinary people didn't have, the only way to get Liu Fang to believe those words was for her to see them with her own eyes.

At this time, Mo Yang's phone rang, it was Han Qianqian calling.

Before Mo Yang could ask his question, Han Qianqian was the first to say, "Has the twelfth arrived?".

"Here, what did you have him come for?" Mo Yang asked.

"If you tell Liu Fang these things, can Liu Fang easily believe them?" Han Qianli said.

"Can't, she doesn't believe it at all." Mo Yang said.

"That's why Knife Twelve went to your house, he can prove with strength that those things are true." Han Qiangli said.

Mo Yang's eyes looked at Blade Twelve in amazement, using strength to prove it, that means Blade Twelve has already started cultivating!

"Three thousand, you're really unkind, no wonder he's so powerful, he's already started cultivating."

In order to avoid Mo Yang droning on, Han Qianqian directly hung up the phone.

Mo Yang put down the phone in a fury, and said to Knife Twelve, "Go ahead, show my wife your ability, and make her believe that there is such a thing as cultivation in this world."

Chapter 1519

The demonstration of Blade Twelve's ability was very simple and easy for him, but after Liu Fang watched, he was stunned and couldn't regain consciousness for a long time.

Even Mo Yang himself was stunned and couldn't believe his eyes.

Only after a long time did Mo Yang ask, "Blade Twelve, is this magic?"

The side of Liu Fang nodded her head in agreement, she also thought so.

But the mention of the word magic means that they think it's fake, after all, magic is just a blindfold, but the ability of the Twelve Knives, but not the slightest bit of adulteration.

"If you don't believe me, there's nothing I can do, but one of the best ways to verify this is to go to the hillside villa, and you'll feel what real cultivation means." Knife 12 said to Mo Yang.

Mo Yang swallowed his saliva, turned to Liu Fang and said, "Honey, do you believe it now?"

After all, she had spent her life focusing on science, so how could she believe in such things now?

But even if she didn't believe it, there was no way she could prove the facts before her to be false.

"I don't know," Liu Fang said.

"Mo Yang, if you don't even want to believe the words of 3000, is there anyone in this world who is trustworthy?" Knife 12 said.

Mo Yang never doubted Han Qianqian, but certain things were really hard for him to accept in a short time, and he also had to find a way to make Liu Fang believe it.

"You go busy with your business, I'll digest it slowly with my wife." Mo Yang said.

After nodding, Knife Twelve left Mo Yang's house, what kind of decision these two couples will eventually make is not something Knife Twelve can influence.

After Knife Twelve left, Mo Yang began to earnestly persuade Liu Fang, even if she didn't believe it, she could go to the mountainside villa to live for a period of time to try, and if it was all fake, she could also take this time to expose Knife Twelve's tricks.

It was only after a period of hard talk that Liu Fang finally agreed to Mo Yang's story.

On the other hand.

After the night, Han Qiangiang directly carried Su Yingxia on his back, and the two of them cut through the night sky, heading towards the direction of the apocalypse.

Su Yingxia had been skeptical about Han Qianli's ability to fly, but now, when she really felt herself flying in the sky, she knew how foolish her doubts were, and that she shouldn't have doubted Han Qianli, because Han Qianli would never lie to her.

At first Su Yingxia was a little nervous, but when she got used to it, her whole body let go, and she didn't even need to hold Han Qianqian tightly, open her arms, and snort excitement.

In this way, they traveled by night and by day, stopping for nearly a week before they arrived at the apocalypse.

Because of Han 3,000 yuan's reputation for making He Qingfeng kneel, no one knew about it, so when they entered the apocalypse, the people in the dark didn't come out to stop them, but sent the news back to the heavenly territory at once.

When He Qingfeng heard the three words Han Qianli, his face became very different, because the suppression of power brought to him by Han Qianli was so strong that He Qingfeng had no desire to resist at all, so in his heart, he had formed an indelible fear of Han Qianli.

"Why is he here again!" He Qingfeng, who had received the news, was very helpless, only a few days ago he had been taught a lesson by Fei Lingsheng's hatred, and now Han Qianqian was here again, which made He Qingfeng start to wonder about life, when had so many experts appeared in this world, and one was more powerful than the other.

"Hall Master, are we going to greet them?"

He Qingfeng thought about it, even though Han 3000 had no status in the apocalypse, and he didn't need to greet anyone as the Master of the Three Temples, Han 3000 was, after all, the strong man who had made him kneel, and the respect that was due had to be there.

"Go." He Qingfeng sighed, after so many years of being the Lord of the Three Temples, he had never felt this kind of frustration, but he couldn't change the situation.

Before Han Qianli and Su Yingxia had even reached the Xuan level territory, He Qingfeng appeared.

The fact that he didn't bring a large army to the battlefield and was only followed by one disciple, and that he appeared in such a low-key manner, showed that He Qingfeng no longer dared to put up a fight in front of Han Qianli.

"He Qingfeng, you're not here to greet me, are you?" Seeing He Qingfeng appear, Han Qianli was slightly surprised and asked, in his opinion, He Qingfeng should be hiding quietly in his own land, so why did he dare to come out to see him.

"When a strong man like you comes to the apocalypse, I will naturally welcome him personally," He Qingfeng said.

"Seeing how you're smiling, you're very reluctant to see me," Han Qianli faintly said.

He Qingfeng quickly shook his hand and said, "How dare I think so, it's an honor for you to come to the Apocalypse, how could I be unwilling to see you."

"There's no need to be so hypocritical in front of me, have you seen the woman who came the other day?" Han Marchiang asked.

He had more than met He Qingfeng, and He Qingfeng had been severely lectured.

"She's in the forbidden area." He Qingfeng said.

"Fine, there's nothing more for you to do, so retire." Han Qianli said.

The dignity of the Lord of the Three Temples seemed to be trampled by Han Qianli at this moment, but He Qingfeng didn't dare to show the slightest bit of surprise, because in front of such a strong man, even if he had an accident, he could only endure it in his heart.

If he wasn't Han Qianqian's opponent, how could Qingfeng He dare to say anything?

"Yes, if you need anything, you can always find me." He Qingfeng said.

Han Qianli casually waved his hand and pulled Su Yingxia to pass by with He Qingfeng.

It was only after they were far away that Su Yingxia asked Han Qianqian in a low voice, "Qianqian, who was that guy just now, it looked like he was quite powerful."

"The apocalypse is divided into four gates and three halls, and the four gates are controlled by the Second Elder, and he, the master of the three halls, is He Qingfeng." Han Qianli explained.

Although Su Yingxia couldn't concretely imagine what kind of position the Lord of the Three Temples was in, he was certainly a person of very high status, and such a person would be so respectful to Han Qianli.

"What about the Lord of the Third Temple, but I see him, why does he look like he's afraid of you, are you even higher than him?" Su Yingxia was confused.

"Status? I have no status in the apocalypse, just a nobody," said Han Qianli. Han Qianqian said.

Su Yingxia pouted in dissatisfaction, obviously not believing what Han Qianli said and blaming Han Qianli for not telling her the truth.

"What I said, it's all true, he's all afraid of me because he's been beaten by me and he knows he can't beat me," Han 3,000 said.

Chapter 1520

This explanation, Su Yingxia reluctantly accepted, but she still believes that Han 3,000 must have some kind of status in the apocalypse, because He Qingfeng's performance is not simply fear, there is also some respect there.

The two of them unimpededly came directly to the forbidden area of the apocalypse, and Han Three Thousand could feel the breath of the ten strongest people, but they used to be inside the cave, but now they were monitoring the situation outside the cave, which was probably because of Fei Lingsheng's arrival, so they didn't dare to enter the cave.

"What is this place?" Looking at the pitch-black cave, Su Yingxia was a little scared and asked.

"I won't tell you yet, let you guess." Han Qianli said, selling a barrier.

Su Yingxia revealed a threatening expression and said to Han Qianqian, "If you dare to intentionally scare me, you're dead."

Only Su Yingxia dared to say such words to Han Qianli, and if it were anyone else, Han Qianli would have been able to squeeze him like an ant.

"Don't worry, how could I intentionally scare you." Han Qianqian said.

Su Yingxia was relieved and followed Han Qianli into the cave, but in the process, she held Han Qianli's arms in a death grip with both hands.

This action undoubtedly made Han 3,000 and Su Yingxia's chest make an intimate contact, although the small lotus is only the tip of the tip, but for Han 3,000, it was also a very exciting thing.

Other women, no matter how proud their bodies are, Han 3,000 could not even look at them, but facing Su Yingxia, Han 3,000 could not be as calm as water.

When he arrived at the cave, Fei Lingsheng was sitting at the side of the time tunnel, staring.

Ever since she had that dream, Fei Lingsheng had been a little disturbed, because she knew that everything that happened in that real dream was real, and that the strong man in Xuanyuan World who asked her to kill Su Yingxia was also real.

However, Fei Lingsheng didn't know whether she should do it or not, because once she killed Su Yingxia, she would certainly receive Han Qianli's crazy revenge, and even if Fei Lingsheng escaped back to Xuanyuan, Han Qianli would pursue her to the end.

If the strong man in Xuanyuan World was willing to protect her, perhaps Fei Lingsheng could escape death, but that man Fei Lingsheng had never really seen, so how could she trust him?

"What are you staring at?" When Han Qianqian saw that Fei Ling Sheng did not even notice that someone had entered the cave, she couldn't help but feel a little strange, with her ability, how could she be so unsuspecting?

When she saw Han Qianqian, her eyes obviously had a trace of a guilty conscience, and Su Yingxia, who was standing beside Han Qianqian, caused Fei Lingsheng's eyes to change instantly.

K i ll Su Yingxia!

Now Su Yingxia could be right in front of her.

"Why have you come." After an instant of change, Fei Lingsheng returned to his normal self.

Although Han Giangli clearly caught Fei Lingsheng's change, he didn't delve into it, but pretended that nothing had happened.

"I came to take a look at the changes in the space-time tunnel, after all, I'm still a bit unsettled if I haven't seen it with my own eyes." As he spoke, Han Qianqian held Su Yingxia's hand and approached the space-time tunnel.

The same as the first time Han Qianqian saw the space-time tunnel, Su Yingxia's shocked expression could not be described with words, her eyes wide, her jaw about to be dislocated, all of them expressing Su Yingxia's shock.

But for ordinary people, the first time to see such a scene, there will be such a reaction is also reasonable things.

"Is this this a time tunnel?" Su Yingxia asked Han Qianqian.

"Well, on the other side of the space-time tunnel is another world, the Xuanyuan World." Han Qianqian explained.

Su Yingxia gulped, although she already knew that another world existed, seeing it with her own eyes was completely different from just hearing it, and the shock was incomparable.

Su Yingxia took a deep breath, looking at her appearance, she still needed time to slowly digest this matter.

"What's going on lately?" Han Qianqiang asked Fei Lingsheng.

Fei Lingsheng naturally shook his head and said, "Nothing happened, and no one else showed up, right, did you find him?"

The so-called him was the strong man who had come to Earth from Xuanyuan World.

Although Han Giang hadn't found it, he had confirmed the person's identity.

"Although the person hasn't been found, I know who it is." Han 3,000 said.

"Who is it?" Fei Lingsheng looked like she couldn't wait, and she was also very eager to know exactly who had come to Earth.

"Yi Qingshan." Han Qianli said.

"Yi Qingshan! Fei Lingsheng said incredulously, "The same Extreme Master, Yi Qingshan has actually come to Earth!

"Yes, and he didn't leave Yanxia," Han Qiangli continued. Han Qianqian continued.

This made Fei Lingsheng's eyes widen even more. Han Qianli's divine sense could cover the entire Yanxia, and if Yi Qingshan was still in Yanxia, he would definitely be sensed by Han Qianli's divine sense.

However,

Suddenly, a crazy idea was born in Fei Lingsheng's mind, which also made her heart beat much faster.
