

Chapter 3720

Mingyu!

After waiting for the rain in the middle of the night, he chose to attack George Han at this moment.

led her four children.

Yes, that's right, the whole battle has continued until now, George Han has always been the most active one, but this is what Ming Yu is most happy to see.

He looks quite brave, but this also means that his consumption is extremely huge.

Counting his previous battles, George Han was already fighting in this state for a whole day and night.

Will he be tired?

Will he be false?

Mingyu believes that this is absolutely impossible.

She was waiting and watching.

Wait for George Han to get tired and observe his flaws.

At this moment, she found and saw it.

George Han gasped for a long time just now, although the movement was unusually subtle and difficult to detect.

But he has been pretending to deal with it all the time, but

Ming Yu, who is actually observing carefully, still has a panoramic view of this move.

In order to be cautious, and to prevent George Han from pretending to be mysterious, Mingyu also glanced at George Han's eyes by the way.

Although George Han's eyes looked very fierce now, when he was gasping for breath, it was obvious that his eyes had slackened for a moment.

This shows that he is really tired.

Therefore, Ming Yu decided that it was time to take action.

Not only to capture George Han, but also to consider all the subordinates.

After a long time of attacking, many subordinates are already in the lowest stage, and their own actions can greatly improve their morale.

"All the officers and men, the special envoy of Shenlong has already appeared in person, please follow me to charge. Kill!" Zhu Yanshuo roared, and led the digital commanders to directly stop the white-clothed masters who had been fighting with Mingyu, and they were bound to stop them from chasing and blocking.

With the backbone of the special envoy of Shenlong

, the should-luo army, which had already been demoralized, regained its fighting spirit.

Accompanied by the roar of shouts and killings, a group of them entered in large numbers again.

Seeing such a situation, George Han did not panic at all. He looked down at Ming Yu who was coming, and the yin and yang energy in his hands condensed.

“Why, you finally gave up?” George Han sneered.

The yang force in his left hand directly turned into an attack. Knowing that the water circle in Ming Yu’s hand was weird, George Han deliberately used the yin force in his right hand and chose to wait for the opportunity.

Sure enough, as George Han had expected, as soon as the attack arrived, she escaped into the water circle to change her shape, and when she came out again, she had already slapped George Han with a palm from another angle.

“I knew you would do this for a long time.” With a light drink, George Han’s right hand condensed Yin force and took it directly.

boom!

The two palms

meet directly!

Compare with each other!

“I also know that with your ability, George Han, you can definitely resist, so I never thought that I could hurt you by doing this.” Before Ming Yu’s words fell, the four boys suddenly rushed out at some point. .

Ming Yu held both hands together at the same time, obviously trying to hold George Han, and then attacked George Han with four boys.

“Just rely on them?” George Han sneered, holding his hands slightly.

The Skyfire Moon Wheel immediately blasted towards the four boys.

boom! !

The fire passed by, but what surprised George Han was that the four boys were not affected at all, and they still attacked George Han straight.

“What?” George Han was obviously taken aback for a moment.

Naturally, there is no need to say much about the momentum of the sky fire and the moon wheel, especially the sky fire has become stronger and stronger after the quintessence training, but these four boys went straight up like this and remained unscathed.

This is simply amazing!

Almost at the same time that George Han was shocked, with four muffled sounds, the four boys directly put their heads on George Han’s body.

At that time, George Han only felt that his body was being protected from the Buddha by the spires of the four sharp mountains, and the pain of shattering bones and flesh almost penetrated into the bone marrow.

Ming Yu smiled coldly and looked at George Han: "Forgot to tell you George Han, these four boys are all indestructible, theoretically they can't hurt them, but that's a theory, if you encounter People like you really don't dare to play this package. It's a pity, you can't get away, don't you?"

"Do you mean to deal with them with all my strength?" George Han laughed.

Ming Yu smiled and said nothing.

"Thank you, this is a good idea." In the next second, George Han suddenly gave a ghostly smile.

When Ming Yu didn't understand, George Han made a move, and she was shocked..

Chapter 3721

What? !

"You actually!" Ming Yu's whole body turned pale in shock.

At this critical moment, the hand that George Han and her held against each other suddenly burst into anger.

That incomparable power is enough to send a chill down anyone's back in an instant!

"Open it up for me." With an angry roar, George Han lifted the palm of his hand, and George Han directly opened the Mingyu. At the same time, in the next second, the sky fire and the moon wheel were thrown out, attacking the Mingyu, but at the same time he flew out and attacked the four directly. a child.

Didn't you say that the Skyfire Moon Wheel can't hurt the four boys at all, only George Han himself can break the defense.

Over there, they simply switched positions, turned defense into offense, and turned offense into defense!

Mingyu didn't have a knife at all. George Han would suddenly have such power to complete the rampage. In a hurry, he was bounced off by his inner strength and vomited blood. He originally stopped George Han. So that

he can only cope with the whole person, and it is difficult to get out for a while.

"Four little devils, what not to learn, learn to be puppets, and educate you on behalf of your parents."

However, George Han has already entered the formation of four boys. Since the effect of the Skyfire Moon Wheel is not ideal, George Han simply made a big change.

Heaven's Secret Art plus Burning Silent, give me a punch to the flesh.

Although the four boys were strong and strange, and their faces were expressionless, they were obviously nothing to a more brutal and ferocious guy like ShangGeorge Han.

In just a few rounds, the four big boys were directly hit by George Han with one punch from the left and one leg on the right.

However, it is strange to say that these children don't seem to be in pain. How can they regroup very quickly after being knocked out.

"They're not conscious?" George Han frowned.

Although these four boys seem to be no different from ordinary people, it is obvious that the four people's eyes are cold and indifferent, and their skin is white but bloodless. All these seem to prove that George Han's guess is true.

"It seems that they are more like walking corpses manipulated by Mingyu."

George Han directly activated his sky eyes, and when he took a closer look, he found that there were some extremely fine water droplets strung in the air on the top of the four boys' heads. thin line.

If you don't see it with the eyes of the sky, it can almost be said that it is difficult for the ordinary naked eye to detect this tricky thing.

"Mingyu, everyone's position is different, and it's okay to govern each other independently, but you use these underage dolls to practice something like this, won't your conscience hurt?" George Han scolded coldly.

Ming Yu's face sank: "George Han, don't worry about my affairs." As the words fell, Ming Yu's transformation circle attacked Han

George Han .

"You really disappointed me so much." George Han also snorted coldly and opened the valve directly. After the huge energy directly shook the four boys back, George Han also attacked Mingyu in anger.

Under the fury, George Han's eyes were blood red and black energy surged.

There are no complicated routines, and there are no extra moves, just one punch condensed, Fen Ji added, and slammed into Ming Yu.

Ming Yu was also extremely embarrassed and furious, her teeth clenched tightly, entraining the strength of her whole body, and the water all over her body roared and roared.

"Mingyu, I know that your cultivation has suddenly increased for no reason, but you want to fight me, you are not qualified enough." George Han said coldly.

Ming Yu refused to accept it and retorted: "If you were in your prime, I agree with you, but George Han, after such a long battle, how much can you really have? I'm not

Fool. "

Hmph, of course you're not a fool, you Mingyu are extremely smart. "George Han sneered: "However, have you heard a word?" "

"What? "

” Smart is mistaken by smart. “George Han smiled coldly: “I’m not afraid to tell you, if it’s not you who will lead them this time, but an impulsive and irritable idiot like Ye Shijun, based on your current preparations, I really don’t think you’re wrong.” The way, being consumed by you so much, I can’t stand it at all. “

But it’s a pity that you are too cautious and want to get me with absolute certainty, which just gave me enough time to breathe, Mingyu, you are defeated.” “

Respite time?” “Ming Yu was taken aback: “When did I give you a chance to breathe?” “

“It’s those three days. “George Han smiled lightly.

The two attacked and collided at the same time!
