

His True Colors Chapter 391-396

Chapter 391

After hearing these words, Han Qianqian couldn't believe it, because the difference in Chong Yang's attitude before and after is like a complete change of a person, so Han Qianqian doubts whether Chong Yang is a person with a double personality, or else how could there be such a big contrast?

It was too strange to ask Qi Hu to kill him and Knife Twelve before, but now, he was asked to take Qi Hu down the mountain.

When Knife Twelve woke up, Han Giang endured his discomfort and walked out of the cave with Knife Twelve.

"Brother Three Thousand, what's going on?" Knife Twelve was puzzled and asked Han Qianqian, when Qi Hu had made his move, he was determined that he would die, but now the situation had developed a situation that made people feel weird, Knife Twelve still remembered Chong Yang's disdainful attitude towards them before, but just now, Chong Yang had obviously toned down a lot.

"I also find it strange, Chong Yang's behavior before and after is not the same person at all, this old guy, he can't be a double personality, right?" Han Qianli asked rhetorically.

Although Blade Twelve had been in contact with Chong Yang, he didn't know him very well, and he couldn't determine what kind of personality Chong Yang actually had.

"Brother Three Thousand, why don't we leave early, I'm worried that things will go wrong again." Knife Twelve said, since Chong Yang was now willing to let them leave, they had to seize the opportunity to leave quickly to avoid Chong Yang's return.

"In your current physical condition, can you leave?" Han Giangli also wanted to walk, but after eating Qi Hu's attack, he now needed to grit his teeth even while standing, not to mention the rough road down the mountain.

"Hey, I'm really worried about what this old guy will do in case he messes up again." Blade Twelve said worriedly.

Han Qianli thought about it and said, "Since he's already agreed, there shouldn't be any changes, so let's rest for two days first."

Han Qianli said so, and Knife Twelve could only nod his head.

Although life in the wild mountains and forests was far away from the hustle and bustle of the city and detached from modern civilization, there was one thing that made Han Three Thousand and Knife Twelve very surprised, the food for the two of them was very good, the ton of wild food, even without condiments, was fragrant and made people salivate.

That night, Qi Hu caught some wild rabbits in a trap and roasted them on the fire, and they kept on burping, and Han 3,000 and Dagger 12 had a good sleep.

The next day, the two of them were in much better shape, but Han Three Thousand was in no hurry to leave.

Early in the morning, while Qi Hu was practicing leaning against the mountain, the two of them watched with wide eyes as the trees trembled under Qi Hu's impact, the leaves soughing, and each impact made Han 3000 and Knife Twelve feel like even the mountain was shaking.

"This guy is completely a pervert ah, ordinary people would just die after being hit like that," Han Three Thousand exclaimed.

Knife Twelve's eyes were on the ground, he had gone through very professional training, and in his eyes, that training was already perverted enough, but to be compared to Qi Hu, it was a small thing, there was no comparison at all.

"Don't say ordinary people, even we will probably die under Qi Hu's full strength attack, it seems like he stayed his hand yesterday." Blade Twelve said with a fearful face, if Qi Hu had exploded with such force yesterday, how could he have had a chance to open his eyes and see the world, he would have already reported to the Palace of Hell.

"Do you think he can be a match for that guy from last time?" Han Giangli was confused, Wu Feng was strong, even Dong Hao wasn't a match, so he couldn't clearly determine who was stronger between Wu Feng and Qi Hu.

This question, Blade Twelve also had no way to answer, who was stronger or weaker, unless it was a fight, otherwise who could predict the outcome?

"Even if you're not an opponent, you shouldn't lose, right?" Blade Twelve said.

"That's enough, as long as he can be invincible, Wu Feng will pose no threat to us." Han Qianqian was very content with being able to find an expert like Qi Hu, even if Qi Hu really wasn't a match for Wu Feng he wouldn't have any regrets, after all, world experts weren't easy to find.

After resting for two days, Han Qianqian and Knife Twelve watched Qi Hu's training for two days, and the three of them finally descended the mountain.

Before descending the mountain, Chong Yang called Qi Hu aside and explained a lot of things, as to what exactly it was, Han 3000 didn't know, but he didn't care either, being able to get this helper was enough for him, even if Chong Yang would have other objectives, it was only right that he should.

Qi Hu was very big, and he took the path of practicing brute strength, so his body agility was very poor, this could be seen from going down the mountain, bad rough road, Qi Hu could easily fall down.

When he finally arrived at the parking place, Qi Hu was like seeing something new, and after circling around the car twice, he asked Han 3000, "Brother 3000, what is this?"

"How old did you go into the mountains?" Han Giangli wondered, a car was a very common thing for modern society, even if some children from poor families had never ridden in one, they had at least seen one, but Qi Hu had never even seen one.

"Master said I went into the mountains when I was two or three," Qi Hu said.

"Never went down the mountain?" Han Giangli was surprised, if that was the case, Qi Hu's current state was one that was completely out of touch with modern society.

"Yeah." Qi Hu said matter-of-factly, "Master didn't even get off the mountain, so what am I doing down there? Just tell me what it is."

"It's a car, and people can run fast when they sit in it, so if you want to know what's really going on, just get in and feel it." Han Giangli opened the door of the car for Qi Hu.

Qi Hu was very big, so it was hard to get stuffed in, Han Giangli smiled helplessly and said to Knife Twelve, "Looks like we'll have to get a bigger car after we go back."

Although it was cramped, for Qi Hu, who was trying it for the first time, he didn't feel any discomfort and was instead very excited.

When the car started up, Qi Hu was even more excited as if he had seen a new continent, looking out the window at the scenery speeding by like a fool.

When passing a small town, at Qi Hu's request, Han Giangli stopped the car, Qi Hu who had never seen the world, even a small town could arouse his curiosity in a million ways, and something as ordinary as a low building could make him look at it with amazement.

"This place is nothing, wait until I take you to Cloud City, the tall buildings there are even taller than the mountain where you live." Han Giangli said to Qi Hu with a smile.

Qi Hu looked disbelieving and said, "How can there be a place higher than a mountain, can they still fly up there?"

It was very tiring to explain such ordinary things, so Han Giangli gave this glorious task to Blade Twelve.

But no matter how clearly Blade Twelve said it, Qi Hu still couldn't understand it because there was no such concept as repairing a building in his mind, so naturally he explained it differently.

"You guys, you're from out of town, right?" At this time, a group of people in groups of three to five deliberately approached Han 3,000 and the others, and judging by the outer-eight posture of the walk, they were probably local hooligans.

"I don't want to cause any trouble, so I advise you guys to quickly walk away." Han Qianli said to a few people indifferently.

These people were indeed the town's hooligans, and notorious, almost all the businesses in the town were afraid of them, these people walked to wherever they ate, entered the shop to take whatever they wanted, never paid, at first there were businesses to resist, and even reported, but they were not too big of a charge, at most they were just off for a few days, after they came out, the businesses that resisted were bound to be unlucky, so as time went by, the townThe merchants were resigned to their fate, and no one dared to have a problem with them, which made them even more arrogant, hating to walk across the town.

"Not a small mouth, do you know who the brothers are? You're a foreign car parked in town, but there's a parking fee." The person in charge said to Han Qianqian.

Parking on the side of the road also charges a parking fee, which is clearly blackmail.

Han Qianli smiled and asked, "How much do you want?"

"Not much, since you can afford to drive a car, three or five thousand should be a small amount for you."The man in the lead said.

Han 3,000 nodded, 3,000 to 5,000 was indeed a small thing to him, pocket money wasn't even close, but even if this money were to buy buns and feed them to the dogs, it wouldn't be possible to give it to these yokels.

"Boss, look at this big guy, does he look like a fool, but he hasn't even seen a building."At this time, one of the men said to the lead man.

Chapter 392

The person in the lead looked at Qi Hu, and the expression on Qi Hu's face at this time was indeed like an idiot, because no matter how ordinary something was, it was very new to him, and Lou Lou was probably not as ignorant as he was when he entered the Grand View Garden back then.

"Hey, idiot, what are you looking at?"The one in the lead asked to Qi Hu.

Qi Hu turned his head to look at him, then asked Han Qianli, "Brother Qianli, is he talking about me?"

Han Giangli nodded meaningfully and said, "He didn't just talk about you, he also scolded you."

When Qi Hu heard this, his face instantly froze, and he walked up to the person in charge and said, "You scolded me?"

Qi Hu's size was very intimidating, so just standing in front of the gang of yuppies made them feel very pressured.

But these people were used to being arrogant in the area and didn't think Qi Hu dared to do anything to them.

The leader of the group didn't know what to do and said, "So what if I scold you, big idiot, it's hard when your mother gave birth to you."

Before he finished speaking, Qi Hu grabbed the leader's collar with one hand, lifted it in the air, and threw it with great force.

The leader's body presented a perfect parabola in the air and was thrown a full ten meters away, smashing into the ground, which was called a dusty mess.

The remaining few people looked at Qi Hu in horror and hurriedly retreated several steps.

Although this big guy was an idiot, this strength was too much, and he had flung an adult away so easily.

"Boss, are you alright?" One of the men ran to the leader and asked in panic.

The leader ate a mouthful of dust, and it hit the ground hard enough that he couldn't even speak in pain, so he could only look at Qi Hu with a gnashing of teeth expression.

"I warned you guys, you can't blame me if you don't listen to the advice yourself." Han Giangli said to them with a smile.

After a while, the leader spoke up and said, "Grass Nima, do you know that this is my territory, and if you offend me, I want you to stay out of town."

Looking at the leader who didn't know what to do, Han Qianli said to Qi Hu, "The lesson wasn't enough, they want to compete with you."

Qi Hu grinned, when he was in the mountains, Qi Hu's only opponents were the trees, although occasionally he would have the chance to fight with Chong Yang, but very rarely, fighting with people was much more interesting than fighting with trees.

"Are you guys going to fight me?" Qi Hu smiled and asked.

Several of his men were scared white, even the one in the lead looked guilty.

"You don't come over here, I'm warning you, I'm very powerful here, I can casually call a hundred people to f**k you, can you beat them?" The leader of the group threatened.

Qi Hu stopped in his tracks and asked with a serious face, "Are you telling the truth?"

The leader thought that Qi Hu was afraid, and with a smug smile on his face, he said, "Of course it's true, you don't even bother to find out what my position is here."

"Then call someone quickly, I want to try what it's like to fight a hundred people." Qi Hu spoke.

Even Han Qianqian couldn't help but laugh at this statement, Qi Hu, this guy shouldn't be a battle fiend, he even wanted to fight a hundred people alone.

Actually, for Qi Hu, it wasn't a matter of fighting or not, it was simply a matter of wanting to compete with someone, after all, after living in the mountains for so many years, the training of crashing into

trees every day was too boring, fighting with living people was an extreme luxury for him, and now that he had the chance to fight with a hundred people, he naturally wanted to give it a try.

When the leader heard Qi Hu's words, he had a startled expression, this guy was not only an idiot, could it be that he was also a madman?

His notoriety was good, and it was true that no one in the town dared to mess with him, but calling a hundred people at random was bragging.

"You, aren't you afraid of being killed here by my people?"The leader said.

"You want to kill me even with you?"Qi Hu said disdainfully, his right foot staring at the ground, and the already rotten concrete pavement collapsed a few points and some new cracks appeared.

It was a frightening sight to see the leading man, thinking that this was an encounter with something perverted!

"You you, you wait, wait for me, I'll go call someone right away."After the leader stammered, he stood up with a bang and ran faster than anyone else.

Those little brothers saw the situation and followed suit.

"Qi Hu, get in the car and go."Han Three Thousand said to Qi Hu.

"Brother Three Thousand, he went to call someone, how can he leave, I don't want to be treated like a wimp."Qi Hu said.

Han Three Thousand shook his head helplessly, Qi Hu wasn't stupid in the head, but he was too heartless and too ignorant of the outside world, that help had obviously put down his harsh words and ran away, how could he come back.

"He didn't go to call for help, but he ran away and won't be back," Han Marchan explained.

Qi Hu was stunned and asked, "He lied to me?"

"Yeah, I'm lying, you're kinda stupid." Han Giangli said, Qi Hu's performance was good for him because it was more conducive to his control, but on the other hand, it was also bad because Han Giangli needed more than just a thugs, and if Qi Hu didn't have the ability to think for himself, he would be very limited in how much help he could be.

Qi Hu squeezed his fist tightly and said angrily, "I should have taught this guy a hard lesson for daring to cheat me."

"There will be plenty of opportunities to fight in the future, and we'll be fighting against experts, so there's no need for you to waste your energy on such an unimpressive character, let's go."

Getting into the car once more, Han Qianqian drove all the way to Cloud City.

At the same time, Han Yan made an unprecedented appearance at Cloud City Airport, as if she was waiting for someone.

It wasn't long before a blond old man appeared, with a high nose, deep features, and pupils like eagle eyes, he looked at everyone as if he was looking at prey, and was full of aggression.

When Han Yan saw him, she couldn't wait to run to his side and said, "Grandpa Yang, I guessed it would be you."

Diyang, the top bodyguard of the Mi Guo Han family's Diji generation, possessed a strength unimaginable to normal people.

Only when Di Central saw Han Yan did his aggressive eyes soften a bit and said, "If Miss needs someone, naturally I'll be the one to come, but I took the initiative to apply with the boss."

"Grandpa Central, Yan'er happens to have a problem today, so you can accompany me." Han Yan said.

"No problem, Grandpa Central is here to solve your trouble, if anyone makes Miss unhappy, I'll send him to God." Earth Central said indifferently, with a strong arrogance in his tone.

After getting into the car, the car headed towards the Tian family's villa.

The Celestial Family had always been the representative of the top families in Yun City, and although the strong rise of Han's group had caused some impact on the Celestial Family, it wasn't a big problem, after all, the Celestial Family had been entrenched in Yun City for so many years, not to mention its business status, even its image in the public's mind was not something that any company could replace, after all, the charity that the Celestial Family made every year was praiseworthy.

Han Yan wanted to take control of Cloud City in her own hands, she had to get over the Heavenly Family, she and Tian Honghui had already met and made a proposal for the Heavenly Family to withdraw from the business community in Cloud City, this proposal was naturally rejected by Tian Honghui, so today Han Yan wanted to finish the matter by using Di Yang.

If you don't withdraw, then fight until you withdraw, for Han Yan, it's that simple.

Tian family villa, Tian Changsheng was sitting in the living room with a distressed face, after Tian Honghui told him about Han Yan's proposal, he had been distraught, because the Han Clan was now gaining too much momentum, the landscape of Yun City was changing rapidly, and he couldn't predict what would happen next.

"Grandpa, what's wrong with you today, you look like you're not happy." Tian Ling'er asked Tian Changsheng.

Tian Changsheng sighed and said, "Ling'er, didn't you used to want to study abroad? Grandpa thought now would be a good time to arrange it for you, why don't I?"

"I gave up on the idea a long time ago, why did you suddenly bring it up." Tian Ling'er asked in puzzlement.

Tian Changsheng's idea was simple, to keep Tian Ling'er away from this place of wrongdoing, even if there was a change in the Tian family, as long as Tian Ling'er was abroad, she wouldn't be affected, and he could give Tian Ling'er a large sum of money so that she could live well for the rest of her life even if she didn't do anything.

"Grandpa didn't want you to go out and see the world," Tian Changsheng said.

Tian Ling'er was a very smart girl, and there must be a reason why Tian Changsheng was suddenly rehashing old matters.

"Grandpa, nothing is going to happen to the Tian family, right?" Celestial Spirit asked.

Chapter 393

Tian Ling'er looked at Tian Changsheng with a heavy look.

Recently the villa area had inexplicably added some unfamiliar faces, and although Tian Ling'er didn't ask, she knew that this must be the new bodyguard hired by her grandfather.

Suddenly doing this kind of enhanced manpower precaution, if it wasn't a big event, Tian Ling'er couldn't think of any other possibilities.

Originally she had no intention of asking about these things, but now that Tianchang Sheng had brought up the matter of letting her study abroad, it made Tian Ling'er desperately want to know what was going on.

The villa's manpower was enhanced, an arrangement made by Tian Chang Sheng after Tian Hong Hui met with Han Yan, because the attitude Han Yan displayed was very strong and he was worried that Han Yan would do something detrimental to the Tian family.

"Ling'er, you"

There was a loud bang, and Tian Ling'er shivered in fear.

The door of the villa was kicked open hard, and a foreigner, with the strongest of the group of bodyguards Tianchang Sheng had hired in his hand, threw himself heavily on the ground.

This scene made Tianchang Sheng's heart tense, but this was the most powerful person, and he was being carried like a chicken and thrown on the ground.

"Miss came to visit, and you didn't come out to greet her, and you had people blocking you, wanting to die?" Earth Central spoke in an arrogant tone.

Tian Ling'er stood up, looked angrily at Earth Central, and said, "Who are you to dare to be arrogant in the Heavenly Family!"

"Celestial?"The Earth Central laughed disdainfully and said, "What is the Heavenly Family again, do I need to put it in my eyes?"

Tian Ling'er's face turned red with anger at these words, but in Cloud City, there was never anyone who dared not to put the Tian family in their eyes.

At this time, Tian Changsheng stood up and protected Tian Ling'er behind him, asking, "Who the hell are you, my Heavenly Family has no grudge against you, what is your purpose for making a scene?"

"My lady is outside the door, do you walk out to meet her, or do I break your legs and drag you out?"Earth Central said.

Tianchang Sheng took a deep breath, from this man, he felt unprecedented arrogance, and he definitely had the strength to be arrogant.

The lady he was talking about, was it Han Yan?If it was her, this would be a problem.

"What kind of person is your lady, with such a big face?"Tian Ling'er said with a disgruntled look on her face, no matter who wanted to see Tianchang Sheng in Yun City, they had to make an appointment in advance, and there were countless big names who visited and ate the closed door, what kind of person was qualified to have her grandfather go and greet them personally?

"Little girl, I advise you to stop talking or I'll kill you."Earth Central said with a torch-like gaze at Tian Ling'er.

Tian Ling'er was shocked by the look in Earth Central's eyes, it was like he would actually kill someone.

"Grandpa, do you want to call 3000?" Tian Ling'er said softly, in her eyes, Han Chang'er was very powerful, so naturally only Han Chang'er could solve this kind of trouble.

Tian Chang Sheng shook his head and said to Di Yang, "I'll go out to meet her, but you can't hurt my granddaughter."

Diyang smiled faintly and said, "Killing her is just dirtying my hands."

Tian Changsheng walked out of the villa area and indeed saw Han Yan, which made him feel a chill in his heart.

This woman was such a strong boarder, if she couldn't get her wish today, she definitely wouldn't let them go.

"Miss Han, I didn't expect it to be you, if you had said hello earlier, you wouldn't have had to be so troublesome." Tianchang Sheng walked up to Han Yan and said.

Han Yan acted as if she was high and cold, she didn't look at Tian Chang Sheng in the eye and said indifferently, "Your Tian family is the number one family in Yun City, you have a big stance, it's not easy to meet you."

"Miss Han's words are too much, if you want to see me, how can I possibly avoid it."

As soon as Tianchang Sheng finished saying this, he suddenly felt a gravity hit his legs, and due to the excessive force, his legs bent unconsciously.

Bang!

Tianchang Sheng even knelt in front of Han Yan.

"Talking to Miss, with your qualifications, you can only kneel."Earth Central said contemptuously.

"Grandpa!"Tian Ling'er was alarmed and wanted to assist Tian Changsheng.

In Tian Ling'er's mind, Tian Changsheng was like a hero, how could he kneel to someone?And it was a girl not a few years older than her.

Han Qing walked up to Tian Ling'er and yanked on her hair, dragging her away, cursing, "If your grandfather had been sensible, he wouldn't have had to take such an ugly step, I advise you to get out of the way, or else you'll be on your knees with him."

Tian Ling'er's scalp was pulled very painfully and grabbed Han Qing's hand to resist, but Han Qing slapped her heavily across the face.

What kind of person was Tian Ling'er?She was a Heavenly Princess, when had she ever been beaten since she was a child.

The fiery pain on her face caused Tian Ling'er to instantly lose her mind and wrestle with Han Qing.

But how could her tactics compare to Han Qing's?

Although Han Qing was only a maid, he had been exposed to Taekwondo, and kicked Tian Ling'er in the abdomen, punching him mercilessly and blasting him in the face again.

When Tianchang Sheng saw this, he was furious and prepared to get up, but a hand on his shoulder was holding him down with a death grip, leaving him defenseless.

"Don't move, or I'll waste you."Earth Central said in a cold voice.

"Miss Han, my granddaughter doesn't know any better, please let her go."Tian Changsheng said to Han Yan.

As if she was watching a good show, Han Yan even smiled and said to Han Qing, "This kind of inconsiderate little girl needs to be taught a hard lesson, don't stop, keep beating me."

Hearing this, Tianchang Sheng's heart ached like a knife, Tian Ling'er was his beloved baby, he himself couldn't bear to say heavy words, but now he could only watch Tian Ling'er being beaten.

"Miss Han, please, let my granddaughter go."Tianchang Sheng prayed.

"Since you're begging me, you should act a bit like you're begging, don't you think?"Han Yan smiled.

Tian Changsheng was stunned at the words, his waist slowly bending.

"Grandpa, don't, don't!"Tian Ling'er roared hoarsely when she saw that Tian Changsheng was about to kneel down.

Tianchang Sheng bent down to the bottom, his forehead on the ground, and said, "Miss Han, is it okay now?"

"You begged me, but I didn't promise that you would let her go, people who don't know how to be polite should be taught a deep lesson, you can't discipline people, I'll help you, so consider this kowtow to be your thank you."Han Yan hid her mouth and smiled lightly, this feeling of playing people off against each other made her very fascinated.

Han Qing gritted his teeth and slapped Tian Ling'er's face after getting Han Yan's eye gesture.

Hearing the sound of the slap, for the first time, Tian Changsheng had this strong feeling of powerlessness, even though Tian Ling'er was being beaten, he couldn't do anything.

"Miss Han, if you have any requests, you can feel free to bring them up, I will try my best to satisfy you, old man." Tianchang Sheng said resignedly.

Han Yan took two steps closer, looked at Tianchang Sheng condescendingly and said, "The first family of Cloud City is just a joke in my Han Yan's eyes, and you dare to disobey me, this is what will happen."

"I know I was wrong, Miss Han, if you want the Tian family to withdraw from the Cloud City market, I will immediately start making arrangements for that, all at your disposal." Tianchang Sheng said, all along, the Tian family had no rivals in Yun City, but at this moment Tianchang Sheng knew that this woman in front of him was by no means something he could fight against.

"If you had agreed to my request earlier, your granddaughter wouldn't have suffered this kind of hardship, her face is swollen, how pitiful." Han Yan exclaimed.

Tian Changsheng's afterglow looked at Tian Ling'er's swollen cheeks, his heart aching as if it was dripping blood.

"It's my fault for not knowing what's going on," Tian Changsheng said with his head buried deep.

"I'll give you two days, I don't want to see any company or industry related to the Tian family in Cloud City." Han Yan said.

"Yes." Tian Changsheng echoed.

"Grandpa Central, let's go." Han Yan raised a smile and said to Earth Central.

Di Central kicked Tian Changsheng to the ground and said disdainfully, "From now on, hire bodyguards, don't hire these trash trash, it's no use at all, I haven't even started warming up yet."

"Grandpa Central, isn't it normal for trash to hire trash, is it not normal for them to hire experts, you're too high on them." Han Yan affectionately took Di Yang's hand and said.

Di Central nodded his head and said, "That's right, trash should stay with trash."

After Han Yan and the others left, Tian Changsheng walked up to Tian Ling'er with old tears in his eyes, his voice trembling as he asked, "Ling'er, are you alright."

Chapter 394

The feeling on Tian Ling'er's face was like fire, but surprisingly, she who had never been beaten before, didn't shed a single tear at the moment, and her eyes carried a strong hatred.

Tian Changsheng stretched out his hands and wanted to hold Tian Ling'er's face, but he was afraid that touching it would make Tian Ling'er hurt even more, so he carefully spaced some distance apart.

"It's all grandpa's fault, it's grandpa who didn't protect you." Tianchang Sheng continued.

Tian Ling'er shook her head, she knew that Tian Changsheng was helpless in this matter.

"Grandpa, I don't blame you, but I must get my revenge, and Brother 3000 will help me, don't you agree?" Tian Ling'er asked, looking directly at Tian Changsheng.

Tianchang Sheng sighed, with the momentum of the Han Clan's current situation, I'm afraid that even Han Qianxiang wouldn't be able to stop it, and that person called Di Yang just now was so strong that even Han Qianxiang might not be his match, so how could he talk about revenge?

"Ling'er, three thousand may not be able to be a match for Han Yan." Tian Changsheng said helplessly.

Tian Ling'er shook her head in disbelief and said, "I don't believe it, Brother 3000 will definitely be able to deal with her, she's just a clown."

Tian Ling'er's blind confidence in Han Three Thousand made Tian Changsheng sigh more than a little as he knew even more about the gap between Han Three Thousand and Han Yan, the fact that Han's group had made such a big commotion in Cloud City and Han Three Thousand hadn't done anything so far showed that he was very jealous of Han Yan.

If he really had the strength to deal with Han Yan, he would have done it a long time ago, how could he let the Han Clan develop so smoothly in Cloud City?

"I want to call your father, the only way for the Tian family to save itself now is to exit the Cloud City market." After saying that, Tian Changsheng pulled out the phone.

When Tian Honghui rushed home in a flurry of excitement, he looked incredulous when he saw Tian Ling'er's puffy cheeks.

At the Tian family villa, how could Tian Ling'er have been beaten? There was absolutely no way that anyone would dare to mess around here.

The only idea that Tian Hong Hui could explain was that Tian Chang Sheng had beaten Tian Ling'er, but Tian Chang Sheng had always spoiled Tian Ling'er, so how could he lay such a heavy hand on her?

"Dad, what's going on, what's wrong with Spirit?" Tian Honghui asked in puzzlement.

"Honghui, the Tian family will henceforth withdraw from the Cloud City market, you can go ahead and arrange this matter." Tian Changsheng said.

This statement made Tian Honghui even more puzzled, the Tian family's decades of foundation in Cloud City should have been passed on, how could they withdraw? Once you withdraw, wouldn't decades of hard work be in vain.

"Dad, are you confused as to why you want to withdraw from the Cloud City Market?" After saying this, Tian Hong Hui's mind suddenly thought of Han Yan, as she had made such a request before.

Could it be that Han Yan had come to the Tian family villa, and that the injuries on Tian Ling'er's face had been inflicted by Han Yan?

The thought made Tian Honghui instantly become gnarled.

"Dad, has Han Yan been here yet?" Tian Honghui said with his back groove teeth clenched.

"The Heavenly Family is absolutely not qualified to fight with the Han Clan, this is the best way to be able to keep the Heavenly Family safe." Tian Changsheng said helplessly, the Heavenly Family had fought for everything with his own hands, and now that he had to give up this market that had been established for decades, he was very unhappy, but other than that, Tian Changsheng couldn't think of any other way.

If he really wanted to fight with the Han Clan, this would be like hitting a stone with an egg for the Tian family.

"Dad, are you still really afraid of the Han Clan?" Tian Honghui was puzzled, the former Tianchang Sheng was a very bloody person, and never bowed down to any difficulties.

When Tian Honghui was small, he had witnessed many things that Tianchang Sheng had faced up to difficulties, no matter how big they were, Tianchang Sheng was able to solve them in the end, did people lose their fighting spirit when they got old?

"Afraid?" Tian Changsheng smiled miserably, in the past, he was not afraid of the sky, it was through his guts that he created the Tian family's current splendor, it could be said that he had never been afraid of anyone in his life, but now, he was indeed afraid, because the Han Clan not only crushed the Tian family in terms of capital, even in terms of force, the Tian family was no match.

When Tian Honghui saw Tian Changsheng nod his head, it felt like he was hallucinating, but it was the first time he had seen Tian Changsheng so powerless.

"Dad, our foundation in Cloud City can't be shaken even by the Han Clan, so why are you afraid? And we can join forces with Han 3000, can't we still drive Han's group out of Cloud City?" Tian Honghui said reluctantly.

"You know how I used to let those opponents down?" Tian Changsheng asked to Tian Honghui.

Tian Honghui shook his head.

Tian Changsheng explained, "Once there's no way to crush an opponent in business, I'll think of other ways, I'll use dirty tricks, and right now, the Han Clan is able to deal with us like this, money is only part of strength, there's also the fist, only if the fist is hard enough, can we really stand firm."

"But you have a martial arts school, don't you?" Tian Hong Hui said.

A martial arts school?

These two words made Tianchang Sheng laugh, what was a mere martial arts school? Even the experts he had hired were no match for Di Central, and this guy, who could possibly be even more powerful than Han Giang, how could he beat them with those in the martial arts school?

"The entire Cloud City, I'm afraid I can't find his opponent, if you don't do what I say" Tian Chang Sheng wanted to say something, and took a special look at Tian Ling'er.

Tian Hong Hui's heart sank, although Tian Chang Sheng did not specify, he guessed what he meant by this look from Tian Chang Sheng.

If the Tian family didn't withdraw, it was very likely that it would jeopardize Tian Ling'er's safety in life.

As a father, Tian Hong Hui would never allow Tian Ling'er to face a crisis.

"Dad, there's really no way out?"

"If I had, would I have conceded so easily?" Tian Changsheng asked rhetorically.

Tian Honghui sighed, it seemed that the outcome of the matter was already decided, even Tian Changsheng had conceded defeat, how could he have a better solution?

"I'll make arrangements as soon as possible," Tian Honghui said.

The next day, when the Tian family released the news that they were withdrawing from the Cloud City market, the entire Cloud City instantly exploded, because in most people's eyes, the Tian family represented the highest point of the Cloud City business community, and how could such a large family suddenly withdraw from the business community without a reason.

Many people were incredulous about this matter.

But there were also some who understood the situation and began to speculate whether this matter was related to the Han Clan.

The Han Clan had risen strongly in Cloud City, and if they wanted to become the real powerhouse of the business world, the Tian family was a hurdle that had to be overcome, such as today's sudden withdrawal, which made people suspect that the Han Clan was behind it, and at the same time, it also made more people pay attention to the Han Clan.

Even the Tian family was not a rival to the Han Group, who else in Cloud City in the future would have the qualifications to be on par with the Han Group?

When Han 3000 returned to Cloud City, the first time he went to the Magic City, he had to introduce Qi Hu to Mo Yang, this big guy was now the most powerful expert by his side, and he would definitely inevitably come in contact with Mo Yang a lot in the future.

When Mo Yang saw Qi Hu, he was shocked by his mountain-like posture, and when he learned from Han Qianqian about the way Qi Hu had been trained since he was a child, it shocked Mo Yang even more.

"No kidding, he can really break a tree?" Mo Yang took a suspicious glance at Qi Hu and whispered a question to Han Qianqian.

This was what Han 3000 had seen with his own eyes, so naturally it wouldn't be fake, smiling to Mo Yang, "Why don't you try it and see how strong it is."

Mo Yang shook his head repeatedly, with this big man, even if he couldn't really break the tree, to cripple someone, it would probably be a small problem.

"Right, I'm afraid there's something you don't know yet." Mo Yang said to Han Giang.

"What is it?" Han Qianli asked.

"The Celestial Family, has announced that it has withdrawn from the Cloud City market, and from now on, the Celestial Family no longer has any business in Cloud City." Mo Yang said.

Han Qianqian frowned, the Tian family was involved in all walks of life in Cloud City, and its various branches were even more numerous, so how could it suddenly withdraw from the Cloud City market?

"What's going on, which game is Tianchang Sheng playing." Han Qianqian said in puzzlement.

Mo Yang shook his head, he wasn't sure exactly what was going on, he had only heard some rumors, and said to Han 3000, "There are rumors that this matter is related to the Han Clan, but I'm afraid you'll have to go there and ask yourself what's going on."

Chapter 395

Han Giangli nodded with a heavy expression, how rumors were out there, it was just some gossip after all, to know what things really wanted, he had to go to the Celestial Family himself.

"Lin Yong, you take Qi Hu to buy some essentials and treat him as if he's going to my place." Han 3,000 told Lin Yong, although it wasn't appropriate to live with a grown man, Qi Hu's knowledge of this society was pale, if he were to live alone, there was a chance that something would go wrong and he might not even know how to eat, so until Qi Hu blended in, Han 3,000 could only take him with him.

"Brother Three Thousand, don't worry about going." Lin Yong said with a nod of his head.

"Qi Hu, this place is full of our own people, I'll go take care of some things before I come back." Han 3,000 said to Qi Hu.

Qi Hu was now new to his new surroundings everywhere and couldn't wait to get to know the outside world, couldn't care less what Han Three Thousand was going to do and nodded his head repeatedly.

When Han Marchiang drove to Tianchang's villa, he rang the doorbell directly at the entrance of the villa.

When Tian Changsheng opened the door and saw Han Three Thousand, he wasn't half surprised because he had expected that Han Three Thousand would definitely come looking for him when he found out about this.

"Come in and sit down."Tian Changsheng said.

In the past, when he saw Tian Changsheng, he used to hold his head high, but today, the old man was rickety, as if he had suddenly aged a lot.

After walking into the living room and sitting down, Han Giangli asked, "There are rumors that this matter is related to the Han Clan?"

"Yes, Han Yan came to the house and brought a very powerful expert with her to beat up my new bodyguard, I was worried that not doing what she said would hurt Tian Ling'er."Tian Changsheng explained.

"Wu Feng?"Han 3000 asked.

"That person's name is Diyang, he should be Han Yan's new helper."Tian Changsheng said.

A new helper!

Could it be that this man was even more powerful than Wu Feng?

Han Qianqiang gritted her teeth, the Mi Guo Han Clan's heritage really wasn't something the Yanjing Han Clan could compare to, no wonder they looked down on the Yanjing Han Clan like this.

That alone was not something the Yanjing Han Family could compare to.

Although Han 3,000 didn't know which one was stronger or weaker compared to this Di Central, the entire Yanjing Han Clan was only one Yan Jun, but the Yonagun Han Clan was different, they had more experts.

"Master, you won't blame me, will you? After the Tian family withdraws, it will be harder for you to deal with the Han Clan." Tian Changsheng asked carefully.

Han Qianli shook his head, the current situation was indeed even more unfavorable to him, in the past, there was at least the Tian family that was openly holding Han's group down, but once the Tian family withdrew, Han's group would go even crazier and devour every major industry in Cloud City, it would overwhelm Han Qianli even more, but he would never blame Tian Changsheng.

Tian Chang Sheng was doing this to preserve the Tian family and protect Tian Ling'er, what right did he have to risk the entire Tian family following him?

"Don't worry, I'm not such a small-minded person, and it's wise of you to do so," Han Qianqian said.

Tian Changsheng was shocked, even Han Qianli said it was wise, which meant that the Han Clan weighed heavily in his heart.

"This Han Yan, who exactly is she?" Tianchang Sheng asked, he had guessed that Han Yan might have a relationship with Han 3000, but the Yanjing Han family, had never heard of a woman, so he was very confused on this matter.

"The backing behind her is even more powerful than the Yanjing Han family, you just need to know that staying away from her is good for the Tian family," Han Marchant said.

Since Han Three Thousand was reluctant to say more, Tian Changsheng didn't ask any more questions.

At that moment, Tian Ling'er arrived in the living room, and she, who hadn't even cried in front of Tian Changsheng, had tears in her eyes after seeing Han Qianqian.

When Han Qianqian saw the injuries on Tian Ling'er's face, killing intent emerged, he had thought that Han Yan had come to the Tian family just to intimidate Tian Changsheng, but she had actually done it to Tian Ling'er!

"Han Yan did this?" Han Giangli stood up and walked over to Tian Ling'er and asked.

"It's the woman who came with her." Tian Ling'er couldn't wrap tears in her eyes and finally slid down her cheeks.

Han Qing!

This servant girl was actually so hateful.

From the first time Han Qianqiang had met Han Qing, she had displayed an ignorant and arrogant temperament, but as a servant, she didn't know it.

"Does it hurt?" Han Giangli asked softly.

"En." Tian Ling'er nodded her head and said, "Brother, will you help me take revenge?"

"Don't worry, I'll take revenge for you, give me some time and I'll let you smash that woman's face." Han Giangli said indifferently.

Tian Ling'er's tears welled up like a fountain, she knew that Han 3000 would help her take revenge, and that didn't disappoint her.

"Okay, in the meantime, I'll start practicing my strength and I'll return the favor double." Tian Ling'er said.

The Peninsula Hotel, which had the entire hotel under wraps, Han Yan didn't mind the money at all, to her, this small amount of money would have been better than buying a custom-made bag.

"Miss, the Tian family is still quite sensible, I didn't expect to move so quickly, it seems that old thing Tian Changsheng is still afraid of you." Han Qing said to Han Yan with a smiling face.

This result was not out of Han Yan's expectation, a mere Tianjia was at most an ant in her eyes, would it still dare to fight against her, a giant?

"Next, it's the Weak Water Property, I don't know how long Han Qianxiang, the loser, can last." Han Yan said with a smile.

"Miss, there hasn't been any movement at all from Han Qianqian recently, so she wouldn't be plotting something, right?" Han Qing was confused.

"Of course he won't sit idly by, but even if there's a conspiracy, so what, are these little gestures useful to me?" Han Yan said disdainfully.

Han Qing nodded his head and said, "I don't know what's going on with that woman Jiang Lan, she hasn't brought any useful news for so long, and she actually wants to work with Miss."

Han Yan didn't hold much hope for Jiang Lan, and whether she could bring news or not, Han Yan didn't take it seriously, her attitude was that having news was of course good, but not having it, it didn't matter.

"This woman is interesting, Dad doesn't want me to kill Han 3000, maybe I can borrow her hand to finish the job." Han Yan smiled.

Han Qing looked surprised and asked Han Yan, "Miss, do you also want Han 3,000 to die?"

Han Yan's expression was cold and said, "Of course, only if he dies will he have no chance to smear the Han family, even if I let him change his surname, when I leave Huaxia, he might still call himself Han, is it hard for me to come back later?"

Han Qing nodded in agreement and said, "Miss is so thoughtful, this kind of trash, if not for the reputation of our Han family, how can he live, only by cutting off the grass at the roots can we truly solve this trouble."

"Miss, if you want him to die, I have many ways." Di Yang said at the side.

Han Yan shook her head, it was indeed a very simple thing to want Han Qianli to die, but she had to make sure that Han Qianli's death had nothing to do with her, so that she could give her father an explanation when she returned to Mi.

"Grandpa Yang, don't you know my father's tactics, if Han 3,000's death has anything to do with me, he will definitely be able to find out." Han Yan said helplessly.

Di Yang nodded his head and smiled and stopped talking, as a subordinate, he naturally knew what his boss was capable of, who in the world could hide what he wanted to find out?

Of course, this wasn't absolute, the Earth Central knew that the boss had been trying to find out about the Geocentric Prison for so many years, but after spending a lot of effort, still nothing was found, but this wasn't surprising, after all, many countries had put a lot of effort into this matter, even they hadn't investigated the real information and location of the Geocentric Prison.

Hillside Villa, after returning home after a full day's work, Su Yingxia took off her high heels and rested on the living room's sofa.

He Ting poured a cup of warm water for Su Yingxia and said, "Yingxia, drink some water first, I see you've been so haggard lately, you must be very tired at work."

Su Yingxia nodded weakly and said, "Auntie He, thank you."

"It's all I should have done, what's the thanks for." He Ting said with a distressed face, ever since Han 3000 left, Su Yingxia had been working herself more and more, He Ting knew that she was deliberately using work to paralyze herself to avoid missing Han 3000.

Chapter 396

In addition to her busy schedule at work, Su Yingxia had something else that made her feel even more annoyed.

Jiang Lan had been incessantly asking her about Han Marchant for the past few days, and this excessive concern made Su Yingxia feel very strange.

How selfish she was, as a daughter Su Yingxia knew very well, and all along, no matter how many benefits Han Qianli brought to the Su family, Jiang Lan thought that Han Qianli owed it to the Su family,

and it was only right that the Su family got it, so why would she take the trouble to care about Han Qianli?

This question made Su Yingxia rack her brains to figure it out, but she kept her mouth shut about Han Qianli's matter.

In the master bedroom on the second floor, Jiang Lan's patience was about to be exhausted, and not finding out anything about Han Qianli at all for so many days made her very anxious inside.

"Su Guoyao, today, no matter what, you have to cooperate with me to pry Yingxia's mouth open, I want to know what Han Qianxiang is doing." Jiang Lan sternly said to Su Guoyao.

Su Guoyao had already asked Jiang Lan more than once what exactly she wanted to do, her excessive concern for Han 3000, not only Su Yingxia was suspicious, even Su Guoyao also suspected that her purpose was not pure.

"Jiang Lan, what do you have to contest this matter for, what Han 3000 does has nothing to do with you, and even if I let you know, what can you do to help?" Su Guoyao said helplessly.

"I want you to do what I want you to do, where is all this nonsense, after you come downstairs later, cooperate with me properly, otherwise, from today onwards, you don't want to take a step out of the house." Jiang Lan threatened.

"How can you you restrict my freedom of life." Su Guoyao said angrily.

"What kind of freedom do you talk about when you're such a trash, can you contribute to this family in the slightest?" Jiang Lan coldly said.

"I'm at least your husband, can you stop calling me a piece of trash in one breath." Su Guoyao said.

Jiang Lan smiled coldly and said, "Then you do something useful out ah, give me a reason not to call you a trash."

Su Guoyao sighed heavily, he had no status at all in this family, and was eaten to death by Jiang Lan. Of course, Su Guoyao himself is also clear that it's because he doesn't have the ability, but skill is not something that you can have just because you want to, and he resigned himself to his fate long ago, Su Yingxia now has his own company, he just needs to enjoy his blessing, why should he still be gloating himself.

"Okay, okay, you can call it whatever you like, as you like." Su Guoyao said.

"I originally thought Han Qianqian was already lame enough, I didn't expect you to be even more lame than him, follow me downstairs." Lan Jiang rebuked.

The two of them went downstairs together to the living room, where Su Yingxia was closing her eyes.

Jiang Lan sat directly beside Su Yingxia, before speaking, Su Yingxia was the first to say, "Mom, don't dwell on what 3000 did, I won't tell you."

Jiang Lan's eyes flashed with a trace of impatience, Su Yingxia's attitude was tough, biting this matter too hard, but she had to find out about it, how else could she work with Han Yan and how could she let Han 3000 die?

"Today those sisters of mine, introduced you to a lot of blind dates again, they said that Han 3000 is a piece of trash who doesn't deserve your heartbreak, they hope you can get over this sooner, they also said a lot of bad things about Han 3000, do you have any idea how I felt when I heard those words, do you think I don't want Han 3000 to fight for me?" Jiang Lan gritted her teeth and acted as if she was extremely angry.

Su Yingxia smiled speechlessly, in the end, Jiang Lan was still trying to save face, in her life, sooner or later, she would be planted in this matter.

"Mom, why do you care what they say, these people will find an opportunity, of course they will fall into the well." Su Yingxia said.

"You're going to remarry Han Qianli in the future, he's at least my son-in-law, how can I not care, should I just let them say that Han Qianli's not?" Jiang Lan glared at her and continued, "And now that the Tian family has withdrawn from the Cloud City market, it's disastrous news for Han 3000, he has even less chance to win against Han Yan, how can I feel at ease when you don't tell me anything."

Su Yingxia was shocked for a long time after learning about the Tian family's sudden withdrawal, and was well aware of the impact this matter would have on Han Three Thousand, the Han Clan was already a fierce tiger, and now without the Tian family's restraints, it was bound to become even more rampant, she was also a little worried about Han Three Thousand's current situation.

At this time, Su Guoyao sighed at the side and said, "Yingxia, if you really want to remarry Han Three Thousand, you must find a way to help him through this crisis, we are all family, what can't we say, it's better to think of a solution together than for him to be alone."

Looking at Su Guoyao's sincere expression, Su Yingxia's psychological defense was somewhat loose, she could ignore Jiang Lan's attitude because Jiang Lan was selfish and would never simply do what was best for Han Qianqian, but Su Guoyao was different, if even he thought so, perhaps it would be better to say it and think of a solution together.

Seeing Su Yingxia began to hesitate, Jiang Lan said while the iron was hot: "We are so worried, it's for the good of you and Han Qianqian, in fact, Mom has also figured out that if it wasn't for him, our family wouldn't be here today, so I sincerely want to help, and you love him so much, is there any other way I can do it besides accepting him? I can't let my own daughter marry someone she doesn't love."

Su Yingxia's face raised a faint smile and said, "Mom, I'm happy that you think so."

"What's the use of being happy, it's questionable whether or not Han Qianqian can save herself now, I see you, ah, remarrying sooner or later." Jiang Lan said.

Su Yingxia wrinkled her nose and said, "Mom, 3000 has a plan now, we have to trust him, he will be able to get through this difficult time."

"What's the plan, you can tell us instead, so that we can feel more at ease," Jiang Lan said.

Su Yingxia hesitated for a moment and said, "The Han Group has recently stared at the city village and wants to transform it, 3000 is currently secretly acquiring the property in the city village, he intends to buy the entire city village, this way, the Han Group's plan will be defeated, and the influence of the Weak Water Property in Cloud City can definitely become bigger."

Jiang Lan looked shocked.

Han Three Thousand was actually going to buy the entire city village!

Regarding the reconstruction of the village in the city, Cloud City had made a lot of noise and had many real estate companies that had taken a chance, Jiang Lan knew that it would cost a very large amount of money and she simply couldn't see what the value and significance of doing so was.

"Even if he buys it, so what?" Lan Jiang asked in puzzlement.

"Three Thousand didn't give me a detailed explanation either, but I guess he wants to block Han's development in addition to boosting his own reputation, right, branding is very important, and if Weakwater Real Estate can make this sign, it will be able to get more support." Su Yingxia speculated.

"Blocking the Han Group's development, now that the Heavenly Family has withdrawn, is it useful to have just a city village?" Jiang Lan said.

This was what Su Yingxia was worried about, who would have thought that the Tian family would suddenly do this, without the city village, but the Han Clan was able to devour more industries, and from this point of view, the influence of the Weak Water Real Estate would only become more and more incomparable to the Han Clan.

"I don't know, I guess 3000 will have the next step," Su Yingxia said.

Jiang Lan saw Su Yingxia's troubled expression, so she should have already told her everything that Han 3000 had told her, so she didn't continue with her condescension.

"Don't worry, he should be able to solve the trouble." Jiang Lan's expression became noticeably lighter and penetrated with a hint of indifference, a stark contrast to her attitude just now.

But Su Yingxia didn't notice this and was only very worried for Han Qianqian.

After Jiang Lan went upstairs and returned to her own room, her expression became extremely cold, and she was qualified to work with Han Yan when she finally inquired about Han 3000.

"Han Qianqian, this time, I'll see how you die, you're not qualified to fight with me, Jiang Lan." Jiang Lan said to herself.

After leaving the Celestial Family, Han Three Thousand went to the city village to learn about the recent situation in the city village from Yang Xing, and after learning that everything was going smoothly, Han Three Thousand went back to his rented room.

As soon as he was about to pull out the key to open the door, Yang Meng, who was across the door, opened it as if she was deliberately waiting for him.
