Chapter 3004

She suddenly bowed her head inexplicably...

What are you doing? Then, just as George Han was stunned, he said something that made George Han even more confused: "You are a good or bad person, and you will ask people this kind of question when you come up."

"I..." George Han directly The words are stuck in the throat.

What the fuck?

What does it mean to ask this kind of question as soon as you come up?

What's wrong with this problem?

Is it okay? !

"I don't know." She turned away, then got up a few steps and walked aside, looking to Taoyuan's side.

George Han wondered, her behavior is not to ask her to heal herself, but rather as if she was confessing to her and proposing marriage.

Don't know yet? !

When the breeze blew, George Han was directly stupid in place like a sculpture, and his whole person was completely messed up in the wind.

What the hell is this? !

"That..."

"Oh, I said I don't know anymore." She posed, then lowered her head and squeezed. This time she simply ran out of the pavilion and came under a peach tree next to her. The peach leaves were gently squeezed with his hands.

Do it!

What the hell? !

"Eh..." George Han was dumbfounded.

“Ignore you, I went to find my sister.” As soon as she said, she trot all the way this time and left.

George Han picked up the peach in his hand, scratched it, and bit on the big peach in his hand, completely dumbfounded.

What kind of honey operation is this? Why can't he understand it at all? !

While feeling depressed, the pangolin came over from there at this time, and looked strangely at the big beauty who was passing by, then came to George Han a few steps, took a look at George Han, and then glanced around: “Aren't you?”

“What's wrong?” George Han looked up depressed and replied.

“You in broad daylight... Didn't you play enough last night?” The pangolin asked strangely.

George Han rolled his eyes, didn't bother to pay attention to him, and asked, “

Where is the evil glutton?” “Stop talking, anyway, you don't have to worry, I think it has no safety concerns at this time, but is very happy. However, If you go to find it, it might not be happy.”

“Don't try to divert the subject, okay? Talking about business, you beast, answer me honestly!” After the pangolin finished, he looked at George Han with a contemptuous look. Qian, it seems to be telling George Han, to put away your little tricks, everything has been completely seen by Lao Tzu. George Han really had a headache. He weighed the big peach in his hand, and said silently: “Do you think this peach is big?”

“Big, I'm talking to you.” Pangolin said.

“I'm thinking

about something, too.” “What's the matter?”

“I'm thinking, can this peach stuffing you in your mouth can swallow you to death.” George Han rolled his eyes and said.

The pangolin was taken aback for a moment, and the whole person was obviously silly, and then looked in the direction where Xia Wei had just left: “What are you doing? Why do people run away so shyly?”

“Although I have never had a girl, but the saying goes, Have you ever seen pigs run when you haven't eaten pork? A girl's reaction, you really think I'm stupid?”

George Han rolled his eyes helplessly: “I heard that she can solve my seal of the earth, I just asked Can she help me solve it.”

“It’s that simple?” The pangolin stared at George Han suspiciously.

George Han nodded stupidly: “It’s that simple. To be honest, I don’t know why she is that kind of reflection. I have no problem with what I asked.” The

pangolin glanced at George Han and thought for a while: “If What you said is true. Isn’t her reaction a bit too inexplicable?”

“Also, the most important point is that she can help you get rid of the seal of the earth?”

“Her sister is also her master, That’s exactly what he said.” George Han said.

“The seal of the earth looks extremely difficult. If the two sisters can dissolve the seal of the earth, it doesn’t seem simple.”

“She said they are from the Phoenix tribe. Do you understand this?”

“Phoenix tribe?” At this, the pangolin frowned: “No way?”

“It’s true, this is her sister’s personal admission, and when I rescued her that day, I personally heard the two gangsters calling Xia Wei Phoenix’s daughter.” George Han said seriously.

After saying this, the pangolin suddenly looked at George Han, his eyes seemed to show George Han directly through.

“What’s wrong?”

Chapter 3005

The

pangolin didn’t speak, but looked at George Han carefully, and looked left and right, as if there was something on George Han’s face.

George Han was hairy when he was seen, and knocked his hand off: “What are you doing? Don’t just look at him, you just talk.”

“No, I have to watch.” The pangolin’s eyes were firm, the slightest bit. There is no room for George Han to argue. After breaking George Han’s head and looking for a moment, he shook his head: “I don’t understand, I don’t understand.”

George Han was really speechless and annoyed, and said coldly: “If you are here If you don’t say anything, I promise the pangolin. If you are not dead, I will give your surname.”
The

pangolin did not put these threats in its eyes at all, glanced at George Han, shook his head, and sat back in his place: "Actually, you are nothing special."

"It's different from me. They have one head, two eyes, one nose and one mouth, and there is no spring breeze on your face."

"Grandma's, this is too incredible, right?"

"The surname Han, sit down for me, I'll ask you."

Damn, George Han's nose is almost crooked, it is obvious that he is about to become sturdy, why suddenly turned, this guy still got his nose on his face. , Did you teach yourself back?

However, George Han didn't know what kind of medicine this guy sold, so he could only bite his teeth, bite the bullet and sit down as he said.

"How did it feel last night?" the pangolin asked.

"What the hell is it, pangolin, I think you really don't want this skin?" George Han heard this question as soon as he sat down, and he was about to violent.

"The daughter of the phoenix is different from ordinary women. It is rumored that the daughter of the phoenix is rare...that kind of woman, anyway...for any man, it is definitely the ultimate experience of immortality, you and I are here to pretend Confused? Hmm? Xiao Qianqian?" After these words, the pangolin kept twitching the corners of his eyes, his appearance was extremely trivial.

"I told you that last night I just used to treat her wounds. We are buddies. It doesn't matter if you talk nonsense about me. They are girls, so you don't want to come here." George Han scolded him.

"Her injury is on the back. If you want to heal her, you must..."

"This lone man, that girl is a superb beauty, and she is very special. To be honest, I still remember her clearly. Will you be able to control that beautiful appearance?" Damn, you are so lucky. First is my little princess Qilin, then Qin Shuang and Su Yan's, and now there is a little lady Xia Wei, the most important thing is Niang Xipi They are more beautiful than the other, but they all lean on you. Isn't that too much of a damn?"

"People like you have to be killed by thunderbolt when you go out?"

"You come here less." George Han was depressed. He glanced at him, but from the pangolin's reflection, he realized that maybe Xia Wei this time seemed completely different.

Because when I met Su Yan and other women in the past, this guy would talk endlessly, but he would never have such a big reaction today.

Thinking of this, George Han became more curious. He looked at the pangolin and said, "What the hell is the daughter of the phoenix?" The

pangolin stared silently at the sky, then looked at George Han enviously, and stretched out his hand obediently. , George Han hurriedly handed him a big peach subconsciously, and he bit it down: "If you want to talk about the daughter of the phoenix, it's amazing. I don't think there is such a top-quality woman in this world. "

But wherever I can think of it, I not only saw it, but the most exaggerated thing is that she is still by my side."

"Anyway, I can tell you responsibly, with the Phoenix daughter, don't talk about your kid. The seal of the earth is not a problem at all, and it is no exaggeration to say that even if you were tortured by the Hades and thrown into hell, you can still come back to life." The pangolin shook his head with a wry smile.

"So amazing?" George Han asked in surprise.

"Do you think this is the end? If you think this is already magical, then the true use of the Phoenix Daughter may be beyond description for you, right?" Speaking of this, the pangolin's wry smile There is even a fuss about George Han with contempt.

George Han didn't speak, but just looked at the pangolin quietly. Those just now are not magical? Then what kind of thing against the sky is hidden in this Phoenix girl?
