

The Amazing Son In Law Chapter 5087

Li Yalin also felt that it was indeed indecent to sit in this empty pool.

So, he asked embarrassedly: "Then... how can I change clothes for me..."

charlie looked at Fei Kexin on the side and said, "Miss Fei, please help Detective Li to solve this problem."

Fei Kexin nodded and said hurriedly: "There are a lot of work clothes for scientific researchers here, I will help Detective Li get a set!"

charlie nodded and said, "Okay, it's hard work, Miss Fei."

Fei Kexin turned around and left, and soon brought back a set of work clothes to Li Yalin.

After Li Yalin wrapped his work clothes, he followed charlie to the lounge next door.

charlie handed Li Yalin a bottle of water, and after he took it, he couldn't wait to drink the whole bottle of water, and then wiped it off, and couldn't help saying: "Young Master Wade, thank you for your life-saving me. ...I, Li Yalin, won't say anything, but since you saved my life, if you need my Li Yalin in the future, I will definitely die!"

charlie nodded and said, "Don't say it, I really need you for something."

Li Yalin bowed his hands respectfully: "Master Wade, please speak!"

charlie stretched out two fingers and said lightly: "Two things, first, after you go out from here, you must not mention that you have seen me to anyone, if anyone asks, especially the An family, you say you I don't know, but I was sent out after the Fei family's freezing center woke up."

Li Yalin asked in surprise: "Master Wade, you saved the An family, why haven't you met them yet?"

charlie said lightly: "This is about the second thing I want to talk to you about next. I'll talk to you in detail later."

Li Yalin nodded and said with a headache: "Master Wade, if the An family finds Miss Fei and asks about it, how are you going to explain it?"

charlie said: "You don't have to worry about this, I will arrange it myself, you just need to keep your mouth shut and don't let anyone know, including your wife and daughter."

Li Yalin agreed without hesitation, and said, "Young Master Wade, don't worry, I will never tell anyone."

After that, he asked Charlie, "Master Wade, what's the second thing?"

Charlie said: "The reason why I didn't immediately recognize the An family is because these assassins have very unusual backgrounds. As far as I know, this is a mysterious organization that has existed for at least two or three hundred years or more. It's just the dead soldiers who have been reared for nearly 20 generations, and I don't plan to meet my grandparents in my real identity for the time being until I find out where they came from."

Li Yalin asked inexplicably: "A mysterious organization for hundreds of years? I have been a police officer for so many years, and I have never heard of such a thing..."

The Amazing Son In Law Chapter 5088

Charlie said: "I once heard my father's old subordinates say that when my parents died, they were besieged by a group of dead men. After they succeeded, they all bit the venom and died on the spot. The gang of dead soldiers who arrived are the same, although it has been 20 years since the two incidents, but considering that the other party is an organization that has lasted for hundreds of years, I think these two incidents are likely to be committed by the same group of people."

Li Yalin asked curiously, "Master Wade, how did you learn that this organization has a history of hundreds of years?"

Charlie said: "I caught a live victim and asked some information about the dead man from his mouth."

Having said that, Charlie told Li Yalin all the information he got from the "May 47" at that time.

After Li Yalin heard this, he was speechless for a long while in shock.

He murmured: "For hundreds of years, many countries in this world have ceased to exist, and there have been countless global wars and disasters in the middle. Two world wars and the Spanish flu have affected the world, in addition to In addition, Europe has fought numerous wars, from the Seven Years War to the Napoleonic War, the Franco-Prussian War, and the birth and disintegration of the Soviet Union. In the past two or three hundred years, the whole world has become a mess, and many countries and regimes are unable to protect themselves. How does a mysterious organization continue for so many years..."

Charlie said: "This is also a question I have always been curious about. This organization has not only existed for hundreds of years, but their strength has been

developing and growing in the past few hundred years. Those great changes in the international situation you mentioned, talk to them about it. It doesn't seem to matter all the time, and that's what surprises me the most."

With that said, charlie looked at Li Yalin and said, "Your situation is rather special, the people who have seen you in this organization, except for the one I left behind, all died, and your appearance on the scene that day is itself This is an accidental event, and it is definitely not in their predetermined plan, so I believe that the organization will not pay attention to you for the time being, and you have been a detective for so many years, and you must be excellent in clue tracking, so I hope that after you return to real life, you can help me find out the relevant clues about this organization."

Li Yalin nodded and said without hesitation: "This is no problem. Whether it is out of repaying your life-saving grace or out of my friendship with the An family, I will do my best."

Speaking, he couldn't help sighing and said, "Unfortunately, I am no longer a detective now. If I still have this identity, the police intelligence system can bring me a lot of help."

charlie waved his hand and said very seriously: "Don't say that you are retired now, even if you are not retired, you must never use the intelligence channels within your American police to investigate this matter. After all, the threshold for American police is too high. Low, such a huge organization, even Anjia and the others can infiltrate, and they directly turned the informant into Anjia's daughter-in-law. I believe that the US police, the FBI, and even the CIA have them. Once you investigate them through the police's internal intelligence channels, they will definitely know about it as soon as possible.",

"Yes." Li Yalin sneered and laughed at himself: "Since Jamura's accident, I feel that my judgment is no longer as accurate as before."

After saying that, he looked at charlie and said again, "You should have done the matter of Jamura, Master Wade, right?"

charlie didn't hide it, nodded calmly and said, "Yes, the crimes of this group of people are indescribable, and the most damning thing is that they even aimed at the people around me, of course I won't let it go."

Li Yalin nodded and sighed: "I have been thinking about which link I ignored, but I never guessed your body."

As he said that, he laughed at himself, and quickly said: "By the way, Mr. wade, where is the job you caught now? I want to find a chance to meet him and see if I can ask any details."

charlie said: "I asked the people from Wanlong Palace to take him to Syria. During this time, you can go home to meet your wife and daughter first, and then go to Syria to meet him when the time is convenient."

"Wanlong Palace?" Li Yalin asked in surprise, "Young Master Wade has cooperation with Wanlong Palace?"

"No cooperation." charlie said lightly, "But Wanlong Palace is mine now."

The Amazing Son In Law Chapter 5089

When Li Yalin heard this, he was stunned for a while, and he couldn't come back to his senses for a long time.

Because of his previous career, he was very familiar with Wanlong Palace, and he even knew that Wanlong Palace had invested a huge amount of money to build his own permanent base in Syria.

For a mercenary organization, if they can have a permanent base, they can basically lead other similar mercenary organizations by a large margin.

This kind of mercenary is more disgusting to the law enforcement agencies of various countries than the gray forces like Don Albert.

The vast majority of mercenary organizations are like rats crossing the street in all countries of the world. They can only survive sneakily, and they will never dare to show their signs in a grand manner, unless the organization can cooperate deeply with the government.

Although there are many mercenary organizations in the United States, except for a few organizations that cooperate with the White House, specialize in helping the White House, and act as cannon fodder, the rest are basically hidden in the United States. Most of them are composed of American veterans. Being attacked by the local police, you can only live normally in your own country as a single soldier, and then go overseas to pick up tasks.

For example, some mercenary organizations have a total of more than 100 people. Everyone usually has their own identities and jobs to cover up. They pretend to be law-abiding citizens. After receiving the task, they disguised themselves as tourists to leave the country.

Although it is not illegal to break the law in China, but after all, they are armed combatants, so they must be heavily marked in the country, and they must be sneaky.

It is precisely this that restricts the development of most mercenary organizations.

But once a mercenary organization can openly own its own permanent base, it will be completely different.

When Wanlongdian cooperated with Syria, the CIA investigated the reasons and even wanted to intervene to prevent Wanlongdian from developing too fast in Syria and affecting the entire mercenary industry.

But Syria is determined to cooperate with Wanlong Palace, which is said to be related to Hamid, a very influential opposition in Syria. It seems that Wanlong Palace has reached some kind of agreement with the Syrian government forces and Hamed. .

When the news came back, the CIA immediately deduced that within the next two or three years, Wanlongdian would become the most powerful mercenary organization in the world.

Now, Charlie suddenly said that the entire Wanlong Palace belonged to him, which really shocked Li Yalin.

Immediately, Li Yalin suddenly remembered something, and he blurted out: "Master Wade... I remember... There was a news that Wanlong Palace had conquered the Wade family in Eastcliff... Could it be that you released this all? smoke bomb?"

"Yes." Charlie said bluntly: "Before the real enemy appears, I will try my best to hide my strength and keep a low profile. If the outside world knows that the Wanlong Palace has surrendered to the Wade family, this incident will inevitably cause an uproar, and my identity will probably be at that time.

I can't hide it, so instead of doing this, it is better to let the outside world think that the Ye family has been taken over by the Wanlong Palace, and it is not even a cause for fear. As long as the outside world does not pay attention to the Ye family, my identity can continue to be hidden. "

Li Yalin nodded lightly and said, "Since the person who killed your parents and the person who tried to kill your grandfather and grandmother a few days ago probably belonged to the same organization, then you really have to keep your composure and try to hide your edge. Twenty years later, the other party has not given up, and there are probably many hidden secrets behind this incident. If you let them know that you are still alive, I am afraid that the other party will immediately attack you."

"Yes." Charlie said lightly: "I don't like the situation where the enemy is dark and I am clear. Taking advantage of the fact that the enemy is dark and I am darker, it is the top priority to find out more clues about them as soon as possible."

Li Yalin said sternly, "Young Master Wade, don't worry, I will go to Syria as soon as possible to meet the living mouth."

charlie looked at the time and said, "Okay, these are the two things I need you to do, you can leave here now."

Having said that, charlie said again: "By the way, the An family has not left New York recently. They have been staying at the Anbang Building in Manhattan. I suggest you go to see them first, because they care about you very much."

"Okay." Li Yalin said without hesitation: "Then I'll go see them first. Since the outside world doesn't know that I was there that day, then I'll go to the Anbang Building, even if the other party is secretly paying attention to the situation of the Anbang Building, it shouldn't be. You will have doubts about me, after all, my uncle and I have been friends for many years, and our family and An Jiaye are close friends, so it is only natural for me to visit Anbang Mansion."

The Amazing Son In Law Chapter 5090

charlie nodded and said, "They saw me that night, and they knew that you were taken away by my arrangement, but they shouldn't have thought that you would survive. After you meet, tell them that it is a The mysterious person rescued you after giving you an elixir, and then asked Miss Fei to send you to see them. As for who the mysterious person is, you don't know, they will definitely save the person who saved you and save them. The people connected with each other, and the rest, let them guess for themselves."

"Okay, Young Master Wade!" Li Yalin said earnestly, "I wrote it down."

charlie nodded, opened the door, called Fei Kexin in, and said, "Miss Fei, please arrange a helicopter and personally send Inspector Li to the Anbang Building in Manhattan, it is best to contact my uncle in advance, Just say you have something to come to visit, and when I rescued them that day, you led someone to take care of the aftermath at the scene, and they will definitely not be overly wary of you."

Fei Kexin said respectfully: "Okay, Mr. wade, I'll contact the An family now and say hello to them."

...

At this moment.

The Ampang Tower in Manhattan.

The An family members are meeting together to summarize and discuss all aspects of the recent situation.

Mr. An's recent symptoms of Alzheimer's disease are still getting worse, so every day when he wakes up, the old lady and several children have to explain the current situation to him for a long time.

Fortunately, the old man also came here in a storm. Although he has no direct memory of what happened that day, after listening to the explanation from the children, he can immediately understand the current situation.

The An family has not left New York since the accident.

Although they have begun to resume handling various affairs of the family, for the sake of safety, the old man decided to let everyone not leave the Anbang Building for the time being.

Charlie's uncle Olin has always wanted to go to his wife's family to find out. The lover he has known for nearly 20 years turned out to be a killer hidden in the dark, which made it difficult for him to accept, and even wanted to follow this line Investigate in depth.

However, the An family's subordinates quickly sent back a message that everyone in the Dong family disappeared overnight, as if the world had evaporated.

Homula instructed his men to check the assets of the Dong family. After several days of checking, they finally found some information.

Therefore, Homula reported to his family: "The people I sent out investigated and found that the Dong family's enterprise, equity, creditor's rights and all real estate had all been realized before the incident, some were sold, some were Mortgage, in short, they did everything they could to turn all kinds of assets into money."

Olin quickly asked: "Then they are missing, but they always have to take the money away, right? We can always find some clues by following the money."

Homula shook his head and said seriously: "The bad thing is that the Dong family has realized all the assets of more than seven billion US dollars, and they didn't even take a penny away."

"What?" Asher exclaimed, "I didn't take it away?! What about the money?"

Homula said: "Before the incident, they set up a family trust, but they didn't put the money into it immediately. Instead, after our accident, they packed all the assets into the trust, and then disappeared."

Speaking, Homula said again: "It is estimated that after they determine that the mission has failed."

“Fuck!” Asher scolded immediately: “This group of people is really arrogant! The money is not taken away, but is directly put into the family trust. This is obviously just to tell us that they will come back again!”
