

Dragon Husband Chapter Chapter 1902

William thought about it quickly, and realized that he should be in the process of opening the spiritual root, and he would not wake up on his own initiative.

Unless you open the spiritual root and end.

But riding a horse shouldn't be drowned by aura!

If I say this, people will call me Versailles, or is it a joke?

William felt extremely aggrieved. Since he couldn't wake up, he could only face the reality.

He began to open his mouth, ready to take a deep breath.

But when his mouth opened, those spiritual energy instantly filled William's mouth.

Damn happy troubles.

Since he couldn't take a deep breath, William could only adjust his strategy again.

He tried to mobilize the power of the unicorn on his body and let the power of the unicorn devour these auras.

Even, he used all of Huasheng, hoping that Huasheng would also be able to swallow some spiritual energy and help him share his worries.

Fortunately, doing so is somewhat useful.

The spiritual energy in front of William's eyes was being swallowed by William at a speed visible to the naked eye.

He finally got a chance to breathe.

However, William's heart was not slack.

He knew that this was just the beginning, far from the end.

Spiritual energy is still coming out.

And his own body, the power of the unicorn and the metamorphosis, always have a moment of fullness.

At that moment, will the excess aura overwhelm him again?

William felt uneasy in his heart, but he could only bite the bullet and continue to wait.

Time passed minute by minute, and I don't know how long it took.

William only felt that his spiritual platform began to swell.

He knew right away that it was about to be saturated.

The spiritual energy in front of him has actually been consistent with William's sucking speed.

Now to be broken.

How to do?

When William was thinking about it, he realized that Hua Sheng couldn't move anymore.

It's like a pond that keeps pouring water, and now that the water is finally full, it's about to overflow.

Hold on!

William could only pray silently in his heart, hoping that this was also the critical point of spiritual energy.

As if hearing William's prayer, the spiritual energy at the scene really stopped growing at a speed visible to the naked eye.

Seeing this scene, William was overjoyed!

Reaching the critical point!

Next, as long as the remaining spiritual energy in front of you is absorbed, it should be over.

Opening the spiritual root is too difficult!

William's eyes filled with tears, and he hurriedly tried his best to suck up the spiritual energy in front of him.

Finally, the last bit of azure light was swallowed by William in one breath.

William's spiritual platform at the moment has swelled to an unbelievable level.

As if a little more spiritual energy entered, the spiritual platform was about to explode.

William felt this, and secretly called it a fluke.

So lucky!

Should be able to wake up.

According to William's current estimation, the aura he had sucked before was too much.

The spiritual roots that are opened up must be at the level of spiritual mourning at least.

Otherwise, it would be really unbalanced.

Just as William was thinking about it, he found that the surrounding environment was still the same.

There was no sign of waking up at all.

Even more dark and profound.

In William's heart, there was an uneasy premonition!

Not right!

What's wrong!

And where exactly, William didn't think about it for a while.

Just like the brain relaxes after eating, it will take time to turn it up again.

The surrounding environment is getting darker and quieter.

William's unease became stronger and stronger.

Where is it!

William began to carefully cover the opening of the spiritual root this time.

Soon, William's brows furrowed deeply.

The uneasy premonition in my heart has reached its peak.

I got it!

William finally thought of the place he left out!

Damn it!

Spiritual root medicine ah!

Before opening the spiritual root, William took the spiritual root medicine.

However, so far, the magic root medicine has not worked.

According to Su Emei, the Spiritual Root Medicine can forcibly alienate the Spiritual Root of a level!

It's no wonder that the opening of the spiritual root is not over yet.

William was keeping a dog in his heart!

I thought I had finally passed through hell.

Never thought that after going through hell, there is still a purgatory mode!

Treading the horse Su Emei, you didn't tell me that the spiritual root medicine should also be counted in the opening of the spiritual root.

William really scolded mother in his heart!

He thought that since the elixir of spiritual roots was so miraculous, it must have been directly upgraded by a level.

Where can I get...

William was suffocating, and suddenly felt that this dark world of his was shocked!

coming!

It belongs to the purgatory mode brought by the magical medicine, and it is estimated that it is coming!

William didn't even think about it when he suddenly felt the wind blowing around him!

And it's the kind of storm that erupts in place in an instant!

In an instant, the light of Qing Bi illuminates this side of the world!

William was stunned on the spot!

Reiki, come so fast!

It doesn't come out as gently and softly as before.

But in a brutal and fierce way, it appears at once, no matter if you can bear it or not!

And this time, the spiritual energy was not the same as before, which made William feel a little bit cold.

The current spiritual energy is like a trace of sparks of sparks, and it makes people feel a strong burning sensation when attached to the body!

The strange scene in front of him made William's heart cry badly.

It's as if the aura has gone crazy, from the docile little sheep before, to the alienated black devil sheep now!

Disaster!

These two words suddenly appeared in William's mind!

Yup!

Isn't this a calamity!

Reiki disaster!

Before William estimated that he should be able to reach the spiritual level.

Now, because of the effect of the spiritual root potion, forcibly upgrading to another level, isn't it a spiritual disaster!

However, William clearly remembered that Su Emei said that the spiritual root of the spiritual disaster level has been sealed by some powerful people.

William was speechless and asked the sky.

What's the matter!

In fact, what William didn't know was that this was really a coincidence!

The spiritual root of the spiritual disaster level was indeed sealed by some great powers who jointly formulated the laws of heaven and earth.

However, the magic root medicine that William obtained is also a rare magic medicine in the world!

Forcibly upgrading to one level is also considered to be impacting the laws of heaven and earth!

There has been no conflict before, because let alone spiritual disasters, spiritual roots at the spiritual level have not appeared in thousands of years.

Now, the evildoer Wiliam has come out.

With his own ability, he broke through to the spiritual root of the spiritual level.

Then by chance, there was the blessing of spiritual root and magic medicine, so the two laws began to conflict.

As for the result of the conflict, is Wiliam's body dead, or if he breaks the rules of the map in one fell swoop to open the root of spiritual disasters, who knows the answer!

Anyway, Wiliam, who is now fully fed, has wet eyes.

Don't play like this!

let me out!

I want to go home!
